The Atlantic Pulp and Paper Company, Limited, has been organized in order to take advantage of the unrivalled facilities for the manufacture of pulp and paper at New Richmond, on the Baie des Chaleurs, and by its charter, has powers of the fullest description. It is confidently believed that pulp and paper can be more economically manufactured there than any other place in America.

The essentials to the success of such a concern are:

1. Cheap and unlimited pulp wood;
2. Adequate water power cheaply developed;
3. Pure water for the manufacturer;
4. Cheap labor;
5. Low transportation charges;
6. Efficient management.

It will be seen that the facilities possessed by this Company assure a point of cheapness in the production of paper never attained before, while the situation of the mills on the Atlantic seaboard makes it possible to ship to all foreign ports by water without trans-shipment. As the Company proposes to confine itself almost exclusively to the export trade, it will readily be seen that this gives it further advantage over all other companies.

1. **WOOD SUPPLY.**—No paper mill in Canada has greater advantages in point of situation. Many companies do not own their own limits, being entirely dependent on outside purchases, and subject to fluctuations of supply and price. Other companies owning limits have to transport their wood from great distances by water or rail. Thus we find mills at Merriton and Niagara Falls are bringing their pulpwood from Central Quebec. Some prosperous paper companies even buy their pulp in the manufactured state. The mills of the Atlantic Pulp and Paper Company, Limited, will be built about two miles from the limits, where there will also be a very large mill-pond capable of holding several million logs. The Little Cascapedia River flows from end to end through the center of the limits, and the large number of tributary streams does away with the greater part of the hauling usually entailed in getting out pulp wood, thereby greatly decreasing the cost.

2. **WATER POWER.**—Mr. George F. Hardy of New York, the foremost American authority on this subject, has made a thorough examination of the water power that can be developed on the Little Cascapedia River at a point immediately adjoining the proposed mill site, and his report shows that sufficient power can be developed to run mills of even greater capacity.

This report can be seen at the office of the undersigned, or at any office of the National Trust Company, Limited.

3. **WATER SUPPLY.**—Pure and clean water is one of the most important factors in connection with pulp and paper-making. The bed of the Little Cascapedia River is rocky, and owing to its crystal-like clearness and purity the water in the river is suitable for making the finest grades of paper without the expense of filtering, which is almost invariably required at other mills.

4. **COST OF LABOR.**—The labor employed in the mills and woods cost less than probably any other American mill, as far as known, as competent men in this section of the country, on account of the cheapness of living, ask very low wages.

5. **TRANSPORTATION CHARGES.**—The shipping facilities of this Company are certainly unequalled by any similar enterprise in Canada, the situation of the mills on the Baie des Chaleurs giving every possible advantage for export trade, which is probably the most profitable field. Arrangements can be made with Atlantic steamship lines to run steamers from New Richmond for eight months in the year, as required. During the winter months favorable winter rates have been arranged with the Railway Companies to St. John and Halifax, New Richmond being on the line of the Atlantic and Lake Superior Railway, which will be connected with the mills by a siding.

6. **MANAGEMENT.**—The Company has been fortunate in securing the services of Mr. Wm. M. McIntyre, formerly Mechanical Superintendent with the Laurentide Pulp Company, Limited, who will act as Manager of the construction and operation of the mills. Mr. McIntyre has had over twenty years' experience in pulp and paper-making, and is regarded as an authority on the manufacture of pulp and paper.

PROPERTIES

The properties and limits acquired by the Company contain about three hundred and two square miles, or one hundred and ninety-three thousand two hundred acres, more or less. The wood is principally spruce, and there is also a large quantity of cedar, pine, birch, balsam, balm of Gilead, and poplar. The Company has reports on this property made by five different expert Rangers, acting independently. Copies of these may be seen at any office of the National Trust Company, Limited, or at the office of the undersigned.

The following is an extract from one of the reports:

"I have been working in the lumber woods for twenty years or more, and have traveled and examined limits in the State of Maine, New Brunswick, and Quebec, and worked in Wisconsin and Minnesota, and I am sure this is the best pulp limit I have ever seen or traveled over."

On the basis of any one of these reports a conservative estimate shows that there is sufficient pulpwood now on the limits to supply the proposed mills for more than 65 years. As spruce wood will replace itself in from twenty-four to thirty years, it will be seen that there is sufficient wood on the limits to afford a perpetual supply to a mill double the capacity of that now contemplated.

The freehold property consists of twenty acres where the saw mill, dwellings, and office are situated, and 356½ acres on the bank of the Little Cascapedia River, where it is proposed to build the Pulp and Paper Mills.

THE PULP AND PAPER MILLS

It is proposed to erect—

A Paper Mill with a daily capacity of 54 tons.
A Ground Wood Pulp Mill with a daily capacity of 50 tons, and
A Sulphite Pulp Mill with a daily capacity of 40 tons.

Mr. George F. Hardy has estimated the cost of erecting the Pulp and Paper Mills and of developing the water power at $950,000. The balance from the sale of the Preferred Stock will be sufficient to complete the payments for the limits, water power, saw mill, etc., provide working capital, and leave a substantial balance for contingencies.

THE SAW MILL

There is on the property a saw mill, equipped with the latest improved machinery, capable of turning out from 35,000 to 40,000 superficial feet of sawn lumber in ten hours, and is equipped with all necessary power, gearing, shafting, etc., for the installation of another saw, which would double the capacity.

MARKETS

The markets will be chiefly foreign, including the Eastern States and Great Britain. In view of the expected advances in the price of paper in the Eastern States it is probable that the greater part of the output will be marketed there. Situated as the mills will be on the seaboard, paper can be laid down in Liverpool and New York, duty paid, at such a price as to defy competition.

Freight quotations can be seen at the offices of the National Trust Company, or the undersigned.

ESTIMATE OF BUSINESS AND PROFITS

Estimating the cost of pulp wood at $2.25 a cord, careful estimates made for the Company show that the ground wood pulp should not cost over $5.89 a ton, and sulphite pulp not over $16.00 a ton. The actual cost of newspaper from pulp, estimated at these prices, should not be over $16.94 a ton. This is after making all necessary allowance for depreciation and renewal of plant, and all charges of management and selling.

The following estimate of the annual output of the mills has been prepared by Mr. Wm. M. McIntyre, a practical pulp and paper manufacturer, and is believed to be conservative and well within the mark, and includes allowances for salaries and contingencies:

16,902 tons of newspaper at $37.00 a ton f.o.b. at mills	$625,374.00	
8,294½ tons of sulphite pulp at $30.00 a ton f.o.b. at mills	248,825.00	$874,209.00
Cost of producing same:		
16,902 tons of newspaper, at $16.94 a ton	286,319.88	
8294½ tons of sulphite pulp at $16 a ton	286,319.88	419,031.88
Showing a profit of		$455,177.12
7 per cent on $1,500,000 Preference Stock		105,000.00
Available for Reserve Fund and further Dividends		$350,177.12

The ground wood pulp and the balance of sulphite pulp will be consumed in the paper mill of the Company.

The estimated profits from the operation of the saw mill are not included in these figures, but owing to the enormous quantities of cedar on the limits, substantial profits should be made from the manufacture of railway ties, shingles, etc. The Laurentide Pulp Company, Limited, in its annual report, June 30th, 1900, stated that the Company's saw mill added to the year's profits an amount equal to its entire cost, although it was operated for only three months of the year, and estimated that the future profits from this source would cover the interest on the entire bond issue of the Company.

ISSUE OF STOCK

For the acquiring of the said property, equipment of the pulp and paper mills, the development of the water power, building the railway siding to the mills, and the furnishing of sufficient working capital, the present issue of Preference Stock is made. The whole of the Seven Per Cent. Cumulative Preference Stock has been authorized to be issued on the following terms:

For every two shares of Seven per cent. Cumulative Preference Stock subscribed and paid for, there will be allotted by way of bonus one share of fully paid Common Stock.

The Seven Per Cent. Preferred Stock is Cumulative, carries yearly dividends, and has priority over the Common Stock as to both divide and assets.

After the payment of the dividend on the Preferred Stock, and before any payment of dividend on the Common Stock, a further sum of one per cent. must be applied to a Reserve Fund, under the charter. This fund will be for the further assuring of the dividends on the Preferred Stock.

Application will be made in due course for the listing of the shares of the Company on the Toronto and Montreal Stock Exchanges.

Applications for Preferred Shares should be forwarded to the NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, or Winnipeg; or to SUTHERLAND & CAMERON, Brokers, Ottawa, Canada.
Checks, drafts, etc., are to be made payable to the NATIONAL TRUST COMPANY, Limited.

If the whole amount applied for be not allotted, the surplus paid on deposit will be appropriated towards the sum due on allotment. Where no allotment be made, the deposit will be returned in full.

Further information and Forms of Application can be obtained at the offices of SUTHERLAND & CAMERON, 48 SPARKS STREET, OTTAWA, CANADA, or the NATIONAL TRUST COMPANY, LIMITED, TORONTO, MONTREAL, and WINNIPEG.

We offer the Preferred Stock for sale on the above terms.

No License Granted.

Mr. D. Flynn's application that he be granted a license at Cordova Mines was refused by the License Commissioners of East Peterborough.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

A Quiet Wedding.

On Tuesday afternoon, April 29th, a quiet wedding took place at 25 Louis street, when Mr. Harry Powell and Miss Mary Slade, both of Peterborough, were united in marriage by Rev. D. O. Crossley, of Charlotte street church. The many friends of Mr. and Mrs. Powell will wish them many years of happy and prosperous life.

The Deimel Linen-Mesh Underwear.

Attention is directed to the announcement of the Deimel Linen-Mesh Company's Undergarmets, in another column of the Examiner. The hygiene of these garments, as pointed out by Dr. Deimel, who has devoted much time and money to the perfection of this special high-class underwear, is that the absorption of moisture takes place proportionately quicker with linen than with wool, cotton or silk. The Company has appointed Mr. W. H. Meredith, 393 George street, their sole agent here for the sale of these garments, where a full line of the varying grades will be found.

WELCOME NEWS.

ALL DAY SATURDAY we will allow—

TEN PER CENT. OFF our regular prices on the following Meats:

BEEF.

Our best Sirloin Roasts.
Our best Sirloin Steaks.
Our best Porter House Roasts.
Our best Porter House Steaks.
Our best Round Steaks.

VEAL.

All cuts of veal.

It will pay you to give us a call, as we guarantee our Meats to be the very choicest.

We have this week a choice and full supply of Spring Lamb, and all other Meats in Season.

THE TEMPERANCE-CONSERVATIVE CANDIDATE.

The convention held under the auspices of the Peterborough County Temperance Alliance, yesterday, was greeted with a very small attendance, that is, for a convention of its character, called for so important a purpose.

The ostensible object of the convention was to receive answers submitted to the four candidates in East and West Peterborough, but the practical object was the selection of a temperance candidate, and the result showed that that was the object.

The small attendance showed one of two things — that either the temperance people of the county had little faith in the figure head of the movement for endorsing the Conservative candidate as a temperance candidate, or that they were practically satisfied with the existing conditions.

What are these conditions? The temperance people see that the Liberal Government in the past twenty-five years has made an honest attempt to minimize the evils of intemperance, to regulate and restrict the traffic, with this end in view, and that the efforts of the Government have been to a large degree successful.

The temperance people also see that, according to promise, Premier Ross, has embodied in the statutes of the province, as stringent a prohibitory law as the Privy Council declared the province has power to pass, and that to make sure that popular sentiment was sufficiently strong behind such a law to secure its effective enforcement, he gave the people an opportunity of expressing through the referendum, their will upon the matter. The temperance people, by their apathy, proven by the attendance of a bare two dozen from one of the most populous counties in the province, at a prohibition convention, showed that either they are contented with the condition of things or that, as before remarked, they have little confidence in the diplomatic convenor of the convention, Mr. H. P. Lindsay, the practically political agent of Mr. Miller, the Conservative candidate.

Mr. Lindsay could not have shown the reality of this relation to Mr. Miller and his party more plainly than by his arbitrary and partizan attitude in the chair throughout the proceedings.

With about a dozen persons present he took the chair and the secretary read the answers to questions sent out to candidates. The replies of Dr. Ford and Mr. Anderson of East Peterborough were of the same tenor and they were considered as "paired." Mr. Miller's answers were categorically in the affirmative, and Mr. Lindsay announced that as Mr. Miller's answers were satisfactorily and as Mr. Stratton had not sent in any reply, Mr. Miller was, by Mr. Lindsay's simple declaration, the temperance candidate of the convention, purporting to represent the temperance people of Peterborough county, and though no vote was taken, and later in the meeting Mr. Lindsay, in answer to a question, said that Mr. Miller was the temperance candidate of the convention, whose candidature was to be promoted by committees of the Alliance, and nobody said him nay.

The grounds of Mr. Lindsay's rejection of Mr. Stratton's answers, which were published in the Examiner Tuesday, were so frivolous as to show a partizan bias. He said Mr. Stratton's reply was personal and therefore should not be considered. It was no more personal than Mr. Lindsay's letter, embracing the questions. Mr. Stratton was not addressed as the "Liberal candidate" or as the "Provincial Secretary," but with the usual address of courtesy employed in correspondence—"J. R. Stratton, Esq." But one excuse is good as another as the wolf of the fable showed when he wanted to make a meal of the lamb.

Mr. Lindsay's party bias was shown all through the meeting. With the least possible waste of common courtesy he applied the cloture to any speaker who made any reference that could, by the greatest stretch of imagination, be construed into anything like approval of the Government's course on prohibition or the referendum, while others could berate the Government without reproof or hinderance. For instance, an opponent of the Government quoted Mr. Marter's stand approvingly in his hostility to the Ross Government on the referendum, and was no checked; but the very next speaker, a Liberal, who was proceeding to point out that Mr. Marter, in North Toronto, was being opposed by a candidate of the party whose leader declared he was hostile to prohibition, was promptly squelched. This is only one instance of many that could be given.

These things are not referred to because of the importance of the chairman of the meeting but to show that perhaps they would furnish some explanation why the great temperance party of Peterborough, at a convention to select a candidate, was only represented by less than a score of bona fide electors. And they allowed a chairman of well known partizan bias, to select, by his own ipse dixit, in the convention, a temperance candidate, without allowing the convention a voice in the selection of the candidate, who was meekly accepted by the convention, which made arrangements for promoting his election; not as "Mr. Miller," as Mr. Lindsay made clear, but as "the temperance candidate"—a distinction which *Mephistopheles* in his least open mood, should consider derogatory to his reputation for candour.

Thus Mr. Miller, the candidate of Mr. Whitney, the avowed enemy of prohibition, becomes Mr. Miller, the temperance candidate.

SPORTING PASTIMES.

LAWN-BOWLING.

Any person wishing to join the Lawn Bowling Club should leave their names with the secretary as early as possible as the personnel of the rinks will be selected very shortly. The adjourned meeting of the members will be held on May 7th, in the Toronto Savings and Loan Company's Board Room.

LACROSSE.

The T. A. S. team, have, the Star says, arranged for Hastings to play here on June 26th, the return game being in Hastings on July 1st.

Mr. E. C. Complin, of town, who is in England just now on a holiday trip, saw the Toronto boys play against Essex the other day. Mr. Complin saw many old friends among the players.

The Galt Reformer says; "Where's Mister McDunnough? He was a broth av a bye. Faith, an' he's in the soup this blessed minute, so he is. The C.L.A. put him there, bad cess to them, along with 'Sox' Clark. He went in wid 'Sox' but didn't come out wid him."

There was a large attendance at the Nicholls oval last evening of Y. M.C.A. players. To-morrow night should see a large turn out. The practice to-morrow night will take the form of a match between a picked 12 and the remainder of the number, even if they exceed by half a dozen. This will give the picked team some hard work. The team will be changed slightly each practice night giving every man a chance to learn the game as well as to obtain some vigorous healthy exercise.

BASEBALL.

St. John's choir boys have dated the Victorias for a game.

The Manager of the Coal Heavers should not allow that baseball league to be organized down along the front without trying to get Peterborough into it. Port Hope, Cobourg, Oshawa and Bowmanville are said to be in line.

WEDDING BELLS.

Mr. John W. Botterill Married to Miss C. H. A. Payne.

The wedding took place in George street Methodist church yesterday afternoon of Mr. John W. Botterill, of Lakefield, to Miss Caroline Helena G. Payne, daughter of Mr. Levi Payne, of the same place. The ceremony was performed by Rev. J. P. Wilson. The bride was attired in a costume of Tuscan taffeta, silk trimmed, with pearls and lace, and carried a boquet of roses. She was attended by Miss D. Bickell, of Lakefield, while Mr. W. H. Garvin acted as best man.

The bride was the recipient of a number of beautiful and costly presents, among which were a purse of gold from the groom and a gold watch from her father.

They left on the C. P. R. on a honeymoon trip to Niagara Falls and points west. On their return they will take up their residence in Lakefield.

BASEBALL OUTFITS are in demand just now. We have a big variety and prices are right.—The Salisbury Co.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

NOW FOR FINE WEATHER.

This week should be a big week's business. The weather will be fine. Housecleaning is at its height, and there are lots of new things you should want, such as New Curtains, New Window Shades, New Carpets, New Mattings, and lots of other little things that you can buy to advantage at this store. Depend on it, you get nothing but dependable goods at this store. Every department is booming now, but never have we had such a big season in Millinery and Dress Goods. We will ask our many customers to leave their orders as early in the week as possible. It will prove more satisfactory to you and helpful to us as well.

PARASOLS

Some late arrivals from fashion's centre include Parasols, and the summer sun isn't too far away to give warning that you will soon need a Parasol or Sunshade. Early visitors here will soon have best choice of a remarkably beautiful assortment of Parasols—plain and fancy, black or colours, with handsome and tasty handles. Prices are exceedingly moderate.

HONEST HOMESPUN

In black and quiet shades of colour is a most excellent material for Skirts, Jackets and Tailored Suits. We have it in the most popular shades, and it is so effective and durable that every lady should invest in it while the present prices last. See them.

SLUMBER GOWNS

Of Sheer White Muslins or Cambric, be-ruffled and be-ribboned, with sleeves and skirts of full length, and made of excellent stuff. Sold ready to wear at about the cost of the goods. They're here in profusion for your inspection.

MR. MILLER THE TEMPERANCE CANDIDATE.

Adopted and Accepted at the Prohibition Convention Yesterday.

QUESTIONS AND ANSWERS.

Mr. Stratton's Reply was not Recognized by the Chairman.

PARTIZANSHIP TO THE FORE.

Mr. Lindsay the Autocrat of the Occasion--He Applies the Cloture Like a Czar--Arrangements Made to Help Mr. Miller's Candidature.

A convention, under the auspices of the Peterborough County Temperance Alliance, was held in the Y.M.C.A. Hall yesterday afternoon. The attendance, by actual count, was twenty five, and when the chairman, Mr. H. P. Lindsay, took the chair, and the proceedings began, only about a dozen were present.

The following were in attendance: Rev. C. L. Thompson, Ashburnham, Rev. Mr. Delve, Rev. J. P. Wilson, Rev. and Mrs. J. McCamus, Lakefield, Messrs. J. S. Martin, Jas. Carey, T.W. Robinson, Frank Adams, Solomon Northey, Smith; R. J. Kidd, William Yelland, Wm. Eyres, Mrs. Jas. Kendrey, Mrs. Geo. Syer, Mrs. Samuel Spence, Mr. and Mrs. H. P. Lindsay, Mr. and Mrs. William Harper, Lakefield, Messrs. G. W. Powell, J. W. Green, Wm. Might, R. Hanbidge, Otonabee, Jordon Crow, Wm. Lee.

Mr. H. P. Lindsay acted as chairman, and Mr. Jordan Crow acted as secretary.

After Rev. Mr. Delve had offered prayer, the proceedings began by the secretary reading the following questions submitted to the four candidates in East and West Peterborough:

Are you a total abstainer?

If elected to the Legislature will you do all you can to secure the enactment and enforcement of legislation prohibiting the traffic in intoxicating liquor for beverage purposes as far as is within the ascertained power of the Province?

Will you also promise to vote for such legislation, no matter which party brings it forward, Liberal or Conservative?

The letter submitting these questions was signed by Mr. H. P. Lindsay, as president, and by Mr. G. G. Pratley, as secretary, whose name was used in that connection without his consent.

ANSWERS TO QUESTIONS.

The first answers read were those of Dr. Ford, the Whitney candidate for East Peterborough. His answer to the first and second questions was understood to be "Yes," and to the third it was "Yes, if it commends itself to my judgment." Mr. Anderson's (the Liberal candidate, East Peterborough) reply to the first question was, "I am, and always was; never tasted strong drink to my knowledge;" and to the second and third, "I will support any good temperance measure brought before the Legislature."

The answers of Mr. Miller, the Whitney candidate in West Peterborough, were, (1), "I am," (2), "I will;" (3), "I will."

Mr. Lindsay remarked that both Dr. Ford and Mr. Anderson had given satisfactory answers. There was no necessity to interfere in the East Riding, but to allow the electors to vote according to their politics. Mr. Miller's answers were satisfactory, and Mr. Stratton had not sent in any reply; so that, Mr. Lindsay said, it remained to adopt Mr. Miller as the temperance candidate, and he was adopted without any dissent, no vote being taken,, but the ipse dixit of Mr. Lindsay, settled the question.

The chairman stated that he had written the secrctary of the Dominion Alliance, in regard to help in the campaign, and it was stated that arrangements could be made for a speaker from the Alliance giving four nights in the riding.

Some others having in the interval arrived, an inquiry was made as to the answers to the questions sent in by Mr. Stratton.

Mr. Lindsay said he had received a long personal letter from Mr. Stratton, which he asserted, did not answer the questions, and as it had been printed in the Examiner, it was not necessary to read it.

The next matter brought up was the question of having all temperance young men put upon the voters' lists.

SACREDNESS OF "PRIVATE" LETTERS

Mr. Powell pointed out that the first question in the pledge was unnecessary, and the others were vague, and he added that Mr. Pratley complained that Mr. Lindsay had put his name to the letter accompanying the pledge without his (Mr. Pratley's) authority. He submitted that Mr. Stratton's letter should be read.

Rev. Mr. Thompson contended that Mr. Stratton's letter was a personal letter, and should not be read.

Mr. Powell, continuing, said that he was not there to defend Mr. Stratton——

Mr. Lindsay—"Drop it."

Mr. Powell being thus silenced,

Mr. Thompson said that Mr. Stratton would object to having a private letter (apparently meaning the one printed in the Examiner Tuesday) read in a public meeting. This closed the incident.

Mr. S. Northey said he would vote against his own brother if he opposed prohibition. He advised them to vote temperance and ignore both Mr. Ross and Mr. Whitney. Sir John Macdonald, who told the truth sometimes and "sometimes he didn't," said we could not have prohibition without we sent temperance men to parliament. He (Mr. Northey) said said he had supported Mr. Ross, but was getting tired of him on this point. He had promised prohibition, and we had not got it. Mr. Marter was the only man in the House who had stood up for temperance. The referendum was "loaded" and he was afraid we couldn't carry it, but he advised every man to vote on the referendum in favour of prohibition and show the politicians that there was a power in the land in favour of prohibition; but if the temperance party split up like they had done in Manitoba we could not carry prohibition.

MR. POWELL'S PLEA FOR UNITY.

Mr. Powell said he did not like politics on this question—politics had come in before they had got hold of it. He suggested that they were wasting time in dividing each other on political lines; it was a mistake to raise questions upon which they could not agree. He hoped there would not to-day be a repetition of the last meeting. As to Mr. Marter, whose zeal for temperance had been commended by Mr. Northey, he was, Mr. Powell said, opposed by the candidate of the political party from which we could hope for no temperance measures; whose leader was opposed—

Rev. Mr. Thompson objected to Mr. Marter being introduced into the matter.

Mr. Lindsay also interposing, asserted that the proposition was to organize for work.

Mr. Powell was proceeding to speak of the indvisability of hastily adopting a temperance candidate, when Mr. Lindsay autocratically interrupted him with the remark, "The thing is settled."

Mr. Powell asked, "are we to have no light? Are we to be dictated to by the chairman? Mr. Lindsay had said the meeting was called to receive answers and we had not heard all the answers."

Mr. Lindsay said he was surprised to see Mr. Powell, a temperance man, introducing politics, and suggested that the meeting did not want anybody to talk politics and take up time.

Mr. Powell said that did not apply to him. He had never obstructed a temperance meeting. He objected to the present convention because a convention like the first one would set back temperance. We could carry the referendum and the more we talked about it the better.

THE REFERENDUM.

Mr. Eyres was at a loss to know where they were at. He objected to remarks respecting the referendum which were neither wise nor helpful. If they were working in the interests of the licensed victuallers, they couldn't do any better service in that direction than running down the referendum. We should go to work in favour of the referendum with energy instead of telling the world that we could not carry it. Roblin had no right to throw the Manitoba Prohibition Act back to the people because it was passed by a parliament elected on the issue of prohibition. Manitoba had great cause of complaint, but they should have united and repeated their verdict of the general election, and they would have shown Roblin that he could not trifle with a united temperance vote. They were at these conventions, in reference to the referendum, like spoiled children. The day for fixing up the referendum was past and there was nothing left but to unite and vote for it and carry it, which we could do if we were united.

Mr. Harper, of Lakefield, said the referendum was not the question, and he moved, seconded by Mr. J. S. Martin, that the meeting proceed to elect committees and organize for work.

Mr. Powell wanted to know how many were present from the East Riding.

Mr. Lindsay said that there was there no choice between the candidates — both were pledged.

Mr. Powell to Mr. Lindsay — "You say that there is no answer from Mr. Stratton, and that Mr. Miller is to be the temperance candidate, to be helped by these committees?"

Mr. Lindsay—"Yes."

On motion of Mr. Carey, seconded by Mr. Might, an amendment to leave the matter to the Executive Committee, with power to add to their number, was adopted.

Arrangements were then talked over for holding a series of four meetings to be addressed by an Alliance speaker.

Mr. Powell suggested, to save expenses, turning over the matter to Mr. Miller's committee.

Mr. Lindsay—"Mr. Miller is not in question in this matter—only temperance."

AS TO WAYS AND MEANS.

Mr. Powell—How are we to meet the expenses?

Mr. Lindsay—By collections.

Mr. Powell—Will we get good meetings by charging admissions?

Mrs. Kendry said the speakers who were talking as they had been were talking rank heresy to the Alliance. We were carrying out the findings of the Toronto convention. She was sorry to see Liberals taking the stand that was being taken. Two thirds of the Toronto convention were Liberals, but we were not talking about parties. She was afraid she was talking politics, and proceeded to say that the convention at Toronto appointed a committee to wait upon the Government to ask a modification of the terms of the referendum, with the understanding that every member who would not vote for these changes should be a "marked man." Mr. Powell should have been at the convention.

Mr. Powell said he was prevented by a business engagement, and added that there seemed to be a disposition to misinterpret everything he said. He hoped that they would give him credit for some consistency. As to expense, he wanted to see the temperance people save their money for the referendum campaign.

Mr Lindsay—"If the referendum is carried, it won't be worth a pinch of snuff."

Mr. Eyres objected to the chairman saying the referendum was no good. Mr. Stratton and the Government were pledged to enforce prohibition, if the people showed through the referendum that they wanted it, and their pledges were as good as those of Dr. Ford or Mr. Miller. The only applause during the meeting followed this statement.

Mr. Might questioned the consistency of temperance men who would refuse to vote for a total abstainer.

THE HOUSE DIVIDED.

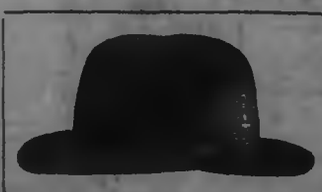
Mr. Yelland pointed out the inconsistency of temperance men voting for a man who was a supporter of the party whose leader was opposed to prohibition. If they voted to put out a government that has given us all the temperance legislation the province ever had, and put in a Government opposed to prohibition, where would they stand? A former speaker said that two-thirds of the convention at Toronto were Liberals. The object was to make Tories of them, and from that party we never could hope for any temperance legislation. When the temperance people were struggling to enforce the Scott Act in Peterborough, and were getting half the fines to help them in their work, two of the bitterest Conservatives in the county had gone to Ottawa, and got the law changed so that the temperance people were deprived of a share of the fines, and they had to put their hands in their pockets and ——

Here Rev. Mr. McCamus interrupted the speaker, and intimated that he would withdraw if such talk were continued.

Mrs. Kendry—These gentlemen who have been speaking in this way are not members of the Alliance.

A discussion, or rather, squabble, ensued over the question as to whether or not those who had responded to the invitations given from church pulpits to "all temperance people" to attend the convention, were entitled to be present or not, and the matter of eligibility having been narrowed down to Alliance members, about one-half of those present withdrew.

The convention almost immediately adjourned, a meeting of the Executive to be held afterwards.



NEW HATS

For Spring, 1902.

Enlargement Farrow's Point Canal, $26,000.

Gathering information in regard to Railway Commission, $1,400.

Further amount required Royal Military College, $10,580.

Medals, $8,000.

SALVATION ARMY.

Captain Lacey, an Earnest Worker in Hamilton, Ont., Endured Awful Pain—His Patience is Rewarded at Last.

The life of an officer in the Salvation Army is never a bed of roses.

No man or woman has a place in this wonderful organisation who is not prepared for hard work.

There is no room in the Army for those who are afraid of hunger, exposure or of hard work seven days in the week.

It is quite natural then, that many of these devoted men and women find themselves devoted men and women find themselves very much run down and the victims of many forms of disease. Captain Lacey of Hamilton than whom there is no more self-sacrificing officer in the service of the Salvation Army in Canada, was tortured for eight long years with Dyspepsia.

He exercised the greatest care possible in his diet, and did everything in his power to correct the trouble, but to no purpose.

He used many medicines and treatments, some of which gave him a little temporary relief, but none gave him a permanent cure.

At last, by the advice of friends, he began a treatment of Dodd's Dyspepsia Tablets, and the results in his case were simply marvellous. The first dose gave him positive and instant relief, and before the first box was completely used he was almost entirely cured.

He can now eat anything he cares to without the slightest unpleasant consequences, and his general health is very much improved.

It is not often that such a small quantity even of Dodd's Dyspepsia Tablets will make a complete cure of a case of eight year's standing but Captain Lacey's careful living no doubt very much assisted and facilitated the treatment.

Captain Lacey's experience is only one of a great many, and it is conspicuous only on account of the exceptional severity of the case, and the remarkable rapidity of his recovery through the use of Dodd's Dyspepsia Tablets.

A Bad Break.

"How many pieces were in that dinner set you gave your wife?"

"About a thousand now that the hired girl has had a crack at them."

Degrees of Sense.

There is "fine sense" and "coarse sense,"
Each good in its way,
But the man who has horse sense
Knows when to say "Neigh!"

A WARNING TO BACKACHE SUFFERERS.

Backache may strike you at any time. Comes when you least expect it. Comes as a warning from the kidneys.

A sudden twitch, a sudden pain. The Kidneys cause it all.

If you don't heed the warning, serious Kidney Troubles are sure to follow.

Cure your Backache by taking

DOAN'S KIDNEY PILLS.

There is not a Kidney Trouble from Backache to Bright's Disease that Doan's Kidney Pills will not relieve promptly and cure more quickly than any other kidney remedy.

BONUS FOR SHIPBUILDING.

Halifax Carries a Plebiscite to Give $100,000 Toward Project.

Halifax, May 1.—A plebiscite in connection with the proposed steel shipbuilding industry, was taken, and the ratepayers yesterday, by an almost unanimous vote, decided to give a cash bonus of $100,000 toward the establishment of a shipyard on the shores of Halifax harbor. The returns are not all in, but the vote recorded so far is: For bonus 2034, against 147.

The Shipbuilding Bonus.

Ottawa, May 1. — The shipbuilding delegates met Messrs. Mulock, Sutherland and Sir Richard Cartwright in the office of the Minister of Trade and Commerce yesterday. They asked for 10 per cent. on the contract price in the way of a bonus. E. M. McDonald, M.P.P., and H. Crowe represented the Nova Scotia shipbuilders and the other firms represented were the Polson and Bertram of Toronto, and the Longs of Collingwood. The Ministers promised to consider the representations made to them. The delegates asked that something be done this session.

TOBY PAPER APOLOGIZED.

Strong Statement of the Ottawa Citizen Retracted.

Ottawa, May 1.—A few days since The Citizen drew attention to the change in the Provincial law, under which the Local Master in Chancery was substituted for the County Court Clerk as a member of the Board of Registrars in Ottawa. Both officials happen to be Liberals, but The Citizen indulged in some very strong language over the matter, and alleged that the change was made for party purposes, the Clerk of the County Court being too fair-minded a man to be allowed to remain. Mr. W. L. Scott, the Local Master, thereupon brought an action for libel against The Citizen. Yesterday morning that paper publishes an apology and endeavors to explain that it never meant to reflect upon Mr. Scott's character.

To Tour the World.

Ottawa, May 1.—Hon. William Mulock, after the coronation services, will complete a tour of the world, returning to Canada by way of India and Japan.

Jury Viewed the Body.

Hamilton, May 1.—An inquest was opened yesterday morning on the death of Robert Murray, the express messenger, who was killed in the pitch-in on the G.T.R. Tuesday night. The jury viewed the body, which was not got out of the wreck till 1 o'clock yesterday morning, and adjourned, to meet on Monday night.

Dangers of Slumming.

Portland, Ore., May 1.—Miss Faith Stewart, a rescue worker among the denizens of Portland's slums, is in a dying condition at her home as the result of an assault made upon her on Sunday night by five men.

Sharp in Custody.

Kingston, May 1.—Young Sharp, who shot Beatrice Holland in Frontenac School, is still in custody. He was before the magistrate and remanded to await indictment by the County Crown Attorney.

Not For a Fortnight.

London, May 1.—Owing to the necessity of consulting the shareholders of the various steamship lines concerned, a definite conclusion of the shipping negotiations is not expected for a fortnight.

Mr. Morgan's Rake-Off.

London, May 1.—The Associated Press understands that J. Pierpont Morgan gets £2,500,000 in stock of the shipping combine in return for his services in organizing and financing the combine.

For Illegal Fishing.

Brantford, May 1.—Two fishermen were charged at the Police Court yesterday morning with catching black bass out of season. They pleaded guilty, and were fined $15 and costs.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25 cents. tu-th

AGAINST FLOUR TAX.

Sir Michael Hicks-Beach Waited on—No Comforting Reply.

London, May 1.—An influential delegation representing the flour importers of most of the large cities of the United Kingdom had an interview with the Chancellor of the Exchequer, Sir Michael Hicks-Beach, yesterday morning, to protest against the taxation of flour, which the delegates said, would seriously affect the extent of their trade. The Chancellor, in replying, pointed out that the deputation represented solely wheat flour, and that it was impossible to consider the grain and meal duties entirely from that viewpoint. It was impracticable in imposing duties on grain to differentiate between grains. The imports of flour compared with the imports of wheat, had grown enormously in recent years and he did not think it was to the benefit of the people of the country. He had reduced the duty on offals, so that the flour importers were now better off than under the late Mr. Gladstone's tax, and he doubted whether they were entitled to further advantages.

Irritating Pimples and Disfiguring Blotches.

They place many young girls at a great disadvantage in life. The only cure is a blood purifier like Ferrozone. It cleanses the crimson flood of poisons and impurities, renews and strengthens it, and makes lots of red corpuscles that manifest their presence by a ruddy, healthy glow in the checks and lips. Ferrozone quickly masters all skin erruptions, builds up broken-down constitutions, and gives to weak, sickly women an abundance of spirits, vitality, energy and beauty. Try Ferrozone, it's all right. Price 50c. per box, or 6 boxes for $2.50, at Ormond & Walsh's drug store.

IMAGINATIVE DR. LEYDS.

Says Republics Will Be Established in Northwest Cape Colony.

London, April 30.—A statement by Dr. Leyds in The Neue Freie Presse as quoted by the Vienna correspondent of The Times. Leyds says the South African peace negotiations must be regarded as having broken down. The demand that the Boers lay down their arms and renounce independence and claim to amnesty cannot be complied with because Cape Colony and other rebels form a considerable portion of the combatants. Leyds alleges that there is profound dissatisfaction in Cape Colony, and asserts the desire for independence will be manifested by the establishment of several republics in the northwest of the colony.

Saved his Laundry Bill.

A customer in our store put it uniquely recently by saying the 25c he spent for a bottle of Four T's saved him an extra quarter in laundry bills. The only thing he was out was the cold in the head. Get a bottle today, if you have a cough or cold; try the same experiment. Sold at Ormond and Walsh's drug store.

SEVEN SHEEP POISONED.

Another Paris Green Outrage Comes From Puslinch Township.

Guelph, May 1.—John Swatzenberger, lot 11, con. 9, Puslinch, was in the city yesterday on a matter of a serious character. For some days past a number of his sheep have taken ill, and within the past day or two two ewes and five lambs have succumbed, while one or two more have been seized, with very little hope of recovery.

From investigation it was found small quantities of paris green, with salt, had been placed in a lane on his property which the sheep frequented.

The paper containing the paris green had been emptied and thrown aside, and every circumstance went to show that it was the work of a malicious person, as the poison could not have got there otherwise.

Is Not This Stealing?

Are not Imitators who Live on the Reputation of the Article They Imitate Thieves?

In Spite of at Least Half a Dozen Imitators, Dr. Chase's Syrup of Linseed and Turpentine has More Than Three Times the Sale of any Remedy Recommended for Throat and Lung Troubles.

Have you ever been imposed upon when asking for Dr. Chase's Syrup of Linseed and Turpentine by being offered an imitation? Many have been and we know of some who have changed their druggist as a result. It is not safe to deal with a druggist who offers imitations and substitutes. An honest druggist will not offend his customers by such questionable methods.

The use of Dr. Chase's Syrup of Linseed and Turpentine has become so universal that on all sides are springing up preparations of turpentine and seed put up in packages similar to Dr. Chase's, with the object of making sales on the reputation of this famous remedy. Is not this dishonourable? Is it not stealing, or even worse? For beside the injury done to the proprietors of Dr. Chase's Syrup of Linseed and Turpentine, the people are being deceived. In some cases no doubt, even life is lost as a result.

Are you being deceived? Have you asked for Dr. Chase's Syrup of Linseed and Turpentine and been given an imitation or substitute? There is no doubt about the virtue of this great throat and lung remedy It is too well known as a thorough cure for bronchitis, coughs and colds, to need further words of commendation. What we want to do is to warn you against imitations. To be certain that you are getting the genuine be sure that Dr. Chase's portrait and signature are on the wrapper.

Dr. Chase's Syrup of Linseed and Turpentine has reached phenomenal sales, because it cures when other remedies fail. It is far-reaching in its effects, curing the cold as well as the cough, and uprooting the most serious forms of bronchitis, asthma, and similar throat and lung diseases. Twenty-five cents a bottle. Family size, three times as much, 60 cents. At all dealers, or Edmanson, Bates & Company, Toronto. 2

MARKET REPORTS.

Grain Markets Are Steady—Liverpool Cables Higher—Chicago Prices Lower

—The Latest Quotations.

Wednesday Evening, April 30.

Liverpool wheat futures are quoted ¾d higher to-day, and corn futures steady to ¼d higher.

Barcoa advanced 6d to-day at Liverpool.

Chicago markets were easier to-day. May wheat closed ½c below yesterday, May corn ⅝c lower, and May oats ⅝c lower.

LEADING WHEAT MARKETS.

Following are the closing quotations at important wheat centres to-day:

	Cash.	May.	July.	Sept.
New York	....	81	81⅛	80⅛
Chicago	74¼	74¼	75⅝	75⅝
Toledo	84½	84	78⅛	77⅝
Duluth, No. 1 Northern	75½	75½	76⅛	74⅝
Duluth, No. 1 hard	78½	....	....	....

BRITISH MARKETS.

Liverpool—Close—Wheat, spot steady; No. 1 Cal., 6s 4d to 6s 4½d; No. 1 Northern spring, 6s 4d to 6s 5d. Futures steady; May 6s 2d, buyers; July 6s 1½d, sellers. London—Close—Mark Lane Miller Market—Wheat, foreign quiet but steady; English firm and rather dearer. Maize, American, nothing doing; Danubian steady. Flour, American quiet but steady; English firm.

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—

Oronhyatekha Re-elected.

Los Angeles, Cal., May 1.—The Supreme Court, Independent Forestry, yesterday re-elected Dr. Oronhyatekha Supreme Chief. The election of Supreme Vice resulted in the election of J. D. Clarke of Ohio, his opponent being G. McElfresh, California. The remainder of the old executive were re-elected unanimously. Boston will be the next place of meeting.

EIGHT POUNDS!

Eight pounds of love and laughter, of smiles and sunshine or—? Many a mother can fill up the blank out of her experience of puny, wailing children, whose coming brought no gladness to the home. Women who have used Dr. Pierce's Favorite Prescription as a pre-natal preparation know that it makes all the difference between happy, healthy motherhood, and a motherhood of murmuring and misery. And they know also, that happy, healthy mothers have happy, healthy children. "Favorite Prescription" strengthens the whole body for the strain of motherhood. It practically does away with the pains of childbirth, gives the mother abundant vitality and enables her to nurse and nourish a healthy child.

The "Favorite Prescription" contains no alcohol, neither opium, cocaine, chloral nor any other narcotic.

"I am mother of six children," writes Mrs. C. A. Briggs, of Millwood, Douglas Co., Oregon, "and always took three or four bottles of 'Favorite Prescription' before confinement and never suffered any to speak of; had no after pains; my babies were large—they all weighed more than eight pounds, and I am not a large woman; weigh about 115 pounds. I have had some stomach trouble, but a few doses of 'Golden Medical Discovery' would set me all right. I am hardly ever without your medicines. They are all the medicine one needs, if taken in time, to keep one in perfect health.

"I feel that I owe my little boy's life to Dr. Pierce's Golden Medical Discovery, as he had convulsions, and everything he ate would bring them on. I commenced to give him the 'Golden Medical Discovery' in ten drop doses three times a day. Now he is just as healthy a child as can be found and he grows like a weed."

Dr. Pierce's Pleasant Pellets are the best laxative for women.

CURING CONSUMPTION.

When Scott's Emulsion makes the consumptive gain flesh it is curing his consumption.

Exactly what goes on inside to make the consumptive gain weight when taking Scott's Emulsion is still a mystery.

Scott's Emulsion does something to the lungs tóo that reduces the cough. More weight and less cough always mean that consumption is losing its influence over the system.

Scott's Emulsion is a reliable help.

UNION WITH CANADA.

Now the Leading Feature of Newfoundland Politics.

St. John's, Nfld., May 1.—Associate Justice Morrison of the Colonial Supreme Court will resign his seat on the bench to re-enter politics. It is understood Mr. Morrison advocates the union of Newfoundland with Canada, and that he will undertake to lead a party pledged to this idea. This announcement is the most startling that has been made in colonial politics for many years past. Mr. Morrison is an influential chief and his present act forces the question of union into the very forefront of politics.

Inspector Hughes Resigns.

Toronto, May 1.—James Laughlin Hughes, for 28 years Inspector of Public Schools in this city, has tendered his resignation to the trustees, to take effect on Aug. 31 next. Mr. Hughes intends to ask the Public School Board to accept his resignation at their meeting, to be held to-night. It is the intention of Mr. Hughes to devote his time in the future to lecturing and writing books on educational matters. When asked if he had any particular reason for severing his connection with the board, Mr. Hughes replied, "Only to benefit my position financially."

New Issue of C. P. R. Stock.

Montreal, May 1.—It was arranged that the new issue of stock to the amount of twenty million dollars should be offered to the C. P. R. stockholders to the extent of 30 per cent. of the holdings in each case. The result has been that almost all the stock has been taken up, over nineteen millions already, and before the books close on Saturday it will be all taken up by the regular shareholders of the company.

Eight Girls Killed.

Philadelphia, May 1.—Eight girls and young women were killed, three fatally injured and two score more seriously hurt in a panic in a cigar factory here yesterday. A boy was killed by an elevator, and the 1,200 girl employes became frantic. They jumped from windows to the street 50 feet below. They thought the place was on fire.

For Drydocks.

Ottawa, May 1.—A large delegation of Maritime Provinces and Ontario members of Parliament waited on the Premier yesterday, along with Mr. Blair, and asked that the assistance already asked for by Mr. George Robertson for the drydock scheme at St. John, be granted this session.

Will Aid a New School.

Kingston, May 1.—Yesterday morning Sir Sanford Fleming and Hon. Richard Harcourt laid the corner stones of the new buildings on the campus. Hon. Mr. Harcourt said the Government was prepared to grant aid to a new School of Forestry at Queen's.

Canada's Revenue.

Ottawa, May 1.—For the month of April, the customs receipts show an increase of $513,721 over the same month of last year; while, for the ten months just ended, the gain is $2,472,314.

Rebels Capture a Town.

Panama, Colombia, May 1.—The report that the Colombian revolutionists have captured Rio Hacha is confirmed.

ANOTHER CANADIAN DIES.

Corporal Howard Succumbs to His Wounds—Grimsby Man Very Ill.

Ottawa, April 30.—A cablegram to His Excellency from Cape Town dated April 28, announces that Corp. Fred McL. Howard of the 2nd Battalion Canadian Mounted Rifles died from his wounds at Klerksdorp on Monday.

He was one of the brave band of Canadians who made the gallant stand at Hart's River on March 31, when he was severely wounded. He belongs to Montreal, where his father, Stewart Howard, resides.

The cablegram also reports that the next of kind of Pte. Thomas B. Day, killed April 2, is D. C. Day, school teacher, of Shallow Lake, Ont.

George E. Stirling of the South African Constabulary was reported dangerously ill of enteric at Potchefstroom, April 26. He is a son of John Stirling of Grimsby, Ont.

Capt. Ross' Command.

Hamilton, April 30. — Dr. F. B. Ross, Major of the 13th Regiment, who has received a commission as captain in the fourth Canadian contingent, will leave on the C.P.R. at 8 o'clock to-night for Halifax. He will be in command of a squadron of the sixth regiment.

A Great Sufferer Cured

Mr. Benjamin Dillan, of Leeds, Ont., was cured of Muscular Rheumatism by Polson's Nerviline, and says: "I feel my duty is to proclaim Polson's Nerviline as an infallible cure for Rheumatism; it cured me after 30 years suffering, and nothing I know of can equal its penetrating power. Nerviline simply has no equal in quickly relieving and curing Rheumatism, Neuralgia, Sciatica, and Lumbago. A trial will convince anyone. Price 25c.

MAY HAVE A CONSTITUTION.

Persistent Reports That Czar Will Issue a Rescript For One.

St. Petersburg, April 30.—Persistent reports are in circulation to the effect that the Czar will shortly issue a rescript, giving Russia a constitution similar to the scheme for administrative reform drawn up by the late Gen. Loris-Melikoff when he was Minister of the Interior, and which was sanctioned by the late Czar Alexander II., some six months before his assassination, which occurred on March 13, 1881.

Wonders of the Heart.

All the blood in the human body passes through the heart in about three minutes. The heart beats 70 times a minute, 4200 times an hour, 100,800 times a day, throwing out 2 1-2 ounces of blood a second, 856 pounds an hour, 7 and 3-4 tons per day. It is only when supplied with pure, rich, blood that the heart, an organ six inches long by four inches inches wide, can accomplish this enormous amount of work, and rebuild its only wasted tissues. Dr. Chase's Nerve Food is the most effective treatment available for heart affections because it forms new, red blood and gives to it that life-sustaining quality, which is necessary to the health of every organ.

Persistent Gamblers.

In gambling the Filipinos are the most persistent race on earth. As soon as a servant or day laborer gets a small stake he stops work and gambles to get rich quick. Monte and cockfighting are the choice methods. If successful at play, the Filipino never works more. If he loses everything, he will do anything to regain his losses.

Japanese Archers.

In Japan archers test their arrows by balancing them on the nails of the second and third fingers of the left hand and rapidly twirling them by the feathered end with the fingers of the right hand. If the arrow makes a whirling sound, it is crooked and must be straightened.

Of a Kind.

Gerald—I have a soft heart.

A GREAT ENTERPRISE

Canada Will Soon Control the World's Paper Supply.

ATLANTIC PULP & PAPER CO.

Natural Wealth of the Dominion the Great Factor—The Company Will Have Ample Capital and Valuable Property—Able Men at its Head.

Nothing so helps the prosperity of a county as the steady development of its natural resources. Industries may by the energy of individuals, or the slothfulness of other nations, be built up in spite of the lack of natural wealth, but such instances are, however, very rare. Great Britain is perhaps the only nation under the sun which has successfully done this, but she was specially favoured by boundless coal and iron, an intelligent and energetic race, and the slothfulness of European nations. Canada possesses boundless natural wealth, and so the development of that wealth has been proceeding by leaps and bounds. The exhaustion of the United States spruce forests has directed attention to the almost boundless extent of Canada's wealth in this direction, so that the Dominion bids fair to control the paper trade of the world. To develop that wealth by converting it into paper the Atlantic Pulp and Paper Company, Limited, has been formed. The capital is placed at $3,000,000, of which $850,000 of 7 per cent. cumulative preference stock is offered to the public at par, payable as fully set forth in the prospectus. The directorate of the company is composed of Messrs. W. C. Edwards, M.P., the Ottawa lumberman; R. Y. Ellis, vice-president of P. W. Ellis and Co., Toronto; Chas. H. Waterous, president of the Waterous Engine Works, Brantford; R. H. Thompson, paper merchant, Buffalo; A. J. H. Eckardt, Toronto; Charles Lyman, president the Lyman and Knox Co., Montreal; J. W. Wardrope, lumberman, Montreal; Wm. M. McIntyre, paper manufacturer, late mechanical superintendent of the Laurentide Pulp Co.; and W. R. P. Parker, barrister, Toronto.

The company has secured a spruce wood limit on the Baie des Chaleurs, extending to 193,200 acres, and it is estimated that the supply of pulpwood will last 65 years. As, however, spruce reproduces itself in about 28 to 30 years, this means really an inexhaustible supply. Since the issuing of the company's prospectus offers have been made for the entire output of paper from the mills. So that it is quite evident the success of the Atlantic Pulp and Paper Company is abundantly assured. When it is mentioned that power in abundance is at hand on the Little Cascapedia, that there is an ample supply of clear water available, as essential in paper-making, that living in the locality is cheap, wages reasonable, the shipping facilities unsurpassed, and the manager a gentleman of great experience in this business, it will be obvious that the prospects of the company are of the most encouraging description. The demand for shares has been most satisfactory, and the subscription books of the company will close at 4 p.m. on Wednesday, May 7. The prospectus of the company appears in another column. Further information and application forms may be had from Sutherland and Cameron, Ottawa, or from the National Trust Company, Limited, Toronto, Montreal or Winnipeg.

GOLF BALLS—that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Salisbury Co.

EVERYTHING UP-TO-DATE.

The J. C. Turnbull Co.

363-365 George St. And 180 Simcoe St
TELEPHONE, 298.

We Esteem it a Pleasure To Show You The New Materials, Whether You Desire To Purchase Or Not.

SUPREMACY —IN OUR— WINDOW DISPLAYS.

Our Show Window displays are conceded to be unequalled by many who admire them. The superior class of goods shown, combined with up-to-date and tasteful decorating is an accurate example of the new styles, for Turnbull's Goods are strictly correct. But the windows are but samples of what may be seen in greater variety in the different departments. We mention below a few of our more important sections:

MILLINERY.

Our Millinery Department, through the able management of Miss Noble, has surpassed itself this season. Some pretty ideas in Trimmed Hats have just been received, also a line of Ready-to-Wear Outing Hats. A nice assortment of Children's Hats, in linen, lawn and lace straws to choose from.

HOUSEFURNISHINGS.

All the needs which are so necessary at house Cleaning time can be supplied here. A complete range of Carpets, Floor Oils, Linoleums, Portieres, Shades, Curtain Poles, Brackets, Mattresses, Springs, Pillows, Screens, etc., await your inspection.

DRESSMAKING.

Our Dressmaking staff has never been so competent as it is this season. Miss Burton has secured a large patronage by the excellent work which she has turned out. Her experience enables her to accomplish work equal to the best city departments.

WASH GOODS DEPT.

This Department abounds with a grand assembly of summer materials. The stock comprises the newest American textures in Chambrays, Ginghams, Muslins, Organdies and Zephyrs. A personal inspection will please you.

A Visit To This Store Will Repay You, as it is Resplendent In Every Department With the Newest Spring Novelties.

FOR SALE.

$1200.00 will buy a Two Storey Brick House, in good locality. Terms to suit purchaser. Apply to

H. O. STABLER, 804 George St

IN EAST PETERBOROUGH.

Mr. Wm. Anderson is Conducting a Very Vigorous Campaign.

Mr. Wm. Anderson, the Liberal Candidate in East Peterborough, has been prosecuting a very vigorous campaign in the eastern portion of the riding, and has been meeting with great success in both his canvas and in the meetings which he has addressed.

On Monday night Mr. Anderson held a meeting which was very largely attended, at Thistleworth School House in the eastern portion of the Township of Asphodel. He was accompanied by Messrs. G. M. Roger and R. F. McWilliams, who delivered stirring addresses on provincial issues.

On Wednesday night at Cordova in the basement of the new church, Mr. Anderson met the electors of that village. The chair was occupied by Mr. John Brown, an ex-Reeve of Belmont. Messrs. Wm. Anderson, R. F. McWilliams and G. M. Roger were the speakers. An opportunity was given a representative of Dr. Ford to be heard at the usual time, but no one responded. However, at the close of the meeting, Mr. D. M. Anderson, of Cordova, asked to be heard and his request was granted. He endeavoured to make clear the position of Dr. Ford.

Mr. R. F. McWilliams replied in good form completely shattering the arguments of Dr. Ford's representative.

Last night Mr. Anderson held a meeting at Blairton and to-night he is holding a meeting at Rush Point. He is being accompanied by Mr. F. Kerr and E. B. Stone.

LODGE GOAT IN COURT.

Pool Business Illustrated Before Judge —Initiate Wants Damages.

Columbia, S. C., April 30.—The trial of the suit of Samuel W. Mitchell, against Sovereign Camp, Woodmen of the World, for $25,000 for damages received while "riding the goat" at his initiation, was begun to-day. Mitchell told of the injuries received. This occurred in March of last year. The production in court of the offending "Billy" was the sign for merriment that had to be checked by the doorkeeper. The goat was mounted on wheels with a powerful spring mechanism operated by a handle in the rear of the seat on which the man sat. The counsel for Mitchell tried to operate it but could not. Then the defendants volunteered their services, and one occupied the seat. The goat bucked, and judge, lawyers and spectators laughed heartily.

Just before being thrown Mitchell was laughing and told the goat to "get up," and it did so. Mr. Oates said he had ridden the goat and others testified to taking the same exercise.

Mitchell used strong language toward Dr. Ward, who testified that he had been injured by an attack of fever. The judge admonished him. There was then a good deal of medical testimony introduced relative to the condition of Mitchell and the effect the goat ride had upon him.

A THIRD CONSIGNMENT OF BLENHEIMS —AND— TAFFETAS

Came to hand yesterday—Blenheim and Taffeta Dress Goods stand for what is best in fifty cent, seventy-five cent and $1.00 dress materials. Although having bought assuredly and heavily in these three cloths, we have nevertheless had to repeat and then repeat again. This makes the third lot we have received this season, and although we have a good big case of these goods, full 25 per cent. are already spoken for.

Black and Coloured Taffetas, 42 inches wide, clean, firm and light weight, lifey cloths, suitable for dresses, separate skirts or waists, decidedly the best 50c cloth in the market to-day. Shades of old rose, dark rose, grey, brown and black, all pure wool, per yard ..... .50

Black Blenheim, 46 inches wide, pirlie finish, warranted not to spot or cockle with the rain, a beautiful weave, a splendid finish, a fair weight and all wool, at per yard ..... .75

Blenheims at $1—This 50 inch Pirlie Finished Cloth stands without an equal at the price, and compares very favourably with $1.40 and $1.50 cloths in appearance. It's firm enough and heavy enough to make up unlined skirts—it's dressy enough to go into any bride's trousseau. This cloth is unspottable, is wear-resisting, and it has a permanent finish. It's OUR cloth for Peterborough. Speak quickly if you want any of these shades. We have to-day the colours we here mention—black, grey, castor, cardinal, myrtle, mauve, v. rose and navy, price per yard $1.00

A Job of 50 Pieces of Broadcloths, Amazons and Venetians, in this season's correct colourings. This lot of agent's cut pieces. Lengths run from 3 to 24 yards. Prices run in worth from $1.25 to $1.75, and the price at which we can sell them is $1.00 And they shouldn't last more than a week.

Remember Our Special Values in Lace Curtains, Curtain Nets, etc., etc.

TRUSTWORTHY DRY GOODS — Tully's & Son — UNIFORMLY RIGHT PRICES.

SUPPLY DEPOT OF THE WORLD.

Canada Destined to Supply the United States and Europe With Paper.

WATER POWER AND SPRUCE.

Prospectus of a New Paper Company Contains Rich Food for Reflection.

The Shareholders, a leading financial paper in Montreal, has a strong article on the pulp and paper industry in Canada, and says:—

The exceptional advantages which Canada enjoys in relation to pulp material for the manufacture of paper, the inexhaustible supply of raw material, the excellence and availability of her water supply and its ready applicability for use as a motive power, offer strong inducements to capitalists desirous of seeking investment in profitable undertakings. That Canada can supply all the quarters of the globe with paper on conditions in no way inferior, but in many superior, to competing countries, is a well-established fact, and justifies the expectation that this industry which is already in a thriving condition will yet become, and that at no distant day one of the leading and most profitable industries of the country. As demand regulates supply, and as the demand for the product of pulpwood has virtually no limit, the future is increasingly promising for this industry. It is highly desirable that the material should be manufactured in this country, and, then only, exported in the finished state. If other countries can manufacture our raw material to advantage that is all the more reason why we should see to it that the benefit they derive should be kept here. We are gratified, therefore, to know that efforts are being put forth to accomplish this desirable result, and we believe that these efforts will meet with that success which they deserve. Among the most recent enterprises in this direction is the Atlantic Pulp and Paper Company, Limited, which has been organized to take advantage of the unrivaled facilities for the manufacture of pulp and paper at New Richmond, on the Baie des Chaleurs, where it is confidently believed that these products can be manufactured equally economically, if not more so, than in any other place in America. The company proposes to manufacture for export trade, and the position of its works on the Atlantic seaboard makes it possible to ship to all foreign ports by water without transhipment, an advantage the value of which cannot be too highly estimated. In order to enable the company to complete the additional necessary works and secure sufficient capital it now offers for sale $850,000 of 7 per cent. cumulative preference stock at par, payable 10 per cent. on application, 20 per cent. on allotment, 20 per cent. two months, 25 per cent. four months, and a like sum six months after allotment. The prospectus fully sets out the objects contemplated, while the composition of the Board of Directors is a strong guarantee of the faith that experienced, practical business men have in the success of the undertaking. The investor seeking remunerative employment for his idle capital will find rich food for reflection in the statements contained in the prospectus issued by the company.

THE STATE AND CONSUMPTION.

Wheresoever two or three philanthropists gather together these days, they discuss the necessity of providing better means for the isolation and treatment of consumptive patients. And they could not well direct their philanthropy to a worthier purpose.

But is it not a question that the state should take hold of, promptly, vigorously, effectively, generously?

Here we have a disease which is a veritable plague in its ravages and universality. And here we have the new knowledge that it is not hereditary but communicable; and so mildly communicable that very simple measures of isolation serve to absolutely prevent its spread. And with that we have too, the knowledge that it is often curable by mere exposure to pure air, coupled with wholesome living.

Do these not constitute a set of facts which justify the whole community—that is, the State—in taking joint and concerted action for stamping out the plague? It is no mere matter of fighting a disease. It is a struggle with an epidemic, from which the people can be set free; and is as much a case for State action as the establishment of a quarantine against cholera, or the provision by the municipality of a fire department.

When we make up our minds to take this ghastly menace by the throat, we will increase our chances of life by a tremendous percentage. —Montreal Star.

A GREAT IMPETUS.

Premier Ross Addresses an Enthusiastic Meeting at Lindsay.

Lindsay, May 2.—Liberalism in the Victorias received a great impetus last night in the enthusiastic meeting addressed by Premier Ross in the interests of Mr. Newton Smale, candidate for the West riding. The Music Hall was unable to hold nearly all who sought entrance, and the enthusiasm displayed toward both the Premier and Mr. Smale foreshadows a favorable verdict on election day. Mr. Ross, who is daily warming to the exigencies of the campaign, was in his best form, and as he reviewed the successes of his own policy and arraigned the shortcomings of the Opposition he was cheered again and again. Mr. Smale in his short speech showed an intelligent grasp of public affairs, and a skill in presenting his views which won instant recognition.

POLITICAL POINTERS.

R. M. Gordon will run as a Socialist in East Hamilton at the Provincial election.

At a barn-raising at Lancing, Thursday, Mr. St. John called for cheers for Mr. Hill, which the latter replied to by a similar tribute to his rival in West York.

At a convention of Liberals at Ottawa Thursday night Mr. Alex. Lumsden and Mr. D'Arcy Scott were selected as the Protestant and Irish Catholic candidates respectively for the city. There were altogether 188 delegates present.

In Centre Grey, Mr. John Davis announces his determination to run against Mr. Lucas. In the election four years ago he ran as an Independent candidate against Mr. Lucas and Mr. Boland, and his total vote was 267, Mr. Boland took 1,722 and Mr. Lucas 2,813.

If enthusiasm and expressed appreciation count for anything, Hon. F. R. Latchford will surely carry South Renfrew by a large majority. This feeling is not confined to the Liberal party by any means, for reports from all parts of the riding indicate the utmost satisfaction among many Conservatives with the masterly way in which the Commissioner of Public Works has represented the constituency. Thursday's convention, though held in a very busy season for farmers, was large and enthusiastic for the Minister, and there was no other name mentioned. He responded in a great speech.

TORNADO KILLS 416.

People Carried Up Into the Indian Air Like Feathers.

Calcutta, May 1.—A tornado has devastated the city of Dacca and adjoining towns. Four hundred and sixteen persons were killed. Crops were ruined throughout the district. Dacca, a city in Bengal, is 150 miles northeast of Calcutta.

Carried People Into the Air.

Simla, India, May 2.—The tornado first struck Posgola the afternoon of April 23, where it wrecked the Datta Jute Works. From Posgola it moved to Sanachar, where the India General Company's warehouses were destroyed by a great wave, which was whirled out of the river by the wind. Everywhere in the path of the cyclone huts, trees, the roofs of houses and people were carried up into the air like paper. Thirty-one persons were killed at Sanachar, 110 were killed near Dacca, 175 were killed at Nagalband, while 130 were killed at Barnighat.

SENATOR DECHENE DEAD.

Was Appointed to the Upper Chamber a Year Ago.

Montreal, May 2.—Senator Dechene died at St. Roch des Aulnier Wednesday night.

Hon. Alphonse Arthur Melville Dechene was the son of the late Alfred M. Dechene, merchant, of the County of L'Islet. He was born in 1848, and educated at St. Anne's College. For some years he was Mayor of the village of St. Pamphile. He carried on business as a lumber merchant and was proprietor of several seignories in Quebec. He was elected to the House of Commons at the general elections of 1896; re-elected in 1900, and called to the Senate on May 11, 1901. He was a supporter of Sir Wilfrid Laurier's Government.

KILLED AT RENFREW.

Contractor Cawsey of Stratford Fatally Injured While at Work.

Renfrew, May 2.—Mr. E. A. Cawsey, contractor of Stratford, who has been in Renfrew for the last two years building macadam roadways and concrete walks for the town and lately the dam and works of the Renfrew Power Company, was killed yesterday afternoon by the breaking of a cable of one of the derricks, which were being removed just as his contract was about completed. One of the large timbers fell across him, shattering his ribs and injuring his lungs. He was removed to the hospital, where he died from his injuries in an hour's time.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

The Lost ..Art..

Of comfort and health in undergarments has been re-discovered.

—THE—

DR. DEIMEL LINEN-MESH UNDERWEAR

Has broken man's long bondage to Woollens and cottons, and has given his skin a chance to be healthy

But it is not an innovation—the Egyptians knew of the healthful properties of linen next to the skin.

If you want to read about it, send me your address and I will mail you interesting literature on the subject : : : : : :

FRIDAY, MAY 2, 1902.

RESULTS OF SEEING AHEAD.

The Clergue companies will encourage industries generally to locate in Sault Ste. Marie, and it is expected that the population of the place will be 200,000 within ten years. At least 25,000 men will be needed to operate the allied companies' plants. Say what the Opposition orators and organs may, this result is really, if not directly, due to the policy and practice of the Ross Government, in aiding the Algoma Central Railway by land grants, a course which Mr. Whitney in his short-sightedness, called a "colossal steal." What are the facts? Mr. Clergue had obtained possession of the pulp mills and water powers at the "Soo," and had developed the industry and added to it. But operations had practically come to a standstill from lack of transporation facilities, for the purpose of giving access to raw materials in a wilderness country, and assembling them at the point of manufacture.

These transportation facilities so badly needed, and from lack of which progress had been practically barred, were represented by the Algoma Central Railway. The result has been tremendous, and encouraged by the certainty that his source of supply was certain, and that the policy of the Ross Government could be depended upon to provide further facilities for opening up and developing the great resources of the new country, that could be made tributary to his industries, Mr. Clergue went ahead at a splendid rate and already $12,000,000 has been spent in doing what? Merely preparing for doing something—in preliminary works whose real importance cannot be realized until the industries in course of establishment are in full operation. And the work of preparation is still going forward as briskly as ever. Some idea of the work now in progress may be obtained when it is known that in the development operations of the Clergue companies, growing practically, if not directly, out of the land grant to the Algoma Central Railway, the monthly pay roll of these companies for wages and supplies of various kinds, is about $800,000 per month, which, if continued, as they will be for some time, would amount to nearly $10,000,000 a year for these two items, labour and supplies. And nearly all the supplies come from Old Ontario, so that the policy of the Government of developing new portions of the province, confers great and important material benefits upon the older parts of the province, so that we have here a practical demonstration of the fitness of the broadly expressed policy of Premier Ross, "Build up Ontario." No one who knows the facts or reflects upon the conditions created by the course of the Government in aiding, by land grants, the construction of the Algoma Central Railway, will deny that that course has been, and will continue to be, the most important feature of policy ever applied to the province. True statesmanship consists in the prophetic ability—the ability to look ahead and to find in the future the tremendous results that will grow from the planted germ of a simple, but simply grand, policy. And the other features of the Ross Government policy, such as which will result in the building of the Manitoulin and North Shore Railway and the Temiscamingue Railway will have similar results. The new country will be opened up to capital, development operations and settlement, and these railways will be an element in diverting and centreing in older Ontario the trade—the demand for supplies and manufactured articles, which will be of continuously increasing and great importance. It pays to be alive—to go ahead, to take occasion by the hand, and make the bounds of development and progress wider yet. Remember Ross, support Ross and his Government in thier policy of building up Ontario. No "doubting Thomas," no public man, who has not the most implicit faith in the resources and value of Ontario and who is not "bold enough" to strike out upon any higher policy than destructive criticism and petty fault finding, can hope to win the support and confidence of the wide-awake people of wide-awake Ontario.

PARTIAL TO HIS OWN.

Has Mr. Whitney ever had a word of reproof for the corrupt elements in his own party? Everyone knows of the orgy in South Ontario in 1898, when the Opposition spent over $7,000 to defeat Hon. John Dryden. William Smith, ex-M.P., confessed in court that he spent $1,200 in buying votes for Calder; yet today Mr. Smith is on Mr. Whitney's platform, working for Mr. Whitney's candidate, enjoying Mr. Whitney's confidence, secure from Mr. Whitney's crusade against bribery and corruption. What value can the public place on Mr. Whitney's professions of purity, and what credit for sincerity can he expect? If he were in earnest, he would begin his missionary work in his own party. The Liberal party can be relied upon to purge itself; let its opponents do the same.—London Advertiser.

PULP LANDS IN QUEBEC.

Mr. E. G. Joly de Lotbiniere, in a paper read before the Canadian Forestry Association, dwelt on the importance of the pulp industry. He declared that pulpwood ought not to be exported in its raw or unmanufactured state. Let those who wanted the wood come to Quebec, build their mills and manufacture there. "Ontario," he said, "has been far wiser than Quebec in the management of its pulpwood lands." He referred to the Ontario order in Council of 1900, prohibiting the export of pulpwood cut on the lands of the Crown. The wood must be manufactured into pulp or paper or otherwise in the country. As a result of this wise restriction, said Mr. Joly, several American companies had taken up pulp lands and invested large sums in mills.

Thus, the Ontario plan is regarded not as an awful warning, but as a model of what should be done in other Provinces. The sum that is obtained by way of bonus in Quebec is not to be compared with the industrial advantages of the Ontario system. The Ontario Opposition have developed a sudden admiration for the bonus system, which was practised by the Government for many years in dealing with pine timber. It was a good system, though the Opposition never admitted it, but in the case of pulpwood another stage in progress has been achieved. Mr. Whitney and his friends are a little slow.—Globe.

A GOOD RECORD.

Liberals point with pride to the honest, progressive administration of the past thirty-one years, which has kept Ontario out of debt, while providing public institutions, educational facilities and a body of laws which are the admiration of the other provinces. They do not believe, and they do not credit intelligent Conservatives with believing any of the fierce election accusations against the truthfulness, integrity, patriotism and purity of Premier Ross and his colleagues in the Government. They are thankful that the business of Ontario has been managed on business principles by business men, who have carefully husbanded the public resources, collecting such revenue from them as could be fairly demanded, while at the same time encouraging such development as would add to the general wealth while furnishing profitable employment to the working population. The Opposition has found little to criticize, because the Government has done things right and has done them at the right time. Peterborough has nothing to gain from a change of Government at Toronto.

EDITORIAL NOTES.

Mr. Whitney talks about the heaps of money he would get for the timber of New Ontario. As if the people do not remember when his friends were selling the limits off at $5 a square mile. At this rate the treasury would become very rich.

The Finance Minister of British Columbia, reports an overdraft of $1,600,000, and is obliged to borrow $3,000,000. Happy is Ontario, with her surplus of $2,500,000. No wonder the Toronto Mail in a moment of candour, declared the administration of our finances to be "thrifty, judicious and clean."

The Brantford Courier says Whitney is everywhere meeting with the most enthusiastic receptions. Mr. Whitney, the Hamilton Times suggests, is in that respect in the same position as Sir Charles Tupper was just before his last appeal to the people. And he could not well be more optimistic than Sir Charles was, but——!

The succession duties in Great Britain, when first imposed by Sir William Harcourt, were, says the London Advertiser, denounced as confiscatory by the Conservatives. But when the latter had the making of the budget they were glad to retain the tax as a proper and convenient source of revenue. Mr. Whitney and Mr. Mathieson have denounced the succession duties in this province, but they would not alter the tax one iota if they had the power.

The Mail and Empire reports Mr. Whitney as saying that he has "positive knowledge that in return for the favours shown the corporations in respect to the scrap-iron matter, the Government had received heavy contributions to the campaign fund." Evil associations, says the Hamilton Times, are destroying his candour. If he had had the slightest grounds for suspicion of such a thing, the province would ere this have been ringing with it. That sort of thing is childish.

A newspaper friendly to Mr. Whitney says that gentleman would give the Province a progressive administration. The evidences upon which such a prediction could be based are not numerous. He has criticised the succession dues and condemned the tax on corporations, and opposed development railways, three of the most progressive ideas introduced in the Government of the province. Mr. Whitney has evidently been taking lessons in "progressive administration" from the crab and crawfish family.

Four of Mr. Whitney's followers deserted him in the dying hours of the last Provincial Legislature, namely, Messrs. Marter, of North Toronto; W. J. Allen of North Hastings; J. H. Carnegie, of East Victoria; and S. J. Fox, of West Victoria. The question was that of granting subsidies to railways into territory not supplied with this means of transportation, and which is necessary to open it up. Mr. Marter had previously differed from his leader, but it is a significant fact that three others deemed it to be their duty to vote with the Government on this occasion. Doubtless they considered it in the best interests of the province to do so. We are told that real progress is to be seen if Mr. Whitney attains to power. Can the electors generally be expected to believe this when some of his late parliamentary followers by their votes on this occasion showed that they do not?

No More Pale Women.

THE CATTLE EMBARGO

Mr. Bourassa's Resolution Accepted by the Government.

BERNIER'S POLAR EXPEDITION

Captain's Cause Pleaded by Mr. Charlton—Leader and Members of the Opposition Coincide—A Masterly Speech on the Subject by Sir Wilfrid Laurier—A Nation's Characteristics.

Ottawa, May 2.—Two important matters were dealt with by the House yesterday. An amendment offered by Mr. Henri Bourassa respecting the unfairness of the embargo upon Canadian cattle in Great Britain was accepted by the Government, and the House placed on record its regrets at the injustice, and an expression of hope that the Government would avail itself of the opportunity offered by the colonial conference to press the matter of removing the embargo upon the attention of the Imperial Government. The proposed expedition by Captain Bernier to the north pole was brought to the attention of the House by Mr. John Charlton, who urged the Government to make a grant towards defraying the cost. Mr. R. L. Borden, leader of the Opposition, supported the appeal, and the Premier promised that the Government would give due consideration to the matter. In supply such progress was made that it is hoped the remainder of the main estimates will be passed to-day.

Morning Sessions.

Sir Wilfrid Laurier's motion to have morning sessions, beginning on Monday next, was carried.

The Immigration Bill.

Mr. Sifton moved the third reading of his immigration bill.

E. F. Clarke read a letter from Mr. Watchorn, U.S. immigration inspector in Montreal, to the effect that over 100 Greeks, Syrians and others were at his office trying to get leave to cross the border. All these people had sought passages from Europe to the United States, but had been refused passage because the shipping companies knew they would not be allowed to land there, therefore they came to Canada. Mr. Clarke protested against the admission of these diseased immigrants.

Dr. Sproule quoted from The Canadian Jorunal of Medicine and Surgery a report which showed a growing prevalence of disease of the eye brought into this country by immigrants from Europe. The record of the Royal Victoria Hospital showed that during the past six years 15 per cent. of the outside patients treated for granular opthalmia were immigrants.

Mr. Sifton said the Government had no power to exclude immigrants suffering from this class of disease, but were obtaining the power under his measure. The bill was read a third time and passed.

The Chinese Toll Tax.

The House concurred in Sir Richard Cartwright's resolution to increase from one-fourth to one-half the proportion of the Chinese poll tax payable to the province, in which the tax is collected.

The bill dealing with the C. P. R. increase of stock by $20,000,000 was passed.

The Petition of Right Bill was also passed after a protest by Mr. Haggart that some fixed principle should be adopted upon compliance with which a fiat for a petition of right should issue as a matter of course.

Increasing Judges' Salaries.

In the course of the discussion on the bill respecting judges of provincial courts, the Minister of Justice said he was personally in favor of increasing judges' salaries, and after a certain number of years retiring them on full pay.

A Plea For Capt. Bernier.

On motion to go into supply Mr. Charlton urged that the Government grant an appropriation to Capt. Bernier in aid of his proposed expedition to the North Pole. Mr. Charlton proceeded to recount the record of Polar expeditions, concluding with those of Perry and Baldwin, who, he feared, might succeed in reaching the Pole before Capt. Bernier got there, if Canada did not hurry up.

Canadians, he said, were peculiarly fitted for this task by reason of their experience in exploration and familiarity with and fondness of adventure. Capt. Bernier was admirably fitted for the task of commanding a Polar expedition. He was of the race of La Salle, and had the courage and perseverance to get to the North Pole if the Government would give him the necessary assistance. In the course of his reference to Capt. Bernier's qualifications, he mentioned that he was 50 years of age, had commanded a vessel at the age of 17, had been master of 46 ships and never lost but one, and had crossed the Atlantic 174 times.

His plan was to proceed by way of Behring Strait and sail north till he encountered the ice-pack. He would enter the ice-pack between 170 and 175 degrees west longitude and drift with it to within 150 miles of the Pole. During the voyage he would at intervals send out sled parties for 50 miles on each side of the ship to reconnoitre. Then, when at the northernmost point to which the current would carry the ship he would make a dash for the goal. It was proposed to use dog sledges and an automobile sledge.

He would also carry Marconi instruments, so that his sledge parties would be in convenient communication with the ship and the ship in communication with Dawson City. Besides, he would use a new instrument, contrived to point in the direction of a similar instrument, so that the parties would always know the direction of each other and the bearing of the ship.

As for the expense Capt. Bernier had subscriptions of $20,000, and would require $100,000. Mr. Charlton concluded at 6 o'clock.

After recess, E. F. Clarke took up the discussion and strongly supported Capt. Bernier's project, as he had done last year in the House. He paid an appreciative tribute to the captain.

Mr. Flint (Lib., Yarmouth), and Mr. W. C. Edwards (Lib., Russell), who presided at one of Capt. Bernier's meetings last session, advocated Government assistance to the expedition.

Mr. Richardson (Con., South Grey) thought there were more practical enterprises deserving of assistance, and as for an advertisement for Canada, unfortunately Canada had too much of this kind of polar notoriety already.

Mr. Lemieux as a Canadian heartily approved of Capt. Bernier's proposal.

Mr. Wm. Ross (Lib., Victoria, N. S.,) said that it would add to Canada's renown to have the north pole discovered by a Canadian.

Mr. Holmes (Lib., West Huron), said the country would not look with favor upon an appropriation of $50,000 or more for this doubtful object.

Mr. Henderson (Con., Halton) said he thought $100,000, or two cents per head of the population, a small contribution towards such a worthy object.

Mr. McCreary characterized the project as abject foolishness, and he believed the Tory members wanted the Premier committed to such a scheme so they could ridicule him on every platform of the country. (Cries of No, no.) Anyway he believed if the pole were discovered W. C. Edwards would be wanting to get a cinch on the water power.

Mr. Charles Marcil (Lib. Bonaventure), said Canada would be doing a grand thing by enabling Capt Bernier to accomplish one of the grandest scientific discoveries in the world.

Mr. Osler favored the grant to Capt. Bernier. He said that a country was not worthy to be called a country or a nation to be called a nation that would not spend a little money in adventure.

Mr. Lennox (Con., West Simcoe), and Wade (Lib., Annapolis), favored the grant, and Mr. Ross (Lib., South Ontario), favored it.

Sir Wilfrid Laurier.

The Premier rather shared the enthusiasm of those who believed in it. "Personally," said Sir Wilfrid Laurier, "I am certainly not insensible to the view which has been urged to-day upon the Government by those who think that a Canadian should be the discoverer of the North Pole, and that efforts of Capt. Bernier should receive some recognition. I largely share the enthusiasm of those who believe that it would not be a barren thing for Canada if an enterprise which has baffled the efforts of so many brave and strong men were at last to be brought to a successful issue by a son of Canada. I do not share the views of my hon. friend from South Ontario (Mr. Ross), even if there was nothing in that enterprise but sentiment, that alone is a thing which no nation can be indifferent to. (Hear, hear.) There is not only the material prosperity of a nation to be considered; there is also the moral elevation, the sentiment, the enthusiasm, to be considered, all of which go to make up national character, and no nation can hope to exist unless it possesses those qualities."

"But even from a material point of view," Sir Wilfrid continued, "nobody could say after the discovery of the riches of the Yukon that that supposed desolate part of the earth called the North Pole might not bring material profit to its discoverers, but, apart from that, if a son of Canada were to plant the flag of his country at the North Pole; if he were to achieve what so many brave men had failed in, there was not a Canadian heart that would not beat with pride at the thought of it. (Cheers.) Canada would be only too glad to purchase at a small cost such a glory.

He believed that Capt. Bernier had the requisite experience, the enthusiasm, the pluck and the courage, and the technical personal knowledge. If such qualities could not discover the North Pole it would not be discovered. Personally, and speaking on behalf of some of his colleagues, Sir Wilfrid said he would be proud of contributing something to secure this glory for the Canadian people. He had not, however, understood up to this that Canada was to bear the whole cost of the expedition. That Capt. Bernier had only secured $20,000 in subscriptions was disappointing. It would seem he had received encomium, commendation and praise, but very little material assistance. When last year he promised certain Government aid if Capt. Bernier received substantial private assistance, he had no idea that the sum of $100,000 was asked from the Government. But now he saw that if Canada was to contribute anything, it must be not less than that sum. However, the views of the House expressed with very few exceptions, showed that members would be ready to sustain the Government, if they were to give $100,000 for this purpose.

"All I can say at present," added the Premier, "and it is not to be expected I should say more, is that the Government cannot be indifferent to the views which have been presented here to-day. They shall receive due consideration, and if, after giving the best consideration we can give to this worthy scheme, we come to the conclusion that it should be carried out, then, judging by what has been said here to-day, the Government will be defended from the opposite side of the House from extravagance." (Hear, hear.)

R. L. Borden agreed that the subject should not be dealt with in a purely material spirit. He paid a high tribute to Capt. Bernier, and said that, speaking personally, he would be inclined to give favorable consideration to a proposal by the Government such as had been suggested. This concluded the debate.

Remove the Embargo.

Mr. Bourassa moved his motion in regard to the embargo on Canadian cattle in Britain. It was to the effect that it had been proved that there was no disease among Canadian cattle to justify their exclusion from the Mother Country under the Imperial Contagious Diseases Act, and urged the Government to take advantage of the colonial coronation conference to take steps to look into the removal of this restriction. Mr. Bourassa made a long speech in support of his resolution.

The reply of the Government was made by the Minister of Finance, who stated that the Government was willing to accept such a modest and respectful remonstrance designed to assist the Government in its efforts to secure the removal of the embargo. After some further debate in which the leader of the Opposition, Dr. Sproule and Hon. Sydney Fisher took part, Mr. Bourassa's resolution was adopted and the House went into Committee of Supply.

The House adjourned at 1.30 o'clock.

ELECTRIC LIGHT

Can be put in your house at small expense, even though it is not wired for it yet.

WIRING.

Installed by our system, means a clean, safe job; no plaster broken, or decorations spoiled, but the wires concealed in the walls in a through way, worklike manner, and subject to the approval of the Fire Underwriters.

FOR YOUR WELFARE

You are Urged to Make Health-building Your First Work This Month.

PAINE'S CELERY COMPOUND

Puts You in Condition to Withstand the Enervating Effects of a hot Summer.

If you are ailing, sick or diseased, it is our earnest desire to interest you in your own personal welfare. We try to do this by simply urging you to make health-building your first work this month, as efforts to banish disease are much more difficult when, in addition to physical suffering, you are obliged to contend with the enervating effects of a hot summer. Medical men know well that a sick person when treated with the proper medicine in May, has a much better chance for life and health than is possible in July or August.

The incalculable amount of good that Paine's Celery Compound is now doing in making sick people well, should compel the attention of every thinking man and woman now in sickness and suffering.

Faulty nutrition of the nervous system is the direct cause of nervous debility, headaches, dyspepsia and neuralgia—ailments that thousands are now suffering from. When people have blood that is pale, watery and full of impurities, their nerves cannot assimilate food properly and derive nourishment from it.

Paine's Celery Compound used in May cleanses the blood, bestows greater nerve force, regulates the stomach and bowels, arouses a healthy appetite, and brings about a normal action of the dormant liver. Paine's Celery Compound in every case gives a positive and permanent cure. It is the most thoroughly honest medicine that rundown and sickly men and women can employ. Its life-giving effect on nerves and blood is truly marvellous.

LABOR DIFFICULTIES

The Toronto Building Trade Tied Up For Only One Day—12,000 Ordered Out at Pittsburg.

Toronto, May 2.—The bricklayers, 350 in number, have accepted 42 cents per hour, and have made agreement for one year. They asked for 45 cents.

The carpenters, with the exception of about 200, employes of 8 firms, are all back to work, having gained their demands.

Two more shops of carriage workers have fallen into line, 20 men returning to work.

Strikes Elsewhere.

At St. Thomas 42 men were laid off in the car shops of the M.C.R. Opinion is that agitation of men against piece work is the cause.

Montreal plumbers and steam fitters, to the number of 300, are out.

Windsor plumbers and tinners are all out on strike.

Six hundred builders laborers are out at Halifax. They have been getting 15 cents an hour but want 20 cents.

At Kingston 70 machinists at the locomotive works are out over the employment of Graham, a handy man, on a wheel job. Mr. Glockling, of the Labor Bureau, is endeavoring to effect a settlement.

At Pittsburg, Pa., 12,000 men in the allied building trades are out, but there is a prospect that 6,000 of them will be at work again in a day or two.

DON'T FAIL TO TRY

Malt Breakfast Food

The immense popularity attained by Malt Breakfast Food in the homes of this country, has induced certain speculators to put up cheap preparations which they style "health foods." While these poor foods pay handsome profits to the speculators, they are positively worthless to consumers as they impart neither nourishment or health.

Don't fail to try Malt Breakfast Food, if you are a stranger to it. It is the only true health giver — the one preparation that fully meets the ideas of such food experts as Fothergill, Williams and Henry.

To-day physicians depend upon the virtues of Malt Breakfast Food for the nourishment of weak stomachs and frail bodies. The entire medical profession recognizes its worth as a builder of flesh, bone and muscle. Malt Breakfast Food makes the weak strong; it is now the chosen breakfast food of all who desire to maintain a full supply of energy and vitality. Your grocer sells it.

Get Your Dog Tag.

The Chief of Police states that only three hundred and eleven dog tags have been issued so far this year. He thinks that this is only about half the number which should be taken out and is prepared to start out on the war-path looking for the delinquents. This is supposed to be the last day for securing tags before summonses are issued to dog-owners who have neglected this matter, but Chief Roszel has decided to extend the time two days longer.

Local Examinations in Music.

The University of Toronto, at the urgent request of the musicians of Ontario, including the principal of the leading conservatories, colleges and Schools of Music, has at last decided to hold local examinations in practical music in all the centres of population where five or more candidates offer themselves for examination. That there is a general desire among musicians to have some independent examining body like the University to undertake these examinations, there can be no doubt. Musicians and their students can depend on the University to see that only examiners of the highest professional standing will be appointed to examinerships. The certificates and diplomas awarded on the results of these examinations, bearing the imprimatur of the University will be a guarantee of proficiency that the public will appreciate.

BAND CONCERT TO-NIGHT

OPERA HOUSE SPECIAL:—

MR. JOS. HALPANY,
In new Song and Story.
LITTLE CARRIE WHITE,
Elocutionist.

MARRIED IN HAMILTON.

Mr. Charles H. Mann, a Former Peterborough Citizen.

The Hamilton Herald contains the following reference to the marriage of Mr. Chas. H. Mann, formerly of town;

At the residence of the groom, 220 Hughson street north, Rev. W. F. Wilson, of the First Methodist church, spoke the words which joined together, Chas. H. Mann of Hamilton, and Miss M. E. Buntin, in the bands of holy matrimony. Miss Aggie H. Mann, sister of the groom, assisted the bride, while the groom was ably supported by Prof. A. E. Randall. After the ceremony was performed, a dainty repast was partaken of and the evening was enjoyably spent in music and games. Mr. and Mrs. Mann have the best wishes of their many friends for a happy and successful wedded life.

WEDDING BELLS.

Nuptials of Mr. Andrew Graham to Miss Mabel L. Armstrong.

A pretty wedding took place at No. 432 Sherbrooke street on Wednesday evening, the contracting parties being Miss Mable Lillian Armstrong, daughter of the late Christopher Armstrong, of Toronto, and Mr. Andrew Graham, of town. There was a party of about seventy-five guests present at the wedding, and the ceremony was performed as the principles stood in the parlour beneath a magnificent evergreen arch, in which tiny candles sparkled with brilliant effect.

The bridesmaid was Miss Letty Armitage, of Oakwood, and the groomsman, Mr. Jas. Fowler, of North Monaghan. The bride, who was given away by her cousin, Mr. Benrose, wore a veil, fastened with a pearl crescent and lillies-of-the-valley. Her very pretty gown was of cream silk trimmed with applique and chiffon, and her bouquet, of white roses. The bridesmaid wore a becoming gown of nun's veiling trimmed with chiffon, and carried pink roses. Two charming little maids of honour, Miss Flossie Armitage and Miss Myrtle Benrose, were dressed in white silk and carried baskets of flowers. When all were assembled for the ceremony it was a very pretty scene. Rev. D. O. Crossley officiated. The wedding march was played by Miss Maude Benrose.

After the ceremony an excellent wedding breakfast was held in the dining-hall, where decorations of evergreens and Chinese lanterns were very artistic and much admired.

The bride was the receipient of many beautiful gifts. The groom's present was a beautiful diamond brooch with pearl setting.

Friends were present at the wedding from Toronto, Shelbourne, Lindsay, Beeton, Campbellford and Cavanville.

Mr. and Mrs. Graham will reside at 436 Sherbrooke street.

MARRIED IN HASTINGS.

Mr. James Ryan, of Town, Claims a Bride From Asphodel.

In St. Mary's church, Hastings, on Wednesday morning, the marriage was solemnized of Miss Lena Lynch, eldest daughter of Mr. Michael Lynch of Asphodel, and Mr. Jas. Ryan, of Peterborough.

The ceremony was performed by Rev. P. McGuire.

The bride was assisted by her sister, Miss Bessie Lynch, and Mr. Foley of Keene was best man.

After the ceremony a reception was tendered the newly wedded couple at the home of the bride's father. Mr. and Mrs. Ryan will take up their home in Westwood.

TO DREDGE THE RIVER.

Mayor Denne and Party Home From Ottawa.

Hon. Senator Cox Joined the Party at Ottawa and Introduced Them to Hon. Mr. Tarte.

A deputation from Peterborough visited Ottawa yesterday for the object of impressing upon the Dominion Government the necessity of having the Otonabee River dredged from the Little Lake to the American Cereal Co's premises, above the Hunter street bridge.

The deputation consisted of His Worship Mayor Denne, T. A. S. Hay, Town Engineer, R. Stuart, of the American Cereal Co., and Mr. Richards, the Traffic Manager of the same. At Ottawa the deputation was joined by Hon. Senator Cox, Mr. Douglass and Mr. Keefer of the Cereal Company.

The deputation was very cordially received by Hon. J. I. Tarte, Minister of Public Works. Hon. Senator Cox, Mayor Denne and Mr. R. Stewart addressed the Minister on the importance of their request, while Mr. Hay and Mr. Keefer explained the nature of the work in detail.

After listening very attentively to the representations of the deputations, Hon. Mr. Tarte assured them that the work would be undertaken, and more than this, that it would be commenced at once. He was deeply impressed with the importance of the work, and saw nothing to prevent it being accomplished.

Later on in the evening, Senator Cox was assured that arrangements had been made for the work to proceed forthwith.

The Peterborough gentlemen arrived home last evening.

THEIR NEW QUARTERS.

Messrs. Jordan Bros. Have Moved to No. 416 George Street.

"Jordan's Up-to-Date New Floral Store," is the name that No. 416 George street, will be known by. Messrs. Jordan Bros., Peterborough's well-known florists, have moved to their handsome and convenient quarters, opposite the Examiner office. The store is very attractively finished off, painted in beautiful shades of colour, furnished with pretty electric lights and is up-to-date in every respect. It will be kept constantly stocked with the latest novelties in flowers and foliage plants, and there are now on hand a number of Japanese fern balls, which are well worth seeing. The large and commodious window, with its beautiful plate glass, will present a handsome appearance when decked out in Jordan's well-known style.

PERSONALS.

Mr. J. H. McClellan returned yesterday evening from Montreal.

Miss Carney, trained nurse, is engaged in professional work in Omemee.

Miss Edith Russell of Millbrook, was the guest of Mrs. John Crane, yesterday.

Mr. Macfarlane Wilson's condition is steadily improving, much to the relief of his friends.

Mrs. George Hankinson of town, is visiting her mother, Mrs. T. B Thomas, in Campbellford.

Miss Annie Irwin, who has been attending Havergal Ladies' College, Toronto, is home for a short time.

Mrs. William Irwin's many friends will be pleased to learn that she is recovering from her recent severe illness.

Mrs. W. R. Russell and sons, Jack and Hartley, of Quebec, who have been visiting in town for the past three weeks, left for Quebec to-day.

Mrs. Thos. Henry has left Peterborough to visit with her daughter, Mrs. Dr. Drain, in Dunkirk, N. Y. Miss Annie Henry accompanied her mother.

NEWS NUGGETS.

—The trout fishing season opened to-day at sunrise.

—There will be service as usual in All Saints' church this evening.

—A choir of fifty girl voices will do the singing at the song sermon in the Charlotte street church on Sunday evening.

—The directors of the Little Lake Cemetery Co., will visit the cemetery this afternoon for the purpose of laying out the work of the season.

—A short Gospel service will be held at the Y.W.C.A. rooms to-morrow evening at eight o'clock. Subject, "The Cure for Fear." All young women are invited.

—Pleased customers are being added daily to the growing list of visitors at the New Patent Medicine Store, in the Grand Central Block. The stock is regularly replenished with fresh lots of reliable preparations—the best that money can buy. The prices make the goods move fast. d

—The Majestic and Empress of Lakefield, started last Friday from Squaw River, with a large block of forest produce for Mr. Alf. McDonald of Peterborough. It was a rush order to get the logs to the mill as early as possible. The heavy winds have caused delays for the small logs cannot be kept in the booms in very rough weather.

—Mr. William McFarlane and family moved to Lovesick Lock, by Capt. Lewis' steam launch Pearl, on Monday, after spending the winter in Bobcaygeon. Mr. and Mrs. McFarlane wish to thank all their friends who were so kindly and sympathetic in their attentions during the prolonged and anxious period of the illness of their daughter, Miss Veronica. Mr. McFarlane is looking forward to a busy season at the locks this year, with the rapidly increasing popularity of the Kawartha Lakes.

—A loving husband who had exhausted all explanations for late hours, and who had no apology ready, silently slipped into the house at about one o'clock, quietly undressed himself and began rocking the cradle by the bedside, as if he had been awakened by the infant's cries. He had rocked the cradle for about five minutes, when his wife, who had witnessed the whole manoeuvre, said—"Come to bed, John; here's the baby."

FISH! FISH! FISH!

For Friday and following days. We have 'em. Order early and avoid disappointments. Full line of vegetables, pineapples, and strawberries for Saturday.—S. A. OKE, 376 George street. Tel. 18.

LAKEFIELD.

(From our own Correspondent.)

Mr. Heilberg, of Warners, New York, is in the village employed by the Lakefield Portland Cement Co., on the chemical staff. The Cement Co. are leaving no stone unturned to bring, and maintain, Monarch Brand Cement to the highest standard of strength and excellence.

Mr. Thos. Ridpath, of Painsville, Ohio, a former merchant tailor of this place was in the village Friday and Saturday of last week on a short visit to his mother, Mrs. Ridpath.

Miss Ray is in Toronto this week, having been called to the city owing to the illness of her sister, Miss Fanny Ray, who is in the city being treated.

Messrs. Adam Hall and R. R. Hall, of Peterborough, paid a visit to our town on Wednesday last in the interests of the Otonabee Power Co.

Mr. Wm. Hendren, of Winnipeg, was in the village Thursday last, the guest of Mrs. Wm. Cox, sr.

Miss Gertrude Wallace returned from her visit with Miss Fitzgerald, of Ashburnham, on Thursday last.

Mr. and Mrs. J. Dinwoodie, late of Montreal, who have been visiting with Mr. Dinwoodie's parents here, left on Monday for Portland, Oregon, where "Jack" has secured a lucrative position on an engineering staff.

Mr. Hughes-Charles, Manager Bank of Commerce, Peterborough, was in the village Thursday last and paid a visit to the principle industries of our town.

Mr. and Mrs. Ed. Fitzgerald, of Smith, had the misfortune to be upset by the shying of their horse while driving home the other evening. Mrs. Fitzgerald sustained several severe bruises but is progressing favourably under the efficient care of Dr. D. Fraser, who is attending her.

Miss L. Kearney, of Young's Point, who has been visiting in the village for the past week left on Monday for Peterborough, where she intends staying for a short period.

Mr. and Mrs. Bealey, of New Zealand, are staying in the village for a short visit with Mrs. Bealey's father, Mr. Bloomfield. Mrs. Bealey's many friends in the village are much pleased to have her in their midst again. They leave shortly for England to visit Mr. Bealey's relatives there.

The Lakefield community was much shocked to hear of the demise on Friday night of Miss Preston, of Smith, who was so well and favourably known here. The funeral took place Monday and was very largely attended.

OTONABEE.

A large and enthusiastic meeting of the electors of Otonabee was held at Grady's school house last week, when arrangements were made for carrying on Mr. Anderson's campaign and rolling up for him the biggest majority ever polled in Ontabee. The farmers of the East Riding know a good man when they see him. Mr. Anderson has faithfully represented Otonabee for many years in the County Council, and can be depended upon to serve the county just as well in the Legislature, and be a worthy successor to Mr. Blezard. The farmers around here are not going to be represented by a doctor but by one of themselves, and are making a great rally around Mr. Anderson.

Catarrhozone.

An instant relief and perfect cure for colds, coughs, catarrh, deafness, Asthma, bronchitis, lung trouble and consumption.

Inhale Catarrhozone five minutes any time and it kills a cough or cold in the head.

Inhale Catarrhozone ten minutes every hour and it cures Pneumonia, Consumption, Lung troubles and prevents all contagious diseases. Complete outfit $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

SPORTING PASTIMES.

GOLF.

The Golf Links were formally opened for the season, yesterday, and a great number were in attendance at the inaugural tea of the President. Mr. John Crane is the presiding officer this season and his kindly hospitality was thoroughly enjoyed yesterday. Mrs. Crane was assisted at the tables by Mrs. A. H. Stratton, Mrs. E. C. Complin and Mrs. C. B. McAllister. The Club Room was most daintily decorated in red and green, the Club colours. The magnificence of the great bunches of American Beauty roses was generally commented upon. Mr. and Mrs. Crane are to be congratulated on the great success which attended the function. During the afternoon a number of mixed foursomes were played. The ladies who received the prizes donated by the President to those making the lowest scores were, Miss Clementi, Mrs. W. H. Hill and Mrs. R. M. Dennistoun.

LACROSSE.

The Port Hope Guide says; Many colors will be displayed among the lacrosse teams here this summer. The Ontarios will retain the old reliable colour, old gold and black, the Diamonds, black, the Victorias, green and white; the Young Ontarios, red and white, the Shamrocks, white; the Tecumsehs, blue and white; and the Beavers, red and black." Great Scott! how many teams has Port Hope anyway?

Now that harmony has once more been established in the senior series of the Canadian Lacrosse Association interest is being manifested in the make up of the teams. District No. 1, composed of Orangeville, Tecumsehs, Brantford and St. Catharines, has about completed the formation of its teams. A few additional men may be signed by each club but a glance at the following list will show that there are few vacant places;

Brantford — Goal, Kelly; point, J. Dowling; cover, Hamburg, defence field, Dorenzy, Neely, McBride; centre Wilson; home field, F. Dowling, E. Doyle, L. Doyle, outside home, W. Cain, inside home, Bert Henry. With Taylor, Brierly and Allan to fill up gaps.

Orangeville—Goal, Kearns, point, W. Kearns; cover, Menary, defence field, Shore, Madill, Campbell; centre, J. Irvine, home field, McIntyre, Swain, Hatcher; outside, W. Irvine, inside, J. Henry. And Goodall and other prominent youngsters.

Tecumsehs—Goal, Dobbin or James; point, Davis; cover, "Sox" Clark; defence field, Angus, Squles, Hogan; centre, Bond; home field, O'Connor, Kelly, Durkin; outside, Pennock; inside, Greatrix. With Graydon, Coleman, Roche, and others to be heard from.

St. Catharines—Goal, Dixon; point, F. Williams; cover, Elliott, defence field, R. Williams, "Sleepy" Harris, Chaplin; centre, McIlwain; home field, Lowe, T. Downey, Gourlay; outside, Connett; inside, C. Downey. And others of the old brigade, as well as promising youngsters.

The Athletics will practice at the Central Park to-night, and a large turnout of the members is requested.

THE GUN.

The annual meeting of the Port Hope Gun Club was held on Monday evening, April 28th, and the following officers were elected:—

President—Charles Whittleton.
Vice President—T. Pepler.
Secretary-Treasurer—W. M. Miller.
Captain—Thomas Tuer.

BASEBALL.

The Brewery Baseball Club of Port Hope recently held a very successful meeting for the purpose of organizing. The following officers were elected to look after the interests of the team.

Hon. Pres.—H. M. Allen.
Pres.—T. H. Ambrose.
Vice.-Pres. —T. M. Todd.
2nd Vice-Pres.—J. Miller.
Capt.—John Hagerman.
Field Capt.—H. Mallet.
Treas.—R. W. Smart.
Sec.—W. J. Ralph.
Managing Committee — J. N. Brown, R. W. Smart, W. J. Ralph, W. Smith, John Hagerman, Harry Mallett and L. Brooks.

The colours will be blue and white, and the practice grounds behind the establishment.

Belleville has organized, with the following officers;

Hon. Pres.—Mr. H. Corby, ex-M.P.
Hon. Vice-Pres.—Mr. Ier.
Pres.—E. H. Farrow.
Vice-Pres.—J. V. Jenkins.
Sec.—W. Belair.
Treas.—F. Dolan.
Manager—H. Burrell.

Messrs. W. Hitchon, and H. Burrell were appointed a committee to look after grounds for practice, and to report at an adjourned meeting to be held on Monday evening.

"PLAY BALL."

Denver Post.

"Play ball!" The old cry echoes o'er the peaceful vale of Cherry Creek, and from the bleachers comes a rear as rows of rooters spring a leak! The batter grasps the willow club, the pitcher strikes an attitude, the catcher gives his hands a rub, the umpire stands with keen eyes upon the play; the ball has gone — and once again the season's on!

"Way up the telegraph pole the eager small boy perches high, and in the fence each knotty hole—and they are many—frames an eye. The score-card merchant's voice rings out, the voice through all the winter dumb, the peanut venders loudly shout, the kid proclaims his chewing gum, and that same cushion man is there our pantalettes to save from wear.

The knocker with his noisy knock, the kicker with his mulish kick, the talker with his baily talk upon the seats as files are thick. The ladies in their smart attire, enthusiasm in their eyes, are there in bevies to admire, and laud the players to the skies, and spank their dainty hands when one of handsome figure makes a run.

The old excuses now are fed to bosses from employees' lips. The grandma on her dying bed, the wife at home down with la grippe. That dying grandma will be spied beside her grandson sitting there, the sick wife by her husband's side, and how those frauds will blush and stare to catch their old employer's eyes, lit up with half-amused surprise!

The game is on, the season's here, the stricken ball cuts through the air, the batters fan the atmosphere, the runners 'round the bases tear; the umpire calls the strikes and balls, puts runners out when they are in, nor heeds the rooters' angry squalls that they will kill him sure as sin! The season's here, the same old mugs, and on the seats the same old us!

STOCK MARKETS.

Commission Houses' Sentiment Veering.

New York, May 1,—Many of the stock commission houses fearing a money pinch consequently in their own interests advised waiting before making purchases, now have openly espoused the bull side of the market and advise purchases. Their ultra conservation before was because they did not care to borrow large amounts of money if it were high to carry stocks for customers loaning same to them at a regular rate of six. Their customers missed a good many bargains through this action, but are not permitted to make purchases at a higher figure. The benefit of the customers should be the first consideration of a Wall street Commission House. We desire to state right here that our clients can purchase stocks at any time and we will carry same for them at any rate never exceeding 6 per cent., no matter how high the current rates for money may go. To return to our subject the aforesaid action of various houses brings at present additional buying power to the market. The houses are carrying but small lines and now that the danger of any money squeeze is past their influence will be in the direction of increasing the bullish committments of their clientele. The public are certainly now entering the market and in larger numbers than for some time past. The public is and always has been the greatest existent buying. We again dwell upon the new high records made for the best class of stocks, such as Pullman, N. W., D. L. W., etc. The high prices now commanded by such shares are most certain and infallible indices as to the future of current values. We herewith enumerate a few good bargains at present prices: Union Pac. com. and pfd. Southern Ry. issues, Alch. issues, Reading issues, Ill. Cen., Mop. T. C. I., U. S. Steel issues, Kt. issues, Tex. Pa., B.R.T., St. P., Penna. Southern Pac. These are all good to buy and hold at present. Lower priced shares will do well if purchased now also.

Mr. A. A. Houseman, one of the brokers representing the leading interests upon the exchange, and, who for the past three years has been unusually correct in diagonizing movement of market, now declares we are on the eve of one of the greatest rises the country has ever witnessed. The div. at rate of 3 per cent. declared on Penna. to-day stimulated matters, the stock rose to within a fraction of 155. All southern issues took on marked strength under leadership of L. N., which advanced about 6 points. Trading in southern railway shares increased. They will go higher.

HAIGHT & FREESE CO.

GOLF BALLS—that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Salisbury Co.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

Miss Delaney's Millinery

SURPASSES ALL

Beautiful Millinery—very newest ideas and ornamentations in choicest assortments. We are selling a much larger number of Fine Hats than we did last April. The Store grows daily more popular with ladies, who carefully seek the artistic and exclusive in refined styles. Hundreds of delightfully Summery Hats,—the latest American and Parisian styles.

EVERYBODY MUST EAT.

But it makes a big difference to health of purse and body where you buy your eatables.

It's the difference between the month-old egg and the egg of to-day, that gives the latter its values.

Everything in our store is **FRESH** and first-class.

Many brain workers find good Ale invaluable. Our Bottled Ales are in the finest condition—fully matured.

HENRY & CO.

Family Grocers and Wine Merchants, Opposite the Opera House, George Street.

A Remarkable Sentence.

The Latin sentence, "Sator arepo tenet opera rotas," which is, it must be admitted, pretty bad Latin, is a curiosity nevertheless. It can be freely translated as "I cease from my work; the sower will wear away his wheels." Its fine oddities are these:

It spells the same backward as forward.

The first letter of each word spells the first word.

The same may be said of the second, third, fourth and fifth letters.

The last letters, read backward, spell the first word, the next to the last the second word, and so on throughout.

There are just as many letters in each word as there are words in the sentence.

Her Good Business Head.

"You say she is a good business woman?"

"Oh, splendid, incomparable. She lets absolutely nothing drive business out of her head. Why, just before Harold started for Europe he proposed to her by letter and asked her to telegraph her answer."

"Well?"

"Well, most people would have telegraphed 'Yes' or 'No,' but she had enough of a business head to wire, 'It affords me great pleasure to say yes to you,' thus preventing the telegraph company from getting any advantage of her in charging for a ten word message."

Logs on the Way.

Many of the lakes and streams in the lumbering districts are now dotted with sawlogs, which were out and drawn to the water's edge in winter. Hundreds of men are now at work starting the "drives" on their journey southward to the mills. The first drive will reach here about the 15th inst.

HORSES WANTED.

Mr. N. McIndoo will be at the Morgan House on Saturday, May 3rd, to purchase horses for the South African War. The horses must be 14-1 to 15-2 hands in height. 2diw.

Doctors Like It.

For over twenty years Vapo-Cresolene has received the unqualified support of the medical profession; we feel very proud of this. Physicians everywhere realize the importance of this direct way of treating all throat affections. Put some Cresolene in the vaporizer, light lamp beneath, and then breathe-in the healing and germ destroying vapor. It is the doctor's prescription now for whooping cough, frequently curing it in a few days. 24

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.5 ; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Hamilton, druggist.

BURGHERS FOR PEACE

Even Dewet Advises His Followers to Vote for It.

MEETING OF THE BOER LEADERS

Final Talk on Peace Will Take Place at Vereeniging, in the Transvaal, on May 15—Over 200 Boer Delegates Are to Attend and Decide by a Ballot Vote—Will Present Decision to Lord Kitchener.

Pretoria, May 1.—The general meeting of the Boer leaders, at which a final decision on the subject of peace negotiations is expected will take place at Vereeniging, Transvaal, May 15.

It is officially asserted that subsequent to the deliberations of the Boer leaders at Vereeniging they will proceed to Pretoria and deliver to Lord Kitchener terms they are prepared to accept.

Vereeniging is on the southern border of the Transvaal, where the line of railway from Bloemfontein to Pretoria crosses the Vaal River, and is about 80 miles south of Pretoria.

Boer meetings continue to be held chiefly in the Transvaal to receive the leaders' explanation of the British terms. It is understood that the heated discussions which have occurred have usually shown that the majority are in favor of peace. It is said that about 200 Boer delegates will attend the conference to be held at Vereeniging, Transvaal Colony, May 15, and that all sections of the burghers will be thoroughly represented there. It is expected that a vote by ballot will be taken at this conference. It is reported that Gen. Dewet has frankly declared the British terms to be reasonable, and that it is advisable to accept them, while General Delarey is said to be ready to abide by the decision of the majority.

The outlook for peace, therefore, is promising.

The Western Recruits.

Winnipeg, May 2.—The western contingent of recruits for Canada's third contribution passed through Winnipeg yesterday, bound for Halifax, and South Africa. They were joined here by nearly 200 men, making the party nearly 600 strong leaving Winnipeg. Despite a heavy rain, a hearty send-off was given the men.

SALVATION ARMY.

Captain Lacey, an Earnest Worker in Hamilton, Ont., Endured Awful Pain —His Patience is Rewarded at Last.

The life of an officer in the Salvation Army is never a bed of roses.

No man or woman has a place in this wonderful organization who is not prepared for hard work.

There is no room in the Army for those who are afraid of hunger, exposure or of hard work seven days in the week.

It is quite natural then, that many of these devoted men and women find themselves devoted men and women find themselves very much run down and the victims of many forms of disease. Captain Lacey of Hamilton than whom there is no more self-sacrificing officer in the service of the Salvation Army in Canada, was tortured for eight long years with Dyspepsia.

He exercised the greatest care possible in his diet, and did everything in his power to correct the trouble, but to no purpose.

He used many medicines and treatments, some of which gave him a little temporary relief, but none gave him a permanent cure.

At last, by the advice of friends, he began a treatment of Dodd's Dyspepsia Tablets, and the results in his case were simply marvellous. The first dose gave him positive and instant relief, and before the first box was completely used he was almost entirely cured.

He can now eat anything he cares to without the slightest unpleasant consequences, and his general health is very much improved.

It is not often that such a small quantity even of Dodd's Dyspepsia Tablets will make a complete cure of a case of eight year's standing but Captain Lacey's careful living no doubt very much assisted and facilitated the treatment.

Captain Lacey's experience is only one of a great many, and it is conspicuous only on account of the exceptional severity of the case, and the remarkable rapidity of his recovery through the use of Dodd's Dyspepsia Tablets.

TAPS FROM THE WIRES.

Gen. Sir William Olpherts, V.C., who gained the sobriquet of "Hellfire Jack," at Lucknow, is dead. He was born in 1822.

The libel suit by Lord Suffield against Henry Labouchere, was settled Thursday morning. Mr. Labouchere withdrew all the imputations on the honor of Lord Suffield.

The Government has been petitioned by the Press Association to reimburse it for $1,800 expended in paper investigation, and to make reduced duty on paper, applicable to all newspapers.

One section of the New Toronto Junction stockyards of 22 pens, containing 21 carloads of hay, was burned down on Thursday. Incendiarism is suspected. The total loss will be $10,000.

Saved his Laundry Bill.

A customer in our store put it uniquely recently by saying the 25c he spent for a bottle of Four T's saved him an extra quarter in laundry bills. The only thing he was out was the cold in the head. Get a bottle today, if you have a cough or cold; try the same experiment. Sold at Ormond and Walsh's drug store.

A Real Bereavement.

OFFSET TO SHIPPING COMBINE

Debate on the Subject in the House—Mr. Balfour Explains the Position of the Government on the Subject—White Star Contracts Have Still Two Years—New Arrangements Probable.

London, May 2.—An attempt was made in the House of Commons yesterday to get the Government to pledge itself to prevent the transfer of British steamships to a foreign flag, pending the report of the committee under the chairmanship of the Earl of Camperdown, recently appointed to inquire into the subject.

The Government leader, A. J. Balfour, pointed out that a suggestion of such a startling character could not be carried out without the gravest consideration. It simply amounted to a proposal that the Government should prevent a British subject from selling his property to a foreigner. No doubt the matter referred to would be very serious, but such a drastic change in established practice could not be undertaken lightly.

After the President of the Board of Trade, Gerald Balfour, had informed the House of Commons, yesterday afternoon that he had been confidentially informed of the terms of the proposed trans-Atlantic combine, which did not necessarily involve a change in the nationality of the ships, and the Government leader, A. J. Balfour, had announced that the officials of the White Star Line did not appear to have violated their contract with the British Admiralty, Russell Rea (Radical), a ship-owner and merchant, moved the adjournment of the house in order to discuss the matter, which was of urgent public importance.

A few members having spoken of the very great anxiety experienced throughout the country as a result of the formation of a combine of such strength and character as the American shipping syndicate, A. J. Balfour expressed the hope that the debate would be closed. He quite appreciated the importance of the subject, and the desire of the members to discuss it. But no useful purpose could be served by a debate now. The Government had been privately informed regarding the actions of private individuals, and it was giving the matter anxious consideration, but, if it disclosed this information, it would shut the door to further confidence.

The Government would be bound to make such arrangements with regard to the navy as the proposed changes might necessitate; but regarding the effect of the combination on British marine interests and what should be done to meet it, no announcement of its policy could be made except after prolonged and anxious consideration of the complicated problem. Under the present arrangements, the subsidized ships remain in the service of the Admiralty for another two years, and the Government would be much blameable, if, in the interim, it could not either negotiate a continuance of the existing arrangements or make others equally serviceable to the Admiralty and the country.

In the meantime the Government did not propose on the spur of the moment to announce any departure from the traditional policy of not interfering with the freedom of commerce. The Ministers would be charlatans if they did anything of the kind. It was necessary to most carefully and thoroughly sift the whole matter, from a commercial point of view. It must be remembered that this was not a commercial enterprise, engineered by a foreign and hostile Government; but a trade combination. Those who thought this combine so menaced the commerce of this country that if the Government should interfere it would be admitting, whether they liked it or not, that the doctrine of individual enterprise had broken down.

James Bryce (Liberal), former president of the Board of Trade, advocated the withdrawal of the motion; but he urged the Government to make a prompt inquiry into the subject.

Other speakers held that the arrangement was in no way unpatriotic. It was an alliance, not annexation by Americans. The companies had simply made the reasonable and businesslike combine.

Sir James Woodhouse (Liberal), disclaimed all antipathy to or ill-feeling for Americans, but, he asserted, British maritime and mercantile interests were menaced by the Americans, who had already captured the British shoe and steel industries, and he wanted the Government to take action in order to stem the tide.

The remarks of Rear-Admiral Lord Charles Beresford (Conservative), rather sided with those who thought the American invasion spelled ruin to Britishers. He said he feared the American trust would use this combination to pour American produce into this country, to the disadvantage of the producers here, and that there would be a general disruption of the whole trade and commerce of Great Britain. Lord Beresford advocated subsidizing steamers on the Canadian route.

Mr. Rea's motion was ultimately withdrawn.

Victoria Cabinet Resigns.

Melbourne, Victoria, May 2.—As an outcome of the dissatisfaction with the constitution and the Government, the Victoria cabinet has resigned. This step was taken in order to enable the Premier, Hon. A. J. Peacock, to reconstruct the Ministry. He is now considering the situation.

Arrested at Winnipeg.

Winnipeg, May 2.—A Rat Portage merchant named W. A. McLeod was arrested in this city yesterday on the charge of having defrauded the Bank of Ottawa out of a sum of $7,000. When the prisoner was searched at the police station he had $1,000 in his possession. The prisoner was taken back to Rat Portage for trial to-day.

Irritating Pimples and Disfiguring Blotches.

They place many young girls at a great disadvantage in life. The only cure is a blood purifier like Ferrozone. It cleanses the crimson flood of poisons and impurities, renews and strengthens it, and makes lots of red corpuscles that manifest their presence by a ruddy, healthy glow in the cheeks and lips. Ferrozone quickly masters all skin erruptions, builds up broken-down constitutions, and gives to weak, sickly women an abundance of spirits, vitality, energy and beauty. Try Ferrozone, it's all right. Price 50c. per box, or 6 boxes for $2.50, at Ormond & Walsh's drug store.

The Ingredients of Fireworks.

The chief constituents of all fireworks are gunpowder and its ingredients. Iron and steel filings and cast iron borings, free from rust, are used to increase the brightness of the display and produce the Chinese fire. When the rocket explodes up in the air, the bright and varicolored sparks are produced by these filings as they ignite in the oxygen.

Copper filings and copper salts are used to produce greenish tints. A fine blue is made with zinc filings. A light greenish tint with much smoke is made out of sulphdret of antimony. Amber, resin and common salt protected from dampness produce a yellow fire. Salts of strontia make a red light. A green light is also made by the salts of barium.

Is Not This Stealing?

Are not Imitators who Live on the Reputation of the Article They Imitate Thieves?

In Spite of at Least Half a Dozen Imitators, Dr. Chase's Syrup of Linseed and Turpentine has More Than Three Times the Sale of any Remedy Recommended for Throat and Lung Troubles.

Have you ever been imposed upon when asking for Dr. Chase's Syrup of Linseed and Turpentine by being offered an imitation? Many have been and we know of some who have changed their druggist as a result. It is not safe to deal with a druggist who offers imitations and substitutes. An honest druggist will not offend his customers by such questionable methods.

The use of Dr. Chase's Syrup of Linseed and Turpentine has become so universal that on all sides are springing up preparations of turpentine and seed put up in packages similar to Dr. Chase's, with the object of making sales on the reputation of this famous remedy. Is not this dishonourable? Is it not stealing, or even worse? For beside the injury done to the proprietors of Dr. Chase's Syrup of Linseed and Turpentine, the people are being deceived. In some cases no doubt, even life is lost as a result.

Are you being deceived? Have you asked for Dr. Chase's Syrup of Linseed and Turpentine and been given an imitation or substitute? There is no doubt about the virtue of this great throat and lung remedy It is too well known as a thorough cure for bronchitis, coughs and colds, to need further words of commendation. What we want to do is to warn you against imitations. To be certain that you are getting the genuine be sure that Dr. Chase's portrait and signature are on the wrapper.

Dr. Chase's Syrup of Linseed and Turpentine has reached phenomenal sales, because it cures when other remedies fail. It is far-reaching in its effects, curing the cold as well as the cough, and uprooting the most serious forms of bronchitis, asthma, and similar throat and lung diseases. Twenty-five cents a bottle. Family size, three times as much, 60 cents. At all dealers, or Edmanson, Bates & Company, Toronto. 2

Old ideas and old customs must give way to the improvements of an advanced age. The ancient town crier is succeeded by the modern newspaper and the ancient harsh physics by

Abbey's Effervescent Salt

The great tonic laxative. It starts at the root of most all common ailments, the stomach and bowels, getting them into action in a gentle but sure way.

It has a tonic effect on the digestive organs aiding them in the performance of their proper duties.

SOME PEACE RUMORS

Sensations on London Stock Exchange Sent From New York.

DELAREY'S MEN MEET THIS WEEK

Generous Treatment of the Boers Urged—Views of the London Times Correspondent in South Africa—What Britain Should Do on Her Own Initiative—The Cost of the War.

London, May 1.—There is no truth in the reports circulated in the United States yesterday that Gen. Delarey with three Boer commandoes has surrendered to the British in South Africa. The War Office received despatches from Lord Kitchener yesterday, but he made no mention of surrenders.

Operators on the Stock Exchange were busy with peace rumors, but they were all very intangible. Two Boer commandoes were said to have surrendered. This later was supplemented by the New York report that Gen. Delarey and three commandoes had given themselves up. As a matter of fact, Delarey arrived at Klerksdorp April 24, and his commandoes under Gen. Kemp were arranging to hold a meeting westward of that place during the present week.

URGES LENIENT POLICY.

London Times Correspondent Says Easy Terms Will Be an Aid to Peace.

London, May 1.—Mail advices from Pretoria to The Times urge the abandonment of the Englishman's cry for "unconditional surrender." The correspondent, who remarks that the vast majority of the Boers are now either prisoners, on parole, or inmates of burgher camps, also urges a broad-minded and generous conduct of South African affairs after peace is declared. He suggests that Great Britain on her own initiative promise representative Government within five years, and in the meantime making Crown Government easier and less restrictive every year.

The Cost of the War.

London, May 1.—An official estimate of the total cost of the South African war to March 31, 1903, places the amount at nearly £283,000,000 ($1,115,000,000).

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the same to be careful about—

DR. HARBOTTLE SET FREE.

The Governor-General Wednesday Exercised His Clemency.

Brantford, May 1.—A. E. Watts, solicitor for Dr. Harbottle of Burford, who was sentenced to imprisonment for 12 months for shooting Herman Stuart, and for whose release largely signed petitions were presented to the Minister of Justice, has received a letter stating that orders have now been issued for the release from custody of the prisoner. The letter, which was received yesterday, was as follows:

"Adverting to my letter to you of the 17th ult., re Robert Harbottle, I am now commanded to inform you that His Excellency the Governor-General has been pleased to direct that the prisoner be released from custody. Alexander Pope."

Fell 30 Feet to Death.

Chatham, May 1.—Yesterday at noon George Maynard, a tinsmith, fell 30 feet from the top of a building. A skylight frame was being hoisted, and he stepped out on the plank to which was attached the pulley. His weight and that of the skylight made the fastenings give way, and he was thrown to the walk. He was picked up unconscious and conveyed to St. Joseph's Hospital, where he passed quietly away in an hour. He leaves three children and a wife.

Princess Given Two Years.

Cape Town, April 30.—Princess Radziwill, who has been on trial here before the Supreme Court on the charge of forgery, in connection with notes purporting to have been endorsed by the late Cecil Rhodes, was sentenced to-day to two years' confinement in the House of Correction.

His Body Found.

Midland, May 1.—The mystery surrounding the disappearance of James Finney, who has been missing since last winter, was solved yesterday, when his body was found floating in the bay here by Capt. Stewart of the tug D. L. White.

The bather sometimes finds the sand soft and yielding to his feet. It does not trouble him and he goes on until presently he sinks to his knees and discovers to his horror that he has to fight for his life in a quicksand.

Disease is much like the quicksand. The first symptoms of stomach trouble do not cause anxiety. But when the body grows weak through lack of nourishment and disease of the stomach breeds disease of heart, lungs, liver or kidneys, the sufferer realizes his danger and seeks for medicinal aid.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, lungs, liver, kidneys, etc., when these diseases have their origin in disease of the stomach and its allied organs.

Thomas A. Swarts, of Sub-Station C., Columbus, Ohio, Box 103, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble, and my back got weak so I could scarcely get around. At last I had all the complaints at once, and the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so this I had given up to die. Then a neighbor said, 'Take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles, in about six weeks I was weighed and found I had gained twenty-seven (27) pounds. I have done more hard work in the past eleven months than I did in two years before, and I am as stout and healthy to-day, I think, as I ever was."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

Milch Cows—Milch cows and springers sold at $30 to $55 each.

Calves—Calves sold at $2 to $10 each, or from $4 to $6 per cwt.

Lambs—Yearling lambs sold at $5.50 to $6.50 per cwt.

Spring Lambs—Spring lambs are worth $2.50 to $5 each.

Sheep—Prices $4 to $4.50 for ewes, and bucks at $3.50 to $4 per cwt.

Hogs—Best select bacon hogs, not less than 160 lbs. nor more than 200 lbs. each, off cars, sold at $6.75 per cwt.; lights at $6.50, and fats at $6.50 per cwt.; sows, $5 per cwt., and stags, $3 per cwt.

MONTREAL LIVE STOCK.

Montreal, May 1.—There were about 300 head of butchers' cattle, 40 milch cows, 1000 calves and 100 sheep and lambs offered for sale at the East End Abattoir to-day. In addition to these there were a number of beef cattle and about 1000 calves sold here yesterday. The butchers were out in large numbers, but were much discouraged at the prices for anything good beef for anything like reasonable rates. There were no really prime beeves on the market to-day, and the best of the medium cattle, including a very large fat cow, sold at 6c per lb., which is the highest rate paid for such cattle for nearly 20 years past. Ordinary medium cattle sold at 4¾c to 5¾c, large, rough bulls at from 4½c to 5¼c and the common stock at from 3¼c to 4¼c per lb. Calves sold at from $2 to $3 each, old sheep at from 3¼c to 4c per lb., and the yearlings at 4c to 5c per lb.; spring lambs sold at from $2.50 to $5 each; fat hogs at from $6.50 to $6.90 per 100 lbs., weighed off the cars; milch cows sold at from $30 to $60 each.

NEW YORK LIVE STOCK.

New York, May 1.—Beeves—Receipts, 119; dressed beef steady; city dressed native sides, 9½c to 11½c per lb.; exports to-day, 8 cattle, 60 sheep, 125 quarters of beef; latter estimated. Calves, receipts, 472; slow and weak; about 200 head unsold. Veals sold at $4 to $6 per 100 lbs.; city dressed veals general sales, 8c to 10c per lb. Sheep and lambs, receipts, 1188; sheep steady, but slow, particularly for undergrades; good clipped lambs firm; others slow and steady; clipped sheep sold at $4.50 to $5.25 per 100 lbs., unshorn do. culls at $4 to $4.25; clipped lambs, $5.85 to $6.80; culls at $5.50; a few Jersey spring lambs at $5 each; dressed mutton, 9c to 11c per lb.; dressed lambs, 11c to 12c per lb. Hogs, receipts, 1046; the market was weak; State hogs sold at $7.20 per 100 lbs.

BRITISH CATTLE MARKET.

London, May 1.—Prices firm; live cattle, 14c to 14½c, dressed weight; refrigerator beef, 11½c per lb.

CHEESE MARKETS.

Brockville, Ont., May 1.—Brockville cheese board opened for the season to-day. The offerings to-day were 841 colored and 560 white cheese. The salesmen wanted 11c, but the highest bid was 10⅝c, and every box was sold on the board at that price.

A Great Sufferer Cured

Mr. Benjamin Dillon, of Leeds, Ont., was cured of Muscular Rheumatism by Polson's Nerviline, and says: "I feel my duty is to proclaim Polson's Nerviline as an infallible cure for Rheumatism; it cured me after 30 years suffering, and nothing I know of can equal its penetrating power. Nerviline simply has no equal in quickly relieving and curing Rheumatism, Neuralgia, Sciatica, and Lumbago. A trial will convince anyone. Price 25c.

BIG SURPLUS OF CATTLE.

Not Half of Those Offered in Chicago Were Sold.

Chicago, May 2.—The Record-Herald yesterday says: "More live stock was carried over unsold at the yards last night than on any previous day this year. Representatives of the packers spent more than an hour looking the markets over before they took hold to any important extent. Then they bought about 8,000 out of the 18,000 head of cattle received, and drew out of the market. At the close of business there were 10,000 cattle left over unsold, and half as many hogs."

After 33 Years.

Brantford, May 2.—After 33 years service Division Court Clerk Robinson has resigned.

Wonders of the Heart.

All the blood in the human body passes through the heart in about three minutes. The heart beats 70 times a minute, 4200 times an hour, 100,800 times a day, throwing out 2 1-2 ounces of blood a second, 656 pounds an hour, 7 and 3-4 tons per day. It is only when supplied with pure, rich, blood that the heart, an organ six inches long by four inches inches wide, can accomplish this enormous amount of work, and rebuild its only wasted tissues. Dr. Chase's Nerve Food is the most effective treatment available for heart affections because it forms new, red blood and gives to it that life-sustaining quality, which is necessary to the health of every organ.

Teachers at Liverpool.

Ottawa, May 1.—The State Department was advised yesterday by cable that the Lake Ontario, from St. John, had arrived in Liverpool with the Canadian school teachers on board. The cable says all were well.

Norwegian Immigrants.

Halifax, N.S., May 1.—The steamer Belgravia, from Christiania, with 1,600 immigrants, arrived here at 4 o'clock yesterday morning.

ACKNOWLEDGED THE CORN

A Popular Expression That Had Its Origin In Congress.

The following is the origin of "I acknowledge the corn," which is used in the sense of admitting failure or having been outwitted: In 1828 Andrew Stewart was in congress discussing the principles of protection and said in the course of his remarks that Ohio, Kentucky and Indiana sent their haystacks, cornfields and fodder to New York and Philadelphia markets to sell.

Charles A. Wyckliffe jumped up and said: "Why, that is absurd. Mr. Speaker, I call the gentleman to order. He is stating an absurdity. We never send haystacks or cornfields to New York or Philadelphia."

"Well, what do you send?" asked Stewart.

"We send," replied Wyckcliffe, "horses, cattle, hogs and mules."

"Well," continued Stewart, "what makes your horses, cattle, hogs and mules? You feed $100 worth of hay to a horse; you get on top of your haystack and ride off to market. How about your cattle? You make every one carry $50 worth of hay or grass to an eastern market. You send a hog worth $10 to market. How much corn at 33 cents a bushel does it take to fatten it? Why, thirty bushels. Then you put thirty bushels of corn into the shape of a hog and make it walk to an eastern market."

Before Stewart could proceed further Wyckliffe arose and said, "Mr. Speaker, I acknowledge the corn."

Scotch Consolation.

A story is told of a canny Scot who dealt in old horses, alternating his spells of labor with heavy sprees. During the period of depression which followed each overindulgence John habitually took to bed and there diligibtly studied the family Bible. During one of these fits of attempted reformation his condition prompted his wife to call in the Rev. Mr. Wallace, the parish minister, who at the time happened to be passing.

"Oh, Maister Wallace, come in and see oor John. He's rale bad."

"What's wrang wi' him?"

"He's feart to meet his Makker," said Mrs. John.

Quick as fire came the crushing reply:

"Humph! Tell'm he needna be feart for that. He'll never see'm!"

The Home of the Kindergarten.

The Japanese have the most perfect kindergarten system in the world. In fact, they originated this method of instructing by entertainment instead of by punishment. Their play apparatus for such purposes is elaborate, but all of it is adapted to the infant mind, which it is designed at once to amuse and to inform. The little ones of Japan even become somewhat interested in mathematics by seeing and feeling what a pretty thing a cone, a sphere or a cylinder is when cut out of wood with a lathe. They make outlines of solid figures out of straw, with green peas to hold the joints together, and for the instruction of the blind flat blocks are provided, with the Japanese characters raised upon them.

McKinley and His Mother.

Dr. Rixey, who for some years was the private physician in the McKinley household, used to tell that when the late president's mother sat down for the first time to a White House dinner what seemed to impress her most was the prodigal supply of cream. She commented on the abundance and then added, "Well, William, at last I know what they mean when they speak of the cream of society."

The president laughed. "I admit," said he, "that there seems to be an extravagant array of cream on the table, but you know, mother, we can afford to keep a cow now."

Dickens' Unfortunate Love.

Concerning Charles Dickens, it is well known that though he married Catherine, one of George Hogarth's three daughters, in 1836, he was later devotedly attached to her sister Mary. Why he did not marry Mary in the first place is not certainly known, unless it be that Mary, a young woman of great loveliness of character, had successfully concealed her own affection for Catherine's betrothed in order to save her sister from disappointment.

Friendly Aid.

Jinks—See here, old boy! You ought to do something to reduce your flesh. You are becoming fearfully stout.

Minks—Say, Jinks, you are about the fortieth friend who has made that offensive remark today, and I'm getting tired of it. It worries me.

Jinks—That's all right. Worry reduces flesh.

A Strenuous Life.

"I suppose a public man has to read a great deal," said the thoughtful man.

"Yes," answered Senator Sorghum; "the demand for anecdotes is so great now that a man has to keep digging in the library all the time in order to keep up the supply of stories about himself."

Advertise in the Examiner.

WHAT MOVED THE DOG?

A Remarkable Story of Canine Intelligence and Affection.

Among the tales told of the intelligence and affection of our canine friends by Mrs. Sarah K. Bolton in her book, "Our Devoted Friend, the Dog," is the story of Dan, a deerhound owned by Mr. L. C. Meachamp of Homer, La.

Mr. Meachamp was one day going on a squirrel hunt and, not wishing Dan to accompany him, tied the dog to a post by a rope. Dan whined and begged, but finding his master obdurate he at last lay down quietly before his kennel.

It was growing dusk and time for the hunter to return, when Mrs. Meachamp was suddenly disturbed by the whining and barking of the dog, who had been quiet all day up to that time. She spoke to the dog, but instead of being pacified at this attention he redoubled his exertions and broke the rope which held him. Then he bounded away, over the fence and into the woods.

He was gone perhaps half an hour when he came running back, panting and almost breathless, with his master's hat in his mouth.

Mrs. Meachamp became at once alarmed, and, calling her son, they set off to find the missing man, Dan all the time bounding ahead and leading the way. At length they came upon Mr. Meachamp lying helpless in the woods, where he had fallen into a little ditch and broken his leg.

The accident happened, as nearly as could be reckoned, at the moment when the dog began to show his uneasiness. That he should have had knowledge of the accident seems incredible, but his master firmly believes that he did know it and that it was because he knew it that he was so anxious to get away.

Swallowing Abilities of Snakes.

The jaws of the chicken snake, says a Texan, are hung on hinges that can be taken apart or displaced for the time being, as the case may be, and an entire Texas cottontail rabbit can be persuaded to enter, head and all, with little effort, and the body, being made of india rubberlike material and very stretchable, the kicking little animal soon finds a lodgment in the stomach. His snakeship then carefully resets his jaws so that his mouth assumes its normal size and blissfully reposes for the succeeding six hours. The powerful gastric juice does the balance, and no Texan can testify that he ever heard a chicken snake suffering from indigestion or chronic dyspepsia. The capture and digestion of chickens, song birds, turkey eggs and rats constitute simple pastime to the chicken snake and do not call for a six hour layoff in feeding time.

A Genuine Triumph

in the medical line is that made by a Brantford druggist, called Merrill's System Tonic. It embodies an idea long thought of but just recently made chemically possible. When system Tonic is taken the old blood is purified, new rich blood is made, while all the principal organs in the body are toned and new tissue constructed. The result is perfect health. Sold in 50c. bottles, at Ormond & Walsh's drug store.

FIFTH.—House No. 119, Weller street, 2 story brick, with garden and yard.

As the owner of this property has decided to dispose of it as soon as possible, any reasonable offer will be considered. For particulars apply to W. BLACKWELL, Architect, Water street. Peterborough, March 17th, 1901. 20d101

A Clerical Pun.

On one occasion at Athy, where Canon Stavely, the English divine, was then stationed, he was visited by the archbishop, whom he induced to visit a new coffee house which had just been opened in the interests of temperance. Naturally the distinguished guest was served with a sample cup of coffee. He tasted it, while Canon Bagot and the manager waited in complacent expectancy of commendation.

They were disappointed. The cup was hastily set aside by the bishop, who ejaculated, with prolonged and unmistakable emphasis:

"A-bom-in-able!"

Then the manager suddenly remembered. "Oh, your grace," he explained, "a box of matches fell into the coffee tank this morning, and I did not think it right to waste all the contents of it."

"If your grace will come again," promised Canon Bagot, interposing quickly, "I faithfully promise you a matchless cup of coffee."

Child Must Grow.

The child must grow when it is young. If it doesn't grow give it Scott's Emulsion. It is a great medicine for growth. Scott's Emulsion is just the right addition to the weak child's daily food.

HON. MR. LATCHFORD AT HASTINGS.

Addressed Electors of East Peterborough and East Northumberland.

MR. R. C. CLUTE, K. C., SPEAKS.

Rousing Meeting in the Town on the Trent.

Mr. Thomas Blezard Spoke on Behalf of Mr. Anderson and Mr. A. E. Peterson on Behalf of Mr. Simmons.

A very successful political meeting was held in Hastings last night in the joint interests of Mr. Wm. Anderson, and Mr. A. O. Simmons, Liberal candidates for the Ontario House, in East Peterborough and East Northumberland respectively. Notwithstanding the very inclement state of the weather there was a large attendance of electors from both constituencies and an attentive hearing was given the four speakers of the evening, Hon. F. R. Latchford, Commissioner of Public Works; R. C. Clute, K. C., Toronto; Thomas Blezard, ex-M.P.P., East Peterborough, and E. A. Peterson, of Colborne. The audience was enthusiastic throughout. Hon. Mr. Latchford, who spoke for the first time in Hastings, created a splendid impression. The two candidates were unable to be present, being at public meetings in other portions of their respective ridings that had been arranged for previous to the announcement of the Hastings meeting. Mr. Anderson was ably represented, however, by Mr. Thos. Blezard, and Mr. Simmons by Mr. E. A. Peterson.

The chair was occupied by Mr. L. F. Clarry, barrister, Hastings, who in opening the proceedings spoke of the pleasure he felt in welcoming the Commissioner of Public Works to Hastings.

MR. BLEZARD.

Mr. Thomas Blezard was received with much applause. He referred to the fact that he had attended 24 sessions of the Legislature of Ontario and retired from public life, not that he had been kicked out or that the electors of East Peterborough had become tired of him, but that he, himself, did not care to monopolize the position as their representative any longer, and wanted a little time to look after his private affairs. He referred also to the excellent record of Mr. Wm. Anderson as a municipal legislator, and he felt sure that he would make an able representative for East Peterborough in the Ontario Legislature. If there were any two constituencies in the province that should elect farmers as representatives it was East Peterborough and East Northumberland. Continuing Mr. Blezard spoke of the capable Minister of Agriculture that the province possessed in the person of Hon. John Dryden, a practical farmer, who had shown such excellent wisdom in the administration of the affairs of his department. Mr. Blezard made a stirring reference to the policy of the Ross Government tending towards the development of New Ontario, and then paid a tribute to Hon. J. R. Stratton, Provincial Secretary, for his capable management of the Public Institutions of the Province, such as asylums, prisons, refuges, etc. As to the class of men to send to Parliament, Mr. Blezard claimed that outside the members of the Government, most of the members who made long speeches were the men who were very seldom seen at committee work of the House, where the real work of the Legislature was accomplished. In this regard he was sure that Mr. Anderson would fill the bill and carefully look after the interests of his constituents.

MR. PETERSON.

Mr. A. E. Peterson, of Colborne, who appeared on behalf of Mr. Simmons, the candidate in East Northumberland, spoke next, explaining that Mr. Simmons was unavoidably detained from being present. Proceeding with his address, Mr. Peterson paid a hearty tribute to Hon. Mr. Latchford, whom he claimed was making a worthy successor to the late Hon. Christopher Finlay Fraser, a man whose name was dear to them all. As to the general policy of the Government, the speaker dwelt at some length on the matter of good roads, and the matter of the maintenance of the Provincial Public Buildings, etc., which came under the department of Hon. Mr. Latchford. Mr. Peterson in the course of his remarks told of the development of new Ontario, the organization of Farmers' Institutes and the encouragement given to pulp wood industries. His concluding remarks were in support of the candidature of Mr. Simmons, who was a farmer and a man worthy of the confidence of the electors of East Northumberland.

HON. F. R. LATCHFORD.

Hon. F. R. Latchford was greeted with great applause. He made reference to the splendid record of Mr. John Douglass and Mr. Thos. Blezard, the representatives in the last House for East Northumberland and West Peterborough respectively, whom they regretted to lose, but he knew they would have capable representatives in their successors, Mr. Anderson and Mr. Simmons, the candidates who were now seeking the suffrages of the electors of the two constituencies. Mr Latchford said he himself was pleased to be a successor in office to such men as Hon. Wm. Harty and Hon. Christopher Finlay Fraser, a man who possessed the confidence of the electors of Ontario, irrespective of creed or party. However, Hon. Mr. Fraser was only one of an administration, all of whom were just as honest as he was, just as aggressive as he was, and who had done a great deal for the people of the province of Ontario.

Mr. Latchford then took up the pulp wood policy of the Government, which he explained very fully by the use of a large map, which showed the vast regions of land timbered with spruce and pine. He struck a responsive cord, when he told how under the late Conservative Government at Ottawa, a certain block of land was parcelled out to Conservative heelers at Ottawa, at five dollars an acre, but they were fooled out of their "grafs" by the battle that the Government of Sir Oliver Mowat won for Provincial Rights, and this great territory was given to the Province of Ontario. Then instead of the Ontario Government giving that land out to party friends at five dollars a square mile, they sold it to the highest bidder at hundreds of dollars a square mile, and not a single log to be exported in the raw state. After an able reference to the school policy of the Government, Mr. Latchford explained most explicitly Succession Duties, the tax on corporations, a tax which has commended itself to the people of many of the leading States of the American Union. Mr. Whitney and the Government are at issue on this point. Mr. Whitney, speaking at Lindsay, said that the first thing that he would do after getting into power would be to relieve these gigantic corporations of this tax. On this issue alone the Ross Government might appeal to the people of the province. Mr. Whitney may be a splendid scolder, and may be able to hurl plenty of abuse at a progressive Government, but he showed very poor policy in shedding tears over the fact that corporations that had received so much from the people of the province were asked in return to pay a comparatively small tax into the provincial treasury.

DEVELOPEMENT POLICY.

Returning to the policy of the development of New Ontario, Mr. Latchford explained in detail the contracts of the various pulpwood companies and the charters to the various railway companies. Our timber resources yield a large portion of the revenue, but the Province would not have had much of our timber territory had Mr. Whitney's friends had their own way. When at Ottawa they were parceling it out at $5 a square mile. The question is asked, why not put pulpwood up at auction like the pine? There is a big difference; pine grows thickly; pulpwood grows sparsely; pine land is not generally good for settlement; pulpwood land is generally fit for settlement. Pulp agreements mean development and settlement of the country; the right of the settler always being protected. Pulp mills mean employment of capital and of large numbers of men, and these people are only guaranteed a sufficient quantity of pulpwood to keep their mills going, at a price to be fixed by the Government. The present price is 40 cents a cord, but this can be increased as soon as the Government thinks it is worth more. No foot of this land is shut up from settlement, but settlers can go in and locate on any part of it. (Cheers.) This all means development, and that means markets for old Ontario and benefit to all. Reverting again to the development policy of the Government, he cited the strides in progress at the "Soo," with its expenditure of $20,000,000, and from this took up the proposed Government railway into the Temiskaming country. What led to a decision as to the starting point? Just competition, where more than one railway would be met. North Bay has the C.P.R. and G.T.R., and at Scotia, the junction of the G.T.R. and C.A.R., the C.A.R. is also run, but Mr. Lacthford said there were conditions of construction and of location which made it imperative almost to start from North Bay. As to cost, the other route would cost in portions three times as much as the route starting from North Bay, and this route is also several miles shorter than the other.

In conclusion, Hon. Mr. Latchford said that it is on this policy of development of New Ontario, as well as on its past record that they appeal to electors for a renewal of their confidence. They were surely not going to make a change in a Government that has for 30 years administered the affairs of this Province so wisely. They cry that it is time for a change, but it is only time for a change when you are satisfied that someone else has something better to give you. What has Mr. Whitney to offer? Nothing, excepting the old saying, "it is time for a change." The record of the Ontario Government is one that is unique in the history of the world. The people are satisfied with the administration, and he hoped that the electors would be out and give Mr. Anderson and Mr. Simmons their hearty support on the 29th of May. (Applause.)

MR. R. C. CLUTE, K. C.

Mr. R. C. Clute, K. C., was the last speaker, and spoke for thirty minutes on the provincial issues of the present day, and reviewed the history of the litigation whereby Sir Oliver Mowat won for this province the vast extent of territory known as New Ontario. In that great fight which was made and won by the Liberals of Ontario, it secured for us what was equal in size to all the American States known as New England. In this fight it is a well known fact that the Government of Ontario did not receive from the Conservatives in the House that support which they should have received. Referring to Hon. Mr. Latchford, Mr. Clute claimed that he was a worthy successor to even Hon. Christopher Fraser. The men at present engaged in managing the affairs of the province are doing it wisely, and he repudiated the charge that it was time for a change. Mr. Clute then proceeded to tell of how, when Hon. Mr. Ross assumed the Premiership, he decided to find out how the affairs of the province stood from a financial standpoint. He appointed a commission consisting of three of the most prominent financiers in the province. Their report was most encouraging, showing, as it did, that there was on the right side of the ledger $2,500,000, of which $800,000 was cash in the bank. In the course of his remarks Mr. Clute also touched upon the policy of the Government in regard to the development of New Ontario, and told of Mr. Marter's defection from the ranks of the Conservative party, on account of the unprogressive policy of its leader. Mr. Whitney has opposed every step that has been taken towards opening up New Ontario, and has failed to state what his policy is in regard to any one issue. Mr. Clute said that he felt sure the intelligent electors of Ontario would not trust a man of this stamp, and he had no fear as to the outcome of the present campaign.

Mr. Clute was pressed for time but in the short while at his disposal he made an eloquent and convincing appeal in support of the Ross Government.

The meeting closed with cheers for the King, Mr. Ross and the Liberal candidates.

A THIRD CONSIGNMENT OF

BLENHEIMS

—AND—

TAFFETAS

Came to hand yesterday—Blenheim and Taffeta Dress Goods stand for what is best in fifty cent, seventy-five cent and $1.00 dress materials. Although having bought assuredly and heavily in these three cloths, we have nevertheless had to repeat and then repeat again. This makes the third lot we have received this season, and although we have a good big case of these goods, full 25 per cent. are already spoken for.

Black and Coloured Taffetas, 42 inches wide, clean, firm and light weight, lifey cloths, suitable for dresses, separate skirts or waists, decidedly the best 50c cloth in the market today. Shades of old rose, dark rose, grey, brown and black, all pure wool, per yard .50

Black Blenheim, 46 inches wide, pirlie finish, warranted not to spot or cockle with the rain, a beautiful weave, a splendid finish, a fair weight and all wool, at per yard .75

Blenheims at $1—This 50 inch Pirlie Finished Cloth stands without an equal at the price, and compares very favourably with $1.40 and $1.50 cloths in appearance. It's firm enough and heavy enough to make up unlined skirts—it's dressy enough to go into any bride's trousseau. This cloth is unspottable, is wear-resisting, and it has a permanent finish. It's OUR cloth for Peterborough. Speak quickly if you want any of these shades. We have to-day the colours we here mention—black, grey, castor, cardinal, myrtle, mauve, r. rose and navy, price per yard $1.00

A Job of 50 Pieces of Broadcloths, Amazons and Venetians, in this season's correct colourings. This lot of agent's cut pieces. Lengths run from 3 to 24 yards. Prices run in worth from $1.25 to $1.75, and the price at which we can sell them is $1.00 And they shouldn't last more than a week.

Remember Our Special Values in Lace Curtains, Curtain Nets, etc., etc.

TRUSTWORTHY DRY GOODS Tully & Sons UNIFORMLY RIGHT PRICES.

MR. MILLER'S MONAGHAN MEETING.

The first meeting in Mr. Miller's interest in the Townships to have been held in May's School House last did not materialize. The rain prevented a sufficiently large attendance to warrant the speakers present, Mr. Miller, Mr. A. Stevenson and Mr. C. H. Bradburn, giving addresses. The meeting was postponed till a week from next Tuesday night May 13.

ODDFELLOW NOTES.

Decoration Day Fixed for Thursday, June 19th.

The attendance of Oddfellows at St. Andrew's church last Sunday, in commemoration of the 83rd anniversary of the order, was the largest turnout for some years in Peterborough.

Decoration Day has been fixed for Thursday, June 19th. The fixing of the date in advance gives all the community a chance to arrange to be present and join in decorating the graves.

The District Committee of Peterborough District, No. 30, will meet in the Oddfellows' Hall at Peterborough on Friday evening, June 6th, at 8 o'clock, to discuss the affairs of the district, to nominate a D.D.G.M., to arrange for the July installations, some of which will be public, etc.

The Grand Lodge of Ontario will meet in Toronto, in August. The representatives will be elected at the last meeting in May.

A Genuine Triumph

in the medical line is that made by a Brantford druggist, called Merrill's System Tonic. It embodies an idea long thought of but just recently made chemically possible. When system Tonic is taken the old blood is purified, new rich blood is made, while all the principal organs in the body are toned and new tissue constructed. The result is perfect health. Sold in 50c. bottles, at Ormond & Walsh's drug store.

MANIE BOTHA TAKEN

Dewet's Ablest Lieutenant and Nephew of Gen. Botha.

CAPTURE MAY BE IMPORTANT

Mafeking Duplicated by the O'Okiep Garrison—Invested by the Boers For Weeks Past They Have Put Up a Great Defence and Show Little Loss—Relief Is Practically Completed.

Pretoria, May 2.—Col. Barker reports that, on April 30, he captured Commandant Manie Botha, his adjutant and 11 others, near Frankfort, Orange River Colony.

This is regarded as important, as Manie Botha is a nephew of the Commandant-General, and is Gen. Dewet's ablest lieutenant.

THE O'OKIEP GARRISON.

Besieged by the Boers For Weeks Will Soon Be Relieved.

Cape Town, May 2.—Reports which have reached here via Fort Nolloth, Western Cape Colony, dated April 19, are to the effect that British columns are now in close touch with the British garrison at O'Okiep (about 90 miles inland from Port Nolloth), and that the relief of the British force there is practically completed.

The plucky garrison at O'Okiep has been closely invested by the Boers for weeks past, and has put up a defence which can be compared to that of Mafeking. The defenders of O'Okiep suffered comparatively few casualties, but they were subjected to constant "sniping" and had occasional sharp brushes with the Boers. On the night of April 15 forty Boers rushed an outpost on a kopje held by 20 of the British garrison. The Boers were repulsed and the British had four men wounded.

Heliograph communication has now been established between O'Okiep and Klipfontein, 50 miles distant. It has in this way been learned that the women and children at O'Okiep had taken refuge in a fortified school house.

Dubious German Gifts.

Bloemfontein, May 2.—The first consignment of German gifts for the refugee camps has just arrived at Bloemfontein. It consists of left-off clothes, apparently very recently discarded. On opening the case of apparel the odor arising was so overpowering that some eight young ladies comprising the Reception Committee were immediately overcome.

Whiskey For the Troops.

London, May 3.—A Canadian firm of distillers have at Durban and Cape Town some three hundred cases of their best whiskey. These they have very generously offered to the War Office as a gift to the troops. Lord Kitchener, having been consulted, has accepted the gift with thanks, and "Tommy's" refreshment account has been credited to the extent of some seven thousand two hundred bottles.

V.C.'s For Dead Heroes.

London, May 3.—A hardship which has long existed in connection with the awarding of the Victoria Cross will shortly be removed.

Hitherto a man who had lost his life in the performance of some gallant act has been deprived of the honor due to his name, because dead men cannot be recommended for the little iron cross "for valor."

This rule was broken through by Queen Victoria in the case of Lieutenant Roberts, the only son of Lord Roberts, and following this precedent a posthumous recommendation is to be shortly made admissible, the nearest relatives of the gallant dead receiving the memorial of their lost one's heroism.

Canadian Casualties.

Ottawa, May 3.—A cablegram from the Casualty Department in South Africa to Lord Minto, announces that Pte. M. Murphy, of the 2nd C. M.R., was dangerously ill of enteric. Pearson, who belongs to Maitland, Ont., was wounded at Hart's River, March 31. Murphy belongs to Peterboro.

SAILING OF FOURTH CONTINGENT.

All the Regiments Will Be on the Way to Africa by May 20.

Ottawa, May 3.—The transport Cestrian, which sails from Halifax, on May 8, will have the 3rd regiment and two squadrons of the 4th regiment, under Major O'Farrell. The Winfredian, which sails on May 15, will have the 6th Regiment and the headquarters staff and two squadrons of the 4th Regiment. The Corinthian, which sails on May 20, will have the 5th Regiment on board.

General Vaccination.

Halifax, May 3.—The first mounted parade of the troops took place at the Willow Park camp yesterday. "A" Squadron (of the 3rd Regiment) under the command of Captain Henderson, was put through mounted drill. Several of the troopers were thrown, but none of them injured, as the ground was soft. All the men are being vaccinated now. Yesterday the surgeons were vaccinating them at the rate of thirty an hour.

2nd in 5th Regiment.

Ottawa, May 3.—Lieut.-Col. Gordon, Montreal, is to be second officer of the 5th Regiment, Canadian Mounted Rifles. The command of this regiment has been given to Lieut.-Col. Irving, Halifax.

The New C.P.R. Stock.

Montreal, May 3.—Although the detailed returns showing where the new issue of Canadian Pacific stock, amounting to $19,500,000, was subscribed for, is not yet to hand, it is known that about 40 per cent. was taken up in London, 40 per cent. in New York,

Yours for Health
Lydia E. Pinkham

How Truly the Great Fame of Lydia E. Pinkham's Vegetable Compound Justifies Her Original Signature.

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the **Change of Life.**

It has cured more cases of **Backache** and Leucorrhœa than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors.

Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility quickly yields to it.

Womb troubles, causing pain, weight, and backache, instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water.

It quickly removes that **Bearing-down Feeling,** extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, **Dizziness, Faintness,** sleeplessness, flatulency, melancholy or the "blues," and backache. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures.

Kidney Complaints and Backache of **either sex** the Vegetable Compound always cures.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want —a cure. Sold by Druggists everywhere. Refuse all substitutes.

The Lost ..Art..

Of comfort and health in undergarments has been re-discovered.

—THE—

DR. DEIMEL LINEN-MESH UNDERWEAR

Has broken man's long bondage to Woollens and cottons, and has given his skin a chance to be healthy

But it is not an innovation—the Egyptians knew of the healthful properties of linen next to the skin.

Daily Examiner.

London (England) office—148 Fleet street, E C., Contral Press Agency Limited, Special Agents.

SATURDAY, MAY 3, 1902.

THE PREMIER.

Hon. Geo. W. Ross is one of the ablest men in Canadian public life. He can appear in public alongside the ablest speakers and thinkers of the day in Canada or elsewhere and suffer no eclipse.

He is now before the electors for a first time as premier asking to be authorized to proceed with the administration of the affairs of the province along the progressive lines he has laid down. With characteristic originality, vigour and confidence he has mapped out a more comprehensive policy than any heretofore known in the politics of this province.

It is not as the successor to anybody or as the heir of anybody that Hon. Geo. W. Ross should be returned to power, but as a man who is himself a leader of the highest capacity.

The services of such a man as Hon. Geo. W. Ross should not be lost to the province because of the fact that his predecessors in the Premiership were Liberals. Nor should Mr. Whitney be made Premier, becuse of the fact that Sir William Ralph Meredith was not.—Toronto Star.

A GOOD RECORD.

The Ross Government can appeal to the electors on a good all-round policy. In regard to its financial record no praise can be considered excessive, and its other administrative record is of the highest character, in its comprehensive scope and in its adaptability to provincial conditions. Hon. Mr. Stratton, Provincial Secretary, brought this out clearly in his address to the electors of Norfolk and Port Dover last Tuesday. In this connection Mr. Stratton pointed out that the excellence of the legislative and administrative acts based thereon, enacted by the Liberal Government of Ontario, was shown by their being freely adopted by other provinces.

As reported in the Globe, Mr. Stratton said that the legislation had kept pace with the times. This was shown by the fact that no important legislation was introduced by the Opposition in advance of the Government. Our Crown timber regulations have been largely copied by the other provinces. Our Ontario fire act had been copied by Quebec, New Brunswick and British Columbia. Ontario was the pioneer province in the fire-ranging system. This had been copied by Quebec and New Brunswick and the Dominion as regards western timber lands controlled by the Department of the Interior, and many of the United States had practically copied this system. Our Cullers' examinations had been copied by Quebec. Our pulpwood policy of making leases or agreements conditional upon the erection of mills and the employment of a minimum number of men, had been adopted by Nova Scotia, British Columbia and Newfoundland, though the Ontario agreements were much more strict than the concessions granted by any other province. Our sawlog policy, requiring sawlogs cut on Crown lands to be manufactured in Canada, was followed by British Columbia, by prohibiting export of pine cut on Crown lands and export of pulpwood cut under lease. Newfoundland stipulates that the timber cut shall be cut at the mills of the lessee. The Dominion prohibits the export of pine logs cut on the Inserves, and logs cut on the timber belt of the Dominion in British Columbia. In our forest reserves we retain the land in fee simple for the Crown. Ontario held the land, while Pennsylvania and New York State are purchasing land and setting it apart for forest reserves. Maine, Massachusetts and Minnesota were all considering similar action.

GROWTH OF MINING INDUSTRY.

Hon. Mr. Harcourt proposes to establish a school of forestry at Kingston, in connection with Queen's University. He is well satisfied with the work of the School of Agriculture and the School of Mining already in operation, and he discerns a similar field of usefulness for the Forestry Department. While the Conservatives talk about developing the resources of Ontario, the Liberals act. Mr. Harcourt showed that the mining output of the province in 1896 had been $5,235,000; in 1898, 7,235,000; in 1900. $9,298,000, and in 1901, $11,822.000. In five years it had doubled. He touched upon several individual mining industries, drawing attention to the enormous arsenic deposits, to the rich corundum mines, to the nickel mines which were first worked in 1888, which in 1892 raised 72,000 tons of ore, and in 1901 raised 326,000 tons of ore and employed over 2,200 men. Then he noted the wonderful expansion of the iron industry, reminding his hearers that in 1895 no iron ore was raised, no pig iron was made no steel was manufactured in the province, whereas in 1901, 272,000 tons of ore were raised, 116,000 tons of pig iron was made, and 14,000 tons of steel were produced; the value of the iron products of the province had risen in six years from nothing to two and a quarter million dollars.

Those figures are impressive and encouraging. They indicate a good beginning but they will look small ten years hence if the electors are sufficiently alive to their own interests to keep the Liberal Government in office. — Hamilton Times.

AS TO THE PULP "PRINCIPALITIES."

It is to be hoped that no one will be deceived by Opposition misrepresentations of the scope of the pulp concessions. Business men who are Conservative in politics should take the trouble to examine the cries of their leaders with respect to this branch of the campaign, for if by any mischance the development of New Ontario were interrupted, no part of the country would be more damaged than old Ontario. The speedy development of the new territories will send an added thrill of life through every channel of trade and industry in this Province. Business men owe it to their own interests, therefore, to examine whether there is any sincerity or solidity in Opposition criticism of the Government's pulp policy.

The areas of the grants are a favourite point of attack. Let us see what is in that. The companies, we are told, have had "principalities handed over to them." No secret has been made of the extent of the areas wherever they are accurately known. The agreement with the Montreal River Company, for example, assigns it an area of 1,669 square miles. That is a considerable territory. It is a square whose sides are equal to the distance between Toronto and Hamilton. That looks formidable, until one gets the false notion out of his head that the land comprised in the area is not granted to the company. Every acre in it is open for settlement, and as soon as a settler takes up his homestead every tree on it is his, with the exception of the pine. The pine does not belong to the pulp manufacturer, but either to the Government or the limit-owner who has bought from the Government. All that the former gets is the right to take pulp logs off the territory, or to buy pulp logs from the settler in the territory.

Why assign so large a territory to one mill? may be asked. So far as is known, spruce, which is the favourite pulp tree, does not grow south of the height of land in unbroken areas. It is scattered, and in the density of the growth in these virgin forests it is not possible even roughly to calculate with anything approaching reasonable surety what quantity of pulp timber an area contains. A detailed survey could, of course, be made, but that would be costly and is not at all necessary. All that the company is concerned about is that there is enough timber to keep its mills employed during the twenty-one years over which the agreement extends. Surely this is a fair precaution on its part, and it is altogether probable that it has not scrimped its calculations in this respect. It is better to be over the mark than under, for a failure of logs would be a serious matter. But let us suppose that there is considerably more pulp timber in the area than the mill can possibly turn into pulp or paper during the term of the agreement. Power in such a case is reserved to the Commissioner of Crown Lands to grant the right to cut logs to another company or companies. If in one of the granted areas there were ten times as much pulpwood as the company enjoying the original concession could use, there would be nothing hurtful to the public interest in the fact. The company will not cut down more trees than it can convert into pulp or paper, and it will not manufacture more material than it can find customers for. The more trees it cuts down and converts into marketable commodity, the more employment will it give to workingmen, the greater consequent demands for dry goods, groceries, furniture, carpets, stoves and kitchen utensils, the greater market for the products of the settlers in the neighbourhood, and the greater the sum that will be turned into the public treasury.

We think we can legitimately ask the business man, the mechanic and the farmer to inquire into the merits of the Opposition outcry against the pulp concessions, and after they have done so we should like to know what their opinion is of the sincerity of Mr. Whitney and his friends on this question at least.—Globe.

WITHOUT GOOD BLOOD THERE CANNOT BE GOOD HEALTH

As a Blood Remedy

IRON-OX TABLETS

are unexcelled, and they have obvious advantages over medicines in liquid form. We know of no remedy of this character an equal number of doses of which sells for less than fifty cents ::: Ours sells for twenty-five cents. The others are probably good value; if so ours is double value.

50 TABLETS FOR 25 CTS.

CAPITAL HAS CONFIDENCE.

If we want practical proof of the confidence of capitalists in the business capacity of the Ross Government, we have it in the large investment of capital in New Ontario. The Government has made agreements with seven pulp companies, which are under obligations to expend on their several enterprises an aggregate of about five million dollars, in the erection and equipment of pulp mills; and if we add to that the twelve millions invested and expended by the companies represented by Mr. Clergue, we have a total of $17,000,000, as representing the faith of capitalists in the resources of New Ontario, and their faith in the bona fides and business fairness of the Ross Government. Capital, and the business associated with its employment, has no party politics. It will take no chances on the score of political preferences. Capital is hard-headed and practical, and the fact that it has ventured nearly twenty million dollars in enterprises in New Ontario, simply to prepare for work — to be expended before a dollar of profit or a step in the direction of dividends can be taken — is proof that it has confidence in the Government with which it has dealings.

The concerns represented by the capital expenditure mentioned, have got no "snap" from the Government. They have to put in diligent and well-advised effort before they can realize from their investments; and the beauty of the arrangement, from the people's point of view, is that these concerns can't make a profit without contributing substantially to the provincial revenue. Every ton of pulp or paper made represents a direct contribution to the provincial revenue. Every cord of pulp manufactured means forty cents paid into the public chest, and this is a revenue that would not be collected if the Government had not made agreements with these pulp companies, and had not provided for the construction of railways to ensure these companies and others engaged in developing our mineral and other resources, transportation facilities, and indispensable requisites for successful operation. They want railways to bring in supplies, purchased in Old Ontario, and they want railways to ship out their marketable products. When capital, which has no political or other sentiment, freely embarks in enterprises of great magnitude, under agreement with the Government, it shows that it has confidence in the business ability and business fairness of the Government, and that it may count upon the Government's assistance in bringing success to enterprises which will reflect benefit upon the promoters and the whole community. A Government with a business ability and enterprise to stimulate enterprise, is the Government for a progressive province.

Build up Ontario.

EDITORIAL NOTES.

Mr. Glockling, of the Ontario Bureau of Labour, has already settled one labour trouble, and is at work upon two others. His powers as mediator he derives from the Preston Conciliation Bill, introduced by Mr. T. H. Preston, the M.P.P. and proprietor of the Brantford Expositor, which Bill Mr. Whitney declared not to be worth the paper i twas written on.

The St. John, N.B., Telegraph says: "Now that an election is on in Ontario we are surprised to learn from the Tory organs of that Province that the Hon. Geo. W. Ross is a bold, bad man, and the Ontario Government a nest of corruption. Down here by the sea we all, irrespective of party lines, have the idea that Ontario has been the best governed Province in the Dominion. Certainly its legislation has been copied by every other Province in the Dominion."

Mr. Whitney says he would have half-a-dozen more Agricultural Colleges, although he has voted against almost every proposition for the improvement of the present Agricultural College, the Government has put forth. He also says he would devote more money to Toronto University. At the same time he tells us that he would wipe out a quarter-of-a-million of the revenue the province now receives annually from the taxation of financial corporations. It is a fortunate thing that the skill of the leader of the Opposition as a financier is not likely soon to be tested in a practical manner.

Progressive Store News

To stand still is to go backward. Stagnation leads to business death. Every day we intend to do better by you than the day before, but trying to do the best possible that experience and closest watching and buying can supply. Spring housecleaning brings many wants, and we realize that if bargains in that line are not given when wanted, they cease to inspire enthusiasm. We quote a few of the many lines which make this store popular:

Wall Paper Department.

400 Rolls Wall Paper, embossed gold, with 9 or 18 inch friese, regular 20, 30 and 35c single roll, your choice for a few days, per roll. 15c

Matched Border, per yard, 5c and..... 3c

Write A Postal
To Get Well.

Send No Money. Simply Tell Me Some One Who Needs Help.

If you are sick let me know it.
If you have a friend who needs help, tell me his address. Let me send the book he needs. Let me offer the sick one a way to get well.

Do that much, and I will do this:—
I will send with the book an order on your druggist for six bottles of Dr. Shoop's Restorative. I will tell the druggist to let you test it for a month. If satisfied then, the cost is $5.50. If not, I will pay your druggist myself.
It will not cost you a penny.

Please note what that means.
I furnish the treatment, give you my best advice, answer all of your letters.
If I succeed, the cost is only $5.50, and the result is health. If I fail, my effort and my medicine is free.
Can't you see that I must know how to cure.

The reason is this—I have spent a lifetime in learning how to strengthen the inside *nerves*. That nerve power is the force that operates every vital organ. It is to your body what steam is to an engine.
When any vital organ is weak and fails in its duty, I bring it the power it needs. The results are certain, and most chronic diseases cannot be cured in any other way.
My book will tell you why.

I don't mean that I never fail, I can always bring back this vital nerve power; but sometimes an organic disease, like cancer, makes a cure impossible.
But such conditions are rare. In any case, no matter how difficult, I will take the entire risk.
My record shows that 38 in each 40 who get these six bottles pay for them—pay because they are cured. It is this remarkable record that makes such an offer possible.

There are 39 chances in 40 that I can cure you or your friend.
It is absolutely certain that in most chronic diseases my treatment represents the utmost that medicine can do.
It is certain, too, that no other physician will assume the risk, for no common treatment could stand a test like that. No matter what your prejudice or doubts, remember that I take the risk. I alone am the loser if I fail. And if I succeed, you you are well.
Be fair with yourself. At least, get my book. I am sorry for the sick one who can say "No" to my offer.

Simply state which book you want, and address to Dr. Shoop, Box 47, Racine, Wis.

Book No. 1. on Dyspepsia
Book No. 2. on the Heart
Book No. 3. on the Kidneys
Book No. 4. for Women
Book No. 5. for Men (Sealed)
Book No. 6. on Rheumatism

Mild cases, *not* chronic, are often cured by one or two bottles. At all druggists.

GOLD SOAP
the Purest, Handiest, Soap in the World.

ESTIMATES PASSED

The Trent Valley Canal Item Stands Over by Request.

POSTOFFICE ACT AMENDMENT

Hon. Mr. Mulock Shows Its Benefit to the Employes of the Department—The Census Returns—The Opposition Criticise Hon. Sydney Fisher—some Unfounded Statements—Morning Session Monday.

Ottawa, May 3.—When the House after a hard day's work rose last evening all the items in the main estimates for next year had been voted, with the exception of the appropriation for the Trent Canal, which had to stand over because of the absence of members who wished to discuss it. The appropriation for the census was the subject of an animated debate. Several Government bills including Hon. Mr. Mulock's bill respecting the salaries of postoffice employes, were given their final stages. On Monday the House enters upon the final stage of the session by commencing morning sessions.

The Postoffice Bill.

Mr Mulock's bill to amend the Postoffice Act was under discussion most of the afternoon sitting of the House in Committee of the Whole yesterday. The Postmaster-General explained that he intended to introduce a special examination for the department more suitable than the ordinary civil service examination.

Mr. Puttee urged that eight hours be made the legal day under the bill.

Mr Mulock, in reply, said letter carriers worked on the average eight hours and 20 minutes per day. The employes would continue, he said, to hold office permanently, being removable only by Order-in-Council. A feature of the bill was that no one would come under its operations, except he chose to do so, others would be left to the enjoyment of all their existing rights.

Referring to the changes in regard to the letter carriers, Mr. Mulock said the bill would enable a letter carrier to attain the maximum of $2 per day in half the number of years now required. After six months probation at $1.25 a day the men would go on regularly at $1.50; increasing to $1.75 in two years, and in two years more reaching the maximum of $2 per day. A letter carrier under the new schedule would receive during his first nine years' service annual average of $63.94 more, not counting the $20 which he might take instead of 10 days extra holidays, than under the existing law. The superannuation act had been repealed, and the retirement act substituted. a letter was read by the Postmaster-General from Mr. Lutton, dated Toronto, April 26, to the effect that the porters, messengers, box collectors and mail transfer agents met and endorsed the bill and promised to come under its provisions. He contended that the letter carriers' pay was higher than the policeman's.

Mr. Taylor claimed the letter carriers should be on the same basis as inside employes and be paid full time during sickness.

Mr. Puttee approved of the principle of the bill. He objected, however, to the feature of the bill that would grade men down as they grew older in the service.

Mr. Heyd endorsed the bill as a good measure for the letter carriers.

Dr. Sproule said the Postmaster-General claimed this bill to be better than the Civil Service Act. If that were the case the two acts should be united in one bill containing the best features of each and made applicable to the whole service.

E. F. Clarke said that the meeting in Toronto at which the resolution was passed endorsing the bill was not attended by a half a dozen employes. Further, he quoted The Globe's appeal for increase in the letter carriers' salaries and the resolution of the Dominion Trades and Labor Congress. As contractors for the Postoffice Department were compelled to pay union wages and give union hours, Mr. Clarke insisted that the maximum wages should be $2.25 instead of $2 and the day's work limited to eight hours.

Mr. Mulock, replying to Mr. Heyd, said that he had in his department given the statury increase to every employe receiving under $800 a year.

The bill was amended by dividing class 3 of the outside employes in two, one class is to be known as class 4 and to receive $400 to $600; class 3 to receive from $600 to $800, the annual increase for a fourth class clerk to be $50 a year. Another amendment provides that in case of the theft of a registered letter the Crown may make payment to the loser.

The bill was then read a third time and passed.

The bill respecting the Molsons Bank pension fund and the bill to incorporate the Canada Eastern Railway Company, were passed.

The Census Estimates.

The estimates for the census were taken up in supply in the evening and Hon. Sydney Fisher laid on the table several returns containing information which had been asked for by the Opposition.

Mr. R. L. Borden asked a number of questions of Hon. Mr. Fisher, with a view of eliciting the names of the enumerators of the 1891 census, who were requested to explain the inaccuracies in their returns, charged by Sir Richard Cartwright and Hon. Mr. Fisher.

The Minister of Agriculture replied that he had not thought it necessary to communicate with the enumerators.

Mr. Borden characterized the admission by Mr. Fisher as the most humiliating he had ever heard made by a Minister in the House. The Minister had admitted having made charges of fraud against these men, and in not one single instance had the Minister the manliness to bring the charges to their attention before making them in the House. What excuse, he asked, had Mr. Fisher for his temerity in scattering these charges broadcast through the country, upon the foundation of ex parte statement, and without giving the men charged an opportunity of saying a word in their defence?

Hon. Sydney Fisher, in reply, said the explanation was that he desired to get at the truth of the census returns for 1901, as the people in the districts could not understand how there could possibly be the apparent reduction in population which the returns indicated. In checking over the census of 1891 the material found available in the parochial census was utilized. He repeated the statement, made on a previous occasion, that the evidence produced indicated clearly a discrepancy of 44,000 in the figures; that the census of 1891 had been unduly swelled by that number, and he had not thought it necessary to communicate with the census enumerators of 1891, who had made the inaccurate returns, as having made the incorrect return they would not be likely to admit it.

Having cleared up all the main estimates, save the item for the Trent Canal, which stood over for discussion, owing to the absence of Lieut.-Col. Hughes and other members of the Opposition, who desire to discuss the vote, Hon. Mr. Fielding moved that the committee rise and report, having made great progress.

The House adjourned at 11.25 until Monday at 11 a.m.

A Divorce Bill.

Ottawa, May 3.—The divorce bill for the relief of James Brown from marriage with Abigail Brown of Toronto was reported without amendment by the House Divorce Bill Committee yesterday morning.

13 Mail Clerks Hurt.

Syracuse, N.Y., May 3.—The N.Y. C. fast mail, west bound, crashed into an east bound freight train at Clyde at 5.10 o'clock p.m. The engineer and fireman of the mail were killed. Thirteen mail clerks and members of the crew were injured, all seriously.

Housekeeper's Backache.

Every Overworked Housekeeper Suffering From Sore, Aching Back Can Find a Speedy Cure in Dr. Pitcher's Backache Kidney Tablets.

Many women are now into the thick of housecleaning. They lift and strain, overwork and overtax their strength, their back gives out, their kidneys become affected. They have a painful or sore feeling in the small of the back that takes all the life and ambition out of them. They feel dull, depressed, lifeless.

Listen! The hard work you've been doing has thrown extra work on the kidneys. They've been unable to keep up with their duties of filtering the poison and waste material from the blood. They cry out in protest through the aching back. You feel wretched all over because the kidneys are not working right and the poison is circulating in your system. The kidneys must have help—better give them the benefit of the best kidney medicine made—Dr. Pitcher's Backache Kidney Tablets, the prescription of a kidney specialist, the result of years of study of kidney diseases.

These Tablets cure every form of kidney ill of man, woman or child from backache to Bright's disease, and cure to stay cured.

Pain and Soreness.

Mrs M. Cody, whose home is 318 Richmond street west, Toronto, gladly told how Dr. Pitcher's Backache Kidney Tablets had cured her. She said; "For two or three years past I have been troubled with pain and soreness in my back, and a weak and irritable condition of the bladder. I tried various kidney remedies, but they did not seem to suit my case. Dr. Pitcher's Backache Kidney Tablets worked like a charm, and completely cured me, and I am confident they are the best medicine made for kidney complaint."

Back Ached Hard.

Mrs. T. D. McCoombs, 23 Louisa Street, St Catharines, says; "I never had anything act so nicely and so quickly in my life as Dr. Pitcher's Backache Kidney Tablets. I seemed to feel every dose. My back used to ache hard low down, and the pain at the base of the skull was bad, but since I began the use of the Tablets all this is changed, and I am well and strong. You can rest assured I shall do my best to let the people know of my case, and the splendid result obtained."

Remember that Dr. Pitchers' Backache Kidney Tablets contain new specific ingredients for kidney troubles not found in any other remedy. They have cured hundreds of cases of kidney, bladder, and urinary diseases that common kidney pills couldn't benefit. They are chocolate coated, small in size, easy to take, and always do good. One Tablet a dose. Fifty Tablets in a bottle. Price 50c, or 3 bottles for $1.25, at all druggists, or by mail. The Dr. Zina Pitcher Company, Toronto, Ontario.

NINE YEARS OF SUFFERING.

Mrs. Ellen Smith of Montreal, Sufferer From Eczema Until she was Almost Driven to Suicide.

Cured by the New Ozone Treatment—Rev. J. Frederick Renaud Vouches for the Facts.

(From our Special Correspondent.)

Mrs. Ellen Smith, of Montreal, suffered for nine years with a most persistent attack of eczema. The disease affected both limbs below the knee; they were swollen several times their normal size. Many times the terrible suffering she underwent, made her contemplate suicide. Three years was she confined to her bed and finally she believed herself hopelessly incurable, made up her mind to go the rest of her life on crutches. Last year Mrs. Smith started using the new oxygen or Ozone method of treating disease, Powley's Liquified Ozone, and to-day she is quite well. Our representative obtained the following statement from her and from the Rev. J. Frederick Renaud who is personally conversant with her case since its inception. Mrs. Smith's recovery at the advanced age of sixty, is so remarkable—is vouched for by such responsible authority, that we publish the facts.

MRS. ELLEN SMITH, Montreal.

"Having been greatly benefitted by Powley's Liquified Ozone, I feel it my duty to allow it to be known to the public at large.

"I had been a fearful sufferer from eczema for many years. The disease centered in both limbs, below the knees. The left especially, was swollen to alarming dimensions, while the inflammation, irritation, and hard, scaly condition, induced a degree of suffering which only the Mercy of God prevented me from ending in suicide.

"I spent the best of three years on my back, beside different periods in three hospitals. When at home I could not go as far as the next room without the aid of crutches, and altogether my case was considered past help, for I had had the best skill in the country, to no purpose.

"I have now used five bottles of Ozone, and I rejoice to say that both limbs are reduced to their normal size; the burning is entirely gone and I walk alone with perfect ease, although I am now sixty years of age.

The Ozone also cured an advanced stage of liver disorder, and I am willing at all times to tell my experience to other sufferers."

(Signed) Mrs. Ellen Smith, 31 St. Andre street, Montreal.

82 St. Hubert street, Jan. 27, 1902

To Whom it May Concern:

I beg to state that I have known Ellen Smith for over twenty years, and for the past nine years she has suffered from a running sore, but was unable to obtain any permanent relief until she tried Powley's Liquified Ozone, to the beneficial effect of which she bears most grateful testimony. (Signed) Rev. F. Frederick Renaud, 82 St Hubert street, Montreal.

Powley's Liquified Ozone is for sale at all drug stores. Two sizes—50c and $1.00.

New Russian Minister of War.

London, May 3.—The correspondent of The Daily Express says in a despatch from St. Petersburg that Count Bobrikoff, recently Governor-General of Finland, has been appointed Russian Minister of War, in succession to Gen. Kuropatkin, and that Count Lamsdorf has been replaced as Minister of Foreign Affairs by Vice Admiral Alexieff, commander-in-chief of the land and sea forces in Russian East Asia, who has given up the latter post.

Irritating Pimples and Disfiguring Blotches,

They place many young girls at a great disadvantage in life. The only cure is a blood purifier like Ferrozone. It cleanses the crimson flood of poisons and impurities, renews and strengthens it, and makes lots of red corpuscles that manifest their presence by a ruddy, healthy glow in the cheeks and lips. Ferrozone quickly masters all skin erruptions, builds up broken-down constitutions, and gives to weak, sickly women an abundance of spirits, vitality, energy and beauty. Try Ferrozone, it's all right. Price 50c. per box, or 6 boxes for $2.50, at Ormond & Walsh's drug store.

Montreal Treasury Seized.

Montreal, May 3.—The Montreal civic treasury is empty, the whole contents of the safe being in the hands of the sheriff. The seizure was taken as the result of judgment secured against the City of Montreal by Joseph Levesque for $6,000. Over $5,000 was seized yesterday, but this did not satisfy the law, and a limb of the law will stand around until the remaining $1,000 is collected.

A Great Sufferer Cured

Mr. Benjamin Dillon, of Leeds, Ont., was cured of Muscular Rheumatism by Polson's Nerviline, and says: "I feel my duty is to proclaim Polson's Nerviline as an infallible cure for Rheumatism; it cured me after 30 years suffering, and nothing I know of can equal its penetrating power. Nerviline simply has no equal in quickly relieving and curing Rheumatism, Neuralgia, Sciatica, and Lumbago. A trial will convince anyone. Price 25c.

His Bad Record.

"There goes a man with a mighty bad record."

"You don't say! He doesn't look criminal."

"Who said criminal? He's a bicycle racer who has never done better than a mile in 2:47."

Doctors and Druggists pronounce Miller's Compound Iron Pills the best on the market; 50 doses 25 cents. Sold by all druggists.

THE PREMIER AT DUNDAS.

Illuminating and Convincing Address on the Issues of the Day.

Dundas, May 3.—Premier Ross addressed a meeting in the Town Hall here last night in the interests of Mr. R. A. Thompson, Liberal candidate in North Wentworth. Although the notice was very short, the attendance completely filled the hall. The Premier, as usual, gave one of his illuminating and convincing campaign speeches, which was heard with the greatest interest, and which brought forth frequent cheers during its delivery. In addition to dwelling on several features of the Government's record, and explaining the development of new Ontario, Mr. Ross pointed out some glaring inconsistencies in recent Conservative speeches, explained some features of recent progress in agriculture in Ontario, and spoke at some length in criticism of Mr. Whitney's attitude toward the taxation of corporations. In discussing the latter Mr. Ross showed how infinitesimal would be the burden of those interested in the companies affected, amounting, in the case of the premium on an ordinary life insurance policy for $1,000, to but eight mills per year. The speech of the candidate, Mr. Thompson, showed an intelligent understanding of public questions, and the enthusiasm manifested toward him gives an excellent prospect for redeeming the riding.

POLITICAL POINTERS.

The Liberator, the new organ of the prohibitionists of Ontario, made its first appearance Friday.

Hon. F. R. Latchford and R. C. Clute, K.C., addressed a Liberal meeting at Hastings on Friday night.

At Guelph Friday night Hon. Richard Harcourt spoke for Col. Mutrie, the Liberal candidate in South Wellington.

At a meeting of the French-Canadian unions of Ontario, held at Ottawa Friday night, it was decided to run independent French-Canadian candidates in Ottawa and East Nipissing.

According to The Liberator the following are prohibition candidates: George F. Marter, North Toronto; John Barr, M.D., Dufferin; Thomas Crawford, West Toronto; James Tucker, West Wellington; A. B. Spencer, West Simcoe; Fred. W. Daly, B.A., London; S. Carter, South Wellington; A. Davis, Centre Grey; D. R. Ross, North Oxford; James Simpson, East Toronto; E. A. Tookey, East Wellington; G. B. Wilson, Lincoln; James Mitchell, West Huron; Samuel Beck, Haldimand.

THREE BLACKS That Have a World-Wide Reputation.

In that unique and wondrous collection of Diamond Dyes are three blacks which have obtained a world-wide reputation for first class work; they are called Fast Diamond Black for Wool, Fast Diamond Black for Silk and Feathers, and Fast Diamond Black for Cotton and Mixed Goods. These three Blacks are used in thousands of Canadian homes each day, and are prized for their beauty, fastness and great riches. When you purchase Black Dyes for home dyeing see that your dealer gives you the "Diamond," they are the best and only reliable.

Have you tried to make a Hooked Mat or Rug? If you would make a pretty floor ornament send your address to the Wells and Richardson Co., Limited, 200 Mountain street, Montreal, P.Q. and you will be furnished free with new and pretty designs, from which you can select.

He Tried.

Lady—Did you ever try to get work?
Tired Timothy—Yes, mum. Why, onct I got er fine job fer me big brudder!

MAVROGENY PACHA,
Physician to the Sultan of Turkey.

Mavrogeny Pacha writes:

"Sworn enemy of the many proprietory medicines which have of late years invaded the world, and whose only object is gain for the proprietors, I make an exception in favour of one preparation as meritorious as it has been far-reaching in its good. I refer to Vin Mariani, which owing to its valuable fortifying qualities has conferred benefits upon weak and suffering humanity.

"I therefore add my approval and praise to this highly meritorious preparation."

MAVROGENY PACHA.

Yildiz Palace, Constantinople.

VIN MARIANI
THE GREAT SPRING TONIC.

VIN MARIANI not only purifies but enriches the blood; it not only aids digestion, but induces appetite and restful sleep; renews the entire system.

It is specially recommended for the Spring Feeling of Mental and Physical Depression, giving vivacity and colour, a bright eye and a clear mind.

A veritable scientific fountain of youth—a new and exquisite fountain of energy—in fact VIN MARIANI is perfect.

"Vin Mariani is Health."

ALL DRUGGISTS. REFUSE SUBSTITUTES.

GOUGH BROS.

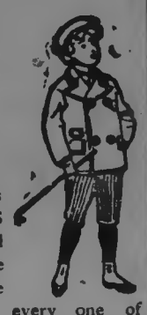
375-377-379 George Street, Peterborough.
CLOTHIERS, HATTERS, SHOEMEN and GENTLEMEN'S FURNISHERS.

Give the Boy Long Trousers

If his legs deserve them, but spare the mother's feeling, Give him long trousers that won't make him "A LITTLE OLD MAN." Trousers cut to grace the most ungainly age.

Dress him RIGHT and don't say, "Be careful of your clothes." If he is a lively boy he will forget your instructions.

DRESS HIM RIGHT and GIVE HIM HIS FREEDOM.



If you wan't to know how to dress him right, bring him to GOUGH'S and we will show you suits that will not show the dirt; suits that are stronger in the seams than the boy; suits that will wear "like iron" and every one of them handsome and stylish—FIRST IN BOYS' CLOTHING—FIRST IN STYLE—FIRST IN QUALITY—FIRST IN FAVOUR. The larger the business, the smaller the cost of doing business. Economic prices follow as a natural sequence.

WE'RE MAKING THINGS HUM AT GOUGH'S : : :

Daily Examiner.

SATURDAY, MAY 3, 1902.

W. C. T. U.

The general meeting of the W.C.T.U. will be held on Monday, the 5th of May, at half past three in the Y.M.C.A. building.

Mrs. Morrow's Concert.

Great interest is being manifested in regard to Mrs. W. J. Morrow's concert in the opera house on Monday evening. The plan of seats is filling up very fast. 1d

Down at Jubilee.

Mr. Dan Foley was up from Jubilee Point to-day, and reports that the hotel has been renovated and everything will be in readiness for the summer trade by next week.

Miss Flynn wishes to inform the public that she is prepared to do dressmaking and give perfect satisfaction at her home, 199 Reid street, town. 3d102

St. Luke's Church.

The Rector will officiate at both services to-morrow. In the morning he will preach on "Love for the Brethren, the Consequence of Feeding on Christ," and at Evensong, "Be of Good Cheer."

Mission Band Notice.

The regular monthly meeting of the Murray street Baptist church Mission Band, will be held to-morrow, Sunday afternoon, May 4th, at four o'clock. Miss Munro, who has spent several years as missionary in Japan, will address the meeting.

For Men Only.

Rev. Mr. Beattie of Cobourg will address the men's meeting at the Y.M.C.A. on Sunday afternoon, at 4.15 p.m. All men are cordially invited to attend. The meeting lasts for only 45 minutes, including a 15-minute song service.

Charlotte Street Church Notes.

Quarterly meeting services will be held in the church to-morrow morning as follows; Love feast at 10 a.m.; public preaching at 11, followed by the Sacrament. A song sermon will be given in the evening by the pastor, when fifty girl voices will sing.

Sale of Useful and Fancy Articles.

Under the auspices of the Ladies' Aid Society, will be held in the school room of St. Paul's church, on Tuesday, May 6th, commencing at 3 p.m. A high tea will be served from 5 to 7.30 p.m. All those contributing to the sale will kindly send their contributions to the school room early on Monday afternoon. sm-w

Rainbow in Port.

The steamer Rainbow, of Burnett's Landing arrived in port this morning for the first time this season. She had a good load of passengers and freight. The Rainbow will be captained by Mr. Fred Copperthwaith, who has been the popular captain of this boat for the past few seasons. He will have associated with him Messrs. Allan Young and Zack White.

Monday, May 12th, 1902.

The programme to be given in St. Paul's church, on Monday, the 12th inst., by the Jarvis street Baptist Choir, of Toronto, is now on press, and is without doubt, a programme of the good things in music. The choir is assisted by Miss McMurtry, soprano, Mr. A. L. E. Davies, bass, Mr. Victor Hutchison tenor, Mr. G. B. McClellan, baritone, and Mr. Arthur Oliver, solo organist. As an evidence of the interest this choir has caused in church circles, it may be stated that they have had six or seven invitations to visit, one as far east as Perth. That Mr. Vogt and his choir have chosen to visit Peterborough is a matter for congratulation to the choir of St. Paul's and the public generally.

GOLF BALLS that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Sailsbury Co.

Moonlight Excursion.

The first of a series of five monthly moonlight excursions, under the auspices of Lansdowne Lodge, Sons of England, will be held on Thursday evening, May 22nd, per steamer City of Peterborough. Everything possible will be done to make these moonlight excursions attractive. 1d

The Columbian Bicycle.

Mr. James A. Turner, No. 336, McDonel street, has been appointed agent for the Columbia Bicycle in Peterborough, and a sample of this well known wheel may be seen at the above address. He is also prepared to do all kinds of bicycle repairing after six o'clock in the evening. mws

Mr. Dick, Peterborough's new vocal soloist, will be heard in public for the first time at George street Methodist choir concert on Friday night next.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

Superior Grey Lime.

"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

Known Everywhere.

J. J. Turner & Sons received a letter this morning from Bayette, North Wales, England, saying that a party of thirty Englishmen were coming out land hunting, and asking if they could supply complete camping outfits. They wrote at once informing the party they could supply anything and everything they required for the purpose.

Song Sermon.

The Song Sermon in Charlotte street church on Sunday evening next will be of special interest. A choir of fifty girl voices will do the singing. Mr. Crossley, the pastor, has been dilligently practising the girls for several weeks for this service and for the concert to be given on Tuesday night by the same young girls.

Married in Rochester.

The wedding took place in Rochester on Wednesday last, of Miss Olive C. Hayward, daughter of the late Stewart Francis Goode Hayward, of Smith, to Dr. J. Walter Fitz-Gerald, of Sanborn, N. Y. The ceremony was performed by Rev. S. S. Lippitt, at St. Andrew's Episcopal church, Rochester. The bride and groom are well known to Peterborough people, all of whom will join in extending heartiest congratulations.

A Marvellous Medicine.

Having a direct and combined action on both the liver and kidneys, Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine, and hence its extraordinary success and popularity. Biliousness, liver complaint, Bright's disease, deranged kidneys and stomach troubles are promptly and thoroughly overcome by this great family medicine. One pill a dose, 25 cents a box.

Public Appreciation.

As advertised, we allowed TEN PER CENT. discount on all our BEST ROASTS and Steaks, also on all Cuts of Veal. We had a BIG CROWD this morning, and are prepared for another crowd to-night. Remember, our meats are the choicest to be had.

KENNEDY'S MEAT MARKET.
Telephone 275.

A PRESENTATION

To Mr. W. H. Walkey by Peterborough Lodge A. F. & A. M., No. 155.

District Deputy Grand Master W. H. Walkey made his official visit to Peterborough Lodge, No. 155, A.F. & A.M., last night. One of the most pleasing features of the communication was a presentation to Mr. Walkey, from Peterborough Lodge, of an exceedingly handsome Past District puty Grand Master's regalia and jewel as a token of the esteem and honour in which he is held by his brethren of Peterborough Lodge. Wor. Bro. Rossel made the presentation, which was preceded by a very appropriate address by Wor. Bro. Armitage. D.D.G.M. Walkey is secretary of Peterborough Lodge, and the brethren took advantage of his official visit as a Grand Lodge officer to practically demonstrate their appreciation of his untiring energy in the lodge's interests, and his devotion to Masonry in general.

$60,000 TO BE SPENT

On Deepening the River and the Construction of Cribwork.

The expenditure of about $60,000 in connection with the deepening of the river, and the construction of cribwork from the Little Lake to London street, should make things hum in Peterborough this summer.

The fact that Government engineers are already at work taking the soundings in the river, shows that Hon. Mr. Tarte is thoroughly in earnest in saying that he is going to rush the work through to completion as soon as practicable.

Of the expenditure, the Government will bear half the cost, and the other half will be borne in equal portions by the town and the American Cereal Company. The proprietorship of such an extent of dockage will mean a great deal to Peterborough as soon as the Trent Canal is opened up.

PERSONALS.

Miss Edmison has gone on a visit to Chicago and Detroit.

Rev. W. L. Armitage will preach at both services in All Saint's, to-morrow.

Mr. Charlie Stone, son of Mr. E. B. Stone, is home from Trinity University for the holidays.

Mrs. J. R. Stratton and Miss Alberta Gooding have returned from a sojourn of several weeks' duration at Clifton Springs. Mrs. Stratton feels greatly benefitted in health.

Mr. John Howden, formerly town constable of many years ago, is back to his native town looking up old acquaintances. He says that he sees a vast difference in the Plate Glass City.

Says Toronto Saturday Night: "Mrs. and the Misses Lye, of Cecil street, gave a tea on Monday afternoon for their guest, Miss Burnham, of Peterborough. Miss Gertrude Lye and Miss Benson poured tea."

The Knickerbocker club dances were brought to a close last evening by the most successful assembly of the season. The arduous duties incidental to the management of these pleasant little evenings are hard to realize except by those who have had an opportunity of personally observing the work involved.

Mr. H. A. Wood, of Peterborough, who was successful at the recent examinations in Dentistry at Toronto, obtaining the degrees of L.D.S. and D.D.S., in addition to first-class honours in the University of Toronto, has, we believe, decided on locating in town, for the practice of his profession.

Genuine regret will be experienced amongst the citizens on learning that Dr. Andrew Scott, who has been practising dentistry in town for the last few years in partnership with Dr. Wightman, is leaving to take up residence in London. Dr. Scott, is an old Peterborough boy, who, on receiving his degree, practiced for some time in Toronto, afterwards coming here and working up a fine practice. He has decided, however, that there is more scope for him in London, and expects to begin practice there in the near future, in partnership with Dr. Macdonald.

MONDAY NIGHT'S PROGRAMME

For the vocal and instrumental recital given by Mrs. W. J. Morrow, and her pupils, in the Opera House:

Mr. Gilbert Markle.

Pupils' chorus, Waltz Rondo...Gumbert

No Worm Medicine acts so nicely as Miller's Worm Powders; no physic required. Sold by all druggists.

DR. FORD AND MR. MILLER, BEWARE.

Those Opposition candidates who think they can "straddle" on prohibition and temperance while pledging themselves to thick-and-thin support of the Opposition leader and his policy of do-nothing in all general questions, will have an awakening if they and their leader are elected in the coming contest.

They can't consistently support Mr. Whitney in the only definite policy he was driven, on the principle of exclusion, to adopt—opposition to prohibition and a restrictive license law, while he has opposed the restrictive provisions of a good license, such as we have at present.

Dr. Ford and Mr. Miller have vowed, if elected, to support Mr. Whitney to the last ditch, except on prohibition, and when it comes to this, if they dare to be independent, thay must look out for the fate of Mr. Marter.

Mr. Marter dared to exercise his own judgment and his patriotism in the interests of the province and of progress, and he was read out of the Conservative party, but not till after his contribution to the Conservative campaign fund was secured. Then this truly characteristic precaution having been taken, Mr. Marter was cast out of the Conservative synagogue, and the strongest Conservative that could be brought out against him was nominated to oppose him in his old constituency of North Toronto. Dr. Beattie Nesbitt, a hot runner-up for the leadership of the Ontario Opposition, the heaviest piece of political artillery in the bunch, was trained on the misguided Conservative, Mr. Marter, who dared to have a mind of his own, and vote with the Government, because he believed the proposition he voted for was in the interests of the country.

Mr. Marter says he is a Conservative in principle yet, but he can't be retained in the Whitney wing of the party. He committed the mortal sin of thinking for himself and opposing the autocratic will of Mr. Whitney. According to Mr. Marter, he had a hard time in the Opposition caucus. Mr. Whitney wields a stinging whip. It was applied to his followers on the last pulp wood agreement, and they wheeled into line. It was applied to Mr. Marter even more strongly, but he was "bold enough to be honest, and honest enough to be bold"—he dared to be a Daniel, and to beard the lion in his den, and vote according to what he honestly considered in the best interests of the country, and, therefore, he is now outside the pale.

Are Dr. Ford and Mr. Miller thick-skinned enough to resist the party whip, if they are brought under it?

NEWS NUGGETS.

—At the police court this morning John Gray was fined $2 for allowing his cow to run at large.

—At St. Paul's church to-morrow evening Rev. Dr. Torrance will preach on the subject "The Commercial Morality of Peterborough."

—The 57th Regimental Band gave another very delightful concert in the opera house last night, at which they were very ably assisted by Mr. Joseph Halpany and Miss Carrie White.

—Pleased customers are being added daily to the growing list of visitors at the New Patent Medicine Store, in the Grand Central Block. The stock is regularly replenished with fresh lots of reliable preparations—the best that money can buy. The prices make the goods move fast. d

—The Trusts and Guarantee Company, Limited, 14 King street west, Toronto, accepts all classes of trusts funds, whether under will, marriage settlement or agreement. As the company has perpetual existence, its clients have the assurance that the terms of the trust will be carried out, no matter what period they cover without changing the trustee, which so often occurs when a private individual has been appointed in that capacity.

The Cause Removed.

In curing a disease its only a waste of time to treat the symptoms. The medicine must reach the cause. Merrill's System Tonic does this. It purifies the blood, builds up the system, strengthens the nerves and is the only positive cure known for Constipation, Dyspepsia, Nerve Troubles and Kidney Disease—all disappear when it is taken. Three week's treatment for 50c. Sold at Ormond & Walsh's.

Call up 48

When you want any building material. Best hardwood flooring ever brought into Peterborough. Finest British Columbia Red Cedar shingles ever cut. Sash, doors and builders' supplies, all well seasoned stock. Reliable Portland cement, Star and Beaver brands. R. Hicks & Co., Rathbun's old stand. Telephone 48.

Seeds That Grow.

If you want reliable flower, field and garden seeds, you'll be safer to buy them right at home, from Ormond & Walsh's drug store. dw

Clams in the shell 15c doz., 2 doz. 25c. Choice pineapples, 2 for 25c. R. A. DUTTON, 418 George street. Phone 304.

TO-NIGHT'S RALLY!

Mr. Stratton Will Meet the Workers in the Water Street Committee Rooms To-night.

Mr. Stratton will be at his Committee Rooms, Stevenson's Block, Water street, to-night. He will be pleased to meet as many of his friends and supporters as can make it convenient to be present.

Mr. Stratton will address the electors of North Monaghan, at the Town Hall, on Monday evening next, at 7.30 p.m.

Window Blinds, Poles, etc.

The prices we specialize this week will be welcome at this season of shifting, moving and housecleaning. Every new style, with a great display of window blinds and cornice poles, will help you to select quickly, because prices and general effects invite irresistibly. PTE. HARTLEY WRITES.

Local Volunteers for South Africa in Halifax—Y. M. C. A. Tent Appreciated.

Mrs. Hartley, of Chamberlen street, has received the appended very interesting letter from her son, Private Harvey Hartley, who is with the 4th contingent, at present located in Halifax.

Dear Mother, — I now take the liberty of writing to you to let you know that I am well, and hoping this will find you the same. We arrived here last night about four o'clock, and were then marched up to the exhibition grounds, where we answered the roll call. The officer then showed us our hut, as they call it; it is one of the exhibition buildings, and would hold about 500 men. After we found out where we were going to sleep we went out and got our supper which was very good. Our food includes bread, butter, potatoes, meat, pickles, catsup, cheese and vegetables of different kinds. Our beds are as good as could be expected under the circumstances—lots of blankets, a pillow and a straw tick for each man. We had to put the straw in them ourselves. Walter Hudson and I sleep together.. I went down street last night after supper with a number of the other fellows. We took in the harbour and several of the main streets. While at the harbour I saw one of the ships on which part of the men sail on on May 5th. I hope you got the post card I wrote you in Montreal; a few minutes after I wrote that card we started for here, some 830 miles. We ate and slept on the train. While on the way we saw many new and strange things among which was snow four and five feet deep in the neighbourhood of Quebec. We stopped in that city for about fifteen minutes and had a look around. The weather was frosty. We did not see much snow the latter part of the trip; none at all near here. weather is very wet here this afternoon, so I am "holding up" the Y. M.C.A. camp on the grounds. It is composed of one large room and one small room, both of which are packed to the doors at all times. It supplies us with writing paper and sells us stamps, so you see a person can write easier with a pencil than a pen. when there is somebody lying on your arm, and some one else leaning up against you. I met all the Peterborough boys down here—Tom Anglesey and a number of others; all are looking well, and as for myself I never felt better. I have been eating like a horse ever since I have been away. Oh, I nearly forgot to tell you how much my purse contained—it was $13.35, so you see I am pretty well fixed.

Pte. W. H. Hartley.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

FRIDAY, MAY 23RD.

Merchants ask the Town Council to Declare This Date Market Day.

Mr. R. Fair, President of the Retail Merchants' Association, has addressed the following letter to the Mayor and Town Council:

To the Mayor and Aldermen of the Town of Peterborough,—

Gentlemen, — On account of Victoria Day falling on Saturday this year, I have been requested on behalf of the Retail Merchants' Association, to respectfully suggest to your body, the propriety of making Friday, the 23rd of May, the regular market day for that week, instead of Saturday.

In order to avoid any misunderatanding as to the date, it is also suggested that the Town Clerk be requested to issue a public announcement regarding the change, for the information of farmers and others interested. I am sure that the newspapers of the town will also co-operate in announcing the change, so that the first anniversary of our departed Queen may be fittingly commemorated and the celebration of the day held under as favourable conditions as possible.

Yours respectfully,
ROBERT FAIR,
President Retail Merchants' Association.

WHERE IS PARENTAL OVERSIGHTS.

To the Editor of the Examiner,—

My Dear Sir,—It not too great a favour at this busy time in the life of a newspaper, may I be permitted to bring before the church at large in this town, and ask the question, what are they doing to obey the commandment of the Master to Peter, "Feed My Lambs"? In order to explain my meaning, I will relate an incident which took place last night.

I had to cross Victoria Park on my way, and heard "boys," as I thought, making a big noise. I could hardly think it possible that girls would be allowed to be out on such a night—cold, dark and damp, but wanted to be sure. When I went up several steps, I found a couple rolling down with their arms about each other. Thinking still they were boys, I took hold of one, and lifting it up I found a young girl of 10 or 12 years. "Go home to your mother," I said to her sternly. "I won't," she replied, "My mother knows I am out." Evidently some of the boys knew me, as they began to jeer, and told me in the polite courage of young Canadians to go for the Cop, which I lost no time in doing, and trust they were sent home, I simply want to ask what is being done to put a stop to this wholesale surrender of parental oversight. What are the mothers and fathers thinking of? Can they not realize they are simply sowing the wind? A farmer letting his young cattle roam at large in such a way would soon find their value deteriorate. Of course, the children are of far less consequence than fashion, sport and novels.

Yours, etc.,
ANNE SCULLIE.

ST. ANDREW'S ANNIVERSARY.

The anniversary of the dedication of St. Andrew's church will be celebrated to-morrow by special services.

Rev. Mr. Beattie of St. Andrew's church, Cobourg, will conduct the services both morning and evening. Mr. Beattie has been most successful in his pastorate in Cobourg. He was invited last year to become one of the assistants to Rev. Wm. Patterson, of Bethany church, Philadelphia, but declined, much to the delight of his own congregation.

On Monday night there will be a Young Peoples' Re-union, when an interesting programme will be given; there will be no admission fee.

Rev. George Yule will conduct the Guild Study Hour at 10 a.m. Text Book, Principal Stewart's "Christian Evidences," in Guild Series.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

THE GIRLS' REFUGE.

Belleville's Police Magistrate's Views In The Matter.

On various occasions Peterborough has been wrought up to quite a pitch in connection with the question of dealing with young girls, who get beyond the control of their parents. The appended letter from Police Magistrate Flint, of Belleville, is of interest as throwing light on a certain method of dealing with such offenders:—

Sir,—Within the last few years I have sent to the Girls' Refuge, Toronto, a number of girls aged from thirteen to sixteen years. I think it due to the public to state some facts connected with the Refuge in order that citizens should become aware of the nature and character of the Institution which is doing a very important work for the Province.

Young girls who are shown to be uncontrollable, ungovernable, who persist in being on the streets with persons of doubtful respectability at late hours, who are beyond parental control, who are unquestionably rapidly drifting into dangerous courses, are frequently committed to the Refuge. Girls who are shown to have already transgressed form another class which find a home in the Refuge.

The Refuge is under the control of a matron most judiciously selected by the Government. The girls occupy a wing of the Andrew Mercer Reformatory in Toronto, and do not come in contact with older inmates.

I frequently commit for an indeterminate period for the following reason: Those in charge coming daily in contact with each inmate are in a much better position to form a correct idea as to the advisable term of residence than I possibly could. In fixing a definite term I would necessarily take upon myself the responsibility of deciding when the girl should be removed from the Refuge and quite likely the girl under my sentence might be discharged at a time when she was unfitted for proper discharge of her duties. The Refuge is modelled upon the plan of an Industrial School. The inmates are taught practical cooking and dressmaking, are under the control in school hours of a teacher specially selected for great ability. Suitable clothing and books are furnished gratuitously. A reasonable discipline is enforced. The girls are taught to respect and obey directions. Wild and ungovernable tempers become moderated and controllable. Every care is taken to teach becoming manners, to educate in every way. In short the Refuge during the past three years has become a model "Industrial School." The girls receive religious instructions from pastors of the various churches. They are obliged to attend divine service and Sunday School.

There are now in this city very many young girls who would become valuable members of society under such training as the Refuge affords; but who will unquestionably become members of the dangerous and evil classes if allowed to pursue their present habits.

I am yours,
JOHN J. B. FLINT.

DEAFNESS AND NOISES IN THE HEAD AND EARS.

The last issue of the "Journal for the Deaf," describes some remarkable cures of deafness and noises in the head by treatment according to the methods of Dr. Drouet, a well known physician of the Paris Faculty of Medicine. For the benefit of those who are interested in the subject, an extract from the record of one case is reproduced here. This is the case of Mr. A. Adams, 22 years old, who was so deaf that he could not hear a watch tick unless it was pressed close to his ear. He also suffered from constant noises in the head, and discharge from the ears. He had been deaf from the age of eight, and had consulted no less than eight doctors without beneficial results. As a result of using the Drouet Treatment the patient reports the following:

259 Brock ave., Toronto.
Nov. 6, 1901.

I wish to write and tell you that I am quite cured of my deafness, and also noises in the head, and that the discharge is quite stopped. I feel quite another person now, as I always felt miserable before. I went to five or six different doctors and hospitals (in England), but they did not do me any good. Had a bad ear since I was eight years old. I then went to Toronto, Canada, and also went to two doctors there, but they did not do me any good; but I am glad to say that I am cured now by using the Drouet Treatment, and shall send anybody to you that I know is suffering. I remain, yours very sincerely.

A. F. ADAMS.

This case, however, is only one out of many hundreds of its kind, in fact the success of the Drouet Treatment has become so great that the Editor of the "Journal for the Deaf," is now publishing a "supplement" which contains a monthly record of the cases cured by the Drouet Institute.

Those who are interested in deafness, or diseases of the ear, nose or throat, can obtain a free copy of the "Journal for the Deaf," with "Supplement," on application to the Secretary, Drouet Institute, 72 Regent's Park Road, N. W., London, Eng.

Each Journal is accompanied by a Patient's Report Form, which enables applicants to receive full particulars for applying the treatment at home. Any advice by correspondence is absolutely free.

An Accident.

Miss Daisy Whetung, dauhgter of Mr. Dan Whetung, of Indian Village, Chemong, met with a rather serious accident yesterday afternoon. When driving up George street in company with her sister, the carriage in which they were seated upset, caused by the horse having shied, and the occupants were thrown to the street. When reached by persons who were near by at the time of the accident it was found that Miss Whetung's shoulder bone was broken and she was removed to Nicholls Hospital.

Wonders of the Heart.

All the blood in the human body passes through the heart in about three minutes. The heart beats 70 times a minute, 4200 times an hour, 100,800 times a day, throwing out 2 1-2 ounces of blood a second, 656 pounds an hour, 7 and 3-4 tons per day. It is only when supplied with pure, rich, blood that the heart, an organ six inches long by four inches inches wide, can accomplish this enormous amount of work, and rebuild its only wasted tissues. Dr. Chase's Nerve Food is the most effective treatment available for heart affections because it forms new, red blood and gives to it that life-sustaining quality, which is necessary to the health of every organ.

SPORTING PASTIMES.

THE WHEEL.

Mr. Louis Rubenstein, chairman of the Membership Committee of the C. W. A., was in town this morning seeing what he could do to boom the membership of the Association. If bicyclists would just stop to consider what they owe to the C. W. A. the membership roll would undoubtedly be a great deal larger than it is at present. All will remember the good roads agitation which was carried on for so long and also the great fight which the C. W. A. put up against the railroads to try and force them to carry wheels free of charge. The fact that bicycles are now carried at just half the former charge is owing to this effort. Then a great advantage to be derived from membership in the Association lies in the fact that reduced rates can be secured in hotels and repair shops in Canada, the United States and England, and when travelling the wheels are exempted from duty. Then too, "Cycling" is sent to all members and an accident policy calling for $5.00 a week in case of injury is issued. The cost of membership is only 75 cents a year.

GOLF.

The first contest in the series of four to be played by the members of the Golf Club for places on the team began to-day, and closes on Saturday evening of next week. The contests have been arranged as follows, but in case any pair cannot arrange to play before Saturday, the 10th, the captain should be notified at once, and pairs will be arranged by him; Fred MacGill vs. Dean; Patterson vs. Brown, McFall vs. Campbell; E.H.D. Hall vs. Ray; Collier vs. Nicholls; Complin vs. Magie; Culverwell vs. Bradd; Dr. Neill vs. Hamilton; Walker vs. Burnham; Bell vs. Davis; Frost vs. Dennistoun; Morrow vs. Scott; Crane vs. A. St. A. Smith; Hogg vs. Greer; Mosely vs. O'Connell; Gracey vs. Stratton; Cameron vs. Young; Hollingshead vs. Fair; R. Neill vs. McAllister; Burnett vs. Matthews; Bradburn vs. Garvin; Eastwood vs. Hill; Davidson vs. Granger; Kenner vs. Terrill.

BASEBALL.

In the triple league this morning the Y.M.C.A. team defeated the Rosedales by a score of 19 to 18.

STOCK MARKETS.

There Seemed to be Some Pool Realizing in the Tractions.

M. O. P. has just published a statement of earnings for the third week in April, which should set people thinking. It shows an increase of over $98,000, or 19 per cent., while it shows so far for its fiscal year an increase over the preceding year, which in turn excelled its predecessor by over $200,000. Despite heavy mileage, in a country where the last year's corn crop suffered the most, this showing is made. The reported increase in the earnings for January and February was in the net, as it represented heavy payments put into the property. The company can afford to do it, and it is a strong point in its favour. Last year the Company was in possession of a dividend balance, amounting to $7,500,000. It had to receive $1,000,000 on the Texas Pacific. Incomes it holds bring its dividend balance up to $8,500,000, and if 5 per cent. is continued stock, which it will be, this should mean more than 11 per cent. earned to sustain any decrease that might have to be sustained on its 5 per cent. basis. The stock last year sold up to 124 1-2. This was in June, before the drought came. Its arrival again carried the shares down to par, and it is near that price now, though the road is doing even better than when the stock sold so high. Events have proven the Missouri Pacific territory is able to give the Co. as large a business, in fact larger, with a small crop, as it did with the large ones. The stock at present is in a false position, being too far too low. It is bound to go higher. Manipulative jugglery has been used recently to keep these shares depressed. One of these days there will be an old time movement in these shares.

There will be an old time movement in these shares, which, at 120, would not be selling at actual worth. This stock is bound to catch up with others that have recently been rising rapidly, when it goes it will probably carry all contingent shares with it. It has possibly been held back by insiders for the effect and to aid them in making certain railway purchases which they have been doing recently in the interest of the greater Missouri Pacific combination in the south west, and with the view to giving that system an outlet to the Atlantic sea board.

Child Must Grow.

The child must grow when it is young. If it doesn't grow give it Scott's Emulsion. It is a great medicine for growth. Scott's Emulsion is just the right addition to the weak child's daily food.

VEGETABLE POISONING.

Two Ladies Have Narrow Escapes From Death—Judge Morrison's Mission to Bring in Newfoundland

Judge Morrison of St. John's, Nfld., is going to Toronto to discuss the question of federation.

Pare, the Napanee bank robber, will be released from Kingston Penitentiary hospital Tuesday. His term has expired.

On the British freight steamship Sir Richard Grenville, for the West Indies, the bodies of two stowaways were found buried in the coal.

The North Sydney, N.S., Herald building was gutted by fire Friday night and the plant destroyed. The building and plant were insured.

Mrs. John Wilbur of Delhi, Ont., narrowly escaped poisoning to death by eating a piece of poke root. In two hours she was on the verge of the grave. A doctor saved her.

At the Newmarket races yesterday, Sceptre, the winner of the Two Thousand Guineas Stakes on Wednesday, won the One Thousand Guineas Stakes. Fourteen horses ran.

Mrs. George McGillivray of Whitby has quite recovered from the effect of poisoning, due to the eating of vegetable oysters. In the same soil with the oysters grew Night Shade.

An attempt was made to rob a grave at Cataraqui Cemetery, Kingston, during Thursday night, but evidently the workers were disturbed, for the work was left half accomplished.

Howard Munroe, aged 28, a lobster fisherman, was killed off Whitehead, N.S., Friday afternoon. He was struck by the main boom of a vessel and knocked overboard. When picked up he was dead.

W. J. TOLLEY, POSTMAN, 112 CRAWFORD ST., TORONTO, SAYS:

I was thrown from my bicycle and sustained most serious injury to my arm. The doctor who attended me at first thought my arm was broken. He bound it up carefully, told me it was very badly sprained, and that I would probably not be able to use it for a month. During that night I suffered agonizing pain and the next day another postman had to take my route. I was then recommended to try Kelpion. I bathed my arm in hot water and my wife rubbed it for half an hour with Kelpion. Within an hour of the rubbing I was delighted to find that the intense pain had nearly ceased. The following morning it was again rubbed with a liberal supply of Kelpion and I found I could use my fingers slightly. I kept on rubbing Kelpion in freely and by the third day my arm was as well and painless as it had ever been. I now swear by Kelpion and I recommend it as the most beneficial ointment for general household use I ever knew of. Take my advice and keep a bottle in your house always. It is the best remedy I ever tried.

Putting Up Colonial Troops.

London, May 3.—In the banqueting hall of Alexandra Palace 1,750 white colonial troops, with eighty officers, are to be housed, and in tents to be erected in the grove 750 colored troops are to be accommodated. The officers' rations are to cost 7s 6d per head per day and the rank and file 4s per head. Some 4,000 naval officers and men will take part in the London ceremonies.

Don't Wake the Baby.

Did you know you could give medicine to your children while they were soundly sleeping? You certainly can. It is called Vapo-Cresolene. You put some Cresolene in the vaporizer, light the lamp, and place near the bed. The children quietly breathe-in the vapor. There is nothing equal to it for whooping cough, croup, colds, cough, sore throat, and all other troubles of the throat and chest. It is economical, pleasant, safe.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

OUR COASTING LAWS

To Be Amended to Prevent Shipping Combine Injuring Canada.

STIFF PRICE FOR A LICENSE

Shipping Duties Are to Be Imposed on Foreign Built Vessels of British Register—Duty Will Be 25 Per Cent. Ad Valorem on Fair Value of Ship — Mr. Preston's Report.

Ottawa, May 3.—Last night the Minister of Justice gave notice of an amendment to the coasting laws. It proposes to exclude a foreign-built British ship from the Canadian coasting trade until it has obtained a license, which the Minister of Customs may grant upon the payment of a duty of 25 per cent. ad valorem on the fair market value of the ship.

S.S. Combine's Interference.

The Immigration Department has received correspondence from Mr. W. T. R. Preston, head of the immigration work in England, dealing with the attempts by the Atlantic steamship combine to interfere with the arrangements for sending immigrants to Canada by the Beaver Line. The correspondence will not be made public until it has been laid before Hon. Clifford Sifton. When in England last winter Mr. J. A. Smart, Deputy Minister of Interior, arranged with commission agents to book emigrants for Canada by the Elder Dempster Line. Before long the steamship combine got wind of this, and warned the agents that they need look for no business from the rest of the steamship companies unless they broke with Elder, Dempster & Company. Seeing that the agents get most of their patronage from companies in the combine they are not able to stand out against the pressure. This is the situation which the Canadian Emigration Department has to face. One of the suggestions made is that the Government should fight the combine and select its own passenger agents in England. This could be done, it is said, for $50,000 or $60,000 a year.

GUESTS OF THE KING.

Sir Wilfrid Laurier the Only One From Canada on Official List.

London, May 3.—The following is an official list of the Colonial Governors and Premiers who will attend the coronation as royal guests to represent the colonies:

Mediterranean (comprising Gibraltar, Malta and Cyprus): General Sir Francis Wallace Grenfell, G.C.B., G.C.M.G.

Eastern Colonies and Protectorates, Fiji and Western Pacific: The Right Hon. Sir Joseph West Ridgeway, G.C.M.G., K.C.B., K.C.S.I.

West Indies, Bermudas, British Honduras, and the Falkland Islands: Sir Walter Joseph Sendall, G.C.M.G.

Newfoundland: The Hon. Sir Robert Bond, K.C.M.G.

Other royal guests: His Highness the Sultan of Perak, G.C.M.G.; and Lewanika, Paramount Chief of the Barotse Kingdom.

PAINE'S CELERY COMPOUND

Thousands of Physicians, Men and Women of Note and Position, and People in Humbler Circumstances say it is Unequalled as a Spring Medicine.

A Startling Proof of its Power Over Disease and Suffering.

It is by true merit, and true merit alone that Paine's Celery Compound has won its wondrous popularity in every part of the civilized world.

When all other medicine fail; when the best directed efforts of physicians accomplish but little for the banishing of desperate and dangerous diseases, Paine's Celery Compound saves life and restores health.

It is natural therefore, that men and women rescued from the agonies of rheumatism and neuralgia, and from the deadly perils of kidney disease, liver complaint and blood diseases, should acquaint their friends—the sick and well—of what was accomplished for them by Paine's Celery Compound. In this way the glad tidings of prompt and effectual cures have spread from day to day to the remotest towns and villages, and the blessed work of life saving progresses in every direction.

One of the most remarkable cures of recent years affected by Paine's Celery Compound, is the case of Mr. R. G. Morris, of Brockville, Ontario. Neuralgia, with its sharp, darting and excruciating pains for two years made life a misery for Mr. Morris. The skill of doctors and the use of common advertised medicines failed to give even a brief term of relief. It was only when Paine's Celery Compound was used that a blessed and happy change was wrought. Mr. Morris writes thus:

"Having suffered with neuralgia in the head for two years, I tested the skill of doctors, and made use of many kinds of medicines as well as the electric battery, but got no relief from any of these sources. I decided to give Paine's Celery Compound a trial, as I noted by the press that it was highly recommended for my trouble. I used several bottles and it cured the neuralgia as well as the dyspepsia from which I suffered. Now I am able to work all winter. I am happy to say the neuralgia has not troubled me for a year."

SOMETHING SUPERIOR

To The Finest Japan Tea Grown.

"SALADA"

Ceylon GREEN Tea—same flavor as Japan, only more delicious, and then it is absolutely pure. Sold in sealed lead packets, the same as the celebrated "Salada" black tea, at 25c and 40c per lb, by all grocers.

THE TORONTO SITUATION.

Building Trades Now Demand Recognition of the Union Card.

Toronto, May 3.—Unless the bosses recognize the union card before Monday the recently settled-with striking building trades men will go out again; 200 carpenters are still out, and machine blacksmiths have resolved to ask for more wages.

Strikes in Montreal.

Montreal, May 3.—The Stonemasons have avoided a strike. The new wage-scale, in which they ask for a nine hour work day and 30 cents an hour, an increase of five cents over last year's scale, has been signed by nearly all the city contractors and goes into effect at once.

The plumbers and steamfitters are still on strike, but indications are not lacking that the difficulty within a few days will be a thing of the past.

Winnipeg Bakers Strike.

Winnipeg, May 3.—The city bakers went out on strike yesterday morning. They demand an increase of pay from 20 cents to 25 cents per hour for ordinary bakers and 25 cents to 30 cents per hour for foremen.

HOW IS YOUR APPETITE?

If it is Wearied and Weak use

Malt Breakfast Food

Experience strongly maintains the statement that a very large number of people—*young and old*—go to the breakfast table each morning with with wearied, weak and unhealthy appetites.

Uncertain and weak morning appetites are produced by the use of foods of a heavy, rich and starchy nature that call for too great an expenditure of energy in the work of digestion. Oatmeal, cracked wheat, hominy and the ordinary breakfast foods are responsible for many a poor and unhealthy appetite.

Malt Breakfast Food made from the choicest strength-giving Wheat and the purest health-giving Malt, the whole partially predigested, is what our present day food experts call "a perfect health food." Malt Breakfast Food is the most delicious of all grain foods; it stands first as an energizing, sustaining and invigorating nourisher. Malt Breakfast Food possesses tonic and corrective influence for regulating the digestive organism; it is the only grain food that perfectly agrees with weak stomachs. At all grocers.

BOTH HANDS SHOT OFF.

Joseph Guillaume While Smoking Handles Gun Powder.

Quebec, May 3.—Jonquiere, on the line of the Quebec and Lake St. John Railway, was the scene of a shocking accident Thursday evening, and an aged man named Joseph Guillaume is lying at his home today, with both his hands shot off and his face disfigured for life. The accident, it is feared, will result in its victim's death.

The old man was arranging or fitting a cork into a bottle filled with powder. He was smoking. Suddenly the members of the household heard a deafening noise, and, hurrying to the room where Guillaume was working, beheld the unfortunate man lying upon the floor with both his hands blown off and his face and arms terribly injured. He regained consciousness some time afterwards, but is in a very critical condition.

Premier Charges the Clergy.

Paris, May 3.—The Premier, M. Waldeck-Rousseau, has caused a circular to be forwarded to all of the prefects of departments drawing attention to the interference of the clergy in the recent elections, and inviting the prefects to furnish the names of those who thus "grossly abused their ecclesiastical functions in a way which cannot be tolerated," so that they may be properly dealt with.

Killed by a Live Wire.

Montreal, May 3.—R. S. Belanger, employed for the past two years at the Lachine Rapids Hydraulic Land Company's power house, Lachine Rapids, was accidentally killed at about 8 o'clock yesterday morning. While engaged in painting the roof trusses of the power house he came in contact with a wire, receiving a shock which threw him to the floor, thirty feet below, killing him instantly.

Suicide Near Huntsville.

Huntsville, May 3.—Ernest Joal, a young man of about 21 years of age, committed suicide at Mallard's Mill by hanging himself with a halter shank. The young man came up from Toronto a few days ago and went to the home of his father, who resides near Aspdin. The coroner's inquest said "suicide, while temporarily insane."

Eric Sharp Committed For Trial.

Kingston, May 3.—Eric Sharp was before the Police Court yesterday in the preliminary investigation into the charge of manslaughter preferred against him in shooting his schoolmate, Beatrice Holland. He was sent up for trial at the next competent court. Application for bail will be made to-day.

Titles.

Reginald—My father had D. D. put behind his name.

Jimmy—Dat's nuttin'. Dey took me father to de alcoholic ward an' put D. T. behind his name.—Philadelphia Record.

At South Finch number cheese boarded 350 boxes—200 white, balance colored. Price offered for both, 11c.; none sold.

A Sufferer From Backache.

Several Years of Kidney Disease—A Prominent Merchant Cured by.

Dr. Chase's Kidney-Liver Pills.

Every day adds scores of names to the long list of persons who have been cured by Dr. Chase's Kidney-Liver Pills, and among those who are now enthusiastic of this great medicine is Mr. W. Gilroy, the well-known merchant of Blenheim, Ont.

Like many others, Mr. Gilroy now wonders why he did not use Dr. Chase's Kidney-Liver Pills in the first place, instead of experimenting with new-fangled and untried remedies. There is no doubt about the exceptional virtues of Dr. Chase's Kidney-Liver Pills. They act directly on the kidneys, liver, and bowels, and thoroughly cure complicated ailments which cannot be reached by ordinary remedies.

Mr. W. Gilroy, general merchant, Blenheim, Ont., states:—"I am rather enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills, and believe I have good reason to be. For several years I was a great sufferer from kidney disease, and had pains in my back almost constantly. I tried a great many remedies, but did not succeed in obtaining more than slight temporary relief.

"A friend of mine advised me to try Dr. Chase's Kidney-Liver Pills, and I did so, with great satisfaction. I had not taken half a box before I began to feel better, and now realize that I have entirely recovered. I often wonder now why people go after new-fangled remedies when this tried and proven medicine is so easily obtained, and so certain to cure."

Dr. Chase's Kidney-Liver Pills have the hearty endorsement of good citizens in nearly every city, town, and village in Canada. They are probably the most popular remedy that was ever introduced into this country, and their enormous sales are due to the fact that they radically cure serious and chronic diseases. One pill a dose; 25 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto. 3

FIND THE SUNNY SIDE.

Try to Get Out of the Gloom and the Shadows of Life.

Nothing contributes more to the highest success than the formation of the habit of enjoying things. Whatever your calling in life may be, whatever misfortunes or hardships may come to you, make up your mind resolutely that, come what may, you will get the most possible real enjoyment out of *every day; that you will increase your* capacity for enjoying life by trying to find the sunny side of every experience of the day. Resolutely determine that you will see the humorous side of things. No matter how hard or unyielding your environment may seem to be, there is a sunny side if you can only see it. The mirth provoking faculty, even under trying circumstances, is worth more to a young man or woman starting out in life than a fortune without it. Make up your mind that you will be an optimist; that there shall be nothing of the pessimist about you; that you will carry your own sunshine wherever you go.

There is longevity in the sunny soul that eases our jolts and makes our sides shake with laughter.

There is a wonderful medicinal effect in good cheer. Good news and glad tidings have a magic effect even upon invalids.

We often see a whole store or factory or home transformed by one sunny soul. On the other hand, we have seen them blighted and made dark by a gloomy, morose, fault finding person.

Always Dying.

Life consists in a series of changes of tissue, and the human economy is simply, so far as its material part is concerned, a machine and primarily depends on food as the most important factor in keeping it in working order. When it is said that we commence to die as soon as we are born, it of course means that certain parts of the body immediately begin to perish; their existence is ephemeral; they come and go, are replenished and decay. They are the dying parts of that system of life which may last a little while, but which must eventually yield to the inexorable law of nature. The nails, the hair, etc., are observable as an instance of this decay. The same rule applies to every other organ and tissue of the body, though it is not palpable to the naked eye. The skin is always peeling The food that is taken in the one hour nourishes the system and ejects that which was taken the hour before.

How Birds Migrate.

Many of the smaller and weaker birds, like the fly catchers, vireos, wrens, kinglets and bluebirds, in order to avoid their enemies, the hawks, make their long flights by night, stopping for rest and food in the daytime. The larger and bolder ones, like the hawks and crows, and those of extremely rapid flight, like the swallows and humming birds, migrate fearlessly by day, and there are some, like the Canada geese, which travel just when they choose, by day or night. Migrating birds usually fly at a height of from one to three miles, and this enables them to see the rivers, the mountain ranges and the coast line. By these they direct their course, the old birds remembering the way they came before and the young ones following.

Breaking Off.

"Yes," said the ingenuous girl heroically, "I have decided to break with Horace for good and all."

"Why, then, are you sending him your picture?"

"Well, I am sure that is the least I can do. He refused to take back his gifts, and I wanted to make some return, so I am sending him my photograph."

Peculiar Table Customs.

In a book entitled "Domestic Manners of the Middle Ages" we are told that in those days dinner tables were covered by a "nappe," or tablecloth. Upon it were placed a large saltcellar, bread and cups for wine, but no knives or plates. The reason for the absence of the knives arose from the common practice in vogue of people carrying their own knives in a sheath attached to their girdle.

In an early work, written by Lydgate—"Rules For Behavior at Table"—the guests are told to bring no knives unscoured to the table, which can only mean that each one was to keep his own knife—that is, the one he carried with him—clean.

Notifying the God.

One of the odd things the visitor to Burma will notice is the large number of bells about the pagodas. These bells are usually hung on sacred posts a few feet above the ground.

They are sweet toned, as all Burmese bells are, but they are not furnished with tongues. The worshiper who comes to pray before the pagoda strikes one of these bells with a wooden mallet. This is to attract the attention of the god.

Surprising Statements.

One account of an accident to a royal motor car near Arriccia announces that "fortunately a number of pheasants were working close by, and with their help the motor car was righted." This surprising statement is only the reverse of the traditional printer's error by which "Lord X. was stated to have gone out with a party of fiends to shoot pensants."

Balancing.

The famous equilibrist was balancing four billiard balls on a cue, much to the amazement of the vaudeville audience.

"Humph!" growled a young man with ink on his fingers, "I'll bet he can't balance a set of books."

An Unguarded Word.

"This new meter seems rather small," doubtfully remarked the householder.

"Oh, it will fill the bill," was the unguarded response of the gas company employee.

You weep on a gravestone, it is the threshold of eternity that you are wetting with your tears.

Dodd's Kidney Pills are the only medicine that will cure Diabetes. Like Bright's Disease this disease was incurable until Dodd's Kidney Pills cured it. Doctors themselves confess that without Dodd's Kidney Pills they are powerless against Diabetes. Dodd's Kidney Pills are the first medicine that ever cured Diabetes. Imitations—box, name and pill, are advertised to do so, but the medicine that *does* cure

Diabetes

is Dodd's Kidney Pills. Dodd's Kidney Pills are fifty cents a box at all druggists.

The qualities by which **Carling's Ale and Porter** have won distinction are absolute purity and perfect and thorough aging, both in wood and in bottle.

The DOMINION SUPPLY CO., Springville, Ont.

PALE AND LISTLESS.

A Condition That Affects Very Many Women.

The Appetite Fails—Strength Departs and the Sufferer Feels That Life is Really a Burden.

(From The Topic, Petrolea, Ont.)

It is impossible that a medicine can be so widely known and used as are Dr. Williams' Pink Pills without striking results frequently becoming known and the merits of this great remedy for the common ailments of man and womankind being published. Mrs. Thos. Kettle, of Petrolea, Ont., is a case in point. Mrs. Kettle is an old resident of this district and is well known. Chatting with a reporter of the Topic the other day the conversation drifted on the subject of medicines, when Mrs. Kettle spoke in the highest praise of Dr. Williams' Pink Pills, which, she said, had cured her of a long illness. Our reporter, being naturally interested, made further enquiries, when Mrs. Kettle gave him the following particulars:—"I am the mother of twelve children and in spite of the constant strain and worry the raising of so large a family entailed upon me, in addition to my housework, I was for many years blessed with splendid health. However, after the birth of my last child my strength seemed to fail me and I felt that my health was gradually going. I consulted a doctor and continued under his treatment for some months, but the only result that I could see was that I grew steadily worse. I could not name any particular ailment that I suffered from, but I was all "run down." My appetite failed me, my strength seemed all gone and I became pale and listless, scarcely able to drag myself around, and much of the time in bed. I became alarmed at my long continued ill health and as doctor's medicine had done me no good I determined to try Dr. Williams' Pink Pills. I purchased a box and thought it did me some good, so I got six boxes more, and before I had finished taking the second I felt a lot better, and by the time I had finished the seven boxes I had perfectly regained my health, had gained weight and felt better than I had for some years. I consider the pills a splendid medicine, a real Godsend to weak and ailing women, and have frequently recommended them to my friends and used them with my children, always with good results." Judging from Mrs. Kettle's healthy appearance to-day none would imagine she had ever known what a day's illness meant.

Dr. Williams' Pink Pills are a positive cure for all diseases arising from impoverished blood, or a weak or shattered condition of the nervous system, such as epilepsy, St. Vitus' dance, paralysis, rheumatism, sciatica, heart troubles, anaemia, etc. These pills are also a cure for the ailments that make the lives of so many women a constant misery. Sold by druggists or sent by mail, postpaid, at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Cultivate Tact.

The average man who curses his luck because he wasn't born with money to take advantage of his opportunities could get all the money he wants from people who have it if he had a small stock of tact. The youth who hasn't any friends who have faith in him could have an army of them if there was in his makeup a small stock of tact.

Tact has built more bridges and railroads, financed more banks, created more public reputations and capped more achievements than all the ability, talent and genius in the world. More subtle than money, it acquires possessions at less cost. Surer than brains, it achieves bigger things with greater ease.

Fantastic Bottles.

Glass in fabric is so beautiful that even grotesque designs cannot entirely rob it of charm; hence the "fantasies in glass" come fitly into collections. Among foreign bottle curios are found Buddha bottles, dragons, sea horses, ships, gondolas, fountains, violins, whales and lion bottles; bottles with horizontal stories or perpendicular divisions and glass jugs with horns or whistles in the handles. American curio bottles show a wide but more practical range, expressing national jocosity in such shapes as cigars, pistols, monuments, eggs, boxing gloves, birdcages, canteens, lanterns, scallop shells, shoes, slippers, roller skates, barrels, castles, snails, birch bark logs, cones, pyramids, figures of Uncle Sam, Santa Claus and the like.—Century.

Criticising a Portrait.

Walter Dean, Sr., once hired an artist to paint his portrait, with the stipulation that the picture would not be accepted and paid for unless it looked like himself. When the portrait was completed, it was sent to Mr. Dean, who did not recognize himself and absolutely refused to pay the painter. The painter sued, and Joe Strong, the artist, was called in to give an expert opinion.

"You see the portrait of Mr. Dean?" the lawyer asked.

"No," said Mr. Strong, "I do not."

"There it is," said the lawyer, pointing to the big canvas.

"I don't call that a portrait. I call that a map of Mr. Dean," said Mr. Strong.

Very Legal.

"We claim that my client did not run away with the horse, as alleged. The horse was ahead of him all the time, and he simply followed the horse.

The Prosecuting Attorney—It amounts to the same thing. He was the accessory after the fact. He is old enough to know better than to follow a bad example.

Something Like It.

"Does your son matriculate this year, Mrs. Hammondsine?"

"Why, really, I don't know. I ain't heard anything about matriculation, but he wrote me in his last letter that he had got vaccinated and it took terrible."

Serene Superiority.

"Mr. Loftibrow takes himself very seriously," remarked Miss Cayenne.

"In what way?"

"He asked me if I thought I could be happy with him. As if his presence could make the slightest difference one way or another!"

Dr. Pierce's Favorite Prescription Doubles a Mother's Joys and Halves Her Sorrows.

It does this by a pre-natal preparation in which the mother finds herself growing stronger instead of weaker with each month. Instead of nausea and nervousness, there are healthy appetite, quiet nerves, and refreshing sleep. The mind's content keeps pace with the body's comfort. There is no anxiety, no dread of the approaching time of travail. When the birth hour comes it is practically painless, the recovery is rapid, and the mother finds herself abundantly able to nurse her child.

"Favorite Prescription" contains no alcohol, neither opium, cocaine, nor any other narcotic.

Sick women are invited to consult Dr. Pierce by letter *free* of charge, and so obtain without cost the advice of a specialist in the diseases peculiar to women. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Mrs. Annie Blacker, 629 Catherine Street, Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor; I had four miscarriages, but since taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' I have much better health, and now I have a fine healthy baby. I have recommended your medicines to several of my friends and they have been benefited by them."

Dr. Pierce's Pleasant Pellets cure dizziness and sick headache.

Registrars of Stock and Transfer Agents:
NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, and Winnipeg.

N.B.—Since the Prospectus of the Company was issued (about the First of April), the Company has received two offers for the purchase of its entire output of paper. These offers are entirely unsolicited, and are from parties whose standing is such as to guarantee the performance of any contract they may undertake. One of these offers covers the first year of production, and the other covers the first three years. Either offer, if accepted, would be sufficiently profitable to assure the payment of the full dividend on the Preferred Stock, provide the amount required by the Charter for a Reserve Fund, and leave a balance sufficient to pay a large dividend on the Common Stock, if no unforeseen contingencies should arise. This does not include profits estimated from the sale of sulphite pulp or from the saw mill, which, it seems reasonable to suppose, would be sufficient to cover all unexpected contingencies.

PROSPECTUS

OBJECTS OF THE COMPANY

The Atlantic Pulp and Paper Company, Limited, has been organized in order to take advantage of the unrivalled facilities for the manufacture of pulp and paper at New Richmond, on the Baie des Chaleurs, and by its charter, has powers of the fullest description. It is confidently believed that pulp and paper can be more economically manufactured there than any other place in America.

The essentials to the success of such a concern are:

1. Cheap and unlimited pulp wood;
2. Adequate water power cheaply developed;
3. Pure water for the manufacturer;
4. Cheap labor;
5. Low transportation charges;
6. Efficient management.

It will be seen that the facilities possessed by this Company assure a point of cheapness in the production of paper never attained before, while the situation of the mills on the Atlantic seaboard makes it possible to ship to all foreign ports by water without trans-shipment. As the Company proposes to confine itself almost exclusively to the export trade, it will readily be seen that this gives it further advantage over all other companies.

1. **WOOD SUPPLY.**—No paper mill in Canada has greater advantages in point of situation. Many companies do not own their own limits, being entirely dependent on outside purchases, and subject to fluctuations of supply and price. Other companies owning limits have to transport their wood from great distances by water or rail. Thus we find mills at Merriton and Niagara Falls are bringing their pulpwood from Central Quebec. Some prosperous paper companies even buy their pulp in the manufactured state. The mills of the Atlantic Pulp and Paper Company, Limited, will be built about two miles from the limits, where there will also be a very large mill-pond capable of holding several million logs. The Little Cascapedia River flows from end to end through the center of the limits, and the large number of tributary streams does away with the greater part of the hauling usually entailed in getting out pulp wood, thereby greatly decreasing the cost.

2. **WATER POWER.**—Mr. George F. Hardy of New York, the foremost American authority on this subject, has made a thorough examination of the water power that can be developed on the Little Cascapedia River at a point immediately adjoining the proposed mill site, and his report shows that sufficient power can be developed to run mills of even greater capacity.

This report can be seen at the office of the undersigned, or at any office of the National Trust Company, Limited.

3. **WATER SUPPLY.**—Pure and clean water is one of the most important factors in connection with pulp and paper-making. The bed of the Little Cascapedia River is rocky, and owing to its crystal-like clearness and purity the water in the river is suitable for making the finest grades of paper without the expense of filtering, which is almost invariably required at other mills.

4. **COST OF LABOR.**—The labor employed in the mills and woods cost less than probably any other American mill, as far as known, as competent men in this section of the country, on account of the cheapness of living, ask very low wages.

5. **TRANSPORTATION CHARGES.**—The shipping facilities of this Company are certainly unequalled by any similar enterprise in Canada, the situation of the mills on the Baie des Chaleurs giving every possible advantage for export trade, which is probably the most profitable field. Arrangements can be made with Atlantic steamship lines to run steamers from New Richmond for eight months in the year, as required. During the winter months favorable winter rates have been arranged with the Railway Companies to St. John and Halifax, New Richmond being on the line of the Atlantic and Lake Superior Railway, which will be connected with the mills by a siding.

6. **MANAGEMENT.**—The Company has been fortunate in securing the services of Mr. Wm. M. McIntyre, formerly Mechanical Superintendent with the Laurentide Pulp Company, Limited, who will act as Manager of the construction and operation of the mills. Mr. McIntyre has had over twenty years' experience in pulp and paper-making, and is regarded as an authority on the manufacture of pulp and paper.

PROPERTIES

The properties and limits acquired by the Company contain about **three hundred and two square miles,** or one hundred and ninety-three thousand two hundred acres, more or less. The wood is principally spruce, and there is also a large quantity of cedar, pine, birch, balsam, balm of Gilead, and poplar. The Company has reports on this property made by five different expert Rangers, acting independently. Copies of these may be seen at any office of the National Trust Company, Limited, or at the office of the undersigned.

The following is an extract from one of the reports:

"I have been working in the lumber woods for twenty years or more, and have traveled and examined limits in the State of Maine, New Brunswick, and Quebec, and worked in Wisconsin and Minnesota, and I am sure this is the best pulp limit I have ever seen or traveled over."

On the basis of any one of these reports a conservative estimate shows that there is sufficient pulpwood now on the limits to supply the proposed mills for more than 65 years. As spruce wood will replace itself in from twenty-four to thirty years, it will be seen that there is sufficient wood on the limits to afford a perpetual supply to a mill double the capacity of that now contemplated.

The freehold property consists of twenty acres where the saw mill, dwellings, and office are situated, and 356½ acres on the bank of the Little Cascapedia River, where it is proposed to build the Pulp and Paper Mills.

THE PULP AND PAPER MILLS

It is proposed to erect—

A Paper Mill with a daily capacity of 54 tons.
A Ground Wood Pulp Mill with a daily capacity of 50 tons, and
A Sulphite Pulp Mill with a daily capacity of 40 tons.

Mr. George F. Hardy has estimated the cost of erecting the Pulp and Paper Mills and of developing the water power at $950,000. The balance from the sale of the Preferred Stock will be sufficient to complete the payments for the limits, water power, saw mill, etc., provide working capital, and leave a substantial balance for contingencies.

THE SAW MILL

There is on the property a saw mill, equipped with the latest improved machinery, capable of turning out from 35,000 to 40,000 superficial feet of sawn lumber in ten hours, and is equipped with all necessary power, gearing, shafting, etc., for the installation of another saw, which would double the capacity.

MARKETS

The markets will be chiefly foreign, including the Eastern States and Great Britain. In view of the expected advances in the price of paper in the Eastern States it is probable that the greater part of the output will be marketed there. Situated as the mills will be on the seaboard, paper can be laid down in Liverpool and New York, duty paid, at such a price as to defy competition.

Freight quotations can be seen at the offices of the National Trust Company, or the undersigned.

ESTIMATE OF BUSINESS AND PROFITS

Estimating the cost of pulp wood at $2.25 a cord, careful estimates made for the Company show that the ground wood pulp should not cost over $5.89 a ton, and sulphite pulp not over $16.00 a ton. The actual cost of newspaper from pulp, estimated at these prices, should not be over $16.94 a ton. This is after making all necessary allowance for depreciation and renewal of plant, and all charges of management and selling.

The following estimate of the annual output of the mills has been prepared by Mr. Wm. M. McIntyre, a practical pulp and paper manufacturer, and is believed to be conservative and well within the mark, and includes allowances for salaries and contingencies:

16,902 tons of newspaper at $37.00 a ton f.o.b. at mills		$625,374.00
8,294½ tons of sulphite pulp at $30.00 a ton f.o.b. at mills		248,835.00
		$874,209.00
Cost of producing same:		
16,902 tons of newspaper, at $16.94 a ton	286,319.88	
8294½ tons of sulphite pulp at $16 a ton	286,319.88	
		419,031.88
Showing a profit of		$455,177.12
7 per cent on $1,500,000 Preference Stock		105,000.00
Available for Reserve Fund and further Dividends		$350,177.12

The ground wood pulp and the balance of sulphite pulp will be consumed in the paper mill of the Company.

The estimated profits from the operation of the saw mill are not included in these figures, but owing to the enormous quantities of cedar on the limits, substantial profits should be made from the manufacture of railway ties, shingles, etc. The Laurentide Pulp Company, Limited, in its annual report, June 30th, 1900, stated that the Company's saw mill added to the year's profits an amount equal to its entire cost, although it was operated for only three months of the year, and estimated that the future profits from this source would cover the interest on the entire bond issue of the Company.

ISSUE OF STOCK

For the acquiring of the said property, equipment of the pulp and paper mills, the development of the water power, building the railway siding to the mills, and the furnishing of sufficient working capital, the present issue of Preference Stock is made. The whole of the Seven Per Cent. Cumulative Preference Stock has been authorized to be issued on the following terms:

For every two shares of Seven per cent. Cumulative Preference Stock subscribed and paid for, there will be allotted by way of bonus one share of fully paid Common Stock.

The Seven Per Cent. Preferred Stock is Cumulative, carries yearly dividends, and has priority over the Common Stock as to both divide and assets.

After the payment of the dividend on the Preferred Stock, and before any payment of dividend on the Common Stock, a further sum of one per cent. must be applied to a Reserve Fund, under the charter. This fund will be for the further assuring of the dividends on the Preferred Stock.

Application will be made in due course for the listing of the shares of the Company on the Toronto and Montreal Stock Exchanges.

Applications for Preferred Shares should be forwarded to the NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, or Winnipeg; or to SUTHERLAND & CAMERON, Brokers, Ottawa, Canada.
Checks, drafts, etc., are to be made payable to the NATIONAL TRUST COMPANY, Limited.

If the whole amount applied for be not allotted, the surplus paid on deposit will be appropriated towards the sum due on allotment. Where no allotment be made, the deposit will be returned in full.

Further information and Forms of Application can be obtained at the offices of SUTHERLAND & CAMERON, 48 SPARKS STREET, OTTAWA, CANADA, or the NATIONAL TRUST COMPANY, LIMITED, TORONTO, MONTREAL, and WINNIPEG.

We offer the Preferred Stock for sale on the above terms.

SUTHERLAND & CAMERON, Brokers
OTTAWA, CANADA.

A Literary Tea Toper.

There have been many literary tea topers, but William Hazlitt, the writer and critic, probably surpassed every other author in the singularity and strength of his potations. Rising usually at 1 or 2 o'clock in the day, he would sit over his breakfast of exceedingly strong black tea and a toasted French roll—if he had no work on hand—for hours, silent, motionless and self absorbed as a Turk.

It was the only stimulant or luxury he ever took, and he was very fastidious about its quality, using always the most expensive kind and consuming, when he lived alone, about a pound a week. He always made the tea himself, half filling the teapot with tea, pouring boiling water on it and then almost immediately pouring it out and mingling with it a great quantity of sugar and cream.

Such a beverage must have been delicious. Indeed, Douglas Jerrold says, "there was fascination in it," but as a daily stimulant it must have been most deleterious, and as the essayist died after several severe attacks from a disease of the digestive organs it probably caused his death.

ADVERTISE IN THE EXAMINER.

The Doctor's Story

When the matter of Foods for Infants and Invalids came up for consideration,

Sir Chas. A. Cameron, C.B., M.D.

Ex-President of the Royal College of Surgeons, Ireland, pronounced

NEAVE'S FOOD

"An excellent Food, admirably adapted to the wants of infants and young persons."

Mrs. A. EVANS, of The Hollies, Wibington, near Manchester, writes: "Gentlemen,—I am sending photo of my little girl, age two years, brought up entirely on Neave's Food, and a more healthy child could not be found. There is no doubt it is excellent Food, and so easily prepared. Many of my friends have asked me what I give them, and when told Neave's Food, have tried it, and in every instance found it satisfactory.

OF INTEREST TO NURSES.

History of the Reform in Nursing Bellevue Hospital.

Report of the Hospital Visiting Committee of the State Charities Aid Association—Compiled by L. L. Dock.

A recent number of the American Journal of Nursing contains a very interesting history of the reform in nursing in Bellevue Hospital, New York. The article is compiled by Mr. L. L. Dock, and contains amongst other matter, a report of the Hospital Visiting Committee of the State Charities Association. The article is too lengthy for one issue, and the remaining portion of it will be published in Monday's issue of the Examiner:

December 23, 1872.

The association began its work in New York City through its Local Visiting Committee for Bellevue Hospital in 1871.....The members of the Bellevue Association could not patiently witness the ignorance and brutality which daily fell under their eyes, and they applied to the Commissioners of Charities for permission to establish a school for nurses at Bellevue. The Commissioners replied to their appeal by referring the subject to the Medical Board for decision. Dr. Gill Wylie, formerly one of the resident staff of Bellevue and now a member of the Hospital Committee of the State Charities Aid, volunteered to visit England and the Continent at his own expense and study the system of nursing as practised in the schools and hospitals of those countries. After an absence of three months, exclusively devoted to this work, he returned and made a most interesting report to the association, from which we quote as follows:

"The name of Florence Nightingale is as familiar to Americans as to Englishmen. We connect it with the memories of the Crimean War and with hospitals elsewhere, and yet how few of us know anything of her real work. After the Crimean War her grateful countrymen subscribed a large sum of money at a public meeting as a memorial of her services, and at her request this sum was devoted to the foundation of an 'Institution for the Training, Sustenance, and Protection of Nurses and Hospital Attendants.'

"This institution was established at St. Thomas' Hospital, London, and from time to time during the last twelve years women trained in this school have been sent to all parts of England and her colonies as superintendents, matrons, and training-nurses in hospitals. The main points of the system have been adopted in nearly all the hospitals of London and the other large towns in England, while here, at this late date, the subject is only just beginning to inspire interest.

"On the Thames Embankment the eight pavilions of St. Thomas' Hospital rear their stately facades for a quarter of a mile in face of the Houses of Parliament and Westminster Abbey.....The building which has been erected for the accommodation of the probationers, called the 'Nightingale Home,' adjoins the house of the matron, Mrs. Wardroper. It is entered from the main corridor of the hospital, and contains on the ground floor a capacious dining-room, with adjoining room for the sister in charge. Above these are four floors of bedrooms, affording a separate room for each of the thirty-five probationers, bath-rooms, and a day-room for convalescents.

"Mrs. Wardroper has been matron of this hospital of six hundred beds for eighteen years. She is also lady superintendent of the Nightingale Training School for Nurses and fulfils these varied duties in the most satisfactory manner.

"Their arrangements for the nursing staff are as follows:

"There are in all sixteen hospital sisters or head nurses, one of whom acts as superintendent of night nurses and one as matron's assistant. There are fifty-four nurses and three nurse-maids; to five of the head nurses are assigned two wards each; to seven, one each; and there is one sister for the infectious block.

"The probationers are employed as assistant nurses under the immediate direction of the head nurses. They pass, during the year's training, successively through all the different wards, and there are to about thirty patients one head nurse, one day nurse, one night nurse, two probationer-assistants, and one ward maid; whereas at Bellevue to the same number of patients there is one nurse without an assistant; one-fifth of the time a night nurse, and one ward maid, if the ten days' prisoners convicted for drunkenness who do the cleaning can receive such a title.

"As to the instruction given outside the wards, a few lectures are delivered each season on principles of medicine, surgical subjects, chemistry, and the properties of air and light. While these lectures are being delivered the probationers take notes and afterwards write out the lectures. The subjects are treated in the simplest style.

"In answer to a letter which I addressed to Miss Nightingale I received the following reply:

"'London, September 13, 1871.

"'Sir: First, let me explain that your letter from Paris of August 26 was, most unfortunately, not forwarded to me till the day after that on which you proposed to leave England.

"'When it reached me I was overwhelmed with business and illness. (I should, perhaps, add that my medical advisers have warned me that if I have business interviews of more than half an hour it is at the risk of my life.) Add to this, at the moment of receiving your letter my niece, who was to me like my own child, Sir Henry Verney's only daughter, had been but two hours dead. (She would have done a great work in God's service had she lived.)

"'But I have been so little used to regarding my own life or the lives of those dearest to me as preventing God's business, that I would have seen you, as you desired, had it not, as I have explained, been, alas, too late. Excuse me for giving these personal details; I wish to show that there is no indifference on my part; that if I could have been of service I would.

"'I wish your association God-speed with all my heart and soul in their task of reform, and will gladly, if I can, answer any questions you may think it worth while to ask.

"'You say, "The great difficulty will be to define the instructions, the duties, and the position of the nurses in distinction from those of medical men, and you are anxious to get my views in relation to this subject."

"'Is this a difficulty? A nurse is not a medical man; nor is she a medical woman. (Most carefully do we, in our training, avoid the confusion, both practically and theoretically, of letting women suppose that nursing duties and medical duties run into or overlap each other; so much so that although we have often been asked to allow ladies intending to be "doctors" to come in as nurses to St. Thomas's Hospital in order to "pick up"—so they phrased it—professional medical knowledge, we have never consented to admit such applications, in order to avoid even the semblance of encouraging such gross ignorance and dabbling in matters of life and death, as this implies.)

"'Nurses are not "medical men." On the contrary, the nurses are there, and solely there, to carry out the orders of the medical and surgical staff, including, of course, the whole practice of cleanliness, fresh air, diet, etc. The whole organization of discipline, to which the nurses must be subjected is to carry out intelligently and faithfully such orders and such duties as constitute the whole practice of nursing. They are in no sense medical men. Their duties can never clash with medical duties. Their whole training is to enable them to understand how best to carry out medical and surgical orders, including, as above, the whole art of cleanliness, ventilation, food, etc., and the reason why this is to be done this way and not that way.

"'And for this very purpose—that is, in order that they may be competent to execute medical directions, to be nurses and not doctors—they must be, for discipline and internal management, entirely under a woman, a trained superintendent, whose whole business is to see that the nursing duties are performed according to this standard. For this purpose may I say:

"'1.—That the nursing of hospitals, including the carrying out of medical officers, whose orders regarding the sick are to be carried out. And we may depend upon it that the highly trained, intelligent nurse and cultivated moral woman will do this better than the ignorant, stupid woman, for ignorance is always headstrong.

"'2.—That all desired changes, reprimands, etc., in the nursing and for the nurses should be referred by medical officers to the superintendent.

"'That rules which make the matron (superintendent) and nurses responsible to the house surgeons or medical or surgical staffs, except in the sense of carrying out current or medical orders above insisted upon, are always found fatal to nursing discipline. That if the medical officers have fault to find, it is bad policy for them to reprimand the nurses themselves. The medical staff must carry all considerable complaints to the matron; the current complaints, as, for instance, that a patient has been neglected or an order mistaken, to the ward sister or the head nurse, who must always accompany the medical officer on his visits, receive his orders, and be responsible for their being carried out.

"'3.—All discipline must be under the matron (superintendent) and ward sisters, or otherwise nursing becomes impossible.

"'And here I should add that, unless there is, so to speak, a hierarchy of women, as thus—

Matron or Superintendent,
Sisters or Head Nurses,
Assistant or Head Nurses,
Ward Maids or Scrubbers,

or whatever other grades are, locally, considered more appropriate, discipline becomes impossible.

"'In this hierarchy the higher grade ought always to know the duties of the lower grade better than the lower does itself. And so on to the head. Otherwise, how will they be able to train? Moral influence alone will not make a good trainer.

"'And will I now mention, as an instance, that the very day that I received your first message, through Mrs. Wardroper, I received a letter from a well known German physician, strikingly exemplifying what we have been saying as to the necessity of hospital nurses being in no way under the medical staff as to discipline, but under a matron or superintendent of their own, who is responsible for the carrying out of medical orders.

"'You are, doubtless, aware that this is by no means the custom in Germany. There the nurse ward is immediately and for everything, under the ward doctor. And this led to consequences so disastrous that, going to the opposite extreme, Kaiserwarth and other German Protestant Deaconess Institutions were formed, where the chaplain and the Vorsteherin (female superintendent) were, virtually, masters of the hospital, which is, of course, absurd.

"'My friend, then, who has been for forty years medical officer of one of the largest hospitals in Germany, wrote to me that he had succeeded in placing a matron over his nurses; then, that after one and a half years, she had been so persecuted that she had been compelled to resign; then, that he had remained another year trying to have her replaced; lastly, that failing, he had himself resigned his post of forty years, believing that he could do better work for this reform outside the hospital than in it.

"'It seems extraordinary that this first essential, viz., that women should be, in matters of discipline, under a woman, should need to be advocated at all. But so it is.

"'And I can add my testimony, as regards another vast hospital in Germany, to the abominable effects of nurses being directly responsible, not to a matron, but to the economic staff and medical staff of their hospital. And I am told on the highest authority that since my time things have only got worse.

"'But I will not take up your time and my own with more general remarks, which may not prove, after all, applicable to your special case.....

"'Again begging you to command me, if I can be of any use for your great purpose, to which I wish every success and ever-progressing progress, pray believe me, sir,

"'Ever Your Faithful Servant,

"'FLORENCE NIGHTINGALE.'"

SALVATION ARMY.

Captain Lacey, an Earnest Worker in Hamilton, Ont., Endured Awful Pain—His Patience is Rewarded at Last.

The life of an officer in the Salvation Army is never a bed of roses.

No man or woman has a place in this wonderful organization who is not prepared for hard work.

There is no room in the Army for those who are afraid of hunger, exposure or of hard work seven days in the week.

It is quite natural then, that many of these devoted men and women find themselves devoted men and women find themselves very much run down and the victims of many forms of disease. Captain Lacey of Hamilton than whom there is no more self-sacrificing officer in the service of the Salvation Army in Canada, was tortured for eight long years with Dyspepsia.

He exercised the greatest care possible in his diet, and did everything in his power to correct the trouble, but to no purpose.

He used many medicines and treatments, some of which gave him a little temporary relief, but none gave him a permanent cure.

At last, by the advice of friends, he began a treatment of Dodd's Dyspepsia Tablets, and the results in his case were simply marvellous. The first dose gave him positive and instant relief, and before the first box was completely used he was almost entirely cured.

He can now eat anything he cares to without the slightest unpleasant consequences, and his general health is very much improved.

It is not often that such a small quantity even of Dodd's Dyspepsia Tablets will make a complete cure of a case of eight year's standing but Captain Lacey's careful living no doubt very much assisted and facilitated the treatment.

Captain Lacey's experience is only one of a great many, and it is conspicuous only on account of the exceptional severity of the case, and the remarkable rapidity of his recovery through the use of Dodd's Dyspepsia Tablets.

Phenomenal Honeymoon.

A newly married couple were on their way from Antwerp to Paris when one of their fellow passengers cut his throat with a razor in the railway carriage in which they were traveling.

Another shock awaited them in Paris. A visitor in the hotel in which they were staying was killed in the lift in their presence.

On Sunday they called on a friend living in Paris who had invited them to lunch at his house. When extending the invitation the friend observed, laughing, "You will not find any corpses with me." But when they arrived at the house their host greeted them with a request to have the lunch put off, as his servant had died that morning in a bathtub from heart disease.

This was too much for the bride, who fainted and then went into hysterics.

The couple subsequently took the first train back to Antwerp.—London Globe.

No More Pale Women.

Merrill's System Tonic supplies iron necessary to make good rich red blood in anaremic women. It is a positive cure for consumption — the greatest foe of womankind. After taking for a short time all female troubles disappear, as their cause is removed. 50 doses for 50 cents. Sold at Ormond & Walsh's.

Breakers Ahead.

Auntie (anxiously)—Do you think you have had the proper training for a poor man's wife?

Sweet Girl—Yes, indeed. Papa hasn't given me any spending money worth mentioning for years. I always get things charged.

New life for a quarter! Miller's Compound Iron Pills. Sold by all druggists.

MONEY SAVED

You need not pay $2.50 for repairing your watch when Frost, the watch expert, will do the same work for $1.50, and guarantee you first-class work and good time.

FROST'S

Jewellers and Opticians PETERBOROUGH.

The King's Clemency.

London, May 3.—The chief feature of the military celebration of the coronation will be the release of all military prisoners under sentence.

British Newspaper Postage.

London, May 3.—In the House of Commons yesterday afternoon, the Colonial Secretary, Right Hon. Jos. Chamberlain, in reply to a question from Gen. J. W. Laurie, Conservative member for Pembroke, said that to allow newspapers to go to Canada at the inland rate of postage would involve a great loss in revenue.

A Fence 50 Miles Long.

Winnipeg, May 3.—It is understood that the Dominion Government has appropriated $10,000 for the erection of a fence along the international boundary in the Milk River country, to prevent straying of United States cattle across. The fence will run from Wiling-on-Stone to Kennedy's Post, a distance of about 50 miles.

Contracts For 500,000 Tons.

Montreal, Que., May 3.—The Grand Trunk and Canadian Pacific Railways have closed contracts with the Dominion Coal Company, which aggregate half a million tons. That of the Canadian Pacific is for the current year, while the Grand Trunk's contract is for next season.

Mr. Clergue's $20,000 Residence.

ST. ANDREW'S ANNIVERSARY.

Special Sermons Delivered by Rev. Mr. Beattie, of Cobourg.

Rev. Mr. Beattie, of Cobourg, occupied the pulpit of St. Andrew's Presbyterian Church yesterday morning, it being the anniversary of the dedication of the church, and delivered a practical and thoughtful address, the appreciation of which was evinced by the close attention paid him throughout.

The Rev. gentleman took for his text the last clause of the 8th verse, 7th chapter of Hosea,—"Yea, gray hairs are here and there upon him, yet he knoweth not." He spoke, first, of the honour of gray hairs, and said that it was owing to the efforts of our forefathers that we have to-day all the comforts that are associated with civilization. If there was one thing he did not like, it was to see a young man who did not respect gray hairs, and who paid no attention to the advice of a parent. It was pleasant, however, to look over a congregation and see the silvery locks here and there, side by side with youth.

Sometimes nations, as the centuries roll over them, decrease in Christianity instead of increasing and in such cases gray hairs brought dishonour. Everyone has heard of the Spanish Armada. There was a time when Spain stood greatest among the nations. But as it increased in years it decreased in morality, and does not now occupy even third place in the list of great nations. What did Napolean's greatness amount to, when his life was not based on the right foundation? And, coming nearer home, Canada to-day is in need of men who will stand by their convictions, and endeavour to save the ballot from corruption. The political affairs of this nation of ours are not what they should be—there are vices creeping in, which in time would lead to serious trouble. Canada is progressing along commercial lines, and men were needed who would see that its spiritual life kept the steady pace that characterises Canada's onward march.

The speaker said that men might be religious and yet be unrighteous. There were doubtless men before him who had attended church faithfully all their lives, and yet were not true Christians. Sometimes as a man grows old his spiritual life seems to diminish. Were there men before him who at one time had loved God and laboured for Him and who now had lost all interest? How different from them are the men who devote their lives to His cause and go down to the grave singing "Rock of Ages."

For the future of St. Andrew's, the preacher hoped, that as the gray hairs were slowly yet surely increasing, that they would be those of honour, and form a strong pillar in the church, that their children may look back with pride to those who have borne the heat and burden of the day. And if the future of the church was to be a repitition of the past eighty years, he hoped that men would be available who would stand by it at all times, and raise up in their church a living monument to God who had so wondrously blessed them.

The Rev. Mr. Beattie's address was to the point, and will not quickly fade from the minds of those who were fortunate enough to hear him.

ASHBURNHAM SCHOOL REPORT

For the Month of April — Names in Order of Merit.

The following is the report of the Ashburnham Public Schools for the month of April. The names are in order of merit. Parents are asked to please sign the reports and return them promptly.

TO-NIGHT'S CONCERT.

The plan for Mrs. W. J. Morrow's opera house concert, this evening, has filled up in a manner which must be most satisfactory to Mrs. Murrow as an evidence of the manner in which her effort is being appreciated. The programme, as appended, promises to be one of rare merit, and the concert should be very liberally patronized indeed:

PART I.

Pupils' chorus, O Divine Redeemer..... Marchetti
Vocal solo, Good Night, Sweet Dreams... Bischoff
Miss M. Rush.
Piano solo, (a) Si O'seau J'etais, Henselt; (b) Nachtstuck, Schumann, op. 23, No. 4.
Miss E. Miller.
Vocal solo, Happy Days..... ...Strelezki
Flute obligato.
Miss M. Routley.
Vocal solo, Queen of the Earth...Pinsuti
Mr. J. Legg.
Vocal solo, Night of Nights..... Van de Water
Mrs. C. B. McAllister.
Violin solo, Bolero..... ...German
Mr. Gilbert Markle.
Vocal duet, O'Salutaris... ...Bailey
Miss M. Rush, Rev. W. L. Armitage.

PART II.

Vocal duet, Love Shall Guide... ...White
Miss F. Miller, Miss M. Routley.
Piano Solo, (a) Polonaise Allegro Apassionate, Chopin; (b) Valse, Chopin; op. 64, No. 2.
Mrs. W. J. Morrow.
Vocal solo, (a) I Dreamed of a Lover Tall and Fair, Weir; (b) A May Morning, Denza.
Miss E. Miller.
Vocal solo, The King of the Winds,..... David
Rev. W. L. Armitage.
Vocal duet, The Ranchero... ...Edgar
Miss E. Miller, Mr. J. Legg.
Vocal solo, (a) O Dry those Tears, Del Regio; (b) A Song of Thanksgiving, Allitsen.
Mrs. W. J. Morrow.

After taking for a short time all female troubles disappear, as their cause is removed. 50 doses for 50 cents. Sold at Ormond & Walsh's.

NEXT WEEK'S MEETINGS

In the Interests of the Candidature of Mr. Stratton.

Announcement of the Dates on Which Addresses Will be Made in Different Parts of the Riding.

Meetings have been arranged as follows in the interests of the candidature of Mr. Stratton in the riding:

Foresters' Hall, Baillieboro, Monday evening, May 12th.

Temperance Hall, Selwyn, Tuesday evening, May 13th.

Temperance Hall, 4th line, Smith, Wednesday evening, May 14th.

Town Hall, Bridgenorth, Thursday evening, May 15th.

Young's Point, Thursday evening, May 15th.

Bensfort, Thursday evening, May 15th.

Fraserville, Friday evening, May 16th.

A PRESENTATION.

An Engrossed Address to Mr. Mark Greystock, Otonabee.

Mr. Mark Greystock, who has retired from his office as Church Warden of St. Mark's, which office he held for 35 years, was presented yesterday with a beautifully illuminated address. Rev. E. A. Langfeldt, after his sermon, addressed Mr. Greystock from the chancel steps in a few well-chosen words, after which Mr. Anthony Taylor, the Churchwarden, presented Mr. Greystock with the address. The address was artistically executed by Mr. Pringle, principal of the Peterborough Business College, as follows:

The Congregation of St. Mark's Church, Otonabee.
1867 — Easter. — 1902.

To Mark Greystock, Esq.,—

Dear Sir, — Speaking on behalf of the congregation, we wish on the occasion of your much regretted retirement from the Church Wardenship of St. Mark's church, after thirty-five years' service, to express our keen appreciation of your sincere loyalty to the Great Founder of the Church Militant, and to this branch of it in particular, for so long a period.

Your kindly advice, earnest zeal and liberality have been important factors in the work of St. Mark's, and judging by your past devoted relations and work, we are all sure that your interest will continue unabated.

We pray that Almighty God will continue to shower material and spiritual blessings upon you.

E. A. LANGFELDT, M.A., Pastor.
THOS. GREYSTOCK,
ANTHONY TAYLOR,
Church Wardens

THE REGIMENT.

To-morrow Night's Turn-out—Shooting at the Butts.

The first shooting of the season at the rifle ranges took place on Saturday afternoon. Amongst those who were on hand were Major Stevenson, chairman of the Rifle Committee, Lieut Cameron, Sgt.-Major Brittain, Sgt. Jackson, Sgt. Paddon, Ptes. Erskine, Watson, Perks. The shooting on Saturday was at 200, 400, 500 and 600 yards.

The first march out of the season of the 57th Regiment will take place to-morrow night, weather permitting. Both bands will be in attendance and a full turn out of the regiment is expected. The members of the various companies are vieing with each other as to which will have the largest turn out each week with the result that much interest is being aroused amongst all ranks.

BOOKS TO CLOSE ON MAY 7.

A Bonus of one Share of Common Stock Given With Every two Shares of Preferred Stock.

The subscription books of the Atlantic Pulp and Paper Company, Limited, will close at 4 p.m. on Wednesday next, May 7. The brokers, Messrs. Sutherland & Cameron, Ottawa, have been offering $850,000 of 7 per cent. cumulative preference stock for sale at par. From the prospectus which has been published in these columns, it will be seen that they are offering as a bonus to preferred stockholders one share of fully paid common stock with every two shares of preferred stock subscribed and paid for. Further information and application forms may be had from the National Trust Company, Limited, Toronto, Montreal, or Winnipeg, or from Sutherland & Cameron, Ottawa, Canada.

CHURCH CHIMES.

CHARLOTTE STREET CHURCH.

Once again the Charlotte street church proved too small to accommodate all those who wished to attend the monthly song sermon last evening, many being unable to gain admittance. These monthly song sermons, which were inaugurated by Rev. Mr. Crossley, when he came to the Charlotte street church five years ago have been steadily growing in popularity until the announcement of one of these interesting services results in the church being crowded to the doors. The success attending these sermons, however, is only consistent with the remarkable progress which has been made in all of the other departments of the work undertaken by the Charlotte street church since its present energetic pastor became associated with it.

TRUSTWORTHY DRY GOODS — UNIFORMLY RIGHT PRICES.

A Climate to Order

There is nothing like crisp, clean, ventilating Linen-Mesh to give your body a dry, sweet climate to live in.

Golfers, cyclists, and those who exercise out of doors in any way find the

DR. DEIMEL LINEN-MESH UNDERGARMENTS

a veritable boon.

By quickly absorbing and dissipating the perspiration, the body is kept dry and comfortable, preventing prickly heat and similar skin eruptions so prevalent with those who wear wool, silk or cotton. And of equal importance, it insures an immunity from colds that is remarkable.

A booklet—free for the asking—will tell you all about it.

SATURDAY, MAY 5, 1902.

AN ABSURD CHARGE.

(Havelock Standard.)

The Peterborough Review attacks an article in last week's Standard, stating that action was being taken to secure the spending of some $900 on the road leading from Havelock to Cordova Mines, and says it is a bribe to the electors whom it also says "are not to be bought." As the electors in this vicinity all know such nonsensical talk is utterly absurd. It is no bribe but a right to which this section of the county is entitled. It is of the first importance to the progress and welfare of Havelock that a road with a daily stage line and daily mail should be put into the best sort of shape. The Standard has stated that its policy was Havelock first and on that ground it gives its support where most can be got to help the village and Belmont ahead. The parties who started the idea of a grant on the road in question were the members of the Belmont township council all of whom are alive to the interests of the ratepayers and who have at their head as Reeve, Mr. J. A. Sexsmith, a prominent Conservative gentleman who opposed Mr. John Lang, M. P., in his last Dominion election. Mr. Sexsmith was of a deputation who waited on the County Council at their last session to urge on that body the advisability of such a course and to request their financial help. The County Council decided to grant the sum of $200 on the condition as stated last week and the matter was put before the Government. Does the Review think that Mr. Sexsmith is a party to a mere bribe? Were the County Council and the Township and private subscribers to the road fund parties to the bribe? Mr. McWilliams being in the employ of the Government and Belmont his birthplace, was the man who would take the most interest in the matter and do the most for the benefit of the township and the sending of the Good Roads Inspector would lead to getting the best value for the money expended. Bribed indeed! The road in question is needed and should be put in the best condition and if it is the duty of a Government to meet the needs of the people then we like that kind of policy that will benefit Havelock. The policy of the Government is declared to be to build up Ontario, and if it helps to build up Havelock by helping to improve the Cordova road the Standard will be well pleased. It supports Mr. Anderson because he is a supporter of a Government which can be expected to and is bound to promote our mining interests and one of the best ways to do this is to improve the roads that lead to railway connection. We want the trade and commerce of Cordova Mines to come to Havelock as far as possible. Marmora is doing its utmost to draw the mining trade to that village and it behooves all interested in Havelock and Belmont to do their utmost in keeping the trade that accrues from Cordova in this direction. The Review is away off in its rabid and foolish denouncement. The public money, neither county, township nor Government was given for "party advantage." If there is and "party" advantage in the matter, Havelock is the "party" that will be benefitted, and that is the Standard's chief outlook.

By the way, Mr. Whitney voted for the first pulp agreement made by the Ontario Government in 1894. The dues then were only 20 cents per cord on pulpwood. The rate has since been doubled by the Government, and Mr. Whitney now denounces any pulp concession as a steal.

In 1883, out of the 184 books used in the public and high schools, 49 were written by Canadians, and 135 by outside authors; 87 of them were imported. In 1901, every text book used in Ontario public and high schools, save the High School Euclid and Greek, is the work of a Canadian author, and all the books, without any exception, are made in Canada, "Canada for the Canadians" is the motto of the Liberal party in this province.

Mr. Whitney, the Opposition leader, with the smug self-righteousness of the hypocrites scathed by the Divine Nazarene, poses as the apostle of political purity, and condemns all political wrong doing, unless it is perpetrated in his interest and those of the party he leads, or, rather drives, as Mr. Marter leads us to think. He is courting the favour of the man of money by taking the tax off rich corporations, in which rich men have their money invested. Some of his organs are clamouring for the repeal of the Succession Duties Act, which only affects the poor man who is worth $100,000 when he dies, and the Conservative machine in Toronto was shrewd enough to get Mr. Marter's contribution to the Conservative "barl" before he was kicked out of the party. Mr. Whitney may claim to be the great apostle of political purity, but he shows a large anxiety to "stand in" with the interests that have the cash.

The Arthur Poisoning Case.

Guelph, May 5.—High Constable Merewether has returned from Arthur, where he has been in the interests of the Crown investigating the case of scattering paris green on the property of residents in that section. Robert Wales of Arthur Township was arrested on the charge of wilfully doing damage to real and personal property in connection with the case, and has been remanded till next Wednesday for trial.

A Genuine Triumph

in the medical line is that made by a Brantford druggist, called Merrill's System Tonic. It embodies an idea long thought of but just recently made chemically possible. When system Tonic is taken the old blood is purified, new rich blood is made, while all the principal organs in the body are toned and new tissue constructed. The result is perfect health. Sold in 50c. bottles, at Ormond & Walsh's drug store.

The Australian Defence Scheme.

Sydney, May 5.—General Hutton's recommendation to the Government as commander-in-chief of the Commonwealth forces, constitute an important modification of the Ministry's original drastic scheme.

General Hutton regards compulsory service as unnecessary, and recommends a force of 44,218 officers and men of all arms, consisting of a garrison force of 15,470 and a field force of 28,748 (the latter to be available if necessary, for service abroad), with 96 guns.

If it is asthma, bronchitis, croup, or any such trouble, use Vapo-Cresolene. All Druggists.

AFTER A WELSH PORT

J. Pierpont Morgan to Visit Holyhead for That Purpose Soon.

A $225,000 FIRE AT BUFFALO

The Watertown, N.Y., Tabernacle, Three Chapels and Three Hundred Summer Cottages Burned on Sunday—Potter Palmer of Chicago Dead—The Turkish Sultan's Life Said to Be in Danger.

The Marchioness of Headfort, formerly Rosie Boote, the actress, gave birth to a son on Thursday.

The Canadian Pacific Railway earned $1,050,000 last week, $274,000 more than the same week last year.

Potter Palmer, for nearly half a century one of Chicago's most prominent business men, died Sunday night.

Rumors are in circulation that a plot against the Turkish Sultan has been discovered. The second eunuch has been banished.

The young King Alfonso will wear fifty different uniforms during the festivities attendant on his accession to the throne.

The official text of the coronation ritual contains evidence of judicious revision. The spectators will not be more than three hours in the Abbey.

Miss Anna Maybee of New York has been appointed lady superintendent of the hospital at Berlin. She is a former Canadian. Her salary will be $35 a month.

Gen. Golito, commanding the rebel forces at Santiago, was defeated May 2 by Government troops. The position of the President appears to be gaining in strength.

The Wells Elevator, situated on Buffalo River, Buffalo, was totally destroyed by fire at midnight Sunday. Loss an the building and its contents is estimated at $225,000.

Harold Gray, son of Timothy Gray of Gray's Mills, Don, was taking a shotgun down from the wall on Thursday night, when it went off, the charge perforating his arm.

A skiff containing four grown people and a child was overturned in the Youghiogheny River at West Newton, Pa., Sunday and two were drowned. The dead are: Mrs. Fred Landsparger and her son, aged four years.

Five thousand persons gathered in a New York hall Sunday night to say farewell to Johann Most, the Anarchist, who will go to jail under sentence. The meeting was turned into a riotous demonstration against the police.

There are gloomy prophecies as to the outlook in India. Both the plague and the famine appear to be worse than ever, and the unfortunate country is threatened with even greater horrors than during the recent famine and disease.

It is reported at Jacmel, Hayti, that Santo Domingo, the capital of the Dominican Republic, surrendered Saturday to the insurgent forces. President Jeminiz of the Dominican Republic is said to have taken refuge in the French consulate there.

The Watertown, N.Y., Tabernacle, two chapels and three hundred cottages, owned by the Riverside Camp Meeting Association of the Methodist Church at Felts Mills, 10 miles from that town, were destroyed by fire that raged for six hours Sunday afternoon. The loss is $40,000.

J. Pierpont Morgan, or members of the syndicate, will, it is reported visit Holyhead in the course of a few days, in order to inspect the foreshore around that Welsh port, for the purpose of purchasing suitable land to form landing quays for steamers of the combination in the place of one at Liverpool.

Would Subsidize British Ships.

London, May 5.—It is reported in Liverpool shipping circles that the British Government has intimated its willingness to subsidize British shipping in the event of the Atlantic shipping combine proving really harmful to the mercantile marine of Great Britain.

Sold For £9,000,000.

Liverpool, May 5.—Mr. Bruce Ismay of the firm of Ismay, Imre & Co., owners of the White Star Steamship Company, refuses to confirm or deny the reiterated report that the line has been sold to the Morgan syndicate for £9,000,000.

Looking Toward Scotland.

London, May 5.—The American Tobacco Company is said to be initiating a vigorous campaign for the capture of the Scotch tobacco trade.

A Marvellous Medicine.

Having a direct and combined action on both the liver and kidneys, Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine, and hence its extraordinary success and popularity. Biliousness, liver complaint, Bright's disease, deranged kidneys and stomach troubles are promptly and thoroughly overcome by this great family medicine. One pill a dose, 25 cents a box.

Given Up as Lost.

Digby, N.S., May 5.—The schooner Marguerette arrived here yesterday from the up-the-bay ports. Captain reports that the schooner Bear River, which sailed from Port George for Port Williams April 26, and has not since been reported, is given up for lost, with all hands. She was commanded by Captain Elias Woodworth of Port George, and carried a crew of three.

Another Furnace Lit.

Sydney, C.B., May 5.—Another furnace was lighted successfully yesterday by Dominion Iron and Steel Company. The match was lit by Alice Shields, daughter of General Manager Shields of the Dominion Coal Company.

Child Must Grow.

The child must grow when it is young. If it doesn't grow give it Scott's Emulsion. It is a great medicine for growth. Scott's Emulsion is just the right addition to the weak child's daily food.

MAY BE A COAL STRIKE

There Are 147,000 Men Immediately Interested.

CONFERENCE FAILS ENTIRELY

President John Mitchell of the United Mine Workers Makes a Serious Announcement—The Miners' Executive Committee is to Meet at Scranton Wednesday Morning—Expect a General Strike.

New York, N.Y., May 5.—President John Mitchell of the United Mine Workers of America made the following announcement Saturday night regarding the secret conference between his organization and the coal operators.

"The sub-committee of operators and miners, selected by the Industrial Branch of the National Civic Federation, failed to reach an agreement upon any of the important issues embodied in the miners' scale, adopted by the Shamokin Convention."

The Executive Committee of the three anthracite coal districts of the United Mine Workers of America, in whom is vested the authority to inaugurate a strike, have been notified to assemble at Scranton, Pa., at 10 o'clock a.m., Wednesday, May 7. This committee consists of 28 members appointed from the three districts, and, should a majority of them vote in favor of a strike, the entire 147,000 mine workers will immediately respond to the call.

Expect a General Strike.

Hazleton, Pa., May 5.—The impression prevails among the miners of the Hazleton district that there will be a general strike, as a result of the failure of the operators and the representatives of the United Mine Workers to come to an agreement. It is conservatively estimated that three-fourths of the employes in and about the mines in this region are organized, and if a strike is declared operations will be brought to a standstill at every colliery.

SALVATION ARMY.

Captain Lacey, an Earnest Worker in Hamilton, Ont., Endured Awful Pain - His Patience is Rewarded at Last.

The life of an officer in the Salvation Army is never a bed of roses.

No man or woman has a place in this wonderful organization who is not prepared for hard work.

There is no room in the Army for those who are afraid of hunger, exposure or of hard work seven days in the week.

It is quite natural then, that many of these devoted men and women find themselves devoted men and women find themselves very much run down and the victims of many forms of disease. Captain Lacey of Hamilton than whom there is no more self-sacrificing officer in the service of the Salvation Army in Canada, was tortured for eight long years with Dyspepsia.

He exercised the greatest care possible in his diet, and did everything in his power to correct the trouble, but to no purpose.

He used many medicines and treatments, some of which gave him a little temporary relief, but none gave him a permanent cure.

At last, by the advice of friends, he began a treatment of Dodd's Dyspepsia Tablets, and the results in his case were simply marvellous. The first dose gave him positive and instant relief, and before the first box was completely used he was almost entirely cured.

He can now eat anything he cares to without the slightest unpleasant consequences, and his general health is very much improved.

It is not often that such a small quantity even of Dodd's Dyspepsia Tablets will make a complete cure of a case of eight year's standing but Captain Lacey's careful living no doubt very much assisted and facilitated the treatment.

Captain Lacey's experience is only one of a great many, and it is conspicuous only on account of the exceptional severity of the case, and the remarkable rapidity of his recovery through the use of Dodd's Dyspepsia Tablets.

Boxers Start Revolt.

Pekin, May 4.—Another revolt has occurred in Southern Chi-Li Province, where there are a number of missionaries, of whom sixty are Roman Catholics. The best-informed people say 10,000 rebels are under arms.

"BOBS" ORDERS TESTS

Merits of the Ross Rifle to Be Proved in Great Britain.

PROBABILITIES IF ACCEPTED

Confidence That the War Will Soon End, Based Upon Boer Leaders' Gratitude That Cape Rebels Will Not Be Liable to Death Penalty —List of Fourth Contingent Officers Recommended.

Ottawa, May 5.—Lord Roberts has ordered that tests be made of the Ross rifle, with a view of bringing the merits of that arm before the Small Arms Committee appointed by the War Office. Sir Charles Ross was informed of this fact by cablegram Saturday.

The British army's supply of rifles from the contractors averages 800,000 a year, the arm chiefly manufactured by the small arms factory being the Smallheath, Birmingham and Enfield. Should the Ross rifle be adopted, it is probable that a year's contract would be given, which would necessitate the employment of some 3,000 hands from the starting of the factory.

It is also probable that Australia which is looking for some 500,000 rifles, would also give the weapon a trial. In order that the tests may be made under the best auspices, Dr. Borden has caused 4,000 rounds of ammunition to be forwarded to England from Quebec, the Canadian ammunition being much better than the English make.

Sir Charles Ross explained the mechanism and illustrated the action of his straight-pull magazine repeating military rifle Saturday afternoon. With an 8½ inch bayonet the rifle has a total length of 56½ inches, and weighs eight pounds four ounces. Without the bayonet its length is 48 inches and weight seven pounds nine ounces. The rifle is provided with a "cut off," which enables it to be worked as a single loader.

Confidence That War Will End.

London, May 5.—There is authority for saying that the main factor which has determined the Boer leaders to decide for peace, for there is no doubt that they made that decision, was the concession concerning Cape rebels.

These men were liable to death or imprisonment, confiscation of their property and deprivation of their constitutional rights. The extreme punishment that can be meted to them now according to the promise formally made by Lord Milner, is confiscation and disfranchisement.

The general confidence that is felt here in the issue is shown by the fact that the bishops are considering a form of special thanksgiving service for the restoration of peace.

Leyds to See Kruger.

The Hague, May 5.—Dr. Leyds, the Boer representative in Europe, arrived here Saturday evening, and proceeded for Utrecht for a conference with Mr. Kruger.

To Combat Enteric Fever.

London, May 5.—The army medical authorities, with a view to grappling with enteric among the troops in South Africa, are sending out easily portable water sterilizers.

With each set of the apparatus a medical man will be sent to explain the machine's working to the troops.

The supply of water to the soldiers will be placed under the charge of a brigade officer, and the amount issued to the men, though limited, will be adequate.

New Camp For Boers.

London, May 5.—Despite the prospects of peace a camp for the reception of 10,000 prisoners is being prepared at Dominica, and sites are being got ready at Jamaica, and Prince Edward's Isle, off Nova Scotia, should further camps be required.

THE OFFICERS NOMINATED.

Commissions in the Four Regiments of Mounted Rifles of the Fourth Contingent.

Ottawa, May 5.—The list of officers of the fourth contingent, as forwarded by the Minister of Militia for the approval of the War Office, is as follows:

THIRD REGIMENT—In command, Lieut.-Col V A S Williams, R C D; 2nd in command, Major D I V Eaton, R C F A; adjutant, Capt C T Van Straubenzie, R C D; quartermaster, Lieut W P Butcher, R C R; medical officer, Capt L R Murray, A M S; veterinary officer, Capt W J Nell, 45th Regiment; captains, W Henderson, 48th; S A Mackenzie, 8th F B; W W Nasmyth, 46th; E C Arnoldi, 2nd F B; lieutenants, J H Staples, 45th; Hector Read, 48th; F H Gibbs, R O; C G Barker, 13th; Alan Butler, 1st P W Fusiliers; C H Hill, R C R; W R Kingsford, Q O A; A E Shaw, 3rd Dragoons; B C White, 6th C A; A H Tett, R M C; V B Paterson, cadet, R M C; J E Armstrong, corp. Rifles; Pointer Stanley, late lieutenant in the 90th; H. H. Nash, late N.W.M.P.; Lewis Hooper, Staff-Sergt. N.W.M.P.; Arthur Stopfort Purpis, ex-Corp. N.W.M.P.; J. C. DeBalinhard, Sergt. R.C.D.; J. H. Herriott, Corp. C.M.R.; J. F. Creare, late Corp. Roberts' Horse; A. A. Vernon, late private in Strathcona's Horse; J. H. Irvine, late private in R.C.D.; John Beresford, Sergt., late private in C.M.R.; Charles Tomlinson, late private in R.C.R.

NINE YEARS OF SUFFERING.

Mrs. Ellen Smith of Montreal, Sufferer From Eczema Until she was Almost Driven to Suicide.

Cured by the New Ozone Treatment—Rev. J. Frederick Renaud Vouches for the Facts.

(From our Special Correspondent.)

Mrs. Ellen Smith, of Montreal, suffered for nine years with a most persistent attack of eczema. The disease affected both limbs below the knee; they were swollen several times their normal size. Many times the terrible suffering she underwent, made her contemplate suicide. Three years was she confined to her bed and finally she believed herself hopelessly incurable, made up her mind to go the rest of her life on crutches. Last year Mrs. Smith started using the new oxygen or Ozone method of treating disease, Powley's Liquified Ozone, and to-day she is quite well. Our representative obtained the following statement from her and from the Rev. J. Frederick Renaud who is personally conversant with her case since its inception. Mrs. Smith's recovery at the advanced age of sixty, is so remarkable—is vouched for by such responsible authority, that we publish the facts.

MRS. ELLEN SMITH, Montreal.

"Having been greatly benefitted by Powley's Liquified Ozone, I feel it my duty to allow it to be known to the public at large.

"I had been a fearful sufferer from eczema for many years. The disease centered in both limbs, below the knees. The left especially, was swollen to alarming dimensions, while the inflammation, irritation, and hard, scaly condition, induced a degree of suffering which only the Mercy of God prevented me from ending in suicide.

"I spent the best of three years on my back, beside different periods in three hospitals. When at home I could not go as far as the next room without the aid of crutches, and altogether my case was considered past help, for I had had the best skill in the country, to no purpose.

"I have now used five bottles of Ozone, and I rejoice to say that both limbs are reduced to their normal size; the burning is entirely gone and I walk alone with perfect ease, although I am now sixty years of age.

The Ozone also cured an advanced stage of liver disorder, and I am willing at all times to tell my experience to other sufferers."

(Signed) Mrs. Ellen Smith, 31 St. Andre street, Montreal.

82 St. Hubert street, Jan. 27, 1902

To Whom it May Concern:

I beg to state that I have known Ellen Smith for over twenty years, and for the past nine years she has suffered from a running sore, but was unable to obtain any permanent relief until she tried Powley's Liquified Ozone, to the beneficial effect of which she bears most grateful testimony. (Signed) Rev. F. Frederick Renaud, 82 St Hubert street, Montreal.

Powley's Liquified Ozone is for sale at all drug stores. Two sizes—50c and $1.00.

Natal's Naval Gift.

London, May 5.—Before attending the coronation conference Sir A. Hime will present the nation, on behalf of Natal, with a first class cruiser. Natal's present contribution to the navy is 12,000 tons of coal per annum, but this has only been taken advantage of to the extent of £2,000 per annum.

Over 30,000.

More than 30,000 invalids have taken Merrill's System Tonic, and the result has proven that this wonderful new medicine is not a doubtful compound, but one which always affects a radical cure of stomach, nerve, liver and kidney troubles. The 50 cent bottles lasts three weeks. Sold by Ormond and Walsh.

THE CAMPAIGN.

The Liberal Campaign Highly Successful All Along the Line—The Outlook Is of the Best.

Toronto, May 5.—The Liberal campaign in the city started on Saturday with a highly successful meeting in West Toronto in the interests of Ald. Urquhart, who delivered a rousing speech, and was followed by Mr. A. Campbell, M.P., and Mr. T. C. Robinette. Through the Province members of the Government and their friends held several fine gatherings. Mr. Latchford and Mr. Pattullo spoke at Preston, Mr. Kribs, the Conservative candidate and ex-member for South Waterloo, appearing on the same platform with a defence of Mr. Whitney's attitude on new Ontario development. Mr. Stratton made a vigorous address to a Liberal rally in his own constituency. Mr. Whitney reached Huntsville on Saturday evening in the course of his visit to new Ontario, and addressed a gathering there. In Prince Edward, at an enthusiastic convention at Pictou, the Liberals nominated Dr. M. Currie to replace Mr. Clapp, who had been compelled by ill health to retire. Conservatives nominated candidates in North Waterloo and Prescott.

Premier Ross speaks at several points in the Province during the week, starting with Sarnia to-night. To-night also Mr. Harcourt speaks at Jarvis, Mr. Stratton at North Monaghan, and Mr. Davis at Parry Sound. The Opposition leader speaks at North Bay.

Reports from the various ridings indicate that the Liberal party is well organized, and that the outlook is of the best.

POLITICAL POINTERS.

North Waterloo Conservatives at Berlin on Saturday unanimously nominated Dr. H. G. Lackner.

E. A. Colquhoun has written to the Hamilton papers to say that he will certainly be a candidate in West Hamilton. He says this of Mayor Hendrie: "From Major Hendrie, at least a month ago, I had his personal and positive assurance that he would not run in West Hamilton." Mayor Hendrie said Saturday that Mr. Colquhoun's statement was substantially correct. He promised him his support, in the expectation that Mr. Colquhoun would be the nominee of the party. He changed his intention only when influential Conservatives urged him to accept the nomination.

Catarrhozone.

An instant relief and perfect cure for colds, coughs, catarrh, deafness, Asthma, bronchitis, lung trouble and consumption.

Inhale Catarrhozone five minutes any time and it kills a cough or cold in the head.

Inhale Catarrhozone five minutes four times daily and it permanently cures Chronic Catarrh, Deafness, Asthma and Hay Fever.

Inhale Catarrhozone ten minutes every hour and it cures Pneumonia, Consumption, Lung troubles and prevents all contagious diseases. Complete outfit $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Gift to the Pope.

Rome, May 5.—Fifty American priests of the diocese of Brooklyn, headed by Bishop McDonnell, were received by the Pope yesterday morning in the Sala Del Trono. After a speech of devotion, Bishop McDonnell presented His Holiness with a cheque for $10,000. This the Pope accepted.

Heavy Penalty of Caricature.

Paris, May 5.—A Vienna despatch to The Echo de Paris says the Government has brought an action against the editor of Kukerux, a comic paper, for publishing a caricature of the Austrian Emperor. The prosecutor has asked that a sentence of ten years' imprisonment be imposed.

A Great Sufferer Cured

Mr. Benjamin Dillon, of Leeds, Ont., was cured of Muscular Rheumatism by Polson's Nerviline, and says: "I feel my duty is to proclaim Polson's Nerviline as an infallible cure for Rheumatism; it cured me after 30 years suffering, and nothing I know of can equal its penetrating power. Nerviline simply has no equal in quickly relieving and curing Rheumatism, Neuralgia, Sciatica, and Lumbago. A trial will convince anyone. Price 25c.

In Their Physical Culture Dress.

The well-arranged programme for Mrs. Morrow's concert to-night, is of itself, sufficient to bring out a large attendance. In addition to the well trained vocal singers and proficient musicians, the young lady performers will all appear in their physical culture gowns, and enhance the interest and pleasure to ticket-holders. Patrons are assured of an exceptionally entertaining evening.

SERVICES RECOGNIZED.

St. Peter's T. A. S. Rewards two of its Members.

For services tendered St. Peter's Total Abstinence Society, two of its members have been made the recipients of tangible proofs of the Society's appreciation of their efforts in promoting the interests of the organization.

Rev. Dr. O'Brien yesterday afternoon pinned on the breast of Mr. T. Meade, a solid gold T.A.U. pin, as a reward for his good work in increasing the membership of the Society.

Mr. T. J. Begley, who arranged the production of the comedy drama, presented on the evening of March 17th, was also presented with a gold pin. Both young gentlemen suitably acknowledged the presentation.

TOTAL ABSTINENCE SOCIETY.

Creditable Turn-out of the Members on Sunday.

Sunday morning at 8 o'clock mass in St. Peter's Cathedral, the members of St. Peter's T.A.S. and St. Michael's Cadets, turned out about three hundred strong, and received Holy Communion. This was the largest turn out in the history of the Society His Lordship Bishop O'Connor congratulated the members on the good work they were doing in the cause of temperance, and the example they had set in the practice of their religious duties, and the frequent reception of the sacraments. It was a source of joy, he assured them, to see the society prosper, and he prayed that God would shower His blessings on their labours in the cause of temperance.

The members afterwards marched back to their hall, where their Spiritual Adviser, Rev. Dr. O'Brien congratulated the society on its turn out.

Coming down from the church, the society came face to face with a "double-header" on the G.T.R. steaming along Bethune street on its way to the station. The drivers of the engines evidently considered it a tough proposition to run up against an organization like the T.A.S., for they brought the iron monsters to a standstill and allowed the parade to pass. A wag in the ranks in referring to the incident, stated that if it was possible for the Society to call a halt in the matter of railway traffic, it was an easy traffic to do likewise with the liquor traffic.

The Society is rapidly increasing in membership, sixty new members having joined at the last two meetings. Committees are being appointed at each meeting to boom the membership, and a big effort will be made to capture the banner at the Total Abstinence Convention at Dubuque, Iowa, in August. The League of the Cross, the ladies' temperance organization, is also rapidly increasing in membership. A meeting of the League was held on Sunday evening after Vespers in the Cathedral.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

Superior Grey Lime.

"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

A HANDSOME GIFT.

Miss Bertha Might Remembered by Teachers and Pupils.

At the closing of the Central School on Friday afternoon Miss Bertha Might, who is resigning, was presented with a very handsome piece of silver by the teachers and pubils. The presentation was made by two little girls and the following address was read by Mr. William Smith, the principal:

Central School, Peterborough.

Dear Miss Might,—Before you finally sever your lot from ours, we, your fellow teachers, would not have you go without our expression of regret on saying farewell to a past in which you have played a part—which we have always had reason to admire, and which we will ever remember with pleasure. We would take this opportunity to voice our hearty best wishes that your future, in whatsoever sphere may be yours, may be bright and broad in influence.

And we, the pupils of the primary class of the Central school, tender you our heartfelt gratitude for your forbearance with us when we have tired you, for the steady glow of kindness, and ever-ready sympathy you have evinced toward us, though meanwhile we say good-bye with sad hearts. If clouds must come, may they be light and soon past.

Life is not for any all sunshine and roses, nor is Truth always balm to the heart, but when kind words, which cost nothing but the victory over selfishness egoism, can be said as heartily and sincerely as we teachers and pupils can assure you of our high appreciation of your attitude toward us at all times, we feel it would be a loss to you and to ourselves to leave them unsaid. And that you may have some souvenir of our past together, other than mere memory, we ask your acceptance of this token of our kind regards and wishes.

May 1st, 1902.

Miss Might expressed her thanks in words which will long be remembered by those present.

PERSONALS.

Miss Emeline Millar, of Toronto, is visiting Mrs. Roland Johnson, Water street.

Mr. Frank Burnham has returned from the School of Practical Science for his summer vacation.

Captain Maurice Lane has reported for duty as the commanding officer of the City of Peterborough.

Mr. E. A. Welsh left town a few days ago for Webwood, Sault Ste. Marie, where he has secured an excellent situation.

Mr. Jas. Clark, of Port Hope, has returned home after spending a few days in town visiting his cousin, Mrs. (Dr.) McCullough.

Mr. Charlie Whiten's many friends will be pleased to learn that he is convalescing at the Nicholl's Hospital, having successfully passed through a difficult operation.

Mr. R. R. Bane, President of the Syndicate which is purchasing the Peterborough Street Railway, is in town for the purpose of clising the deal, if the council grants the requested franchise this evening.

Dr. Andrew Scott was presented with a complete smoker's outfit by his friends on Saturday evening. The gift included gown, slippers, pipes, cigars and tray. Dr. Scott went to London to-day, but will not permanently take up his residence there for a month or six weeks.

The Globe says:—Miss Theodora Kirkpatrick, of Coolmine, who has been staying in Ottawa with the Postmaster-General and Mrs. Mulock and with Mr. and Mrs. Charles Keefer of Beuna Vista, left on Thursday for Peterborough, where she will pay a visit to friends before returning home.

ASHBURNHAM.

The supporters of Mr. Anderson in Ashburnham will meet again on WEDNESDAY EVENING, May 7th, when a good attendance is asked.

NEWS NUGGETS.

—The Ashburnham Village Council will meet this evening.

—The Town Council meets in regular session this evening.

—The hour for the holding of the police court has been changed from 10 o'clock to 9 o'clock each morning.

—The regular meeting of the Peterborough Board of Education will be held to-morrow night at 7.45 o'clock.

—The report of the standing of the Convent and Separate School pupils will be published in to-morrow's issue.

—The George street Methodist church choir will practice this evening at 9 o'clock, and every member is expected to be in attendance.

—An Irish street car conductor called out, shrilly to the passengers standing in the aisle—"Will thim in front plaze to move up, so that thim behind can take the places of thim in front, an' lave room for thim who are naither in front nor behind."

—Pleased customers are being added daily to the growing list of visitors at the New Patent Medicine Store, in the Grand Central Block. The stock is regularly replenished with fresh lots of reliable preparations—the best that money can buy. The prices make the goods move fast. d

—The concert which will be given to-night by Mrs. Morrow's pupils, is deserving of the patronage of the people of Peterborough. By a large attendance an encouragement will be given to the efforts of Mrs. Morrow to cultivate a high standard of music in Peterborough. The Peterborough young ladies who are taking part are deserving of every encouragement.

Seeds That Grow.

If you want reliable flower, field and garden seeds, you'll be safer to buy them right at home, from Ormond & Walsh's drug store. dw

13TH REGIMENT COMING

Providing $500 is Guaranteed Them by the Town Council.

The officer commanding the 13th Regiment of Hamilton has expressed a willingness to have his corps visit Peterborough on May 24th, providing the Peterborough Town Council will give them a grant of $500. A deputation of merchants and others will wait on the Town Council this evening to ask that this amount be voted. A visit from the 13th Regiment would mean a grand military day here.

Call up 48

When you want any building material. Best hardwood flooring ever brought into Peterborough. Finest British Columbia Red Cedar shingles ever cut. Sash, doors and builders' supplies, all well seasoned stock. Reliable Portland cement, Star and Beaver brands. R. Hicks & Co., Rathbun's old stand. Telephone 48.

BASEBALL OUTFITS are in demand just now. We have a big variety and prices are right.—The Sailsbury Co.

Established Half a Century.

You Want Queen Quality

The Best of Shoes to go along with your good clothing.

"Queen Quality"—the famous Shoe for Women—combines the latest ideas in handsome leathers, beautiful shapes and fashionable features.

"Queen Quality" Oxfords, a dapper-looking Low Shoe—light, flexible sole, medium heel.

"Queen Quality" Patent Kid Street Boot—very swell, hand welt, heavy sole, extension edge, low heel.

Any type of foot fitted.

ONTARIO DOES MOVE.

The Flattery of Imitation Shows Government Progress.

Rousing Meeting at Mr. Stratton's Committee Rooms—Bright Speeches Delivered—Visit of Mr. Madole Good Prospects all Along the Line.

On Saturday evening there was a large an enthusiastic gathering of the working supporters of Mr. Stratton at his committee rooms. The hall was crowded to the doors, and the enthusiasm and fighting spirit shown, gave evidence of a maintained, if not increased, spirit of confidence. Hon. Mr. Stratton was present and addressed the gathering. The presence of the Liberal candidate of Lennox, and the cheering report of the splendid prospects in his riding, the reports he gave of an increased Government representation from the east and the cheering reports of workers from East Peterborough, had an inspiring effect, and the prospects are that the eastern part of the Province will do its share and more than its usual share to maintain the interests of good government as represented by the strengthened retention in power of the Ross Administration.

After the usual committee reports had been presented and considered, Mr. Wm. Yelland was called to the chair.

In a few introductory remarks he said he was glad to be present and to notice the excellent work being done, and the splendid prospects of a great victory in West Peterborough. He said he was present at a so-called prohibition meeting during the week, and he had noticed that the evident object of the meeting was to boom the Conservative candidate in the name of temperance. Any statements made by a speaker against the Ross Government was allowed to go freely by the chairman Mr. Lindsay, who showed his party bias very plainly, and was prompt, if not rude, in checking any expression favourable to the Government or the referendum. The alleged convention was convened ostensibly to receive answers to certain questions that had been presented to the candidates in East and West Peterborough, but, as a matter of fact, it was nothing more nor less than a committee meeting in the interests of the Opposition candidate, Mr. Miller. At that meeting Mr. Yelland said he had pointed out that the convention or committee meeting in adopting Mr. Miller as the temperance candidate, were adopting the candidate of Mr. Whitney, the leader of the Conservative party in Ontario, a gentleman who had declared himself opposed to prohibition and from whom the temperance people could have no hope of prohibition or temperance reform. In so doing they were also helping to defeat a Government which had given them the only measure of prohibition the Province ever had, and as complete a measure of prohibition as it was in the power of the Province to give. But his words fell on ears deaf to all reason. The chairman and those acting with him, who controlled the meeting, left no doubt in his mind that it was Toryism and not temperance they were trying to boom. He felt with deep regret, as a consistent temperance man for many years, that no meeting ever held in Peterborough was calculated to do more harm and would do more harm to the cause of temperance than the political campaign meeting held in the Y.M.C.A. hall last Tuesday afternoon. The temperance people who were temperfirst and party afterwards would incur a serious responsibility in respect of the interests of temperance if they allowed such a clique to pull the wool over their eyes. He was quite sure that the temperance people would regard, as an affront to their good sense and honesty, an attempt to drag the temperance organizations of the county through the mud and mire of party politics. He was a very strong temperance man himself and they couldn't or wouldn't pull the wool over his eyes. Mr. Yelland made a capital and vigourous speech which was warmly applauded.

MR. M. S. MADOLE.

The energetic Liberal candidate for Lennox, was in town for a few hours on business, and while waiting for the nine o'clock train he visited the rooms. He was called upon and received a very enthusiastic greeting. He made a capital speech, and his bearing, his speaking and the energy displayed, show that the electors of Lennox will make no mistake in choosing him as their representative, as they will do. He said he had good reports to give from his own riding. He said that he was confident that he would be elected in Lennox, and was confident that the Ross Government would hold every seat it held in the last parliament, and also make gains, so that so far as Eastern Ontario was concerned the Government would go back with a stronger contingent than they had in the last Parliament. This was as it should be, for the Government was a good one, and there were good reasons why it should receive the support of the best classes of the community. It had maintained our finances in excellent condition; the public institutions it had charge of were admirably and economically managed; the laws were in keeping with the wants and demands of the people, and the progressive spirit of the Government gave hope to the people that the resources of the province would be developed in the public interests. He paid a hearty compliment to Mr. Stratton, who worthily held a place in such a progressive Government. He (the speaker) knew that he was held in as high appreciation throughout the eastern part of the province, and he believed, the whole province, as he was in West Peterborough. (Applause.) Mr. Madole concluded a snappy, inspiring speech by repeating that he believed the Ross Government would go back to power with a larger following from Eastern Ontario than they had in the last parliament, for there were several seats that would be redeemed. (Applause.) As a sample of the rubbish talked by the Opposition campaign speakers, Mr. Madole said that Mr. Broder of Morrisburg, the bosom friend of Mr. Whitney, in speaking at Napanee, said that the salaries of the license commissioners had been doubled, when as a matter of fact they received no salary at all. (Applause.) No greater calamity could befall Ontario than to turn out the strong Government of Hon. G. W. Ross, and turn the Government over to the hands of weaklings, who were well calculated to put the province ahead at about the rate the frog escaped from a well, by advancing two feet and falling back three. (Laughter and applause.)

HON. MR. STRATTON,

who was enthusiastically received, thanked his committee for the excellent work they had put in during his absence. Referring to Mr. Madole's closing remarks, he thought that if the people of the province were satisfied with the flapdoodle and buncombe served out by the Opposition speakers, they were very easily satisfied. There was nothing big or broad in their appeals — they dealt small wares—political junk—and they showed their lack of grasp of provincial issues, and were unable apparently to offer the people anything in the shape of a policy that was in keeping with the great interests entrusted to a Government of the first province of the Dominion. They had a paltry way themselves, yet they were greatly inclined to belittle the policy and record of the Government.

An assertion very frequently made by the Conservative press and on the Opposition platform was that the Government was unprogressive, that the legislation of the Province had not kept pace with the demands of a growing community or with the advances made elsewhere. No more absurd or unfounded charge could be brought than this in view of the fact that the legislation of Ontario had been widely copied not only by the other Provinces but by may of the most progressive States of the American Union. Ontario was in fact the pioneer in law making and methods of administration. This was true in connection with every department. In the important matter of Agriculture, Ontario had set the example in the collection of statistics. Manitoba had adopted the system and the other Provinces were considering the advisability of doing so. Our system of Farmers' Institutes, which had done so much to raise the standard of farming, had been adopted by Manitoba and New Brunswick, and the Dominion Government was sending Ontario Institute lecturers into the other Provinces. The Ontario Live Stock Associations which had been liberally aided and encouraged by the Government had furnished the model for similar institutions in all the other Provinces. The Dominion Government had followed the precedent set by Ontario in starting a winter live stock fair. The Ontario Dairy School system had led the way in dairy instruction, and there were now institutions established on the same line in Manitoba, Quebec and New Brunswick. The Agricultural College, at one time derided and decried by the Opposition, was so much appreciated by the people of other sections that the three Maritime Provinces were about to adopt our system, and the Manitobans were considering the question. The marked success of one of its notable features, the Dairy Department, had induced the Dominion Government to take up the work of dairy instruction, putting

ONTARIO DAIRYMEN IN CHARGE.

Ontario instructors in this line were also engaged in the other provinces, in New Zealand and in Scotland, which was certainly a high tribute to the thoroughness of the training secured at the Agricultural College. The bulletins of that institution were everywhere widely sought after. Prof. W. L. Amoss, Director of Maryland Farmers' Institutes, characterized the College as the "best of the twelve I have visited in the United States and Canada for educating the farmer's son for the farm." (Applause.)

Another department in which Ontario was notably in advance of other communities was the Board of Health. Our Public Health Act has been copied by Quebec, Manitoba, Nova Scotia, British Columbia, and New Brunswick, and many of the American States had drawn fully upon its provisions. The Act Respecting Sanitary Regulations for Unorganized Territorities, passed in 1900, had formed a precedent for legislation by the states of Minnesota, Michigan, Maine and Pennsylvania, and had been practically adopted by Quebec. The provisions of our law giving the Board of Health supervision over waterworks and drainage systems had been copied by Ohio. Ontario was far ahead of any province or state in the registration of Vital Statistics. Our plan had been highly commended at the Washington conference two years ago, and had been copied to a slight extent by the other provinces and adopted by many Canadian cities. The uniting of the Registration and Public Health Branches had been found highly effective in the prevention of disease. The Sanatoria for Consumptives Act adopted in 1901, was in advance of any legislation anywhere. So far no European Government or American State has undertaken to deal with the question, but doubtless before long our initiative would be followed in this as in other matters.

THE TIMBER POLICY.

No branch of the Government had been more bitterly assiled by the Conservatives than its timber policy and there was no system which had received the tribute of imitation by other communities in larger measure. The Ontario Fire Act had been copied by Quebec, New Brunswick and British Qish Columbia. This Province was the first to adopt the fire-ranging system, subsequently put into operation in Quebec, New Brunswick and the western timber lands under Dominion control. It had also been largely copied by the United States. Our system of Culler's Examinations had been adopted by Quebec. The much-abused pulp wood policy of granting concessions only on conditions as to the erection of mills and employment of a certain number of men had commended itself to the Legislatures of Nova Scotia, British Columbia and Newfoundland. It was noteworthy, however, that the rights of the public were much more carefully safeguarded in Ontario than in the other Provinces. (Hear hear.)

Ontario took the lead also in the policy of requiring saw logs cut on the public lands to be manufactured in Canada. British Columbia followed by prohibiting the expertation of pine and pulp wood. Newfoundland stipulated that all the timber cut should be manufactured at the mills of the lessee. In May, 1901, the Dominion prohibited the export of pine saw logs cut on Indian reserves and on the timber belt of Dominion lands in British Columbia.

No commonwealth on this Continent occupied an equally advantageous position with Ontario in regard to the creation of forest reserves, owing to the policy pursued from the first in connection with the granting of timber licenses. Our Government had disposed of the timber, only retaining the land in fee simple. Consequently, when it was desired to create forest reserves, the land already lumbered over which was found to be unfit for agriculture had not to be repurchased, as was the case in the United States. Including the Algonquin National Park, which though not strictly making a forest reserve answered much the same purpose, the Ontario Government had during the last few years set apart about 2,500,000 of acres as forest reserves without having to expend anything on the purchase of land or the buying up of claims or interests in the territory. The State of New York in following out a similar policy had been compelled to spend about two million dollars in the repurchase of land. Pennsylvania, in setting apart forest reservation had to buy burned over land at $4 and $4.50 per acre. The States of Maine, Massachusetts, Michigan and Minnesota were now considering the question of following the example set by Ontario and reforesting large areas which were not adapted for cultivation. (Applause.)

MINING INTEREST.

In mining matters, the progressive policy adopted by Ontario had furnished suggestions to the other Provinces. The opening of a Provincial Assay Office in Belleville, and the advantages to the mining interest resulting therefrom, induced enquiries into the system by the Quebec Government which resulted in their opening an Assay Office in Montreal. Nova Scotia had followed our example in the purchase of diamond drills as a means of encouraging mining enterprise. Speaking of the Provincial Mining Law, Dr. R. A. Raymond, of New York, Secretary of the American Institute of Mining Engineers said: "The Ontario Mining Act, as framed in 1892, seems to me to embody a very judicious attempt to continue the encouragement of exploration and mining, with the retention of sovereign control and supervision." (Applause.)

In the matter of Good Roads, the example of Ontario in the formation of a Provincial Good Roads Association had been followed by New Brunswick, Quebec and British Columbia. Quebec had also appointed a Good Roads Commissioner. The appointment by Ontario of a Provincial Municipal Auditor had suggested to the people of Manitoba and British Columbia, the need of a similar official — a question which is being considered in both provinces. The Municipal World of January, 1902, declared that "the appointment of a Provincial Municipal Auditor, and the efficient manner in which he discharges the duties of his office, has had the effect of improving Municipal Treasurers' accounts throughout the province," and the Monetary Times of March, 1901, noted a remarkable improvement in the methods of municipal bookkeeping," accompanied by "a marked lessening of loss to municipalities." (Applause.)

VICE PREVENTION.

The Children's Protection Act of 1893 resulting in the formation of 30 Children's Aid Societies, and the rescue and protection of 2,000 neglected children, was the most advanced philanthropic measure on any statute book. The Ontario system had been adopted by Manitoba and British Columbia. Quebec was considering similar legislation, and ten of the United States had embodied some of the provisions of the Act in their laws. Alexander Johnson, ex-President of the American Conference of Charities, said at the Canadian Conference of Charities held at Toronto, "I consider that Ontario has the best children's protection law on this continent, and I say this with a full knowledge of the laws of the various States of the Union." (Applause.)

The Ontario Joint Stock Companies' Act of 1874 had been copied exactly in Prince Edward Island and the North West Territories, and closely followed in Manitoba, while Quebec had adopted many of its provisions. The Act Respecting Extra-Provincial Corporations had been reproduced in the statute books of Manitoba and the North West Territories.

Ontario had also taken the initiative in the adoption of the Succession Duties Act. Governor Nash, of Ohio, in his annual message to the Legislature, had recommended the adoption of new methods of taxation based on the Ontario system, under which all taxes for state purposes would be raised from corporations, franchises, liquor licenses and similar sources, leaving county and municipal taxes to be raised by local governing bodies.

The system of supplying Public and High School books in Ontario, compared very favourably with that in operation in any State or Province. In New York State a full series of school books cost $9.96, as against $4.96 in Ontario. In this Province a uniform set of books was used everywhere, whereas across the border different sets of books were frequently used in different counties in the same state. The best tribute to the excellence and cheapness of the authorized series of Ontario school books was that a very large proportion of the set were authorized for use in other provinces. Every province in the Dominion, in fact, had several of the Ontario series in use. (Applause.)

OUR GAME LAWS.

The superiority of the Provincial Game Laws was shown by the fact that on no other portion of the continent was game so well preserved and to be procured with so little trouble and expense. This was due to wise, well-considered legislation for the protection of game animals and birds. During the open season of 15 days, 10,000 Virginia deer were annually killed in the eight or ten northern counties of Ontario at an average cost of $10 per deer. In the State of Maine, where general conditions were very similar to those of Ontario, the cost of each deer killed was $200, and of each moose $500. It was proposed to have an open season in the northern part of Ontario for moose and caribou, as owing to wise restrictions these splendid game animals were now numerous in the immediate vicinity of the railroads from Mattawa to Sault Ste. Marie and Fort William. The duck shooting obtainable in Ontario was excelled nowhere; in many localities the bags amounting to 100 a day and upward ward to each gun. This abundance of wild fowl was the result of the prohibition of spring shooting, allowing the birds to nest and propagate their species unmolested. United States sportsmen who appreciated the beneficial results of our legislation, were working hard for the adoption of similar measures in their own country, realizing that Ontario was far in advance in the matter of wise and restrictive laws. The feature of requiring a license to deal in game to be taken out by cold storage firms, game dealers and hotel keepers, backed by the effective and zealous supervision of the Chief Game Warden, completed the efficiency of the best system of game protection ever adopted. (Applause).

INSURANCE INTERESTS.

Ontario was also the pioneer in insurance law, being the first to introduce statutory conditions in fire insurance contracts and to eliminate all unjust and oppressive conditions. This measure had been adopted in whole or in part in most of the provinces and had furnished a basis for legislation in many states. The provision allowing thirty days grace on the payment of life insurance premiums and the clause protecting widows and children against creditors had also been largely copied. The law respecting farmers' mutual insurance companies inaugurated by the Government had effected a substantial saving in agricultural insurance. The Provincial system of insurance registration was a notable step in advance of the old system as it enabled the Insurance Department to enforce necessary laws as regards foreign corporations and afford full protection to the public. The codifications of the insurance law in 1897 placed Ontario in the front rank in this important branch of investment. It covered more ground than any other insurance law with respect to the formation and regulation of companies and securing the rights of the insured. Ontario legislation as to Building Societies and Loan and Trust Companies had brought these institutions under a system of annual registration, securing the proper audit of accounts and the publication of full returns. The excellent features of the system had been recognized abroad and legislation embodying the same principles adopted in Great Britain and the United States as well as in the Dominion.

In the face of such a record, which might be considerably extended, no man whose word carried any weight with the public, or who valued his reputation could assert that the administration had been supine or unprogressive, or had failed to keep abreast of modern requirements. It was noteworthy that those who put forth this assertion had never attempted to justify it by adducing specific instances showing in what particulars the Government had been deficient, or what legislation was required which they had failed to enact. The best answer to their charges was that neither Mr. Whitney nor his followers in the legislature, who as representatives of the people were responsible for legislative shortcomings had attempted themselves to introduce legislation or to deal with the important interests which they said were neglected. Until they could show what measures were needed, what changes of system were urgently called for, what section of the people were suffering hardship because of administrative shortcoming, such vague and general assertions as they indulged in would be without effect.

If the Opposition, said Mr. Stratton, had anything to offer, why do they not put it before the public? The Opposition had nothing to give hope for the future to the young men of the country, nothing to offer to the progressive instincts of the great mass of the electors—they were only faultfinders. It was easy to destroy, but it was a far different matter to build up.

In regard to the political meeting held in town during the week, presided over by Mr. Lindsay, the latter tried to show that he was a better temperance man than those who had done something practical for temperance. He had received a letter from Mr. Lindsay, and he had replied to it, showing what he had tried to do in the promotion of temperance, both through the columns of the Examiner, and by legislation, which he had helped the Government place on the statute books. No Government could do more than the present Government had done. It had improved the license law till it was the best in the world, and the Government had given the only measure of prohibition it had the power to give, and if the people wanted it to be put in force, all they had to do was to say so, and it would be enforced. He had never made it a practice to make promises—all the promise he could make was to do the best he could to advance the material and moral interests of the people of the province. He felt that there could be nothing more hurtful to the cause of temperance than that such political meetings as that engineered by Mr. Lindsay, and a few other friends of the opposition candidate. Mr. Stratton concluded by calling upon his supporters to keep up the good work they had been doing and they would be rewarded by a great victory. (Great applause.)

MR. G. K. MARTIN

spoke briefly, pointing out the certainty of success in West Peterborough, and in reference to the local political movement going on in the name of temperance, he said that this movement originated in, and was managed from a certain room in the Bank of Commerce building. It was purely political and he felt sure that the friends of good Government would not be deceived by the machinations of the clique referred to.

MR. WM EYRES

followed in a similar strain. He showed that party feeling was the moving spirit of the attempt to bring out a supporter of a leader hostile to temperance and prohibition, as a temperance candidate, and as a supporter of temperance in the House. Mr. Eyres said he had been a temperance worker all his life, but he had never known of any movement by which the enemies of temperance or its false friends, would be able to do more harm than the course of the little clique who used the sacred name of temperance to gain a little temporary party advantage.

MR. R. F. MACWILLIAMS

had been holding meetings in East Peterborough, and from what he saw of the temper of the people, he predicted a victory for Mr. Anderson. The East riding was interested in mining, and the Government's policy met thir wants and their interests. Much had been done about Cordova. There had been great progress at Cordova and it would be helped by the work and policy of a Government in sympathy with mining development.

MR. JAMES GARROW,

of the William Hamilton Works, spoke briefly, but to the point. He said he shared the belief held by all progressive citizens that the interests of Peterborough would be best served by the re-election of Mr. Stratton. He was a progressive man himself, always trying to do, and succeeding too, something to help the town ahead. He was a member of a progressive Government which had a first class policy of development, especially in the interests of farming and mining. The working men desired to see a lively policy of development, for that would give employment to both capital and labour.

The extremely successful and enthusiastic meeting closed with cheers for the King and Mr. Stratton.

The Cause Removed.

In curing a disease its only a waste of time to treat the symptoms. The medicine must reach the cause. Merrill's System Tonic does this. It purifies the blood, builds up the system, strengthens the nerves and is the only positive cure known for Constipation, Dyspepsia, Nerve Troubles and Kidney Disease—all disappear when it is taken. Three week's treatment for 50c. Sold at Ormond & Walsh's.

THE BEEHIVE

"WHATEVER WE DO, WE DO IT WELL."

Saves Others.

When one of the children has diphtheria, scarlet fever, or measles, why not keep the others from having it? You can do so with our Vapo-Cresolene. Put some Cresolene in the vaporizer, light the lamp beneath, and have them breathe in the vapor. This vapor destroys all the germs of disease. The contagion can't spread—you save others. It is the only known specific for whooping-cough. Ask your doctor about Vapo-Cresolene. 52

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

Seedlings

In boxes, hardy plants, ready to be transplanted, now ready.

CLIMBING PLANTS

WEBB-MEYER SYNDICATE.

Justice Giegerich of New York Issues an Order For the Arrest of Arthur L. Meyer on Fraud Charges.

New York, May 5.—The Tribune says: The rumor current on Friday afternoon that legal proceedings were impending against one or more of the prominent members of the so-called "Webb-Meyer syndicate" was substantiated Saturday, when it became known that Justice Giegerich, sitting in chambers, had issued an order of arrest for Arthur L. Meyer on affidavits alleging fraud.

Meyer was at his office, in the Broad-Exchange Building, during the morning until about 1 o'clock, when he went out to luncheon. He did not return, and it was said that he had gone uptown, but later in the afternoon it was understood that he had started for Long Branch, where he had a summer home. Private detectives and a deputy sheriff, armed with a warrant of arrest, waited for hours yesterday for Mr. Meyer to come back, guarding both exists of the building, but in vain. It was learned late at night that Mr. Meyer was not in Long Branch, and he could not be found at his home uptown.

The order of arrest was issued by Justice Giegerich at the instances of a lawyer, who was acting as attorney for several banks.

The cause of the collapse of the Meyer Syndicate was due to the revelations made in the Dominion Parliament. News thereof quickly found its way to Wall street, and weakened the credit of Arthur L. Meyer and his associates.

Dr. Webb Resigned.

New York, May 5.—Joseph H. Headley, president of the International Power Company, received a letter yesterday from Dr. W. Seward Webb, tendering his resignation as a member of the Board of Directors of the Company. Action on the resignation was deferred for the reason that less than a quorum of Dr. Webb's colleagues attended the directors' meeting called for yesterday.

It is stated positively that Dr. Webb is not charged with any offence in connection with the application for the warrant, or that he received any benefit from the alleged fraudulent transactions.

In the Commons.

Ottawa, May 5.—A. L. Meyer's name figured prominently in the debates of the House of Commons a week ago, when Hon. Mr. Haggart intimated that someone in authority had offered to sell the I.C.R. to the Webb-Meyer syndicate. This was denied by Hon. Mr. Blair, and a letter from Mr. Pugsley of the Maritime Provinces was read supporting his statement. Mr. Haggart afterwards completely exonerated the Minister.
ing his statement.

Dr. Webb Interviewed.

New York, May 5.—The Tribune today will print a special from Burlington, Vt., which says:

Dr. W. Seward Webb left Shelburne last night (Sunday) on his private car, for New York. Concerning Saturday's developments of the so-called Webb-Meyer Syndicate affairs, the doctor, through his secretary, issued this statement: "Again I wish to emphasize my statement of yesterday, that I have no interest whatever in the Meyer dealings. Having no interest in them, I am not informed as to the state of affairs resulting from the disturbances they have caused. I cannot account for the use of my name in connection with the Meyer stocks, as I have no connection with them.

"Regarding my association with the fallen stocks, newspaper accounts are entirely unfounded. The whole affair has assumed disgusting proportions."

Soo Canals' Traffic.

Sault Ste. Marie, May 5.—The statistical report of the Soo Canals for April, made public Saturday, shows the month was a record-breaker. The freight tonnage amounted to 2,239,284, in excess over two million tons for the corresponding month last year, and an increase over the total amount for the entire year of 1892. The principal items of freight were 1,862,064 bushels miscellaneous grain, 1,492,051 tons iron ore, 9,408,933 bushels wheat, and 657,404 barrels flour.

May 13 the Date Now.

Ottawa, May 5.—The House of Commons met this morning at 11 o'clock and sat till 1 o'clock, resuming again at 3 o'clock. It is calculated in Ministerial circles that, by dint of these morning sittings, the sessional program will be cleared by Saturday evening; but it is doubtful, with two batches of supplementary estimates to be disposed of, whether it will be possible to prorogue before May 13, at the earliest.

Body Found at Prescott.

Prescott, May 5.—About 6.30 o'clock Saturday evening the body of J. B. McDunnough, the commercial traveler, who so mysteriously disappeared on Feb. 28 last, was found floating in the harbor. In his pocket was found his address—J. B. McDunnough, 40 St. Louis square, Montreal—also other documents, which identify him beyond any doubt.

Murder in Montreal.

Montreal, May 5.—Last evening as an Italian named Albino Marchione was at his house, 252 Cadieux street two of his compatriots came in and a row ensued, resulting in Marchione being stabbed to death. The police are after the men said to have committed the crime.

250 Fishermen Drowned.

Yokohama, May 4.—Two hundred and fifty fishermen are reported to have been drowned in a gale which has made havoc of the herring fishing fleet on the west coast of Japan. The Japanese cruiser Musashi was driven ashore, but her crew were saved.

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

DOUBLED THE COLLECTION

A Scotchman's Scheme For Increasing the Church Contribution.

In a small town in England there is a rich congregation which is not characterized by lavish liberality. Time after time the minister had vainly appealed to his people to contribute more generously to the funds of the church. The members would indeed give something, but it was nearly always the smallest silver coin of the realm that was placed on the plate. A shrewd Scotchman who had recently come to the place and joined the church was not long in noticing this state of affairs, and a remedy soon suggested itself to his practical mind.

"I'll tell you what," he said to one of the officials, "if you mak' me treasurer I'll engage to double the collection in three months."

His offer was promptly accepted, and, sure enough, the collections began to increase until by the time he had stated they were nearly twice as much as formerly.

"How have you managed it, Mr. Sandyman?" said the pastor to him one day.

"It's a great secret," returned the canny Scot, "but I'll tell you in confidence. The folk, I saw, mostly gave threepenny bits. Weel, when I got the money every Sabbath morning I carefully picked oot the sma' coins and put them by. Noo, as there's a limited number of threepenny pieces in a little place like this and as I have maist o' them at present under lock and key, the folk maun give saxpences at least instead. Sae that's the way the collections are doubled."

Diamond Cutters.

Speaking of women in the jewelry business, a diamond merchant said:

"In other branches of the jewelry trade than diamond cutting women have made some unqualified successes. Not one of Eve's daughters, from royalty down, I should say, that isn't an artist in the wearing of diamonds. Many are well versed in the tricks of buying and selling them, while others give excellent satisfaction in polishing, setting them and preparing them for the market.

"But when it comes to the real cutting of the stones they lack the patience, judgment and steadiness of nerve which constitute the expert's stock in trade. It would seem that diamonds have the same effect upon the woman who wishes to shape them that they do on the girl who sees one of them sparkling in her new engagement ring—puts her in a tremor of excitement; hence diamond cutters are invariably men."

Kruger and the Queen's Ball.

The following letter was written by the private secretary of President Kruger of the Transvaal in reply to an invitation from Johannesburg to attend a ball given in 1891 in celebration of Queen Victoria's birthday:

"In reply to your favor of the 12th inst. requesting me to ask his honor, the state president, to consent to the making use of his name as patron on the occasion of a ball to be given at Johannesburg on the 26th inst., I have been instructed to inform you that whereas his honor considers a ball as Baal's service, for which reasons the Lord ordered Moses to kill all offenders, whereas such is consequently contrary to his honor's principles, his honor cannot consent to the misuse of his name in connection with such a ball."

A Strange Feasting Custom.

There was a strange custom in the Isle of Lewis when the people used to gather to the church of St. Mulvay at night, each family bringing provisions and each family furnishing a peck of malt, which was brewed into ale. One who was chosen for the purpose waded into the sea up to his middle and poured out a cup of ale, calling on a sea god called Shony to favor the people through the coming year. The people, after seeing the ceremony performed, returned to the church and then went to the fields to spend the rest of the night in revelry.

Advertise in the Examiner.

FARE, BANK ROBBER, DEAD.

The Old Man Succumbs to Gangrene in Kingston Penitentiary.

Kingston, May 5.—Pare, one of the chief conspirators in the Napanee bank robbery that created great excitement throughout the country in 1898, was released by death Saturday in Kingston Penitentiary. He would have completed his term of imprisonment, three years, on Tuesday next. Pare was an old man, formerly of Montreal and Boston. His death was due to gangrene. A year ago his left leg was amputated. Several months ago an old disease broke out in the other leg, and his constitution was too weak to stand the shock. It is said he has left a large sum of money to his sister.

WILHELMINA DYING.

Small Hope For Her Recovery Entertained Late Sunday Night.

The Hague, May 5.—It was announced from Castle Loo at midnight last night that Queen Wilhelminn had been prematurely confined at 6 o'clock Sunday evening. Prof. Rosenstein, Dr. Roessingh and the other doctors were in attendance. The Queen suffered intense agony.

At 11 o'clock Sunday evening the condition of Her Majesty was described as critical, and small hope of her recovery was entertained.

French Fishers Arrive.

St. John's Nfld., May 5.—Practically all the French fishermen operating on the Grand Banks and the Newfoundland treaty coast have arrived at St. Pierre, and active operations have begun. The Newfoundland revenue cruiser Fiona is now patroling the bait region. British and French war ships are expected to reach the coast next week to assume the regular fishing patrol.

General Delays Departure.

Ottawa, May 5.—General O'Grady-Haly will not leave Canada as early as he originally intended. He had booked his passage from this country for May 31, but has now postponed his departure until June 14. The object of the delay is to assist in the organization of the Coronation Contingent.

Fifty Persons Burned.

Cairo, Egypt, May 5.—Fifty persons have perished in a fire at Mit Gamr, a town on the right bank of the Damietta branch of the Nile. The flames were started by the intensely hot weather prevailing. Thousands of native residences and two hundred stores were destroyed.

A Steel Rails Beginning.

Sault Ste. Marie, May 5.—The Clergue Works started to make steel rails yesterday, for the first time.

A Sufferer From Backache.

Several Years of Kidney Disease—A Prominent Merchant Cured by

Dr. Chase's Kidney-Liver Pills.

Every day adds scores of names to the long list of persons who have been cured by Dr. Chase's Kidney-Liver Pills, and among those who are now enthusiastic of this great medicine is Mr. W. Gilroy, the well-known merchant of Blenheim, Ont.

Like many others, Mr. Gilroy now wonders why he did not use Dr. Chase's Kidney-Liver Pills in the first place, instead of experimenting with new-fangled and untried remedies. There is no doubt about the exceptional virtues of Dr. Chase's Kidney-Liver Pills. They act directly on the kidneys, liver, and bowels, and thoroughly cure complicated ailments ments which cannot be reached by ordinary remedies.

Mr. W. Gilroy, general merchant, Blenheim, Ont., states:—"I am rather enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills, and believe I have good reason to be. For several years I was a great sufferer from kidney disease, and had pains in my back almost constantly. I tried a great many remedies, but did not succeed in obtaining more than slight temporary relief.

"A friend of mine advised me to try Dr. Chase's Kidney-Liver Pills, and I did so, with great satisfaction. I had not taken half a box before I began to feel better, and now realize that I have entirely recovered. I often wonder now why people go after new-fangled remedies when this tried and proven medicine is so easily obtained, and so certain to cure."

Dr. Chase's Kidney-Liver Pills have the hearty endorsement of good citizens in nearly every city, town, and village in Canada. They are probably the most popular remedy that was ever introduced into this country, and their enormous sales are due to the fact that they radically cure serious and chronic diseases. One pill a dose: 25 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto. 3

HOW TO SHIP CHEESE.

Home and Foreign Produce Exchanges Criticises Our Article.

Ottawa, May 5.—The Cheese Sub-Committee of the Home and Foreign Produce Exchange has forwarded to the Minister of Agriculture a report on the Canadian cheese, received in England last season, which bears out the warning already sounded by the Dairy Commissioner.

It is reported that the cheese was rank in flavor, due, probably, to being shipped before being thoroughly cured.

The committee also deprecates the shipment of too large a number of heavy cheeses, in thin, brittle boxes, and suggests that the weights be plainly stamped on all boxes, instead of scribbled on with lead pencil.

Finally, it is recommended that cheese be forwarded only in ships supplied with cool-air ventilation, as cheese is invariably carried from New Zealand.

Another Priest Missing.

Pekin, May 4.—Another priest is reported to be missing from Chen Teng Fu, Province of Chih. The uprising there embraces a radius of 50 miles. There are eight regiments of cavalry in the disturbed district.

Dodd's Kidney Pills are the only medicine that will cure Diabetes. Like Bright's Disease this disease was incurable until Dodd's Kidney Pills cured it. Doctors themselves confess that without Dodd's Kidney Pills they are powerless against Diabetes. Dodd's Kidney Pills are the first medicine that ever cured Diabetes. Imitations—box, name and pill, are advertised to do so, but the medicine that *does* cure

Diabetes

is Dodd's Kidney Pills. Dodd's Kidney Pills are fifty cents a box at all druggists.

Sheep and Lambs—Receipts, 782; nine cars on sale, demand slack; sheep, shade lower; lambs, unchanged; clipped lambs at $5.25 to $6.75; unshorn sheep, $5 to $6; dressed mutton at 9c to 11c per lb.; dressed lambs, 11c to 13c; common do., at 7½c to 10c. Hogs—Receipts, 2993; feeling steady.

BRITISH CATTLE MARKET.

London, May 3.—Prices steady; live cattle, 14c to 14½c, dressed weight; refrigerator beef, 11½c per lb.

CHEESE MARKETS.

Winchester—337 boxes were registered, 210 white and 127 colored. The price started at 10⅝c, which was increased to 11c by Mr. Weir, at which figure he bought 188 boxes.

South Finch—350 boxes were boarded; 200 white, balance colored; price offered for both, 11c; none sold.

Iroquois—As most of the factories in this section had contracted for their April, only 73 boxes were boarded; these sold at 10⅝c.

In Toronto cheese is firm; finest September, 11¾c to 12c; under grades, 10½c to 11c; new, 11c to 11½c.

A Corn Cure.

To cure corns get a little gutta percha tissue from a druggist, cut it into strips and then wind a piece round the corn, which must first be moistened with oil. See that the edges of the tissue are as even as possible, and when you have wound it round wet the inside of the end with spirits of turpentine. This will cause it to stick firmly if you press it down. With a feather dipped in turpentine touch the edges of the tissue, and they will unite. Leave for four days, then take off the dressing, and you will be able to remove the corn with the back of a penknife.

If a woman is physically miserable and mentally unhappy, the child she bears will, in face and form, as well as in disposition, reflect her own condition. Every woman who anticipates motherhood ought to think of this and be a fairy godmother to her own child, endowing it with health, beauty, and a happy disposition.

The mental misery of the prospective mother is in general the result of her physical condition. She is nervous, her appetite fails, she cannot sleep. Restore her appetite, quiet her nerves and give her sleep and she becomes a new woman.

"It has made a new woman of me," is the constant testimony of women who have used Dr. Pierce's Favorite Prescription. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"During the first month, when I looked forward to maternity, I could not keep anything on my stomach," writes Mrs. H. C. Anderson, of South Britain, New Haven Co., Conn. "Was so weak that I went to bed on the 26th of June and never got up till the first of August. I tried different doctors, but with little benefit. I read about many being helped by using your medicine, so I thought I would give it a trial. I began to take your 'Favorite Prescription' in November, and I had a nice little baby girl in February following. My baby weighed over eight pounds. I was only ill for about one hour, and got along nicely during confinement. Was up and dressed on the eighth day. I never had the doctor with me at all; just the nurse and one or two friends. My friends thought I was sick a very short time. This makes my second child. With the first one I did not take 'Favorite Prescription.' The little one lived just about two months, and she was sick all the time. This last baby is as plump and healthy as any mother could wish."

Dr. Pierce's Pellets cure constipation.

Soft Harness

You can make your harness as soft as a glove and as tough as wire by using EUREKA Harness Oil. You can lengthen its life—make it last twice as long as it ordinarily would.

EUREKA Harness Oil

makes a poor looking harness like new. Made of pure, heavy bodied oil, specially prepared to withstand the weather.

Sold everywhere in cans—all sizes.

Made by IMPERIAL OIL COMPANY.

The Toronto General Trusts Corporation.

JINGLES AND JESTS.

Pingpong Poem.

I know I must be wrong,
But I cannot love pingpong.
I cannot sing
In praise of ping;
I have no song
For pong.

Natural Mirrors.

The Lawyer—You say that you were walking behind this woman, could not distinguish her figure because of the cape she wore, saw nothing of her face and yet knew that she was a very pretty woman. How do you account for that?

The Witness—Well, I could see the faces of the men coming toward me.—Life.

The Only Point in Doubt.

"I made an awful fool of myself," he exclaimed.

"Ah, that settles the only point in doubt!"

"What do you mean?"

"I was uncertain whether you were a self made one."

The God of Insomnia.

Shall love awake, O Daphne, dear?
(Ah, here she wept!)
Give me your hand, O heart of hearts,
He hath not slept!

Danger.

"It seems the queen will wear more than a peck of diamonds at the coronation."

"Goodness! I should think she would be afraid of being mistaken for one of the American guests!"—Life.

Society.

If you find life dull, buy a little ice cream and cake and invite in the neighbors. You will have such a tough time you will decide that monotony and lonesomeness are interesting.

Fate Was Unkind.

He held her hand; a lovely one it was;
It seemed he never would let go, because
He saw four aces in it, and to think
He only held it while she got a drink!

Findings.

"The millennium will not be very far off," remarked the observer of events and things, "when it is as easy for a man to find his collar button as it is for him to find fault."

Gentle Hint.

Borem—The fire seems to be going out, Miss Cutting.

Miss Cutting (suppressing a yawn)—Yes; it seems to be more considerate than some people.

Unanimous.

We like to see the right succeed,
No matter what betide.
The reason is that all of us
Are always on that side.

The Real Difficulty.

She—Because I cannot marry you, do not be disheartened. You must face the world bravely.

He—It isn't a question of the world. I've got to face my creditors.

Nervous Shock.

He—But do yon think you could do the cooking for two?

She—Oh, that's all right. Mamma will do the cooking.

Function.

It is a formal dinner,
And I am there, you see;
Were "T" to drop quite out of "it,"
Why, "it" would be a "t."

Then He Believes in Division.

"Is he a socialist?"

"Part of the time."

"What part?"

"When he's broke."

Typographical Errors.

American authors, no less than English, sometimes suffer for the sins of the printer. A line of Mr. Aldrich's which originally read "A potent medicine for gods and men" was misprinted "A patent medicine," etc. And Mr. Aldrich's equanimity was upset on another occasion because in a serious mood he wrote in one of his poems "Now the old wounds break out afresh" and was horrified to read that he had said "Now the old woman breaks out afresh."

Replanting the Seeds.

Nubbins (shouting across the garden fence to his next door neighbor)—Hi, there! What are you burying in that hole?

Neighbor—Oh, I'm just replanting some of my garden seeds.

Nubbins—Garden seeds, eh! Looks to me very much like one of my hens.

Neighbor—That's all right. The seeds are inside her.

A King's Miserable End.

Louis XI., after having by open murder or secret assassination rid himself of the most powerful nobility of France, died in miserable fear, begging his physician to do something for him. During his last days he sent for St. Francis of Paula and offered him untold riches to intercede with heaven for a further lease of life.

She Paid.

"Dollar an a half fer a marriage license!" exclaimed the colored applicant. Then, turnfng to the bride to be, "Lindy, does you think I is wuth it?"

"Well," was the reply, "hit do come mighty high, but I reckon I'll hatter pay it, 'long es I done come heah wid you!"

Thanks to the Apple. She's Clothed.

Tess—I detest apples, don't you?

Jess—Oh, no. Every time I put on a nice new gown I'm thankful that there was an apple for Eve to eat.

Wonders of the Heart.

All the blood in the human body passes through the heart in about three minutes. The heart beats 70 times a minute, 4200 times an hour, 100,800 times a day, throwing out 2 1-2 ounces of blood a second, 656 pounds an hour, 7 and 3-4 tons per day. It is only when supplied with pure, rich, blood that the heart, an organ six inches long by four inches inches wide, can accomplish this enormous amount of work, and rebuild its only wasted tissues. Dr. Chase's Nerve Food is the most effective treatment available for heart affections because it forms new, red blood and gives to it that life-sustaining quality, which is necessary to the health of every organ.

United States Will Get Falconio.

Rome, May 3.—Monsignor Falconio, the actual Papal ablegate in Canada, is to succeed Cardinal Martinelli as Papal delegate to the United States. Monsignor Falconia is a States. Monsignor Falconio is a also very studious and a thorough English scholar. The Pope is extremely attached to him.

Irritating Pimples and Disfiguring Blotches.

They place many young girls at a great disadvantage in life. The only cure is a blood purifier like Ferrozone. It cleanses the crimson flood of poisons and impurities, renews and strengthens it, and makes lots of red corpuscles that manifest their presence by a ruddy, healthy glow in the cheeks and lips. Ferrozone quickly masters all skin erruptions, builds up broken-down constitutions, and gives to weak, sickly women an abundance of spirits, vitality, energy and beauty. Try Ferrozone, it's all right. Price 50c. per box, or 6 boxes for $2.50, at Ormond & Walsh's drug store.

Not a Stranger.

Uncle Henry—So you got swindled first thing? Didn't I tell you to beware of strangers in the city?

Jediah—But this chap wasn't a stranger, Uncle Henry. He knew me right off—actually called me by name.

His Lot Not a Happy One.

First Roundsman—Casey, thot new policeman is alwus erround whin thare is anny throuble.

Second Roundsman—Faith, he's onlucky!

Sees a Disadvantage in It.

"You ought to be a good boy."

"Yes, but if I was a good boy people wouldn't say how bright I am."—Indianapolis News.

NOT A "WHITED SEPULCHRE."

To the Editor of the Examiner,—

Dear Sir,—With your permission I wish to offer a word of reply to Mr. Miller on the referendum question. He calls them "whited sepulchres" who say that the referendum is a good thing. Now, sir, I am one of those men who believe it is a step in the right direction towards prohibition. First, because the vote is to be taken by itself, nothing else being associated with it to bring the people out to vote. We then get the true expression of the people on the subject and thereby know whether the people want it or not. As to the vote to be polled, surely there are more people in Ontario in favour of prohibition than there are for any government, and if the referendum is carried, then [illegible] year after, we have a prohibition [illegible]. This will give those engaged in [illegible]quor traffic time to invest their [illegible]l in some other business, which [illegible]lighten their claims, at least, for [illegible]ensation. If prohibition is not [illegible]ed now by vote, it will be the last [illegible]ance Ontario will have for prohibition until the Prince of Peace shall set up His kingdom on earth, if we can judge the temperance people by the specimens we have presented to us in Peterborough, who are moving heaven and earth to destroy the very hope of ever having a prohibition act. There were great complaints in Ontario and other provinces when a similar vote was taken in the Dominion for prohibition, and defeated by one province, but now, in Ontario, those who call themselves temperance men are calling aloud for help to kill or butcher the mother ere the child is born—they are trying, by all means possible, to defeat the referendum and put the government out, which has pledged itself to give us prohibition if we carry the referendum bill. Mr. Miller says it is as impossible to carry the bill as it is for a man to carry a thousand pounds of flour from McAllister's mill. Now, if it is loaded and weighted, by whom is it weighted? By such men as Mr. Miller, Dr. Ford and Mr. Lindsay, who appear to be on it with both feet and calling on others to help. Mr. Lindsay denies that Mr. Buchanan receives $125 a month for his services in the temperance cause. That may be, but from the fact that such a resolution was passed by the temperance people showeth that he is in their employ and is remunerated otherwise than by a stated sum, and if he did not advise the temperance people of Peterborough to rally around and support the referendum, though it is not all they would wish, yet it is the best thing offered, he is not a safe man to follow, and if Mr. Lindsay seemed pleased at any remark made against it, or would cause indifference towards it, he is not a good temperance man, and this is strongly suspected from the attack he makes against Mr. Stratton for not putting a stop to the violation of the Crooks' Act which, he says, is scandalously common in West Peterborough by the sale of liquor after legal hours hours and on the Sabbath day. He intimates that Mr. Stratton has the power to enforce the law, and that it is his duty to see that it is done, and has not Mr. Lindsay power to enforce the law, and is it not as much his duty to see that it is done, and has he not as much time to do it as Mr. Stratton has, and from the position he holds or pretends to hold in the temperance cause, we should expect Mr. Lindsay to be foremost in the good cause. But the charge against Mr. Stratton is not without its meaning. Mr. Miller is trying to persuade the people that they have the referendum so loaded that it is impossible to carry it, and is calling on all to rally round the Conservative standard and kill the government which is pledged to give it, and to put in a party which is opposed to it. This appears to be also the ground on which Dr. Ford stands, and the party which he has pledged faith to, though on all moral things, and in temperance matters he reserves liberty of conscience, but if he can succeed in putting Mr. Whitney in, he will then be relieved from all strain of conscience, and this he is striving to do. If these men turn out the party now in power, and put in power a party opposed to temperance, or rather opposed to prohibition, until the country be prepared for it, then we will have prohibition and more when the devil goes it blind, and his eyes not sure, for they will never do anything to get it ready. But if these trumpet-sounding temperance men succeed in the overthrow of the Ross Government and the prohibition question. Will there not be a jubilee among the enemies of temperance, and as they meet these obstructionists they will say "You are on our side—give us your hand—we killed their referendum and killed the party that interferred with our rights." I do not begrudge such temperance men such laudation. Now sir, it appears to me, and I am as old a temperance man as Mr. Miller, that the course the Ross Government has taken to carry prohibition is the wisest course that could be taken, as there is such a large amount of capital invested in the liquor traffic, and considering the large amount of revenue received from it, no government would be wise to interfere with it until the people express a strong desire for prohibition, and will carry it out and support the government which gives it. All great reforms in church or state had to be obtained by littles, and the promoters stand shoulder to shoulder, and fight hard for every inch of success gained. This referendum presented will tell the sort of stuff the temperance men are made of. The work of prohibition is a mighty work, and will call forth the greatest effort of every lover of sobriety in our Province. We are well able to carry it to a happy issue, but party must be left to rest until this work is settled first.

A PROHIBITIONIST.

Peterborough, May 3rd, 1902.

Force!

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

Window Blinds, Poles, etc.

The prices we specialize this week will be welcome at this season of shifting, moving and housecleaning. Every new style, with a great display of window blinds and cornice poles, will help you to select quickly, because prices and general effects invite irresistibly. Two hundred and fifty curtain poles, assorted woods, any finish, brass trimmings, complete, regular 30c., for 19c., this week only. A lot of old newspapers for sale for laying under carpets, wrapping purposes, etc. A. H. Stratton & Co.

Saved his Laundry Bill.

A customer in our store put it uniquely recently by saying the 25c he spent for a bottle of Four T's saved him an extra quarter in laundry bills. The only thing he was out was the cold in the head. Get a bottle today, if you have a cough or cold; try the same experiment. Sold at Ormond and Walsh's drug store.

Age of the Brass Band.

"As antiquities go nowadays," says Harvey Sutherland in Ainslee's, "the brass band is a very ancient institution. That is to say, its inventor died in 1894 at the age of eighty. There were horns before Adolphe Sax, to be sure, but not such horns as we have now, for they could not play every tune in every key. They could not even play a scale in any key. The very first band entirely of brass was organized in 1835, and I doubt if any of the instruments then used could be played upon by modern musicians without special practice. It is only back to 1783 when a full regimental band of the British army consisted of two oboes, two clarinets, two horns and two bassoons. It must have sounded even funnier than Tennyson's famous combination of 'flute, violin and bassoon.'

"How long a way we have come since 1783 may be learned from the ensemble of a first class modern band. The modern band of forty-two pieces has half as many oboes and bassoons as the ancient band of eight pieces, seven times as many clarinets and nine times as many horns, to say nothing of the saxaphones, which are part clarinet and part horn."

Odd Drinking Cups.

When every man got drunk and was proud of it in olden days, much ingenuity was expended in the construction of queer and elaborate drinking vessels, and many such are yet to be found in museums, especially in Germany.

One preserved in a Berlin museum represents Diana mounted on a stag and surrounded by hounds and huntsmen. The cup consists of the hollow body of the silver stag, the head of which is removable. The piece stands fourteen inches high. It was made at Augsburg in 1610. It is also an automobile propelled by clockwork concealed in the base.

Trick cups which drenched the uninitiated were very popular. Another variety contained wine and water in separate compartments. The drinker who did not know how to manage them filled his mouth with water, though the cup was apparently full of wine.

The glass with the fighting hares, in the same museum, belonged to Friedrich Wilhelm I. The hares represent two of his ministers and boon companions.

A Painter's Troubles.

The desire of the Bank of England officials to discover forgers has sometimes led to curious mistakes. On one occasion the painter George Morland, in his eagerness to avoid his duns, retired to an obscure hiding place in Hackney, where his anxious looks and secluded manner of life induced some of his neighbors to believe him a forger of notes then in existence.

The directors, on being informed, dispatched some dexterous detectives to the residence, but Morland's suspicions were aroused by their movements in front of the house and, thinking them bailiffs, escaped from the back to London.

Mrs. Morland informed the visitors of her husband's name and showed them some unfinished pictures. The facts were reported to the directors, who presented Morland with two twenty pound notes by way of compensation for the alarm.

Unique Tablecloth.

When a southeast wind is blowing, the visitor to Cape Town is treated to a peculiar and interesting natural phenomenon, for under such conditions Table mountain, in the language of the natives, "puts on a tablecloth."

In other words, the thin line of fleecy cloud forming above it descends until it rests flat upon the mountain top, with its edges drooping gracefully over its sides.

It is really not unlike the article of household use which gives it its name.

MARRIED.

FITZ-GERALD.—Dr. J. Walter Fitz-Gerald, of Sanborn, N. Y., to Miss Olive C. Hayward, of Rochester, N. Y., by Rev. S. S. Lippitt, at St. Andrew's Episcopal church, Rochester, on Wednesday, April 30th, at 6.30 a.m.

Coughs, colds, hoarseness, and other throat ailments are quickly relieved by Vapo-Cresolene tablets, ten cents per box. All druggists.

A GALA EVENT

FOR HOUSEFURNISHERS.

Hundreds of homes, big and little, in Peterborough and all over the Midland District, bear evidence of our usefulness as Housefurnishers.

Just in the nick of time, and just when house-cleaning is in full blast, we have secured new and superb values in

NOTTINGHAM LACE CURTAINS

and CARPETS. There will be no better time this season to choose than now—when we are "In full bloom"—either to furnish the new home or replenish the old.

250 PAIRS OF NOTTINGHAM

Lace Curtains of beautiful design, single and double borders, 50 to 54 inches wide, 3½ yards long, taped edges, white, secured at a great reduction from the regular prices. While the lot lasts, we will sell them at a full saving of 20 per cent. Per pair ..... 85c, $1.10, $1.15, up to $2.50

CARPETS.

The secret of a pretty room is the carpet or rug which covers the floor. If you buy a new one this spring, why not buy a pretty one from us, either in Axminster, Velvet, Tapestry or Ingrain, dainty design and colourings, honest quality, moderate prices stamped on each piece.

While you are in shopping, we would recommend you to spend a few minutes in the Suit Department, and have a good look at our new Hosiery and Gloves.

THE FAIR STORE—283 George Street

GREY

Is the smart shade this season. One reason is: King Edward favours grey.

NOTES ON THE WAY.

Miss Yenny and Miss MacFarlane Tell of how They Were Entertained in England.

Miss Mabel Yenney and Miss Maud MacFarlane, who left some weeks ago for South Africa, to engage in the profession of teaching, have written several interesting letters to their friends in Peterborough. Miss Yenny, in writing to her sister, before leaving London, says amongst other things;

"The weather was fine when we arrived. Met at Liverpool by a Government official and several ladies of the Girls' Friendly Society, who came on board to meet us, and gave us a luncheon and presented each with a basket of lilies of the valley.

"We then took a special car from Liverpool, labelled, "Engaged, Mr. Canada, and party," to Euston station, where we were again met. On the day following our arrival we were invited by the Princess Louise and the Duke of Argyle to tea at Kensington, where we were shown through the palace and royally entertained. The Duke showed us his private study and the room where Queen Victoria slept when a girl. We were also invited to spend the day at Oxford and several other places of interest. We spent a week and two days in London, leaving for Cape Town last Saturday.

DANGEROUS PRACTICE.

Young Men Continue to Fire off Revolvers Inside the Corporations.

On Saturday evening at about four p.m., a revolver bullet passed through a window in the residence of Mr. William Smith, on Aberdeen avenue, and also went through the mica in the stove. The ball evidently came from Dixon Park, and it is the fourth case of the kind that has happened inside of a year's time. The danger-our practice of boys firing off revolvers within the town limits has often been enlarged upon, and unless such recklessness ceases, some of these daring young carriers of fire-arms will find themselves behind prison bars.

LACE CURTAINS.

Single Pairs of Lace Curtains, some (only some) are a bit soiled. They are to be cleared, —cleared quickly, and in this way. More than one pattern at a price.

WHITE LACE CURTAINS

1.50 Lace Curtains, .98
1.75 Lace Curtains, 1.27
3.75 Lace Curtains, 1.98
4.50 Lace Curtains, 2.19
5.00 Lace Curtains, 2.69

CREAM LACE CURTAINS

2.25 Lace Curtains, 1.48
3.50 Lace Curtains, 1.48
3.75 Lace Curtains, 1.48
3.90 Lace Curtains, 1.48
4.50 Lace Curtains, 1.98

THEN WE HAVE

Lace Curtains in the regular stock lines that will sell themselves on their own merits. Size, pattern, make and price are in their favour. Last week witnessed big selling in this department and this week will be larger.

TRUSTWORTHY DRY GOODS UNIFORMLY RIGHT PRICES.

FRANCHISE OF STREET RAILWAY.

Council and Company Reach Satisfactory Conclusion.

THE WORK WILL GO ON.

Very Few Changes Made in the Original Draft—Other Matters Discussed by the Council.

The Town Council met in monthly session, last evening, with Mayor Denne presiding and the following Alderman present, Messrs. H. Best, J. Corkery, Jos. Batten, Robt. Clinkscale, M. A. Morrison, J. J. Turner, Robt. McGregor, H. Rush, B. Shortly G. M. Roger and Jas. Edgcumbe.

A deputation representing the citizens of the town and the officers of the 57th Regiment appeared to solicit a grant of $500 to entertain the 13th Regiment of Hamilton on the 24th of May. The advantages accruing to the town through holding a demonstration of the nature which would ensue were ably set forth by Mr. Robert Fair, Mr. W. H. Meldrum, Mr. R. M. Dennistoun and Mr. Peter Campbell.

The request was referred to a Committee of the Whole Council.

THE FINANCE COMMITTEE

reported as appended, through Ald. Rush:

1. That the payment of the expenses of the Chairman of this Committee and Mr. Crane to Montreal to deliver the Waterworks debentures to the purchasers, be confirmed.

2. That, after deducting the expenses incurred in measuring stone obtained by the Dixon Company in 1899, the Company be paid the balance of their accounts.

3. That a grant of $50 be made to the Salvation Army Band.

4. That a grant of $450 be made to the 57th Regiment Band on the usual conditions, and also on the condition that the new instruments, as well as the old ones, be the property of the town, and that the Chairman of the Property Committee procure a list of all the Band instruments for insurance purposes.

5. That a grant of $500 be made to the Peterborough and Ashburnham Horticultural Society on condition that the said Society care for Victoria and Central Parks during the season.

6. That the payment of an account for $24.72 of the late G. H. Noble be confirmed.

7. That the Treasurer be authorized to pay electric light and gas accounts for lighting the town building, fire hall, etc., when they are certified by James English.

8. That the following accounts be paid:

R. Neill	$ 2 00
J. D. Craig	19 05
T. Williams	1 50
A. M. Stratton & Co	5 90

R. Hicks & Co (when certified)	2 30
J. B. Maharry	7 20
Davis, Thompson & Co	10 00
J. & W. Metheral (when certified)	17 85
Lewis Spry	23 25
The Kingan Hardware Co	55

All of which is respectfully submitted.

G. M. ROGER,
Chairman.

The report was adopted.

Ald. Batten, chairman of the Property committee, reported, recommending that authority be given the committee to place a new iron roof on the stables of the fire hall, and also be given power to purchase the ice necessary for the drinking fountain

The report was adopted.

THE LEGAL COMMITTEE

through its chairman, Ald Edgcumbe, reported as sub-joined:

1. That the Town Solicitor was instructed to take steps by disclaimer of any interest of the town in Mercer avenue, or otherwise as he might consider advisable, in the suit of Lynch vs. Mercer, in view of the facts reported by him in his letter of April 5th, 1902.

2. The letter from Messrs. Edmison & Dixon on behalf of Mr. W. H. Roberts in regard to obstructions on Bethune street between Murray and McDonel streets, was referred to the Town Solicitor to report, and to protect the town's interests in the meantime.

All of which is respectfully submitted.

JAS. EDGCUMBE,
Chairman.

The report was adopted.

A communication was received from Col. H. C. Rogers, President of the Peterborough Historical Society, asking a grant of $50.00 towards entertaining the members of the Provincial Historical Society which holds its annual meeting here on June 5th and succeeding days. — The request was referred to the Finance Committee.

It was moved by Ald. Morrison and Turner, that the thanks of this Council be given to the Hon. J. Israel Tarte, Minister of Public Works, for the very courteous manner in which he received the deputation in regard to the dredging of the Otonabee River and the business like way in which he discussed the matter with them, and the prompt manner in which he has taken it up.—Carried.

The Council then went into Committee of the Whole to discuss the matter of the Street Railway Franchise.

Mr. Bene, and his attorney, Mr. G. W. Hatton, as well as Town Solicitor, E. H. D. Hall, were present at the meeting. The franchise was discussed at length and a number of minor changes made. It was decided that children would have to pay full fare, if unaccompanied by an adult. Children under six years of age; if accompanied by an adult, are to be charged half fare. This provision only applies outside of the town limits. Inside the town limits children under six years pay half fare if unaccompanied by an adult; if accompanied by an adult there will be no charge. The company will have to see that the snow is not more than 16 inches above the rail, where there is a single track, and not more than 12 inches where there is a double track in the area bounded by Wolfe, Bethune, and McDonel streets, and the river. Unchecked baggage, outside the town, is carried free. If checked the charge is ten cents for the first 100 pounds, and for each additional 50 pounds, 5 cents.

The council reassembled in session.

The Committee of the Whole reported through Ald. Shortly, as follows;

1.—That they have considered the application of the Peterborough Radial Railway Company for the right to build and operate its railway on the streets of the said Town of Peterborough, and recommend that a franchise be granted, upon the terms set out in the annexed draft agreement; and a By-law be prepared for that purpose, after the proper notices have been given and published, and provided the same is approved of by the Railway Committee of the Executive Council for Ontario, in case of an appeal to them by any person claiming to be prejudicially affected, and upon such agreement being properly executed by the Peterborough Radial Railway Company;

2.—And they further recommend that such notices be given and published on deposit of the cost of publication by the said Company.

All of which is respectfully submitted.

B. SHORTLY,
Chairman.

The report was adopted and the council then adjourned.

THAT $500 GRANT.

To the Editor of the Examiner,—

Dear Sir,—I see by the papers that we have a chance of having the 13th Battalion of Hamilton and their fine band here on the 24th of May. It is always pleasant to see the brave soldiers, and it is a pleasure to hear a fine band, for I have heard that it is as fine a band as our own, if not better, and the men probably are as good looking as our own, if not better. And we will have the chance of seeing them march past, keeping fine step, and the band playing the martial airs of England, and sir, on the Sunday will be a grand church parade, and all the people will line the streets and see the soldiers marching, and that Sunday will be a memorable Sunday, because it will not be like other Sundays—the other peaceable, quiet, God-serving days that we all rejoice in. And for this privilege we are asked to pay $500 of our tax money, and to contribute several hundreds of dollars more to hear the concert of the 13th Battalion Band, for it will cost them, they say, $900.00 to come to Peterborough. Now sir, plebescites and referendums are the order of the day, and I would just suggest that the question of whether the Council is to vote $500 of the peoples' money for a restless Sunday and an hour's march-out, be submitted to the people. Take my word for it, sir, if the people are asked to settle this question they will settle it so that the Council will never again consider the question of voting away the money for such a purpose. We have this year an extra mill on the dollar, and we will have the chance of having another extra mill on the dollar next year, if we indulge in such 24th of May exploits. I believe in the volunteers, and I believe in a good band, but, sir, when I am afraid to walk at night on our plank side walks, and I am told that until lumber gets cheaper they will be no better; and when I see such hard work to get $500 for the Horticultural Society, which keeps up our beautiful little parks a source of pleasure all summer long, and when I know the extension of the Street Railway will add 1000 of dollars to the expenditure of the streets, as it did for the original construction of the Street Railway, then I feel like saying to our good men of the Council, "Go Slow." I am satisfied that an uneasy night in the cars coming, and an uneasy night returning, and the irregularity and dissipation that always follows these outings, is not as good for the soldiers as a good honest march-out, under knapsack and great coat, for fifteen or twenty miles, to some place near Hamilton. Such would be better soldiering, better experience, and altogether more healthful than this trip to Peterborough. Therefore my loyalty suffers not in suggesting that the soldiers do as they do in England, march to their outing grounds, have good, honest military exercises, and return in a like manner to their homes. I therefor suggest that I voice the sentiment of the people when I suggest that the Town of Peterborough cannot afford to vote for the proposed entertainment of our good friends from the City of Hamilton.

Yours Truly,
RATEPAYER.

Miss Florence Caroline Hall, soloist of Murray street church, will sing at the George Street Church Choir Concert on Friday night, May 9th.

TUESDAY, MAY 6, 1902.

GROWTH OF MINING INDUSTRY.

Hon. Mr. Harcourt proposes to establish a school of Forestry at Kingston, in connection with Queen's University. He is well satisfied with the work of the School of Agriculture and the School of Mining already in operation, and he discerns a similar field of usefulness for the Forestry department. While the Tories talk about developing the resources of Ontario, the Liberals act. Mr. Harcourt showed that the mining output of the Province in 1896 had been $5,235,000; in 1898, $7,235,000; in 1900, $9,298,000, and in 1901, $11,822,000. In five years it had doubled. He touched upon several individual mining industries, drawing attention to the enormous arsenic deposits, to the rich corundum mines, to the nickel mines which were first worked in 1888, which in 1982 raised 72,000 tons of ore and in 1901 raised 326,000 tons of ore and employed over 2,200 men. Then he noted the wonderful expansion in the iron industry, reminding his hearers that in 1895 no iron ore was raised, no pig-iron was made, no steel was manufactured in the Province, whereas in 1901 272,000 tons of ore were raised, 116,000 tons of pig iron were made, and 14,000 tons of steel were produced; the value of the iron products of the Province had risen in six years from nothing to two and a quarter million dollars.

Those figures are impressive and encouraging. They indicate a good beginning, but they will look small ten years hence, if the electors are sufficiently alive to their own interests to keep the Liberal Government in office. —Hamilton Times.

THE RECORD OF THE LIBERAL GOVERNMENT

In the Matter of Agriculture.

It created a Department of Agriculture, administered in turn by successive practical farmers.

It expended $264,000 on Agriculture in 1901.

It has expended $5,142,226 on Agricultural since 1872.

It has handed over $1,932,725 to 479 Agricultural and Horticultural Societies since 1872.

It has assisted the Fruit Growers', Dairymen's, Horse, Sheep and Swine Breeders' Poultry, Beekeepers' and Entomological Associations, and the Ontario Experimental Union, to the extent of $512,204 during the same period.

It has carried on the most successful Agricultural College in America with an attendance of 509 during the college term, September, 1901, to April, 1902. Seventy per cent. of its graduates, so far as traced, are engaged in agriculture.

The College has carried on an extensive series of field and feeding experiments.

Travelling dairies were sent through the Province for several years.

Three dairy schools have since been established, attended thus far by 1,616 persons.

Fifteen Fruit Experimental Stations are being maintained.

Practical instruction in fruit spraying has been widely given.

Valuable bulletins have been published; twelve different reports are issued annually.

It collects and publishes valuable statistics (Agricultural and municipal..)

131,000 attended 730 meetings, 1900-1, of 98 Farmers' and 52 Women's Institutes.

It provided cheap money for tile drainage by farmers.

It established a Pioneer Farm in Rainy River District, which has been a great success.

It has fostered the dairy industry until the value of cheese produced in 1900 reached $13,000,000, and of creamery butter nearly $2,000,000.

It is assisting in the improvement of Fall Fairs by providing funds for expert judges.

It has assisted in developing a profitable trade with other provinces in pure-bred stock.

It has set apart $225,000 to aid the sugar beet industry.

It started the most successful Farmers' Fair in America—the Live Stock Show at Guelph.

Ontario won a large share of the chief prizes in live stock, horticulture, beekeeping and poultry at the Pan-American Exposition.

No less than forty-five important Acts, affecting agricultural and kindred interests have been placed on the statute books since 1888.

Mr. Whitney and his party have opposed many of the important steps proposed by the Agricultural Department for the improvement of our Ontario agriculture.

And yet the Mail and Empire stated (March 10, 1902); "Mr. Dryden has pottered in the Agricultural Bureau without effect."

AN ATTEMPT TO DECEIVE.

Some good Conservative, perhaps in a missionary spirit, has sent us a copy of the Opposition campaign book which is intended to be the arsenal for orators and editors in the present political campaign. The pamphlet purports to set forth the "Record and Platform of the Conservative Opposition," though we do not see why this should occupy 62 closely-printed pages, when the essence of the party's policy is contained in the headline, "Time for a Change." We were prepared for an exparte presentation of the issues of the campaign, but we hardly looked for so many down-right misstatements. A typical example of these is given on page 17. We quote this paragraph:

"The Government issued for the last election a Handbook for the Electors, showing what it had done and what it had spent. The Royal Commission examined the annual expenditure and made its report. All the figures given by the Royal Commission are higher than those given by the Government. The Government has spent far more than it represented, and had 'cooked the accounts' in order to deceive the people."

Appended to this is a table professing to give the expenditure as reported by the Ross Government, and as reported by the royal commission, from 1873 to 1897. The table is too lengthy to reproduce in full, but a portion of it will illustrate what we mean:

Year.	As reported by Ross Govt.	As reported by Royal Com.
1890.....	$3,367,685	$3,907,428
1891...	3,428,731	4,158,459
1892...	3,411,012	4,068,257
1893...	3,371,748	3,907,145
1894...	2,374,380	3,839,338
1895...	3,476,351	3,758,595
1896...	3,415,274	3,703,379
1897...	3,500,654	3,767,675

Commenting on these figures the pamphleteer says:

"In the history of representative government there has never been such a case of fraud before. The prolonged misrepresentation about the surplus does not approach it for impropriety."

This is certainly a case of fraud, but the guilty party is the one that circulates the statement from which we have just quoted. What are the facts? The figures contained in the Liberal Handbook of 1898 were those of the supply bill only, while those given by the royal commission include, in addition to the supply bill, aid to railways, annuities, municipal loan fund distribution, drainage debentures, new parliament buildings, common school fund and several other accounts. The supply bill is strictly controllable. It is the statement discussed by the House in estimate form yearly, and is known as ordinary account. Of course this explains the apparent discrepancy between the expenditures as reported in the Liberal Handbook and as given by the finance commission. There is absolutely no excuse for the literary bureau of the Opposition spreading broadcast such a clumsy fabrication. The Liberal Handbook distinctly stated that the figures given were those of the ordinary revenue and expenditure under the supply bill.

Mr. Whitney should instruct his organizers to call in their campaign literature and issue a revised edition. —London Advertised.

STOCK MARKETS.

A Suggestion as to St. Paul.

New York, April 5th, 1902.—With North West around 360 with which it makes favourable comparison in almost every particular, but price should be entitled to a very large advance, and will not only be entitled to to it, but will get it. These two stocks used to run together at much closer range, and while a great deal has happened to make North-West a gilt-edged stock, the same thing has happened to St. Paul, or at least in sufficient volume to warrant a large closing gap in price between the two stocks. By comparison with the price of Rock Island, St. Paul always and still is worth more than Rock Island. Hithertofore it has always sold considerably higher in price, and it will do so again. St. Paul holds tangible cash assets, equal to thirty million. St. Paul is comparatively cheap and its directors refused a guarantee of eight per cent. for the Morgan-Hill party. They would not have done so unless they expected to excell such a rate of dividend. Had they accepted the Morgan-Hill offer, they could never have received more than the guarantee eight per cent. As it now stands, the entire present and future earnings belong to the St. Paul stock holders, and not to some other guaranteeing corporation. We cannot but advise buying and holding shares. The Erie C. & O. and N. & W.—do not overlook these issues when casting about for some tangible, good low priced shares to purchase. Shares that are in the line of improvement and bound to appreciate in value upon your hands. They are all doing well, and will do still better and command much higher prices in the market. There is every indication of some movement in the Wabashes, and we advise purchasing them on any little breaks.

HAIGHT & FREESE CO.

New York, May 5th, 1902. — Energy moves the world. It has been said that when three graces were named, one of them have been named Energy. In the bowels of the earth there is stored, for a previous genological period, a bundle of Energy which we call coal. It is one of the greatest bases of wealth that is dug out of the earth. Copper, iron, gold and silver come from underneath the earth, and it takes coal to metamorphesize the same, and whip them into shape. The bulk of minerals would be incapable of utilization, but for the coal. England controls sixty per cent. of the commerce of the world on the high seas, and three-quarters of her tonnage is coal. It has made England Mistress of the sea. Her supremacy is passing away with the exhaustion of her coal products. The sceptre of the modern world has crossed the seas and is locating in our midst. England coal mines are to-day worked down to the tide-water, and are now so expensive to conduct, that the wage to the operator has grown so small, that the miners largely enlisted to engage in the South African war. This fact has given American coal an entrance into London, Hamburg, Bremen and Mediterranean ports, overcoming a prejudice against coal which hitherto out-raised our export efforts. We mine coal to-day like unto American methods, that is to say, upon a scientific, economic basis. We have over fifty thousand square miles of coal, as against 8,000 in combined Europe, upon which the veins average about 60 per cent. greater than exists elsewhere.

The great coal properties of this country are owned by the big coal railroad corporations, and the earth is scraped off the surface. The railroad tracks ae run run along side of the coal beds, and the mineral is shovelled into grondola cars, not unlike snow is shovelled off the streets in New York. The American supply is practically inexhaustible at the present rate of output. The now-existing coal fields will be exhausted in about 600 years. Placing the subject in this way before our readers will cause them to comprehend the value of these great properties, which are worth to-day about ten times what they were twenty years ago, and which will appreciate equally in value in the next ten years. We will in tomorrow's letter deal with the stocks owning these great properties, and have something to say as to their concrete manipulation and their possibilities for the future. Exhausted credit facilities broke the Webb-Meyer bubblestocks, also some firms interested. The collapse and also more threatening aspect in the coal mines affected the stock market. The financial situation will be better in the end. It will have no bearing upon the industrial development of the country. The enormous breaks in ficticious prices of wild cat stocks will not stop a loom or a steamship, or deprive either railways or steamers of a ton of freight. It will not cause the farmer a loss of a bushell of grain, and the merchant will continue work as before. Business outside of the people interested will not be disturbed by the wild cat undoing. Good stocks will rise again.

MUNICIPAL ACTIVITY.

Guelph and Listowel Give Majorities For Bylaws, and Bracebridge Will Loan Money to Industries.

Guelph, May 6.—The sewerage bylaw carried by 374 yesterday.

Listowel, May 6.—The sewerage bylaw yesterday carried by 16.

Bracebridge Carries Bylaws.

Bracebridge, May 6.—Three bylaws were voted on yesterday, to raise $35,000 as loans to the following industries: The Hess Furniture Company, The Jewell Smallware Wooden Factory, and the M. P. McKay foundry and machine shops. All three bylaws carried by a large majority.

By a Majority of 86.

Petrolea, May 6.—A bylaw to purchase additional market ground was voted on yesterday and was carried by a majority of 86. The cost will be $8,000.

Essex, May 6.—The bylaw for granting aid to the new flax mill at Essex was carried by almost a unanimous vote, only four voting against it.

NATURE SMILING.
WHILE THOUSANDS SUFFER.

PAINE'S CELERY COMPOUND

The Great Spring Health Giver Makes Sick People Well.

When spring comes with its gentle showers, its balmy air, its bright sunshine and bursting buds, it too often brings to our homes scenes of suffering and physical decay.

The seeds of disease which were imperceptibly germinating during the winter months, have developed and planted in the system dangers that now demand our instant cure and attention. Neglect and procrastination will only deepen existing evils and lead to death.

Before the advent of spring you must have noted symptoms, perhaps, of rheumatism, neuralgia, dyspepsia, kidney disease, liver complaint, functional irregularities or nervous disorders.

If you have experienced pains in the joints, muscles or limbs, lacerating pains in face or head, stomach derangements, bile, dislike of food, pains in back and loins, swelling of hands or feet, frequent urinating with highly coloured urine, loss of energy, torpid liver, vomiting or impure blood—any of these are warnings of disease.

Take warning sufferers! Delay not another day; hesitation and indecision on your part may forever seal your fate. If you have already made efforts to banish your disease by the use of other medicines and the treatment of physicians, and these have failed, we counsel you to put your full trust in that never-failing disease banisher, Paine's Celery Compound. Its use for a week or two will convince you that you have truly commenced a new existence; it will surely give you the health you need for the enjoyment of true life. Mr. A. Daignault, St. Hyacinthe, Que., writes as follows:

"I desire to say that had it not been for Paine's Celery Compound I would not be living to-day. Five years ago I was taken sick and suffered from dyspepsia and catarrh. For three years I was unable to work, and would lose consciousness several times a day. I was tired of life and could realize that death was my only deliverer from suffering. At that time one of my friends urged me to use Paine's Celery Compound, as all other medicines had failed. After the use of six bottles I am as well as ever before in my life, and can do a full day's work. My friends say my cure is a miracle, as I was surely condemned to die. I thank you for your wonderful life-giving medicine."

J. Israel Tarte For Montreal.

Toronto, May 6.—The big Government dredge, J. Israel Tarte, which was constructed at the Polson ship yards, left last evening for Montreal. She is being towed down by the Government steamer Lord Stanley.

The J. Israel Tarte is one of the largest dredges ever constructed in America. She will be used by the Government in the eastern provinces.

Oulton Was Murdered.

St. John, May 6.—The coroner's jury, inquiring into the death of Isaac Oulton, the aged miser who was found dead last week, brought in a verdict last evening that Oulton was murdered by some person or persons unknown.

MORNING SESSIONS

The House Makes Good Progress With the Estimates.

TWO IMPORTANT RESOLUTIONS

Mr. Fitzpatrick's Coasting Trade and Mr. Fielding's Loan Resolutions Carried—The Yukon Telegraph Line—Mr. Tarte Gives Interesting Figures—Mr. Tarte's Humorous Reference to the Locomobiles.

Ottawa, May 6.—The week started with a rush, and an unusual amount of business was got through yesterday. The House inaugurated morning sessions and made a very fair record.

The following private bills were read a third time:

For the relief of James Brown—Mr. Clarke.

To incorporate the Bishop of Moosonee—Mr. Clarke.

To incorporate the Dyment Securities, Loan and Savings Company—Mr. McCarthy.

For a Divorce Court.

On the opening of the House this morning, Mr. John Charlton, on the motion for the third reading of the James Brown divorce bill, renewed his protest against the manner in which divorces are granted in Canada. If divorces were to be granted at all, they should be granted by a properly constituted court which could properly inquire into them. He ventured to say that not one member of the House in ten had taken the trouble to examine into the case.

Mr. Fitzpatrick's resolution, amending the coasting trade in regard to foreign-built British ships, was carried.

Mr. Fielding's resolution for an additional loan was carried.

Mr. Clarke asked that a clause be inserted in the Fruit Marking Act, that the penalty for incorrect marking be imposed only in case the fruit is offered for sale.

Mr. Fisher approved this. The bill was read a third time.

In committee of supply, Mr Tarte said it would be profitable to erect a new departmental building near the Exchequer Court.

Yukon Telegraph Line.

The House took up the Public Works estimates at the afternoon session. On the item of $132,100 for the Yukon telegraph line Mr. Tarte explained that $55,640 was for back accounts since 1899, and $79,000 on the gap between Hazleton and Telegraph Creek, a most difficult country. Of this sum only $49,000 was spent on actual construction, as it cost $30,000 to send the men in and take them out. It was thought this gap would be 50 miles, but it turned out to be 111 miles. On this section it was found last winter there were 27 feet of snow. It was here interruptions occurred last season. It was proposed next winter to lay a cable on the surface and so avoid interruptions. The total length of the line from Ashcroft, B.C., on the C. P.R., to Dawson and on the international boundary, including branches, was 2,135 miles, and the cost $786,224 or $368.23 per mile. There are 70 officers on the line. The net revenue from July, 1901, to March, 1902, was from $7,000 to $9,000 per month. Next year he expected the net revenue would be $125,000.

Mr. Earle (Victoria, B.C.,) asked if the Government intended to reduce the rates, the impression being that if the rates were more reasonable more business would be done.

Mr. Tarte admitted that the rates were high, but then, he said, the line had cost a deal of money. The present rate of $4.50 for ten words, and 30 cents per additional word, from Ashcroft to Dawson. (The rate from Ottawa to Ashcroft is $1, and 7 cents per word additional.)

Before the item carried, Mr. Tarte promised to reduce the telegraph rates, and give a more moderate charge a trial.

The item of $15,000 for branch postoffices was carried.

Mr. Tarte, in reply to Messrs. Clarke and R. L. Borden, furnished some details of the Toronto postal service, admitted that the locomobiles were a failure and that they would be taken off shortly, and then some small items in connection therewith were passed.

Mr. Kemp: Why does the Minister of Public Works allow the Postmaster-General always to experiment at his expense, just as he is doing in regard to these new branch postoffices?

Mr. Tarte: Well, now, it was just this way, the Minister of Public Works was away, and he appointed the Postmaster-General as acting Minister. Well, the P.M.G. being an economical gentleman, he wanted to get these things without paying for them. So he just unloaded them on me.

Yukon Buildings.

A long discussion occurred on the item of $48,000 for Yukon public buildings, during which Hon. Chas. Fitzpatrick stated it was the intention that the $5,000 living allowance to the Judges in the Yukon would be all the allowance they would receive outside the salary. Mr. R. L. Borden and Dr. Reid objected to a payment for house rent for Judge Dugas at Dawson, and Mr. Fielding pointed out that whatever doubt there might be respecting the policy of paying this amount last year, there was no question that in the future the increased living allowance would cover everything. Mr. Haggart contended that the Auditor-General was to blame for passing the payment without calling attention to it.

Marine Department.

All the items in the Public Works Department having been voted, the supplementary estimates of the Department of Marine and Fisheries were taken up at 11 o'clock. Hon James Sutherland explained that it had been the custom to carry over balances from one year to another, but he proposed to provide in the supplementaries sufficient to avoid doing so in future. In reply to a question by Dr. Reid, he added that his department had taken over the control of the buoys on the St. Lawrence between Kingston and Montreal from the Department of Railways and Canals. He also announced that his department contemplated the establishment of additional fish hatcheries this year, and in all probability one would be placed on Prince Edward Island.

Mr. Bennett protested against the vote of $18,163 to compensate Noble Brothers of Killarney for the seizure of their tugs some years ago for fishing without a license. He spoke of the Nobles as poachers, wrongdoers, and men who above all others were spoiling the fishermen of the lakes by their bad example. He reviewed the history of the case.

Mr. Sutherland described the various commissions that have inquired into the case, and added as one reason for issuing the commission to Judge Lount that there was a strong public opinion that the Nobles had been wronged. One of the brothers had died in poverty, the result of the seizure.

Mr. R. L. Borden asked if the Minister of Justice had considered the report of the commissioner to decide as to the Government's responsibility.

Mr. Fitzpatrick replied that he had not fully gone into the report, but that he noticed that the commissioner stated that the whole seizure was the result of a conspiracy by Inspector Elliott in accordance with his threat, that Elliott had acted in bad faith and malice, and had wilfully made false and misleading reports. The whole transaction was one which would certainly justify inquiry.

The item passed, and the House adjourned at 12.20.

LOADED UP WITH IMPURITIES.

IN THE SPRING THE SYSTEM IS LOADED UP WITH IMPURITIES.

After the hard work of the winter, the eating of rich and heavy foods, the system becomes clogged up with waste and poisonous matter, and the blood becomes thick and sluggish.

This causes Loss of Appetite, Biliousness, Lack of Energy and that tired, weary, listless feeling so prevalent in the spring.

The cleansing, blood-purifying action of

BURDOCK BLOOD BITTERS.

eliminates all the pent-up poison from the system, starts the sluggish liver working, acts on the Kidneys and Bowels, and renders it, without exception,

The Best Spring Medicine.

REUBEN DRAPER.

Few Men Have had Such a Thrilling Experience.

A Quebec Gentleman who Relates an Interesting Story of a Narrow Escape—Happy Deliverance Just in the Nick of Time.

Bristol, Que., May 4. (Special)—There are not many men or women alive to-day who have passed through such a terrible trial as Mr. R. Draper of this place. Mr. Draper says:—

"About four years ago I was taken ill with what I thought was Gravel.

"I was suffering great pain so I sent for the doctor, he gave me some medicine and said he would call again.

"He came twice more and charged me fifteen dollars. I was a little better but not at all well, and in a short time after I took another bad spell.

"This time I sent for another doctor, with about the same results, only I was getting weaker all the time.

"Then a man advised me to try Dodd's Kidney Pills, for he said they had cured his mother.

"I thought I would try them and I got a box and commenced to take them right away.

"In just one week after I had taken the first dose, I passed a stone as large as a bean, and in four days after I passed another about the size of a grain of barley.

"This gave me great relief and I commenced to feel better at once.

"The improvement continued and I gained strength very rapidly until in a short time I was as well as ever.

"This is over four years ago, and I have not had the slightest return of the trouble since, so that I know now that my cure was an absolute and permanent one."

Canadian Cattle Barred.

London, May 6.—In answering a question in the House of Commons yesterday, suggesting the desirability of augmenting the food supply, in view of the present prospective short supplies of beef, the president of the Board of Agriculture, R. W. Hanbury, said that the Government could not remove the restrictions placed on the importation of Canadian store cattle; but, possibly, Argentine beasts might be admitted on the same conditions as cattle from the United States.

Mr. Hanbury added that he was awaiting information on the subject.

Not Entirely.

A little investigation shows that the strong taste of pure cod liver oil cannot be entirely removed without entirely removing the oil. You can taste the oil in Scott's Emulsion, but it is not unpleasant.

GREAT SALMON TRUST.

An Attempt to Be Made on the Pacific Coast to Monopolize the Entire World's Output.

Vancouver, B. C., May 6.—It is stated in usually reliable circles that an attempt is being made in this province and across the border by the packers to monopolize the world's salmon supply.

It is stated that the president of the Alaska packers' combine is here.

It is considered a possible proposition that if the packers united the world's supply of salmon will be cornered and prices raised to suit the manipulators.

$2,000 For 24 Hours' Work.

Vancouver, B. C., May 6.—News was received in the city yesterday that means great things for Lightning Creek, Cariboo. It comes from a reliable source that one lone man panned out $2,000 in practically pure gold in 24 hours. The news has set the city wild, and many parties are preparing to go out to the rich location.

HOW THEY WERE SURROUNDED.

How the Canadians Fought and Refused to Surrender.

Ottawa, May 6.—Lieut. Graham of the Canadian Mounted Rifles, in writing to friends on the fight at Klerksdorp, says: "We went out for Gen Delarey, and we certainly found him, for, before we knew where we were he had us surrounded, and was pumping lead and iron into us from all sides, with four large guns and three pom-poms and a force of three thousand Boers. We managed, however, to fight him off, and positively refused to surrender. Our regiment lost three officers and sixty-three men, while all the rest lost in proportion. We killed 350 Boers and wounded many others. My friend Ryan was wounded, it being the third time in this campaign."

Lived Till Near Morning.

Port Hope, May 6.—Mr. Evans received a short hurriedly-written note from Will yesterday morning, telling of the Hart's River fight. Charlie lived till near morning, though Will did not see him, but was present next day, when Col. Evans read the service over the eight Canadians who had won victory by death. Will is in good health. Charlie was the Canadian who broke his rifle before he fell dead from the bullets of the Boers.

A LUXURY FOR DYSPEPTICS.

Malt Breakfast Food

A Banisher of Indigestion.

Malt Breakfast Food possesses special and very important advantages over all other grain foods. While it has been the chosen breakfast food of hale and strong people, keeping digestion perfect and the brain clear, it has become the popular food with the thousands who suffer from dyspepsia and indigestion. Dyspeptic subjects find Malt Breakfast Food an infallible cure for their stomach troubles. Weak stomachs relish the popular health food; it is easily digested; soothes the weary and inflamed organs, and furnishes true nourishment for the building of flesh, bone and muscle. Malt Breakfast Food is a true banisher of all digestive troubles. Dyspeptics are urged to give Malt Breakfast Food a month's trial; it will give them happy and lasting results. All Grocers sell Malt Breakfast Food.

Will Lose His Eye.

Niagara Falls, May 6.—Harry Smith, while splitting wood, struck a fog signal with his ax. The signal exploded. Smith will lose an eye.

Killed at Point St. Charles.

Montreal, May 6.—Franch Boucher, an employe of the Grand Trunk, was run over and killed by a locomotive last evening at Point St. Charles.

A Food for Brain and Muscle.

Whether it is brain fag, loss of memory, inability to concentrate the mind or bodily weakness and general debility Dr. Chase's Nerve Food will restore your old time energy, strength and health. Through the blood and nervous system, it reaches every part of the body and overcomes weakness, irregularities and disease.

MONDAY NEXT.

Mr. Miller at Baillieboro.

A meeting in the interests of Major Miller, the Conservative candidate in West Peterborough, was held in the Foresters' Hall, Baillieboro, last night. There was a fair attendance, and the chair was occupied by Mr. W. J. Lucas. The speakers were Messrs. W. J. Miller, the candidate, J. H. Burnham and C. H. Bradburn.

TO-NIGHT'S MARCH-OUT.

Should the weather prove favourable this evening the first march out of the season of the 57th Regiment, will be held. Both bands will be in attendance and a full representation of all ranks is requested.

THE LATE MR. HENRY DENNE.

Death of one of the Town's Oldest and Most Honoured Citizens.

Although Mr. Henry Denne has been in very precarious health since stricken with apoplexy a year ago last January, yet his death, this morning, nevertheless, comes as no less severe a shock to the community. Kindly and genial in temperament he possessed a multitude of warm personal friends and admirers, while his shrewdness and business foresight procured for him the honour of a seat at the Peterborough Council Board for many, many years, as well as his selection as a member of the Board of Education. He had also been accorded the honour of the Presidency of the Board of Health some years ago and on several different occasions was unanimously elected President of the Little Lake Cemetery Company. For some years prior to his last illness the deceased occupied the position of tax collector for the municipality.

The late Henry Denne was born in the County of Kent, England, in 1831. In 1852, when he came of age he was given the sum of $1,000 by his father and came out to Canada locating in Newfoundland. Shortly afterwards he removed to Peterborough and rented a mill here which was the property of the late John Langton, Auditor-General, situated on the Otonabee River, north of the town. He named it the Blythe Mill and for several years operated it in partnership with Mr. Louis Glover, who now resides in Allandale. They were largely interested in wheat buying. In 1877 Mr. Denne bought the flour mill owned by Mr. Anson Sperry, erected on the sight of Adam Scott's old mill, which was the first building erected in Peterborough, in the operating of which in connection with other business ventures he acquired a competency sufficient to enable him to retire from active business, while still in the prime of life.

Mr. Denne was twice married. Both his first and second wives, the latter being still living, were daughters of the late Mr. Gerald Fitzgerald, of Smith. The children by his first marriage were Miss Hattie and Mr. T. H. G. Denne, the present Mayor of Peterborough. The issue of the second marriage were Miss Emma Denne, Mrs. A. St. A. Smith, of town; Mrs. W. H. Graham, of Kingston; Miss Gertie, Miss Eva, Mr. Roland, Miss Maggie, Miss May and Miss Helen.

The deceased was a member of the Church of England, and a most regular attendant at St. Lukes. The funeral will take place from the family residence, George street, at three o'clock Thursday afternoon and proceed to the Little Lake Cemertery.

By order of Ald. G. M. Roger, Acting Mayor, the town flag is flying at half mast as a tribute of respect to the deceased.

NEWS NUGGETS.

—The George street choir will practice on Wednesday night at nine o'clock. Every member is requested to be present.

—Court Queen, No. 276, I.O.F., will hold a concert on Thursday evening, May 8th. Refreshments will be served. As well as the concert there will be other amusements. Ladies, 15c.; gentlemen, 25c. 3d105

—Fifty girls invite you to spend this evening with them in the Charlotte street Sunday school room. There will be songs, recitations, dialogues, tableaux, and a bazaar. Admission, ten cents. 1d

—The decorations used at Mrs. Morrow's concert in the opera house last evening were kindly loaned by Richard Hall & Son, and J. J. Turner & Sons, the palms were furnished by Mr. Arthur Blade, and the pianos were from Heintzman.

MRS. W. J. MORROW'S MUSICAL TRIUMPH.

Her Vocal and Instrumental Recital

WAS A SPLENDID SUCCESS.

A Large Audience Listens to a Delightful Musical Entertainment.

It is often made a reproach that Peterborough is not musical—that its tastes are not of a high order—that coon songs and rag-time music are preferred to classic concertos. That this charge is not just is shown by the large and appreciative audience that assembled in the opera house last night to listen to the excellent, well chosen and well balanced programme of music presented, all of a high order, though it varied from the simplest to the most complex musical combinations. And if such a charge were true, it can be said that in the versatile musical ability and enterprise and enthusiasm of Mrs. Morrow is found a corrective, and an important element in elevating the popular standard of taste and proficiency in music.

The vocal and instrumental recital given by Mrs. Morrow last night in the opera house has been looked forward to with great interest and the popular anticipation of pleasure from it was not disappointed. Mrs. Morrow herself has abundant rason to be gratified by the brilliant success of an effort of which none but those who have had similar experience know the amount of anxiety and labour it involves. The programme, contributed largely by pupils of Mrs. Morrow in voice and piano, could not be expected to represent the work of finished artists, but it did represent, and with great success, the versatile character of her musical attainments, for she embraces the rare qualities of being at the same time a skillful and artistic executant in the realm of vocal and pianoforte music and a capable instructor in both branches, as shown by the creditable work of her pupils.

The stage settings, with their artistic disposition of flags, flowers, etc., were a pretty arena for the musical menu provided.

The entertainment began with a choral number, "O Divine Redeemer," presented by the massed pupils, in a very creditable manner. Miss M. Rush followed, with a vocal number, by Bischoff, "Good Night, Sweet Dreams," which was sung in a manner to show at once both the qualities of voice she possessed, and the excellent training she had received. Miss Emeline Miller, of Keene, a pupil of Tripp, Toronto, gave a dual number on the pianoforte—"If I were a Bird" Henselt, and a Schuman composition. The contrasting character of these selections was brought out in a very effective manner. Miss Miller has a decidedly artistic musical temperament, and she shows splendid techniqu and method, in giving it effective expression. She scored a distinct triumph last night, and we shall, without doubt, hear much from her in the future. Mr. J. Legg sang in fine style, Pinsuti's "Queen of the Earth," and got a well-deserved recall. Miss Mabel Routley's vocal solo, "Happy Days," furnished a fine vocal blending with the accompanying flute obligato. Van de Water's "Night of Nights," received a charming interpretation and execution from Mrs. C. B. McAllister, who, for an encore, gave in similar good style and taste, a popular Scotch song, "Where is My Highland Laddie Gone?" Mr. Gilbert Markle, of Toronto, a promising young violinist, performed in a musicianly way, a bolero and a sonate by Greig. The vocal duet, "O Salutaris," by Bailey, sung by Miss Rush and Rev. W. L. Armitage, was capitally given, and the same may be said of the vocal duet by Miss Miller and Miss Routley. The next number awoke a thrill of expectancy, which was not disappointed, by Mrs. Morrow's splendid and brilliant performance of a Chopin Polonaise and valse. The bristling technical difficulties were overcome with an ease which lent an artistic finish to the dashing beauty of the compositions of this master of the florid art. Mrs. Morrow's beautiful work on the piano, keyed up the audience to a hearty and enthusiastic appreciation of the splendid vocal work of her promising pupil, Miss Florence Miller, who, only some four months under Mrs. Morrow's instruction, gave a delightful surprise by the execution of a rather exacting double number, "A May Morning,"—Denza, and "I Dreamed of a Lover," Weir. Her voice is of fine quality and her method gives evidence of excellent culture. Rev. W. L. Armitage contributed with excellent effect, a baritone solo, followed by a duet by Miss Miller and Mr. Legg. Mrs. Morrow gave great pleasure by her excellent singing of a sweet double number, Del Regio's "Dry Those Tears," and "A Song of Thanksgiving" by Allitsen. A pleasing pupil's chorus brought a most successful recital, in both a musical and social sense, to a close.

Mrs. Morrow is to be very highly congratulated upon the success achieved in her recital, and for the evidence it gives of her important share in developing a higher musical taste, and musical skill as well, in Peterborough. Mrs. Morrow and Miss E. Miller furnished the several accompaniments. A Heintzman Baby Grand was used on the occasion.

It may be added that in recognition of Mrs. Morrow's painstaking services and general kindness, the members of the chorus presented her with a magnificent bouquet of roses.

PERSONALS.

Mr. Edward Wade has returned to town after an absence of several months.

Miss Winnie Macfarlane left to-day for Toronto, where she will visit with her sister, Mrs. W. D. Wilgar.

Mr. D. Hughes-Charles, Manager of the local branch of the Bank of Commerce, is in Montreal for a week.

Mr. Cole Barrett has sent in his resignation to the Board of Managers as janitor of St. Andrew's church. He has held the office for 28 years.

MR. STRATTON'S FIRST MEETING.

A Rousing Rally in North Monaghan Last Night.

THE HALL WAS CROWDED.

Speeches by Mr. Roger and Mr. Stratton--Public Questions Exhaustively Presented--The Issues of the Campaign More Clear --Enthusiastic Reception of the Candidate and His Address.

The most successful and enthusiastic political meeting ever held in North Monaghan, correctly describes the first rural meeting held in Mr. Stratton's interests, last night, at the Town Hall, North Monaghan. The hall was filled to its utmost capacity, and the tone of the uweting spoke highly of the popularity of the candidate and his record, and of the Government, and its record and policy. There were several ladies present, who seemed to listen with intelligent interest to the facts presented.

The chair was occupied by Mr. T. M. Hunter, who referred in very kindly and appreciative terms to Hon. Mr. Stratton. He had given this riding such excellent service, had looked so fully and carefully after every interest, that it was a distinct benefit to the riding, both town and county, as well as an honour to be represented by so energetic and public-spirited a public man. (Applause.)

Mr. G. M. Roger

was the first speaker. In the course of a brief address he said that there were two questions that confronted the people in a general election campaign. These were the personal question, and the broader one of the character of the Government and administration, the two candidates now before the people would support and represent. While these two two gentlemen were on a par as regarded the general personal qualities of citizenship, there was no comparison in the matter of the ability and experience necessary to give effective service. Nor was there any comparison in the matter of the Government and Government policy they respectively represented. Mr. Stratton had a splendid record of service, both to the local interests of the town and county, and the province at large, while the Government he represented had a record unsurpassed in any country, and a policy that was just suited to the progressive spirit of this progressive province,. What, Mr. Roger asked what would the riding gain if the Government was defeated? Nothing, but it would stand to lose much in being deprived of a representative, who, as a member of the Government, as he is now, is able to do more than any private member. What was the object of opposing Mr. Stratton? The speaker had an answer from an Opposition worker. It was not from any hope of defeating him, but to reduce his majority. What would be the benefit of that to the county? The greater the majority the larger the influence of a representative. It was a great

Benefit to West Peterborough

to have a friend at court—to be represented by a Cabinet Minister. This had been shown in a score of ways. Mr. Stratton had, as a private member, done much for West Peterborough, but as a Minister he had greater power and greater influence, and it seemed, to the speaker, to be folly after Mr. Stratton had served the riding so long and so well to attempt to dispense with his services at the very time he was in a position to do the most for his constituents. The claims of the Opposition to public confidence were based chiefly on the cry that a Government should not be in power for thirty years. This cry was a reflection upon the common sense of the electors who had kept the Government in power. It must have been a good Government or the brilliant Opposition could have shown the people before this that the Government was not up to the mark. It was a poor compliment to the electors to insinuate that they did not know what they wanted in the matter of a Government. Mr. Roger referred to the disputes of jurisdiction arising out of the working of a new constitution. Eight of these disputes had arisen and every one of them had been decided in favour of the Province by the Liberal Government that had charge of the interests of the Province. Among these was the boundary question, whose decision in our favour saved to the Province 100,000 square miles of timber. Who was best entitled to develop this — the Government which had saved it, or the Opposition which had sympathized with the Conservative Government at Ottawa in their attempt to deprive Ontario of this territory? It was claimed that it was time for a change. What folly such a cry was. The Government had so ruled the country that it had gone ahead. Where was the evidence of the value of such a cry. The country was prosperous. The exodus of our citizens to the United States had been stopped and now settlers from that country were pouring in to the Northwest and New Ontario. The day of Canada had come. The establishment of the Cereal Works in Peterborough, which Mr. Stratton had been one of the chief instruments in bringing here, was proof that American capitalists had greater faith in the future of Ontario than perhaps we had ourselves. (Applause.) The same applied to the "Soo" and other places. Canada's day had come and we needed experienced men—men of progress to administer our affairs, so that the course of the foreign capitalists would be justified. They would not invest their money here if they did not have faith in the Government, and our people should have, and show as much faith, in our Government and Province as foreigners had. (Applause.)

Mr. Stratton,

who was introduced by the chairman as the strongest man in the Government, who had done great things for this county, was received with enthusiastic applause. He began his address by saying that at the end of a Parliament, a Government appealing to the people should give reasons why they should have the people's support. He next pointed out the importance of legislation the Government of this province were called upon to supervise. He pointed out the great extent of the province and the wealth of its resources, circumstances which placed a great responsibility upon the Government. The record of the Government was before the people, and the question was, what had the Government done that was wrong, or what had it left undone? What better financial administration could be given? The Government doesn't impose any taxes—the people of Ontario paid less taxes for municipal purposes than any other country, because it was the policy of the Government to return the people's money to them in a way to lessen the local taxes they would be called upon to pay. The Government gave back half of the provincial revenue to the people. What better municipal system and laws could we have? The people had the most complete local self-government, and the best code of laws. What better educational system and advantages could be given? What reforms did the people — not the politicians — demand? Last session the Government consolidated the Public and High School Acts, and the Opposition did not move for a single reform. Complaint was made of our school books. This would be justified if the Opposition could produce a cheaper or better set of books. They couldn't do so. The school books of Ontario had been adopted by the other provinces. If they were not good the other provinces would not want them. What better development policy could be devised? Surely not that of the Opposition, which was opposed to developing our new country. Mr. Miller had charged that the colonization roads money in the back country had been corruptly spent. Mr. Robert Shaw had spent this money in Harvey. If it had been corruptly spent, would he be returned as district councillor year after year? The same applied to Ennismore and North Smith. It was the policy of the Government to build dams, slides, piers, etc., to aid the timber industry and assist settlers and conserve the water. Four years ago they had built two such dams to raise water and help get logs to market, and at the present time dams are being built in Harvey for similar purposes. These dams were in the public interest, and the cry against them was for purely party purposes. The dam at Stony Creek had been built two years ago. Why had we heard nothing of the matter till on the eve of an election. The Government had built about fifty such dams, and they would build more, because they were in the public interest. Since he (Mr. Stratton) had been in the House, there had been dams enough built to conserve the water and keep up an even flow for the use of water powers on the river which a few years ago could not be run for lack of water. There was an insinuation — for no charge could be made — that he had profitted from the grant to the Stony Creek dam. The whole matter had been threshed out, with all the witnesses available, before the Public Accounts Committee, and Col. Matheson said

There was Nothing in it.

There was nothing in the reckless charge made. (Applause.) The development policy of the Government was to give advantages to the people, to give employment to both capital and labour, and distribute benefits as widely as possible. Four years ago Mr. Stratton said he appealed to the electors as a private individual, now he was appealing to them as a member of the Government which had a big sense of its responsibility. He went on to point out that a Commission had audited the books of the Province and their report showed the excellent nature of our financial position—if we paid all our railway obligations we should have a clear surplus of two and a half millions. There was not a nation on earth that showed a financial standing like Ontario. (Applause.) Mr. Miller had asked where was our pine timber. It was in the form of public buildings or returned to the public in services that lessened their local taxation. There were was 6,000 persons sleeping that night in our public institutions, built out of the proceeds of our pine timber. The public buildings of the other provinces had been built either with borrowed money or by the Dominion. Ontario's were built out of current revenue, without borrowing. Was a Province that had a surplus of two and a half millions in a bad shape? This had been done by good management continuously maintained. agement continuously maintained, and yet they said it was time for a change. In North Monaghan the late Mr. Collins had sat in the council for years, had represented them for many years. So had Mr. Sanderson in Smith, and Mr. Anderson in Otonabee. The affairs of these townships, under such continuous management, were better conducted than they would be with frequent changes. Mr. Stratton went on to point out that the return of the money to the people had so lessened local taxation that now the farmers of Ontario were the most lightly taxed people on the continent. (Cheers.) The rate of taxation in Ontario was one-third less than in the States of the Union, where a direct tax was laid on for services done by the Government in this Province. (Applause.) Mr. Stratton then went on to point out what the railway policy of the Government had done and was doing to open up New Ontario. The public interests had been protected in every way and trade with old Ontario was immensely stimulated and built up. These new railways were to be built by Canadian workmen with Canadian materials as far as possible. They would open up settlement and give homes to thousands so that Ontario would have an increase of population that would counterbalance the voting power of the Northwest, so rapidly filling up, and keep this Province in the foremost position she holds now. (Applause.) Reference was made to the pulp concessions and to the mad charge that our pulp lands were being given away. Not a foot of land was given away only the right to cut at a given rate (40 cents) per cord. There were seven pulp companies that were bound to spend about five millions of dollars in buildings and equipment, and their supplies must all come from old Ontario. As a sample of the direct benefit to trade and labour, about half a million of machinery had been purchased by one concern—that at the "Soo"—from two local manufacturing establishments. The motto of the Government was to

Build up Ontario

by building up our manufactories, creating trade and giving employment. (Applause.) Touching the prohibition question Mr. Stratton inquired if the Government should have passed a partial prohibition act without submitting it to the people? It was not total prohibition, it did not prohibit manufacture or importation. The Government had no power to do that, and upon such a partial prohibition act the people had a right to vote and the Government had given them the chance to have this measure of prohibition if they wanted it. There were 650,000 votes in Ontario and if 3 out of 8 of these voted prohibition it became law. Had not the Government taken the reasonable course? If the act was adopted it would not be a Grit act nor a Tory act but it would be placed above all party politics and public opinion would be undivided upon its enforcement. (Applause.) Mr. Stratton then referred to his more personal relations to West Peterborough for the past 16 years he had had the honour of representing it. He had tried to do justice by every part of the riding and every class of his constituents. There was not a Conservative, there was not the humblest elector in West Peterborough that could say that he had not listened to the case they had to present. (Applause.) He had nothing to say against Mr. Miller; he had a right to give him opposition, but he had no right to say things that were not in accordance with the facts, and misinterpret the facts, and his (Mr. Stratton's) motives in trying to advance the interests of the people of West Peterborough. Mr. Stratton went on to instance several cases where, against the bitterest opposition, apparently dictated by party feeling, his endeavours to procure substantial advantages to Peterborough, had been met with success. The course he pursued of trying to build up and help West Peterborough town and county, in which he had dealt fairly with all, irrespective of party name, would be continued. The only pledge he would make was that no act of his would ever disgrace Peterborough. (Applause.). Mr. Stratton thanked that section of North Monaghan for the splendid meeting he had had the pleasure of addressing. He regarded it as a most encouraging forecast of the reception he would receive at his other meetings, and of the hearty support he would receive. He resumed his seat amid most enthusiastic applause.

A vote of thanks was then tendered the chairman for his services, in acknowledgment of which he said he had had the pleasure of listening to the best and most practical address he had ever heard. The speech showed that the Ross Government was a business Government, doing the public business in the people's interests. We often heard Opposition speeches abounding in abuse. Mr. Stratton always spoke on public questions. He thought the interests of West Peterborough would be best served by the election of Mr. Stratton. He had always worked for the riding, and made no distinctions between political friend and political opponent, and the people would, he believed, give him again their hearty support. (Applause.)

The meeting—a most successful one in every way—closed with cheers for the King, Mr. Stratton and the Ross Government.

Superior Grey Lime.

"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

TAMS FOR THE CHILDREN

English Sailor Hats as low as **10c** each.

This store wins your friendship because it deserves to have it—because it brings to you the newest creations and the best values going.

MISS DELANEY.

A VERY SAD DEATH.

The Young Wife of Mr. P. J. Leonard Passed Away Yesterday.

A death attended by circumstances of a peculiarly sad nature occurred in Ennismore yesterday, when there passed away Mary Frances Cadigan, the young wife of Mr. P. J. Leonard, son of Mr. Martin Leonard. Mrs. Leonard was only twenty years of age, and was beloved by the entire community. The sympathy of all will be extended to her sorrow-stricken husband and relatives. The deceased was the daughter of Mr. Michael Cadigan.

The funeral will take place on Wednesday morning at nine o'clock from the family residence, lot 9, con. 7, interment taking place in the Ennismore cemetery.

Miss Nellie Davis, soloist at St. Andrew's church, will sing at the George Street Church Choir Concert on Friday night, May 9th.

Mrs. Darnley

(Late of Stitt's, Toronto,)

Another purchase of Ladies' Straw and Ready-to-Wear Hats— new summer models.

ROSS IS REMEMBERED

The Town of Sarnia Takes Pride in His Early Years There.

'TIS HOT IN WEST LAMBTON

Liberals Sparing No Effort to Re-Elect Their Recent Member in the Legislature—Hon. G. W. Ross' Great Work Monday—2,000 Persons Hear One of His Rousing Campaign Deliverances.

Sarnia, May 6.—It has remained for Sarnia and the Liberals of West Lambton to score the highest in the demonstration to Premier Ross in his Ontario tour. There is a very heated campaign in this riding, and the enthusiasm displayed yesterday shows that the Liberals are thoroughly roused, and will spare no effort necessary to re-elect Mr. Fred F. Pardee, the riding's popular and capable representative for the last four years. The Town of Sarnia wore a holiday attire yesterday; flags and streamers were flying, brass bands were abroad, and the streets were thronged with men and women, many of whom wore a red ribbon, signifying their sympathy with the Liberal Government. Special trains from the east and south brought hundreds to the town, and farmers' rigs lined the streets adjacent to the hotel sheds. Fully two thousand persons heard the Premier last night in one of his rousing campaign deliverances, and as they left the hall they remembered with pleasure that Lambton had years ago numbered the Premier amongst its people during the time he acted as inspector of public schools for the country. Sarnia has a particular interest in the Liberal Government, for much of its present prosperity, as was pointed out at the meeting, is due to the establishment here of two large sawmills, employing 400 or 500 men, as a result of the sawlog policy adopted by the Government. This fact and the gratitude of the townspeople therefor, were evident yesterday, and no more satisfactory meeting could be desired by any political speaker. The visit of the Premier aroused great interest with the two local companies of the Boys' Brigade, who paraded and were inspected by Mr. Ross as President of the organization.

The Opposition Orators.

North Bay, May 6.—The touring Opposition leaders arrived here Sunday night, and were joined by F. D. Monk, M.P., the whole party last evening attended a meeting in the Town Hall in the interests of George Smith of Mattawa, the candidate for East Nipissing.

DR. BORDEN AT BROCKVILLE.

New Drill Hall Was Formally Opened Monday Night.

Brockville, May 6.—The formal opening of the new drill hall was celebrated royally last night. Great preparations were made for a grand military fair. The fine building was tastefully decorated, and the numerous booths presented a very attractive appearance. Hon. Dr. Borden, Minister of Militia, kindly consented to assist in the celebration. Besides Mrs. Borden and Miss Borden, he was accompanied by Lady Laurier and Miss Melvin Jones. Col. Montizambert and other military dignitaries were also present. Addresses suitable to the occasion were delivered by Hon. Dr. Borden, Col. Montizambert, Lieut.-Col. Cole, W. H. Comstock, ex-M.P., Senator Fulford, John Culbert, M.P., George P. Graham, M.P.P., Lieut.-Col. Jackson, Dr. Moore, Mayor Harrison and Mr. D. S. Booth. There was a very large crowd present, and the affair was a pronounced success. The fair will be continued till Friday night.

True Economy in Well Regulated Homes.

In well regulated homes in city and country there are many avenues open for the practice of economy, but none so simple and satisfactory as the use of the Diamond Dyes in renewing for wear old and faded dresses, skirts, blouses, capes, jackets, ribbons, shawls, yarns and feathers. The husband's or boy's suit now off colour and apparently worthless can be dyed a rich and fast black, navy blue or dark seal brown, practically making new and stylish garments.

The Diamond Dyes are the easiest to use; a child can dye successfully with them. No failures or disappointments when the very simple directions are followed.

Thousands of ladies are now making up pretty Mats and Rugs from the Diamond Dye Mat and Rug Patterns. These patterns are favourites all over Canada. Sheets of designs showing the various sizes made may be obtained from The Wells & Richardson Co., Limited, 200 Mountain street, P.Q. Send your address.

CHEESE MARKETS.

Cornwall—178 colored and 78 white cheese were offered, and all sold at 11c.

Canton, N.Y.—One hundred and thirty boxes large and 210 boxes twin cheese sold for 11c.

Watertown, N.Y.—1532 boxes of cheese were sold, of which 1104 were small sizes. Large sold at 11c and small at 11c to 11¼c; bulk at 11c.

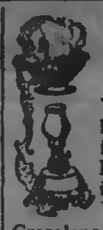
Belleville—75 boxes sold at 10 15-16c.

Mackenzie and Mann Win.

Ottawa, May 6.—Mackenzie & Mann have been awarded $327,678, along with $830 costs, for loss in connection with the Stikeen River and Teslin Railway.

Chronic Catarrh Cured.

In Merrill's System Tonic one finds a pleasant-to-take but powerful blood purifier. It is this feature that makes it a never failing cure for Chronic Catarrh and Chronic Rheumatism. Money spent in snuff is only wasted. Remove the cause—Take Merrill's System Tonic. Price 50c. for 50 doses, at Ormond and Walsh's drug store.



Saves Others.

When one of the children has diphtheria, scarlet fever, or measles, why not keep the others from having it? You can do so with our Vapo-Cresolene. Put some Cresolene in the vaporizer, light the lamp beneath, and have them breathe in the vapor. This vapor destroys all the germs of disease. The contagion can't spread—you save others. It is the only known specific for whooping-cough. Ask your doctor about Vapo-Cresolene. 26

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

MARKET REPORTS.

Grain Markets Are Easier—Some Decrease in Visible Supply For the Week—The Latest Quotations.

MONTREAL LIVE STOCK.

Montreal, May 5.—There were about 750 head of butchers' cattle, 500 calves and 150 sheep and lambs offered for sale at the East End Abattoir to-day. The butchers were out strong and trade was good at somewhat lower prices all round. Prime beeves sold at from 6c to 6¼c per lb. Medium stock at from 4¾c to 5¾c, and the common stock at from 3¾c to 4¼c per lb. Five very choice steers were sold here on Saturday at 7c per lb. Calves sold at from $1.50 to $7 each. Old sheep sold at from 3¼c to 3¾c. The yearlings at from 4¼c to 4¾c per lb. Spring lambs sold at from $2.50 to $4.75 each. Fat hogs sold at from 6¼c to 7c per lb., weighed off the cars.

NEW YORK LIVE STOCK.

New York, May 5.—Receipts 3516; steers, active, 10c to 20c higher; bulls and cows firm to 10c higher; steers, $5.40 to $7; oxen, $5.75; bulls, $3.65 to $5.70; cows, $2.60 to $4.60. Exports to-morrow, 850 cattle, 1620 sheep and 3320 quarters of beef. Calves, receipts, 7465; opened steady to good, lower in others; closed 25c off all round; veals, $4 to $6.90; tops, $6.62½ to $6.65; buttermilks, $3.50 to $4; city dressed veals, veals at 7½c to 10c per lb.

Sheep and Lambs—Receipts, 13,400 head; sheep, steady; good clipped lambs, 10c to 20c higher; woolled stock, unchanged; clipped sheep, $3.50 to $5.75; unshorn, do., $4.35 to $6; clipped lambs, $5.12½ to $7; unshorn, do., $6.25 to $7.60; clipped culls, $4 to $5; spring lambs, $4 to $5 per head; extra, $6.

Hogs—Receipts, 6760; market steady for state hogs; western pigs easier; state hogs, $7.15 to $7.25; western hogs, $6.50 to $6.75.

CHICAGO LIVE STOCK.

Chicago, May 5.—Cattle—Receipts, 10,500 exports, 10c higher; others, steady; good to prime steers, $6.75 to $7.20; poor to medium, $4.80 to $6.40; stockers and feeders $3.50 to $5.25; cows, $1.40 to $5.50; heifers $2 to $6; canners, $1.40 to $2.40; bulls, $2.25 to $5.75; calves, $1.90 to $6; Texas fed steers, $5.25 to $6.25; western fed steers $4.80 to $5.75.

Hogs—Receipts to-day, 30,000; to-morrow 17,000; left over, 2500; strong; mixed and butchers, $6.80 to $7.25; good to choice heavy, $7.15 to $7.32½; rough heavy, $6.90 to $7.10; light, $6.65 to $7; bulk of sales $6.90 to $7.15.

THREE BROKERS SUSPEND.

Liabilities of Millions—Wall Street Seriously Affected by Failures.

New York, May 6.—Three Stock Exchange firms—Offenbach & Moore, Henry Bros. & Co., and Lockwood, Hurd & Co.—announced their suspension, in the order named, at the opening of the market yesterday. The amount of their joint liabilities is variously estimated at from $2,000,000 to $5,000,000; that of their assets is unknown. In the opinion of good judges, a goodly portion are of doubtful value. Two of the insolvent firms announced that they hoped to settle in full and resume. No very definite statements was forthcoming from the parties most interested. The day closed with the usual rumors of more failures, criminal prosecution and the like. The solvency of several financial institutions of standing was brought into questions, but for such rumors there appeared to be absolutely no foundation. The market was seriously affected by the three failures.

Many Strikers Have Gone Back.

Toronto, May 6.—Twenty-five of the 50 striking wood, wire and metal lathers, who went out on strike on May Day returned to work yesterday.

About 100 more carpenters and joiners went back to work yesterday. There are still 100 out.

Yesterday morning 15 sheet metal workers went out on strike in Piper & Co.'s establishment, West Front street, because a non-union man was employed.

The carriage and wagon workers are gradually winning their strike. Another batch returned to work yesterday.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25 cents. tu-4th

Heavy Harvest This Year.

Ottawa, May 6.—Charles C. Castle, warehouse commissioner for the Dominion Government, at Winnipeg, reports that there are 18,000,000 bushels of wheat in Manitoba and the Northwest available for market, and, further, that there were 224,305 acres of new land broken in 1901, according to his latest advices from Manitoba and the Territories. At a very low estimate this means over a million bushels increase in the output for the present year's harvest. According to Mr. Castle, it will take 176 cars a day between May 1 and Sept. 1 to move the 18,000,000 bushels now ready for shipment.

Bugle Band For Coronation.

Ottawa, May 6.—Permission has been received by the Minister of Militia from the War Office for the Queen's Own Bugle Band to accompany the coronation contingent to London. The band numbering fifty pieces will sail with the contingent on the Parisian on June 7.

Won From English Champions.

Manchester, May 6.—The final score in the lacrosse match between the Torontos and Stockport, champions of England, yesterday was five to one. It was the best contest of the tour, and the visitors had to hustle to win from the husky English twelve.

Apply This Test To Your Nerves.

If You Have These Symptons Your Nerves are Weak and Exhausted—You can get Well by Using

Dr. Chase's Nerve Food.

Nervous diseases are little understood. They have long been enshrouded in more or less mystery by the medical profession. Many who are fast falling victims of nervous prostration, paralysis or locomotor ataxia think that they are merely not very well, and will soon be around again—so insidious is the approach of nervous diseases and nervous collapse.

Study these symptoms. They are for your guidance. You may not have them all, but if you have any of them your nervous system is not up to the mark, and a little extra expenditure of nerve force may bring the dreadful downfall.

Intolerance of motion, noise and light; twitching of the muscles of the face and eyelids; fatiguing sleep, sudden startings and jerkings of the limbs; dizziness and flashes of light before the eyes; irritability and restlessness in every part of the body; headache, indigestion, feelings of weariness and depression, and loss of interest in the affairs of life.

So long as the daily expenditure of nerve force is greater than the daily income, physical bankruptcy is certain to result sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr. Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly to form nervous energy. Nervous diseases do not right themselves. They come on gradually as nerve force becomes exhausted, and can only be cured when the nerve force is restored.

No treatment for nervous diseases has ever received such universal endorsement by both physicians and people as has Dr. Chase's Nerve Food.

Mrs. Crapper, 37 Salem avenue, Toronto, says:—

"For the last two years I have been a great sufferer from paralysis of the right side, which has confined me to the house. On recommendation of friends I began the use of Dr. Chase's Nerve Food, and can say that this treatment has proven of very great benefit to me. I realise that my ailment will not disappear in a few weeks, but I have improved so much already that I believe a continuation of this medicine will entirely cure me."

In the press of Canada you will find hundreds of earnest letters telling of the wonderful benefits derived from Chase's Nerve Food; 50c a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 4

Milburn's Heart and Nerve Pills.

They build up the System, renew Lost Vitality, give Nerve and Brain Power, improve the Appetite, make Rich Red Blood, dispell that Weak, Tired, Listless, No Ambition feeling and make you feel full of Life and Energy.

THE PLANET MARS.

Science Cannot Say Whether There Be Men There or Not.

To the popular mind all astronomical research ought of necessity to be concerned with the important questions whether there are men in the moon and inhabitants in Mars. To the first of these astronomy returns a decided negative. There is no life on the moon, and probably no life, either vegetable or animal, existed at any period of human history. To the second the answer is: We cannot tell. There may be men in Mars and there may not. The conditions of life there do not preclude the existence of human beings. We have in Mars rain and snow, sunshine and gloom, summer and winter, as on our earth.

Perhaps the closing years of the twentieth century will see astronomers armed with a telescope powerful enough to reveal towns and cities in Mars. Should ever such a discovery be made I could conceive of none greater in the whole range of time, none more upsetting or disconcerting. To the ordinary astronomer untroubled by such hopes the future lines of astronomical progress is simply and clearly defined, and that progress is simply to answer the old lines:

Twinkle, twinkle, little star,
How I wonder what you are.

This was the problem before our friend who wrote on astronomy a hundred years ago; this will be the problem before astronomers a hundred years hence.

Wisdom In City Directories.

The New York city directory for the early years of the nineteenth century contained an almanac and other features now considered to be extraneous to directories. The compilation was largely done by Abraham Shoemaker. Mr. Shoemaker had a habit of ornamenting the margins of the pages with quaint old "saws" of this character:

A traveler should have a hog's nose, a deer's legs and an ass' back.

A little house well filled, a little field well tilled and a little wife well drilled are great riches.

A poor man must walk to get meat for his stomach, the rich man to get a stomach for his meat.

Tell a miser he's rich and a woman she's old, you'll get no money of the one nor kindness from t'other.

Love, cough and smoke can't well be hid.

Some Famous Dunces.

Literary history is crowded with instances of torpid and uninteresting boyhood. Gibbon was pronounced "dreadfully dull," and the utmost that was predicted of Hume in his youth was that "he might possibly become a steady merchant." Adam Clarke, afterward so deeply skilled in oriental languages and antiquities, was pronounced by his father to be "a grievous dunce," and of Boileau, who became a model for Pope, it was said that he was a youth of little understanding. Dryden was "a great numskull," who went through a course of education at Westminster, but the "stimulating properties of Dr. Busby's classical ferrule were thrown away upon the drone who was to be known as 'Glorious John.'"

Bodies Turned to Stone.

Human bodies buried in limestone countries are often turned to solid stone by the limewater which penetrates the graves. In other soils there are elements which sometimes so embalm the buried dead as to preserve form and features unchanged. Many such cases are on record. Robert Burns' body was disinterred in 1815 to be removed to a new tomb. To the surprise of all his friends the features were found to be as perfect as at burial. When the body of John Hampden, the famous English patriot and leader, was disinterred by Lord Nugent 200 years after burial, the form and features were as unchanged as if the corpse had been recently laid in the grave.

One of Dumas' Jokes.

Just for a joke Dumas once addressed a letter to "the greatest poet in Paris." The postoffice sent it to Lamartine, the idol of sentimental readers. He hesitated to open it and took it to Victor Hugo, who protested that his brother bard had far too humble an opinion of himself. After some conversation they agreed to decide by lot which of the two should open the envelope. The lot fell to Victor Hugo, who, taking out the letter, read, "My dear Alfred." It was written to Alfred de Musset.

A Capable Student.

In one of the Philadelphia colleges a professor of chemistry asked a student the other day, "Now, suppose you were called to a patient who had swallowed a heavy dose of oxalic acid, what would you administer?"

"I would administer the sacrament," replied the student, who, by the way, is said to be studying for the ministry and takes chemistry because it is obligatory.—Argonaut.

Reason For the Hit.

"Was Mrs. Gabbot's 'conversazione' a success?"

"Decidedly. Everybody chatted at a great rate."

"How did she ever manage it?"

"Oh, she had a musical programme, you know, that lasted all through."

Quackery vs. Science.

Most patent medicines emanate from people who know nothing of medicine or chemistry. Merrill's System Compound is skilfully compounded in one of Ontario's largest drug stores, after the suggestions of three eminent physicians. It purifies the blood, builds up the system, strengthens the nerves and regulates the bowels. 50 pleasant-to-take doses for 50 cents. Sold by Ormond and Walsh.

Books With Leaves Uncut.

A book the leaves of which are uncut possesses no value of an intrinsic character beyond one that is cut, but really less. For that matter, if it is to remain uncut, it is as valueless as it is useless. There are book collectors, however, who place a premium upon books with uncut leaves and so commend them in their advertisements and circulars. There are persons who load certain shelves in their libraries with uncut books. Of course they are not for use and are not used and are valueless except for keeping.

The Eternal Feminine.

Bride of a Day (aboard train)—Do stop talking a little while, dear.

The Other Half (tenderly)—Why, darling, are you tired of me so soon?

Bride of a Day—No, dearest, but I am curious to hear what those two women behind us are saying.

On Magnetic Healing.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

The Reason.

Judge—Your statement doesn't agree with that of the last witness.

Witness—That is easily accounted for, your honor. He's a bigger liar than I am.

The man who leaves church just as the collection plate starts around may have been taken suddenly ill, but he rarely gets credit for it.

Rheumatism . . .

Is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the *cause* of those fearful shooting pains and stiff, aching joints. There is but one sure way—

Dodd's Kidney Pills

AT ALL DEALERS.

For Sale by E. BROWN & CO.

The Chinese Bride Wears Red.

Red is the nuptial color in China. The coolies that carry the bride in her litter are dressed in red, and they bear a dwarf orange tree loaded with fruit and coin. The bride's compartments are finished in red trimmings, presents are carried on red trays, the banners borne in the procession are originally crimson, which are brightened by the rosy glow of the lanterns. Red umbrellas are carried, and illuminated signs blaze in color. The canopy itself is decorated according to the wealth and the taste of the bride's family. A poor woman is carried to her wedding feast in a plain chair painted red. If the family has wealth or rank, the palanquin is very ornate, decorated with dragon heads. The Chinese skill in working silk or gold cord is displayed in an artistic manner. When the bride appears, she wears a red veil, and the letters to her ancestors, whose blessing is invoked, are written on red paper. The bride generally wears a crown adorned with tinsel and mock jewels, an idea which is much more prevalent in Sweden.—Woman's Home Companion.

A Military Order In Emergency.

Captain Verne M. Bouvie, who raised and commanded a company in an Ohio regiment in the Spanish-American war, told of a very unusual order he heard given by an officer of a Missouri regiment at Camp Meade.

"The Missourian's company was coming down a muddy road," said Captain Bouvie, "and presently they came to a place where only two abreast could pass. The company was in a column of fours, and the problem of getting them past puzzled their commander completely. The correct order was 'Right, by twos.' After some hesitation he shouted peremptorily:

"'Gee round that puddle!'

"The company had evidently been better drilled than their commander, for they broke into a column of twos. When they had passed the water, I listened eagerly for the next command. After some delay the officer shouted sharply:

"'Twos inter fours, right smart; git!'"

Electric Shocks.

It is generally supposed that electric shocks at 500 volts will invariably prove fatal, but that such is not the case was proved the other day by a member of the Institution of Electrical Engineers, who stated that even with wetted boots he had stood on the rails of the City and South London railway, sat on the live conductor and slapped the running rails with bare hands. He further said that, provided the day were dry and the skin not moist, it was quite safe for the average person to handle live wires. One man fell on a cable carrying a current of 5,000 volts and escaped with only a few burns. Another man was rendered unconscious by a two thousand volt current, but was soon restored unhurt. A one hundred volt current has been known to cause death, but such a case is quite a rare occurrence.

Just 400 Years After.

In 1492 Columbus discovered America. In 1892, just 400 years later, Merrill, a Brantford druggist, discovered Four T's, the great guaranteed cough and cold cure. In five years the sale of a quarter million bottles has proved that Four T's never fails to cure a cough in 24 hours, and a cold in two days. Large bottle 25c. at Ormond & Walsh's drug store.

Compliment Worthily Won.

Angry Guest—I've been waiting three-quarters of an hour for that steak I ordered!

Waiter—You have an uncommon amount of patience, sir.

The choicest apple is always just beyond your reach.

Her Nose.

Wigg—What a beautiful nose she has!

Wagg—Yes; that's her scenter of attraction.

A Wish.

"Alack," the aeronaut exclaimed,
"Success my hopes would crown
If this same airship would go up
As fast as it comes down!"

Where Her Interest Ceases.

"So your wife has a great fondness for fiction?"

"Er-a-yes; all except the kind I tell her."

True Modesty.

"It is the naked truth," said he.
She answered: "Never mind.
It will not shock my modesty,
So long as love is blind."

Among the First of the Kind.

"Pop, what is a jinrikisha?"

"A jinrikisha, my son, is a sort of horseless carriage."—Yonkers Statesman.

Illustrious Precedent.

"Tommy, how did you catch that cold?" Asked mamma, alarmed thereat.
"Same as Teddy did," he proudly said;
"Goin' without my hat."
—Chicago Tribune.

A Substitute.

Friend—Got any defense?

Criminal—No, but I've got a first class lawyer.—Puck.

The Previous Violet.

De airly vi'let shiver
Ez coal go up in price;
He crawl ter bed en kiver
Wid a freezin' sheet er ice.

Social Note.

The dinner party consisted of fourteen stomachs and two very interesting brains.

Advice to Adam-Zad.

Look straight ahead of you, Adam-Zad,
O bear that walks like a man!
Do you see that lion, bold and bad,
That stands by the side of Japan?
—Chicago Tribune.

Lazy Livers and Sluggish Kidneys

When these organs fail to perform their proper functions, the blood becomes poisoned and and suffering and disease commence. This can be avoided by keeping your vitality at high-water mark, the blood rich and pure, by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. Morning tiredness, Languor, Dizziness, Pain in the Back and Sick Headache disappear at once when Ferrozone is used. Get it to-day. Price 50c., at Ormond and Walsh's.

Dr. Hamilton's Pills cure Biliousness.

He Knew the Sex.

She—Oh, pshaw! You men are all alike.

He—Now, what have I said or done that requires an apology?

A Rich Widow.

His death, though it would grieve her,
Had one consoling touch.
The thought "How soon he'd leave her"
Was merged with this: "How much?"

Great Love.

Miss Talkerdef—Mr. Golmin says he would never marry a light haired girl.

Miss Blond—Oh, I'd dye for him.

And Bluff.

In life's melee,
Mighty tough,
Don't forget
Brains and bluff.
—Detroit Free Press.

DRS. KENNEDY & KERGAN

The Leading Specialists of America. 25 Years in Detroit. Bank Security.

Nine out of every ten men have been guilty of transgression against nature in their youth. Nature never excuses, no matter how young, thoughtless or ignorant he may be. The punishment and suffering corresponds with the crime. The only escape from its ruinous results is proper scientific treatment to counteract its effects. The DRAINS, either by nightly losses, or secretly through the urine, must be stopped—the NERVES must be built up and invigorated, the blood must be purified, the SEXUAL ORGANS must be vitalized and developed, the BRAIN must be nourished. Our New Method Treatment provides all these requirements. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers disappear; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. We invite all the afflicted to call and consult us confidentially and free of charge. Cures Guaranteed or no Pay. We treat and cure: Varicocele, Blood Diseases, Stricture, Gleet, Emissions, Urinary Drains, Spermatorrhoea, Unnatural Discharges, Kidney and Bladder Diseases.

CONSULTATION FREE. BOOKS FREE.

If unable to call, write for a QUESTION BLANK for Home Treatment.

OF INTEREST TO NURSES.

History of the Reform in Nursing at Bellevue Hospital.

Report of the Hospital Visiting Committee of the State Charities Aid Association—Compiled by L. L. Dock.

The following is the conclusion of the article published in Saturday's issue of the Examiner, taken from the American Journal of Nursing and being a history of the reform in Nursing in Bellevue Hospital, New York. The article is compiled by Miss L. L. Dock:

Dr. Wylie visited all the large hospitals of London, the Royal Infirmary of Liverpool, and also the hospitals of Paris and Vienna, all of which he described with more or less detail in the report to the Hospital Committee, which then continues as follows:— No action having been taken by the Medical Board of Bellevue in answer to the communication in the spring at the meeting of the Bellevue Hopital Association, in September, 1872, it was resolved to refer the subject of the establishment of a training school for nurses to the Hospital Committee of the State Charities Aid Association. This committee, after a thoughtful study of the subject, prepared a scheme for the establishment of a school at Bellevue, adapted to the wants of that hospital, but sufficiently comprehensive to be extended on a large scale at a future time. This scheme was presented to a committee of the Medical Board of Bellevue appointed for this object, composed of Dr. James R. Wood, chairman, Dr. Stephen Smith, Dr. Austin Flint, and Dr. Thomas M. Markoe. Three days after this committee presented the plan to the Medical Board, which passed a unanimous resolution of approval and sent it to the Commissioners of Charities. These gentlemen have conveyed to us a most cordial expression of their desire to carry out any well considered plan for the benefit of the patients under their charge, and for this end they agree to our proposal to give up to us the nursing and control of six wards of Bellevue Hospital, subject to such conditions as will not conflict with the rules already established for the good government of the hospital.

In the plan offered for the establishment of the school at Bellevue we ask only for the control and nursing of six wards; more than this it would be impossible to attempt at first. In course of time we propose to benefit not only Bellevue, but all the public hospitals, and also to train nurses for the sick in private houses, and for the work among the poor. As the work advances, we hope to establish a college for the training of nurses, which will receive a charter from the State, and become a recognized institution of the country. (The school was incorporated in 1874.) Branches of this college would be established in connection with hospitals devoted to particular diseases, such as the Woman's Hospital, etc., so that in course of time nurses trained for the treatment of special diseases will be as easily obtained as physicians. Connected with the college would be a "Home," whence they would be supplied with employment, and provision made for them when ill and disabled by labour or advanced years. The nurses when trained would receive a diploma or certificate, renewable at fixed periods. Thus the college would control the nurses during the stage of pupilage, and protect the public from imposition by making known that a nurse whose diploma or certificate was not in due form had forfeited the confidence of the institution.

We would here offer our gratitude to the noble woman whose example has inspired our work, and who has sent us from her sick bed invaluable advice and co-operation. We frequently trust that Miss Nightingale may long survive and may rejoice to learn that the work she had inspired in English-speaking women in this western world is bearing the same life-giving fruit that she and her co-workers gathered among the sick and suffering beyond the Dardanelles.

The branch of the work of district or missionary nursing among the poor, described in Dr. Wylie's report, must appeal strongly to the sympathies of all benevolent hearts. ... ...

In Liverpool, where this branch of work has been carried to the greatest perfection in England, it has been productive of the most satisfactory results, and it remains to be decided what arrangements will be best to adopt in this country, and whether the different dispensaries established throughout the city should form a part of the mission work already organized by the different churches. We propose to train the nurses, and leave it to those who know New York and its needs to decide how best to use them.

The work before us is not an inexpensive one. It should not be regarded merely in the light of a work of benevolence, but as a system of education, calculated to benefit thousands in all ranks of life, and, like the quality of mercy, blessing him that receives and him that takes.

We require at present the sum of twenty thousand dollars. (Six weeks weeks after the publication of this report, the sum of twenty-three thousand dollars was contributed.) A house must be had for the superintendent and nurses; not a mere lodging, but a comfortable home, where, after their daily labours, they may find relaxation and rest, free from the depressing influences of the hospital. Our head nurses, on whom will devolve the task of training the probationers, will be entitled to the high wages they would receive in private houses. To the probationers we shall give moderate wages, on a rising scale, in proportion to their usefulness and term of service.

It will be seen by Dr. Wylie's report that the nurses trained in England are chiefly recruited from the class of upper servants. In this country women of that class find plenty of employment at high wages; we propose, therefore, to offer the advantages of our school to women of a higher grade. In this country we have a large class of conscientious and labourious women whose education and early associations would lead them to aspire to some higher and more thoughtful labour than household service or work in shops, such as daughters and widows of clergymen, professional men, and farmers who have received the good education of our common schools and academies, and are dependent upon their own exertions for support. An American woman, with such an education and with her heart in the work, could be trained to become, the best nurse in the world, for the race has quick wit, perception, and strong powers of observation. Let her, in addition to these qualities, acquire the habit of obedience, and you have all the elements for making a good nurse.

There is an idea prevalent that among certain classes the work of nursing can be done best by persons who receive no pay, but simply a support from the order to which they belong—that the receipt of money gives the stigma of servility to the work. While we would not in any way depreciate the usefulness of the persons holding these views, we feel that the idea is an erroneous one; that such a rule shuts out a vast number whose services would be invaluable.

For the Committee on Hospitals,
ELIZABETH C. HOBSON,
Chairman.

SPORTING PASTIMES.

T. A. S. ATHLETICS.

A meeting of the athletic section of St. Peter's T.A.S. is called for this evening at 8 o'clock in the rooms of the Society.

ASHBURNHAM COUNCIL.

The Regular Monthly Meeting Held Last Night—Accounts and Communications.

The regular monthly meeting of the Ashburnham village council was held last night. There were present Reeve Smith and Councillors Pollock, Johnston, Sheridan and Adams.

Upon motion of Councillor Johnston, seconded by Councillor Sheridan, the following accounts were ordered to be paid;—

T. B. Manelce, Charity Account, ...	$5.00
J. E. Fitzgerald, work C. C.	5.50
Peterborough L. & P. Co.	2.00
Pay Sheets Nos. 7 and 8...	41.15
Mrs. McAuliffe, charity, ...	7.50
John Wright, postage, ...	1.00
W. H. Cluxton, In. Plate Glass	20.80
Total	...$82.95

Moved by Mr. Adams, seconded by Mr. Pollock, that the Peterborough Lock Co. be paid $6.97.—Carried.

Moved by Mr. Johnston, seconded by Mr. Pollock, that $10.00, received for the old water tank sold to H. J. Crowe be placed to the credit of By-law No. 173. —Carried.

Moved by Mr. Sheridan, seconded by Mr. Johnston, that the contract of Martin Kylie for street watering be rescinded and the contract for same be let to Albert Valois for the same amount, $215.00, for the season of 1902. —Carried.

Moved by Mr. Adams, seconded by Mr. Pollock, that By-law No. 273, to regulate the erection of poles and placing wires for the transmission of electricity on the streets of the village be read a first time.—Carried.

Moved by Mr. Adams, seconded by Mr. Pollock, that the Reeve be requested to have the water turned on the stand pipes, and if the valves are not in good repair, he be authorized to procure two new ones, and have them placed in position at once.—Carried.

The Treasurer presented the following statement of receipts and expenditures from April 8th to May 3rd, 1902;

Receipts, ...	$215.63
Expenditures, ...	369.14

The Collector submitted the following statement for the year 1901;—

Total taxes on roll	$7234.44
Per Cent.	25.22
Water Rate	926.96
Total	$8186.62
General Tax	4822.77
Public Schools	1916.00
Separate Schools	314.20
Dog Tax Collected	92.00
Poll Tax	4.00
Per Cent.	25.22
Against Property	52.85
Remitted	53.62
Water Rate	926.96
Total	$8186.62

The Council then adjourned.

Jarvis Street Choir.

On account of the large demand for tickets for the concert by the Jarvis street Choir of Toronto, at St. Paul's on Monday evening next, it has been decided to sell only sufficient to comfortably fill the church, the sale will then be withdrawn. For convenience of purchasers a supply will be left at Macdonald's drug store to-day.

WEDDING BELLS.

Nuptials of Mr. W. S. Wildman, of Norwood, to Miss Mary Fife, Asphodel.

On April 30th, Fairview, the home of Mrs. J. M. Fife, Asphodel, was the scene of an interesting event, when Mary, her youngest daughter, was united in marriage to Mr. W. S. Wildman, son of Mr. J. C. Wildman, of Norwood.

Punctually at 5 o'clock the strains of the wedding march, played by Miss Nellie Carter, of Hastings, resounded through the house, and the bride, prettily gowned in pale blue with shower bouquet of white carnations, entered the room and took her place by the side of the groom, who was ably assisted by Mr. Webster, of Norwood.

The duties of bridesmaid were performed by Miss Mabel Humphries, cousin of the bride, whose dainty gown was of pale pink with bouquet to match, while tiny Jean Fife made a charming little maid of honour.

The ceremony was performed by the Rev. Mr. Thompson, of Hastings, in the presence of a large number of relatives and friends of the contracting parties.

After a period of congratulation the guests repaired to the dining room where an elaborate wedding repast was served.

After the customary speeches a very enjoyable social evening was spent, a pleasing feature of which was the attendance of the Hastings Band, which contributed much to the pleasure of the guests by their selections, vocal and instrumental.

The bride and groom were the recipients of many handsome gifts, both useful and ornamental, and departed for their home in Percy amidst showers of rice and the best wishes of their friends for their lifelong prosperity and happiness.

THE NORWOOD BUDGET.

What is Going on in the Village to the East.

Mrs. G. B. Cameron, of Peterborough, was the guest of Mrs. W. E. Roxburgh, at "Cassnock," for a few days last week.

Mrs. W. A. Eaton was up to Peterborough on Monday evening to attend the concert given by Mrs. W. J. Morrow and her pupils.

Mr. A. J. Raddon of Peterborough, was in town on Sunday, spending the day with his father.

Miss E. Fowlds of Hastings, was in our village on Tuesday, calling on friends.

Mrs. C. B. Booth, of Warkworth, and daughter, Miss May, are at present the guests of Mr. and Mrs. D. H. Booth, Queen street.

Miss Helen Pearce, daughter of Mr. J. B. Pearce, left a few days ago to take a course in the Havergal Ladies College.

Mrs. W. E. Roxburgh, left on Monday for a two weeks visit with her son, Rev. F. D. Roxburgh, of Smithville.

Norwood, which has for some unknown reason been looked upon as a poor shipping point, has been making rather favourable strides in this direction lately. During the past few days a great deal of produce has been shipped from here. On Friday Messrs. Buck and Welsh shipped a car of hogs to Toronto; Thursday Mr. Cole, of Warkworth, shipped two cars of potatoes to Ottawa; Mr. Duff of Indian River, shipped another to Chicago on Saturday, and Messrs. Roxburgh and Son have shipped a number of cars of grain within the past week.

Mr. H. Freeman has just completed the erection of a neat little barn on his lot.

The Norwood High School Boys have re-organized their football club for the season, and are prepared to meet any of the neighbouring clubs in a friendly game. The officers are as follows;

Hon. Pres. — John Davidson, Esq.
Pres.—F. C. Closs, Esq.
Capt.—A. Nelson.
Sec.-Treas.—W. Paget.

Executive Committee—The officers and Messrs. P. E. Graham, Packenham, Learmouth, and Lynn.

On Saturday afternoon the boys drove out to the Cordova Mines, and played a friendly game with the miners. The game was well contested and resulted in a draw. Since their return the boys have done nothing but sing the praises of the Cordova Football Team.

The C. P. R. station here is undergoing extensive improvements. Quite a large addition is being added to the residential part of the station. The platform is being renewed and a pretty little garden is being made alongside of it.

Our friend, Mr. D. H. Booth, is all smiles these days, for he is now the happy father of a son.

Clams in the shell 15c doz., 2 doz. 25c. Choice pineapples, 2 for 25c R. A. DUTTON, 418 George street. Phone 304.

MR. STRATTON'S OPERA HOUSE MEETING.

An Important Meeting to be Addressed by

IMPORTANT SPEAKERS.

Hon. J. R. Stratton, Hon. R. Harcourt and Hon. F. E. A. Evanturel Will Deliver Addresses.

The electors of Peterborough are reminded of the public meeting which will be held in Bradburn's opera house on Thursday evening, May 8th, in the interests of the candidature of Mr. Stratton, who will address the meeting, as well as Hon. R. Harcourt, Minister of Education and Hon. F. E. A. Evanturel, ex-Speaker of the Legislature.

Hon. Mr. Harcourt is a fluent, well informed and effective speaker, one of the best in the late Parliament. Hon. Mr. Evanturel is also a graceful and ready speaker. He will address the meeting both in French and English.

The chair will be taken promptly at 8 o'clock so that the speaking may be concluded at a reasonably early hour.

The gallery will be reserved for ladies, who are cordially invited to be present.

IN LOCAL MILITARY CIRCLES.

The Regiment did not Parade Last Night

On Account of the Very Wet Night — The Orders That Were Issued.

Tuesday nights have proved very disappointing to the members of all ranks of the 57th Regiment. It has been the intention of the Commanding Officer, Lieut. Col. Edwards, to have a march out with both bands but the inclement state of the weather on the past three Tuesday nights has been such as to render such a proceeding out of the question. Notwithstanding the heavy rain storm last night there was a large turn out at the drill shed and some very excellent work was gone through to the enjoyment of quite a number of spectators. The regiment is getting into splendid condition and quite a number of recruits were enrolled last night. Should next Tuesday night prove favourable a march out will likely take place.

• • •

The Commanding Officer of the 57th Regiment intimated to the men last night that considerable attention was to be given this season to the rifle shooting part of their training. It is a well known fact that the men have improved wonderfully in this regard during the past few years, but the encouragement that is now being given by the Rifle Committee should have a beneficial effect on the men of all ranks. The Morris Tube practice at the drill shed is also being carefully looked after.

• • •

The orders last night were as follows:

Headquarters, Peterborough
May 6th, 1902.

Orders by Lieut.-Colonel E. B. Edwards, Commandant 57th Regiment, P.R.

No. 1. Detail of duty for week ending May 13th, 1902.—Capt. for the week, Capt. Clegg. Next for duty, Capt Bennett. Subaltern for the week, 2nd Lieut. Hamilton. Next for duty, 2nd Lieut. McLean.

No. 2. The following are taken on the strength of the regiment: — C. Co., Bugler Murray and Drummer Sargison. D. Co., Bugler Jones, Ptes. Henderson, White, Teft and Hamilton. E. Co., Pte. Gillespie. F. Co., Bugler Carey.

No. 3. Leave of absence from parade is hereby granted to Major Miller, Capts. Hayes and Eastwood, Lieuts. Matthews and McWilliams.

No. 4. The Commanding Officer has been pleased to make the following promotions:—A. Co., to be Corporal Pte. Geo. Brown; to be Corporal (provisionally) Pte. G. Pringle. C. Co., to be Corporal Pte. Nicholls; to be Corporal (provisionally) Pte. Smith.

No. 5. Rifle practice will, until further orders, be carried on at the Rifle Ranges each Saturday afternoon.

By order,
D. WALKER, Captain,
Adjutant.

The Cobourg Post says:—Major C. H. Rogers, of A. Squadron, 3rd Dragoons, has joined the fourth contingent which is about to leave for South Africa. He has been assigned to the position of Captain of a squad of 125 men under Col. Macdonnell, Inspector of N. W. Mounted Police. Major Rogers is a son of Col. R. Z. Rogers, Grafton. He was in town on Wednesday saying farewell to his many friends.

A Food for Brain and Muscle.

Whether it is brain fag, loss of memory, inability to concentrate the mind or bodily weakness and general debility Dr. Chase's Nerve Food will restore your old time energy, strength and health. Through the blood and nervous system, it reaches every part of the body and overcomes weakness, irregularities and disease.

EARLY CLOSING.

The Merchants of Keene Have Made an Arrangement.

The village of Keene is bound to keep apace with the times. The merchants do not believe in keeping their places of business open to all hours of the night, and an agreement has been made between Messrs. A. Campbell, R. N. English, and Anderson and Skinner, whereby these merchants will close their places of business at 6 p.m. on Mondays, Wednesdays and Fridays during the months of June, July, August and September.

Child Must Grow.

The child must grow when it is young. If it doesn't grow give it Scott's Emulsion. It is a great medicine for growth. Scott's Emulsion is just the right addition to the weak child's daily food.

LADIES' SUITS

PAR EXCELLENCE.

Suits at this store receive more than ordinary attention. They get the most careful scrutiny when selected. They are not bought from one concern only—they find their way here from most every Canadian manufacturer who is careful in detail and worthy in style, but we don't stop at Canadian manufactures if better things are offered by American houses. Every Suit must be worth the first of the season price. Those who are fortunate enough to get the clearing prices may congratulate themselves. All goods at this store are marked in plain figures, and you can see the genuine reductions made. Never before did we receive such a capital lot of garments. Yet we have come to the clearing up time, and go they must.

3 NEW YORK SUITS

Just one of each and each one a beauty. The first is a Black Venetian Suit, open coat, with white front and black crocheting. Skirt coat with belt of stitched black taffeta, front and back prettily corded. Coat silk lined, 9 gore flare skirt with novelty tucks and welt seams, size 36—$22.50, for $18.00

A Navy Venetian Suit, size 36, with 6 half inch tucks in front and back of Russian Coat, velvet collar, stitched flounce skirt, shimmersilk lined, coat satin lined, $22.50 for 18.00

Brown Venetian, stitched taffeta trimmed, slashed skirt, coat with stitched taffeta belt, taffeta lined, flounce skirt lined with shimmersilk, standing collar with points on coat, $22.50, for $18.00

5 FIFTEEN DOLLAR SUITS FOR $12.50

Navy Venetians, sizes 34 and 38, with short skirt coat, crochet button, neat and stylish. Has full flounce skirt, nicely stitched and is lined throughout, $15.00, for $12.50

Black as above, size 38, $15.00, for $12.50

Norfolk Jacket Suits, one Navy Cheviot 32, one Dark Grey Cheviot, size 36. These are ideal walking Suits and cleverly made, were $15.00, for $12.50

$10.00 SUITS

Green Herringbone Cheviots, size 32, Eton coat (tight fitting) satin trimmed, $16.50 for $10.00

Serge Suits, black and navy, flare skirts lined throughout. Good suits for hard usage: all sizes, for $10.00

Navy Serge Suit with velvet collar, flounce skirt, size, 34 neat and natty $10.00

Black Pebble Cheviot Walking Suit with stitched flounce skirt heavy welt seams, jaunty jacket, unlined $10.00

$7.50 SUITS WORTH $12.50

Light Grey and Green All Wool Homespuns, castor check Tweeds, Black and Brown Venetians, all lined throughout. All are well made—all possess desired cloths and are smart styles. Of course the former prices account for these qualities, for they were $10.00 and $12.50 Suits, but now $7.50

$5.00 SUITS

Not what you would expect to hear about a five dollar suit though, for these are low collar effects, jackets with fancy stitched silk effect trimmings, flounce skirt trimmed to correspond with jacket unlined, but a marvellous appearance for $5.00

$4.50 WALKING SKIRTS

that are not equalled anywhere. Skirts that do credit to ourselves and give customers more than their money's worth. They are our own make. They're here for you to criticise. Compare them with any $6 Skirt you see. $4.50

A Climate to Order

There is nothing like crisp, clean, ventilating Linen-Mesh to give your body a dry, sweet climate to live in.

Golfers, cyclists, and those who exercise out of doors in any way find the

DR. DEIMEL LINEN-MESH UNDERGARMENTS

a veritable boon.

By quickly absorbing and dissipating the perspiration, the body is kept dry and comfortable, preventing prickly heat and similar skin eruptions so prevalent with those who wear wool, silk or cotton. And of equal importance, it insures an immunity from colds that is remarkable.

A booklet—free for the asking—will tell you all about it.

WEDNESDAY, MAY 7, 1902.

HAZY CRITICISM.

Mr. Whitney has no policy on education. He says in a hazy way that he will improve our school system, but does not tell how. The only definite thing he proposes is a Consultative Council, and we have that now. When the critics of our school system venture to propose improvements, they strike something that is in existence now and their own proposals are forestalled. One steady growler who writes for the Mail finds fault incessantly, and says:

"All departmental examinations should be abolished excepting those absolutely necessary at the beginning and at the end of the High School course. All intermediate High School examinations of every kind should be left to the teachers themselves; and a large part of the present entrance examination could safely be relegated to a local standard and a local test."

This great reformer is wasting his tears, if that is what he seeks, for his demands are already met. A pupil may go from the kindergarten through all the classes to the highest in the Collegiate Institute, without taking any departmental examination, save that for entrance to the High School. Any other examinations held are merely teachers' reviews or tests. But if the pupil seeks to qualify for school teaching he must pass the qualifying examinations. Surely that is not asking too much. The plain fact is that those who talk so much against the "examination humbug" are ignorant of the actual facts, or too dishonest to present them fairly.

No stronger tribute could be paid to our school system than the inability of its critics, mostly politicians, to find any substantial fault or to suggest any remedy of a supposed fault which is not already in force. Of course our school system is not perfect. Nothing devised by human agencies reaches a finality—improvement must and always will be made. The British constitution is not perfect; though it has been in course of growth for a thousand years, it is still in the formative stage. So with a school system. Changing conditions and the lessons of experience point out weak spots and all that a Government can do is to add strength where needed and remove defects which experience may have disclosed. But the Liberal Government has been anxious and energetic in effecting improvements when necessary and practicable. The improvements that have been made in the past fifteen years may be submitted as evidence of this desire and this endeavour; the following shows what has been effected:

The number of departmental examinations have been reduced from 27, under Dr. Ryerson, to 13.

The third-class certificates have been abolished in all the public schools of the Province.

The number of text books in public schools have been reduced from 55, under Dr. Ryerson, to 13, and in high schools from 131 in 1883 to 23.

In 1883, 135 of the text books used in the public and high schools were written either by American or British authors. Now every text book, with the exception of two, is the production of a Canadian author.

In 1883, 87 of the text books used in public and high schools were imported from abroad. Now every text book in the public and high schools is manufactured in Canada, giving employment to our own printers and binders, a very significant proof that the Government are endeavouring to encourage home manufacture, and to give effect to the Ross Government's motto — Ontario for the people of Ontario.

Complaint is sometimes made of the cost of the text books used in the public schools of the province. The cost of a book is largely a matter of comparison. Comparing the text books used in the schools of Ontario with the books used in some of the neighbouring States, we have the following results: In California, the full course of public school text books costs $7.30; in Kansas, $7.77; in the State of Washington, $7.86; in New York, $9.33; in the City of St. Louis, $7.50; in St. Paul, $10.98; in the province of Ontario, $5.77; and in point of finish and workmanship Canadian text books will compare favourably with the books published in any country. A cardinal feature of our text books system is that the same text books are used in all the schools of the province, whereas in Great Britain and in the United States the choice of text books is vested in the local authorities, with very few exceptions, so that a pupil leaving one school and going to another may be put to the expense of supplying himself with a complete set of new books. In Ontario there is no such inconvenience or loss to the pupil. No matter what part of the province a pupil may remove to, he can take his school books with him, and use them in the school he may attend. In some parts of the United States, a pupil removing from one county to another will find his school books useless for another series will be in use in the schools in his new place of residence. Mr. Whitney says parents are the best judges of what the text books cost. The Government is quite willing to abide by their judgment, and in the absence of any figures or statements of facts from Mr. Whitney on that point, we submit as incontrovertible evidence of the cheapness of the Ontario system, this fact, that in the city of Toronto, where school books are supplied by the school trustees to the pupils free the average cost per pupil is 7 3-4 cents, and in a statement prepared by the Education Department, based upon the sale by the publishers of text books the average cost per pupil for the whole province is only 21 1-3 cents. As the output of the publishers is known to the Department under their contracts for publishing text books, these figures cannot be disputed. Mr. Whitney may denounce in his loud way, our Educational System, but his denunciation lacks weight until he brings some specific proposition, beyond vague generalities, to bear upon his discussion of the subject.

ONTARIO'S PROUD FINANCIAL POSITION.

Ontario is without a dollar of debt presently payable.

Ontario had $1,468,492 of cash in the banks on December 31st, 1901.

Ontario's annual receipts in interest would retire its total liabilities twice over.

Ontario, for twenty years past, has shown a surplus of assets, after deducting liabilities presently payable.

Ontario's surplus of assets December 31st, 1901, was $2,571,291.

The interest paid annually on the Provincial Trust Funds (which are valued at $6,212,497) amounts to more than sufficient to meet the entire annual payments of the province for its liabilities for railway certificates and annuities.

Out of a total proposed appropriation in eighteen years of $61,631,333, the Opposition objected to only $488,996.50—or only three-quarters of a cent on the dollar.

The Supplementary Revenue Act, providing for the taxation of certain classes of corporations and brewers and distillers, has produced $871,576 in three years.

The policy of the Opposition would, if carried into effect, take away from two to three millions from the annual revenue of the province, making a deficit that could only be made up by direct taxation.

Ontario's position is a proud one: That its affairs have been so managed as not only to create no debt, but to leave a surplus of interest-bearing assets that yield an annual income that could be capitalized at nine millions.

WHITNEY'S ONE PLANK.

Mr. Whitney is seeking the help of the corporations by promising to repeal the tax under which they contribute to the Provincial revenue. He says he is doing this in the interest of the poor man who saves money from his wages to insure his life. Hon. Mr. Ross analyzed Mr. Whitney's argument in his Dundas speech, taking the Canada Life Assurance Co. as an illustration. The assets of that company are $22,000,000, the revenue tax is $11,595, or $1 on each $2,000—one-twentieth of one per cent. To the man whose life is insured for $1,000, and who pays a premium of $22.55, the cost would be eight-tenths of one cent, if the company passed the tax burden on to him. The holder of a $10,000 policy would pay 8 cents per year additional. Mr. Ross contends that the tax really comes out of the profits of the stockholders, who can well afford to pay it, because the money spent by the Provincial Government on education and development has added to the profits of the banks, railway and insurance companies. The Province obtains a large sum from this tax, which is spent for useful purposes. If Mr. Whitney got a chance to repeal the Corporation Tax he would have to obtain money in some other and more burdensome way.

HOW EACH $100 WAS SPENT IN 1901.

Out of every $100 of revenue the province spent:

About $19.96 of it was spent for Education.

About $20.62 of it was spent for Maintenance of Public Institutions.

About $6.32 of it was spent for Public Works and Buildings.

About $10.30 of it was spent for the Administration of Justice.

About $4.93 of it was spent for Railway Aid and Annuities.

About $5.20 of it was spent for Agriculture.

About $4.76 of it was spent for Hospitals and charities.

About $6.96 of it was spent for Civil Government.

About $3.32 of it was spent for Legislation.

About $3.43 of it was spent for Colonization Roads.

About $4.43 of it was spent for Charges on Crown Lands.

About $2.27 of it was spent for Repairs to Public Buildings.

About $6.30 of it was spent for Miscellaneous Expenditure.

About $1.08 of it was spent for Drainage Debentures, etc.

RECORD OF THE LIBERAL GOVERNMENT

In the Matter of Administration of Crown Lands.

It has collected a revenue of $31,791,278 since 1872—an average of over a million a year.

It has granted, sold or leased 4,851,396 acres of agricultural and and mining lands since 1872.

The population of New Ontario has increased by 129,849 since 1871.

It has surveyed 340 townships, of which 171 are free grants and 47 sale townships.

It has sold, since 1872, 5,152 1-2 square miles of timber limits for $6,823,127, or an average bonus per square mile of $1,324. Dues are $1 and $1.25 per M feet; ground rent $3 per square mile.

It has created three parks—Niagara Falls, Algonquin and Rondeau, and three Forest Reserves — Temagami, the Eastern and Sibley.

It has built 5,292 miles and repaired 14,546 miles of colonization roads, and built twenty miles of bridges in New Ontario since 1872 at a cost of $3,338,743.

It has established a Bureau of Mines, placed an advanced mining law on the statute books, purchased two diamond drills, created summer mining schools, assisted in developing the nickel, copper, corundum and other industries, and protected the prospector and miner.

It has encouraged iron mining and steel and iron manufacture by means of bounties.

The production of pig iron and steel reached a value of over two millions in 1901.

It has prohibited the export in an non-manufactured condition of pine saw logs, pulpwood and hemlock bark cut on Crown Lands.

It has increased the dues on pulpwood from 20 to 40 cents per cord.

It has perfected a fire ranging system that is admittedly the best known.

It has explored extensive agricultural and timber areas in Northern Ontario.

It has assisted in the opening up of New Ontario by means of land grants and bonuses to colonization railways.

It has maintained a progressive policy in connection with the pulpwood industry.

The pulpwood agreements entered into call for the investment of a minimum sum of over $5,000,000, the employment of at least 2,440 men, and the erection of seven large pulp mills.

It has created a Bureau of Colonization, which is assisting in settling New Ontario.

It has protected the rights of the public in the valuable Crown water powers.

In answer to the ill-considered and random charges of political demagogues that Ontario school books are too expensive, it may be stated as a fact that similar books in the States are more than double the price of ours. There were in 1883 no less than 58 authorized text books; now there were only 11, showing the progress made in the way of uniformity, simplification and cheapening. Now, too, all the books are compiled by Canadians; they are national in spirit, printed on our own presses, on paper manufactured by Canadian artizans from Canadian pulp. The changes in the school books that are complained about are necessary in order to bring the books up to date.

Worse Than Being Sandbagged.

A person who feels a clutch on his throat and chest is in a bad condition. A few doses of "Four T's," the great guaranteed cough cure, relieves this "grip" and loosens the cough. In two days the patient is well. Get a bottle to-day at Ormond and Walsh's drug store and avoid congestion.

Progressive Store News

To stand still is to go backward. Stagnation leads to business death. Every day we intend to do better by you than the day before, but trying to do the best possible that experience and closest watching and buying can supply. Spring housecleaning brings many wants, and we realize that if bargains in that line are not given when wanted, they cease to inspire enthusiasm. We quote a few of the many lines which make this store popular:

Two-story Brick Houses from $700.00 up.

Frame Houses from $300.00 up.

Farms all prices.

LINDSAY & MIGHT
Real Estate and Insurance Agent

I Will Cure You of
Rheumatism
No pay until you know it.

After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage, and forever.

I ask for no money. Simply write me a postal and I will send you an order on your nearest druggist for six bottles of Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month, and if it does what I claim, pay your druggist $5.50 for it. If it doesn't, I will pay him myself.

I have no samples. Any medicine that can affect Rheumatism with but a few doses must be drugged to the verge of danger. I use no such drugs. It is folly to take them. You must get the disease out of the blood.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk. I have cured tens of thousands of cases in this way, and my records show that 39 out of every 40 who get those six bottles pay, and pay gladly. I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. Let me send you an order for the medicine. Take it for a month, for it won't harm you anyway. If it cures, pay $5.50. I leave that entirely to you. I will mail you a book that tells how I do it.

Simply state name of your dealer, and address Dr. Shoop, Box 47, Racine, Wis.

MR. DUNSMUIR DEFEATED.

Exciting Division in the British Columbia Legislature.

Victoria, B.C., May 7.—The Government was defeated about midnight on the budget debate, the vote being 17 to 16 in favor of the Opposition. The division took place on motion by Mr. Houston of Nelson to adjourn the debate, which the Government opposed, and which the Opposition strenuously supported.

The Government refused to recognize the vote, because later in the evening they succeeded in carrying their motion by two majority.

NINE YEARS OF SUFFERING.

Mrs. Ellen Smith of Montreal, Sufferer From Eczema Until she was Almost Driven to Suicide.

Cured by the New Ozone Treatment—Rev. J. Frederick Renaud Vouches for the Facts.

(From our Special Correspondent.)

Mrs. Ellen Smith, of Montreal, suffered for nine years with a most persistent attack of eczema. The disease affected both limbs below the knee; they were swollen several times their normal size. Many times the terrible suffering she underwent, made her contemplate suicide. Three years was she confined to her bed and finally she believed herself hopelessly incurable, made up her mind to go the rest of her life on crutches. Last year Mrs. Smith started using the new oxygen or Ozone method of treating disease, Powley's Liquified Ozone, and to-day she is quite well. Our representative obtained the following statement from her and from the Rev. J. Frederick Renaud who is personally conversant with her case since its inception. Mrs. Smith's recovery at the advanced age of sixty, is so remarkable—is vouched for by such responsible authority, that we publish the facts.

MRS. ELLEN SMITH, Montreal.

"Having been greatly benefitted by Powley's Liquified Ozone, I feel it my duty to allow it to be known to the public at large.

"I had been a fearful sufferer from eczema for many years. The disease centered in both limbs, below the knees. The left especially, was swollen to alarming dimensions, while the inflammation, irritation, and hard, scaly condition, induced a degree of suffering which only the Mercy of God prevented me from ending in suicide.

"I spent the best of three years on my back, beside different periods in three hospitals. When at home I could not go as far as the next room without the aid of crutches, and altogether my case was considered past help, for I had had the best skill in the country, to no purpose.

"I have now used five bottles of Ozone, and I rejoice to say that both limbs are reduced to their normal size; the burning is entirely gone and I walk alone with perfect ease, although I am now sixty years of age.

The Ozone also cured an advanced stage of liver disorder, and I am willing at all times to tell my experience to other sufferers."

(Signed) Mrs. Ellen Smith, 31 St. Andre street, Montreal.

82 St. Hubert street, Jan. 27, 1902

To Whom it May Concern:

I beg to state that I have known Ellen Smith for over twenty years, and for the past nine years she has suffered from a running sore, but was unable to obtain any permanent relief until she tried Powley's Liquified Ozone, to the beneficial effect of which she bears most grateful testimony. (Signed) Rev. F. Frederick Renaud, 82 St Hubert street, Montreal.

Powley's Liquified Ozone is for sale at all drug stores. Two sizes—50c and $1.00.

FOR COLONIAL TRADE

Sir Wilfrid Laurier's Important Statement in the House.

HE FAVORS DIRECT STEAMERS

Trade With Australia and South Africa Would Be Fostered Thereby—The Estimates Passed — Good Progress Made With Supply—Trent Valley Canal—Summer Camps—Coronation Contingent.

Ottawa, May 7.—A very large amount of business was transacted yesterday, and when, after passing a large number of items during the day, the House went into concurrence on a number of items which had been passed in committee, a distinct step forward towards prorogation was taken. The supplementary estimates for 1902-3 will be brought down today, and these constitute practically all the Government business yet remaining to be disposed of.

Mr. L. N. Champagne, Chairman of the Debates Committee, moved the adoption of the report of the committee increasing the salary of the French translating staff to $1,500, and that of Mr. La Rose, chief translator, to $2,000. The motion was supported by Mr. A. A. C. LaRiviere and Mr. E. F. Clarke.

Sir Wilfrid Laurier thought this was a matter rather for the House than for the Government, but while personally, he was favorable to the increase, he pointed out that it would be inconvenient to reopen the question at this late stage of the session, consequently the increase could not go into effect until next year.

Bills Introduced.

The bill respecting the incorporation of joint stock companies from the Senate was introduced by the Premier.

A bill to amend the Manitoba grain act, 1900, was introduced by Sir Richard Cartwright.

Coasting Trade Protected.

In committee the resolution offered by Hon. Mr. Fitzpatrick "that it is expedient to amend the law respecting the coasting trade of Canada and to exclude a foreign-built British ship from that traffic unless it has obtained a license, which the Minister of Customs may grant upon the payment of duty of 25 per cent. ad valorem on the fair market value of the ship," was adopted.

Sir Wilfrid Laurier's bill amending the Mounted Police Act, and Sir Richard Cartwright's bill to amend the general inspection act were passed through their final stages.

The bill respecting the packing and sale of certain staple commodities was advanced a stage.

In Supply.

In supply the items for Indian affairs and Mounted Police in the supplementary estimates were voted with expedition.

On the item for immigration, Mr. Uriah Wilson asked on what basis the salaries of the officials were fixed, as they ranged from $500 to $3,000.

Mr. Sifton replied that the men were paid according to their ability and the work they did.

Manitoba's Interest Claim.

In reply to Mr. N. Boyd, Hon. Clifford Sifton said that had been decided to pay over to Manitoba certain accrued interest due from the Dominion. The matter was now in the hands of the Department of Justice, and he could not say at present whether legislation was necessary or not.

Mr. N. Boyd complained that the interest on school lands had been reduced from 6 to 5 per cent.

Sir Wilfrid Laurier replied that the rate of interest had been reduced all over the country, and the Government had given the farmers and settlers the benefit of the reduction.

The June Camps.

Upon the item for annual drill and musketry of the militia, Hon. Dr. Borden, replying to Mr. George Taylor, said that he was not quite sure all the June camps would be held this year, but the cavalry and field artillery will be drilled full strength. The drills in the cities will of course go on as before.

A large portion of the further sum of $31,000 required for the Dominion arsenal was, Dr. Borden said, for the purpose of repairing, etc., the guns and material injured in the South African campaign.

Dr. Borden stated that $300 had been placed on the estimates for an annex to the Toronto Drill Hall, $300 for alterations to the drill hall and $200 for fitting up the field hospital battery, corps and artillery.

The Coronation Contingent.

In the afternoon, there was very little discussion on the $30,000 for the coronation contingent. The Minister explained pretty much what has already been published as to the composition of the force. He said it would be 600 strong, officers and men, one half infantry and the other half cavalry. The Mounted Police and Strathcona's Horse would be represented in the cavalry. The district officers commanding will choose the men, four from each cavalry corps and one from each of the smaller infantry corps and two from each of the larger infantry corps. There will be 22 officers, and the force will sail from Quebec on June 7. The War Office will supply the horses on the other side.

The Trent Valley Canal.

Mr. Kemp asked if it were the intention of the Government to complete the Trent Valley Canal through from Lake Ontario to Georgian Bay.

Mr. Blair replied that it was now in contemplation to complete the work between Lake Simcoe and Balsam Lake; but, as to the remainder of the route, between Lake Simcoe and Georgian Bay, he would not like to say definitely that it would or would not be completed. It was estimated the canal would cost $6,500,000 in all, about half of which had been expended. The section from Lake Simcoe to Georgian Bay would cost $1,500,000.

The item passed.

Meeting in the interest of the candidature of **MR. STRATTON** will be held at the following places and on the following dates:—

Foresters' Hall, Bailliehoro, Monday evening, May 12th.

Temperance Hall, Selwyn, Tuesday evening, May 13th.

Temperance Hall, 4th line Smith, Wednesday evening, May 14th.

Town Hall, Bridgenorth, Thursday evening, May 15.

Young's Point, Thursday evening, May 15th.

At Bensfort, Thursday evening, May 15th.

At Fraserville, Friday evening, May 16th.

Chair to be taken at 7.30 each evening.

A large attendance of the electors is requested. Mr. Miller is invited to be present.

PETER HAMILTON, President. G. M. ROGER, Secretary.

GOD SAVE THE KING.

On the votes of $8,000 for the Premier's expenses at the coronation, and $12,000 for the Ministers, Dr. Sproule asked the nature and scope of the conference.

Sir Wilfrid Laurier replied that there would be a conference of the self-governing colonies after the coronation. There would also be a conference between Canada, Australia and New Zealand, at which the Dominion would be represented by Hon. Messrs. Fielding, Mulock and Paterson. In view of the tariff of these countries and their requirements, he believed there was a hopeful field in these countries for Canadian exports. He believed the most promising means of developing trade with them was by the establishment of a line of subsidized steamers, calling at South Africa.

The Premier had great hopes of trade with South Africa when peace was restored, which he believed was not very far off. No special lines had been laid down in regard to the colonial conference. Suggestions would be given and received, the only object in view being the development of trade by means of mutual tariff references, and subsidized steamship lines.

Replying to Dr. Sproule, the Premier said he had not changed his mind in regard to his unwillingness to discuss a general scheme of Imperial defence.

Mr. Brock thought that a more important matter was our own domestic trade. He wanted to know how we could expect to be large exporters of manufactured goods to the Antipodes when we had not the control of our own home market.

The Premier replied that Mr. Brock's remarks would not throw cold water on his enthusiasm in this matter. Canada had shown that she could export agricultural implements and cottons. If Mr. Brock's high protective policy were carried out, Sir Wilfrid wanted to know how any scheme of preference, even with England, could be worked.

The Marconi Item.

When the item of $70,000 for the Marconi station in Cape Breton was under discussion the Finance Minister said that the whole thing was in the nature of an experiment. If it failed all Canada would have for her money would be a pile of stone and mortar; but, if it succeeded, as everybody hoped it would, the result would be a great reduction in cable rates.

The House adjourned at 12.40 o'clock p.m.

How the Cocaine Habit Starts.

Generally from using catarrh snuffs and ointments containing this deadly drug. It is well to remember that the only direct scientific cure for catarrh is Catarrhozone, which cures by the inhalation of medicated air. Simply breath Catarrhozone and it will cure all forms of Catarrh, Bronchitis, Asthma, Lung Trouble and Deafness. Every breath from Catarrhozone Inhaler, soothes, heals and relieves. Permanent cure guaranteed even though other remedies failed. Try Catarrhozone; price $1; small size, 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

Drowned at Kingston.

Kingston, May 7.—John Hastings, seven-year-old son of Mrs. Louisa M. Hastings, was drowned at noon yesterday in the waters near to the Kingston & Pembroke Railway roundhouse.

Died From Her Burns.

Guelph, May 7.—Mrs. George Lee, who was burned while burning rubbish on Friday, died Monday.

Miller's Granules are small; children will take them readily. Sold by all druggists.

THE CAMPAIGN.

Premier Ross Reveals the Alliance Between Dominion and Ontario Conservatives at St. Catharines on Tuesday.

Toronto, May 7.—The features of the Provincial campaign yesterday were the nominations of S. F. Washington, K.C., by the West Hamilton Liberals, and of J. G. King, by the Port Arthur and Rainy River Conservatives, and the addresses respectively of the Premier at St. Catharines and the Opposition leader at Sudbury. Most of Mr. Ross' colleagues addressed meeting at different points. There are scarcely more than half a dozen constituencies now in which both parties have not their men in the field.

St. Catharines, May 7.—Hon. Geo. W. Ross addressed a large and successful meeting in the Opera House here last night in support of Mr. D. J. McKinnon, Liberal candidate in Lincoln County. There was a heavy rainfall during the evening, but this did not prevent from attending as many as the Opera House could accommodate, numbering probably 900 people. Mr. Ross devoted most of his time to an explanation of the general features of his development policy, facts which were listened to with the closest attention by the audience. He also referred in a forceful manner to the evidence of an alliance between the Dominion and Provincial Conservatives with the object of attaining power in Ontario as a stepping-stone to winning at Ottawa. The attainment of office, the Premier showed, was their real object rather than any desire to improve or develop the Province. Mr. McKinnon created an excellent impression by his thoughtful speech and businesslike manner of presenting his ideas. The Opera House was decorated for the occasion, among the mottoes being: "Lincoln for Ross," "Welcome to Ontario's Premier," "Build up Ontario," "McKinnon, a business man, our choice."

Another Factor to Consider.

Toronto May 7.—The Ontario Liquor Dealers' Association has formulated the following questions, to be submitted to candidates for the Legislature:

(1) Will you vote and use your influence against the Liquor Act when voted on Dec. 4, 1902?

(2) If you are elected and the Liquor Act is repealed, will you vote in favor of a bill to postpone the coming into operation of the said act?

(3) If you are elected, and the Liquor Act is carried, will you vote in favor of a bill to repeal the said act?

(4) If you are elected, and the Liquor Act is carried, will you support a measure providing for compensation, based on the value of business, said values to be settled by a commission.

(5) If you are elected, will you oppose any further reduction in the number of licenses, increase in license fee or lowering of hours of closing?

REUBEN DRAPER.

Few Men Have had Such a Thrilling Experience.

A Quebec Gentleman who Relates an Interesting Story of a Narrow Escape—Happy Deliverance Just in the Nick of Time.

Bristol, Que., May 4. (Special)—There are not many men or women alive to-day who have passed through such a terrible trial as Mr. R. Draper of this place. Mr. Draper says:—

"About four years ago I was taken ill with what I thought was Gravel.

"I was suffering great pain so I sent for the doctor, he gave me some medicine and said he would call again.

"He came twice more and charged me fifteen dollars. I was a little better but not at all well, and in a short time after I took another bad spell.

"This time I sent for another doctor, with about the same results, only I was getting weaker all the time.

"Then a man advised me to try Dodd's Kidney Pills, for he said they had cured his mother.

"I thought I would try them and I got a box and commenced to take them right away.

"In just one week after I had taken the first dose, I passed a stone as large as a bean, and in four days after I passed another about the size of a grain of barley.

"This gave me great relief and I commenced to feel better at once.

"The improvement continued and I gained strength very rapidly until in a short time I was as well as ever.

"This is over four years ago, and I have not had the slightest return of the trouble since, so that I know now that my cure was an absolute and permanent one."

ELECTRIC LIGHT

Can be put in your house at small expense, even though it is not wired for it yet.

WIRING.

Installed by our system, means a clean, safe job; no plaster broken, or decorations spoiled, but the wires concealed in the walls in a through way, worklike manner, and subject to the approval of the Fire Underwriters.

A lot of old newspapers for sale for laying under carpets, wrapping purposes, etc. A. H. Stratton & Co.

WAS A SUCCESS.

The Tea and Sale at St. Paul's Church Largely Patronized.

The High Tea and Sale of Fancy Work which was held in St. Paul's Sunday School room yesterday evening under the auspices of the Ladies' Aid of St. Paul's church attracted an unusually large attendance and the and the affair will pass into record as being one of the most successful events of the kind that has been held in years. The tea room was visited by several hundred people between the hours of five and seven o'clock and a most elaborate bill of fare was in readiness for them. The various tables were presided over by an attentive staff of waitresses, who very ably catered to the wants of their customers. The younger ladies of the congregation of St. Paul's did valuable service in the matter of waiting on the tables.

The sale of fancy articles attracted great admiration and sold quickly and to good advantage. Several alcoves were converted into sale departments with saleladies, who evidently knew their business. Many handsome articles were taken home by well pleased purchasers and altogether the tea and sale was an unqualified success.

They say that "PING PONG" will be played all summer. Salisbury Co. have a big stock on hand. Prices start as low as $1.00.

PERSONALS.

Mr. Macfarlane Wilson continues to slowly improve. He was able to sit up in bed to-day.

A despatch from South Africa says that Sergt. Michael Murphy is still confined to the hospital.

Mrs. (Rev.) D. Martin, of Cannington, has been spending the last few days in town, with Mrs. (Dr.) Greer. Mrs. Martin is on her way to Montreal.

Rev. Mr. Crossley left this morning for King City, having been called away by the serious illness of his brother, Mr. J. W. Crossley. He will be joined at Toronto by the evangelist, Rev. H. T. Crossley.

During the last few months quite a number of Peterborough's young men have left the town—some for service in South Africa, others to seek their fortunes in the world, but the departure of none will be marked by more general regret than that of Mr. George Burnham, who leaves on Friday for Pittsburg. Mr. Burnham's popularity was widespread and would be difficult to over-estimate. A host of friends will be sorry to see him leave Peterborough, but will wish him every success in the United States.

GOLF BALLS—that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Salisbury Co.

A RESOLUTION OF REGRET

Was Passed by the Council Last Evening

Concerning the Death of the Late Mr. Henry Denne—No Grant of $500 to Entertain the 13th Regiment.

At a special meeting of the Town Council held, last evening, with Ald. Roger, acting Mayor, in the chair, the following resolution of sympathy was passed in connection with the death of the late Mr. Henry Denne:

Moved by Ald. Best, seconded by Ald. Clinkscale:—

"That the Council has learned with deep regret of the death of Henry Denne, Esq., J. P., father of His Worship T. H. G. Denne, Esq., Mayor of the Town. The late Mr. Denne was, during his many years' residence in Peterborough, a valuable citizen, and gave to the community many years of good service as a member of the Town Council, as a member and chairman of the Board of Health, as a representative appointed by this Council on the Board of Education, as President of the Little Lake Cemetery Company, and in other responsible positions. His well known honesty of purpose and strict integrity of character made him respected by the whole community, and, along with his natural ability, enabled him to serve the people with advantage in the public positions to which he was called, and won for him the esteem of the community and the sincere friendship of those more intimately acquainted with him. As an officer of the Corporation, while he held the position of collector of taxes, he was zealous and efficient in the discharge of his duties, and when he was stricken down with disease the Town lost a faithful officer. While expressing our deep regret on account of the death of Mr. Denne, we desire to tender to Mrs. Denne, to His Worship the Mayor, and to the other members of the bereaved family our sincere sympathy with them in their affliction.

"And that this Council, as a mark of respect, attend the funeral of the late Mr. Denne in a body."

The resolution was carried, all of the members rising as a mark of respect.

Ald. Best speaking to the resolution paid a high tribute to the deceased stating that the resolution contained nothing which exaggerated the meed of praise due the late Mr. Denne, whose uprightness in business as a leading grain merchant had added much to the name of the town.

Ald. Shortly, speaking as one associated with Mr. Denne on the Board of the Little Lake Cemetery also spoke most kindly of the deceased.

IN COMMITTEE OF THE WHOLE.

On motion of Ald. Clinkscale and Ald. Best, no action will be taken in the matter of the application made Monday evening by a deputation of citizens and officers of the 57th Regiment, asking for a grant of $500 to entertain the 13th Regiment of Hamilton here on the 24th of May.

A communication was taken up from Mr. Robt. Fair, President of the local branch of the Retail Merchants' Association asking that as Victoria Day falls on a Saturday, the Friday previous be declared a market day. The request was granted, and the Council then adjourned.

THE BOARD ADJOURNED

Out of Respect to the Memory of the Late Mr. Denne, an Ex-Member.

The regular monthly meeting of the Peterborough Board of Education was held last night. The following members were in attendance, Mr. W. H. Hill, chairman, and Messers. R. Fair, Dr. Caldwell, W. B. Bamford, J. J. Hartley, F. J. Jamesan, L. M. Hayes, Dr. Burnham, W. H. Wrighton and Peter Hamilton.

After the minutes of the last meeting had been read, Dr. Burnham arose and referred to the death that had occurred yesterday morning of Mr. Henry Denne, who for many years had occupied a seat at the Board. He moved, seconded by Mr. J. J. Hartley, that—

The Board has learned with profound regret of the death of the late Mr. Henry Denne, who for a period of upwards of twenty years was an active and zealous member of the Peterborough Board of Education. That a committee composed of the mover and seconder, Mr. Hamilton, Mr. Wrighton and Mr. Stevenson, be appointed to prepare an appropriate resolution of condolence, and that the same be engrossed and handed to Mrs. Denne.

The motion was unanimously carried.

Another motion moved by Mr. Hartley, seconded by Mr. Hamilton, that the Board send a suitable wreath to be placed on the coffin of the deceased and that the Board attend the funeral in a body, was also carried, and the Board then adjourned out of respect to the memory of the deceased.

THE SWITZERLAND OF AMERICA

The above caption is highly appropriate to the region in the "Highlands of Ontario," known as "The Lake of Bays" district. It is replete with natural beauty and loveliness, and comprises some of the most beautiful water stretches and picturesque landscapes, for which the locality is becoming so famous with the ever-increasing army of tourists. The scenic grandeur of hill and mountain, the placid beauty of the lakes, the lovely rivers, are not surpassed in any country. One thousand feet above the sea level. No hay fever; absence of flies; splendid speckled trout fishing; and good bathing and boating assured. Handsome illustrated descriptive matter, giving full particulars, can be had for the asking by applying to J. D. McDonald, District Passenger Agent, Grand Trunk Railway System, Toronto.

REV. W. J. JOLIFFE ACCEPTS

The Invitation to the Pastorate to the Charlotte Street Church.

Mr. D. D. C. Dawe, Recording Steward of the Charlotte street Methodist church, received a reply to-day to the invitation of the official Board, requesting Rev. Wm. J. Jolliffe, B. C. L., of Bowmanville, to become pastor of the Charlotte street church for the coming conference term.

The reverend gentleman cordially accepts the invitation, subject, of course, to the decision of the Stationing Committee of the Conference.

It is understood that the congregation of the church is greatly gratified at Rev. Mr. Jolliffe's acceptance, the feeling being that he will be a worthy successor to the Rev. Mr. Crossley, who has so acceptably and faithfully filled the pastorate for the past five years.

Not Entirely.

A little investigation shows that the strong taste of pure cod liver oil cannot be entirely removed without entirely removing the oil. You can taste the oil in Scott's Emulsion, but it is not unpleasant.

Established Half a Century.

You Want

SPORTING PASTIMES.

BOWLING-ON-THE-GREEN.

Members of the Bowling Club are reminded of the meeting this evening in the Board Room of the Toronto Savings and Loan Co. The reports of the membership Committee and the Lawn Committee will be received and the matter of the method of selecting skips will be discussed..

T. A. S. ATHLETICS.

A meeting of the T.A.S. lacrosse boys was held in the society's rooms last night, at which there was a large attendance. The principal business was the selection of a playing captain, field captain, and coach. Mr. Eugene McNicholl was appointed playing captain and the choice is certainly an excellent one. Mr. Joe Picard will fill the position of field captain, and is a good man for the position. Mr. Joe Begley will give the boys the benefit of his long experience in lacrosse, and will fill the role of coach. The Separate school grounds are to be rolled this week, and goal nets are to be procured for the players.

LACROSSE.

There will be a practice of the Y. M.C.A. men to-night on the Nicholls oval at 6.45 sharp. Let every man of the club turn out to make two full teams.

The Toronto Telegram says: — The Port Hope Ontarios will be out in full force on Monday, and rumour says they will atone for their showing on the ice last winter. That is, they will win their district, 'tis said, and a little more. John Renwick has great hopes for his team, and says that he has not the slightest doubt but what they will make good. When asked what Port Hope would do to Oshawa, Mr. Renwick merely smiled, so it is quite evident that something will come off this summer that will not be altogether to the liking of one of the teams. Even at this early date it looks like work for the Army Medical Corps. Port Hope is a sporty little town that takes its medicine without a murmur, and that is something that cannot be said of Oshawa, who have more kickers to the square inch than any town in the province.

BASEBALL.

St. John's choir boys will play St. Andrew's team on Saturday afternoon.

The Kingston Whig offers the following excuse for "Chaucer" Elliott; "There was no such thing as release in the case of 'Chaucer' Elliott, for he was not a member of the Toronto baseball team. He simply went to Toronto for a trial, full well knowing that his lot would not be an easy one, as he was an amateur in competition with professionals of greater experience. His record during the past three weeks showed him to be superior to Brennan, taken on, but a man's worth doesn't always count. 'Chaucer' went to Toronto on the invitation of Manager Barrow, who sought him, desiring to give him a trial. He had no desire to accept a position in a minor league, and simply returns after a three weeks stay in Toronto, having been taking a post graduate course in baseball."

There will be a junion baseball match on the Nicholls oval between the Victorias and the Y.M. C.A. next Saturday morning. This will be the third game in the triple league. The Hon. President of the club, Mr. A. W. Cressman, has decided to give a handsome enamel pin to each member of the winning team at the conclusion of the schedule. Following is the standing;

Names.	Won	Lost	To play
Rosedales	1	1	4
Y. M. C. A.	1	0	5
Victorias	0	1	5

HOCKEY.

Mr. Jos. Picard, secretary-treasurer of the Lakeview Hockey Club, has received a letter from Lieut. E. O. Bradburn, late manager of the Lakeviews, thanking the club for their handsome presentation to him, and expressing a hope that next year the Lakeviews would carry off the championship of the Trent Valley League.

CRICKET.

The Peterborough Colts will practice on the Nicholls Oval this evening, providing it does not rain. The Colts will go down to Campbellford on May 24th.

NEWS NUGGETS.

—All Saints' choir will practice this evening at 7.45.

—The Chief has in his possession a string of beads for which he would like an owner.

—An E. and D. Bicycle was stolen from in front of Mr. "Ted" Cavanagh's hotel a few nights ago, and unless it is returned there will be trouble.

—Court Queen, No. 276, I.O.F., will hold a concert on Thursday evening, May 8th. Refreshments will be served. As well as the concert there will be other amusements. Ladies, 15c.; gentlemen, 25c. 3d105

—There is a very bad piece of road just north of Smith street, on the way to Chemong. As this is a boundary line, neither municipality pays much attention to it, and the result is that it would disgrace a country side line.

—A Belleville paper says: "An old man, named W. Graham, who claims Peterbrough as his home, was arrested on Saturday evening for begging on the street. For two nights previous he had been in the station for protection. Upon promising to leave the city the magistrate allowed him to go."

ASHBURNHAM TO-NIGHT!

The friends and supporters of Mr. Anderson in Ashburnham will meet to-night in the butcher shop formerly occupied by Mr. P. Clover. A full attendance is asked.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

Superior Grey Lime.

"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

Vapo-Cresolene quickly cures colds, coughs, sore throat, whooping cough and croup.

BLOWING HOT AND COLD.

When one reads the speeches delivered in the interests of the candidature of Mr. Miller, one is surprised at the wild misstatements made, and the contradictory positions assumed, which lead the nascent orators into many political culs-de-sac. They play one part of the tune, while the candidate sings another, seemingly indifferent as to whether the people consider them fools for giving out such absurd arguments, or whether they consider the people fools enough to fail to see the glaring inconsistency of the positions taken.

At Mr. Miller's Baillieboro meeting the side speakers were Mr. C. H. Bradburn and Mr. J. H. Burnham. During the course of the evening, someone in the audience asked the following question:

passed by the Liberal Government.

Mr. Bradburn, what are your views on prohibition? Mr. Miller says he is a prohibitionist; what are your views?

Mr. Bradburn—I have no hesitation whatever in giving the gentleman my views on the prohibition question. I think Mr. Whitney, as the leader of the party, has adopted a course which every right-thinking man can adopt, and which every man who deals with with the question honestly should adopt. What Mr. Whitney says, is this: Our liquor law is on the statute books, the liquor traffic is open to corruption and under the recent administration of the laws hotel keepers sell at any hour and to any person, and every person. Mr. Whitney says, "If you will return me to power, I will pass a stricter license law," and he says that he will do what this government has never done in any branch, or in carrying out any of the enactments on the statute books, and that is he will see that the liquor law is enforced. If the measure were made stricter there is no question of the good that would be done this province.

This is what the supporter of Mr. Miller, the prohibition candidate, says in regard to the leader, whom Mr. Miller, the adopted Lindsay-temperance candidate, is pledged to support. Mr. Miller places himself in the position of trying to put into power, and keep in power, a leader who denounces prohibition and declares in favour of that abomination of the ardent temperance man, the legalized sale of "liquid damnation," the ruin of homes, etc., etc. Mr. Miller therefore practically commits himself to the support of the perpetuation of the traffic.

This is bad enough from a temperance point of view, but Mr. Miller admires the boldness of his leader, who has the brazen effrontery to declare himself a friend to a traffic, which Mr. Miller, as a temperance man, is bound to condemn, and as a bitter opponent of prohibition, which Mr. Miller has pledged himself to support; and the fact remains that Mr. Whitney cannot be trusted to give a more restrictive license law, for he has placed himself on record time after time as opposing the restrictive license law amendments passed by the Liberal Government, which Mr. Bradburn admits, at the close of his reply, as given above, are a good thing for the province.

There is no use of elaborating the inconsistency of Mr. Miller's position in relation to his leader. He and Dr. Ford seem to think they can play fast and loose with temperance—they think they can worship the "devil of drink," as represented by Mr. Whitney's declaration to perpetuate the traffic, and that at the same time they can be true to temperance by standing alone in the House and advance the cause of temperance by supporting a leader who declares himself opposed to prohibition and who will not allow any "monkeying" with prohibition on the part of his followers. The moment either Dr. Ford or Mr. Miller suggest or introduce any thing in the way of prohibition they will be sat on. Mr. Whitney will regard any such course by his supporters as a vote of want of confidence and will whip them into line or kick them out of the party as he did Mr. Marter, who committed the minor offence of thinking for himself against his leader, who was not in office and would not be seriously affected by the opposition of his own supporters. But if he were the leader of the Government he would keep his followers in line with an iron hand. Mr. Miller and Mr. Ford, as pledged supporters of Mr. Whitney, will find themselves as powerless to do anything for prohibition in the House as if, they were, where they will be, in the seclusion of private life.

"No man can serve two masters."

YOUNG MEN'S GUILD.

The regular monthly meeting of the Young men's Guild of St. Andrew's church, was held last night, there being a good attendance. The chair was occupied by the President of the Guild, Mr. T. G. Anderson.

After the transaction of the regular business, Mr. D. Spence read a paper on "King Solomon's Temple." From the amount of information gleaned from hearing Mr. Spence's able paper it was quite evident that his production had been the result of much thought and study. He was warmly congratulated upon the excellence of the paper. Refreshments were served, after which the meeting adjourned.

The Guild have had a group photo taken at Mr. Byers', which is being greatly admired. Mr. Byers has presented a large group photo of the members to the Guild, and the same will be placed in the Guild Room.

EVERYTHING UP-TO-DATE.

OMEMEE.

(From Our Own Correspondent.)

Seeding is about completed.

Fall and winter wheat looks well.

The weather is just what the farmers are looking for for putting in their root crops.

There will be a number of our musical loving people go down to the concert at Peterborough on May 12th, as arranged by Mr. Crane, who is favourably known here as a musical director.

Mr. Lewis F. Heyd, spent Sunday here, accompanied by his better half, Mrs. Heyd, and went away well pleased with our picturesque village, and declares our church services are of no ordinary kind, but both preaching and music compare favourably with larger places. The Reform candidate is in excellent spirits, and is receiving great encouragement to win, as the people he meets, north particularly, want a "change" to a representative and a supporter of a good government.

Mr. L. F. Heyd, the Reform candidate to be elected for East Victoria on May 29th, during his recent visit here declared that Hon. Mr. Stratton has done more for the north part of West Peterborough, in the matter of roads, schools, etc., than any one church could do, while the settlers of East Victoria have no friend to speak for them.

Jas. Graham, proprietor of the Commercial House, is kept continually on the jump with stock dealers, travellers, etc.

Our village is getting more sidewalks.

There are three or four new buildings going up, erected by retired farmers, who are only a few of the number getting rich.

THE TEMISKAMING RAILWAY.

First Sod Will Be Turned Saturday at North Bay.

Toronto, May 7.—The first sod of the Temiskaming Railway will be turned on Saturday at North Bay by Hon. F. R. Latchford, Commissioner of Public Works. It is expected that many prominent gentlemen will be present on the occasion.

There will be no excursion to the Temiskaming this season, according to Thomas Southworth, Director of Colonization, who states that the influx to that country is sufficiently large until railway accommodation is provided.

Diarrhoea Weakens the System.

and if not checked becomes a chronic condition. No remedy compares with Nerviline, which is prepared especially for stomach and bowel troubles. As a radical cure for cramps, colic, gas in the stomach, summer complaint, Nerviline excels everything in the medical line, as an indispensible household staple, and costs 25c. Buy a bottle to-day.

Try Dr. Hamilton's Mandrake Pills.

Seeds That Grow.

If you want reliable flower, field and garden seeds, you'll be safer to buy them right at home, from Ormond & Walsh's drug store. dw

APPROVE PROPOSALS

Gen. Beyers Willing to Abide by the Burghers' Decision.

THE S. A. PEACE SITUATION

Opposition Developing Among Delarey's Irreconcilables—Movements of Columns—Lord Kitchener's Report of the Week's Results—Boers Killed, 16, Made Prisoners, 122—A Battle Near O'Okiep.

Pretoria, May 6.—The peace situation is developing encouragingly.

According to reliable information which has reached here, several of the nearer commandoes have received the burgher delegates in an amiable spirit.

It is understood that Commandant Beyers has announced his willingness to abide by the decision reached by the Transvaal Government.

Considerable opposition to the peace movement, however, is growing up about the irreconcilables of General Delarey's force.

FIGHTING STILL CONTINUES.

British Clearing the Country in Spite of Peace Negotiations.

London, May 7.—Lord Kitchener's weekly report, dated from Pretoria yesterday, shows that the peace movement is not allowed to interfere with military operations, except so far as to permit of unrestrained meetings between the leaders and their various commands. The week's Boer casualties were 10 men killed and 122 made prisoners.

General Bruce Hamilton's columns captured 87 men on the Heilbron (Orange River Colony) line. Colonel Colenbrander has resumed operations in the northern part of the Transvaal against Commandant Beyers, whose forces have been considerably reduced, and General Ian Hamilton has cleared a large area west of Klerksdorp, Southwestern Transvaal.

Heavy Boer Losses.

Cape Town, May 6.—The O'Okiep, Western Cape Colony, relief column, has occupied Steinkopf to the north of O'Okiep, which was strongly held by the Boers, after fighting, April 27 and April 28. The British lost six men killed, and had eight wounded. The Boer losses are said to have been heavy. The Boers asked for British medical assistance.

Escaping Boer Prisoner Shot.

Hamilton, Bermuda, May 7.—Frederick Hendrick Bosch, a Boer prisoner of war in the prison camp on Tucker's Island, 19 years old, was detected by a sentry in the act of breaking through the wire entanglement on the night of April 26. The soldier fired at the escaping prisoner, and the latter ran into the brushwood. A second shot, which passed through his body, brought him down. The wounded Boer was at once taken to the hospital at Port's Island, where he received every care and attention. His wound, however, proved fatal, and he died at sunrise on Sunday morning. Bosch had made three previous attempts to escape, but had been recaptured each time.

PROMPT ACTION IS IMPERATIVE.

Time Lost at This Season Means Increased Suffering, Perhaps Death.

Paine's Celery Compound

Is the Never-Failing Health Restorer in Springtime.

It is now an established fact that nervous prostration, insomnia, rheumatism, neuralgia, dyspepsia and blood diseases are curable, if Paine's Celery Compound is honestly and faithfully used at this season. It is well known that many of our most successful physicians are daily prescribing and recommending Paine's Celery Compound. This fact proves the superiority of the great medicine over all the regular drugs usually prescribed for the troubles mentioned above.

Paine's Celery Compound is preeminently adapted for correcting unhealthy nerve action; it feeds the nerve centres with elements needed to strengthen them and build up healthy tissue. It purifies the blood, taking away every trace of poison, and encourages a rapid growth of red corpuscles upon which the vigour of the entire system depends.

Weariness, tired feelings, despondency and unrest, so prevalent in the last days of spring are banished after a week's use of Paine's Celery Compound, and full vital energy and strength take the place of lassitude and weakness.

Now is the time to strike at the root of your besetting troubles. The work of recuperation begun to-day will save you future weeks, perhaps months of torture and mental agony.

The immense and unprecedented demand for Paine's Celery Compound—earth's best medicine—is an indication that thousands are throwing off disease and seeking health. Past experience and the happy results given by Paine's Celery Compound, all combine to make clear your path of duty. Begin to-day with Paine's Celery Compound if you would establish health and vigour for the coming summer season.

Earthquakes in France.

Paris, May 7.—Violent earthquake shocks, which occurred at 3 o'clock yesterday morning, are reported from Bordeaux, Bayonne, Pau and other places. They lasted 15 seconds.

Cloudburst Kills Nine.

Oklahoma City, O. T., May 7.—A cloudburst at Foss, 100 miles west of this city, drowned nine persons Sunday night and left many families homeless.

Saves Others.

When one of the children has diphtheria, scarlet fever, or measles, why not keep the others from having it? You can do so with our Vapo-Cresolene. Put some Cresolene in the vaporizer, light the lamp beneath, and have them breathe in the vapor. This vapor destroys all the germs of disease. The contagion can't spread—you save others. It is the only known specific for whooping-cough. Ask your doctor about Vapo-Cresolene.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

CESTRIAN'S SAILING

First of Fourth Contingent to Sail on Friday or Saturday.

ANOTHER CANADIAN IS DEAD

Trooper E. H. Paton, Toronto, Succumbs to Enteric Fever—William Brock, Newmarket, Dangerously Ill—Condition of Other Canadians Who Are Wounded and Ill — Capt. Elmsley's Tribute to Heroes.

Ottawa, May 7.—The following casualties have been reported to His Excellency the Governor-General by the Casualty Department in South Africa:

William Brock, South African Constabulary, dangerously ill of enteric fever at Pretoria, May 3. His mother is Mrs. J. Brock, Newmarket, Ont.

Ernest Hugh Paton, South African Constabulary, died of enteric fever May 2nd, at Pretoria. His father is Mr. Hugh Paton, waterworks department, Toronto.

William G. Shanks, South African Constabulary, leg amputated, dangerously ill at Potchefstroom, May 4. His brother is T. Shanks of Pettypiece, Manitoba.

E. Redswell, 2nd C.M.R., ill of enteric fever at Pietermaritzburg, will shortly rejoin his regiment. Redswell belongs to Medicine Hat.

Pte. M. Murphy, Peterboro, and A. Pearson, Toronto, the former wounded at Hart's River and the latter ill of enteric are still in hospital.

Official Notice of Evans' Heroic Death.

Port Hope, May 7.—The following is a letter just received by James Evans, Harbor Master, from Captain Elmsley of E Squadron, 2nd Canadian Mounted Rifles:

To James Evans, Esq., Port Hope, Ont.:

Sir,—It is my painful duty to report the death of your son who was killed in action on March 31, 1902, near Brekspruit. Lieut. Carruthers, who was with him when he died, stated that he behaved in a most gallant manner, being shot twice he still continued firing, and though his troop was overpowered by a large party of Boers, he broke his rifle before he surrendered. He died from his wounds a few hours after being brought into camp.

I hope you will accept the greatest regret from my officers and self in the loss of your gallant son, which loss will be greatly felt throughout my squadron.

J. H. ELMSLEY,
Capt. Commanding E Squadron, 2nd C.M.R.

Shot Twice Before Killed.

Brantford, May 7.—Capt. Elmsley, writing to Mrs. Sherritt concerning the death of her son, Alf. Sherritt, says:

"Lance-Corporal Sherritt behaved in a most gallant manner, when his troop was surprised, and greatly outnumbered by a large party of Boers. Lieut. Carruthers, who was near him when shot, states that, though wounded, he handled his men splendidly, and greatly assisted him before he was shot a second time and killed."

Third Regiment Inspected.

Halifax, May 7.—The 3rd Regiment of the C.M.R., Col. Williams in command, was inspected yesterday by Major-General O'Grady-Haly, who expressed himself as much pleased with the men's appearance.

The Cestrian may not be able to get away on Thursday. It is thought she will not be ready till Friday or Saturday. The ship will be provisioned for forty days, and large refrigerators have been built for the fresh meat. Three and a half pounds of meat, salt and fresh, for each man is the allowance, and, accordingly, about 100,000 pounds of meat will be taken along. Fresh water enough for the trip will be taken on board, so that it will not be necessary to use condensed water. The meals will all be cooked on board every day, a big staff of cooks having been engaged.

Given the D.S.O.

Halifax, May 7.—Three thousand people assembled in the Armouries last night to witness the presentation of the distinguished service order to Major H. B. Stairs of Halifax, who was in South Africa with the first contingent. All the militia battalions paraded, and the presentation was made by Lieut.-Governor Jones.

Just 400 Years After.

In 1492 Columbus discovered America. In 1892, just 400 years later, Merrill, a Brantford druggist, discovered Four T's, the great guaranteed cough and cold cure. In five years the sale of a quarter million bottles has proved that Four T's never fails to cure a cough in 24 hours, and a cold in two days. Large bottle 25c. at Ormond & Walsh's drug store.

For twenty-four years Vapo-Cresolene has been extensively used for all forms of throat and bronchial troubles. All Druggists.

BRET HARTE IS DEAD.

"Poet of the Sierras" Passes Away Suddenly in London.

London, May 7.—F. Bret Harte died here Monday night. Mr. Harte had been suffering from swollen tonsils since December last, but he did not consider the attack to be serious. A week ago he went to visit friends at Camberley and was present at lunch as usual. But he suddenly became ill in the afternoon, went to bed, and died in a few hours. His end was peaceful.

Sketch of His Life.

Francis Bret Harte, born in Albany, N.Y., Aug. 25, 1839, was well known as an author the world over. His poems and stories, "The Heathen Chinee," "Luck of Roaring Camp," and similar productions of the mining regions, won the popular taste, and made "the Poet of the Sierras" one of the best-read writers of the day. His early days were spent in the mining regions of California, later he engaged in newspaper work, became editor of The Overland Monthly, afterwards was appointed U.S. Consul at Crefeld, Germany, in 1878, and later at Glasgow, Scotland, where he remained from 1880 to 1885, and since then has resided in London, where he died.

Stops the Cough and Works off the Cold.

Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25c. m-w-f

Scalded By Boiling Beer.

Toronto, May 7.—Lying in the General Hospital, suffering terrible burns, is Frank Hoffman, a brewer's helper employed in the Reinhardt Brewery. His condition at an early hour this morning was critical, and it is doubtful if he will recover. Hoffman was standing yesterday morning near a big tub in the brewery, in which the beer is subjected to a great pressure of heat. Suddenly the heavy iron door which opens into the tank broke, and the scalding beer poured over him. Drs. Simpson and Sneath were summoned, and they temporarily dressed the wounds, after which he was removed to the hospital. Hoffman is 24 years of age, unmarried, a German, and has been residing in Canada about a year.

Dr. Grant Operated On.

Kingston, May 7.—Yesterday afternoon an operation was performed on Principal Grant, and through it he secured relief and is now resting comfortably. After the operation he talked freely. The danger is by no means over, and friends are very apprehensive as to the outcome.

Admiral Sampson Dead.

Washington, May 7.—Rear-Admiral W. T. Sampson, retired, died at his home in this city at 5 o'clock yesterday afternoon. The immediate cause of death was a severe cerebral hemorrhage. The body will be taken to the Admiral's old home at Palmyra, N.Y., for burial.

Trouble in Portugal.

London, May 7.—A despatch to a news agency from Madrid says that advices received there from Portugal indicate that there is danger of an actual revolution in that country.

Apply This Test To Your Nerves.

If You Have These Symptons Your Nerves are Weak and Exhausted—You can get Well by Using

Dr. Chase's Nerve Food.

Nervous diseases are little understood. They have long been enshrouded in more or less mystery by the medical profession. Many who are fast falling victims of nervous prostration, paralysis or locomotor ataxia think that they are merely not very well, and will soon be around again—so insidious is the approach of nervous diseases and nervous collapse.

Study these symptoms. They are for your guidance. You may not have them all, but if you have any of them your nervous system is not up to the mark, and a little extra expenditure of nerve force may bring the dreadful downfall.

Intolerance of motion, noise and light; twitching of the muscles of the face and eyelids; fatiguing sleep, sudden startings and jerkings of the limbs; dizziness and flashes of light before the eyes; irritability and restlessness in every part of the body; headache, indigestion, feelings of weariness and depression, and loss of interest in the affairs of life.

So long as the daily expenditure of nerve force is greater than the daily income, physical bankruptcy is certain to result sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr. Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly to form nervous energy. Nervous diseases do not right themselves. They come on gradually as nerve force becomes exhausted, and can only be cured when the nerve force is restored.

No treatment for nervous diseases has ever received such universal endorsement by both physicians and people as has Dr. Chase's Nerve Food.

Mrs. Crapper, 37 Salem avenue, Toronto, says:—

"For the last two years I have been a great sufferer from paralysis of the right side, which has confined me to the house. On recommendation of friends I began the use of Dr. Chase's Nerve Food, and can say that this treatment has proven of very great benefit to me. I realize that my ailment will not disappear in a few weeks, but I have improved so much already that I believe a continuation of this medicine will entirely cure me."

In the press of Canada you will find hundreds of earnest letters telling of the wonderful benefits derived from Chase's Nerve Food; 50c a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 4

KILLED BY G.T.R. TRAIN

Sad Death of the Eldest Son of the Bishop of Toronto.

THE YOUNG MAN HAD BEEN ILL

Was Extremely Depressed in Spirits in Consequence, and Threw Himself Before G.T.R. Train No. 24 at the Western Entrance to High Park, Toronto—His Death Was Instantaneous.

Toronto, May 6.—Arthur E. Sweatman, eldest son of Bishop Sweatman, threw himself in front of Grand Trunk train No. 24 at the western entrance to High Park at 12.15 o'clock yesterday, and was instantly killed. The train had stopped at Swansea and had just started again when Sweatman, who was on the north side of the track, threw off his coat and ran directly in front of the engine.

Neither Engineer Heron or Fireman Burns saw Sweatman until it was too late, and he was run down. The train was stopped, and Conductor Myers had the badly mutilated remains brought to the Union Station. Near the scene of the fatality deceased's coat was picked up, and, pinned inside, was an envelope addressed "A. Sweatman, 86 Howland avenue," and containing a pamphlet from the Central Y.M.C.A. Written in pencil in one corner were the words: "May God forgive me," and "Phone N. 1,285" was interlined with the address.

Deceased was 33 years of age and unmarried. He was a civil engineer, and was well known in military circles. He was appointed a lieutenant in the Royal Grenadiers on April 24, 1891, and became captain in May, 1894. Three years later he retired. The dead man only returned from California the latter part of last week. He went there to recruit his health and suffered a severe attack of typhoid fever. He was visited there by his mother. He was engaged for some time on the Panama Canal. No cause is assigned for the suicide, other than his poor health.

He had been at the Union Station at 8 o'clock yesterday morning looking after some marble. While there he asked Superintendent Gormally for work at kalsomining. Coroner A. J. Johnson last night interviewed Edward Wringer of Humber Bay, the only known eye witness of the fatality, and concluded that an inquest was unnecessary. The remains are now at Millard's undertaking rooms, and arrangements for the funeral will be made to-day.

Rheumatism..

Is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the *cause* of those fearful shooting pains and stiff, aching joints. There is but one sure way—

SAD DROWNING EPISODE.

Two Girls Drowned Through the Unconsciousness and Scare of a Sister.

Pembroke, May 6.—A very sad drowning accident occurred Sunday afternoon in the Ottawa River, near Westmeath. Mr. John Fitzpatrick, his wife, and his two sisters, Minnie and Fannie, were crossing in a row boat from Alluemette Island to Westmeath. Near Paquette Rapids, and about ten feet from Westmeath shore, Mrs. Fitzpatrick became frightened and jumped out of the boat. Her husband followed to save her and they reached shore safely. The boat, with the two girls, drifted out into the rapids and upset. The bodies have not yet been recovered. They are daughters of Thomas Fitzpatrick and aged about 22 and 17 respectively.

Cause of Death Unknown.

Newmarket, May 6.—The adjourned inquest on the body of Mr. Fowler, whose remains were found in the woods a few miles east of here, was concluded last night before Coroner J. H. Wesley, M.D., and the following verdict brought in by the jury: That William Fowler came to his death in the Township of East Gwillimbury, County of York, from causes unknown on or about the 20th day of October, 1901, and there is no suspicion of foul play from the evidence adduced.

Inquest Further Adjourned.

Brantford, May 6.—The adjourned inquest into the death of the late James Quirk met last evening and was further adjourned until Tuesday, May 20. The session lasted a brief time, and no evidence was taken. The adjournment was probably due to the fact that the inquiries into the mystery have not met with any definite success, and no new evidence of importance as far as known available.

Lord Roberts to Retire.

London, May 6.—In military circles the question of Earl Roberts' retirement from the post of Commander-in-Chief immediately after coronation is freely discussed. It is looked upon as a certainty that the Duke of Connaught will succeed him. The fact that Lord Roberts has recently purchased a big estate in the country is considered proof of this statement.

Seal Catch Worth $450,000.

St. John's, Nfld., May 6.—The coal steamer Kite escaped from the ice floes in White Bay last Wednesday and reached here yesterday morning. The seal fishing is now over and the total catch amounts to 275,000 seals. Only three men perished. The value of the catch approached $450,000.

Quackery vs. Science.

Most patent medicines emanate from people who know nothing of medicine or chemistry. Merrill's System Compound is skilfully compounded in one of Ontario's largest drug stores, after the suggestions of three eminent physicians. It purifies the blood, builds up the system, strengthens the nerves and regulates the bowels. 50 pleasant-to-take doses for 50 cents. Sold by Ormond and Walsh.

Kidnapped by Highbinders.

New York, May 6.—Weo Lung Fong a beautiful Chinese girl, who was brought to New York three weeks ago to become the wife of Ling Foy, wealthy Ninth street tea merchant, has been kidnapped by Highbinders, and intense excitement prevails in Chinatown.

100,000 in Funeral Procession.

Chicago, May 6.—With almost pomp and magnificence, Sam Moy, the late Mayor of Chinatown, has been borne through the streets of Chicago, and his body laid to rest in Rose Hill Cemetery. One hundred thousand Chicagoans did honor to Sam's memory.

On Magnetic Healing.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

Firemen Fatally Hurt.

Buffalo, May 6.—At 3.30 yesterday morning the front wall of the burning Wells' elevator fell, burying two of the firemen, Lieut. John Hoelcle and Pipeman John Kennel. The latter's injuries are said to be fatal. Hoelcle was able to walk to the hospital.

Archbishop Corrigan Dead.

New York, May 6.—Archbishop Corrigan died at 11.20 o'clock last night. He was born in 1810.

This is Tuesday! Hohwid blundaw!

The Greater of Two Evils.

"You are not sick, Job," said one of the friends. "You only think you are."

"Only think I am, eh?"

"Yes. It is merely a delusion."

"Well, then, all I've got to say is I'd rather be sick than have this delusion."

And then poor old Job went exploring for a new boil that had just made its debut on the back of his neck.

How I Lost Her.

She is a sweet, poetic dream,
A lily on love's crystal stream,
But she, with all her charms divine,
Will ne'er, oh, ne'er, oh, ne'er be mine.
Because last night unto this dear
I said, beneath the chandelier,
"Last springtime, when the blossoms white
I saw on your black hair alight,
I thought they looked, upon my soul,
Like snowflakes on a load of coal."

Above the Market Price.

"I see where a fellow is going to pay $500 for a poem."

"What?"

"Yes. He cut it out of a paper in the Congressional library, and that is what they fined him."

A Toast Always Good.

Here's to blue eyes, to brown eyes, to hazel eyes and gray,
But what are the eyes I drink to today?
No matter the color, oh, here's to the eye
That laughs when I laugh and cries when I cry!

On the Strand.

"Clawerence, do you think we should try to assimilate the Boers if we conquer them?"

"Howahs, no! I am suah with such large hands they would nevah be graceful at pingpong."

The Season Approacheth.

Soon the earth in summer outing
Will its banners green be flouting,
And once more
Youthful earthlings will be shouting:
"Wat's de score?"

Plenty to Squander.

"I have a large fortune."

"You haven't a cent, and you know it."

"I repeat I have a large fortune—if time is money."

S-s-s-t!

Our neighbors! Well, they're hard to beat.
I hate to make complaint,
But half the people in our St.
Would aggravate a St.

Lazy Livers and Sluggish Kidneys

When these organs fail to perform their proper functions, the blood becomes poisoned and and suffering and disease commence. This can be avoided by keeping your vitality at high-water mark, the blood rich and pure, by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. Morning tiredness, Languor, Dizziness, Pain in the Back and Sick Headache disappear at once when Ferrozone is used. Get it to-day. Price 50c., at Ormond and Walsh's.

Dr. Hamilton's Pills cure Biliousness.

MAKING STEEL RAILS.

The First Lot Turned Out at the Clergue Works.

Sault Ste. Marie, May 6.—Steel rails were made yesterday in Sault Ste. Marie. The first rails ever made in a Canadian mill were successfully run yesterday afternoon. The mill will now run regularly. The metal, after being blown, is handled as in the best modern practice by pouring into moulds, the ingots being stripped after standing a few minutes. Stripping is done by means of an overhead stripping crane, provided with an auxiliary trolley, which is used to charge the ladles on the ladle crane. After passing through several stages they are finally cut, drilled and cooled, and loaded on cars for shipment. The plant is arranged so as to handle a 30 or 60 foot rail, 850 pounds to the yard. The machinery in this extensive plant is all driven by electricity, and has been pronounced faultless.

Queen Wilhelmina's Condition.

The Hague, May 6.—At 10 o'clock last night Her Majesty was reported to be sleeping quietly, and at that hour her condition was practically unchanged. It is known that Her Majesty's condition remains precarious, and that everything depends upon the strength of her constitution. This is reasonable hope for her recovery, however, providing hemorrhage is averted.

A Conflict of Testimony.

Hamilton, May 6.—The inquest into the death of Robert Murray, express messenger, who was killed in the collision on the Grand Trunk last Tuesday evening, was resumed last night, before Coroner Balfe, in the absence of Coroner White. There was a conflict of testimony, and the inquest was adjourned till Wednesday night.

Sentenced on Saturday.

Pittsburg, May 6.—Mrs. Kate Soffel, wife of Warden Soffel, pleaded guilty to aiding the Biddles to escape, and will be sentenced on Saturday. The maximum penalty is two years in the penitentiary.

Shot Himself and Wife.

Syracuse, May 6.—At 6.30 yesterday morning Miles E. Brown shot his wife, Minnie Brown, and then shot himself. He died instantly. The woman is in a precarious condition.

'Twas Easier.

"So you are going to Europe?"

"I am," answered the young man.

"Why don't you stay here in America, where there are so many opportunities to make a fortune?"

"Well, I've concluded that the other side is easier. Of course you can make a fortune if you will stay and work for it, but people are always more liberal when they are away from home. I have concluded that it is much easier to go over there and let the other Americans bring it to me."

Valuable Advice.

Young Lady—A friend of mine is engaged to a man, and now he refuses to marry her. What would you advise her to do?

Old Lawyer—Is the man wealthy?

Young Lady—No. He hasn't a shilling.

Old Lawyer—Then I'd advise her to write him a nice letter of thanks.

SWEEPING, STRIKING AND STARTLING SALE OF

BOYS' SPRING SUITS

PRICE REDUCTIONS OF UNPARALLELED MAGNITUDE IN BOYS' THREE-PIECE AND TWO-PIECE OUTFITS.

The New Management plunges the knife into old prices of Boys' Clothing. Several manufacturers have met their Waterloo in recent bold trade deals with Gough Bros. Syndicate, and the result is an overstock of Juvenile Clothing. This Great Stock Must Go—and that's all there is to it. Bargains to electrify every thinking parent, surpassing in direct value any and all previous values. Close on to **2,000 BOYS' SUITS MUST GO,** no matter what the cost. Suits alluring to the eye, prices pleasing to the purse, suits that stand for perfection, every parental whim and wish anticipated. The difference in price represent great gaps between Regular and our Present Mark-Down Sale Prices, tremendous savings to parents, and others interested. Here are some of the sliced prices. Reductions are positively bona fide. This Great Sale will start on **Saturday, May 10th,** and will be continued with unceasing activity during the whole month of May. Visit this Sale frequently. Bring your boys to Gough's for their 24th of May outfits.

SPION KOP DESPATCHES.

Letter From Sir Redvers Buller to Mr. Balfour—Some Interesting News.

Mr. W. A. Greenslade, of No. 273 Charlotte street, town, has very kindly handed the Examiner for publication some clippings from the Crediton Gazette and East Deron Herald, concerning Sir Redvers Buller's correspondence with Mr. Balfour. "The Downs," from which place Sir Redvers writes, is only sixteen miles from Mr. Greenslade's old home in England. The following is one of the items.

In continuation of the correspondence which recently took place between Sir Redvers Buller and Mr. Balfour, the General on Saturday forwarded the following further letter to Mr. Balfour:—

"The Downs, Crediton, April 5th, 1902

"Dear Mr. Balfour,—As I first saw your letter of the 25th ult. in the papers, I thought it better to postpone my reply until after the Easter holidays.

"Throughout our correspondence you have raised many points which it has been impossible for me to discuss, having, as you are aware, been ordered not to make public a copy, or the purport, of any telegram or despatch relating to South African affairs. I venture to think that, having that knowledge, you would have been more chivalrous had you avoided attacking me in your correspondence with Mr. Norman; and I feel I have grave and just reason to complain of your reference to unpublished documents, of the very existence of which I was again ignorant, and of which you are neither the custodian nor the Minister officially reponsible for their communication to the public. I accept full responsibility for my actions at Spion Kop and everywhere else. I am satisfied that I in no respect failed to comply with the regulations. If I did, it was for my military superiors to find fault.

"You are entirely mistaken in supposing that I intended to apply the word 'manipulation,' to you, or to the Secretary of State, or the Commander-in-chief in the sense your letter suggests. I used it in reference to facts that are notorious. A wholly incorrect document, purporting to represent my words, has been published, and has not, owing to the order mentioned above, yet been explained. Threats of possible disclosures that, according to one of my informants, would, if made, wreck my military reputation, or according to another, ruin me in the estimation of all fair-minded men, have been put in circulation—the reference in the Times of the 13th October last to my despair—the reference in the Standard of 13th November last to the secrets and possible intentions of the Government. With these well-known incidents in my mind, when you initiated a discussion about 'reticience,' was it in any manner offensive for me to characterise publications which have affected me deeply? If it was, I unreservedly withdraw the word, but I maintain that I am justified in expressing, in the strongest manner allowable, my feelings with regard to these publications.

"With regard to my military reputation, that must stand or fall by my own actions, but it is difficult to understand what reasons you can have for introducing the words 'if possible' into the last sentence of your letter. Not one act of mine has been challenged by my military superiors. It will be time for me to defend myself when that is done, as I shall then, I suppose, be free to tell the truth. At present I am bound. All that I can now say is that I was left through months of danger and difficulty in the full belief that I retained the entire confidence of the Government, that before I left South Africa I was thanked by the Commander-in-Chief in the Army Orders of the Command, and that after my return to England I received, on two separate occasions, renewed proofs that I retained the confidence of my Sovereigns and their advisers. I am, dear Mr. Balfour, yours faithfully,

"REDVERS BULLER."

STOCK MARKETS.

Clearing out Wall Street's Wildcats.

The work of clearing out some wild cat stocks has been going on. The process has been a painful one to some people, such as had been induced to purchase these doubtful shares or loan money upon them. Even the brokerage houses that were parties to the manipulation of these doubtful securities were dragged down as well as their clientele. We have steadfastly refused to buy and carry these securities for our clients, though frequently urged to do so. Our refusal saved much money for our clients. Their doubtful character, highly artificial market and poor quality as collateral, held us firm to our rule not to trade in them for our customers. Many of the involved people have been compelled to sell their stocks in order to take care of their commitments. This compulsion temporarily weakens the market. The market will be all the better for it once the job is finished. Good securities will rise again and largely. The process of weeding out is causing bargain offerings. To go back to the coal shares, as promised in yesterday's letter;—

Four years ago, when Reading and Erie were re-organized and assessed, a general combination of the coal roads was put in operation. The proposition was supposedly practical, for the reason of limited output and fixed prices. The scheme fell through because the bituminous coal roads could deliver their product, and were anxious to make a market whenever the anthracite people put their product on a paying basis. The combination has now been brought to life and made a practical working force by an amalgamation of all coal producing properties, and to-day its limitations are governed by the usages of a world wide market. In connection with the value of coal lands that through the corporation paid what appeared to be at the time extravagant prices, they gained an ultimate monopoly and while Mr. Gowan broke his heart, and also the Reading railroad, he secured for generations yet to come property that will produce in even increasing quantities, the Black Diamond of Commerce, and to repeat an old saying, he builded better than he knew.

A word of caution—Don't sell coal stocks when weak on strike prospects. Strike or no strike, they are all destined to sell very much higher. Buy them when weak. Further advances were recorded to-day, some of them quite sharp. The Southern Group was most prominent, L. N. touching 142, a new high price. Monon. up six points. Ill. Cen. gained over two points, as did Erie also. It is certainly a bull market. Reactions brought about from whatever cause should be taken advantage of to make purchases.—Haight & Freese Co.

Scrofula cured by Miller's Compound Iron Pills. Sold by all druggists.

BENSFORT.

(From our own Correspondent.)

Mr. George Smithson had the misfortune to cut his knee some time ago, but is now able to be around.

Mr. Robert Nurse received the sad intelligence of the death of his son Thos., of Minneapolis, Minn. He left home some years ago, and has not been home since.

Mr. Thos. Woods has purchased the farm of Mr. John Creba of the McAllister Milling Co., Peterborough, and intends taking possession this fall.

Mr. Russell Morrison has rented the farm belonging to Mr. Thomas Cowling.

Mr. J. Huggins intends raising his barn and putting a wall under it. Mr. R. J. O'Hair has the contract of the stonework.

Mr. Jas. Wedlock is preparing for a large trade this summer. He launched his steam yacht last week. Drs. Montgomery and Turner, and several others, were present. It is needless to say that they had a general good time.

The cheese factory is again in operation, under the efficient management of Mr. Andrews, who has had a severe attack of appendicitis, but is now around again.

Spring work is pretty well over in this neighbourhood. Some people have a little to do yet owing to wet land and the continued wet weather.

We do not hear of so many fish being taken out of the river this spring, although we hear it whispered that two or three fishermen have had a narrow escape from the inspector.

WHAT SOLDIERS USE IN AFRICA

Kennington Pk., London, Eng., Dec. 1, 1900.

Gentlemen:—

I have great pleasure in testifying to the excellence of your remedy Kelpion, as I found it of great use while on active service in South Africa, and I believe it has no equal as a cure for saddle chafes, sore feet and skin diseases of every kind.

(Signed) Private M. Hanlon, No. 720, C.I.V.

At all druggists 25c.

37 Balfour Road, South Norwood.

I have been troubled for some time with eczema in two parts of the body, and although I have tried several supposed cures, and even had medical advice, I was afforded no relief. After rubbing Kelpion twice into the affected parts, however, I must acknowledge myself surprised, though naturally pleased, to find that the Eczema had disappeared.

TOTAL IS $59,100,939.

The Dominion Estimates for the Next Fiscal Year.

THE FINAL SUPPLEMENTARIES

The List Brought Down by the Finance Minister, Hon. Mr. Fielding, on Wednesday, Provides for an Expenditure of $5,739,301—Toronto Gets a Large Sum—Figures in Detail.

Ottawa, May 8.—Supplementary estimates for the fiscal year ending June 30th, 1903, were submitted to the House yesterday morning. They call for a total expenditure of $5,739,301, of which $3,386,201 is chargeable to consolidated fund and $2,353,100 to capital. This, added to the main estimates, makes a total of $59,100,939 for the next fiscal year. The sum of $175,000 is asked for the exhibitions at St. Louis, U. S., and Osaka, Japan, in 1903, in addition to the $5,000 already voted, and the sum of $20,000 for the exhibitions at Wolverhampton and Cork. For the latter $50,000 has already been voted. The sum of $300,000, of which $210,000 is a revote, is appropriated for arms, ammunition and defences, and for the purchase of rifles $150,000 is set apart. Towards the expenses of the coronation contingent an additional sum of $50,000 is asked, making the total appropriation up to date $80,000. A total of $1,285,000 is set apart for capital expenditure on the Intercolonial Railway, $100,000 for improvements in the harbor of Port Colborne and $25,000 for dredging the River Kaministiquia.

Among the votes for public buildings in Ontario appear the following repairs: Toronto Drill Hall, $6,000; branch postoffice, west end, Toronto, $20,000; underpinning walls, Toronto Custom House $5,000; alterations and additions Toronto Postoffice, including elevator and fittings, $10,000; additional amount Toronto Junction public building, $5,000.

Stable accommodation, Kingston military buildings, $5,000; addition to Guelph public building, $11,000; to complete Dundas Drill Hall, $5,700; improvements Hamilton public building, $1,000; improvements and repairs Peterboro' public building, $3,500; improvements and repairs Port Hope public building, $1,300; improvements and repairs Cobourg public buildings, $2,400; addition to Berlin public building, $5,000; improvements to Galt public building, $1,000; new letter boxes, etc., Hamilton Postoffice, $1,200; to complete Picton public building, $4,150; public building, Alexandria, 7,000; public building, Bowmanville, $5,000; extension, examining warehouse, Hamilton, $10,000; alterations Postoffice, Windsor, $3,800; public building, St. Catharines, $10,000.

For harbors and rivers (Ontario) the following appropriations are asked: Amherstburg dredging (revote), $5,000; Belt River, repairs to sheet piling, $1,400; Bowmanville, to complete repairs to breakwater, $4,000; Burk's Falls, Magnetawan River wharf, $4,500; Burlington, channel to complete works under contract (additional revote $20,000), $50,000; Callender, repairs to wharf, $1,500; Chantry Island, repairs to western breakwater, $3,300; Cobourg, repairs to piers and dredging, $10,000; Collingwood, dredging, $45,000; Cornwall, repairs to and extension of wharf and dredging, $4,800; improvement of the Devil's Elbow Channel between Parry Sound and Killarney, $3,000; Goderich harbor works, $6,000; Goderich harbor dredging, $10,000; Harwood wharf, on Rice Lake, $1,000; Hilton, St. Joseph's Island, wharf, repairs, $1,500; Huntsville, new wharf, $3,500; Kincardine, repairs to piers, dredging, $4,000; McGregor's Creek, new pile protection, works and repairs to old work, $4,500; Midland harbor wharf, $10,000; Newcastle, to complete repairs to piers, $5,000; Orillia, new wharf, $3,000; Oshawa harbor, improvements, $1,250; Pelee Island, extension of wharf, $5,000; Penetanguishene, dredging, $10,000; Pickering, repairs to piers and dredging, revote ($2,000), $3,200; Point Edward, dredging, $10,000; Port Burwell, improvement of harbor, $40,000; Port Elgin, repairs to landing pier, extension of breakwater and dredging, $5,000; Port Stanley, to complete repairs to piers and dredging, $14,000; Richard's Landing, wharf repairs, $1,500; River Thames, dredging channel, Chatham to Lake St. Clair, $8,200; Riviere Aux Puces, repairs to pile work, $1,800; Rondeau harbor, repairs to piers and dredging, $10,000; Seugog River, dredging at Lindsay, revote of lapsed amount, $2,000; South Nation River, improvements of the pitch-off (revote), $1,000; Thornbury, repairs to harbor works, $4,000; Trenton, Trent River, dredging, $5,000; Wendover wharf, including icebreakers and storehouse, with waiting room, $3,000.

Fifteen thousand dollars is wanted for the maintenance of the buoy service between Montreal and Kingston, including repairs and alterations to steamer Bayfield and maintenance of the steamers Bayfield and Scout. To provide for additional aids to navigation on the St. Lawrence route, including the purchase of a steamer for tidal and surveying purposes, a sum of $280,000 appears in the estimates.

The biological laboratory on the Georgian Bay gets a sum of $1,500 for maintenance and the Canadian Association for the Prevention of Tuberculosis receives a grant of $1,000.

For canals in Ontario the following appropriations appear. To deepen portions of long level on Welland Canal between Port Colborne and Thorold, $50,000; to remove obstructions in the canal from Port Colborne down to Welland, $95,000; towards the construction of a bridge [illegible] Falls, Trent Canal, $1,000; to build a concrete centre pier and steel swing span for Montrose bridge, over Chippawa River, Welland Canal, $9,000; to rebuild Mariatt's bridge, Welland Canal, $15,000; rebuilding dam at Peterboro, $9,000.

A supplementary estimate for the current year contains $327,678 to pay the Exchequer Court's judgment in favor of Mackenzie & Mann, and $830 for costs.

OUR WATERWAYS.

Mr. A. F. Maclaren's Motion on Transportation Matters Defeated—Dr. Roddick's Medical Council Bill Passed.

Ottawa, May 8.—A party division upon an amendment by Mr. A. F. Maclaren to the motion to go into supply gave the Government a majority of 50 yesterday afternoon. Sir Richard Cartwright gave notice of important amendments to the Manitoba grain act, the effect of which will be to make material concessions to the farmers of the Northwest in giving them increased facilities for shipping grain. Dr. Roddick's bill to constitute a Dominion Medical Council was passed, with an amendment requiring the consent of all the provinces before the bill becomes operative. An amendment to the Montreal, Ottawa & Georgian Bay Canal Company's bill deprived the company of the right to operate in the French River section between Georgian Bay and Lake Nipissing until the Governor in Council consents.

A bill from the Senate to incorporate the Maritime Stock Breeders' Association was introduced by Hon. Mr. Fisher and read a first time.

Mr. Fielding's City of Ottawa bill, enlarging the commission by four members not residents of Ottawa, was introduced and read a first time.

The Transportation Question.

Mr. A. F. Maclaren advocated the speech some months ago before the Dairymen's Association aroused the farmers of Ontario to the discrimination to which they were being subjected by the railways in the matter of freight rates to the seaboard, as compared with the rates given to American producers, advocated the establishment of a line of seven or eight steamships of 5,000 to 6,000 tons each to ply from Lake Superior to a port on the Georgian Bay. Thence he would transport goods by rail to Toronto and thence by steamer to the seaboard, with elevators in Montreal, from which the vessels could be loaded to their full capacity after coming through the canals with all they could carry on a 14-foot draught. After going fully into the whole subject of transportation, Mr. Maclaren concluded by moving a resolution concluding as follows:

"Therefore, in the opinion of this House, it is both expedient and indispensible that the Government shall at once inaugurate such a policy in connection with our waterways and the shipbuilding industry as will speedily lead to the completion of a Canadian system of both inland and ocean transportation."

Mr. Fisher said that so far as he could gather there was nothing objectionable in Mr. Maclaren's motion, but being submitted as an amendment to the supply the Government refrained from accepting it. He was glad, however, to have Mr. Maclaren's figures put on record, so that the people could thoroughly understand the importance of the question.

After Jabel Robinson, Mr. Tarte, Mr. Murray (Lib., Pontiac), Mr. E. F. Clarke, Mr. Kemp, Mr. Bell of Picton and Dr. Reid of South Grenville had spoken, the resolution was then put to a vote, and the motion of the Cheese King was voted down by 93 to 43.

The Georgian Bay Canal bill, extending the time for commencing and completing the project, came up for its third reading, and was passed when this amendment of Mr. Tarte was incorporated in the bill: "The company shall not exercise its power under this act in respect to the section from Lake Nipissing to the Georgian Bay, otherwise called the French River section, until and unless an order of the Governor-in-Council shall pass authorizing the same."

Dr. Roddick's bill to establish a medical council for Canada was given its third reading and passed the House after a long debate. The House adjourned at 12.35 a m.

Sir Alexander Gollan Dead.

London, May 8.—Sir Alexander Gollan, who formerly held a number of Consular positions, including posts in the Philippine Islands and Cuba, died yesterday at his country residence.

Miners Reached No Decision.

Scranton, Pa., May 8.—The miners' conference adjourned at 5 o'clock yesterday afternoon, without having reached a decision on the strike question. They will meet at 9 o'clock this morning.

PEACE IS PROBABLE.

Cable From Boer General Lucas Meyer to His Wife in England.

TWO HUNDRED BOERS CAPTURED

An Effective Drive in the Lindley District—Not Fully Reported Yet—208 Irreconcilable Boers Were Taken—Ten Killed—The British Columns Operating Without Wheeled Transports.

London, May 8.—Further advices received here yesterday from South Africa announced that 208 Boers had been captured and that ten burghers were killed in the neighborhood of Lindley, Orange River Colony, Tuesday.

Without Wheeled Vehicles.

Lord Kitchener, in reporting the capture of Boers near Lindley, said that the British troops, forming a continuous line, left the Frankfort, Heilbron and Vredefort Line at dawn, without wheels of any sort, and proceeded rapidly south, reaching the Kronstad and Lindley neighborhood with the result announced.

Another British column, holding the drifts westward of the country swept, has not yet reported its results.

The captured men represent the most irreconcilable Boers in the Orange River Colony.

Peace Is Probable.

The wife of General Lucas Meyer, the Commandant of the Orange Free State forces, who is in this country, received a cable message from her husband yesterday saying that peace in Africa was probable.

A Boer Defeat.

The town of O'Okiep, Western Cape Colony, which has been besieged since April 4th by a Transvaal force under Commandant Smuts, has been relieved by a British force under Col. Cooper. The garrison was in good health and only a few of the troops were wounded. The Boers retired south. Lord Kitchener, in reporting the relief of O'Okiep, adds that the Concordia district is clear of Boers.

BRILLIANT PASSAGE PRESAGED.

The Leaving of the Parisian For the Coronation on June 7.

Quebec, Que., May 8.—The voyage of the steamship Parisian from this port on Saturday, June 7, gives every promise of being one of the most brilliant passages ever made from Canadian shores. The Parisian will take out the coronation contingent, besides a large number of civilian passengers, the Governor-General and two or three members of His Excellency's household. The whole military party will embark at 7 o'clock in the evening.

On Saturday, June 14, the Ministers, with the exception of Hon. Dr. Borden, will sail for the coronation on the Tunisian. The Minister of Militia, with Mrs. Borden, will cross the Atlantic on the Allan Line steamship sailing from Montreal on May 31.

Lawlessness on French Shore.

St. John's, Nfld., May 8.—The residents of St. George, on the French shore, complain bitterly of the depredations practiced by the French fishermen who recently arrived there. No warships are yet on the coast, and the lawlessness of the Frenchmen is unchecked. Local fishermen are compelled to carry guns in their boats in order to protect their herring nets. An extra force of police has been ordered to the scene to prevent further trouble.

Dr. Webb Disowns Syndicate.

New York, May 8.—Dr. W. Seward Webb issued a statement last night, in which he said: "In view of the many conflicting rumors that have been circulated in regard to the relations existing between the Dominion Securities Company, the Cape Breton Railway Company, Mr. A. L. Meyer and myself, I desire to say that there never has been any such thing as a 'Webb-Meyer syndicate.'"

Injuries Proved Fatal to Two.

Toronto, May 8.—Frank Hoffman, who was terribly scalded by boiling beer in Reinhardt's brewery on Tuesday, died yesterday morning in the General Hospital.

Early yesterday morning John May died in the Emergency Hospital. May was burned while painting the interior of a boiler at the A. R. Williams' foundry on Monday afternoon.

Vice-President Now President.

Washington, May 8.—Cable advices received here state that Jiminez, President of the Dominican Republic, has signed a relinquishment of his claims to the presidency, and on his part Horatio Basquez, the late Vice-President, has granted amnesty to the adherents of the late Government and assumed the presidential office.

Canadian Coal For Europe.

Sydney, May 8.—The steamer Fredericia has sailed from this port for Copenhagen, with a cargo of 650 tons of Cape Breton coal for Denmark. She will be followed during the season by several other vessels, principally sailing under the Norwegian flag, which will carry Canadian coal to different ports in Europe.

Foul Play Suspected.

Edmonton, N. W. T., May 8.—The body of Vader, the man supposed to have been drowned in the Saskatchewan River, has not yet been located. The man's hat was found in the river riddled with bullet holes. His brother has offered a reward for the recovery of the body. There is a suspicion of foul play.

Bjornsen, the Norwegian poet, dramatist and novelist, is seriously ill

SEATS FOR CORONATION.

Six Hundred Allotted to Canadians at Ten Shillings a Day.

Ottawa, May 8.—The Premier has received the following cablegram from Lord Strathcona;

"London, May 7.—Colonial Office have placed six hundred seats at my disposal to view coronation and royal processions June 26th and 27th. Price of tickets about ten shillings each day. Please give publicity to statement, so that persons wishing to have names recorded may write me at once, giving particulars and stating whether tickets desired for one day or both. If applications exceed the number of seats, must resort ballot, so no definite promises yet possible. Seats will be allotted at end of month and any not taken up and paid for by June 20 will be re-allotted. (Signed) Strathcona."

Failed to Censure Speaker.

London, May 8.—The Nationalist members of the House of Commons unsuccessfully attempted last night to force a vote of censure on the Speaker of the House, William Court Culley, in connection with the suspension from the House for one week of John Dillon (Nationalist).

LADIES' SUITS

PAR EXCELLENCE.

Suits at this store receive more than ordinary attention. They get the most careful scrutiny when selected. They are not bought from one concern only—they find their way here from most every Canadian manufacturer who is careful in detail and worthy in style, but we don't stop at Canadian manufactures if better things are offered by American houses. Every Suit must be worth the first of the season price. Those who are fortunate enough to get the clearing prices may congratulate themselves. All goods at this store are marked in plain figures, and you can see the genuine reductions made. Never before did we receive such a capital lot of garments. Yet we have come to the clearing up time, and go they must.

3 NEW YORK SUITS

Just one of each and each one a beauty. The first is a Black Venetian Suit, open coat, with white front and black crocheting. Skirt coat with belt of stitched black taffeta, front and back prettily corded. Coat silk lined, 9 gore flare skirt with novelty tucks and welt seams, size 34 $22.50, for $18.00

A Navy Venetian Suit, size 36, with 6 half inch tucks in front and back of Russian Coat, velvet collar, stitched flounce skirt, shimmer silk lined, coat satin lined, $22.50 for 18.00

Brown Venetian, stitched taffeta trimmed, slashed skirt, coat with stitched taffeta belt, taffeta lined, flounce skirt lined with shimmer silk, standing collar with points on coat, $22.50, for $18.00

5 FIFTEEN DOLLAR SUITS FOR $12.50

Navy Venetians, sizes 34 and 38, with short skirt coat, crochet button, neat and stylish. Has full flounce skirt, nicely stitched and is lined throughout, $15.00, for $12.50

Black as above, size 38, $15.00, for $12.50

Norfolk Jacket Suits, one Navy Cheviot 32, one Dark Grey Cheviot, size 36. These are ideal walking Suits and cleverly made, were $15.00, for $12.50

$10.00 SUITS

Green Herringbone Cheviots, size 32, Eton coat (tight fitting) satin trimmed, $16.50 for $10.00

Serge Suits, black and navy, flare skirts lined throughout. Good suits for hard usage: all sizes, for $10.00

Navy Serge Suit with velvet collar, flounce skirt, size, 34 neat and natty $10.00

Black Pebble Cheviot Walking Suit with stitched flounce skirt, heavy welt seams, jaunty jacket, unlined $10.00

$7.50 SUITS WORTH $12.50

Light Grey and Green All Wool Homespuns, castor check Tweeds, Black and Brown Venetians, all lined throughout. All are well made—all possess desired cloths and are smart styles. Of course the former prices account for these qualities, for they were $10.00 and $12.50 Suits, but now $7.50

$5.00 SUITS

Not what you would expect to hear about a five dollar suit though, for these are low collar effects, jackets with fancy stitched silk effect trimmings, flounce skirt trimmed to correspond with jacket unlined, but a marvellous appearance for $5.00

$4.50 WALKING SKIRTS

that are not equalled anywhere. Skirts that do credit to ourselves and give customers more than their money's worth. They are our own make. They're here for you to criticise. Compare them with any $6 Skirt you see. $4.50

THURSDAY, MAY 8, 1902.

INDEPENDENT ONTARIO.

The Liberal Government has had to put up a perpetual fight to retain the rights of the province against the encroachments of the Ottawa Government. The Federal Government might as a rule say that it had to fight for Dominion rights, which may be correct, to a certain extent, but in one notable case, the fight of the Ottawa Conservative Government was not for Dominion rights, but to punish Ontario for being Liberal. This was when Sir John Macdonald said he would show "that little tyrant," Sir Oliver Mowat," that he would punish this province for remaining Liberal. Even after he had been defeated in his attempt to deprive Ontario of 100,000 square miles of territory, after the award went against him, he tried to deprive this province of the minerals and timber on these 100,000 sq. miles. Sir John's attempt was not to protect Dominion rights, but to punish Ontario for remaining Liberal. He tried to get the disputed territory, to divide it between Manitoba and Quebec. Sir John's attempt was not so bad from a party point of view, but what can be said of the Conservative Opposition of Ontario, which aided and abetted Sir John, and opposed, and tried to thwart, Sir Oliver Mowat in his fight for Ontario territory? They were not true to their province, they were unpatriotic, and strove to advance Conservative party interests, at the expense of the material interests of the country. Now, that in spite of traitors in the home camp, New Ontario was incorporated into the province, now that the Liberal Government, that by the will of the people succeeded the Government that saved Ontario, are moving intelligently and energetically in developing the resources of New Ontario, we are met by the same party which connived at the attempt to rob us of a territory of incomparable wealth of resources, asserting a claim to administer the affairs of a province they sought to cut in half. Now an attempt is being made to bring this province under the political servitude to the Dominion, a repetition of a scheme which Sir Charles Tupper tried to work in 1896, to overthrow the Liberal Government, to pave the way for the return of the Conservative party to power at Ottawa. If Mr. Whitney were returned, as Sir Charles intimated, Mr. Whitney's Government would be at Sir Charles' beck, and, speaking at Toronto, in May, 1901, Mr. Borden, the present leader of the Dominion Opposition, advanced the same bid. In regard to this compact, to which Mr. Whitney has been a consenting party, Hon. Mr. Ross, speaking at St. Catharines on Tuesday night, said:

From this quotation you can see the standpoint from which the Conservative party views the provincial election. It is not to win Ontario, that Ontario may be developed and improved, but it is to win Ontario as a stepping stone for future victory in the next Dominion election. (Hear, hear.) Allow me to say that I deny most emphatically to allow this great province to be made either a stepping stone or a donkey engine for the Conservative party at Ottawa. (Cheers.) The very suggestion, that from the vantage ground which they assume this province would afford them in order to step into power at Ottawa, and not upon their merits, is repugnant to me as a citizen of Ontario. (Cheers.) Why should we be put in that humiliating position to fetch and carry for the Conservative party at Ottawa? (Hear, hear.) Do they want to use the resources and the revenues of Ontario for the next Dominion elections? Is there a veiled suggestion here that if they carried Ontario the surplus revenues of the province would be applied for political purposes? (Applause.) When they held illegal control over New Ontario, they parcelled out our forest land in sections of 50 square miles among their followers. If they were established by the electors in possession of our timber reserves, would they repeat the conduct of 15 years ago? Would the contracts which they would have in their power to let for public buildings be allotted as the contract for the Langevin Block, or the Curran bridge? (Hear, hear.) If Mr. Borden had said, "Give us possession of the government of Ontario, and we will improve it, and we will improve its legislation, we will foster its trade, we will develop its manufacturers, we will open it for settlement," then one might not begrudge him the honour, but he has evidently no such idea in his mind. If he can climb into office over Mr. Whitney's shoulders, good and well, and the extraordinary thing is that Mr. Whitney and others of the Conservative party who were present at that meeting and heard the leader of the Opposition propose to use them for purely party purposes, never resented the thought, but quietly and calmly acquiesced. May we not reasonably infer that if Mr. Whitney carried the country and Mr. Borden wanted to carry out the views he then expressed that he would find Mr. Whitney equally subservient. (Cheers.)

Ontario for Ontarians, is the motto of the Ross Government, and it is not in the interests of the province that the matter of its government or the administration of its affairs should be subject to the promotion of the interests of any political party in the domain of Dominion politics.

ROSS AND A UNITED PARTY.

The spirit which animates the Liberal party is splendidly illustrated in Hamilton. In Dr. Griffin and Mr. Washington they have men who are the absolutely unanimous choice of the party. In this the party are singularly fortunate. Too often the first choice of a party cannot be secured, and too often parties are compelled to accept candidates who do not thoroughly unite their own friends or strongly appeal to the more independent element of the community. In Hamilton none of these objections can be urged against the Liberal candidates; and none of these difficulties beset the Liberal party. From every standpoint the situation is fortunate and encouraging.

The spirit manifested in Hamilton is in evidence all over the Province. It is doubtful if the Liberal party ever went into an election in Ontario with a better set of candidates, or that there was ever less friction or disaffection in the constituencies. Here and there, of course, as in all political contests, some slight difficulty resulting from conflicting interests or ambitions has been experienced. But in the main the party are absolutely united and exceptionally loyal to the Liberal leader. For more than a quarter of a century Mr. Ross has been one of the most valiant soldiers of Liberalism in Ontario. No matter what the condition of his health, or what the demands upon his strength and time, he has always been the first in the battle and always among the last to leave the field. In fighting the battles of Liberalism he has been singularly courageous and self-sacrificing, and no man ever more thoroughly deserved the gratitude of a party.

It is not only in the field of party politics that he has been active. No good cause has ever appealed in vain for his aid and sympathy. Whether at great commercial gatherings, whether at national or Imperial celebrations, whether in bidding farewell to a Governor or welcoming home a soldier from South Africa, he has been selected as the most eloquent and representative spokesman of the sentiment of Ontario. He is the best political speaker, and the best non-political speaker, in this Province. His eloquence and force, his wide interests and catholic sympathies, make him the ideal leader of an instructed democracy. He is, in fact, by general consent the first citizen of Ontario, and we are confident that this fact will be overwhelmingly demonstrated on May 29.—Globe.

TO TEACH FORESTRY.

The proposal of Hon. Mr. Harcourt, the Ontario Minister of Education, to lend the assistance of the Government to the establishment of a department of forestry at Queen's College, Kingston, is a timely recognition of a most important subject. We will make a great mistake in this new country, with its lavish abundance of timber, if we imagine that we are any less under the obligation of preserving our forests than are the worn lands of Europe. Much as we have, it will be only a matter of time until we shall have wasted it all, if we go on in recklessness and ignorance to cut and burn and never to plant or preserve. We may be long in feeling the pinch, but we have no right to squander the natural heritage of generations of Canadians to come.

Scientific forestry is a most valuable addition to the curriculum of any university. Young men will go out from such a school knowing with precision how trees should be treated, how planted, how preserved, and how a standing forest may be cut over without lessening its future yield. The dissemination of such knowledge throughout a community, having constantly to do with practical forestry, must have wide and wholesome public effects, and is a fitting place for the expenditure of public money.—Montreal Star.

The proposal above referred to indicates only another step to be taken by the Liberal Government of Ontario in the interests of the preservation of our forest resources in addition to what has been done in this direction. No Government anywhere in the world, has received for its forest resources better value in revenue and trade results than the Government of Ontario during the past 30 years. The Ontario Government's system by fire ranging to prevent as far as possible the destruction of our timber by fire, is so admirable that it has been copied by the other provinces and some United States countries. A Superintendant of Forestry to protect the forest interests of the province was appointed by the Government and even this self-evident advantage to the protection of our timber interest was opposed by the Opposition. The Government has created great forest reserves and established conditions by which the reproduction of forest wealth will be promoted and assisted. Millions of acres have thus been set apart and will furnish future sources of timber supply. No country on this continent, at least, has taken such important practical steps in regard to the preservation and reproduction of our forest wealth as Ontario, under a Liberal Government. By its legislation requiring pine and pulp woods to be manufactured in Canada it has also provided for returning to the people the full benefits in the way of employment of capital and labour of the home manufacture of our forest products.

The Clergue Works at Sault Ste. Marie are now turning out steel rails, the first ever made in Canada. The works are the direct result of the bargain made with Clergue by the Ross Government and which was so severely attacked by Whitney.

Since the two or three years since the Ross Government came into power, a great deal has been done to give an impetus to the development of Ontario; and most of the good work was opposed by Mr. Whitney. Do the people want the policy of progress reversed?

Not Entirely.

A little investigation shows that the strong taste of pure cod liver oil cannot be entirely removed without entirely removing the oil. You can taste the oil in Scott's Emulsion, but it is not unpleasant.

Underwear And Health . . .

Intelligent people are beginning to realize the importance of wearing the right kind of underclothing. Not only does it effect bodily comfort, but physicians declare it to be an important factor in the treatment of catarrh, rheumatism and nervous disorders.

The Dr. Deimel Underwear

Is pre-eminently the ideal underclothing of to-day, and its wear will do much to keep the body healthy and vigorous. A booklet mailed free on request.

PETERBOROUGH.

WARSAW.

(From our own Correspondent.)

The meeting of the Football Club held in the Morgan house on Friday evening was well attended, and judging from the enthusiasm displayplayed the game will likely flourish here this season. The following officers were elected;

Pres.—John Morgan.
Vice-Pres.—H. Kidd.
Capt.—Bert Huston.
Sec.-Treas—R. F. Choate.
Committee — W. Anderson, J. W. Kidd, F. Morgan, S. Buck, D. S. Calder, W. Bell.
Mascot—J Lowery, jr.

The club is open for challenges, some team, 'way, 'way back in the woods, like Young's Point, or Lakefield, preferred.

Don't forget the Frank R. Conklin entertainment in the town hall on Wednesday, May 14th. Mr. Conklin is a dramatic reader and impersonator, and will no doubt treat his audience to a high class entertainment. The concert is under the auspices of St. Mark's church.

Dr. Holdcroft of Havelock, was in the village on Monday.

Mr. John Morgan has been at McCracken's Landing for some time superintending the improvements which he is bestowing upon Victoria House. A number of plumbers under the direction of Mr. F. Tully, have been engaged in re-arranging the pipes in connection with the water supply. The house is also being painted and thoroughly overhauled, both inside and out. Considerable work will also be bestowed upon the grounds. Mr. Morgan is deserving of great credit for the energy he has displayed in making the Victoria House so popular with the tourist trade which visits the Kawartha Lakes yearly.

VILLIERS.

(From Our Own Correspondent.)

Farmers are nearly all through sowing and are busy at their root ground. Fall grain is looking fine and with a few warm days the grass and spring grain will be growing well.

Our cheese factory has opened, but either for want of milk or scarcity of butter, the wagons are not very heavily loaded.

Mr. Whitton, the well known cheese buyer, called on the cheesemaker the other day and gave him a few pointers.

The Otonabee Power Co's stock is taking well here. The people know a good thing when they see it.

Messrs. Laggett & Elmhirst are shipping this week, from Indian River station, 300 head of stockers to Carberry, Manitoba.

Mr. Jas. C. Weir is leaving this week for the Northwest. We wish him success.

HONOUR ROLLS.

Third Class, Sr.—Lizzie Dickson, Jenny Wood, Donald C. Hope. Fourth Class — Maggie Dickson, Jessie Havery, William Robertson.

LOST THREE CHILDREN BY CONSUMPTION.

A Mother's Letter and Contribution for the Free Consumptive Hospital.

That "one touch of nature makes the whole world kin" is being shown by the many sympathetic and practically helpful letters that are being received in response to the appeal to furnish quickly the new Free Consumptive Hospital, the first Free Consumptive Hospital in America. A few days since, Sir William R. Meredith, who has kindly consented to receive subscriptions for the hospital, found in his mail a letter from a mother in Hamilton, which reads:—"The enclosed three dollars is a contribution to the Free Consumptive Hospital, being one dollar for each of the three children I have lost by that dread disease."

All over the Dominion families are being broken up by this terrible white plague. Need we wonder that those who have lost loved ones should contribute of their means—much or little—to bring hope and health to others who are suffering in this way, and whose case may become hopeless if help does not come quickly?

Another, signing herself "Let not your left hand know what the right hand doeth," writes Mr. W. J. Gage:—"Enclosed find $1.00 for the Free Hospital for Consumptives. I would like, and if I were able, would give you $100, or make one of ten to give $1,000 each, but I am poor. Though very poor, however, I cannot resist your special appeal, and earnestly desire that you will soon have all the cash you require."

The new buildings are completed, and the trustees are anxious that they should be furnished with the least possible delay, so that response be made to the daily and pressing appeals that are coming to them for admittance. Contributions may be sent to Sir Wm. R. Meredith, Chief Justice, 4 Lamport Ave., Toronto; W. J. Gage, Esq., 51 Front St. West, Toronto; or to The National Trust Co., Limited, Treasurer, 22 King St. East, Toronto.

Wheel is now running. The prices are reasonable.

E. COURTNEY, Jr.
Oliver at Residence, Ashburnham.

A PRIMROSE SPEECH.

Lord Salisbury: "We Have Suffered But Have Greatly Won."

PREMIER REPLIES TO MR. MORLEY

Britain Has Not Receded in the Peace Negotiations—The Empire Now "More Potent, More Efficient and More Admirable Than Ever Before"—The Results of the War Summed Up.

London, May 8.—The Premier, Lord Salisbury, as president of the annual Grand Habitation of the Primrose League at Albert Hall, yesterday afternoon spoke to an immense audience in a much less pessimistic vein than when he was last time heard in public. He congratulated the league on the staunch support given to Conservative Governments, one result of which was that Great Britain was now supreme in Egypt, while, with regard to Ireland, the country need no longer fear the "insane, suicidal projects of Imperial disruption supported by many of the Opposition statesmen."

At the same time the country must not expect the "ashes of past conflicts" to be extinguished immediately. Great Britain has had a great and serious war, but admitting that misery and suffering had been caused, yet it "must be recognized that the power, prestige, influence and magic effect of our great Empire are more potent, more efficient and more admirable than ever before."

"We have suffered," continued the Premier, "but we have greatly won."

It was impossible not to feel that the efforts of the people of the country have, in some cases, not been worthily recognized. The other day Mr. Morley asked if there was a single member of the Cabinet of 1899 who if he could have foreseen the results of the policy on which they were then launching the country, would not have checked the diplomacy leading to such deplorable results.

As a member of that Cabinet, he (Lord Salisbury), wished to meet this statement with the most indignant denial. The war had been used by some politicians for the squalid purpose of injuring their opponents. When a neighboring power or tribe invaded his Majesty's dominions "and made an attack which was a gross and flagrant outrage, it could only be met by fighting in their own country those who had despised the rights and sovereignty of our sovereign."

Turning to the peace negotiations Lord Salisbury announced that "Great Britain has not receded one inch from her former position. As to the rights we claimed and the policy we intend to pursue we are exactly where we were."

Renewal of the Triple Alliance.

Budapest, May 8.—In his annual statement before the Budget Committee of the Austrian delegations, Count Goluchowski, the Austro-Hungarian Minister of Foreign Affairs, said: "The foreign relations of the monarchy are in every respect favorable and satisfactory. The three Cabinets concerned in the triple alliance have exchanged formal assurance of their determination to uphold the alliance in its full value, and in due course to sign the necessary instruments for its renewal, free from any aggressive tendency whatever.

"This tripartite alliance will continue to pursue its sublime and pacific aims, to which it owes its origin, and it will do so with greater confidence in face of the no less peaceful declarations of the dual alliance which confronts it. These mutually pacific tendencies will endeavor to paralyze the harmful reaction produced by events which may occur in other regions, even if they cannot altogether avert their occurrence."

G.T.R. Special Blamed.

Hamilton, May 8.—The inquest into the death of Robert Murray, the express messenger, on Tuesday evening last week, was concluded last evening before Coroner Ball. The jurors were out about ten minutes, and agreed on the following verdict:

"The late Robert Murray came to his death by the neglect of the crew on the special not taking notice of the long distance semaphore, which, according to the evidence, was against them."

Crush d to Death.

St Thomas, May 8.—A fatal accident occurred at Newbury Tuesday afternoon, by which Morley Archer lost his life. The frame of a grist mill for Joseph Hetherington was being raised, and Mr. Archer was one of the men who was assisting. The chain holding the bottom of the bent broke, and it fell, crushing Mr. Archer to death.

Nearly all of the above Three-Piece Suits are made either in single or double breasted, with either single or double breasted vest to suit the buyer's taste.

GOUGH BROS., TULLY & MERRELL, MANAGERS.

THE CAMPAIGN.

Another Day or Two Will Close Up the Lists of Candidates—The Features of Wednesday's Work.

Toronto, May 8.—From the list of nominations made yesterday it will be seen how rapidly the ranks are closing up for the contest that takes place three weeks from to-day. Another day or two will fill the lists on the respective sides. The features of yesterday's campaign news, were these nominations:

Ottawa, A. Lumsden and A. Bingham, Liberals.

North Oxford, Charles Muma, Conservative.

London, Adam Beck, Conservative.

Grenville, R. L. Joynt, Conservative.

There was a meeting in St. George's Hall in the interests of Mr. W. B. Rogers, the Liberal candidate in South Toronto; the address of Hon. Mr. Dryden at Weston; Hon. Mr. Davis' meeting in the Parry Sound district, Hon. Mr. Latchford at Cayuga, and the Opposition leader at Thessalon. Premier Ross was out of the campaign last night, being one of the speakers at the convocation of McMaster University. The Liberal meetings are everywhere reported as enthusiastic and promising. The South Toronto campaign has opened well. Mr. Pattullo and Mr. Robinette having delivered stirring addresses in support of Mr. Rogers.

To-day the Premier goes down into Eastern Ontario, speaking to-night at Cornwall and to-morrow at Alexandria. Mr. Whitney, continuing his tour of New Ontario, will speak at the Sault.

Nursing Mothers and Malt Breakfast Food

As an article of diet, Malt Breakfast Food has brought more health and comfort to the homes of Canada than any other food preparation. Mothers find it an invaluable food during the period of nursing, as it provides the most ample nutrition for keeping up health and strength; it also wonderfully promotes the secretion of milk.

Malt Breakfast Food is recommended every day by physicians to nursing mothers, because of its many advantages as a concentrated nourishment. No other food is so easily and so rapidly digested and assimilated, and no other contributes so much to general health building. If the mother's stomach is weak and capricious, let her try Malt Breakfast Food for a week; it will soon establish perfect digestion, healthful circulation and a well regulated nervous system. Ask your grocer for Malt Breakfast Food.

Goes to Glasgow.

Ottawa, May 8.—Dr. Hopkins, V. S., will represent the Dominion Department of Agriculture in Great Britain, with office in Glasgow.

Price of Board Goes Up.

Owen Sound, May 8.—The hotelkeepers have advanced the price of board, owing to the high price of meat.

CANADA TO BRITAIN.

Increases in Exports During the Past Four Months.

London, May 8.—The Board of Trade returns for the past four months show the following increases in British imports from Canada: Cattle, £12,000; wheat, £114,000; wheat flour, £53,000; bacon, £52,000; hams, £42,000; butter, £35,000.

The decreases are: Sheep and lambs, £8,000; oats, £89,000; peas, £32,000; cheese, £93,000; eggs, £12,000; hewn wood, £6,000; sawn wood, £22,000; horses, £3,000.

The imports of canned salmon totalled £333,000. Canned lobster, £9,000.

The exports to Canada increased: Salt, £1,000; cotton piece goods, £65,000; linen piece goods, £8,000; silk, £9,000; woollen tissues, £36,000; worsted tissues, £50,000; carpets, £8,000; cutlery, £4,000; hardware, £2,000; pig iron, £11,000; bar iron, £7,000; sheets and boiler plates, $13,000; galvanized sheet, £20,000; tin plates, £31,000; cast and wrought iron, £17,000; unwrought steel, £47,000; haberdashery, £14,000.

Decreases were: Spirits, £26,000; cement, £8,000; earthenware, £5,000; rails totalled £32,000; wearing apparel, waterproofed, £11,000; not waterproofed, £98,000.

Married a Week—Dead.

Brantford, May 8.—Hugh Hagerty, at 2 o'clock yesterday morning, while working at the Pratt & Letchworth works, touched a live wire and fell dead. No one saw the fatality. He was found dead by fellow-employes, who had seen him five minutes before. He made no outcry. It is thought his heart was weak for the voltage was not great. He was married on April 28. Saturday next he was to have taken up housekeeping.

Stratford Guarantees $30,000 Bonds.

Stratford, May 8.—Voting took place yesterday on a bylaw guaranteeing the bonds of the Globe Wernicke Mfg. Co. for $30,000 for twenty years, and granting exemption from general taxation. The majority in favor exceeded by 222 the necessary two-thirds, only twenty votes being cast against it.

Prohibition Mayor Fined.

Kansas City, May 8.—James Duffield, who was elected mayor of the town of Buckner, Mo., a short time ago on the prohibition ticket, is under sentence to pay a fine of $100 and costs for selling liquor contrary to law.

A Marvellous Medicine.

Having a direct and combined action on both the liver and kidneys, Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine, and hence its extraordinary success and popularity. Biliousness, liver complaint, Bright's disease, deranged kidneys and stomach troubles are promptly and thoroughly overcome by this great family medicine. One pill a dose, 25 cents a box.

COMING!
THE JARVIS STREET BAPTIST CHOIR, TORONTO.
MONDAY NEXT.

Educational Closing.

The educational closing will be held in the Y.W.C.A. rooms to-morrow (Friday) evening at 8 o'clock. Reports of the work in the various classes will be given by the teachers, followed by a musical programme, and informal reception. Refreshments will be served. Members and friends of the Association are specially invited to be present.

GOLF BALLS—that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Salisbury Co.

Superior Grey Lime.

"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

Window Blinds, Poles, etc.

The prices we specialize this week will be welcome at this season of shifting, moving and housecleaning. Every new style, with a great display of window blinds and cornice poles, will help you to select quickly, because prices and general effects invite irresistibly. Two hundred and fifty curtain poles, assorted woods, any finish, brass trimmings, complete, regular 30c., for 19c., this week only. A lot of old newspapers for sale for laying under carpets, wrapping purposes, etc. A. H. Stratton & Co.

SATURDAY BARGAIN DAY FOR LEMONS AT DUTTON'S.

On Saturday only we will sell Lemons 10c per Dozen or 3 Dozen for 25c.

This is a part of the stock recently purchased at the great Montreal Fruit Sale, and are choice lemons. R. A. DUTTON, George Street.

New American Blouse Styles.

In presenting our new sample lines of American print and linen effects for summer shirt waists, we do so with absolute confidence that the two great requisites of correct style and superior value have never before been so well combined. Our skilled staff and the unequalled facilities afforded by our factory gives us advantages in manufacturing shirt waists, faultless in design and fashioned after popular American tastes. Ladies will be interested in our pretty new summer blouses made in fast colour American print, with new dip sleeves, tight fitting backs and long dip front, which we are selling at 65c., instead of 85c. the regular price. We will also have ready for Saturday, the very latest American novelty shirt waists in linen fabrics, same with Paisley stripes, which we will sell direct from our factory at $1.00 to $1.50 instead of $2.00. C. G. Gemmell, Charlotte street.

FIRST INSTALMENT HAS BEEN PAID

And the Street Railway Passes Into the Hands of the New Company.

$5000 WAS PAID DOWN.

The Work of Raising the Old Rails and Laying New Ones is to Begin Immediately—The Option Expired To-day.

The $50,000 option on the Peterborough Street Railway Company, held by the National Construction Company, of Detroit, expires this evening, and naturally a great deal of anxiety has been experienced during the last day or two, by those who were interested in seeing the deal made.

Mr. R. P. Bene, the President of the Company, left town on Tuesday and nothing was heard from him until this morning, when the first instalment of $5,000 was paid on the purchase. This effectually binds the bargain and the work of reconstruction will begin at once, as the new company realizes that the season of the year is approaching when the parks will be liberally patronized and a good deal of traffic can be expected.

The old line and branches to the Locks and Jackson Park have to be completed, by the terms of the franchise, by the first of August. The first date agreed upon was July 1st, but as a month's notice has to be given before lines can be constructed on streets not already occupied, the work will be delayed by just that length of time.

GOUGH GIVES THE BOYS A SHOW

A Bustling Hustle in Boys' Summer Suits—"Corking" Sale to Reduce Stock.

All is hustle and bustle in the Boys' Department at Gough Bros. The new managers, Messrs. Tully and Merrell, are very busy just now getting ready for a great mark-down sale of boys' clothing, which begins on Saturday morning. They have been scooping in big rafts of juvenile suits from manufacturers, eager to close out their surplus stocks at slashing reductions to big buyers, until the enterprising firm finds that it has now nearly 2000 suits too many. That's the reason for this great Boys' Suits Sale. The suits include the fancy summer ideas for the little chaps, as well as the mannish clothes for their bigger brothers. The large half-page advertisement in another column of to-day's paper, tells the story of the way the prices are to be pruned. Peterborough mothers will be pleased to hear this news, because it means a good two-piece suit for a boy at a price his father would consider cheap for a hat. "The power behind the purse is the mother," and she'll make it felt during this great Boys' Suits Sale at Gough's.

Miss Currie will recite at George Street Church Concert Friday night.

EXAMINATIONS IN MUSIC.

Examinations under the supervision of Toronto University will take place at Peterborough as follows: Written examinations on June 12th, the practical examinations between June 17th and July 12th. Applications have to be sent in by 24th of May by those wishing to be examined.

Mr. E. B. Edwards, M. A., has been appointed as local representative of the University in regard to these examinations for the purpose of making necessary preliminary arrangements, etc.

The examiners for 1902 are as follows:—

Harmony and History.—W. E. Fairclough, Esq., Toronto; Dr. Ham, Toronto; Dr. C.L.M. Harris, Hamilton.

Organ.—J. E. P. Aldous, B.A., Hamilton; A. S. Vogt, Esq., Toronto.

Pianoforte, — St. John Hyttenrauch, Esq., St. Thomas; Thomas Martin, Esq., London; H. Puddicombe, Esq., Ottawa; J. D. A. Tripp, Esq., Toronto; A. S. Vogt, Esq., Toronto; F. S. Welsman, Esq., Toronto; W. O. Forsythe, Esq., Toronto.

Singing.—Dr. C. E. Saunders, Ottawa; E. W. Schuch, Esq., Toronto; R. Tandy, Esq., Toronto.

Violin.—Mrs. Adamson, Toronto; J. W. Baumann, Esq., Toronto; H. Klingenfeldt, Esq., Toronto; Roselle Pocock, Esq., London.

Violoncello.—H. S. Saunders, Esq., Toronto.

BARGAINS AGAIN SATURDAY.

The bargains we gave the public last Saturday were very much appreciated, as we gave exactly as we advertised, and will again on Saturday of this week allow TEN PER CENT. DISCOUNT on our BEST PORTER HOUSE and SIRLOIN ROASTS AND STEAKS; also ROUND STEAKS, and all cuts of VEAL.

We had a crowd last Saturday and expect a larger crowd this week, as our Meats are the choicest quality that can be secured. A full line of SPRING LAMB in stock.

KENNEDY'S MEAT MARKET.
Telephone 275.

RESOLUTION OF CONDOLENCE

Passed by the Directors of the Little Lake Cemetery Yesterday.

At a meeting of the Directors of the Little Lake Cemetery Company, specially called by the President for consideration of action of the Board upon the death of the late Henry Denne, it was unanimously resolved that there be placed on the Company's minutes an expression of the very deep regret felt by the Directors at the loss of their so highly valued member, and their sincere sympathy with his sorrowing widow and family.

Mr. Denne was elected a member of the Board in January, 1887, and has since occupied that position, and during that period he has been President for ten years. Over all these years Mr. Denne has ever been active and energetic and manifested the deepest concern in the Company's affairs, and much of its success and prosperity is attributable to the eminent services of Mr. Denne as Director and President.

The Directors would also, on this occasion, bear witness to the deservedly high esteem in which Mr. Denne has for fifty years been held by his fellow townsmen, evidenced by their having elected him to the various positions of public trust which his busy life would permit him to accept, to which he invariably devoted time and much ability and he will be long remembered for the faithful discharge of the duties he undertook.

It is further resolved that the Board provide a wreath and attend the funeral in a body, and that a copy of this resolution be delivered by the Secretary to his afflicted widow.

Peterborough, 7th May, 1902.

PERSONALS.

Mr. A. J. McClellan is in Toronto on business.

Hon. Senator George A. Cox is in town to-day.

Mr. W. H. Foord is down from Toronto for a day or two.

Mr. W. A. Devitt, of Bobcaygeon, is in town a guest at the Snowden House.

SPORTING PASTIMES.

BOWLING-ON-THE-GREEN.

At a meeting of the Bowling Club last evening most encouraging reports were received from the Membership Committee. It is apparent that the Club will be larger this year than ever. Quite a number of new names were added to the roll, which will, without doubt, reach the hundred mark. The Lawn Committee reported that the Green had been widened by ten feet, and that the worn sodding had all been replaced. It was decided that the selection of skips be determined by ballot. The meeting adjourned until the evening of May 14th, when the skips will be chosen for the season.

LACROSSE.

The Vaticans, it seems, have decided not to place a team in the town league, as a number of the players whose assistance was depended upon have signified their intention of playing with one of the other three teams. There is no reason for longer delay, and delegates from the Y.M.C.A., T.A.S., and Athletics should get together next week and draw up a schedule of matches. There is no reason why a couple of games could not be pulled off before the 24th of May.

GENERAL ATHLETICS.

Arrangements are being made in Galt whereby teams of twelve boys from each of the town schools will compete on Empire Day for a prize in the athletic field. The Board of Education will provide a trophy for competition. Such an idea appears to be a good one, and if adopted here would arouse a great deal of enthusiasm.

CRICKET.

The Colts are having splendid practices these evenings, and they intend going to Campbellford on May 24th.

ST. ANDREW'S ATHLETIC GROUNDS.

St. Andrew's Junior Boys' Guild has leased for a term of years the property north of McDonel and east of the Boundary to the creek, which will be used and known as St. Andrew's Athletic Grounds. A game of baseball will be played on the new grounds on Saturday afternoon with the team of the choir boys of St. John's church.

THE TRIGGER.

The Gun Club will shoot to-morrow afternoon on Riverside Park at 3 o'clock.

PING-PONG.

Five of Peterborough's young lady ping-pong players went over to Lindsay, last evening, for a friendly match and made a remarkably good showing, being only defeated by one game. The local team was made up of Miss Helen Hall, Miss Gwendoline Meade, Miss Mamie Rogers, Miss Rogers, Miss Kate Hall and Miss Dumble.

FOOTBALL.

The Norwood Football team expects to play a touring Manitoba team this summer.

HOCKEY.

The Port Hope Guide says; A meeting of the directors of the covered hockey rink was held last night and matters of great importance were looked into. A plan has been drawn up by Mr. George Curry, the architect, and is in the hands of the directors. The hockey rink, as shown on the plan, is 180 feet by 70 feet, and the curling rink, 150 feet by 34 feet. The dimensions are of the ice only, which will afford ample room for the players. The gallery will run in a slanting position, the front of it coming close to the ice. Seats will be placed at one side of the rink, and three rows in the gallery. It is estimated that about 1200 persons can be comfortably seated.

They say that "PING PONG" will be played all summer. Salisbury Co. have a big stock on hand. Prices start as low as $1.00.

TO-NIGHT'S OPERA HOUSE MEETING.

Hon. J. R. Stratton, Hon. R. Harcourt, Hon. F. E. A. Evanturel and Hon. Senator Cox

WILL SPEAK THIS EVENING

In the Interests of the Ross Government and the Candidature of Mr. J. R. Stratton—Gallery Reserved for Ladies.

The electors of Peterborough are reminded of the public meeting which will be held in Bradburn's opera house this evening, in the interests of the candidature of Mr. Stratton, who will address the meeting, as well as Hon. R. Harcourt, Minister of Education, Hon. F. E. A. Eventuret, ex-Speaker of the Legislature, and Hon. Senator Cox.

Hon. Mr. Harcourt is a fluent, well informed and effective speaker, one of the best in the late Parliament. Hon. Mr. Evanturel is also a graceful and ready speaker. He will address the meeting both in French and English. Hon. Senator Cox's opinion, as one of Canada's leading business men, should be of great interest.

The chair will be taken promptly at 8 o'clock so that the speaking may be concluded at a reasonably early hour.

The gallery will be reserved for ladies, who are cordially invited to be present.

THE EAST RIDING.

Messrs. Anderson and Ford Hold Joint Meetings.

Messrs. Wm. Anderson and Dr. Ford, the Liberal and Conservative candidates, respectively in East Peterborough, have been holding a series of meetings in the back country. A rather amusing part of the campaign has been that the meetings in the interests of both candidates were arranged for Monday and Tuesday night at Haultain and Apsley respectively, unknown to each other. An amicable arrangement was arrived at whereby the proceedings took the form of a joint meeting. At Haultain the chair was occupied by Mr. Wm. Bates and the order of the speaking was: Mr. Anderson, Mr. Sexsmith, Mr. Blezard, Dr. Ford and R. F. McWilliams. There were a a large number of ladies in attendance at the Haultain meeting.

At Apsley the chair was occupied by Mr. C.R.D. Booth and the speakers were the same as spoke at Haultain.

Mr. Anderson accompanied by Mr. Blezard is holding meetings throughout Chandos during the balance of the week.

NEWS NUGGETS.

—St. John's choir will practice this evening.

—Victoria Park is in excellent condition just now.

—Ascension Day service in St. Luke's to-night at 8 o'clock.

—There is little likelihood of there being a military day here on May 24th.

—A number of the new Sovereign bank notes are in circulation in Peterborough.

—Stony Lake cottagers are already making improvements in their summer residences.

—The Jarvis street Baptist Choir, of Toronto, will appear in St. Paul's church on Monday evening.

—A chimney blaze on Rubidge st., north of St. Andrew's church, gave the brigade a run this morning.

—There will be service this evening in All Saint's, at 8 o'clock. The address will be on the "Ascension"

—Rifle shooting in connection with the 57th Regt., promises to be popular amongst the boys this season.

NEXT WEEK'S MEETINGS

In the Interests of the Candidature of Mr. Stratton.

Announcement of the Dates on Which Addresses Will be Made in Different Parts of the Riding.

Meetings have been arranged as follows in the interests of the candidature of Mr. Stratton in the riding:

Foresters' Hall, Bailliéboro, Monday evening, May 12th.

Temperance Hall, Selwyn, Tuesday evening, May 13th.

Temperance Hall, 4th line, Smith, Wednesday evening, May 14th.

Town Hall, Bridgenorth, Thursday evening, May 15th.

Young's Point, Thursday evening, May 15th.

Bensfort, Thursday evening, May 15th.

Fraserville, Friday evening, May 16th.

HERE'S A FAKE.

Look Out for the Sorrowing Son Who is Selling "Poor Dear Mother's Watch."

There's reason to believe that this same little game is being attempted in this county, so let the people be on the watch for the sorrowing son and his dead mother's watch:

The St. Mary's Journal says: "My poor, dead mother's watch. How it hurts me to part with it," sobbed out a young man in a farmer's kitchen, near St. Marys, a few days ago. But the ten dollars the farmer gave him for the timepiece made him feel better.

This tearful young man or his counterpart has been operating in this vicinity for some time, and it is estimated that he has unloaded at least one hundred of his "poor, dead mother's" (or father's, as the case requires) watches on the unsuspecting and tender-hearted people of South Perth.

Sometimes he varies his story, but in the main it is the same. The other day he told a Blanchard farmer that he was a railroad man. He was in hard luck. He had lost one hundred dollars, his all, in a game of cards, and was obliged to part with his golden timepiece. It wrenched him severely to do so, as the watch was a present from a dear friend — another railroad man. The watch in question had a picture of a railroad locomotive on the dial and another cast on the back case. There are many of these "locomotive" watches on farms in this district, and they may be purchased singly or by the bushel from the factory where *they are made at from $2 to $3 each.* But the young man who is "doing" the concession and sideroads gets $10 for his.

Of course, it is not to be expected that he can walk up and down the land and shed tears and make confessions for nothing.

A town jeweller showed a reporter four of these "locomotive" watches the other day. He had them in for "repairs." They don't wear well. The gold on the case is about as evanescent as the snow in April sunshine, and the works—well they don't work.

But if people will continue to buy watches, or, in fact, any line of *goods from strangers, of irresponsible* people—they deserve just what they get, and they get taken in.

The fakir says there is a "sucker" born every minute, and there are those who argue that the increasing gullibility of the human race, is an argument that the world is growing better — that mankind is working back to that stage of childlike innocence that existed in the garden of Eden before right from wrong was clearly understood.

However, that is only a theory. It is hoped that the people of this vicinity have got enough of these "full-jewelled, engine-turned, half-capped, horizontal levered 'locomotive' watches." With first-class timepieces, so cheap as they are offered to-day by the reliable jewellers of the town, it seems strange indeed, that the people will allow themselves to be "fleeced."

Mr. Joe Legg, Tenor Soloist at All Saints' Church, will sing at George Street Church Choir Concert on Friday Night.

LAKEFIELD.

Inspector Strickland, of the N. W. Mounted Police, and son of Mr. R. C. Strickland, of the village, paid a short visit to his parents here on Sunday. Inspector Strickland left on Sunday evening to join the Mounted Rifles, which sail for South Africa this week. His many friends here wish him the best of fortune in South Africa.

Mr. Fred Dickson of Peterborough, passed through the village on Wednesday on his way to the lake to join a salmon fishing party.

Mr. H. D. Smith and Mr. Frank Kilbourn, both of Owen Sound, were in the village on Monday on business in connection with the Cement Co.

At the special meeting of the council, re village electric lighting, held on Friday evening, nothing was decided upon, owing to the fact that only one tender for lighting was sent in.

Mr. Smythe, of Queen's University, Kingston, is back in Lakefield, and his many friends here will be pleased to hear that he intends spending the summer in our midst.

Mrs. E. R. Tate arrived home from her trip to the west on Saturday.

Among the many indications of the coming summer is the appearance in the village of Mr. John Thompson, who is making preparations for the opening of the saw mill. Mr. Thompson expects to have everything in readiness for a start next week.

The Dickson Co. have made the purchase of a new alligator for the towing of logs in Lake Katchewanooka. She was built by a Simcoe firm and is as much at home on land as in the water.

Miss Roy, Miss McBain, Mr. Wenger and Mr. Nicholls, of Peterborough, took advantage of the fine weather on Saturday to drive to the village.

How the Cocaine Habit Starts.

Generally from using catarrh snuffs and ointments containing this deadly drug. It is well to remember that *the only* direct scientific cure for catarrh is Catarrhozone, which cures by the inhalation of medicated air. Simply breath Catarrhozone and it will cure all forms of Catarrh, Bronchitis, Asthma, Lung Trouble and Deafness. Every breath from Catarrhozone Inhaler, soothes, heals and relieves. Permanent cure guaranteed even though other remedies failed. Try Catarrhozone; price $1; small size, 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

THE DOUBLE GAME.

At Mr. Miller's meeting at Bailliéboro, a few evenings ago, the side speakers were Mr. C. H. Bradburn and Mr. J. H. Burnham. During the course of the meeting, Mr. Bradburn was asked a question regarding his views on prohibition. We dealt with Mr. Bradburn's answer, in our issue of yesterday, and the remarkable answer volunteered by Mr. Burnham is worthy of some attention. Mr. Burnham said:

For years, in looking over this matter, I have sometimes oscillated between two opinions. Sometimes I am inclined to favour the liberty of the subject, and sometimes I am inclined to protect the young man from going to the devil. However, when I saw how the Alliance in Peterborough showed such mutual distrust and carping with each other, these people are not capable of governing this country and not capable of governing themselves. Therefore I have reverted to Whitney's platform, and I feel that if Mr. Whitney gets into power and carries out in an honest and straightforward way the system which he will put on the statute book, I say that these men are capable of controlling themselves and capable of controlling others, and are not capable of making such mountebanks of themselves as they did the other day. Mr. Miller, outside of prohibition, is the Conservative candidate. With regard to prohibition, he is not the Conservative candidate. We could not get a candidate in Peterborough to be a Conservative candidate on all questions. We asked Mr. Miller, and he said he would, and that he was with us on every question but on that of prohibition—he was a prohibitionist, said that he had been a prohibitionist, first, last and always. We said we are willing to take that man, and we know that the half loaf we have is good. We are willing to sink our differences in this matter. The matter is not of so much importance anyway.

In the very beginning, this champion of Mr. Miller, the Conservative candidate, takes a contradictory position. He villifies and derides the very people who gave Mr. Miller, the Conservative candidate, his standing as the temperance candidate of the party. He takes the position that the temperance people are not capable of governing the country, because they cannot agree among themselves.

In this the speaker is consistent and, at the same time, inconsistent. He is inconsistent in berating and denouncing the people who are behind the Conservative candidate. He is quite consistent in assuming a contradictory position, in keeping with the contradictory and cross-purpose stand of the Conservative party in this campaign.

At one time Mr. Whitney, the leader, advocates — when he would offer a bribe to the electors — *advocating the giving of provincial water power, "free as air;"* at another time he espouses the wild-cat scheme of the Government developing all the water power of the province as a speculation. Mr. Whitney opposes preventing the export of nickel, and his first lieutenant, Mr. Carscallen, favours an opposite course. Mr. Whitney's stumpers and newspapers, denounce corporations with all their souls, but Mr. Whitney stands the friend of corporations to such an extent that he proposes to wipe out the tax imposed by the Liberal Government on these rich aggregations of capital and, at the same time wipe out a revenue of a quarter of a million dollars a year; while at the same time, he promises to bring the finances into good condition, the first step being to cripple them. He, and his party, have been hostile to the Agricultural College, yet he proposes to erect five or six more agricultural colleges. By this proposition, though he and his followers denounce the "army of officials," he proposes to add to the list of officials the staffs, and the added expense of five or six new colleges, in the operation bedevilling our finances and increasing the number of officials.

The speaker quoted above, for whose utterances Mr. Miller is responsible, for he did not reprove him talks like the thimble-rigger with the pea—"now you see it, now you don't." Mr. Miller at the same moment is the Conservative candidate and not the Conservative candidate. "Outside of prohibition he is the *Conservative candidate; with regard* to prohibition he is not the Conservative candidate." The ingenuous admission that the Whitney policy is so split up, so much a thing of shreds and patches that a candidate could not be got that was sound on all questions, is rich. It is an admission that gives the party away and emphasises the fact that the party has no policy but that of getting into office by hook or by crook.

Mr. Miller, as a last resort, was asked, and he said would be with the Whitney party on all questions but prohibition. The party was willing to take such a man on the principle that half a loaf is better than no bread.

Could absurdity and inconsistency go further? The Whitney party are willing to accept a half-loaf candidate, but the electors will not be so easily pleased. They like to see some show of consistency and fair dealing. This blending of Bacchus and anti-Bacchus is too much for them and Mr. Miller and his party will find that there is truth in the old proverb, "between two stools you come to the ground."

If the half-loaf argument is tenable in Mr. Miller's case, why not apply the principle to the prohibition act now before the people?

Some temperance people say that the act is unsatisfactory, because it does not give total prohibition. But, though this is not the fault of the Government but of the constitution, they have the fairness to say that a half-loaf is better than no bread. They prefer even a measure of partial prohibition to the stand of Mr. Whitney that he will give no prohibition at all.

That is the honest stand, the only stand that can be taken in view of the fact that the Government has given the fullest measure of prohibition it can give. If the province had power to pass an absolutely prohibitive act, there would have been no necessity to submit it to the people for approval, but since the province has no such power the act is submitted to the people so that they can say whether or not they are satisfied with a measure of partial prohibition.

But the half-loaf candidate of the Whitney party in West Peterborough is neither prohibition nor temperance. He is appealing to the electors on a double platform. To a temperance man he is a prohibitionist, to a man of opposite opinions he is the Conservative candidate—the candidate of a party whose leader is the pronounced foe of prohibition.

This attitude has been apparent from the start but it was never brought out so plainly as by the foolish vapourings printed above.

Electors who think, will see through the flimsy pretenses of those who are appealing to their suffrages upon a double platform, and we have faith that they will vote accordingly.

ONTARIO'S PROUD FINANCIAL POSITION.

Ontario is without a dollar of debt presently payable.

Ontario had $1,408,492 of cash in the banks on December 31st, 1901.

Ontario's annual receipts in interest would retire its total liabilities twice over.

Ontario, for twenty years past, has shown a surplus of assets, after deducting liabilities presently payable.

Ontario's surplus of assets December 31st, 1901, was $2,571,291.

The interest paid annually on the *Provincial Trust Funds* (which are valued at $6,212,497) amounts to more than sufficient to meet the entire annual payments of the province for its liabilities for railway certificates and annuities.

Out of a total proposed appropriation in eighteen years of $61,631,333, the Opposition objected to only $488,-996.50—or only three-quarters of a cent on the dollar.

The Supplementary Revenue Act, providing for the taxation of certain classes of corporations and brewers and distillers, has produced $871,576 in three years.

The policy of the Opposition would, if carried into effect, take away from two to three millions from the annual revenue of the province, making a deficit that could only be made up by direct taxation.

Ontario's position is a proud one: That its affairs have been so managed as not only to create no debt, but to leave a surplus of interest-bearing assets that yield an annual income that could be capitalized at nine millions.

STOCK MARKETS.

Our Coal in Switzerland.

New York, May 7th.—To continue our talk about coal, a dispatch from Geneva, Switzerland, says the first consignment of American coal will arrive there about the middle of May. In the past Switzerland has obtained her coal from Germany. In 1901 the German collieries formed a trust and raised the prices two shillings per ton. This caused large orders to be placed in England. These orders were badly executed and the Americans seized the opportunity. They erected sheds at Rouen and Havre for stocking purposes, and now practically monopolize the Swiss market. American coal is gaining throughout all Europe, for the reason enumerated in our two previous letters.

A word as to a coal strike. It now looks as if there would be one. It means that 147,000 miners will be thrown into idleness. The last strike of the anthracite miners took place two years ago. It lasted seven weeks, and resulted in an advance in wages. Other demands were given up by the Union. This time they ask for shorter hours, more pay and Union recognition. The miners' treasury is generally understood to have on hand less than one hundred thousand dollars. This fund cannot carry a strike to any great extent when nearly 150,000 men must derive sustenance therefrom. We believe if a strike be ordered, the lowest prices for the coal shares will be recorded instantly. Such was the case last summer, when the steel strike started. It ended in disaster to the men, and the stock has never since recorded as low figures as it did the morning of the announcement of the commencement of the strike.

Bear in mind that Reading has already declined five points on report about the strike. Reading issues are stocks with unusual and potent reasons for ultimately selling very much higher. Due caution should be consequently exercised when contemplated selling them especially short, and after a decline. Bear in mind also that the business men and merchants throughout the coal regions are this time not in sympathy with a strike. They will therefore curtail credits, and this will speedily bring it to a culmination.—Haight & Freese Company.

Out of His Class.

Mrs. Jones—Just think of it! That fellow came in and actually stole the clock right off the mantelpiece.

Mrs. Brown—And your dog was in the very same room!

Mrs. Jones—Yes, but that didn't count. Fido is only a watchdog, you know.

Sorry She Spoke.

"Thank you, my little man," said Miss Passay to the nice little boy who had given up his seat in the car. "And have you been taught to always give your seat to ladies?"

"No'm," replied the bright boy; "only to old ladies."

CANADIAN CHEESE WAS NOT UP TO STANDARD.

Ottawa, May 6.—A report has been received by the Minister of Agriculture through the High Commissioner, from the Home and Foreign Produce Exchange of London, which declares that the general quality of Canadian cheese shipped during the season of 1901 has not been up to the standard that previous seasons have led importers to expect. This, the report adds, is the more disappointing as importations from New Zealand have shown an improvement in quality. The cheese, according to the report, was rank in flavour, due probably to being shipped before being thoroughly cured. The report also depreciates the shipment of too large a number of heavy cheeses in thin, brittle boxes, and suggests that weights be plainly stamped on all boxes, instead of being scribbled on with lead pencil. Finally, it is recommended that cheese be forwarded only in ships supplied with cool air ventilation, as cheese is invariably carried from New Zealand. "Were the system generally adopted," the report says, "the improved condition thus obtained would tend greatly to promote the popularity, and so increase the consumption of Canadian cheese, and it is felt that factorymen and dealers will be consulting their best interests in urging its adoption. To give point to this argument, it should be remembered that all vessels carrying New Zealand cheese are fitted in this manner."

In reference to the complaint, Mr. W. H. Wrighton states that he believes the fault to lay in the uneven and overheated temperature of the factories.

Plans and specifications may be seen at the office of the undersigned.

The lowest or any tender not necessarily accepted.

F. BARTLETT,
Architect, 418 Rubidge Street, Peterborough.
5d107

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until Tuesday, 3rd June, 1902, inclusively, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. of amount of the tender, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, 2nd May, 1902.

EYE, EAR, NOSE AND THROAT.

OFFICE:

Corner George and Murray Sts. Peterborough.

Get Rid of it.

If you have catarrh, why don't you try to get rid of it? The first thing you know it will go down into your lungs or stomach and cause serious trouble. You should use Vapo-Cresolene at once. The cure is so easy and so pleasant. You put some Cresolene in the vaporizer, light the lamp beneath and breathe-in the vapor while sleeping, that's all. The healing, soothing vapor, goes all up through the nose, quieting inflammation and restoring the parts to a healthy condition. Doctors prescribe it.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene, complete, $1.5 ; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklets containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

CARDEN SWINGS !

Just arrived GARDEN SWINGS for young and old. Strong and durable. Price $10.00. Call and see them.

THE PHALANX.

Its Formation in the Military Methods of Ancient Greece.

A phalanx in the military affairs of Greece was a square battalion or body of soldiers formed in ranks and files compact and deep with their shields joined and pikes crossing each other so as to render it almost impossible to break it. At first the phalanx consisted of 4,000 men, but this number was afterward doubled by Philip of Macedon, and the double phalanx is hence often called the Macedonian phalanx. Polybius describes it thus:

"It was a square of pikemen, consisting of 16 in flank and 500 in front. The soldiers stood so close together that the pikes of the fifth rank extended three feet beyond the front. The rest, whose pikes were not serviceable owing to their distance from the front, couched them upon the shoulders of those who stood before them and, so locking them together in file, pressed forward to support and push on the former rank, by which means the assault was rendered more violent and irresistible." The spears of those behind also stopped the missiles of the enemy. Each man's pike was twenty-three feet long. The word phalanx is also used for any combination of people distinguished for solidity and firmness. A grand phalanx consisted of 16,384 men.

What Hit Him.

Some years ago, while a gentleman was walking from St. James' park to Pall Mall on a bright afternoon in summer, he suddenly received a blow on the shoulder which caused him to stumble, and at the same time he heard a loud, crackling noise. On recovering he looked around for his assailant, but there was nobody visible except a policeman, who was many yards away.

When the gentleman reached home, his shoulder was examined, but no injury could be found to account for the pain in it. Soon afterward the servant, who had taken away his master's outdoor coat to brush it, brought back the garment and pointed out that the nap on the shoulder was pressed flat as if a hot wire had been drawn across it. Everything, in fact, pointed to the probability that the wearer had been struck by a meteor.

The incident might well be used as a blackboard lesson for children—aye, and for some grownup children, too—who imagine that "shooting stars" only shoot in the dark.

Naming the Child.

Now, necessarily when the new girl baby arrived there was much discussion among the members of the family as to what her name should be.

"We will call her Geraldina," said the fond mother.

"Why not call her Esmeralda?" said the first grandmother. "I saw that name in a story once and always wanted to try it on a baby."

"Oh, murmured the second grandmother, "that would never do. Let us call her Fanchon."

"But don't you think Eltessa is a pretty name, and so odd, too?" put in one of the aunts.

"Excuse me, ladies," ventured the poor father, who sat near by, "but you seem to forget that we are trying to find a name for a human being and not for a five cent cigar."

SUSPICION.

Many Sick People Doubt Everything They Can't Understand.

Dyspeptics are Cautious and Hesitate to use Anything as a Remedy the Ingredients of Which are Unknown to Them.

There has always been too much mystery about the treatment of disease.

The Indian Medicine Man with his rattles and charms was scarcely more mysterious than many physicians of the present day, who with very grave faces, brandish long Latin names to the utter bewilderment and mystification of their patients.

One of the most marked symptoms of Dyspepsia is a tendency to doubt everything.

Dyspeptics become suspicious, even of their best friends sometimes.

There should be no mystery about the treatment of disease.

Of course there are sometimes complicated cases which are very hard to diagnose.

But there should be no mystery about the treatment of a well-known disease such as Dyspepsia.

There can be only one cause for Dyspepsia, and that is a neglected and overworked Stomach.

Having become too tired to properly perform their natural functions, the Stomach and Digestive Organs fail, and the result is Heartburn, Sour Stomach, Bloating or Headache.

These symptoms if not corrected soon lead to Dyspepsia with all its terrors of pain, distress and depression of the spirits.

Dodd's Dyspepsia Tablets are a sure and sufficient cure for all derangements of the Stomach and Digestive Organs.

There is no mystery about this treatment.

The Stomach needs rest and the body nourishment.

Dodd's Dyspepsia Tablets are composed of pepsin and diastase,—digestives for both animal and vegetable food,—and two of these dainty Tablets taken immediately after eating, will digest every particle of the most hearty meal without the aid of the Stomach.

The Stomach is rested and in time restored to its normal healthy condition of activity.

The body is nourished at the same time.

This is how Dodd's Dyspepsia Tablets cure Dyspepsia.

There Will Be No Strike.

New York, May 7.—Presidents of the leading anthracite coal roads as well as some of the more important independent producers held a conference of several hours' duration in this city yesterday.

The strength of the coal stocks in the afternoon, together with the emphatic statement of a member of the firm of J. P. Morgan & Co., that there will be no strike were accepted as proof that pacific action will be taken at the miners' convention to be held in Scranton to-day.

AN ODD CALLING.

The Professional Business Adviser and His Methods.

One of the oddest of occupations is that of the professional "business adviser." If your affairs are not conducted to your liking, this gentleman for a consideration will station himself in your office in a position to see all that is going on. He will nose into your affairs for a week or longer at your option, at the end of which time he will "be prepared to point out the faults of your system, employees who neglect their duties, wastage of supplies and time, and suggest means of improving, extending and conducting your affairs on a sounder basis."

The words quoted are from this modest gentleman's advertisement. In brief this man, after a week's observation, will undertake to rearrange the most complex office systems "for a consideration" and give you advice "free, gratis, for nothing." As drowning men catch at straws, so do men whose affairs are hopelessly and inextricably muddled grasp at the chance this gentleman holds out to them. The professional "business adviser" has plenty of clients, and nine times out of ten his advice to his employer is to "make an assignment for the benefit of your creditors." It is the safest counsel he can give.

Water Clocks in China.

In the history of the Tang dynasty it is stated that in Persia at the same period there was a clepsydra on a terrace near the palace formed of a balance containing twelve metal balls, one of which fell every hour on a bell and thus struck the hours correctly. It is deemed not unlikely that this instrument was identical with the celebrated one which the king of Persia sent in the year 807 to Charlemagne.

In 898 the astronomer Tsiang produced an improvement on all former instruments—a machine arranged on a sort of miniature terrace ten feet high and divided into three stories, the works being in the middle. Twelve images of men, one for every hour, appeared in turn before an opening in the terrace. Another set of automata struck the hours and eighths of hours. These figures occupied the lowest story.

The upper story was devoted to astronomy, containing an orrery in motion. Very complex machinery must have been required. As to the nature of the mechanism nothing is known except that it was kept going by falling water.

A Story of Professor Huxley.

Professor Huxley, Dr. Wayland declared, was once sitting at dinner beside a lady who in impassioned tones asked him whether he did not think it a very terrible thing that the Rev. Mr. Jones, the vicar, should have adopted the eastward position in administering the sacrament. "My dear lady," he replied, "I am told by Sir John Herschel that to drop a pen at the end of every mile of a voyage on a limitless ocean to the distance of the nearest fixed star would require a fleet of 10,000 ships, each of 600 tons burden, all starting with a full cargo of peas. Now, do you really suppose that the Maker of the fixed stars considers this new position of Mr. Jones a serious thing?"

Some Phonetic Spelling.

Before we complain of the spelling of our daughters we should perhaps take exception to the pronunciation of our fathers. Most of the eccentricities in spelling common to children arise from their attempts to reproduce words as they hear them pronounced by their elders. A child who was told to make a list of all the fruits she knew wrote down, "Apis, strorbris, rarsbris, goozbris, bnarnera." Another spelled the word "idea" with the addition of an "r." "Idear!" exclaimed her teacher. "That is a funny way of spelling idea." Her pupil, however, was not to be outdone. "I know," she answered readily, "but I spelled it that way for short."

Too Much Appreciation.

A biography of Huxley dwells on the annoyance which he suffered from bores. But the plague had its funny side. Huxley once wrote to a friend:

"I had a letter from a fellow yesterday morning who must be a lunatic, to the effect that he had been reading my essays, thought I was the man to spend a month with and was coming down by the 5 o'clock train attended by his seven children and his mother-in-law!"

The Jackpot Defined.

A subscriber asks, "What is a jackpot that I read about once in awhile, and what seems to be the difficulty in getting it open?"

A jackpot is one for properly cooking fish and is especially recommended for suckers. It has a time lock, over the combination of which millions of Americans have burned the midnight oil in vain.

Practical Philosophy.

Daughter—Pa, dear, what is the difference between accident and fate?

Pa—That buttons fly off a man's clothes is accident. That a man's wife never sews them on is fate.

Worse Than Being Sandbagged.

A person who feels a clutch on his throat and chest is in a bad condition. A few doses of "Four T's," the great guaranteed cough cure, relieves this "grip" and loosens the cough. In two days the patient is well. Get a bottle to-day at Ormond and Walsh's drug store and avoid congestion.

Much Pleasanter.

"Prosperity has ruined many a man."

"No doubt. But if I'm given any choice in the matter I'd rather be ruined by prosperity than by adversity. The process is more enjoyable."

Nocturnal Investigator.

Husband—I have $7 more in my pocket tonight than I had last night. Now guess how much I have.

Wife—Seven dollars.

The true art of memory is the art of attention.—Johnson.

Diphtheria and scarlet fever cannot spread where Vapo-Cresolene is used. All Druggists.

THOROUGHLY CHINESE.

Canton Is One of the Oldest Cities in the World.

Canton, the capital of the province of Kwangtung, has a population of about 2,600,000 and is one of the oldest cities in the world, and until the port of Hongkong was opened it was the export city of the empire. Its old walls and fortifications, with their old guns, are all now obsolete and entirely neglected, remaining only as monuments of departed ages. They have never been of service except as warning of danger to an invading foe and no doubt had the desired effect until the last half century.

Canton is said to be absolutely and thoroughly Chinese, and there is no other city in the empire that is more so. There it exists today, with its narrow streets, its old temples, its wealth, its extreme poverty and its peculiarly constructed buildings, and when one considers the habits and customs of its people and their achievements in the arts so characteristic of that country, its ancient history so resplendent centuries ago, unless that history is a fable, and sees there now so much that is filthy and repugnant to common decency and civilization the present state of the country needs but to be seen to be condemned.

No stranger is respected or safe from insult within its limits unless he has official or military bearing or is in care of a trusty guide—one of their own countrymen, armed with plenary license and power.

Friendly Foes In Kentucky, 1862.

In these matters of principle not a hand was raised to prevent a free choice. No feeling of personal hatred stood between those who saw life's duty differently. A neighbor to the right of a little home called one evening on his neighbor to the left. He kissed the children and shook hands with the parents.

"I may not see you again. Tonight I go to join Morgan," he said.

The host went to his little wardrobe, took therefrom his greatcoat, thrust a pistol into the pocket and threw it over the arm of his guest. Both were poor men, and winter approached. The recipient attempted to return it. "No," said the donor—"no, you take this coat. Your path is to be one of privation; besides, I won't need it. Tomorrow morning I start north to enlist. My government has overcoats to spare, and pistols too. You who go south may find neither. God bless you, friend. May we return to meet again."—Frank Leslie's Popular Monthly.

Through Other Spectacles.

Some very good stories are told of the impression made upon those who attend for the first time the very high church Episcopalian service, with its elaborate ritual and its extraordinary musical features, at the Church of St. Mary the Virgin. The reply of a very prominent Catholic priest when asked by the friend who had taken him there how he liked the service, "Well, really, I prefer the simple ritual of my own church," is a current story at the clubs.

Even more amusing was the comment of the elderly Scotchwoman whose relatives said to her as they were leaving after the service:

"Well, Aunt Janet, did you enjoy the service?"

"A' weel," said Janet in response, "it's verra interestin', but what a w'y to spend the Sabbath!"

A Wrestle With German.

An estimable woman of Milwaukee is an earnest member of a local German class, but her method of pronouncing some of the words, at least in one specific instance, aroused the mirth of her companions. At a recent meeting of the class one of the questions in the day's exercise was, "Are you not glad that you are able to learn German?" This query was in the foreign language, and the answer was, "Ja, gewiss," meaning, "Yes, certainly." It so happened that this particular woman was called up to read the question and answer. She got through the question all right, but convulsed the class by reading the answer this way, "Ya; gee whiz!"

Child Must Grow.

The child must grow when it is young. If it doesn't grow give it Scott's Emulsion. It is a great medicine for growth. Scott's Emulsion is just the right addition to the weak child's daily food.

Tennyson and Barnum.

Tennyson was extremely eager at one time to visit America, and touching this point a story is related to the effect that Barnum offered him an enormous sum to make the trip, though probably not as one of the attractions of the "greatest show on earth." "All you have to do," said Barnum, "is to stand on a platform and have your hands well shaken." The poet, however, declined the tempting offer.

Courtship Too Expensive.

Tess—You don't mean to say they have broken off their engagement?

Jess—Yes.

Tess—Why, I thought they were perfectly devoted to each other.

Jess—So they are. You see, they have broken off the engagement, so that he may save enough money to enable them to get married.

Taking It Coolly.

The ship of an admiral who was the Duke of Wellington's near connection was wrecked. He was placed in command of a second ship, which was also lost, and he himself was drowned. Lord Charles communicated the disaster to his father, who merely exclaimed, with Spartan coldness and brevity, "That's the second ship he has lost."

The Way It Was.

Mrs. Grump—I understand you had some trouble with Mrs. Kick, where you last worked?

Hired Girl—Oi didn't hav' no thronble wid her, mum. Shure it wor her thot had th' throuble wid me.

Just 400 Years After.

In 1492 Columbus discovered America. In 1892, just 400 years later, Merrill, a Brantford druggist, discovered Four T's, the great guaranteed cough and cold cure. In five years the sale of a quarter million bottles has proved that Four T's never fails to cure a cough in 24 hours, and a cold in two days. Large bottle 25c. at Ormond & Walsh's drug store.

Don't Be a Pest.

If you can't oblige people in any other way, you can at least let them alone. Half the troubles of people are due to idle and impudent interference in their affairs. Half the time when you make a vigorous kick there is no kick coming to you. One of the worst habits people have is making each other unnecessary trouble. Life is hard enough at best. Don't be a pest. If you can't help others, you can at least let them alone.

Beards In Old Russia.

The Russians had an old law by which any one who drew hair from another's beard should be fined four times as much as for cutting off a finger, and the importance and value of the appendage are further illustrated by the fact that, although the loss of a leg was estimated at 12 shillings, the loss of the beard was estimated at 20.—London Globe.

Pained Him to Leave.

Soubrette—The heavy tragedian says he gets a rousing reception everywhere. He says it pained him to leave the last town.

Comedian—You bet it pained him! I understand they rode him out on a keen edged rail.

Doctors Said Incurable.

Excruciating Pains in the Back and Loins—A Plaster Cast Necessary for Temporary Relief—How a Cure was Found in

DR. CHASE'S KIDNEY-LIVER PILLS.

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidney disease. You cannot wonder at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. They have given him a new lease of life.

Mr. S. O. Demers, Conception Station, Labelle County, Que., writes;—"I am writing you in order that others who suffer as I did may profit by my experience. For three years I was obliged to give up all work on account of severe pains in my loins, back and sides. I had become so stiff in my body that I could not lean over without suffering the most excruciating pains.

"I consulted several doctors and specialists but all of them pronounced me incurable and could not even give me relief. One of them encased me in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die without being able to find a cure.

"About this time I received one of Dr. Chase's books and found my case described exactly. The sample of Dr. Chase's Kidney-Liver Pills which came with this book gave me marked relief, so I bought some more and continued the treatment. Gradually the sharp pains in my back and sides grew less severe, and my bowels became regular and active—constipation had been one of my worst symptoms.

"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and side, frequent desire to urinate and pain in making water, stiffness of the body and all the accompanying derangements of the liver and kidneys.

"Since using Dr. Chase's Kidney-Liver Pills these ailments have become less and less until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their favour. The people in this county are surprised to see me so well again and no wonder, for my cure has been almost miraculous."

Dr. Chase's Kidney-Liver Pills; one pill a dose; 25 cents a box, at all dealers, or at Edmanson, Bates & Co., Toronto. 5-6

THE Highest ideal in Piano Building is typified in

THE...

STANLEY

Samples of these beautiful Instruments are to be seen at the Company's works, George street, south, Peterborough.

In buying direct from the factory you are sure of two things, viz., that you are buying a New Piano and at the right price.

Agents for the Apollo Piano Player—the best on the market.

Military Course For Teachers.

Ottawa, May 7.—A militia order stated that "A course of military instruction for school teachers of High schools or Collegiate institutes in the Province of Ontario, will be held at Stanley Barracks, Toronto, commencing on July 7 next. Teachers authorized to undergo this course should report themselves promptly on the date named."

Cecil Rhodes' Will Read.

London, May 7.—The first meeting of the executors of the will of the late Cecil Rhodes was held in London yesterday, Dr. Jameson and L. L. Micell having arrived from South Africa with Mr Rhodes' final instructions. Besides reading the will and deciding to prove it in South Africa no business was transacted at this meeting.

Will Fight the Strikers.

Montreal, Que., May 7.—Seventy-two master plumbers decided yesterday to fight the strike, and not accept the union conditions, but to help one another in time of need.

Rheumatism..

Is Uric Acid in the blood. Unhealthy kidneys are the *cause of the acid being* there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the *cause* of those fearful shooting pains and stiff, aching joints. There is but one sure way—

Dodd's Kidney Pills

Carling's Porter

is the kind the doctor ordered.

He knows that he can rely upon the purity and thorough age of every bottle.

MANITOBA CROP OUTLOOK.

Only Fifty-Five Per Cent. of the Soil Still to Be Plowed.

Winnipeg, Man., May 7.—Reports received at the grain exchange from about 50 correspondents, residing in all parts of Manitoba, and Northwest Territories, show the following to be an average of the condition of the crop prospects up to May 1:

Ready for crop last fall, 40 per cent.

Land to be plowed this spring, 55 per cent.

Aggregate of wheat, compared with last season, 105 per cent.

Aggregate of barley, compared with last season, 110 per cent.

Aggregate of flax, compared with last season, 169 per cent.

Wheat land seeded May 5, 35 per cent.

Estimated quantity of wheat in farmers' hands, 8,000,000 bushels, of which about 4,000,000 bushels will be required for seed.

EXCITES GRAVE ANXIETY.

Condition of Queen Wilhelmina Worse Than Official Bulletins Say.

The Hague, May 7.—Advices received here from Castle Loo, dated 1 o'clock this morning, declare that Queen Wilhelmina's condition again excites grave anxiety. Another consultation of the Queen's doctors was held at 11 o'clock last night. The result of this consultation is not known. Extreme secrecy is maintained as to the contents of the telegrams despatched from Loo Palace. This and other measures are believed to indicate that the condition of Her Majesty is much graver than appears from the official bulletins. It is said the Queen is so weak that she has been unable to take any nourishment since last Saturday.

DAMAGES $1,000,000.

Tornado Wrecks the Largest Tin Plate Works in the World.

Newcastle, Pa., May 7.—The Shenango Tin Plate Works in this city, the largest tin plate plant in the world, was almost wrecked by a tornado yesterday. Every stack was wrenched from its foundations and hurled in pieces through the roof of the buildings, steam pipes were broken and ripped away, and the roof was torn off. The damage done will almost reach $1,000,000.

Wind 100 Miles an Hour.

Buffalo, N.Y., May 7.—A sudden squall struck the waterfront about 11 o'clock last night, and in a few minutes did damage to the extent of several thousand dollars. The high wind prevailed for only about five minutes. Tugmen say the wind reached a velocity of 100 miles an hour. One of the movable steel legs of the new Dakota elevator was blown into the river. It cost $10,000.

A Fatal Home-Coming.

Hamilton, May 7.—A fatal accident took place at the Stuart street station, between 12 and 1 o'clock yesterday. James Edgecombe, aged 37, an artist, who had been living in Buffalo, was the victim. He came to the city, as he believed, to attend his mother's funeral, and, jumping off the train before it stopped, he fell under the train and both his legs were cut off. He was taken to the General Hospital, where he died about 4 o'clock.

The deceased's mother died on April 13, and a letter was sent to him telling him the funeral would take place on the following Tuesday. It so happened that he was away from his Buffalo and did not return till last Sunday. On reading the letter he did not notice the date, and, taking the Tuesday as meaning yesterday, he came on the Buffalo express and met his death. No inquest will be held.

Quackery vs. Science.

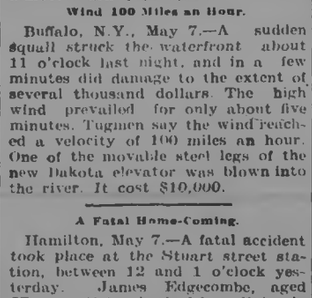
Most patent medicines emanate from people who know nothing of medicine or chemistry. Merrill's System Compound is skilfully compounded in one of Ontario's largest drug stores, after the suggestions of three eminent physicians. It purifies the blood, builds up the system, strengthens the nerves and regulates the bowels. 50 pleasant-to-take doses for 50 cents. Sold by Ormond and Walsh.

Fell From Load of Hay.

Charlottetown, May 7.—William McAleer of Bedeque Road, an old man, while building a load of hay last evening, fell, breaking his neck.

Enormous Wages Bill

New York, May 7.—The U.S. Steel Corporation employed 158,263 men during the past year, and paid out in wages $112,829,198.



TO

BURDOCK BLOOD BITTERS.

As a spring medicine it has no equal.

It purifies and enriches the blood. Acts on the Kidneys, Liver, Stomach and Bowels. Cleanses and invigorates the entire system from the crown of the head to the soles of the feet.

Don't be sick, weak, tired, worn and weary.

THIS SPRING

TAKE

Burdock Blood Bitters

AND KEEP WELL.

THE RIGHT STEP.

Every ordinary cold deserves serious attention.

It is only a step from it into grippe, pneumonia, or consumption; and it is only a short step the other way to cure the cold.

Nature and Scott's Emulsion work together to make a cold take the right step. Nature works all the time and Scott's Emulsion works if you take it.

Scott's Emulsion cures all kinds of colds.

Curran and Sir Boyle Roche.

Sir Boyle Roche, a famous Irish character of a century ago, was proud of his alliance with an English family of ancient lineage and was fond of referring to his titled father-in-law's kindness in giving him his eldest daughter, a boast which provoked Curran's retort, "Aye, Sir Boyle, and, depend on it, if he had had an older one he would have given her to you."

Whether it was this sarcasm which provoked Sir Boyle's hostility or that an enmity had already been created between Roche and Curran, it is certain that the two men were perpetually sparring at each other in the house of commons, as the debates of the Irish parliament testify.

Nor was the witty advocate and orator always successful in these encounters. Curran had observed one night, somewhat magniloquently, that he needed aid from no one and could be "the guardian of his own honor," whereupon Sir Boyle instantly interjected his sarcastic congratulations to the honorable member on his possession of a sinecure.

Babies and Monkeys.

A frequent action with babies is to turn the soles of the feet sideways, opposite to one another, while the legs remain straight. Just this attitude would be assumed by a monkey when climbing a tree or walking on a branch in order to grasp the stem with its hind legs.

The inherited effects of thus grasping tree trunks or limbs with the hind hands are often very marked in young babies. The bow legs, which are a feature of infancy and a matter of some anxiety to mothers, are no more than the relics of the tree climbing stage, and the mother need not be frightened about this character; any normally healthy baby will grow out of it soon enough.

Then, if a young baby be held so that its feet touch the ground, one may see that the feet are not put flat to the surface. Instead, the outer portions of the feet rest on the ground, while the soles of the feet are more or less opposed to one another; they have the bough grasping attitude.

The Monocle Is Harmful.

No sensible person will ever wear a single eyeglass unless he is blind of one eye. Its use means that one eye is neither employed nor unemployed, but is engaged in senseless though no doubt unconscious efforts to see as much as its more favored fellow. This straining is as harmful as anything could well be and cannot fail to lead to the gravest results.

One or the Other.

"What do you think of that wheel?" asked Sprockets, whose bicycle had been in a collision.

"I think it ought to be re-tired or retired," replied Dinwiddie.

Similar, but Different.

Biggs—When I make a trade, I always want something to boot.

Diggs—Same here, and I usually get it later when I kick myself.—Chicago News.

Nonprogressive.

Farmer Dunk—That 'ere hired man of yourn is pretty slow, ain't he' Ezry?

Farmer Hornbeak—Yuss; he's too slow to make a successful pallbearer.—Judge.

"Epitaphy."

A man may be simply mulish during his lifetime, but in the obituary notice it is always said that he had the courage of his convictions.—Denver Post.

Exhaustion of Nerve Force is Common in Springtime.

Paine's Celery Compound

Banishes
Nervous Prostration, Hysteria and Sleeplessness.

Any intelligent man or woman can easily detect victims of nervous troubles by taking a ten minute walk on any of the crowded streets of the cities or towns. The observer will note countenances full of feverish anxiety, harassed looks, unsteady hands, faltering steps, twitching muscles, pallid faces, and startled looks when unusual noises are made. Such people are, without doubt, victims of nervous prostration, hysteria, or insomnia. The whole system suffers—the brain, the spinal cord and the sympathetic system.

It is unnecessary to dilate minutely on the causes of nervousness. Business cares and disappointments, haste after riches and honours, social and household worries, sexual and alcholic excesses, watching and anxiety, and loss of near and dear ones, all contribute to the breaking down of the nervous organism of men and women.

In earnest words we set before this afflicted class the truth that Paine's Celery Compound affords a speedy and sure cure for all forms of nervous diseases. The great medicine is a perfect restorer of nerve force and power; a sure builder and strengthener of the weak and debilitated system.

Paine's Celery Compound has enabled thousands in every city and town of our land to renew and invigorate their health and keep their places in business and society. In all large centres where nervous diseases are common, the best physicians prescribe Paine's Celery Compound with continued success.

A few bottles of nature's health restorer used during the month of May will completly banish all nervous disorders, by giving new nerve force, purer blood, better digestion, normal appetite and refreshing sleep. In a word; Paine's Celery Compound will give you the full powers of robust *manhood and true womanhood.*

Dr. Porter Drowned.

Oakville, Ont., May 7.—Dr. Porter of North Bay, a patient at the sanitarium, was accidentally drowned yesterday while bathing off the sanitarium pier. It is supposed he took cramps, and, before assistance reached him, he sank. Dr. Porter had been accustomed to taking cold water baths daily.

150 Persons Disappear.

St. Thomas, D.W.I., May 7.—The flow of lava from the volcano on Mount Pelee, Island of Martinique, which began Saturday last, has completely destroyed the Guerin factories situated about two miles from St Pierre; about 150 persons have disappeared.

Lazy Livers and Sluggish Kidneys

When these organs fail to perform their proper functions, the blood becomes poisoned and and suffering and disease commence. This can be avoided by keeping your vitality at high-water mark, the blood rich and pure, by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. *Morning tiredness, Languor,* Dizziness, Pain in the Back and Sick Headache disappear at once when Ferrozone is used. Get it to-day. Price 50c., at Ormond and Walsh's.

Dr. Hamilton's Pills cure Biliousness.

Decidedly Unreasonable.

Clara—Men are the most impatient creatures. Harry knows that I have an offer from Mr. Oldchap, who is just rolling in wealth, yet Harry is just as unreasonable and babyish as if he thought I really cared for that old gray-head. Harry is so ugly about it that he won't do me the smallest favor.

Mother—What did you ask Harry to do?

Clara—I merely asked him to wait and be my second husband.

He Knew It.

He was being gently chaffed about his stammering. He took the badinage with customary good nature.

"T-t-that's r-right, b-b-b-boys!" he smiled. "I'm a s-s-stammerer all right. Wh-wh-why! Wh-when I w-w-w-wwa— When I w-ant vinegar for m-mmy s-s-s-salad, I c-c-call for s-s-sweet cider, and it's v-vinegar b-b-by the ti-time I g-g-get it!"—San Francisco Bulletin.

A Long Dinner.

During the hard drinking days in Scotland a country friend, calling at the door of Lord Hermand's house in Edinburgh at 4 o'clock in the afternoon, was informed by the servant that the judge was at dinner.

"But I thought his lordship did not dine till 5 o'clock."

"No more he does," said the servant, "but this is yesterday's dinner!"

Forethought.

"Why, I didn't know you had weak eyes, Mortimer!" exclaimed his very best girl.

"I haven't," returned Mortimer earnestly. "I have come to ask your father for your hand tonight, and it is a state prison offense to strike a person wearing glasses in the eye."

Chronic Catarrh Cured.

In Merrill's System Tonic one finds a pleasant-to-take but powerful blood purifier. It is this feature that makes it a never failing cure for Chronic Catarrh and Chronic Rheumatism. Money spent in snuff is only wasted. Remove the cause—Take Merrill's System Tonic. Price 50c. for 50 doses, at Ormond and Walsh's drug store.

Splinters.

Thorns and splinters finding their way under the skin frequently give considerable pain. If they cannot be immediately extracted, for which purpose a new needle will be found in most cases a sufficient surgical instrument, the part should be bathed with hot water. In event of inflammation the steam of hot water should be applied.

Baby's cold may be cured in a night by using Vapo-Cresolene, which has been extensively in use for twenty-four years. All druggists.

WHAT HE THOUGHT OF HIM

A Postal Card Serial Story and a Lost Suit For Slander.

A certain Kansas man, so the story goes, wanted to tell a neighbor what he thought of him without laying himself open to a suit for damages. So he hit on the plan of sending him each day a postal card with only one word written on it in a large hand, in addition to the date obscurely tucked away in a corner.

The person receiving the cards recognized the handwriting and, suspecting something, kept them until they stopped coming, when he read them consecutively in the order of their reception. What he read was, "Ridiculous old Bill Jones is the meanest cuss in town," and he at once instituted a suit for slander against the sender.

The latter's lawyer, however, called attention to the fact that the postal card containing "ridiculous," though mailed first, was dated the day after the date of the card having the word "town." Moreover, a careful inspection would show that after the word "ridiculous" was an exclamation point, and after the word "town" was an interrogation mark, so that the series of postal cards might be made to read: "Old Bill is the meanest cuss in town? Ridiculous!" He claimed, therefore, that instead of slandering the plaintiff his client had defended him from slander, and this plea was sustained by the court.

But, all the same, everybody in town insisted that the first reading of the cards was the correct one, so that the writer attained his object.

On Magnetic Healing.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

In Lonelyville.

Hicks—Our last cook was very considerate.

Wicks—Was she?

Hicks—Very. She gave us a week's notice.

Terrible Infants.

In counting life's worries
'Tis little things tell.
All girls with small brothers
Know this very well.
—Philadelphia North American.

Comparison.

She—Was Nellie prompt in accepting his proposal?

He—Well, I understand there wasn't any government contract business about it.

In the World of Graft.

It happens too oft
That a peach among women
Throws herself away
On a green persimmon.

Acrobatic.

Knicker—Do you practice at pingpong?

Bocker—Yes. I open a soft boiled egg for breakfast every morning.

Self Confidence.

The man who thinks that he is great,
And thinks it, too, with all his heart,
May claim to have one man convinced,
And that is something of a start.

ABSOLUTE SECURITY.

VARICOCELE NERVOUS DEBILITY CURED.

No Names Used Without Written Consent.

If you have transgressed against the laws of nature, you must suffer. Self abuse, later excesses and private diseases have wrecked thousands of promising lives. Treat with scientific physicians and be cured. Avoid quacks. E. A. Sidney, of Toledo, says: "At the age of 14, I learned a bad habit and at 19 contracted a serious disease. I treated with a dozen doctors, who all promised to cure me. They got my money and I still had the disease. I had given up hope when a friend advised me to consult Drs. K. & K., who had cured him. Without any confidence I called on them, and Dr. Kennedy agreed to cure me or no pay. After taking the New Method Treatment for six weeks I felt like a new man. The drains ceased, worms veins disappeared, nerves grew stronger, hair stopped falling out, urine became clear and my sexual organs vitalized. I was entirely cured by Dr. Kennedy and recommend him from the bottom of my heart."

We Treat and Cure Syphilis, Gleet, Varicocele, Emissions, Strictures, Unnatural Discharges, Seminal Weakness, Kidney and Bladder Diseases.

CONSULTATION FREE. BOOKS FREE. Call or write for Question Blank for Home Treatment. NO CURE, NO PAY.

Six Thousand Strike.

Johnston, Pa., May 8.—The 6,000 mine workers employed in the ten mines of the Webster Coal & Coke Company in this country, decided without a dissenting voice at a mass meeting yesterday to strike until the company signs the Altoona scale, which all other operators in this vicinity have signed and observed.

West Indian Earthquakes.

St. Thomas, D.W.I., May 8.— Advices from the Island of St. Vincent announce that for some days earthquakes have been experienced in the neighborhood of the Soufriere crater, which has been smoking and rumbling. The people of the vicinity of the volcano are leaving there for places of safety.

Suicide by Hanging.

Montreal, May 8.—J. B. Bienvenu, a ...ged farmer living near St. Hya...the, committed suicide by hanging ... yesterday afternoon. He brooded over imaginary troubles.

Mrs. Allen Acquitted.

Toronto, May 8.—Mrs. Lucy Allen was acquitted in the Police Court yesterday of the charge of theft preferred by Mrs. Rachael Wolfe, her former employer.

Won 2,550 Sovereigns.

London, May 8.—Carabine won the Chester Cup (handicap), of 2,550 sovereigns, for 3-year-olds and upward, at the Chester meeting yesterday.

Died of Lockjaw.

St. Catharines, May 7.—Gilbert Burnett, a prominent young man of this town, died yesterday afternoon in the hospital of lockjaw.

Very Likely.

Sister Sue—In my new play, Mr. Daniels, the hero and the villain are to fight a duel.

Daniels—And who will get the worst of it?

Brother Tom—The audience.

Entirely Different.

"It's all very well before a girl's married for her to get a flower in her hair," remarked the observer of events and things, "but it's an entirely different matter if, after she's married, she gets her hair in the flour."

If a man asks you a question you can't answer, make your answer so long and shadowy that he will be glad to forget his question.

AN ARTIST OF NERVE.

Remarkable Daring and Coolness in an Alpine Accident.

The architect Viollet le Duc was one day on the Schwarzenberg glacier at a height of about 9,000 feet, accompanied by Baptiste, the guide, who marched in front. The two men were attached to each other by a rope, as is usual in Alpine mountaineering.

The guide had passed over a crevasse, but when M. Viollet le Duc attempted to cross it he failed and fell into the abyss. The guide tried to pull him out, but instead he found himself gradually descending.

The architect perceived that his companion, if he persisted in the attempt to save him, would surely share his fate, and he asked if Baptiste had a family.

"A wife and children," was the answer.

"Then," said Viollet le Duc quietly, "I shall cut the rope."

He did so and fell, but a block of ice thirty feet lower down stopped his descent. When Baptiste saw this and that for a time the danger was lessened, he went in search of help and returned with four stout peasants. Three hours afterward Viollet le Duc was extricated.

In spite of his perilous position the ruling passion was strong with the artist, for, although he was almost covered with icicles from the dripping water, he had contrived to make drawings of the novel effects he was able to perceive.

A Costly Finger.

A Dresden paper relates an amusing anecdote. An old gentleman, a member of the landtag, lately slightly hurt his finger. Not troubling to go to his doctor, he asked a medical colleague what he ought to do and was told to give his finger a "soap bath." On the following day he was much surprised to receive from his friend a note for "medical consultation; the amount, 10 marks."

He then spoke to another colleague, a lawyer, complaining. His legal friend said it was strange conduct; but, should it come to a legal question, he would be obliged to pay and had better do so at once. The day after the old gentleman's astonishment was still greater on receiving from this friend a note claiming 10 marks for "legal advice."

Quite angry, he appealed to the commission, a body which settles all personal disputes of the members of the landtag. What was his disgust when the commission found that he had behaved badly in refusing just demands and condemned him to make amends by paying the fine of a basket of champagne! The finger, which was meantime perfectly healed, had cost him dear.

The Statues of Paris.

No city in the world has so many statues and monuments as Paris, and every day sees a new project for a new statue or bust. It is curious to note in this connection that a large proportion of the famous men honored in this way came to their end by violence in some form or other. Many of them died on the scaffold, and a stroll through the Paris streets may give the philosopher food for reflection on the mutability of human judgment. Danton and Lavoisier were guillotined, Jeanne d'Arc and Etienne Delet were burned at the stake. Henry IV. was murdered, Etienne Marcel was also assassinated, Marshal Ney was shot, Condorcet committed suicide to escape the scaffold, and these are only a tithe of those that might be mentioned.

A Badly Turned Phrase.

"It is queer," says a clergyman of New York city, "what a liking young students have for long words and Latin quotations and what a dread possesses them of appearing conventional. I once knew a promising candidate who was given charge of a funeral in the absence of the pastor of the church. He knew it was customary for the minister to announce after the sermon that those who wished should step up to view the remains, but he thought this was too hackneyed a phrase, and he said instead, 'The congregation will now pass around the bier.'"

An Extempore Pun.

An oft quoted old English wit is Daniel Purcell, who is worthy of immortality as a master of repartee. The best of the reported witticisms of this forgotten jester is as follows:

Purcell was desired one night in company by a gentleman to make a pun extempore.

"Upon what subject?" asked Daniel.

"The king," answered the other.

"The king, sir," said he, "is no subject."

The Teeth.

One of the commonest causes of bad teeth is that of taking very hot food. If you take a cup of very hot tea or coffee, the enamel on the teeth expands, and breathing the cold air afterward causes it to contract. This alternate expansion and shrinking of the enamel works havoc with it, and when it cracks, as it soon does, the inner part of the tooth crumbles away in no time.

Her Dearest Friend.

"If you were I," she said to her dearest friend, "would you be married in the spring or the fall?"

"If I were you," was the unhesitating reply, "and had actually secured a man, I would set the wedding for the earliest date possible."

A Great Success.

Old Friend—Was your daughter's marriage a success?

Hostess—Oh, a great success. She's traveling in Europe on the alimony.—New York Weekly.

Diarrhoea Weakens the System.

and if not checked becomes a chronic condition. No remedy compares with Nerviline, which is prepared especially for stomach and bowel troubles. As a radical cure for cramps, colic, gas in the stomach, summer complaint, Nerviline excels everything in the medical line, as an indispensible household staple, and costs 25c. Buy a bottle to-day.

Try Dr. Hamilton's Mandrake Pills.

The Good and the Bad.

One ought to balance the good with the bad and also the length of time a man has lived to form a true estimate of his character. Polybius, the Greek historian, has an observation to the same effect. "There is no reason," says he, "why we should not sometimes blame and sometimes commend the same person, for, as none is always right, neither is it probable that he should be always wrong."

HONEY AS A FOOD.

It Is of Great Value as a Medicine and Highly Nutritious.

Starch and sugar when eaten undergo a digestive change before they are assimilated. In honey this change has been made to a considerable extent by the bees. It is easy of assimilation and concentrated and furnishes the same element of nutrition as sugar and starch—imparts warmth and energy. As a medicine honey has great value and many uses. It is excellent in most lung and throat affections and is often used with great benefit in place of cod liver oil. Occasionally there is a person with whom it does not agree, but most people can learn to use it with beneficial results. Children, who have more natural appetites, generally prefer it to butter. Honey is laxative and sedative, and in diseases of the bladder and kidneys it is an excellent remedy. It has much the same effect as wine or stimulants, without the injurious effects, and is unequaled in mead and harvest drinks. As an external application it is irritating when clear and soothing when diluted. In many places it is much appreciated as a remedy for croup and colds. In preserving fruit the formic acid it contains makes a better preservative than sugar sirup, and it is also used in cooking and confectionery.

In early times, it is said, Palestine flowed with milk and honey, but we have far more of both today than the people of any age ever had. Honey does not injure the teeth as candies do. —Health.

Patti Made His Reputation.

Adelina Patti was not always such a "gold mine" to managers as some may suppose, says Leslie's Weekly. When she visited New York in 1880, her manager, Signor Lugo, overreached himself by starting out on a ten dollar admission basis, and the venture was a financial failure, notwithstanding Patti's great artistic success. She sang to a fourteen hundred dollar house on the first night and on the second to $400. She got discouraged, as it was her own venture, and gave it up.

The late Henry E. Abbey, who was bold in his speculations, then engaged her and her company at $5,000 per concert. He began at Wallack's old theater at Thirteenth street, giving scenes of opera, and the concerts there averaged over $7,000 a performance, but he lost in the out of town concerts $20,000.

A little later, being asked by De Vivo to take Patti to San Francisco, Abbey replied: "My dear De Vivo, I have got enough of Patti. I lost $20,000, but I made a reputation."

Those Who Fought and Ran Away.

During the Spanish-American war, at the recruiting station in St. Louis, the following, as related in the Galveston News, took place between a recruiting officer and an applicant who was of Irish nationality:

R. O.—How old are you?

I. R.—Don't know, but Oi must be auld enough.

R. O.—Have you ever been in the army?

I. R.—Yis, sor.

R. O.—Have you ever been in any battles?

I. R.—Oi have.

R. O.—What ones?

I. R.—Oi've been in all ov them.

R. O.—Were you in the battle of Bull Run?

I. R.—Oi was.

R. O.—Did you run?

I. R.—You bet Oi did, and them poor divils that didn't run are there yet.

Venetian Hospitality.

Whatever might have been said against the Venetians, they were a hospitable people—this, too, in small as well as in great matters. When, for example, in 1476, an embassador from the khan of Tartary visited the city and it was known that the khan and his suit carried but one shirt apiece in their bags, the senate formally voted 20 ducats that they might be provided with additional shirts, which were accordingly made "alla tartaresca" and presented. We can imagine how the good councilors and citizens would enjoy this kindly little jest.

Pinned Faith to Plymouth Rock.

The dominance of New England sentiment in matters of ancestry and early history was illustrated at a certain meeting of women in New York the other day when the first English settlement was spoken of as having been made in Jamestown, Va.

"Why, I always thought it was in Plymouth rock!" exclaimed a daughter of New England. "And so did I," "And I," echoed others, at least half of the women present, all of them supposed to be well educated persons, being of that opinion.

Not True to Nature.

A favorite joke in cheap theatricals is a gay old man who is running around after the young and pretty girls. It's not true to nature. Young and pretty girls soon tire of an old man. They do not pay him any attention and say things that hurt his feelings. Old men are rarely gay, but they are usually bilious.

Belated.

"Is th' thrain gone?" gasped Pat as he rushed into the station.

"It is," replied the agent calmly.

"Phwy didn't yez tell me that whin Oi was here yiste'day, awn Oi wudn't av bruk me neck runnin'."

Owning Up.

Mother—There were two apples in the cupboard, Tommy, and now there is only one. How's that?

Tommy (who sees no way of escape)—Well, ma, it was so dark in there I didn't see the other.

A Food for Brain and Muscle.

Whether it is brain fag, loss of memory, inability to concentrate the mind or bodily weakness and general debility Dr. Chase's Nerve Food will restore your old time energy, strength and health. Through the blood and nervous system, it reaches every part of the body and overcomes weakness, irregularities and disease.

THE RICE TABLE.

A Distinctive and Remarkable Meal Served in Java.

"At 1 o'clock," says a correspondent of the Kansas City Star, "every hotel in Java serves a most distinctive and remarkable meal called the rice table (rijst-tafel). A large, flat, bowl shaped dish is placed in front of you, which you fill with beautiful, white, flaky rice, borne about in dishes holding fully a quarter of a bushel. Then comes a seemingly never ending stream of natives, each bearing a dish containing some different meat, vegetable or condiment, from which you take a small portion and place it on top of the rice.

"After you have had a little of everything you mince it up with a knife and fork and mix it well with the rice and then fall to with a large spoon. A list of the side dishes, with an ordinary rice table, would read something like this: Fried eggs, omelet, fried chicken, broiled chicken, stewed chicken, beefsteak, sausage, fish, fritters, a mixture of vegetables stewed with a mustard dressing, raw cucumbers, liver and ten or twelve different spices and relishes, besides pickles.

Many a stout Dutchman have we seen take a liberal helping from each dish in addition to almost a quart of rice for a background of 'table.' Naturally every one must go to sleep immediately after such a meal, and all business is suspended for several hours. The dinner in the evening at 8 o'clock is a very simple meal."

The Wrong Room.

"While spending a vacation at Bedford Springs, Pa., some years ago," said a Baltimore lawyer the other day, "I went late one night to my room, as I supposed, unlocked the door and was startled by a woman's screams. I realized at once that I had got into the wrong room. You may be sure I did not waste any time getting out into the corridor, locking the door again and entering my room, which happened to be the next one.

"While I was doing this the woman continued screaming, alarming the whole hotel. A crowd soon gathered, and when the woman could be persuaded to open the door she declared there was a man in her room. Of course no intruder was found, and, as the door was locked when the crowd gathered, the lady was told that she must have had a nightmare and imagined she saw a man in her room. I kept quiet, and every one else in the hotel was convinced that the lady's imagination had worked upon her fears."

Popular Weather Notions.

How often do we hear the remark, "We shall have rain, the atmosphere is so heavy." The reverse is true. When one sees smoke hanging from a chimney, with a tendency to sink to the ground, it indicates that the atmosphere is light—in fact, too light to float the smoke. When the smoke rises from the chimney, it indicates a heavy atmosphere. A column of smoke is not a bad barometer, for a barometer simply records the pressure of the atmosphere. When the atmosphere is light and the smoke settles, the pressure on the mercury is light, and the column falls, indicating storm. When the atmosphere is heavy and the smoke rises, the pressure is greater and the column rises, indicating fair weather. Pleasure seekers and others before starting out should therefore watch the smoke.

MAGNIFICENT MASS MEETING

In the Opera House in Mr. Stratton's Interests.

FOUR INSPIRING SPEECHES.

Hon. Mr. Stratton, Hon. Mr. Harcourt, Hon. Mr. Evanturel, Hon. Senator Cox.

PUBLIC QUESTIONS WERE DISCUSSED.

The Record of the Liberal Government Presented—The Government's Claims to Support Eloquently set Forth—A Splendid Attendance of Solid Electors—A Forecast of Victory.

Probably one of the largest and most successful campaign mass meetings ever held in Peterborough, fittingly describes the magnificent gathering that assembled in Bradburn's *Opera House* last night. The large audience, the presence of the ladies, and the beautiful surroundings, all contributed to the success and interest of the occasion. The hall was beautifully decorated with flags—not too many, but just enough to give the effect of good taste. Stately palms decorated the stage front, and on the walls were suitable mottoes. Over the stage proscenium extended a banner, flanked with the Union Jack, with the words "God Save the King," and on the walls were hung the mottoes, "Stratton for Peterborough," "Ross for Ontario," and "Success to our Many Interests," and "Ontario, Canada, the Empire." The character of the audience present was impressive. It consisted of the thoughtful, intelligent electors, who listened to the excellent speeches given with the deepest interest, and the liberal applause given the several speakers, was not bestowed upon mere humourous pleasantries, but upon the telling points that clinched solid arguments. It is needless to say that the most admirable order prevailed, such as one always expects from a Peterborough audience. The speeches comprised an exhaustive consideration of the record of the Liberal Government, and its claims upon the support of the electors. Mr. Stratton, as the candidate, had to render an account of his stewardship as a representative, and as a member of the Government, and the reception he received, and the case he presented, won an approval that points to his triumphant election on May 29th. Hon. Harcourt dealt in a statesmanlike way with the several departments of the Government, from a business point of view, and showed how a business Government deserved the support of a business community. Hon. Mr. Evanturel, and Hon. Senator Cox, spoke briefly, but their remarks were complimentary to the record and good representative qualities of the candidate, and of the Government, of which he is an important member.

Mr. G. M. Roger, Secretary of the West Riding Liberal Association, occupied the chair, and pointed out that they were met in pursuance of the discharge of the highest function of freemen, the selection of a representative, a privilege involving the principle of absolute self-government, which we enjoyed to a greater extent than any other country in the world. Without further preliminaries, he introduced Hon. Mr. Stratton as the first speaker, who was received with most enthusiastic applause, and himself and the Government were complimented by the presentation of a beautiful bouquet of flowers, with the legend attached, "He wears the white flower of a Blameless life — Ross, that's all," a tribute from the representative workingmen of Peterborough, to the abundant legislation placed upon the statute books of the province, affecting the rights, interests and well-being of every class of the great army of toilers.

Hon. Mr. Stratton.

began his address by expressing the pleasure it gave him to meet such a magnificent gathering of his fellow-citizens, a circumstance which showed their interest in public affairs. He was also glad to see the ladies present. When the ladies were on his side, he was well content, for it was to their sympathy and influence that he attributed much of his success. (Applause.) He said, four years ago he appealed to the electors as a candidate for private membership of the Legislature. Since then he had accepted a portfolio in the Government, and he had by no means forgotten the kindness of the citizens of Peterborough, as expressed in his election by acclamation. Parliament had been dissolved and the people naturally expected from the Government a declaration of policy, and that the Opposition should give some reason why it should displace a Government that has so splendidly developed the resources of the province for the past thirty years, but they have given the people no reason why such a change should be made.

Mr. Stratton showed the strong character of the financial administration the Government had given in its thirty years of public service. In that time there had been a revenue of $104,615,783, and an expenditure of $103,779,588, leaving a balance in cash of $836,135.99. The Government had been charged with extravagance, but how could the charge apply, when it was remembered that on 31st December, 1867, the cash in the bank to the credit of the province was $636,-13599, and that on December 31st, 1901, this cash balance had grown to $1,468,492.99, and on the 15th of last March the amount of cash in the banks to the credit of the province was $1,970,050. (Applause.) The province had outstanding liabilities in respect of railways, but we retired the amounts connected therewith out of current revenue in the same manner the Dominion dealt with such liabilities. If the province realized upon its assets, with the cash in hand, it could discharge all its liabilities, with

A Handsome Margin

to the good. Mr. Miller, speaking in the Opera House, had asked where our timber had gone. Some of the timber of the province had gone, of course, as was inevitable. We wanted the lands of the province settled, and we had in the County of Peterborough large areas of settled, thriving country, that was once covered with forests. Mr. Miller had left the impression that the Government had squandered the money resulting from the conversion of our timber. But that was not true. We had received a revenue from our Crown Lands of 27 millions of dollars, and we had expended far more than that on public buildings, colonization roads, etc. It was not fair argument to say that Sandfield Macdonald's surplus of $3,800,000 was gone, and not say also that that had been spent, and twenty times more, for the benefit of the province. It would be fair argument if the Opposition attempted to show that any of this money had been improperly expended, that any buildings were erected that should not have been erected, but this they could not do. As a test of the prudence of the expenditure of Ontario, it was pointed out that while Ontario had not a dollar of debt, and a comfortable surplus, Quebec had a debt of some 23 millions, and all the other provinces had debts of from three to six millions. Mr. Whitney said he would reduce the expenditure, in the face of his declaration that he would reduce the revenue of the province. He would not say that in the House, where his position could be readily and effectively dealt with, but he made such a statement on the stump, where he could not be so readily met. If the expenditure of the province had been increased, it was because the public service demanded it. For instance, we had only two asylums to maintain in 1872; now we had eight, and of course there was a corresponding increase of cost, and the same applied to other departments of the public service. Mr. Stratton pointed out the large expenditures made to lessen municipal taxation—one half of the annual expenditure of the province consisted of sums appropriated to assist the municipalities. The result was that Ontario had the

Lowest Rate of Taxation

on the continent—one half less than the rate of municipal taxation in most States of the Union, the average rate of rural taxation in Ontario being 9 9-10 mills, while the average rate in the Central States of the American Union was 23 7-10 mills. The reason was that the Government of this Province had practiced the giving of grants to the municipalities which lessened the necessity for imposing so much taxation for local purposes. Then the Government had added to its revenue in the adoption of succession duties, which last year had yielded a revenue of $360,000, and the total derived from this new source of revenue since it was adopted was $1,639,000 — contributed by the estates of the very rich men of the country after they had passed away. It was a reasonable thing to thus tax rich men who do not otherwise pay their fair share of taxes. The Opposition charged the Government with being unduly friendly to corporations. But they did not say that this friendship was shown by the Ontario Government being the first Government that compelled corporations to pay taxes. The Government held that the corporations which were created by the Government, and enjoyed the protection of our laws and the advantage of the conditions provided, which enabled them to carry on a lucrative business, should pay their share of the expenses of maintaining the public service and should do so by the tax on corporations. The Province had paid some eight millions to help build railways and the companies should make some return. (Applause.) Then the license fees paid by brewers and distillers had been increased so that these establishments contributed $60,000 a year. We have received from liquor licenses the large sum of 11 millions of dollars and of this eight millions would not have been received, if the Opposition had had their way in regard to the McCarthy Act, (applause) which represented an attempt to rob the province of this revenue by turning it over to the Dominion. In regard to our finances, where would we find a country that had no direct taxation, where so large a share of the revenue was devoted to helping the people? After the Government had settled the financial condition they sent out exploring parties to find out what was in New Ontario. Mr. Foy had asked why it was only now that this was being done. It was to be remembered that for a long time most of what was

Now Known as New Ontario.

was in dispute. The Dominion Government, under Sir John Macdonald, had tried to deprive Ontario of this territory and in this he was helped by the Opposition in this Province. And if for no other reason the Opposition should be kept out of power in a province to whose interests they had been so unfaithful. (Applause.) Mr. Stratton then went on to speak of the policy of the Government in regard to building development railways into New Ontario. He first spoke of the Algoma Central Railway which had been aided by a land grant of 7,400 acres per mile, an aid which Mr. Whitney had denounced as a "colossal steal" a "public robbery"—as if it were a crime to legitimately aid a railway with the legitimate object of opening up a new country, rich in varied resources, and stimulating trade with old Ontario. He pointed out that the terms upon which this aid was given were very exacting as regards the company and very much in favour of the province, so much so that the best business men in Toronto thought that Mr. Clergue would not accept such terms. But he had done so and the event had justified the wisdom of the grant made, and excelled the highest expectations of the people and of the Government. We had as some of the results great pulp works, great chemical works, great steel works and already in preliminary preparations for work, about fifteen millions of dollars had been expended. In connection with these works 4,000 of 5,000 men were employed and the pay roll was $150.00 per month, and the population of the Soo had increased from 4,000 or 5,000 to 10,000. Yet Mr. Whitney had called the grant to this railway which was responsible for all this great industrial and commercial activity, a steal. The Government was right; it was developing New Ontario by the help of its own resources without taxing the people. (Applause.) Mr. Stratton referred to the Manitoulin and North Shore Railway, another development line assisted by a land grant. It is a line intended to give access to the undeveloped areas of the new country, which were rich in timber, pulp wood and minerals, to promote settlement, and

Bring the Resulting Trade.

and the general commercial advantages, to the older parts of the province, to give employment to our manufacturing establishments. Would not, Mr. Stratton inquired, the manufacturers, merchants and working men, all of whom would benefit from the new trade built up, vote approval of the building of the line, with the otherwise waste lands of the province, and benefitting thereby the whole country? The industries of the "Soo," through the building of the Algoma Central, had directly benefitted Peterborough, and hundreds of thousands of dollars were represented by the large orders placed with the William Hamilton Co., and the Canadian General Electric Co. The benefits from this line would be more direct for it connected with the main railway lines of the older parts, giving access both east and west with the new country. This railway grant was more favourable to the company than the Algoma Central, which Mr. Whitney called a "colossal steal," yet he approved of the Manitoulin land grant. Why did he take this contradictory attitude? Because he saw the great results flowing from the first road aided by land grants made it popular, and he wanted to be on the popular side. (Applause.) The Government were building the Temiskaming Railway as a provincial work. This province thus becomes the pioneer in Government construction and ownership of railways. This line would open up a million acres of the most fertile land, and bring the trade to Ontario, through its direct connections with the Grand Trunk Railway. Thus the Government holds the key of the situation. This line would eventually be extended to salt water at James Bay, and develop the rich fisheries there. The policy of the Government was to open up for settlement the great resources of northern Ontario, which have so long been lying dormant, and to do so to the benefit of the settled parts. (Applause.) We must fill up the north with settlement, so that we could compete in population with the rapidly filling Northwest, and thus keep Ontario in the front rank of the provinces. The Opposition recklessly charged that in the matter of pulp agreements the Government had given away millions of acres of the land of the people. This was not true. Not an inch of land was given away, nor a stick of pulpwood. The companies only got the right to cut pulpwood over a given area — enough to supply their mills—and for every cord they had to pay the province 40 cents, and settlement was not impeded, but, rather, promoted. Any of the lands conceded to the companies for cutting grounds could be settled upon, and the settler came into possession of all the pulp wood on his holding, and from the first

He Could Sell his Pulp Wood

to the mills for cash, instead of burning it in the process of clearing, as had been done in this very county. The Government had made agreements with seven pulp companies, and if anything resulted from the development, anything approaching the tremendous results from the first concession at the "Soo," there would be hundreds of millions spent in development of an immense trade that would enrich Old Ontario. (Applause.) In the Ontario pulp agreements there was stipulated an expenditure in works and buildings of nearly five millions of dollars. Immediate development must go on or the agreement lapses. In Quebec the lands were disposed of outright and the holders could keep them if they liked in an undeveloped condition till the crack of doom. In Ontario all pulp wood must be manufactured in the country. In Quebec it could be exported on payment of a small export duty. The Ontario way was the best, and all good business men and the people would agree, as had been done by the leading financial papers of the province; and even Mr. Marter, the former Conservative leader, broke with his party, because they blindly opposed such excellent business propositions. The policy of the Government gave employment to capital and labour, and directly benefitted the working man, and as the area and extent of our pulp wood resources were unlimited, and the benefits from their development would be in proportion.

Mr. Stratton dealt briefly with the license legislation of the Government, showing how their policy and legislation had reduced the number of licenses in twenty-five years from 6,185 to 2,950, and the decrease in drunkenness and crime due to drink, had similarly decreased, till now Ontario was the most sober country in the world. (Applause.) Reference was made to prohibition and the referendum. In adopting the Manitoba Prohibition Act, as had been requested, the Government was giving as strong a prohibition act as the province had power to pass. It was not prohibition, because it did not forbid importation and sale. The Government felt that the people should be allowed to pronounce upon such a measure, and if they wanted prohibition of that partial kind, and every three out of eight of the 650,000 electors voted for it, they would have it. The Government did not want to disturb business and force

STOCK YARDS OPENED

Facilities to Live Stock Shippers At Toronto Junction.

ARE NOW IN WORKING ORDER.

Prominent Stockmen and Agriculturists of the Province Attend Opening Luncheon—President J. D. Allen's Address—Hon. John Dryden, Minister of Agriculture, Expresses Approval of the Enterprise.

Toronto Junction, May 9.—The Union Stock Yards Company opened their yards at Toronto Junction yesterday by an inaugural dinner. The gathering was a most auspicious one, including many of the most prominent stockmen and agriculturists of the province, representative citizens and members of the Legislature.

The president of the Union Stock Yards Company, J. D. Allen, welcomed the guests and presided at the dinner table.

The president welcomed the guests in felicitous terms, spoke of the patriotism and loyalty of Canadians to British connection, and dwelt upon the important interests, the live stock interests of the province, which this new enterprise was sure to facilitate. The first toast, that of the King, was proposed in patriotic terms, and after being duly honored, the toast of the provincial Legislature was proposed, coupled with the names of W. J. Hill and J. W. St. John, who both briefly responded.

The toast to "Agricultural Interests" was responded to by Hon. John Dryden, who said the president could not have honored him more than by coupling his name with this toast. Agriculture had changed. Years ago the farmers sold wheat and grain. To-day we find more and more turning their grain into stock and soon these pens of the Union Stock Yards Company would be filled with stock due to this new condition of affairs. The agricultural output had doubled in the past eight years. The number of cattle raised had doubled in less years than that. To-day we are just beginning to branch out. Some people are guaging the future by the past. They cannot see the great need for these yards; but he could assure them that the cattle would multiply in numbers, and that the export numbers would increase rapidly and double again in a few years. To-day facilities were needed for the handling and sale of stock. A great centre was needed, where at all times of the year, it would be possible for men to get the cattle needed for export. Here, at Toronto Junction, was a good railway centre. Men could here congregate and solve the shipping and transportation questions in a way they could not at other markets. There was lots of room. The facilities were here. There was room for industries of biproducts, so that everything went back to the farmer. He believed that in Chicago they were able to give better prices for stock, because there were facilities for the stock men and the industries connected with the yards to meet together and work on common lines. That is why in Chicago they can give $1 a head more than in Toronto, yet the same train on which the cattle are put at Chicago calls at Toronto and both go on the same boat to the same foreign market. The farmers would eventually get more for their cattle. He did not think prices would go down. To-day there is no means in Toronto of arranging for shipments on steamers. A unity of purpose among the stock men, as in Chicago, would result in these facilities being afforded, and, in the Union Stock Yards, there were the opportunities for men to meet and arrange business on business lines.

Nature pointed to Toronto as the great centre of the live stock trade, but Toronto cattle man had not looked to the future. If they had they would not have built a pen now and a pen again. They would have moved out where they could get room. There could be no expansion. There was no chance for it. Trade would be forever embarrassed there. The present prices could not be maintained without facilities, and in Toronto there were not adequate facilities and never could be.

Mr. Dryden said he had prophecied that 6c. per pound would be given live weight for beef, and it had now reached that point. Future years would see a much greater increase. Speaking of the Chicago market, Mr. Dryden said the actual value of the live stock trade in 1900 was $13,000,000 more than the combined grain, lumber and wholesale dry goods business of the city. It amounted to $269,111,000. Mr. Dryden then spoke of the high price of meat. He did not think it high. It had only gone up one cent. If the people wanted a remedy, let them go to the United States. There they will find prices higher, and in Europe still higher. He said, give the farmers a chance. Every dollar given to the farmers comes back to the merchants. They are good distributors of money.

After speeches from several others, the president gave a resume of the intentions of the company. Sufficient capital stock has been subscribed to carry out all their plans. He refused $5,000 in England, because the company hopes to have all the stock taken up by Canadians, and a proportionate amount by each county. The markets at Paris, Berlin, Leipzig, Manchester, and in American cities had been visited, and the buildings to be erected on Keele street would be imposing works of architecture. The scales were the largest in America. He did not say this as a boast; but it showed that the company desired to be equal to any emergency, and to provide the facilities which the future may demand. Mr. Allen spoke of the dead meat trade now going on between Australia, New Zealand and Europe and of the possibilities of the Union Stock Yards Company. His speech was listened to with great interest.

VICTORY FOR TRACKMEN.

Arbitrators Decide That Those on C.P.R. Eastern Division Should Get 20 Per Cent. Increase—Company Accepts.

Montreal, May 9.—The trackmen of the eastern division of the C. P. R. have scored a victory, 20 per cent. having been added to their schedule of wages based on those of 1897. This is the result of the arbitration given out and signed by Chancellor Boyd, J. T. Wilson, representing the men, and Fred P. Gueellius, C.E., the company.

D. McNicoll, second vice-president, while acknowledging the arbitration was closed, did not think the details were of public interest. "All I have to say is, the company agreed to stand by it, and they will do so."

Mr. Wilson, president of the Brotherhood of Railway Trackmen of America, said: "If, as you say, Mr. McNicoll agrees to stand by the result of the arbitration it is a great victory alike for the company and the men, because the former had acknowledged a principle which will hereafter assure them of the peaceable working of their property, do away with the necessity of a strike, and render the relations between employer and employe more conciliatory and satisfactory."

The general committee of the trackmen is now in session with the management of the road in regard to the reference of the other divisions to arbitration.

C.P.R. MACHINISTS.

A General Strike Possible—Committee Now in Winnipeg.

Winnipeg, May 9.—A general strike of all machinists on the Canadian Pacific is probable. The General Committee of the Machinists' Union all left their posts yesterday, and have arrived in Winnipeg to present their grievances to the management. They say that they will not arbitrate as the settlement made on that basis last year has proved entirely unsatisfactory.

BROTHER SHOT BROTHER.

Grim Tragedy the Result of a Father's Ill-Advised Will.

New York, May 9.—Paul Leicester Ford, the novelist, was shot and killed yesterday by his brother, Malcolm Webster Ford, writer and athlete, who immediately sent a bullet into his own breast, dying instantly.

Information makes it appear that Malcolm Ford called to get money from his brother, and meeting with a refusal shot him. Dr. Baruch said that the murder was the result of temporary mental aberration on the part of Malcolm Ford.

The cause of Malcolm Ford's action can be explained by inference. Paul Leicester Ford was 37 years old, a novelist of note. He was the son of Gordon Lester Ford of Brooklyn, who died 11 years ago and left an estate of some $2,000,000, divided between his children, with the exception of Malcolm W., who was disinherited by the will, in the hope that he would abandon an athletic career.

A Marvellous Medicine.

Having a direct and combined action on both the liver and kidneys, Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine, and hence its extraordinary success and popularity. Biliousness, liver complaint, Bright's disease, deranged kidneys and stomach troubles are promptly and thoroughly overcome by this great family medicine. One pill a dose, 25 cents a box.

Holiday at Ottawa.

Ottawa, May 9.—Yesterday was a holiday here and the members are playing cricket on the lawn in front of the Parliament Buildings.

Ontario and Quebec defeated the rest of Canada by a score of 102 to 78 runs.

Diphtheria and scarlet fever cannot spread where Vapo-Cresolene is used. All Druggists.

Underwear And Health . . .

Intelligent people are beginning to realize the importance of wearing the right kind of underclothing. Not only does it effect bodily comfort, but physicians declare it to be an important factor in the treatment of catarrh, rheumatism and nervous disorders.

The Dr. Delmel Underwear

Is pre-eminently the ideal underclothing of to-day, and its wear will do much to keep the body healthy and vigorous. A booklet mailed free on request.

W. H. MEREDITH

339 GEORGE STREET

PETERBOROUGH.

TO CIRCUMVENT THE TRUST.

Lord Strathcona Receives Liverpool Deputation re Fast Atlantic Line—Anxious About Probable Termious.

London, May 9.—Lord Strathcona received yesterday an influential deputation from the Liverpool Chamber of Commerce, the City Council, the Mersey Docks, the Corn Trade Association, in fact practically all concerned in Liverpool shipping, begging that Liverpool be retained as the British terminal port of any Canadian fast mail service.

All official information was denied to the press, but it is understood that the deputation submitted in the strongest possible manner Liverpool's superior claims to Southampton or Milford Haven. In fact so much official secrecy was demanded as to raise the expectation that Lord Strathcona may have told Sir Alfred Jones and other Liverpool owners present that they had the matter practically in their own hands. If they desired to secure Liverpool's claims they had better submit by mail their proposals for a line inviolably British and under the subsidy of the British and Canadian Governments, in competition with the Morgan Trust. Blackburn, Halifax and Huddersfield Chambers of Commerce were also represented on the deputation.

In the opinion of the highest authorities here this is a great chance both for Canadian and British ship owners outside the trust.

BOOK-MAKING ON RACE TRACK.

Court of Appeal Upholds Conviction of Edward Hanuchan of Windsor.

Toronto, May 9.—The Court of Appeal at Osgoode Hall has affirmed the judgment of a Windsor court which decided that it was not legal to accept bets at the Windsor Race Track on races run in a foreign country. Edward Hannehan, president of the Essex Racing Association, was convicted last year of keeping a common gaming house on the race course at Windsor, and fined a nominal sum by the local magistrate. Keeping the "common betting house," as defined by the law, consisted in allowing the bookmakers who did a legal business in accepting bets on the races there to also take wagers on races run at Saratoga, Morris Park, and other race courses in the United States. The magistrate in giving judgment held that while bets on the local races were perfectly legal, that betting on foreign races was contrary to the statutes.

The Court of Appeal affirmed the conviction, Chief Justice Armour remarking in his deliverance that there was nothing in the criminal code, which under any circumstances of time or place exempted from liability the keeper of a common betting house. The law, he continued, prohibits the keeping of a common betting house on the race course of an incorporated association, just as much during the actual progress of a race meeting as at any other time, and there is nothing in the criminal code which warrants an implication that a common betting house may be kept on the race course of the incorporated association during the actual progress of a race meeting.

SHOT THROUGH THE HEART.

Robert Addy of St. Catharines Killed Himself Thursday.

St. Catharines, May 9.—About 4 o'clock yesterday afternoon, Robert Addy, a well known young man here, entered the yard in the rear of the Central Drug Store, drew a 32-calibre revolver, and shot himself through the heart, dying instantly. The young man was, some time ago, a patient at the hospital, and it is supposed despondency, brought on by ill-health caused the awful act. He was an employe of the Welland Vale Company's works, and was also a member of the 7th Field Battery.

25,000 WERE KILLED

Frightful Result of Earthquake in Martinique.

TOWN OF ST. PIERRE WIPED OUT.

Almost All Its Inhabitants Were Killed—All the Shipping of the Port Destroyed—Quebec Steamship Company's Steamer Roraima Mentioned as Lost—British Steamer Roddam Almost Completely Wrecked.

St. Thomas, D.W.I., May 8—(7 p.m.)—The British steamer Roddam, Capt. Freeman, which left St. Lucia Wednesday for Martinique, returned to St. Lucia at 5 o'clock this afternoon. The Roddam brings a report that the town of St. Pierre, Martinique, has been totally destroyed, as a result of the volcanic disturbances in the island. Almost all the inhabitants of St. Pierre are said to have been killed. The Roddam reports that all the shipping in the port has been destroyed. The Quebec Steamship Company's steamer Roraima is mentioned as having been lost, with all on board. The Roddam was almost completely wrecked. Her captain was seriously burned and 17 of her crew are dead.

The steamer Roraima, Capt. Muggah, left New York April 26 for St. Thomas, where she arrived May 2. From St. Thomas she proceeded for St. Croix, Demerara, etc.

The town of St. Pierre, the commercial capital of the French Island of Martinique, is on the west coast. The port there has only an open roadstead. The town has a population of about 25,000.

STOCK MARKETS.

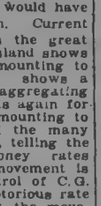
New York, May 8th, 1902.—The support under this market like the conditions under the general situation, is the strongest ever known. The natural tendency of the market continues upwards in the face of superficial influences, which ten years ago would have caused serious depression. Current railway statements explain the great strength of values. Rock Island snows a net increase for each, amounting to $349,000. New York Central shows a gross increase for April aggregating $595,000, while M. O. P. reports again for the fourth week of April amounting to $129,000, to say nothing of the many reports of the same nature, telling the same story. Prohibitive money rates are not here to stay. A movement is underway to purchase control of C. G. W. and Wis. C., the two notorious rate cutters. The shares reflect the movement in the market. Once they fall into the hands of the railway combine, their influences for demoralization of rates will be at an end. Stability of rates is to the interest of all, and as much so to shippers as to the roads themselves. Every little detail has been considered, and provided for by the master hands at present in control of the American railways. Progress of the American roads in the next five years should excel that of any preceeding equal period.

It now looks as if the industrials were shaping themselves for an upward turn. Their time appears to have arrived. They may possibly prove to be temporarily better to trade in than the railway issues, until the crops are further advanced. At present writing, however, the crop situation is as good as could be desired. Some one seems willing to take all the copper people care to sell. It is especially strong around present prices, and there is a large, short interest in the shares.

Sugar looks like a good purchase each time that it is depressed. The sugar company will be the one to secure the Cuban crop of raw sugar. All the steel issues are remarkably steady. Support was not lacking, while the market was under the hammer most of the week, when the Dominion Security episode was with us. They more than pay their board in their dividend returns. Buyers can therefore afford to carry them.

The market appears to be awaiting finite news from the coal regions. The coalers were all strong advancing about a point, then receding fractionally. T. C. I. sold off on professional disappointment with the company's statement. Southern Pacific, U. P. and M. O. P. was in good demand, and very strong. N. Y. C. and Ill. were firmer. St. Paul sold higher than yesterday. Tractions were heavy the major portion of the day, owing to Judge Earles decision relative to the franchise tax. The decision is not final. It now goes to the Appellate Division of the Supreme Court. Sug. was strong. P. O. and the Steels were higher after an early recession. C. F. I. more than recovered its loss. We still advise the bull side.—Haight & Freese Company.

Look At It.



We mean our little picture here. There's a vaporizer, you put some Vapo-Cresolene in it; there's a lamp, you light it. Then you just naturally breathe-in the vapor. You can read, or sew, or study, the cure goes right on all the time. Now you see why the doctors all speak so highly of Vapo-Cresolene for throat troubles. It takes the medicine just where it's most needed, and it is a perfect cure for whooping-cough. 25

Vapo-Cresolene is sold by druggists everywhere. B to L Squadrons, Canadian Mounted Rifles—33.

Total—200.

Field Artillery.

Royal Canadian Field Artillery—1 battery, sergeant-major and 30 men—40.

First Brigade Division (11th and 16th batteries). 2nd Brigade Division (4th, 7th and 9th batteries), 1st, 2nd, 3rd, 5th, 8th, 10th, 12th, 13th, 14th and 15th batteries, 4 men per battery—60.

Total — 100.

Dismounted Troops.

Garrison Artillery—Officers 1, captain.

Royal Canadian Garrison Artillery—1 company sergeant-major and 7 men —8.

First Halifax Regiment—4 men per division—8.

Fifth British Columbia Regiment—5.

Second, 3rd, 4th and 6th regiments, 4 men per regiment—16.

Cobourg Company, 2 men; Sydney Company, 1 man—3.

Total—40.

Engineers, officers, 1 lieutenant.

Non-commissioned officers and men —9, selected as follows: Brighton Company, 3; Charlottetown Company, 8; Toronto Company, 8.

Infantry and Rifles.

The infantry will be formed into two companies, each to consist of 1 captain, 1 lieutenant and 70 non-commissioned officers and men; and the rifles into one company, consisting of 1 captain, 1 lieutenant and 42 non-commissioned officers and men.

Non-commissioned officers and men will be selected from corps as follows: Royal Canadian Regiment, 1 regimental sergeant-major and 15 men—16; the G. G. F. G., 1st P. O. W. Fusiliers, 5th Royal Scots, 10th Royal Grenadiers, 48th Highlanders Regiment, Fusiliers, 4 men per regiment; total, 24; 7th, 21st and 92nd Fusiliers, 2 men per regiment, 6; 4th, 11th, 12th, 13th, 18th, 20th, 27th, 31st, 32nd, 33rd, 34th, 35th, 38th, 40th, 58th, 59th, 61st, 67th, 68th, 69th, 71st, 75th, 77th, 78th, 79th, 82nd, 83rd, 85th, 87th, 89th, 92nd, 93rd, 94th, 2 per regiment—61; 15th, 16th, 19th, 24th, 25th, 28th, 29th, 42nd, 44th, 45th, 46th, 47th, 50th, 53rd, 54th 55th, 73rd, 74th, 80th, 84th, 86th, and the Rossland, Nelson, Kamloops, Kaslo, Revelstoke and Dawson Rifle Companies, 1 per regiment or independent company —28.

Rifles—2nd, 3rd, 6th, 8th, 9th, 14th, 20th, 22nd, 30th, 37th, 38th, 39th, 41st, 43rd, 49th, 50th, 63rd, 64th, 65th, 90th and 97th regiments, 2 per regiment—total 42.

Army Service Corps—No. 3 Company, Kingston, 3; No. 4 Company, Montreal, 3; Military Staff Clerks' Section —2.

Army Medical Service—Bearer Companies Nos. I., II., III., IV., V., VI., VII. and VIII., 1 per company—8.

Field Hospitals—Nos. 2, 3, 4, 5, 6, 7 and 8, 1 per company—7.

Band.

In addition to the foregoing detail, the band of the Royal Canadian Garrison Artillery, consisting of a bandmaster and 25 non-commissioned officers and men, will accompany the contingent.

Qualifications.

In selecting non-commissioned officers and men for this distinguished duty, district officers commanding will, excepting as regards members of the Northwest Mounted Police and Strathcona's Horse, be held responsible that all fulfil the following conditions:

(a) To be at present included in the service rolls of a corps of the active militia.

(b) To have completed the full military training in 1899, 1900 and 1901, excepting in case of those who served in South Africa.

(c) To be 5 feet 7 inches in height.

(d) To be well set-up, thoroly trained, and certified by their commanding officers to be of exemplary character.

(e) To have been examined and passed as fit by the medical officer.

(f) To be completely clothed in the uniform of their respective corps.

Selection of N.C.O.'s and Men.

Officers commanding regiments, in selecting their quotas, will be good enough to select non-commissioned officers and men in the proportion of about 1 in 4. All non-commissioned officers and men, excepting as detailed above, will be taken on the strength of the Coronation Contingent as privates, and will only serve as non-commissioned officers if appointed to non-commissioned rank by the officer commanding the contingent.

It is the desire of the Minister of Militia that as large a percentage as possible of non-commissioned officers and men selected shall have seen service in the Northwest in 1885 or in South Africa.

In order to secure this officers commanding regiments will submit to their district officers commanding the names of double the number of non-commissioned officers and men as are allotted to their commands for this service, the names, with postoffice addresses, to be given in the order of merit, and the letters "N.W." or "S.A." shown opposite the names of those who have served in these campaigns.

Officers, non-commissioned officers and men will be entitled to the pay of their rank as provided in regulations and orders for the active militia, from, and inclusive of the date they must necessarily leave their homes to be at point of concentration on the 29th instant, up to and inclusive of the day they reach their homes in Canada, if they proceed direct thereto after disembarkation.

Twelve Reasons Why People Should use

Malt Breakfast Food

First—It is the most delicious grain breakfast food made.

Second—It is the most healthful cereal food.

Third—It comes in the most nutritious form in which a grain food can be served.

Fourth—It is the most easily digested cereal food manufactured.

Fifth—It pleases the whole family, old and young, strong and weak, athlete and invalid.

Sixth—For invalids and convalescents Malt Breakfast Food is an unequalled diet; it is always relished.

Seventh—It is the best food for children of any age after infancy.

Eighth—Its use is endorsed by the highest authorities in the science of foods.

Ninth—The ablest physicians recommend Malt Breakfast Food as a true health food.

Tenth—It affords a great variety of appetizing dishes.

Eleventh—It is a boon to those suffering from indigestion and dyspepsia. It banishes all stomach disorders.

Twelfth—It is the most economical of all breakfast foods; one package makes a meal for twenty-five to thirty persons.

The goodness in us impresses those around us for their good, since good is always stronger than evil.—Ladies' Home Journal.

If you board, look on the bright side. Nothing is better for the system than prunes.—Atchison Globe.

SWEEPING, STRIKING AND STARTLING SALE OF

BOYS' SPRING SUITS

PRICE REDUCTIONS OF UNPARALLELED MAGNITUDE IN BOYS' THREE-PIECE AND TWO-PIECE OUTFITS.

The New Management plunges the knife into old prices of Boys' Clothing. Several manufacturers have met their Waterloo in recent bold trade deals with Gough Bros. Exporters and Butchers mixed—Loads of mixed butchers and exporters sold at $5.25 to $5.50 per cwt.

Feeders—Feeders' steers, weighing from 900 to 1000 lbs. each, sold at $4.25 to $4 per cwt.

Stockers—Well-bred, thrifty young steers 400 to 600 lbs. each, sold at $3.30 to $3.60 per cwt.; steers, 700 to 800 lbs. each, sold at $3.75 to $4 per cwt.; off-color, ill-bred steers and heifers sold at about $2.75 to $3 per cwt.

Milch Cows—Milch cows and springers sold at $30 to $50 each.

Calves—Calves sold at $2 to $10 each, or from $4 to $6 per cwt.

Lambs—Yearling lambs sold at $5.50 to $6 per cwt.

Spring Lambs—Spring lambs are worth $2.50 to $5 each.

Sheep—Prices $4 to $5 for ewes, and bucks at $3 to $3.75 per cwt.

Hogs—Best select bacon hogs, not less than 160 lbs. nor more than 200 lbs. each, off cars, sold at $7 per cwt.; lights at $6.75, and fats at $6.75 per cwt.; sows, $5 per cwt., and stags, $3 per cwt.

MONTREAL LIVE STOCK.

Montreal, May 8.—There were about 400 head of butchers' cattle, 600 calves and 200 sheep and lambs offered at the East End Abattoir to-day. To-day being a holiday (Ascension), the butchers were slow in coming out, many of them having bought their supply yesterday. Prices of cattle have a downward tendency, especially the bulls, which are more plentiful than usual and not very attractive in appearance. Prime beeves sold at from 5¾c to 6c per lb. Medium stock at from 4¾c to 5¼c and the rough half-fatted beasts at from 3c to 4c, while some of the leaner ones would not bring 3c per lb. The best calves were sold yesterday, and to-day prices were from $1.50 to $3 each for lots. Shippers are paying 4c per lb. for good large sheep, and the butchers pay from 3¾c to 3¾c for old sheep and from 4c to 4½c per lb. for yearlings. Lambs were plentiful and sold at from $2.50 to $4.50 each. Good lots of fat hogs sold at from 6¾c to 7c per lb., weighed off the cars.

NEW YORK LIVE STOCK.

New York, May 8.—Beeves—Receipts, 340; bulls sold at $3.75 to $4.20 per cwt.; dry cows, at $3.40; dressed beef, steady; city dressed, native sides, 9½c to 11c per lb. Exports to-day, 6 cattle, 25 sheep and 150 quarters of beef, the latter estimated. Calves—Receipts, 359, steady; veals, sold at $4 to $6.75 per cwt.; city dressed veals, 8c to 10c per lb.

Sheep and Lambs—Receipts, 1582; sheep, quiet; good lambs, slightly stronger; others dull, steady; clipped sheep sold at $4.75 to $6.30; a few for export at $6.40; unshorn, do., at $5 to $6; clipped lambs, at $7 to $7.15; unshorn do., at $7; state spring lambs, at $8.50 to $9.25 each. Dressed mutton, 9c to 11c per lb.; dressed lambs, 11c to 13c.

Hogs—Receipts, $6.80; no sales up to a late hour.

BRITISH CATTLE MARKET.

London, May 8.—Prices, firm; live cattle, 14½c to 15c, dressed weight; refrigerator beef, 12c per lb.

CHEESE MARKETS.

At Stirling, sales of 100 white at 10⅝c.

At Picton, sales of 190 boxes at 11c.

Vankleek Hill, May 8.—There were 393 boxes of cheese sold here to-day on the board; all sold at 11½c.

Brockville, May 8.—There were 1856 cheese offered on the Brockville Board to-day, 774 white and 1082 colored; the ruling price for both kinds was 11 1-16c, and 756 colored and 513 white were sold on the board.

Taken From Toronto Bay.

Toronto, May 9.—The body taken from the Bay on Wednesday was yesterday identified as that of William Manderson, who had been missing from his home, 49 Markham street, since April 17. Manderson lived with his sister, and was employed as a laborer in the Western City Yards. He was a single man, 42 years of age.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25 cents. 1x43

SNARES FOR THE SIMPLE

WHAT the brand,—"Joseph Rodgers, Sheffield,"—signifies on a knife blade, the slate frame brand of—"The Slater Shoe"—signifies on a shoe sole.

But don't confuse mere personal names with registered brands!

The advantage of a brand, depends entirely upon its record for merit, established by the years certain goods have been publicly tested under that brand.

And, when such a brand has become a passport to people's confidence, there creeps in a species of piracy, which trades upon that confidence, by the selling of unknown goods, at a long profit, under some name which sounds like that of the brand.

This is how heedless Consumers are snared, and sold, and laughed at.

No purchaser should accept a blind excuse from a Retailer for the absence of the advertised trade mark, and the presence of something which resembles it superficially, but is not it legally.

There are thousands of men named "Rodgers," but there is only one standard brand of "Rodger's Cutlery," as there is only one standard brand of "The Slater Shoe."

If these words—"The Slater Shoe," are not stamped on the sole in a slate frame, it is not a genuine "Slater Shoe," and you buy it at your own risk.

The Slater Shoe Co. do not stand behind any but their own make—the shoe with a five year record of fixed value and uniform quality.

When you get the slate frame brand of "The Slater Shoe," stamped on the soles with the Makers price, you get the responsible, Goodyear Welted article.

"The Slater Shoe"

R. NEILL, Sole Local Agent.

Milnes' Hospitable Menagerie.

W. Gordon McCabe says that when Monckton Milnes, the poet, aspired to grasp the social literary scepter falling from the withered hands of Rogers he gathered around his breakfast table in Pall Mall men of the most diverse personalities, creeds and tastes. In fact, the chief requirement for securing an invitation to these breakfasts, which soon became the talk of London, seems to have been that the guest must be a lion of some sort. Men of such pronounced differences as Count d'Orsay, the elegant dandy; the rugged Thomas Carlyle, Sydney Smith, the brilliant wit, and Connop Thirlwall, the grave historian, sat there side by side, and had Buffalo Bill burst upon the town in those days Mr. McCabe thinks he, too, would undoubtedly have rubbed elbows in Milnes' hospitable menagerie with Tom Macaulay and Aubrey de Vere.

FRIDAY, MAY 9, 1902.

Rummage Sale Closes Saturday.
Everything is going fast, and the first to come will be first served. Great Bargains. Next to Kennedy's.

Bethany Mission.
Rev. T. A. Shaw, of New Wilmington, Pa., will assume duties as pastor of Bethany Mission on Sabbath next. Services at 11 a.m. and 7 p.m. All are invited.

Is Your Piano in Tune?
The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Post Card Worth 12 Cents.
The post card sent you advertising "Force Food" is worth twelve cents, and we accept it for that amount in payment on a package of "Force Food." E. F. Mason & Co., 429 George street. 2d

A Few Left.
We have still a few of those fine, cheap cranberries which have been selling so fast at 3 quarts for 25 cents. Also a large stock of seedless oranges, pineapples, strawberries, tomatoes, cucumbers, asparagus, etc. Lemons, wholesale and retail. S. A. OKE, 376 George street. 'Phone 18.

Mr. Jas. Dawson, baritone soloist at St. Paul's, will sign at the George Street Church Choir Concert to-night.

Handy Way to Clean Carpets.
Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

COMING!
THE JARVIS STREET BAPTIST CHOIR, TORONTO. MONDAY NEXT.

GOLF BALLS—that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Salisbury Co.

Superior Grey Lime.
"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

SATURDAY BARGAIN DAY FOR LEMONS AT DUTTON'S.
On Saturday only we will sell Lemons 10c per Dozen or 3 Dozen for 25c.
This is a part of the stock recently purchased at the great Montreal Fruit Sale, and are choice lemons. R. A. DUTTON, George Street.

New American Blouse Styles.
In presenting our new sample lines of American print and linen effects for summer shirt waists, we do so with absolute confidence that the two great requisites of correct style and superior value have never before been so well combined. Our skilled staff and the unequalled facilities afforded by our factory gives us advantages in manufacturing shirt waists, faultless in design and fashioned after popular American tastes. Ladies will be interested in our pretty new summer blouses made in fast colour American print, with new dip sleeves, tight fitting backs and long dip front, which we are selling at 65c., instead of 85c. the regular price. We will also have ready for Saturday, the very latest American novelty shirt waists in linen fabrics, some with Paisley stripes, which we will sell direct from our factory at $1.00 to $1.50 instead of $2.00. C. G. Gemmell, Charlotte street.

COVER CAREFULLY.

Blanket Your Flowers To-night.

Take a little trouble to cover your tender plants growing outside to-night and to-morrow night. Probabilities promise sharp frosts to-night and to-morrow night. "Safe Bind, Safe Find," is Shakspere's advice.

SAD RESULT

Of Vaccination to a Victoria Student From Norwood.

(Toronto News.)

The vaccination scare at the University this spring has brought unpleasant consequences in its train for several students of Victoria College who were obliged to submit their arms to the test required by the authorities.

Rev. Dr. Bain, registrar of Victoria College, stated this morning that he had just received a letter from the physician in attendance upon Mr. W. M. Hunter, a first year student of Victoria, saying that the unfortunate young man was dangerously ill, and that the probabilities were that he would not recover. Hunter was so ill after vaccination that he gave up his studies and went home to Norwood. Dr. Bain expressed his sincere regret, and also sympathy for the young student. Several of the lady students of Victoria are also ill and unable to write on their examinations. In several cases the arms have been so bad that they have been lanced repeatedly.

GOUGH GIVES THE BOYS A SHOW

A Bustling Hustle in Boys' Summer Suits—"Corking" Sale to Reduce Stock.

All is hustle and bustle in the Boys' Department at Gough Bros. The new managers, Messrs. Tully and Merrell, are very busy just now getting ready for a great mark-down sale of boys' clothing, which begins on Saturday morning. They have been scooping in big rafts of juvenile suits from manufacturers, eager to close out their surplus stocks at slashing reductions to big buyers, until the enterprising firm finds that it has now nearly 2000 suits too many. That's the reason for this great Boys' Suits Sale. The suits include the fancy summer ideas for the little chaps, as well as the mannish clothes for their bigger brothers. The large half-page advertisement in another column of to-day's paper, tells the story of the way the prices are to be pruned. *Peterborough mothers* will be pleased to hear this news, because it means a good two-piece suit for a boy at a price his father would consider cheap for a hat. "The power behind the purse is the mother," and she'll make it felt during this great Boys' Suit Sale at Gough's.

BARGAINS AGAIN SATURDAY.

The bargains we gave the public last Saturday were very much appreciated, as we gave exactly as we advertised, and will again on Saturday of this week allow TEN PER CENT. DISCOUNT on our BEST PORTER HOUSE and SIRLOIN ROASTS AND STEAKS; also ROUND STEAKS, and all cuts of VEAL.

We had a crowd last Saturday and expect a larger crowd this week, as our Meats are the choicest quality that can be secured. A full line of SPRING LAMB in stock.

KENNEDY'S MEAT MARKET.
Telephone 275.

Rummage Sale Closes Saturday.
Everything is going fast, and the first to come will be first served. Great Bargains. Next to Kennedy's.

Trip to Stony Lake.
The Steamer Alert will run a trip to Stony Lake on Tuesday the 13th, returning on Wednesday the 14th for the 4.15 p.m. train. The Steamer will leave Lakefield on arrival of morning train. Capt. W. H. White. 3d108

Took Stock.
Hon. Senator Cox has been in town for the past day or two. With his generosity, and displaying that interest in Peterborough that has always been characteristic of him, Hon. Senator Cox has taken quite a large block of stock in the new hockey and skating rink about to be erected in Peterborough.

Framed Pictures.
For very little money you can cover your walls most artistically, if your pictures are selected at the Peterborough Bookstore. We have put some very special prices on framed pictures this month, the subjects of which are most pleasing. Room mouldings are another important feature in room decorations. The plate-rail does wonders when care is taken to match the paper. Pretty effects and pleasing patterns at the Peterborough Bookstore.

He Took a Tumble.
This is the season of the year when the small boy manifests a peculiar delight in robbing and destroying birds' nests. The tallest trees have no terror for them, and they will often climb to the tallest branches in order to satisfy their thieving propensities. The tall poplars near the corner of Park and Charlotte streets appear to be a favourite hunting ground for the small boy, and yesterday a youth named Taylor had an experience which ought to bear good fruit. In his eagerness for spoil he climbed up in a tall poplar, almost to the topmost branches, and in some way he lost his balance and started for terra firma. He struck a board fence with considerable force, and knocked several boards off, but strange to relate was able to walk home, although considerably shaken up.

WHO WILL HE BE?

57th Regiment Will be Allowed Only one Representative on the Contingent.

Orders for the Coronation Contingent, issued last night, state that it will mobilize at Levis on May 29, and sail on June 7th. The mounted troops will be formed into two squadrons and one battery of field artillery, each unit to consist of one captain, two subalterns and one hundred non-commissioned officers and men, selected from corps of the active militia, the Northwest Mounted Police and Strathcona's Horse.

The number of men which each regiment is supposed to send will be found in another column. However, it might be said that the 3rd Dragoons will send eight men, or two from each squadron. The 14th Field Battery will send four men and the 57th is allotted only one man. There will now likely be considerable rivalry amongst the men of the various corps for position on the Coronation Contingent.

MAY ORGANIZE.

The Retail Clerks of the Town to Form an Association.

A movement is on foot amongst the retail clerks of the Town of Peterborough to form an association. The idea is not altogether a new one, as a year or so ago an effort was made in the same direction. An association comprising the retail clerks of the town should easily secure a membership of several hundred persons. There are many matters which they could discuss and regulate that are of mutual interest. In the present days of unionism and organization, when every branch of employees is being organized, there is no reason why the retail clerks should be behind the times.

POST OFFICE IMPROVEMENTS.

A New Tile Floor to be Laid The Wharf at Harwood.

The re-building of the wharf at Harwood by the Dominion Government will be a great convenience to the farmers in that locality, as considerable trouble has hitherto been entailed in loading grain on the boats. The item of $3,500 mentioned yesterday, as being contained in the estimates for improvements to Peterborough Public Buildings is to be devoted, Mr. J. H. McClellan states, to putting a new tile floor in the Post Office and improving the plumbing, etc.

PERSONALS.

Mr. H. R. Pearce, of Marmora, is in town.

Mr. T. C. Stephens, of Omemee, is registered at the Oriental hotel.

Captain Webster Augustus has been appointed Marine Inspector for Inland Lloyds from Kingston to Quebec.

Miss Emeline Miller, who made such an excellent impression by her artistic pianoforte playing at Miss Morrow's recent concert, and who has been spending a few weeks in Peterborough, returned to Toronto to-day to re-open her studio for classes and continue her musical studies.

Mr. J. C. Minorgan, Miss Lillie Minorgan, of town, and Miss Florence Crocker, of California, leave upon the Allan liner Tunisian to-morrow for London, England, where they will enjoy several months as the guests of relatives. The tourists left town to-day for Montreal, where they will take the steamer. The friends of Mr. and Miss Minorgan and Miss Crocker will wish them a pleasant voyage and a safe return.

SPORTING PASTIMES.

LACROSSE.

Members of the Y.M.C.A. Lacrosse Club are asked to turn out to practice this evening at 6.45 sharp. The weather bureau has decided to give better satisfaction than in the past, and a good attendance of players is expected.

TENNIS.

Those desirious of learning the game of Tennis, which is becoming so popular, should join the Y.M.C.A. Tennis Club, which gives the privilege of playing on both the grass and cinder courts. Secure a member's ticket from Mr. L. McLennan, Secretary of the Club.

CHANDOS.

(From Our Own Correspondent.)

The Clydesdale Cheese Factory will open on Monday, May 12th.

Mr. J. Coyle-Brown, Public School Inspector, was in the vicinity last week.

We are glad to see that Mr. Maurice O'Brien has recovered from his attack of the measles.

Mr. Dennis O'Brien and Mr. Wm. Scott were in Bancroft last week. They say the short road is the best road now.

The roads are in a very good state of repair now, and a buggy carries four easily. Mr. Michael Song was in Apsley on Monday.

Miss Katie Scott, who has been in Peterborough for the last couple of months, has returned home.

Mr. Steve Scott's was the scene of a merry crowd on Monday evening, when a number of young people gathered there for a taffy party. After the taffy pulling was over, the remainder of the evening was spent in dancing and singing.

Young and old seem to have a desire to go sucker fishing, and MacDonald's Rapids receive many a visit from those eager to try their luck.

Mr. Thos. Mahoney is preparing to make several trips to Coe Hill.

ANOTHER INDUSTRY.

American Capitalists Were in Peterborough Yesterday Making Enquiries.

About eight or ten prominent American capitalists were in town yesterday, looking into the matter of the advantages Peterborough posses as a manufacturing centre. The gentlemen represented a large Elevator Company in the States, who are desirous of locating in Canada. The party was driven around town by Hon. George A. Cox, James Kendry, M.P., acting Mayor Rogers, Ald. Rush and Ald. Morrison. The visitors expressed themselves as highly pleased with what was shown them and promised that the advantages Peterborough possessed would be carefully considered.

SAID FAREWELL

To Mr. George C. Burnham, Who is Leaving Town.

Mr. George C. Burnham, who left at noon to-day for Pittsburg, and who for several years has been employed in the drafting department of the Canadian General Electric Company, was given a cordial send-off by his fellow members of the C. D. A. at the Crown hotel last night. He was presented with a very handsome pipe, accompanied by a number of brief speeches, expressive of the regret the boys felt in seeing Mr. Burnham leave Peterborough. All felt that in his departure from town a gap has been left in social and other circles that will indeed be hard to fill. Mr. Burnham replied, thanking the boys for their token of esteem, and assuring them that he would look back with pleasant remembrance to his associations amongst them.

THE BOARD OF HEALTH.

The Report of Medical Health Officer as to the Water in the Lake.

A meeting of the Board of Health of the Town of Peterborough was held yesterday afternoon. There were present Dr. Moher, Chairman, Dr. Burnham, and Messrs. J. P. Metheral, Geo. Schneider, J. McPherson, and Wm. Eyers.

The Medical Health Officer, Dr. Bingham, made a report regarding the different sources of pollution that contaminated the water of the lake. The report was as follows;

Peterborough, May 8th, 1902

Gentlemen,—At the suggestion of your chairman, I prepared a short report in reference to the different sources of pollution which contaminate the waters of Little Lake, where the citizens obtain their annual supply of ice for domestic use. Of the sources of contamination outside of the corporation may be mentioned all the river drives, the steam boats, Lakefield and the Auburn Woollen Mills. Within the municipality we have the kindergarten school, the National hotel and the Cereal works emptying their sewerage into the river. Your Sanitary Inspector and our Medical Health Officer met the Managers of the Cereal Company, who treated us very courteously. They say that they have no outlet for their sewerage excepting the river, or a sewer constructed along the river bank to connect with the main sewer on George street. Privy Pits would be out of the question where they employ so many people. I may be permitted to mention that I have heard it said on all sides that the town should deal liberally with the Cereal Company, who are bringing so much wealth to the town.

J. BINGHAM,
Medical Health Officer.

The following motion was adopted—

"That persons whose premises are connected by a sewer with the river or creek or a cess pool, and who can connect with a sewer, be requested to make the connection with the town sewer at once."

It was decided that the Medical Health Officer, owing to the presence of diptheria, should inspect the Lake street school.

The Board then adjourned.

NEWS NUGGETS.

—There was no Police Court this morning.

—Citizens should cover up their tender plants to-night.

—There is considerable canoeing being done on Little Lake already.

—The George street Methodist church choir concert takes place this evening.

—The lacrosse boys are complaining that the weather is too cool for successful practice.

—May the 24th falls on Saturday — market day will be held the day preceeding.

—Dog owners are advised to obtain their tags at once before they are compelled to pay costs.

—The Jarvis street choir concert in St. Paul's church on Monday night promises to be a great attraction.

—A key was found on the stairway to the gallery of the Opera House last evening, and may be had at the Examiner office.

—The busy little Patent Medicine Store in the Grand Central Block, George street, is becoming well-known in town and country. Patrons are encouraging us and thanking us for being able to supply them with the leading preparations so much cheaper than they have been accustomed to pay. People who used to send to Eaton's find that they can buy just as cheaply at our store now.

NEW BOOKS.

The following new books have been supplied to the Public Library:

From the Lakes to the West...McEvoy
The Hound of the Baskervilles .....
..... Conan Doyle
Forest Folks ..... Prior
The Dark O' the Moon ..... Crockett
Britain and the British Seas...MacNider
Ocean to Ocean ..... Walker
Culture and Restraint ..... Black
Dorothy Vernon ..... Major
The Colonials ..... French

15 cents is the admission to George Street Church Choir Concert to-night.

LAID AT REST.

Funeral of the Late Mr. Henry Denne Yesterday Afternoon.

The funeral of the late Mr. H. Denne, which took place from the family residence, No. 723 George street, yesterday afternoon, was one of the most largely attended that has passed through the streets of Peterborough in many years. The funeral service was conducted by Rev. E. A. Langfeldt, Rector of St. Luke's, and the pall bearers were Messrs. J. J. Lundy, James Stewart, Chas. Stapleton, E.H.D. Hall, James Stevenson and W.H. Wrighton. The members of the Board of Education and the Aldermen of the town attended in a body.

There was also present a large representation of Peterborough's prominent business and professional men. As the cortage passed down George street the blinds on the windows were lowered, and business was temporarily suspended.

15 cents is the admission to George Street Choir Concert to-night.

MAGNIFICENT MASS MEETING.

(Continued From 1st Page.)

prohibition upon the province, unless the people, who ruled, said they wanted it. Mr. Miller's position in supporting a leader, who was the

Sworn Enemy of Prohibition,

was inconsistent. He says he will vote for any measure of prohibition, and if Mr. Whitney gets into power, and Mr. Miller dares to vote against him he will be told to "go 'way back and sit down," and meet the fate of Mr. Marter, who was cast out because he dared to be independent. (Applause.) Mr. Stratton submitted that the proper course was the one he had taken. He would not pledge himself to temperance, or the liquor traffic, nor pledge himself to Roman Catholic or Orangeman, but would do his best in promoting the welfare of every interest of the people and the Province, (applause) as a member of the Government he could do nothing else—he must listen to all the claims of all classes.

Mr. Stratton then appealed to the working men to study the splendid record of the Government in relation to legislation passed in their interests—the best code of labour laws in the world, which protected every right and interest of the great classes, whose toil creates all our wealth and builds up the country. (Applause.)

Reference was made to the grant to the Ennismore bridge, and it was pointed out that all that was asked for had been given and everybody in Ennismore was satisfied, and everybody else, excepting the Review. Mr. Stratton referred to the pleasure it had given him to secure the settlement of the Pigeon Creek bridge in the interests of this riding. He referred also to the cry about the building of the Stony Creek dams, which it was claimed had been built in the interests of the Dickson Company, these dams had been built, as had forty or fifty other dams in the public interests, to help lumbermen to get their timber to market, to help forward the same way and to store up our waters. The Government was in partnership with the Dickson Company and other lumber companies, for these companies paid thousands of dollars in dues, etc., into the Provincial treasury, and the more timber they cut the greater would be the revenue, and the better facilities they had the more business they would do. These dams had been built two years, and not a word said about it till the eve of an election. The building of these dams benefitted the Dickson Company and Peterborough as well. They employed large numbers of workmen and spent large sums for supplies in the town. He (Mr. Stratton) had taken an interest in the Bobcaygeon, Pigeon Creek and Mud Lake bridges, and last year the dispute respecting the Kinmount bridge was settled, and in none of these things had he done anything contrary to

In the Interests of Peterborough

or the back country. He had been attacked in regard to colonization roads and it was stated by Mr. Miller that money on these roads had been improperly expended. In answer to that Mr. Stratton pointed out that since he had represented West Peterborough $65,000 to $70,000 had been spent in the northern part of Peterborough, and the reeves of the townships that had been trusted with such expenditure had been re-elected year after year. Would that have been the case if they had wasted the people's money? In regard to the expenditure of the moneys on colonization roads in this county, he courted the closest scrutiny and it would be found that the money had been honourably expended and that excellent roads were the result. (Applause.) He believed the people would approve of his course in these matters as in all other matters that affected his representative relations to the riding and province. He awaited the verdict of the people with composure and confidence. Mr. Stratton resumed his seat to loud and prolonged applause.

Hon. Mr. Harcourt.

When Hon. Mr. Harcourt rose to speak, he was greeted by an exceedingly hearty round of applause, which was renewed when Miss Emma Cox, the pretty little daughter of Mr. A. A. Cox, presented him with a bouquet. After acknowledging it in the usual gallant way, Mr. Harcourt expressed his pleasure at the warmth of his reception, and his appreciation of the splendid decorations in the hall. Referring to the mottoes, he said that no one in Peterborough, knowing the record of Mr. Stratton, could object to the motto, "Stratton for Peterborough," nor could anyone, certainly not a Scotchman, take offence at "Ross for Ontario." And what was the full significance of that motto, "Ontario, Canada, the Empire." What Empire? The greatest Empire the world had ever seen. Canada, the foremost colony in that Empire, and Ontario, the first Province in Canada." (Applause.

Mr. Harcourt expressed the great pleasure it was to him to address a meeting in one of the most prosperous centres of population in the whole province, inasmuch as it gave him an opportunity of speaking to business men concerning the business affairs of the province. As business men, as intelligent mechanics, and as artizans, the Government disclose to the people their balance sheets, the record of their trusteeship, and confidently expect their approval. "We have been transacting business for you; we are directors, you are shareholders in the great enterprise of developing this province—of caring for its assets. We show our books and we ask you to audit them."

He made no appeal to sentiment, no hysterical charges against the Government's opponents. He simply asked the electors to dispassionately consider whether or not the business affairs of the province had been conducted on true business principles. The Government simply accounted for their trusteeship, as the directors of any good business concern, and invited comparison with similar work done elsewhere, either in other provinces or in the Dominion. After speaking of the way the affairs of the province as a whole had been conducted, of the general prosperity, of thriving industries, and of the new enterprises that are being promoted, he went on to deal with some of

The Government's Work.

Referring to the Attorney-General's Department, he pointed out that the great journals of the United States, week after week, bore testimony to the fact that in this province law and order are apparent everywhere, that rights of property are sacred, that the enjoyment of civil rights is as free as in any country in the world. How proud we should be of that testimony from our rivals in business on this side of the Atlantic. He spoke of the men who have been our Attorneys-General for the past twenty or twenty-five years, and of the great benefit it had been to the province to have men of such wisdom and legal acumen to look after the rights of the province. Especially should Ontario remember with pride and gratitude Sir Oliver Mowat and his efforts in connection with the boundary award case. Of him it might be truly said that he was "told enough to be honest, and honest enough to be bold." (Applause.) No country had ever had to deal with a more important case than that. Sir Oliver Mowat knew that Ontario owned that 100,000 square miles of territory and where a weak man would have been overcome by blandishments from Ottawa, he fought for and won that territory for the Province. The Escheats Case was another instance where Ontario was successful in the courts in a matter affecting the revenue of the Province to a considerable extent. The Dominion contended that the property of a man dying without heirs belonged to the Dominion, but the Attorney General of the Province stood for its rights and it was decided that all such property properly belonged to the Province. It was fortunate for Ontario in these instances that she had faithful and efficient guardians. Mr. Harcourt also referred to the dispute as to who had the right to issue licenses. In that case also an immense amount of revenue was saved to the Province. The revenue from licenses amounted to nearly $350,000 a year. Capitalize that and what principal did it represent? At four per cent. interest it represented a capital of nine millions of dollars, which was saved to the Province through the efficiency of the then Attorney General.

Mr. Harcourt went on to speak of the importance of the Crown Lands Department and the service rendered his country by Timothy Pardee. He invited comparison between the work of the Ontario Crown Lands Department and that of any other Province. As trustees of the Province it was not only the Government's duty to make the most of her timber resources, and also to preserve them as far as possible from fire, but it was their duty to renew such lands as were suitable for reforestry and thus preserve them to meet future wants. For this reason the Government established a

Department of Forestry,

the continuance of which had been opposed on three different occasions by Mr. Whitney and his followers. He referred to to some of the Universities in the United States where they taught re-forestry, and said that from Cornell twenty young men had graduated last year for whom there were situations waiting in different parts of the country.

He briefly referred to the mining industry, and the way in which it had been assisted by the Government. Nickel deposits were found in only two places in the world—one is New Caledonia, a penal colony of France, and the other is at Sudbury in the Province of Ontario. The Government was trying to make the most of those sources of wealth by establishing schools of mining in which our young men are trained as mineralogists, metallurgists, and mining engineers to develop the hidden mineral wealth of their own Province. No country in the world has such vast mineral wealth as the Province of Ontario. Six years ago there was not a pound of iron ore raised in the Province of Ontario, nor was there any steel made. Last year the value of the iron ore, the pig iron and the steel taken from the earth and manufactured in Ontario amounted to $2,223,000.

He went on to speak of the work of the Provincial Treasurer. He not only had to conserve the present revenue but he had to devise new sources. The Government had added to the sources of revenue to a great extent. From Succession Duties the Province had received a total of $1,800,000, completely new revenue. The Opposition wished to cut that revenue in half. Last year we received $366,000 dollars or nearly $1,000 a day. Capitalize that and at four per cent. it would give a principal of 9 millions of dollars. A great many people did not understand that this money had to be spent in a certain direction, that it must be devoted to the "sweet uses of charity." There ought to be some philosophy in legislation. There was in this. What should be the basis of equitable taxation? If the question were thought out everyone would agree that there were two principles that should govern. One principle is ability to pay. Every man should pay in proportion to his ability to pay. The other principle of taxation, considered philosophically, is equality of sacrifice. When a ratepayer pays taxes he is sacrificing his means for the general good, but that sacrifice should be equitable, even and well distributed. And everyone would agree that the very wealthy, whose estates pay these Succession Duties, are those who are the

Most Able to Pay,

and those should contribute who are able to contribute to the good of the State more than anyone in the land.

One other source of revenue alluded to was that derived from the tax on corporations, and for which the Government claimed great credit. Last year the revenue collected from corporations was $229,000, a goodly portion of it taken from banks, and they are declaring dividends of ten per cent., and a great part of it from insurance companies, from railways and similar corporations in the Province. When he (Mr. Harcourt) moved the second reading of that bill in the House, and explained at the same time that similar legislation had existed for years in the most advanced States of the Union, an amendment was moved by the Opposition that the bill be given the six months hoist, or in other words should not be passed, and they are on record as having voted that these corporations enjoying very valuable powers, well able to pay a small percentage at least of their dividends, shall not contribute one cent. Here were two business propositions: — The Government says that to a reasonable extent, and only to a reasonable extent, these corporations should contribute from their earnings each year to the revenue of the province. The Opposition says that they should not contribute a single cent. A computation made as to what this tax meant to the ordinary corporation, showed that it was about one-fifth of a mill.

In the matter of the finances of the province, the Government invited comparison. Had they not managed this branch of the public service more thriftily than Quebec Province? Had they not managed it more thriftily than the cities of Ontario had managed theirs? If they had, surely they deserved credit for it, and was it not in the interests of the people of this province to re-elect the old directors for a further term? (Applause.)

Mr. Harcourt then proceeded to deal with a subject of which, as Minister of Education, he was well qualified to speak in the most convincing manner. Perhaps the most important national necessity with which any Government could deal, was that of education, and the

Management of Our Schools.

If there is one maxim which every Government should accept more than any other, it is the maxim that the training of the young should be the first concern of the people. It is a great maxim which everybody accepts. It is important to develop our timber wealth, our wealth of fisheries, and our wealth of mines, but, above all other considerations, the greatest estate any nation can have is the estate of an educated people. That, then, was the great problem, how are we best to educate our youth? What was the Government's record in this particular? Mr. Harcourt said that they were willing that the whole result in this contest should be determined on this one matter of education alone, although he believed that it should never become a factor in party politics at all. It was too sacred a thing for party politics to interfere with. The brawl of party politics should never be allowed to endanger the educational interests of the country. There are in this province seven or eight thousand public schools, and from these schools the great majority of children go when they are 12 or 13 years of age, and yet in this regard the record of Ontario is better than that of England or the States of the Union. The problem then is how to keep our children longer at school, and perhaps more important than that, how shall we give to these schools the most efficient teachers? "If you want to know what the school is like," said the speaker, "tell me what the teacher is like; as the teacher, so the school." The great American sage, Emerson, said to his little daughter, when she was starting to school for the first time, "It matters not what you take up. The whole matter is under whom you study." We must get men and women with high ideals, cultured, if you will, possessing scholarship, but above everything having the conviction that the grandest duty is to mould the character of those guide the future life of the children entrusted to their charge. The province has three Normal Schools for their training. Many years ago there were two, one at Toronto, and one at London, and when the Government proposed to erect another at London, Mr. Whitney objected. In spite of that Mr. Harcourt said that the Government now proposed to establish a fourth at some suitable point in the northern part of the province. Every one of the 7,000 or 8,000 teachers was trained to some extent, perhaps not as fully as they should be, and the Government means to increase the length of the Normal School term to make the teachers efficient. In England he said that there were thousands of teachers teaching without a professional training.

There are now in Ontario 131 High Schools and Collegiate Institutes with an attendance of 25,000 scholars. There are 431

Extension Classes.

doing elementary High School work, the work done in the lowest forms of the High Schools. There are also 25,000 scholars taking advantage of these classes. That means that 50,000 pupils are enjoying the advantages of our system of secondary education, a condition of things not excelled in any State of the Union. In Ontario there are 500 High School teachers, and of these about 400 are specialists. In the U. S. they have colleges granting degrees that have not the status of the Peterborough Collegiate Institute.

He inquired who was finding fault with our primary or secondary education to-day? Was there one word of murmuring more than had been made for the past forty years? By no means. But he could read documents in his possession which would show that there is more than twenty times the criticism in the United States, more than fifty times the criticism in England, surrounding educational questions of the hour. Critics in this Province said Mr. Harcourt, appear just before a Provincial election, and they critize simply because they hope to make some political capital or have some other cause of difference than the question of education. The best way to judge of work was by results and if the educational system is judged in that way there can be no doubt of its efficiency. He cited young men graduates of Ontario Universities, who had been appointed to prominent positions for which there were applicants, graduates of the most famfamous seats of learning in the world. He mentioned particularly the case of a young Ontario man, twenty-six years of age, who had been appointed, from over one hundred applicants, as Professor of Economics at Leland Stamford University in the United States. Only a fortnight ago the Board of Governors of one of the most important hospitals in London, England, appointed a young Ontario doctor who had been educated in one of the Toronto Universities, as Registrar of that institution. In almost every department of learning, Ontario's sons, educated in her schools and colleges, were holding

Position of Prominence

second to none in the world. Was that not a proof that the Ontario educational system was good. No one claimed that the system was perfect. The first belief of a Liberal was that there was nothing so good that it could not be improved in some way. The Liberal is for progress. He seeks for greater advancement. The Government hopes however to make great progress in developing the educational system

Mr. Harcourt closed a very interesting address by appealing to the electors to consider fairly the public questions of the day. A Liberal simply makes a request to the elector. He simply says there is our record. The record is in print and on our statute books, and he asked the people to examine every line of it, and was willing to abide by their deliberate final conclusions. The people must again elect the directors to do the great business of this province, and the Government appeals confidently to the country for a verdict of approval. (Prolonged applause.)

Hon. Mr. Evanturel.

late Speaker of the Legislature, was most enthusiastically received, and was presented with a splendid bouquet of flowers by la petite and pretty little grand-daughter of Mr. N. T. Leplante, Miss Corinne Le Gendre, a compliment which was acknowledged with true Gallic gallantry. The lateness of the hour was such that Hon. Mr. Evanturel was unable to deliver an address of any length, and confined himself chiefly to paying some very happily expressed compliments to the ladies, as well as to Hon. J. R. Stratton, whom he thought required no assistance from either Mr. Harcourt or himself. Indeed, he thought it unfair to be asked to make any remarks after Mr. Stratton's very able speech. In speaking of one of the incidents which came under his eye as Speaker of the House, Mr. Evanturel graphically described the scene, which took place when Mr. Marter, rising in his wrath, denounced the Conservative party, as the result of hearing his leader, Mr. Whitney, referring to the members of the Government as thieves and robbers, and with Col. Matheson hanging on to his coattails to stop him with apologies, had hardly given his opinion concerning such language, and would have gone further and exposed some of the inside bickerings in the Conservative ranks, but for the assurance from Colonel Matheson that rumours to the effect that there was a traitor in the Conservative party were not intended to stamp Mr. Marter as such but were meant for another man. Mr. Marter had stated that while he represented the strongest Conservative constituency in the province, yet he knew that the merchants of Toronto did not want the business of Ontario to be hampered by petty party conditions, but recognized that the Legislature could be likened to a large County Council, where politics should have no place, but the business of the hour be the capable administration of the affairs of the country. (Applause.) On account of having to catch the next train Mr. Evanturel stated that he, as his friend Mr. Stratton had done on a former occasion, would have to swallow his speech. In regard to this latter incident Mr. Evanturel spoke of the great honour which had been conferred upon Mr. Stratton in being entrusted with the important task of responding to the speech of Mr. Whitney on the budget. Mr. Whitney had chosen rather to swallow his speech then be followed by Mr. Stratton and so Mr. Stratton had to swallow his reply.

Mr. Evanturel in speaking of the Succession Duties Act, spoke of the fact that by the recent death in Ottawa of an old gentleman $150,000 had reverted to the Crown. If Ottawa paid up in this proportion, humourously remarked the speaker, the Province would easily be able to wait for fifty or sixty years yet before the Succession Duties on Senator Cox's estate would be needed. The enviable reputation enjoyed by Senator Cox as a business man was then dwelt upon by the speaker, who neatly expressed the great pleasure he experienced in visiting the town which had developed such a great man.

Concerning Mr. Stratton, the speaker stated that he visited Peterborough as a matter of showing his respect for the representative who had been returned so many times by the town. He had entered Parliament on the same day as Mr. Stratton and had followed his career with the same interest, which he had no doubt exercised Mr. Stratton in following his (the speaker's.) When a vacancy had occurred in the Cabinet all were unanimous in calling for Mr. Stratton to take the portfolio of Provincial Secretary. (Cheers.) He wished Mr. Stratton was not present just now and he would tell the people of Peterborough what a high opinion the business people of Toronto had of him.

Something which had always pleased him was the fact that Mr. Stratton had made it a practice at the close of every session to call his constituents together and deliver a most exhaustive and eloquet address on what had occurred during that session of the House. This redounded to his credit and was no doubt largely responsible for the big vote which he received. (Cheers.)

In concluding his remarks Mr. Evanturel voiced the satisfaction which it gave him to support a Government which made such a point of repressing anything and everything which had the appearance of a racial or religious cry in the Province. This was one of his reasons for supporting the Liberal Government. The greatest compliment which he had ever received had been extended to him at one time when he was called "the peacemaker," as between the two races. Fair play and generosity had been meted out every race in the Province by the Liberal Government. There were ninty-four members of the Legislature and only two of these were French Canadians, yet he, as one of them, had been elected to the proud position of Speaker of the first Province, of the first Colony, of the first Empire in the world. (Cheers.) The French Canadians, however, were a chrivalous race and and would not allow themselves to be outdone in such matters, so in the recent election in Beauharnois, just next to him, where nine-tenths of the electors were French Canadians, and when the Tory press had used every effort to stir up racial feeling, Mr. Lay, the English speaking Liberal candidate, had been elected by the French Roman Catholic votes over Mr. Bergeron, the former leader of the Conservative French Canadian party. (Applause.)

Hon. Senator Cox.

Mr. Evanturel then made way for Hon. Senator Cox, whose reception by the audience took the form of a most hearty ovation. He was presented with a very handsome bouquet by little Miss Jessie Spence. The Senator briefly voiced his pleasure at being on a platform in Peterborough to say a word, as a business man, in favour of the Liberal party. He referred to the satisfactory condition of business affairs in general and to the general feeling of contentment with a Government which was of so progressive a character. (Cheers.) He considered that the Province never had a stronger Government than that of Mr. Ross and he would be sadly disappointed and surprised if it was not returned on the 29th of May. He would be still more surprised if Mr. Stratton was not returned by an even larger majority than before. He had no fear, however, on this score, as the Peterborough people had too much good sense to think of making a change.

The splendidly successful meeting closed with the usual cheers.

NEXT WEEK'S MEETINGS

In the Interests of the Candidature of Mr. Stratton.

Announcement of the Dates on Which Addresses Will be Made in Different Parts of the Riding.

Meetings have been arranged as follows in the interests of the candidature of Mr. Stratton in the riding:

Foresters' Hall, Baillieboro, Monday evening, May 12th.

Temperance Hall, Selwyn, Tuesday evening, May 13th.

Temperance Hall, 4th line, Smith, Wednesday evening, May 14th.

Town Hall, Bridgenorth, Thursday evening, May 15th.

Young's Point, Thursday evening, May 15th.

Bensfort, Thursday evening, May 15th.

Fraserville, Friday evening, May 16th.

SALOONKEEPER WAS LIBERAL.

Lord Douglas Gave Away all his Liquor Before Giving up Business.

A despatch from Spokane, Wash., says:—Lord Sholto Douglas, who has been running a saloon here, has decided to go home to the coronation ceremonies, and to take along his wife, the music hall singer whom he espoused in California a few years ago. Last night he announced his retirement from business and gave away all the liquor in his saloon, and the result was the wildest time Spokane ever saw. The place was packed with a howling mob, all loaded to the neck, and all drinking to the health of Lord Douglas.

ENNISMORE.

Last week Mr. Dennis, the pump agent from Peterborough, was here putting in one of the Dennis Patent Pumps, with a long reach to it. The well was 75 feet deep, but the pump worked so easy that a child five years old could operate it. It will be a valuable improvement to Mr. Young's premises.

A Food for Brain and Muscle.

Whether it is brain fag, loss of memory, inability to concentrate the mind or bodily weakness and general debility Dr. Chase's Nerve Food will restore your old time energy, strength and health. Through the blood and nervous system, it reaches every part of the body and overcomes weakness, irregularities and disease.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

Window Blinds, Poles, etc.

The prices we specialize this week will be welcome at this season of shifting, moving and housecleaning. Every new style, with a great display of window blinds and coraine poles, will help you to select quickly, because prices and general effects invite irresistibly. Two hundred and fifty curtain poles, assorted woods, any finish, brass trimmings, complete, regular 35c., for 19c., this week only. A lot of old newspapers for sale for laying under carpets, wrapping purposes, etc. A. H. Stratton & Co.

15 cents is the admission to George Street Church Choir Concert to-night.

They say that "PING PONG" will be played all summer. Salisbury Co. have a big stock on hand. Prices start as low as $1.00.

GIRLS WHO LOVE

INVITATION

The public are cordially invited to pay a visit of inspection to

HARRY LONG'S

handsome, newly-remodelled Confectionery Store, Lunch Room and Ice Cream Parlour, No. 414 George Street. These premises, since being damaged by fire and water, have been re-fitted and re-furnished and decorated in elegant style.

ANTISEPTICS.

They Do Not Destroy, It Is Said, but Only Arrest Germ Life.

The Edinburgh Scotsman begs leave to correct the erroneous belief that implies that antiseptics can prevent decay. Decay may be arrested without killing the microbe which would produce it. A few drops of a solution of carbolic acid added to flour paste will keep it sweet for a certain time, not because the germs in the paste are destroyed, but because these germs are hindered for the time being in their growth and multiplication and because the paste is rendered temporarily an unsuitable soil for the growth of whatever microbes may fall from the air into it.

When the effect of the acid has worn off and disappeared, we see the paste going to the bad as rapidly as if it had not been treated antiseptically at all. Molds will grow in it, and it will decay in the fashion familiar to everybody.

It is in this way cold may act as an antiseptic when it is used to preserve meat and fish. There is no destruction, but only arrest of germ life. If we wish to kill microbes, therefore, we not only have to use a disinfectant, but we must employ it in proper proportions and see that it thoroughly attacks the germs we wish to destroy. It is for this reason that all attempts to kill germs which the air may contain are worse than useless. We cannot "disinfect" the air. If we could do so, we should require to saturate the air with our germicide to such an extent that to breathe it would kill us.

We get an excellent example of this fallacy of "disinfecting air" when we reflect that in using burning sulphur to purify a room after a fever case we have to use it in such a way and in such proportion that it is impossible for any person to remain in the room at all.

Hiding Behind Big Words.

A mining expert recently described a lode as traversing "a metamorphic matrix of a somewhat argillo-arenaceous composition." This means literally 'a changed mass of a somewhat clayey-sandy composition." This in its turn may be translated into plain English as m-u-d.

Why choke a puny fact with murderous polysyllables? Huxley and Darwin, Lyell and Faraday could so write as to be "understanded of the people," and there is a suspicion abroad in these times that the big words so freely used by small men are a device to conceal ignorance and inexact thought rather than a proof of superior knowledge.

SUSPICION.

Many Sick People Doubt Everything They Can't Understand.

Dyspeptics are Cautious and Hesitate to use Anything as a Remedy the Ingredients of Which are Unknown to Them.

There has always been too much mystery about the treatment of disease.

The Indian Medicine Man with his rattles and charms was scarcely more mysterious than many physicians of the present day, who with very grave faces, brandish long Latin names to the utter bewilderment and mystification of their patients.

One of the most marked symptoms of Dyspepsia is a tendency to doubt everything.

Dyspeptics become suspicious, even of their best friends sometimes.

There should be no mystery about the treatment of disease.

Of course there are sometimes complicated cases which are very hard to diagnose.

But there should be no mystery about the treatment of a well-known disease such as Dyspepsia.

There can be only one cause for Dyspepsia, and that is a neglected and overworked Stomach.

Having become too tired to properly perform their natural functions, the Stomach and Digestive Organs fail, and the result is Heartburn, Sour Stomach, Bloating or Headache.

These symptoms if not corrected soon lead to Dyspepsia with all its terrors of pain, distress and depression of the spirits.

Dodd's Dyspepsia Tablets are a sure and sufficient cure for all derangements of the Stomach and Digestive Organs.

There is no mystery about this treatment.

The Stomach needs rest and the body nourishment.

Dodd's Dyspepsia Tablets are composed of pepsin and diastase,—digestives for both animal and vegetable food,—and two of these dainty Tablets taken immediately after eating, will digest every particle of the most hearty meal without the aid of the Stomach.

The Stomach is rested and in time restored to its normal healthy condition of activity.

The body is nourished at the same time.

This is how Dodd's Dyspepsia Tablets cure Dyspepsia.

Titles.

Give a Georgia darky a "chaw" of tobacco and you're a cap'n.

Give him a quarter and you become a colonel.

Paralyze him with a dollar and you are a general for life.

Throw in an old suit of clothes and two stiff drams of corn liquor and he raises all his children to call you governor.

Just 400 Years After.

In 1492 Columbus discovered America. In 1892, just 400 years later, Merrill, a Brantford druggist, discovered Four T's, the great guaranteed cough and cold cure. In five years the sale of a quarter million bottles has proved that Four T's never fails to cure a cough in 24 hours, and a cold in two days. Large bottle 25c. at Ormond & Walsh's drug store.

What It Was.

Nervous Lady (as a large bird flies before the vessel)—Oh, captain, is that an omen?

Matter of Fact Captain—No, madam. That is a sea gull.

What She Meant.

"Your shell-like ears, have they been pierced?"
I'd ask with kind intent.
"No; only bored," the maid replied.
I wonder what she meant?

WHAT IS TEMPERAMENT?

No Wonder This Child's Brain Is All In a Muddle.

The half dozen blocks about Dupont circle include the homes of as many scientists of national reputation. These gentlemen of course know each other and meet frequently. Not long ago one of their neighbors began to wonder whether such intimate intercourse among scientists was a good thing, his cogitation having had its rise in the following incident:

His little daughter has just reached the age when she asks 200 questions a day. About a month ago her father spoke of some author as lacking the proper "temperament" for writing on history. That word "temperament" apparently took root in the youngster's mind. What was temperament? She asked that question twice an hour for an entire week.

Finally her father gave her a note to Professor —— and sent her off to find out. That scientist answered the query as follows: "Temperament is an individual tendency to the rise of a certain mental state." Father and daughter wrestled with that a little while and then applied to a second member of the scientific group for help. No. 2 called temperament "an ensemble of physical and mental traits arising from fundamental constitutional differences in individuals." This put the little girl's father completely at sea. So No. 3 was tried. His judgment was that "temperament is the psychic resultant of the whole organic life of the individual." By this time hope was abandoned. But when No. 4 volunteered to make it clear the family spirits revived. "Temperament is a general disposition of the mind," he wrote, "the distinctions of which depend on the dominance of one or the other of the physiological systems."

And now the family dictionary is worn out

Book Plates.

The question of the use of the family coat of arms vexes the American very seriously. Originally all book plates were heraldic. That was in an age when people generally could not read and when the blazon of each family, as shown on wearing apparel or small belongings, was as well known and quickly distinguished as an autograph or photograph today. In the main, it is safe to advise Americans not to use coat armor on their book plates. The uncertainty of the actual right to arms and the extreme difficulty of getting a drawing that one knows is undeniably correct in every detail are strong reasons against its use. Heraldry is too exact a science to admit of liberties, and it is no small achievement to draw the coat of arms with absolute correctness and yet with artistic feeling.

Though it is not very generally practiced, it is legal to copyright the book plate design. At least two plates are so protected in this country. This would seem to leave a door open for those who wish to secure for themselves a personal distinguishing mark, a quasi-heraldry, for the drawing may be in heraldic form as well as in any other.

Wanted Crude Eggs.

"Bring me crude eggs, shredded wheat biscuits and a glass of milk," said the man on the Boston boat.

"Yes, sah," replied the waiter. "What kind of aigs was them, sah?"

"Crude eggs."

"Yes, sah; yes, sah," repeated the man, walking away with a perplexed expression. Shortly he returned. "We ain't got them aigs, sah, but we's got 'em boiled, fried, poached an' scrambled, very nice, sah."

"No, no," protested the Boston man. "I want them crude, raw."

"Oh," gasped the waiter, "you wants 'em raw?"

"Certainly."

Having brought them, the waiter looked on curiously while the man broke the yolks of the eggs over the shredded biscuit and stirred the whites up in the milk. "Dat's one of dem food cranks," reported the waiter to the next table.

Tree That Turns to Stone.

There is a tree that grows in Mexico called the "chijol," or stone tree. It is of enormous proportions, both in circumference and height. It has a number of branches spreading out widely and carrying leaves of a yellowish green color. The wood is extremely fine and easily worked in a green state. It is not given to either warping or splitting. The most remarkable thing about it is that after being cut the wood gets gradually harder, and in the course of a few years it is absolutely petrified whether left in the open air or buried in the ground. From this timber houses can be built that would in a few years become completely fireproof and would last as though built of stone.

First Railroad Charter.

The first charter ever granted in this country or probably any other for the building of a railroad was granted in 1819 to Henry Drinker by the Pennsylvania legislature for a road of that kind from the Delaware valley to the headwaters of the Lehigh river over the route now occupied by the Delaware, Lackawanna and Western railroad from the Water Gap to Scranton. That was before the days of steam, and the "wagons" that were to be run on the road were to be moved by horse power. That old charter and the rights it conveyed were purchased by the original Delaware and Lackawanna company for $1,000.

Took the Second Man.

One evening recently a well to do bachelor volunteered to teach a sprightly young widow the game of checkers. He quite overlooked the possibilities of the game.

"There, now; it's still your move," he exclaimed to the lady shortly after the game had commenced. "You have taken only one man, and you are bound to take another."

"Thanks for your advice," said the widow sweetly. "Suppose I take you, then?"

She did subsequently.

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

MILBURN'S HEART AND NERVE PILLS.

MAKE WEAK HEARTS STRONG. MAKE SHAKY NERVES FIRM.

They regulate the heart's action and invigorate the nerves.

This is what they have done for others! They will do the same for you.

They are a sure cure for

Nervousness, Sleeplessness, Loss of Energy, Brain Fag, After Effects of La Grippe, Palpitation of the Heart, Anæmia, General Debility and all troubles arising from a run down system.

Milburn's Heart and Nerve Pills.

are 50c. per box or 3 for $1.25, all dealers or The T. Milburn Co., Limited, Toronto, Ont.

EXPENSIVE SMOKING.

Some men smoke a pipe for the sake of economy, because they can't afford a good cigar, and other men indulge in the meerschaum and brier because they claim it is the only way to get the full enjoyment out of tobacco. The question of economy doesn't enter into the scheme of the latter class.

A Walnut street manufacturer of Turkish cigarettes sells at $4.50 a pound a considerable quantity of imported tobacco. His customers are connoisseurs, and they are men who can amply afford to pay this exorbitant price and say the goods are worth it. Some of them, to be sure, make it last longer by mixing it with Virginia long cut, for the Turkish tobacco is exceedingly pungent, and a little of it will flavor an equal quantity of the cheaper weed. A novice who was pricing this tobacco expressed some surprise that it should be so expensive.

"That isn't expensive," replied the tobacconist. "There are Turkish tobaccos that, with the duty added, would cost as much as $60 a pound in this country."

Sir Boyle Roche's Famous "Bulls."

Sir Boyle Roche, too, whose bulls made him famous, on one occasion assured a wonder stricken body of voters that if elected he would put a stop to smuggling practices in the Shannon by "having two frigates stationed on the opposite points at the mouth of the river, and there they should remain fixed, with strict orders not to stir, and so by cruising and cruising about they would be able to intercept everything that should attempt to pass between them."

Another time when on the hustings he observed, "England, it must be allowed, is the mother country, and therefore I would advise them (England and Ireland) to live in filial affection together like sisters, as they are and ought to be." This was only equaled by his, when opposing his antiministerial motion, wishing the said motion "was at the bottom of the bottomless pit."

Bedlam.

How many people use the expression, "a regular Bedlam" without knowing Bedlam's "where or what." Bedlam was the popular corruption of Bethlehem, the name of an insane asylum in London, first established in 1523. Owing to the prevalent ignorance of that age, it was a place of chains and manacles and stocks and finally became so filthy and loathsome that no man could enter it. It was rebuilt several times, but even as late as 1812 the institution was marked by its cruelty to inmates. The poor lunatics were chained and flogged at certain stages of the moon's age. Treacherous floors were arranged that, slipping suddenly, precipitated the unsuspecting ones into "baths of surprise!"

The Defendant's Pleading.

In a rural district in the west of England there lived an eccentric old farmer who was continually appearing before the magistrates for allowing his cattle to stray on the highway.

During the hearing of his case for a similar offense upon the last occasion he elicited much laughter from the presiding "gentlemen on the bench" and others.

The chairman, addressing the defendant, asked:

"Do you plead guilty or not guilty?"

"Well, yer 'onour, I expects as I be guilty. But don't be too hard on a reg'lar customer."

Chronic Catarrh Cured.

In Merrill's System Tonic one finds a pleasant-to-take but powerful blood purifier. It is this feature that makes it a never failing cure for Chronic Catarrh and Chronic Rheumatism. Money spent in snuff is only wasted. Remove the cause — Take Merrill's System Tonic. Price 50c. for 50 doses, at Ormond and Walsh's drug store.

Palma in Havana.

Havana, May 7.—President-elect Palma arrived yesterday at Cienfuegos on board the steamer Julia. Thousands of people flocked to the wharf to welcome him.

A Startling Telegram.

Ten girls in a composition class were told to write a telegram such as would be suitable to send home in case of a railway accident while traveling. One of the girls wrote:

Dear Papa—Mamma is killed. I am in the refreshment room.

Test of the Age of Eggs.

There is a sure and simple test of age in an egg. Dissolve six ounces of common kitchen salt in a large glassful of water and drop in your eggs, one at a time. An egg one day old will sink to the bottom, but if older it does not reach the bottom. If three days old, it sinks only just below the surface. If five days and over, it floats; and the older it is the more it protrudes from the water.

Satisfaction In It.

"You know, my dear," said her friend, "wealth does not mean happiness."

"Well," said the young lady who was considering a possible proposal, "it means carte blanche with one's milliner and one's dressmaker!"

Ancestry.

Miss Upperten (haughtily)—My great-grandfather was a Virginia Taylor.

Miss Newrich (unaffected)—Indeed! And my grandfather was a Chicago butcher.

A Thorough Pessimist.

"He never looks on the sunny side of life."

"Or if he does he complains of the heat."—Detroit Free Press.

Knew His Business.

"If I were the mayor," remarked the stranger who had attended a meeting of the city council, "I wouldn't permit the aldermen to waste so much time in useless wrangling over trivial matters."

"The mayor knows what he is about," replied the citizen. "When they're wrangling, they're not doing any mischief."

Night and Day.

"Night falls, but it doesn't break," observed the Simple Mug.

"What of it?" queried the Wise Guy.

"Oh, nothing," chuckled the Simple Mug, "except that day breaks, but it doesn't fall."

Some men are kept so busy maintaining their dignity that they haven't time to earn a decent living.

Doctors Said Incurable.

Excruciating Pains in the Back and Loins—A Plaster Cast Necessary for Temporary Relief—How a Cure was Found in

DR. CHASE'S KIDNEY-LIVER PILLS.

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidney disease. You cannot wonder at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. They have given him a new lease of life.

Mr. S. O. Demers, Conception Station, Labelle County, Que., writes;—"I am writing you in order that others who suffer as I did may profit by my experience. For three years I was obliged to give up all work on account of severe pains in my loins, back and sides. I had become so stiff in my body that I could not lean over without suffering the most excruciating pains.

"I consulted several doctors and specialists but all of them pronounced me incurable and could not even give me relief. One of them encased me in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die without being able to find a cure.

"About this time I received one of Dr. Chase's books and found my case described exactly. The sample of Dr. Chase's Kidney-Liver Pills which came with this book gave me marked relief, so I bought some more and continued the treatment. Gradually the sharp pains in my back and sides grew less severe, and my bowels became regular and active—constipation had been one of my worst symptoms.

"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and side, frequent desire to urinate and pain in making water, stiffness of the body and all the accompanying derangements of the liver and kidneys.

"Since using Dr. Chase's Kidney-Liver Pills these ailments have become less and less until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their favour. The people in this county are surprised to see me so well again and no wonder, for my cure has been almost miraculous."

Dr. Chase's Kidney-Liver Pills; one pill a dose; 25 cents a box, at all dealers, or at Edmanson, Bates & Co., Toronto. 5-6

THE Highest ideal in Piano Building is typified in

EVADING THE LAW.

The Pictures of Flying Birds in a Mohammedan Mosque.

According to one of the tenets of the Mohammedan religion, it is a sin to make a picture of any living thing. The elaborate decorations of the palaces and mosques of the east are almost exclusively made up of ingeniously interlaced geometric designs, arabesques or flowers, intermixed with sentences of the Koran.

There is a belief among Mussulmans that at the day of judgment Allah will demand that the artist who has made the image of a living thing shall endow that image with life and that, failing to do this, the artist will be sent to perdition for his sin.

A gentleman who visited a mosque in Algiers found that the tiles with which the building is decorated, which are very old and beautiful, are adorned with flights of birds. He expressed surprise at this and asked if the command against such representation were a modern edict.

"Oh, no," answered the pious Algerian to whom he addressed the question. "These are not pictures of living birds."

"But they are painted as if flying across the tiles," the other said in some astonishment.

"Yes," the Mussulman replied, "but do you not see that about the neck of each there is a fine black line? That is to show that the artist painted only dead birds, and the command of the Koran is not violated."

Patchwork of Pictures.

Of all the quaint and varied sights shown to the passing stranger, says Navy and Army, perhaps there is none more attractive than the officers' quarters in the main guard of the citadel of Valetta. Long ago some officer, finding the time hang heavy on his hands and having in him besides a turn for sketching, bethought him to draw upon the bare yellow washed wall of his ungarnished room a picture in colors. The next officer probably thought he could do as well or better, and he, too, left his handiwork upon the walls, and as years rolled by there grew up a custom, now firmly established, for every regiment serving in Malta and doing main guard duty to leave behind a remembrance of itself in the shape of a sketch on the walls in pencil, chalk or paint. Thus now, instead of plain, unlovely walls, exists this quaint irregular patchwork of pictures, well known throughout the services and to those who use this highway to the east.

Overreached Herself.

Some time ago in Devonshire there were a pair courting named John and Mary.

They had been courting for several years, when Mary began to think John was rather backward in popping the question, so she, being anxious to get married, thought she would try a scheme of her own.

While out walking one day she said blushingly, "John, what do you think all the people in the village are saying?"

"I don't know," said John.

"Well, they all says that we are going to get married."

"Ah, ah," said John. "Now we'll show 'em they're mistaken, and we won't get married."

A Matter of Names.

A prominent New York lawyer, occasionally heard of in connection with divorce cases, told the following:

"Some years ago I was retained by an Australian banker's daughter to secure her a divorce. After having obtained the decree I delivered it to her and was surprised when she burst into a roar of laughter after reading it.

"'What is so funny?' I asked.

"'Why, look here,' replied the divorcee. 'Look at the names—"Donohue," justice; "O'Byrne," referee; "Keenan," county clerk. Why,' she mirthfully added, 'when I return home to my parents they'll say, "You went to Ireland for your divorce, not to America."'"

Game Duck.

Game duck of all sorts should be roasted quickly in a hot oven and are considered best when very rare. The blood should always follow the knife when carving the breast of a duck. It is not possible to limit the roasting of a duck to any number of minutes; it depends entirely upon the temperature of the oven. If a wild duck is being roasted for men, it should be much rarer than when it is to be eaten by women.

The Happy Family.

The proprietor of a German menagerie keeps caged together a lion, a tiger, a wolf and a lamb, which he labels "The Happy Family." When asked confidentially how long these animals had lived together, he answered:

"Ten months; but the lamb has to be renewed occasionally."

Quackery vs. Science.

Most patent medicines emanate from people who know nothing of medicine or chemistry. Merrill's System Compound is skilfully compounded in one of Ontario's largest drug stores, after the suggestions of three eminent physicians. It purifies the blood, builds up the system, strengthens the nerves and regulates the bowels. 50 pleasant-to-take doses for 50 cents. Sold by Ormond and Walsh.

The Encroaching Lake.

One of the humorously attractive characteristics of a child is his large sense of personal importance. A little girl was walking with her father on the shore of a large lake, where the waves were gently lapping up on the beach. Suddenly one came up higher than the others and swept over her foot, when she exclaimed, "Oh, papa, the lake stepped on my toe!"

His Position in Politics.

"He's going in for politics. Wouldn't he make a splendid diplomat, though?"

"What? Why, he's a deaf mute."

"Exactly. Just think how easy it would be for him to be absolutely dumb when it was expedient."

"Yes, but then he could never talk without showing his hand."

Office of the Lungs.

"What is the office of the lungs?" a teacher asked a small pupil in a class in physiology.

"The chest," she promptly replied.

"And," said the teacher, telling the story, "I guess she was somewhat near right, for the lungs certainly do business in the chest."

A Matter of Age.

Grace—This photograph makes you look so old.

Gladys—Yes; it is an old picture, you know.

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill box and name—but imitations are dangerous. The original and only genuine cure for Bright's Disease is

DODD'S KIDNEY PILLS

Dodd's Kidney Pills are fifty cents a box at all druggists.

Old English Police Tax.

The chief authorities of towns in past ages incurred much responsibility. At Ripon we have a good example of their liabilities. Here formerly, after the blowing of a horn at 9 o'clock at night and until sunrise next morning, if a house were robbed and the owner and his servants had taken proper precautions for its safety, the wakeman had to make good the loss sustained. Each householder paid an annual tax of twopence if he had one door and fourpence if he had two doors to his dwelling for maintaining a watch over the city. The tax has long since been discontinued, but the horn is still blown at night.

Lashed For His Discovery.

According to an old document discovered some time ago in Australia, gold was first found by a convict near Paramatta in 1789. The unfortunate fellow was at once charged with having stolen a watch and "boiled it down" and, being convicted by the rude court of those early days, was given 150 lashes for his pains. In later years the record of this incident was closely examined by an undoubtedly competent authority, who was quite convinced of the genuineness of the convict's story.

A Peculiar Politician.

"He's a mighty hard man to get along with," said the practical politician sadly. "Mighty hard."

"He seems thoroughly honest."

"Of course he is. That's what makes him so erratic and unsatisfactory. Every once in awhile he insists on doing something simply because he thinks it is right, without waiting to figure out what its effect on his political prospects is liable to be."

Interrupted Grieving.

A woman in Scotland had lost her husband, and the minister, calling to condole with her, found her sitting in front of a large bowl of porridge.

"Terrible loss, terrible loss!" sighed the minister.

"Aye," was the reply, "it's a terrible loss to me. I've just been greetin' a' nicht, and as sune as I finish this wee drap porridge I'm just gaun to begin again."

The Three D's.

"Down in Greensboro," said a citizen of that North Carolina town, "I knew three 'drummers.' They seemed to be boon companions. The first one traveled for a large brewing company in Baltimore, and the second represented a wholesale drughouse in the west. These two men, while going through the south, fell in with a man who was selling coffins to undertakers in the country towns. When the trio reached Greensboro to spend Sunday—you know all the 'drummers' come into Greensboro to spend Sunday—they had already been christened the three D's—Drinks, Drugs and Death.

A Royal Tragedy.

Frederick I. of Prussia was killed by fear. His wife was insane, and one day she escaped from her keepers and, dabbling her clothes in blood, rushed upon her husband while he was dozing in his chair. King Frederick imagined her to be the white lady whose ghost was believed to appear whenever the death of a member of the royal family was to occur, and he was thrown into a fever and died in six weeks.

The Attraction.

Gladstone told Lord Ronald Gower that once when he visited Rome he accidentally met Macaulay, who introduced himself to the statesman. On Macaulay's telling him that he took a daily walk in St. Peter's, Gladstone asked him what most attracted him in that place. "The temperature," was the answer.

LAXA LIVER PILLS

Those who have used Laxa-Liver Pills say they have no equal for relieving and curing **Constipation, Sick Headache, Biliousness, Dyspepsia, Coated Tongue, Foul Breath, Heart Burn, Water Brash** or any disease or disorder of the stomach, liver or bowels.

Mrs. George Williams, Fairfield Plains, Ont., writes as follows: "As there are so many other medicines offered for sale in substitution for Laxa-Liver Pills I am particular to get the genuine, as they far surpass anything else for regulating the bowels and correcting stomach disorders."

Laxa-Liver Pills are purely vegetable; neither gripe, weaken nor sicken are easy to take and prompt to act.

WHAT YOU DO, DO IT WELL.

This is Important for Health-Building in May.

Thousands of Cures Made by

PAINE'S CELERY COMPOUND

Should Convince You of its Value.

"What you do, do it well," is the golden rule of business life. This rule and far-reaching command can be profitably observed in many other conditions of life. In sickness and suffering it is all-important that, "what you do" to banish disease and restore lost health should be well done. While prudence and common sense will in nearly every instance, direct you aright, the experience of your friends and neighbours, and the thousands rescued from sickness and suffering, will point directly to Paine's Celery Compound as the infallible health giver.

People who think they will get rid of troubles, such as rheumatism, neuralgia, dyspepsia and nervous disorders by medicines which have not yet passed the experimental stage, will be sadly disappointed and find their sufferings increased.

To get rid of rheumatism, neuralgia, dyspepsia and nervous complaints it is wisdom to use Paine's Celery Compound, a remedy that proceeds at once to make the appetite normal, sleep natural and refreshing, the nerves strong, as a foundation for building up health and vigour.

If sick people in May look for a true nerve strengthener, an honest blood purifier, a reliable diuretic, that will restore strength, renew vitality, regulate the kidneys, liver and bowels, they should at once make use of Paine's Celery Compound, and note the speedy and pleasing results that flow from its use.

Reasons For Pride.

There was present at a certain big dinner in England an American woman of prominence who was somewhat annoyed by a tactless English woman who undertook to banter her and who said:

"I take it for granted that you have no coats of arms in your new country."

"Of course no American family could have one unless it was borrowed from English ancestry," replied the former American.

"For instance, has your family any especial cause for pride over your grandfather?" persisted this particularly tactless female cad.

Then the American woman opened up and replied as calmly as possible under the circumstances, "Not much, perhaps, only that my grandfather on my mother's side received Burgoyne's sword when he surrendered at Saratoga and my grandfather on my father's side received the sword of Cornwallis at Yorktown."

Lazy Livers and Sluggish Kidneys

When these organs fail to perform their proper functions, the blood becomes poisoned and and suffering and disease commence. This can be avoided by keeping your vitality at high-water mark, the blood rich and pure, by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. Morning tiredness, Languor, Dizziness, Pain in the Back and Sick Headache disappear at once when Ferrozone is used. Get it to-day. Price 50c., at Ormond and Walsh's.

Dr. Hamilton's Pills cure Biliousness.

A Small Legal Fee.

The smallest fee ever taken by an English counsel was sixpence, that fee having on one occasion been taken by the late Sir John Holker. Barristers' fees were in olden times much less than those now paid. An entry occurs in the churchwardens' accounts of St. Margaret's, Westminster, for 1476, showing that a fee of 3s. 8d., with fourpence for his dinner, was paid to Robert Flypott, counsel, learned in the law, for his advice.

In Nare's "Glossary" a barrister's fee was stated to be an angel, or 10 shillings. These are somewhat different figures from the 600 guineas paid to Sir Charles Russell a number of years ago at the Leeds assizes for less than three hours' work, or at the rate of over 3 guineas a minute.

In the Art Gallery.

"Ah," exclaimed Mrs. Oldcastle, who was again enjoying the splendors of her new neighbors' art gallery, "a Corot, I see!"

"Where?" asked her hostess, looking doubtfully at the canvas which seemed to claim the other's attention.

"There," answered Mrs. Oldcastle, pointing with her lorgnette.

"Well, now, I declare. I can't see a single crow anywhere around. You don't mean them little black spots in the left hand corner, do you? Them's clouds!"

The Limit of Chivalry.

There was once a man who zealously declared that woman has no right to invade the field of wage earning men. She should stay at home, where she belonged.

Finally his four sisters, three cousins and two aunts, who were without a masculine protector, gathered about him and inquired:

"Whose home? Yours?"

Whereat he perceived that theory ends where fact begins.

How the Cocaine Habit Starts.

Generally from using catarrh snuffs and ointments containing this deadly drug. It is well to remember that the only direct scientific cure for catarrh is Catarrhozone, which cures by the inhalation of medicated air. Simply breath Catarrhozone and it will cure all forms of Catarrh, Bronchitis, Asthma, Lung Trouble and Deafness. Every breath from Catarrhozone Inhaler, soothes, heals and relieves. Permanent cure guaranteed even though other remedies failed. Try Catarrhozone; price $1; small size, 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

Feminine Financiering.

He—You owe me ten kisses! Pay up!

She—Explain, sir!

He—I won them! You know very well I wagered a dozen gloves against ten kisses and won! I—

She—Oh, but kisses, you know—

He (firmly)—Kisses should be paid just as religiously as any other debt.

She (thoughtfully)—Just the same as a note?

"Yes."

"Or a check?"

"Yes."

"Or—or a draft?"

"Certainly!"

"Then, you poor fellow, I'll give you a draft on mamma!".

Only Amused Them.

James had been an autocrat in his home, and when he went to school he was greatly astounded to be told that he must do this thing and that he must not do that. After disobeying every rule of the school and being reproved he wanted to know the "whys" of it. "Because you disturb the other boys," he was told. "I don't think I disturb them," he replied thoughtfully. "I think I amuse them."

Mexican Politeness.

Foreign Visitor (in Mexico)—What! Do you still have those barbarous bullfights in your country?

Native—Oh, yes; so many American travelers want to see them, you know, that we have to give one now and then.

Very Dark.

Yeast—They say the darkest hour is just before the dawn.

Crimsonbeak—Yes. Well, I know when I've gone home in the morning and knew my wife was waiting for me things have looked unusually black.

Last Resort.

Hotel Clerk (to Colonel Cutter of Kentucky)—Will you have a pitcher of water sent to your room?

The Colonel—Water! Great guns, ain't there any fire escape?

On Magnetic Healing.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

A Costly Prayer Book.

Queen Elizabeth used to carry about with her suspended by a chain of pure gold a book called "The Golden Manual of Prayer," a dainty volume of 300 pages, bound in "hammered virgin gold." One side of this costly volume gave a representation of the judgment of Solomon, the other the brazen serpent on the cross in the desert.

A Fad and a Cult.

A Boston editor, asked to define the difference between a cult and a fad, rose to the emergency in this manner: "A fad is anything that arouses evanescent mentality, while a cult is anything that inspires permanent mentality."

Extenuation.

Visitor—That painting is by an old master, I see.

Mrs. McShoddle (apologetically)—Y-e-s, but the frame is new.

No one can read the Bible out loud in the same voice in which he would read a selection from a newspaper.—Atchison Globe.

PREMIER ROSS AT CORNWALL.

Hon. G. W. Ross Delivers a Stirring Address in the Interests of Mr. W. J. McCart, the Liberal Candidate.

Cornwall, May 9.—Nearly two thousand of the electors of Stormont braved a heavy rainstorm last night and listened to a stirring address by Premier Ross in support of the candidature of Mr. W. J. McCart. The meeting was held in the skating rink, as other building in town having room for those who desired to hear Ontario's gifted Premier. As befitting the interests of this busy factory city, whose mills employ nearly 2,000 operatives, Mr. Ross took occasion to explain the Government acts in the interests of labor, mentioning the benefits of such measures as the mechanics' lien, the factory, bakeshops, trade disputes, and other acts, all of this character. The address was listened to with great closeness throughout, and was frequently interrupted by cheers. The speech of the candidate was received with much enthusiasm. Following the Premier a speech was delivered in French by Mr. A. A. Bruneau, M.P. for Richelieu. The Liberals of Stormont are taking a lively interest in the present contest, and are rallying around their candidate with an enthusiasm which presages a favorable result on May 29. Mr. McCart is a young man of splendid presence, a good speaker, an energetic worker, and a successful merchant in Avonmore. His opponent, Mr. John McLaughlin, is also a business man in Avonmore, who represented the riding in the last Parliament. The chairman was Mr. D. B. Maclennan, K.C., of Cornwall.

Opposition Tour Ended.

Sault Ste. Marie, May 9.—The tour of Opposition Leader Whitney and colleagues and F. D. Monk, M. P., of the northern districts of Ontario, culminated in a meeting here last night.

POLITICAL POINTERS.

Hon. E. J. Davis addressed a meeting at Barrie Thursday night, in the interests of D. Davidson.

The Toronto Trades and Labor Council had endorsed the four Socialist candidates for the Legislature in Toronto.

The Reformers of West Simcoe met in convention at Creemore Thursday and nominated: Dr. Jakeway, William Williams, Collingwood; Samuel Hilsey, Creemore, and John Birnie, Collingwood. All retired, with the exception of William Williams, who asked for two days to consider the matter.

Chicago 10, New York 4.

Canadians Won at Stockport.

Manchester, May 9.—The Torontos played another match yesterday on the grounds at Stockport. Their opponents were the Cheshire team, composed principally of Stockport men, and a keen battle had been anticipated ever since the closely contested game with the Stockport twelve on Monday. In the first period the Torontos scored two goals, Cheshire failed to get the ball past Hanley. The score at the finish was nine to two in favor of Torontos. Good weather favored the match, and there was a crowd of fully 5,000 in attendance. The ground was in prime condition.

DR. GRANT IMPROVES.

Took Nourishment Thursday—Good Condition Continued All Day.

Kingston, May 9.—Principal Grant may owing to his indomitable will power and his readiness to comply with all the demands of his physicians, reach again a condition of health which will tide him over for some time to come. This is the hope of his friends. The attack he has just passed through was more severe than that of last September, but it has not been so long prolonged, so that his strength was not so severely taxed as on the previous occasion. The late operation helped to clear the choked and congested avenues of the kidneys, and to again in some measure perform their functions: if this can be maintained, there is hope of the prolongation of his life. He had a fair sleep Wednesday night, the first in a week, and yesterday he was able to take a moderate amount of stimulating nourishment. His mental facilities were quite clear. The good condition continued all day.

Seeds That Grow

If you want reliable flower, field and garden seeds, you'll be safer to buy them right at home, from Ormond & Walsh's drug store. dw

ST. MARY'S MAN DEAD.

C. W. Meehan of the S. A. C. Dies of Enteric Fever.

Ottawa, May 9.—The death is announced by cablegram to His Excellency from Cape Town of Charles Westley Meehan of the South African Constabulary.

He died at Vet River, May 6, of enteric fever. His next of kin is Mrs. Mary Meehan of St. Mary's, Ont.

Major Woodside a Lieutenant.

Major Woodside, who was to have gone to South Africa with the third contingent, but was prevented from sailing by an accident, which laid him up at Halifax for some time has been given a lieutenancy in the Fourth Regiment of the fourth contingent. He takes the place of Lieut. J. J. T. Winslow of the 71st York, N.B. Regiment.

OFF FOR SOUTH AFRICA.

The Cestrian Has Sailed With Part of Fourth Contingent.

Halifax, May 9.—The 3rd Regiment, C.M.R., and part of the 4th under command of Col. Williams, with Major O'Farrell second in command, embarked on the troopship Cestrian at 10 o'clock yesterday morning. Thousands of citizens lined the route from the concentration camp to the pier and the men of the other regiments gave their departing comrades a warm send-off. Col. Williams marched at the head of the regiment.

ELEVEN MEN KILLED.

Lord Kitchener Reports a Railroad Catastrophe North of Pretoria.

London, May 9.—Lord Kitchener reports another accident on May 7 to a train bound from Pretoria to Pietersburg, Northern Transvaal. The cars were derailed at a curve and an officer and ten men were killed.

Coal Barge Goes Down.

Rochester, N. Y., May 9. — The steam barge Clifton, coal laden and bound from Oswego to Toronto, sprang a leak when 20 miles off Charlotte Harbor Wednesday night. Every available man was kept at the pumps, and the vessel was kept afloat until just off Rattlesnake Point, when she went down in ten feet of water. Captain Van Alstine and the crew were safely landed in a small boat.

Men With Memories.

Seneca the Wise could repeat 2,000 words in the uninterrupted succession in which they were read to him. The greatest Roman orator before Cicero, Hortensius, could recite all the prices given at a public auction. Themistocles, who considered it a greater art to forget than to remember, learned the Persian language inside of a year.

The White House Mistress.

There is probably no situation easier to fill, as far as mere technical observance goes, than that of the wife of the president of the United States. She has a set of simple official duties as hostess of the White House to perform. If she is ill or feels unable to perform them, she is readily excused.

The Responsible One.

"Who is the responsible man in this firm?" asked the brusque visitor.

"I don't know who the responsible party is," answered the sad, cynical office boy, "but I am the one who is always to blame."

The Paraguay river, so called from the republic of the same name on its banks, is 1,800 miles in length. At points in its lower course it is from five to fifteen miles wide.

Baby's cold may be cured in a night by using Vapo-Cresolene, which has been extensively in use for twenty-four years. All druggists.

BY THE HAND OF GOD.

Thanksgiving For the Preservation of Queen Wilhelmina's Life.

The Hague, May 9.—In the presence of the Prince Consort and a distinguished congregation, who attended Ascension Day services at the church in Apeldoorn yesterday morning, the Protestant minister of the church delivered an address of thanksgiving for the preservation of the life of Queen Wilhelmina, who, he said, had been saved by the hand of God.

Will Unwater the Canal.

St. Catharines, Ont., May 9.—William Belton, who disappeared from his home last Friday, and whose hat was found in the old Welland Canal, is still missing. The canal has been dragged for some distance, but no trace of the missing man has been found. The canal will be unwatered at this point on Sunday.

The Blush.

From the purely artistic point of view the power to blush is one of the most requisite and commendable of physical endowments. Old men are past blushing; very young children, idiots and the lower animals cannot blush; but it appears that some tribes still on the outskirts of barbarism preserve the faculty to an astonishing degree.

The blush is a grace of life, a mark of vitality and of youthfulness. It betokens a great cerebral sensibility seconded by a perfectly sensitive skin. By a sort of instinct for personal defense at the slightest attack—a word or a mere glance—there is a gush of energy. I say energy, and not emotion. The heart beats no faster, but a signal from the brain sends a rush of all the spare blood to the skin, and, owing to the congestion of the small blood vessels, an extraordinary glow spreads over the face to the tips of the ear, to the roots of the hair, to the throat, sometimes even to the top of the bosom.

Darwin saw the back of a young girl blush and declares that in certain circumstances blushing may suffuse the whole body. It is as though the mind were hanging a curtain before the body to assert its right of precedence.—La Claviere, "The Art of Life."

Killing a Baby.

When Frank R. Stockton had planned out his book of Pomona's travels and was about ready to write it, he resided in Philadelphia. He had a business appointment with his dentist, an old friend, one day, when the following incident, told by himself, occurred:

"While in the chair I got to talking with this friend about my new book. I told him I had serious thoughts of killing that baby. He was much interested. We talked over the advisability of doing this, and, while he was not quite convinced, he in the main agreed with me. I had been finished with and, clasping his hand, went into the waiting room on my way out. This waiting room was filled with women.

"As I passed through the door I heard him call, 'Then you have positively decided to kill that baby?' 'Positively,' I replied.

"You should have seen the women stare. It was not until I got well out in the hallway that I realized what they must of course have been thinking."

Diarrhoea Weakens the System, and if not checked becomes a chronic condition. No remedy compares with Nerviline, which is prepared especially for stomach and bowel troubles. As a radical cure for cramps, colic, gas in the stomach, summer complaint, Nerviline excels everything in the medical line, as an indispensible household staple, and costs 25c. Buy a bottle to-day.

Try Dr. Hamilton's Mandrake Pills.

Progressive Store News

To stand still is to go backward. Stagnation leads to business death. Every day we intend to do better by you than the day before, but trying to do the best possible that experience and closest watching and buying can supply. Spring housecleaning brings many wants, and we realise that if bargains in that line are not given when wanted, they cease to inspire enthusiasm. We quote a few of the many lines which make this store popular:

Wall Paper Department.

460 Rolls Wall Paper, embossed gold, with 9 or 18 inch friezs, regular 25, 30 and 34c single roll, your choice for a few days, per roll.	15c	1000 Feet Room Moulding, oak finish, any width, from 1 to 2 inches, per foot	1½c

Temperance Hall, 4th line, Smith, Wednesday evening, May 14th.

Town Hall, Bridgenorth, Thursday evening, May 15th.

Young's Point, Thursday evening, May 15th.

Bensfort, Thursday evening, May 15th.

Fraserville, Friday evening, May 16th.

THE DISASTER AT MARTINIQUE.

It is Now Estimated that 40,000 People Perished.

THE SCENE: 'GLIMPSES OF HELL.'

London Newspapers Say the Catastrophe Is Comparable Only With Pompeii —The Eruption Began May 8, and Prof. John Milne, the Seismologist, Thinks Pelee "Blew Its Head Off."

St Thomas, D.W.I., May 10.—It is now estimated that forty thousand persons perished as a result of volcanic eruption in the Island of Martinique.

The French cruiser Suchel arrived at Pointe A. Pitre, Island of Guadeloupe, French West Indies, from Fort De France, Island of Martinique, yesterday morning, bringing several refugees. She confirmed the report that the Town of St. Pierre (Martinique) was entirely destroyed at 8 o'clock on Thursday morning by a volcanic eruption. Most of the inhabitants of St. Pierre were killed; that the neighboring parishes were laid waste, and that the residue of the population of St. Pierre is without food or shelter.

The British Royal Mail steamer Esk, which arrived at St. Lucia yesterday morning, reports having passed St. Pierre Thursday night. The steamer was covered with ashes, though she was five miles distant from the town, which was in impenetrable darkness. A boat was sent in as near as possible to the shore, but not a living soul was seen ashore only flames.

The Quebec Steamship Company's steamer Roraima was seen to explode and disappear.

The commander of the Suchel reports that at 1 o'clock on Thursday the entire Town of St. Pierre was wrapped in flames. He endeavored to save about thirty persons, more or less burned, from the vessels in the harbor. His officers went ashore in small boats, seeking for survivors, but were unable to penetrate the town. They saw heaps of bodies upon the wharves, and it is believed not a single person resident in St. Pierre at the moment of the catastrophe escaped.

The governor of the colony and his staff colonel and wife were in St. Pierre and probably perished. The extent of the catastrophe cannot be imagined.

The captain of the British steamer Roddam was very seriously injured, and is now in the hospital at St. Lucia. - All of his officers and engineers are dead or dying. Nearly every member of the crew is dead. Super Cargo Campbell and ten of the crew of the Roddam jumped overboard at St. Pierre and were lost.

The British schooner Ocean Traveler of St. John, N.B., arrived at the Island of Dominica, B.W.I., at 3 o'clock yesterday afternoon She reported having been obliged to flee from the Island of St. Vincent, B. W.I., owing to a heavy fall of sand from a volcano, which was erupting there. She tried to reach the Island of St. Lucia, B.W.I., but adverse currents prevented her from so doing. The schooner arrived opposite St. Pierre, Martinique, May 8. While about a mile off shore the volcano of Mount Pelee exploded, and fire from it swept the whole town of St. Pierre, destroying the town and the shipping there, including the cable ship Grappler, which was engaged in repairing the cable near the Guerin factory. The Ocean Traveler, while on her way to Dominica encountered a quantity of wreckage.

40,000 Persons Perished.

San Juan De Porto Rica, May 10. —The cable officials here have received advices from San Dominica that the schooner which has arrived there from the Island of Martinique reports that over 40,000 people are supposed to have perished during the volcanic disturbance in Martinique. The cable repair steamer Grappler (belonging to the West India and Panama Telegraph Company of London), was lost with all hands during the eruption of Mount Pelee. The Grappler was one of the first ships to disappear.

Eighteen Vessels Burned.

Washington, May 10.—The following cablegram has been received at the State Department:

Pointe A. Pitre, May 9, 1902.

Secretary of State, Washington:

"At 7 o'clock a.m. on the 8th inst. a storm of steam, mud and fire enveloped the city and community. Not more than 20 persons escaped with their lives. Eighteen vessels were burned and sunk with all on board, including four American vessels and a steamer from Quebec named Roraima. The United States consul and family are reported among the victims. A war vessel has come to Guadeloupe for provisions and will leave at five to-morrow.

(Signed) Ayme, consul."

The State Department has been receiving despatches from commercial houses in New York asking that a warship be sent at once to Martinique to afford relief. The matter is under consideration.

Eruption Began May 8.

London, May 10.—A despatch to the Reuter Telegram Company from Kingston, Jamaica, after giving the details of the Martinique disaster, already known, says: "Thousands were killed at St. Pierre, where a terrible panic prevailed. The eruption began Saturday, May 3, when St. Pierre was covered with ashes, and appeared to be enveloped in fog. The flow of lava continued until Wednesday, May 7."

The message adds:

"In the Island of St. Vincent the Soufriere is active, and earthquakes are frequent, but so far no damage has been done."

In response to the request of Governor Llewellyn of the Windward Islands the British second-class cruiser Indefatigable has been despatched from the Island of Trinidad to the Island of St. Vincent by way of St. Lucia.

A despatch to The Daily Mail from Pointe A. Pitre, Island of Guadeloupe dated yesterday, says: "The Mount Pelee crater ejected yesterday morning molten rocks and ashes during three minutes, and completely destroyed St. Pierre and the districts within a four-mile radius. All the inhabitants were buried.

"About eight passengers from the Roraima of the Quebec SS. Line were saved by the French cruiser Suchel.

"The inhabitants of the Southern districts of the island, who were dependent on St. Pierre for provisions, are menaced by famine."

"Glimpses of Hell."

A despatch to The Daily Mail from Jamaica says:

"The first intimation of a disaster at Martinique was the breaking of the cables on Tuesday. The French cable to Martinique from Puerto Plata was broken Wednesday. Cable communication with all the northern islands is stopped.

"The survivors of the British steamer Roddam describe the scene at St. Pierre as being "glimpses of hell." The Roddam's men were killed chiefly by molten lava.

"The Roraima was wrecked in a terrible upheaval of land and sea. The whole crew perished.

"Two ships were lost with all on board in an attempt to approach Martinique."

Comparable Only With Pompeii.

All the newspapers have expressed the greatest horror of the catastrophe which, they say, for its suddenness and magnitude is only comparable with that of Pompeii, and they extend deep sympathy to the French nation.

Prof. John Milne, the seismologist, in an interview published in The Daily Express, declares that his seismic instruments have recorded no disturbance, and that they would almost inevitably have done so had serious earthquakes occurred. Prof. Milne's theory is that Mount Pelee has "blown its head off," owing to the infiltration of water through the rocks until it reached the molten material beneath, forming steam of tremendous pressure until something had to give way.

Two Canadians Lost.

Halifax, May 10.—The steamer Roraima, reported lost at St. Pierre, Martinique, was commanded by Captain Muggah of Sydney, C.B. The first officer of the steamer was Richard Morley of Halifax.

Fourth Contingent Pay.

Ottawa, May 10.—Lord Strathcona cables that the pay of officers in the Canadian Mounted Rifles will be as follows: From date of embarkation until they return to Canada: Lieutenant-colonel, 25s. per diem; major, 23s.; captain, 21s.; adjutant, 21s.; subaltern, 15s. Other officers get the pay of their regimental rank. For any duty performed in Canada in connection with the contingent, cavalry rates only are issuable.

Canada to Jamaica.

Ottawa, May 10.—The Government has made a contract with the Halifax and West India Steamship Company for a monthly service between Halifax and Jamaica, which will continue in force until Dec. 31, 1906. The steamer to be used is the Beta, of 1,037 tons register. The company is to receive a subsidy of $13,800 per annum, or at the rate of $1,150 a trip for twelve trips.

To the Coronation.

Ottawa, May 10.—Hon. Charles Fitzpatrick is likely to pay a visit to England, in addition to Messrs. Fielding, Mulock and Paterson. The Ministers leave on the Parisian on June 14. Senator Gibson, D. C. Fraser, M.P., W. S. Calvert, M. P., and Hance Logan, M.P., travel on the same steamship. Sir Wilfrid Laurier sails from New York on the Etruria on the same date.

Gauthier Found Guilty.

New York, May 10.—Eugene Gauthier of Montreal was found guilty of murder in the second degree of the killing of Maud Gentile in a hotel on East 42nd street in this city, March 24. The full penalty is life imprisonment. Gauthier said the shooting occurred while he was trying to take the revolver from the woman, who was jealous.

Four Hundred Killed.

Hong Kong, May 9.—Advices received here from Wu Chou say the rebels bombarded Nan Ning Fu for three hours on April 27, using modern field guns. From three to four hundred of the inhabitants were killed. The rebels subsequently withdrew to the hills.

Land Cable to Scotland.

London, May 10.—The postoffice authorities have decided to push forward the construction of an underground wire from London to Scotland. An underground cable to Birmingham is now in operation and this line is to be continued northwards.

Fatal Land Slide.

Vancouver, B.C., May 10.—A most serious slide occurred yesterday morning at Power's Packing Camp, near the Rambler mine, at Kelso, one man was killed and several injured, and about 20 horses, cows and pigs were covered.

Australian Steamship's Peril.

Melbourne, Victoria, May 10.—A life-boat containing the first officer and three men of the British ship Boverie, which was at Melbourne March 17, from Sydney, has arrived at Fremantle, Western Australia, after having sailed 1,500 miles, to report that the Boverie had lost her propeller when 1,500 miles from Fremantle and was in need of assistance. The Boverie sailed from this port for Natal March 21, with remounts and 90 soldiers on board.

PRINCIPAL GRANT IS DEAD.

The Venerable Educationist Passed Away This Morning.

His Rally of Yesterday Preceded the Collapse—His Death Will be Felt Throughout the World.

Rev. George M. Grant, D. D., principal of Queen's College, Kingston, was born at the Albion Mines, Nova Scotia, Dec. 22nd, 1835. He received his preliminary education in his native province, and took a brilliant course at Glasgow University. He was pastor of St. Matthew's church, Halifax, for 14 years. In 1872 he accompanied Mr. (now Sir) Sandfield Fleming on his celebrated overland journey to British Columbia, and one of the results was Dr. Grant's well-known book "Ocean to Ocean," published in 1872, a work which has gone through many editions, and is still read with interest by young and old. He became Principal of Queen's College, Kingston, in 1877, and finding the finances weak, he set to work with his indomitable spirit and succeeded at different times in collecting an endowment fund aggregating $400,000. Principal Grant belonged to the liberal school of thought, which means that while he adhered to the cardinal doctrines of the Gospel, he desired to give the utmost freedom to individual thought and opinion within the limits of the fundamental basis of the church. In addition to "Ocean to Ocean," Dr. Grant has been a writer of several important books, and a frequent contributor to English, American and Canadian magazines. In 1888 he went on a journey around the world lecturing on the way in Australia and other countries. In 1889 Dr. Grant was elected Moderator of the Presbyterian General Assembly and subsequently he held other positions of prominence and responsibility of so varied a character as to show the wide range of his sympathies and capabilities.

In the death of Dr. Grant one of the most distinguished of Canada's sons passes away. He was a man of ability, sharpened by wide culture of unusual intellectual and moral force, and of noble convictions strongly held. He was a man of powerful personality, great venerability and untiring energy and perseverance. He was an educationist of intense ardor. He was a great polemist, and at the same time a strong and generous adversary. When political questions of great import came to the front Dr. Grant was always to the front also, and few professional politicians who exchanged thrusts with him cared for a second tilt.

Dr. Grant is dead and a great and good man has passed away, but he has left behind him in the influence he has had in moulding the characters of thousands who have been under his educational care, in the influence he has had upon the literary, social and religious life of the country, a monument more enduring than brass—"they rest from their labours and their works do follow them."

ASHBURNHAM SCHOOL.

March Report of Room No. 4—The Names are in Order of Merit.

Senior Fourth Class.—870 Marks—C. Craig, 733; B. Curtis, 700; E. Pakenham, 696; E. Pollock, 696; M. Murray, 683; C. Adams, 658; L. McCubbin 655; H. Williams, 647; B. Brasley, 632; L. The June promotions will be based on the monthly reports.

Superior Grey Lime.

"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

New American Blouse Styles.

In presenting our new sample lines of American print and linen effects for summer shirt waists, we do so with absolute confidence that the two great requisites of correct style and superior value have never before been so well combined. Our skilled staff and the unequalled facilities afforded by our factory gives us advantages in manufacturing shirt waists, faultless in design and fashioned after popular American mates. Ladies will be interested in our pretty new summer blouses made in fast colour American print, with new dip sleeves, tight fitting backs and long dip front, which we are selling at 65c., instead of 85c, the regular price. We will also have ready for Saturday, the very latest American novelty shirt waists in linen fabrics, some with Paisley stripes, which we will sell direct from our factory at $1.00 to $1.50 instead of $2.00. C. G. Gemmell, Charlotte street.

Ribbons

The Peterborough public look to us for special drives in Ribbons. We seldom disappoint them. When we haven't these "extra plums" we stand ready with our special values in regular lines, which will stand critical comparison. Just now we have three specials in Neck Ribbons at—

15c, 19, 25c

The 25c Line

of which we bought 118 pieces or 2124 yards, comprises Shot Cords, Shot Taffetas, Shot Luciennes, 4 to 7 inches wide, in superbly rich colourings and 60 to 90c qualities. They are new ribbons and in the house but a few weeks. Are especially adapted for neck ribbons, rosettes, sashes, fancy work, etc.

40 doz. Cotton Hose

In fancy and plain elastic rib, fine quality imported Hose. Sizes 7 to 8½ inch, worth 25c, for

12 1-2c Pair

Sizes 4½ to 6½ in. worth 18c, for

10c Pair

Mothers will see to fitting these hose to their children's feet if they would consider the saving of darning.

Ladies' Cashmere Hose

10 dozen only in assorted sizes of super pure wool Cashmere Hose, that we put on sale till Monday night. Our 75c quality—

55c Pair

3 Pair for $1.50

Corsets 55c

but the regular 75c improved erect form corset, well filled and finished. 240 pairs enable us to make this concession. Who wouldn't have an up-to-date pair of 75c corsets when they can get them for 55c.

Kid Gloves 57c

Our regular 75c quality glace Kid Glove, with neat points in tans and black, will be offered until Monday night, 57c. Tans 5½ to 7½, blacks 5½ to 8½.

Your Millinery Wants your Suit Wants, in fact all your Ready-to-Wear Wants will be satisfactorily filled at this store.

TO YOUNG WOMEN

A Denver, Colorado, Young Woman recently Wrote a Letter to Mrs. Pinkham, which Aptly Pictures the Condition of a Great Many Young Women. Read What She Says:

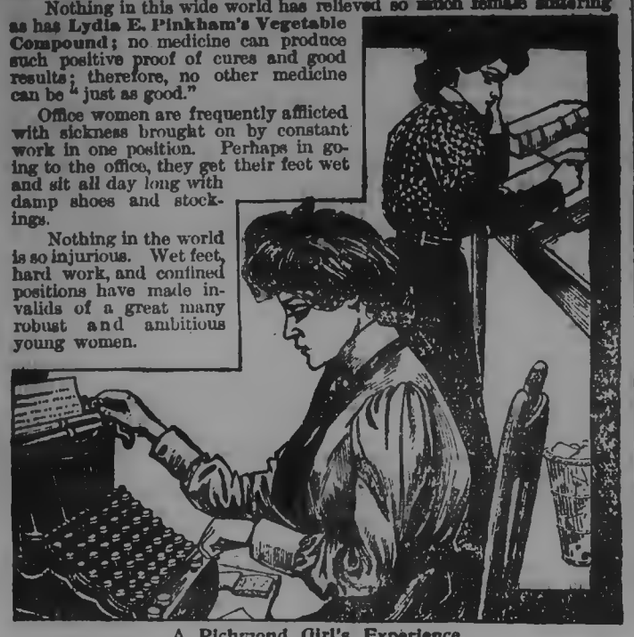
"DEAR MRS. PINKHAM:—This is the first opportunity I have found to write and thank you for the good your Vegetable Compound has done me. I feel better than I have for years. It seems a 'seven days' wonder' to my friends. Where I used to be pitied, everything is the opposite now, and there is not a day but some one wants to know what I have done to make myself look so well.

"Before taking **Lydia E. Pinkham's Vegetable Compound** I had constant headaches, was constipated, bloated, eyes weak and watery, bearing-down pains, pains in the small of my back and right side; took cold very easily, which always caused intense pain in the ovaries, and I did not want to go anywhere or see any one. I was called cross, but I could not help it, feeling as I did. I could not lift anything or do any hard work without suffering for days afterwards. Menstruation lasted for eight or ten days, the first three or four days being almost constant pain day and night."

Nothing in this wide world has relieved so much female suffering as has **Lydia E. Pinkham's Vegetable Compound**; no medicine can produce such positive proof of cures and good results; therefore, no other medicine can be "just as good."

Office women are frequently afflicted with sickness brought on by constant work in one position. Perhaps in going to the office, they get their feet wet and sit all day long with damp shoes and stockings.

Nothing in the world is so injurious. Wet feet, hard work, and confined positions have made invalids of a great many robust and ambitious young women.



A Richmond Girl's Experience.

"DEAR MRS. PINKHAM:—I have just purchased a bottle of **Lydia E. Pinkham's Vegetable Compound** but am advised to write you before treating myself.

"I hardly know how to express myself. At times I feel well, and in less than ten minutes I am actually wretched with headache, that tired feeling, and so nervous that the sound of a door bell will make me start. I cannot walk two blocks without feeling fatigued. Menstruation has never been regular, have a slight discharge of leucorrhoea. I would like your advice, and sincerely hope I may find relief in your medicine."—MISS CLARA PORTEWIG, Richmond, Va. (Oct. 26, 1900.)

Statement No. 2.

"DEAR MRS. PINKHAM:—It gives me great pleasure to thank you for the benefit I received from your Vegetable Compound.

"When I wrote to you I could not go up-stairs or walk a hundred yards without being completely fagged out, but to-day I can easily walk two miles. I was also very nervous and suffered from a misery in my back but these troubles are all a thing of the past. I was at a loss to describe my feelings, but now thanks to your Vegetable Compound I am a well woman.

"I advise all suffering women to write to Mrs. Pinkham, and I shall never fail to recommend your remedies to my friends."—MISS CLARA PORTEWIG, Richmond, Va. (March 26, 1901.)

Miss Thompson's Pains are Cured.

"DEAR MRS. PINKHAM:—I want to tell you what **Lydia E. Pinkham's Vegetable Compound** has done for me. For several years I had suffered with loss of appetite, nausea, vomiting, constipation, palpitation of the heart, headache, pains in nearly all parts of the body. My physician said it was only indigestion, but his medicine did not help me any. I began the use of your Vegetable Compound. I have taken four bottles and now those troubles are cured. I cannot praise it enough."—MISS BELLE S. THOMPSON, Box 14, Acushnet, Mass.

$5000 REWARD.—We have deposited with the National City Bank of Lynn, $5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Underwear And Health . . .

Intelligent people are beginning to realize the importance of wearing the right kind of underclothing. Not only does it effect bodily comfort, but physicians declare it to be an important factor in the treatment of catarrh, rheumatism and nervous disorders.

The Dr. Deimel Underwear

Is pre-eminently the ideal underclothing of to-day, and its wear will do much to keep the body healthy and vigorous. A booklet mailed free on request.

THE ELECTORAL LAW.

That there have been some most shameful occurrences in connection with elections in which Liberals have taken a part, is not to be denied. No one wishes to condone the offence. No Liberal attempts to justify them. But it is the extremity of folly on the part of Tory opposionists to attempt the saddle the responsibility for deeds of a few, who certainly were no friends of the party they pretend to support, or to the party as a whole. One Judas did not incriminate the entire college of apostles. The records show that the action of the "degenerate" Liberals, who set the principles of their party at defiance, has met, as it merited, with nothing but scorn and condemnation. And the Government has taken steps as far as possible, to prevent any repetition of the electoral outrages, which have certainly done no credit to the persons implicated. The Liberal Government, in the course of successive years, and especially during the term Mr. Ross has been premier, has done a great deal to render the election laws of the province more and more stringent, and with such excellent results that, notwithstanding the grumblings of the Whitneyites the conviction of thirty people has been obtained in the courts since the elections of 1898 for violations of the election laws of the province. Their punishment has varied from fines amounting to sums between $200 and and $800, or in default imprisonment for six months. Purity of election has been one of the fundamental principles in the creed of Liberals from the day Mr. Blake made his splendid declarations in the Legislature on taking the provincial premiership to the present. It is unnecessary, and would be superfluous, to enter at any length into the subject generally. It will suffice to point out that the present Attorney-General in the bill of 1900, embodied the following severe amendments to the law as it previously existed:

1. The penalty for undue influence has been increased from six months' imprisonment to one year's imprisonment. Fine, $200.

2. For personation the penalty has been increased from $200 to $400, and the terms of imprisonment from six months to one year. Fine, $400.

3. For voting more than once the terms of imprisonment has been increased from three months to six months. Fine, $200.

4. For falsifying or altering lists of voters or polling books by a returning officer the term of imprisonment has been increased from six to twelve months. Fine, $2,000.

5. For tampering with the ballot boxes by (a) a returning officer, the term of imprisonment was increased from two years to three; and (b) by any other person, from six months to one year.

6. For unlawfully destroying or injuring documents, or aiding or abetting, therein, besides a penalty of $2,000, the term of imprisonment was increased from six months to one year.

The Opposition has also somewhat persistently complained of the Government not prosecuting with sufficient zeal those against whom charges have been made. They have been on one occasion on record "dared to do so." This was especially the case in the North Waterloo case. On the strength of the charges the Government immediately prosecuted under the Criminal Code without waiting for election trials. The charge that lack of zeal either in framing or enforcing electoral laws lies at the door of the provincial government, is not justified.—Ottawa Free Press.

IT HAS NOT.

The Montreal Star, not long since said this;

"If the Province of Quebec had as good a Government as that of Ontario, its people would be too happy to even dream of a change. The trouble with certain section in Ontario arises from the fact that they don't know when they are well off."

Yet Mr. Whitney takes the former and present leaders, respectively, of the Conservative party in Quebec, Bergeron and Monck, to New Ontario, to tell the people how the affairs of this province ought to be conducted. Has the Conservative party of Quebec made so splendid a success of governing that province, as shown by giving it a debt of twenty-five million of dollars, that Mr. Whitney is taking lessons from them? If Mr. Whitney did not take these gentlemen to New Ontario for this purpose, what did he take them there for, anyway?

WHO CAN BEST AFFORD TO PAY?

"Now, to what extent is the Province benefitted by this bill (taxing corporations)? For the three years in which it has been in operation the treasury has received $683,345.87. This is six times as much money as the Government contributes for the high schools of the Province. It is more than half the money required for the the maintenance of hospitals and asylums. If our schools are to be maintained and the grants to agriculture and the administration of justice increased, and new Ontario to be opened up, who should be taxed for this purpose? The agriculturist, or the workingman, or the small trader? Certainly not. These have burdens enough to bear of a local character. It is to the wealthier classes and to the corporations that the Government should look for the means with which to carry on the affairs of the country. Mr. Whitney comes forward as the champion of the capitalist, and with him I have no fault to find. He comes forward as the special friend of corporations, all useful enough in their way. Moreover, he declares that if he is elected he will repeal this tax. Is this a suggestion to the corporations to help him to be elected? Is this an appeal to the classes against the masses of the people who are interested in agriculture, in the improvement of our schools, in the opening up of new Ontario? Is there not a smack of effete Toryism about this declaration of policy? I ask the workingmen of Ontario to take note of it. I ask the generous capitalists of Ontario to take note of it. I entirely misunderstand their views on questions of public policy if they have the slightest hesitation in contributing their quota to the advancement of the province, whether that quota comes in the shape of enterprise or in the shape of a reasonable contribution of their profits for public purposes. This attempt to curry favour where no favour is sought is another proof of that timidity in leadership which has characterized Mr. Whitney throughout his whole career."—Premier Ross at Dundas.

EDITORIAL NOTES.

Every settler in New Ontario means another consumer for the goods manufactured by the industries in Peterborough and other Canadian towns. Vote for the policy of progress.

Mr. Ross has not yet been premier of Ontario for three years. His energy, ability and masterly progressive policy has dumbfounded his opponents and delighted his friends. Ontario needs more of Ross.

One result of the Ross development policy — steel rails are now being manufactured every day at the Soo by Mr. Clergue. This idea would have been scoffed at a few years ago, just as Mr. Whitney scoffs at the idea of great development in New Ontario.

When the French Emperor referred to Canada as a "few arpents of snow" he had about as much appreciation of the value of this country as Mr. Whitney had of New Ontario, when he referred to it as the "land of the stunted poplar." There may have been some excuse for the French Emperor, but none for Mr. Whitney.

"I have no doubt that public opinion will say with regard to it that it is the most phenomenal steal, the greatest attempt at public robbery, the most heinous public crime that was ever attempted by men in authority in the Dominion of Canada, and I don't think that I would be exaggerating to say, on the continent of North America."

So Mr. Whitney characterized the Algoma Central Railway grant in the session of 1900. He is now in New Ontario, says the London Advertiser, and in a position to see with his own eyes what that railway has done, and is doing, to develop the country. He boasts that he is "bold enough to be honest, and honest enough to be bold." But will he be either bold or honest enough to repeat there the language he used two years ago?

POOR DIGESTION

Renders the Life of the Dyspeptic Miserable.

Food Becomes Distasteful and a Feeling of Weariness, Pain and Depression Ensues.

From LeSorelois, Sorel, Que.

Of the diseases afflicting mankind dyspepsia is one of the worst to endure. Its victims find life almost a burden. Food becomes distasteful; they suffer from severe pains in the stomach; sometimes excessive heart palpitation, and a general feeling of weakness and depression. Though this disease is one of the most distressing, it is one which, if the proper remedy is employed, can be readily cured. Thousands throughout this country bear testimony to the efficacy of Dr. Williams' Pink Pills as a never failing cure. Among them is Mrs. Adolphe A. Latrousse, a well known and highly esteemed lady residing at Sorel, Que. She says:—"For two years I was a constant sufferer from bad digestion and its accompanying symptoms. Food became distasteful and I grew very weak. I suffered much from pains in the stomach and head. I could not obtain restful sleep and became unfit for all housework. I tried several medicines without finding the least relief and I continually grew worse until in the end I would vomit everything I ate. I had almost given up hope of ever being well again when one day I read of a case similar to mine cured through the use of Dr. William's Pink Pills. I determined to give these pills a trial and am happy to-day that I did so, as by the time I had taken eight or nine boxes my strength had returned, the pains which had so long racked me disappeared, my stomach would digest food properly and I had fully regained my old time health, and have not since had any return of the trouble."

Dr. Williams' Pink Pills are a purely tonic medicine and unlike all purgatives do not weaken the system, but give life and energy with every dose. They are a certain cure for anaemia, dizziness, heart troubles, rheumatism, sciatica, indigestion, partial paralysis, St. Vitus dance and the functional ailments that make the lives of so many women an almost constant source of misery. Sold by dealers in medicine, or sent post paid at 50 cents a box or six boxes for $2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Niagara's Future.

New York, May 10.—At a dinner last night Lord Kelvin, speaking of electric development at Niagara, said: "How magnificently that work has been realized. Beginning with three dynamos it now has nine, with more and more to come. When mankind needs the 4,000,000 horse-power of Niagara it will be used. I believe that when people see Niagara years from now it will not be merely a beautiful spot. Its 4,000,000 horse-power will be distributed over a wide area—I will not say at present that it will be distributed farther than 300 miles—and they will decide that it is altogether for the good of mankind, and be content."

PROFITABLE HOME WORK.

In thousands of homes in city and country districts will be found faded and partly worn dresses, skirts and men's suits that can be cleaned, dyed with the Diamond Dyes and made over for the boys and girls. In this way, many women dress their families in handsome fashionable clothing at a comparatively small expense — thanks to the Diamond Dyes.

Diamond Dyes are put up especially for home use, and the directions on each package are so plain that even the inexperienced can get beautiful and unfading colours by using these dyes. Diamond Dyes colour anything from ribbons and feathers to the heaviest coats and dresses.

Home made mats and rugs are all the rage just now. These pretty floor ornaments are all made from the Diamond Dye Mat and Rug Patterns? Send for designs and information to the Wells and Richardson Co., Limited, 200 Mountain street, Montreal, P. Q. Mailed free to any address.

No Prohibition in N.B.

St. John, May 10.—The Government has told the prohibitionists that prohibition law will not be introduced now in New Brunswick.

Sailed For England.

Ottawa, May 10.—Ralph Smith, M.P., and A. W. Puttee, M.P., sail to-day for England.

THE ARMY IN SOUTH AFRICA.

Tradinnick, Dulo, Cornwall.

Gentlemen:—

While stationed at Orange River Station, I was suffering from a very bad throat, and unable to take any solid food for about three days. On retiring to rest at night I used to put my socks around my neck in order to obtain relief. It suddenly dawned upon me that I had in my haversack a small pot of Kelpion, and this I took out and saw on the label "Swollen glands." I applied the ointment immediately, rubbing it well in for about 20 minutes. I then retired to rest and was able to get up next morning and do full justice to a good breakfast. The lightning results were beyond my comprehension.

If You Need Help
Let Me Know It.

Tell me of Some Sick One, and let me Send My Book.

NO MONEY IS WANTED.

If you are not well, please tell me the trouble—tell me which book you need.

That is all I ask—just a postal card, with the name of some one who needs help.

I have spent a lifetime in learning how to cure these troubles. Year after year I have perfected the treatment until it is almost sure. I want you to know about it.

You may take the treatment at my risk, if you will. You will not have a penny to pay if it fails.

With the book I will send an order on your nearest druggist for six bottles of Dr. Shoop's Restorative. I will authorize your druggist to let you take it for a month at my risk. If it succeeds, the cost is $5.50. If it fails, I will pay your druggist myself.

I will leave the decision to you.

Don't think that this is impossible, for I do just as I say. I have done it in over half a million cases already.

It is true that I cannot always succeed. Sometimes a cause, like cancer, makes a cure impossible. But these cases are rare, and I am willing to take the risk.

It is true that not all people are honest. But the cost is only $5.50, and experience has proved that very few of the cured will avoid it.

My records for five years show that 39 out of each 40 who accept those six bottles pay, and pay gladly. I am satisfied with that.

Please note what that record means.

They are all difficult cases where six bottles are taken. In simple cases, the patient gets a bottle or two from his druggist. Yet 39 in each 40 of those difficult conditions are cured.

This is a remarkable record, which has never been approached in the history of medicine. There is no other remedy which any physician would dare to offer on such a plan as mine.

There are 39 chances in 40 that I can cure you, no matter how severe your case, no matter what else has failed.

My success comes from knowing how to strengthen the inside nerves.

Every vital organ in the body gets its power from these nerves. When some organ grows weak, and fails in its duty, its nerve power is weak. It is just like an engine that needs more steam.

My Restorative brings back that nerve power. It removes the cause of the trouble. And most of the conditions I treat can never be treated in any other way. Some of you know this already.

If you are sick, or a friend is sick, please don't fail to write me.

You have everything to gain and nothing to lose by it. Your future is at stake. If I take the risk won't you take the remedy? Won't you at least write for my book?

Simply state which book you want, and address to Dr. Shoop, Box 47, Racine, Wis.

Book No. 1. on Dyspepsia
Book No. 2. on the Heart
Book No. 3. on the Kidneys
Book No. 4. for Women
Book No. 5. for Men (Sealed)
Book No. 6. on Rheumatism

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

SUPERBA CABLE WOVEN WIRE BEDS

A. COMSTOCK, Peterborough.

TEN MONTHS' REVENUE.

An Increase of Over Twelve and a Half Millions.

Ottawa, May 10.—The financial statement for the ten months ending April 30th affords cause for much jubilation. The ordinary receipts exceeded the ordinary expenditure by the handsome sum of $12,688,703, and yielded a surplus of $8,383,115 over the ordinary and capital expenditure combined. Furthermore, there was a reduction in the public debt of $2,047,658. This is a splendid showing, and indicates that the country's feet are firmly set on the highway of prosperity.

THE BLOOM OF HEALTH.

How to Keep Little Ones Bright Active and Healthy.

Every mother knows that little children need careful attention—but they do not need strong drugs. When baby is peevish, cross or unwell, it is an unfortunate fact that too many mothers dose them with so-called "soothing" medicines which stupefy and put the little one into an unnatural sleep, but do not remove the cause of the trouble. What is wanted to make the little ones bright, cheerful and well, is Baby's Own Tablets, which will promptly cure colic, sour stomach, indigestion, constipation, diarrhoea, simple fevers and teething troubles. They give children sound, refreshing sleep, because they remove the cause of the trouble. These tablets are guaranteed to contain no opiate or other harmful drugs. Mrs. James Found, Valentia, Ont., says; "Before I got Baby's Own Tablets my baby was very pale and delicate, and so peevish that I had to walk the floor with him day and night. The first Tablet I gave him helped him, and that night he slept soundly. Since then the Tablets have made him perfectly well, and he is now a fine healthy looking baby and is getting quite fat. I would not be without the Tablets if they cost a dollar a box."

Baby's Own Tablets are good for children of all ages and are taken as readily as candy. Crushed to a powder they can be given with absolute safety to the youngest, weakest baby. Sold by all druggists, or sent postpaid at 25 cents a box, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Some people are welcome to come over by the back way because you have seen their kitchen and know that it looks as bad as yours.

He who refuses to play second fiddle has no chance to become leader of an orchestra.—New York Herald.

THE CAMPAIGN.

Premier Ross Among the Highlanders—Mr. Evanturel, the Ex-Speaker Makes Eloquent Defence of Government.

Toronto, May 10.—The end of the week finds the lists of candidates practically completed, and the reports from all parts of the province indicate the greatest confidence on the part of Government supporters. During the week the Premier's presence both in the west and in the east has added to the feeling of his supporters that they are fighting for a good cause under a popular and respected leader. Mr. Ross completed his week's speeches at Alexandria yesterday afternoon, speaking in the interests of Mr. D. M. McPherson, Liberal candidate in Glengarry. Mr. Evanturel, ex-Speaker, at this meeting also delivered a vigorous defence of the policy of the Government. Hon. Mr. Davis spoke at Beaverton, in support of Mr. W. J. Kester in North Ontario. Grenville Liberals nominated Mr. W. J. Bissell and Russell Conservatives chose Dr. Rochon. Mr. G. F. Marter held a meeting in North Toronto. An incident of the day was the fact that Mayor Hendrie found it necessary to deny a rumor that he would retire from the cont in West Hamilton.

The Premier at Alexandria.

Alexandria, May 10.—Concluding his present tour of eastern Ontario Premier Ross addressed a large meeting of the electors of Glengarry in the Town Hall here yesterday afternoon. This is the centre of an old-time Scotch settlement, and there were scores of stalwarts of that race in the audience. There were also many French-speaking people, and out of deference to them Hon. A. F. E. Evanturel was present and spoke first in English and then in French, with his customary eloquence and vigor. The Premier dealt in a general way with the points of his forward policy, and as he pointed to the advantages resulting to Ontario from the development policy his remarks were enthusiastically cheered. This is a subject upon which the Premier's audiences never fail to wax enthusiastic, as in most attractive language he pictures the transformation of the wilderness into growing villages and towns, and indulges in prophecy regarding the future of a country so rich in land, timber and minerals. Free from all bitterness or personal abuse, and teeming with information, lightened by humor and brilliant expressions, the Premier's campaign speeches never fail to rouse the admiration and cheers of his audience, who leave his presence convinced that they have heard the prince of Canadian platform orators.

Worse Than Being Sandbagged.

A person who feels a clutch on his throat and chest is in a bad condition. A few doses of "Four T's," the great guaranteed cough cure, relieves this "grip" and loosens the cough. In two days the patient is well. Get a bottle to-day at Ormond and Walsh's drug store and avoid congestion.

Not Entirely.

A little investigation shows that the strong taste of pure cod liver oil cannot be entirely removed without entirely removing the oil. You can taste the oil in Scott's Emulsion, but it is not unpleasant.

A MEMBER FOR YUKON

Mr. Sifton's Bill Providing for Electing a Representative.

THE MANITOBA GRAIN ACT.

In Supply, Mr. Fielding Announced That He Was Hopeful of a Reduction of the Royalties in the Yukon—Mr. Tarte Gave Detailed Statement of Estimates For Yukon Public Buildings.

Ottawa, May 10.—Mr. Sifton's bill respecting the representation of the Yukon in the House of Commons was considered in Committee of the Whole yesterday morning. Mr. Sifton suggested that in a new territory such as the Yukon, where there was such a large floating and alien population, it was desirable the lists should be final. Otherwise, on election day the election might be influenced by large numbers of persons claiming the right to vote and taking the prescribed oath. Therefore, as the lists have to be made and revised after the issue of the proclamation, especially for the elections, objections being heard until two days before the polling day, only those whose names appear on the list shall be entitled to vote. The suggestion was approved and the bill amended accordingly.

At the suggestion of Mr. E. A. Lancaster a clause was inserted requiring notice of the election to be published by poster throughout the Yukon, as well as by publication in the newspapers. Mr. Lancaster moved that there shall not be more than 250 nor less than 25 voters for each polling place. Also that the voters' lists be prepared by enumerators appointed by the Chief Justice of the Yukon instead of by Governor-in-Council.

Hon. Mr. Sifton readily accepted the latter suggestion, as the Government had, he said, no desire to retain the power of appointing enumerators in their own hands. The clause based upon the old Northwest Territories Act, passed by the Conservative Government, under which there was absolutely no appeal from the decision of the enumerator, if he declined to place the name upon the list, the person could not vote, and the enumerator was not even required to take an affidavit. Under the bill as drafted the enumerator was required to take an oath for the proper performance of his duty.

The election will take place the same day as the general elections are held.

Hon. Charles Fitzpatrick laid on the table a copy of the judgment of the Exchequer Court on the claim of Mackenzie and Mann in connection with the Yukon Railway contract.

The afternoon sitting of the House was devoted to the Manitoba Grain Act. Among the important amendments were these:

The elevators are obliged to accept the first six standards of the schedule, it having been alleged that last year they refused to take any wheat as "No. 1 hard."

All restrictions as to flat warehouses by farmers are abolished. They may be erected at any shipping point.

The railway companies are obliged to furnish loading platforms within 80 days after application under penalty of $25 a day for each day's delinquency. Cars must be supplied to farmers at any point whether there is a loading platform or not.

Shippers or farmers may book orders for cars not more than 48 hours in advance and the cars are to be supplied in the order of application according to local requirements.

Penalties of $50 to $100 or one month to one year's imprisonment are provided for infractions of the act.

Yukon Affairs.

In supply Hon. W. S. Fielding stated that he was very hopeful after the reduction of the royalties in the Yukon the revenue from that territory would still be sufficient to meet the expenditure. He was encouraged in this hope by the fact that the Government had up to the present received a larger sum from the Yukon than had been expended upon it, which he regarded as a fair reason for reducing the royalty, at the same time adhering to the policy of making the Yukon pay for its development.

Mr. Tarte gave a detailed statement of the estimates for Yukon public buildings, and after answering a number of questions in reference to the expenditures, he added: "I will not ask any money for this purpose next year. There is a Government out there now, and I have handed everything over to them. Thank God, have wiped my hands of the care of Yukon public buildings." (Laughter.) Mr. Tarte reduced the item by $2,000, which was originally inserted to cover expenses in connection with the residences of the judges, a new arrangement having been made with reference to their living allowance.

Mr. R. L. Borden criticized expenditures on the residences of the Commissioner and the judges of the Yukon, and Mr. Seymour Gourley objected to paying these officials a salary, living allowance, and providing them with residence as well. He thought the Minister of Public Works should resign as a protest against this system, and urged that the salaries in the Yukon should be scaled down to the equivalent of the judges in older Canada.

Mr. Tarte replied that the judges were not under him, and he did not know anything about them; neither was there a dollar in the item under discussion to their residence, their salary or their living allowance. The item passed.

The House last night went into Committee of Supply on the $5,639,300 supplementary estimates for the next fiscal year.

On the item of $100,000 for Quebec harbor, Mr. Tarte said the vote was part of a million dollars which will complete the scheme planned with a view to making Quebec the herbor for the fast Atlantic line, which he expected would soon be established. He did not think Quebec would be a great wheat shipping port. In summer wheat would go from Montreal; in winter from St. John, from which port 2,000,000 bushels of wheat had been shipped last year.

The votes for public buildings in Ontario, Quebec and the Maritime Provinces were passed when the committee of the House rose.

Mr. Fielding suggested that, as about 20 private bills remain to be disposed of, they be taken up during Saturday's sitting. This was agreed to and the House adjourned at 12.35 a.m.

Miller's Granules are small; children will take them readily. Sold by all druggists.

Guilty of Manslaughter.

Winnipeg, May 10.—The trial of George Scouten for the murder of Arthur Simpson in the Atlantic Hotel at Calgary on Sunday, March 18, concluded yesterday, when the jury returned a verdict of guilty of manslaughter. Simpson was shot while engaged in a fight with the accused. Scouten evaded pursuit for some time, and was eventually caught in Calgary, disguised. Scouten, the accused, appears to feel his situation very acutely. He is an American cowboy, and was for some time a special constable on the force for city police.

TAPS FROM THE WIRES.

The President of the United States of America Friday signed the oleomargarine bill.

A fire in the Fisher & Sons' paper mill, Dundas, did considerable damage Friday night.

A heavy snow storm raged at Saranac Lake, N. Y., Friday, the temperature registering 30 degrees.

Mrs. H. H. Rae, while milking a cow at Almonte, was trampled on and received such injuries that she died.

About 100 members of the Architectural and Structural Iron Workers' Union in Toronto struck for an advance of wages from 22½c. and 25c. per hour to 27½c. per hour and a 9-hour day.

Never tell a man that he has made a fool of himself. If he knows it, he will get angry—and he will get angry also if he doesn't know it.

Be natural. A poor diamond is better than a good imitation.—Boston Herald.

A TRENTON TRIUMPH FOR DR. PITCHER.

Mrs. W. H. Alexander of that town suffered from a serious attack of catarrh of the bladder, had swelling of the hands and feet, pain in the back, dizzy spells, and general weakness.

Patent medicines and local doctors' treatment didn't do much good. Dr. Pitcher's Backache Kidney Tablets worked wonders, making a complete cure.

Mr. Jas. Shurie, the Trenton druggist who sold Mrs. Alexander the Tablets, confirms what she says of her case.

MRS. W. H. ALEXANDER.

The many friends of Mrs. W. H. Alexander, of Trenton, Ont., are much pleased to see her around and well again, after suffering greatly for two or three years from a complication of kidney and bladder troubles, which ordinary patent medicines and treatments failed to benefit.

Mrs. Alexander, when spoken to about the means of her recovery, unhesitatingly gave all the praise to Dr. Pitcher's Backache Kidney Tablets, the new, scientific treatment for kidney troubles, which is making so many remarkable cures in all parts of the country.

MRS. ALEXANDER'S STATEMENT.

"Dr. Pitcher's Backache Kidney Tablets I consider a great boon to sufferers from kidney trouble. For two or three years I was greatly troubled with pain in my back. At times it became so severe that I was hardly able to get around and do my work, in fact, some months I could not do it at all. I used several preparations which were highly recommended by friends, but found very little relief from them, and afterwards became worse than before until I seemed to be afflicted with all kinds of ailments—a distressing pain in the stomach, sick headache, and occasionally swelling of the hands and feet. The headache became so persistent and severe, I concluded I had neuralgia. Then came the bladder trouble and complications. I called in my doctor, and he diagnosed the case as catarrh of the bladder. He treated me and helped me some at first, but the benefit was not lasting. I would at times have dizzy spells, dark specks floated before my eyes, tired feeling, and a dragging steady pain in the loins. I again started using patent medicines, and this time made up my mind to give them a thorough trial. I took ten boxes of one well-known kidney pill, but they did not touch my case. One day a little boy threw a book in my door advertising Dr. Pitcher's Backache Kidney Tablets. In a joke, I asked him if he had any samples. The gentleman accompanying him, who proved to be a representative of Dr. Pitcher, heard the question, and told me if I would send to the hotel, he would be pleased to give me a sample. I had lost all faith in medicine, but seeing that the gentleman was in earnest and so confident that the Tablets would help me, I got him to send me a bottle.

I read the book carefully and took that bottle of Tablets according to directions. It seemed strange, realising the condition I was in, but before that bottle was finished, I was a changed woman. I went to Mr. Shurie's drug store and purchased another bottle, and after taking this second one, I happened to call on a friend, who expressed surprise at the change in my appearance. Formerly, I had a pained, weary expression, but now, as I felt well, I could not help showing it. Although not completely cured, I felt that Dr. Pitcher's Tablets were working wonders for me. I continued their use for some time, taking in all ten bottles, but I did not begrudge the cost in the slightest, for had they only succeeded in giving me temporary relief I would have been grateful, but they have done more—they have completely and permanently cured me.

"My son, a young man about 16 years of age, who works in the paint shop, and is subject to severe headaches at times on account of the absorption into the system of the lead and turpentine, says that these Tablets just suit him and he always keeps them in the house now.

"I have recommended the Tablets to several of my friends, among whom was Mrs. George Huyck, of Dundas street, who tells me they are the best remedy she has ever taken.

"I cannot too highly recommend Dr. Pitcher's Backache Kidney Tablets to all those who may be suffering as I was, and you are at liberty to use my name and testimonial in anyway you choose.

(Signed) "MRS. W. H. ALEXANDER."

WHAT MR. SHURIE, Druggist, Says:

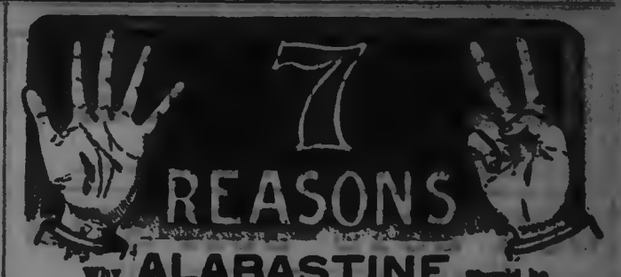
When Mr. Jas. Shurie, the well-known Trenton druggist, was spoken to about Mrs. Alexander's case, he readily confirmed what she said, and gladly gave the following statement for publication:

"I know Mrs. Wm. Alexander of Francis street, and can endorse what she says of her cure by Dr. Pitcher's Backache Kidney Tablets. She purchased the Tablets from me, and I have heard her frequently speak of the great benefit she derived from their use.

(Signed) "JAS. SHURIE."

The many well authenticated cases we are publishing of cures of severe kidney trouble put doubt out of question as to the efficacy of Dr. Pitcher's Backache Kidney Tablets for Backache, Lame or Weak Back, Swelling of the Hands or Feet, specks or mist before the eyes, dizziness, brick dust deposits in the urine, scalding or irritation, frequent calls during the day or night, catarrh of the bladder, uric acid in the blood, rheumatism, unnatural drowsiness, bad taste in the mouth, dragging pains in the loins, weakness of the kidneys in children and old people, and all forms of kidney, bladder, and urinary diseases. Women who suffer from the effects of kidney derangement can find no other remedy that will do them so much good as these Tablets. They are chocolate coated, small in size, easy to take, and never fail to give prompt relief.

Fifty Tablets in a bottle. Price 50 cents, or three bottles for $1.25, at all druggists, or sent by mail. The Dr. Zina Pitcher Co., Toronto, Ont.



Why **ALABASTINE** should be Used for Tinting and Decorating Walls and Ceilings.

1. IT IS SANITARY. Physicians say "The walls of a room are to healthy ones breathe." Alabastine being a porous cement, permits the free passage of air.
2. IT IS PERMANENT, and hardens with age, entirely different from kalsomine preparations.
3. EASILY APPLIED. Anyone can brush it on—no one can rub it off.
4. CONVENIENT, as it is ready for use by the addition of cold water.
5. IT IS ECONOMICAL, costing for material less than one cent per square yard for plain tinting.
6. LARGE SAVING, as it admits of re-coating from time to time as is necessary to renew, doing away with the filthy mess of washing off kalsomines and scraping off wall paper.
7. HANDY TO GET, as it is for sale by hardware and paint dealers everywhere. Never sold in bulk.

Painters, write for our free offer "Two Good Talks" and book of instructions how to use ALABASTINE. Address

THE ALABASTINE CO. Limited - Paris, Ont.

Daily Examiner.

SATURDAY, MAY 10, 1902.

Murray Street To-morrow.

Rev. Mr. Bastow will preach a special sermon to young men to-morrow evening and very urgently invites all young people who have not an established religious home to be present.

All Saints' Church.

The sermons to-morrow will be on "Paul and Titus" in the morning, and in the evening on "The death of Moses or This Life's Incompleteness." Rev. W. L. Armitage will preach at both services.

Recital.

A Recital will be given by Juniors and Intermediate pupils of Mdlle. Decrey's classes on Friday evening, May 16th, at St. Paul's School Room. A silver collection will be taken up at the door for the New Mission School.

The Illness of President Henry.

Mr. William Henry, the president of Peterborough Federal Union, No. 9240, who has been suffering from a severe attack of inflammation of the lungs for the past three weeks, is now able to leave his room for a short time each day. He is still very weak and his physician thinks he will not be able to work for another month.

TICKETS FOR MONDAY'S CONCERT
At Macdonald's, Ormond & Walsh's, Madill's and Edminson's Drug Stores.
SECURE THEM EARLY.

St. Luke's Church.

The Rector will preach to-morrow morning on "The Divine Farewells," and in the evening on "The Judgment Seat of Christ. The offertory will be for Diocesan Missions. The Men's Guild will meet on Monday evening at 8 o'clock. Preparations will be made for the 26th anniversary of St. Luke's church to be held in July. A large attendance is requested.

Looking After Business.

Mr. S. J. Murphy, the genial Passenger Agent for the Niagara River Line of the Niagara Navigation Company, arrived in town last night. He has been interviewing the members of Court Littlejohn, C.O.F., regarding their popular annual excursion to Toronto, Niagara Falls and Buffalo. Mr. Murphy assures the Foresters that the four favourite swift steel steamers of his line—Chicora, Chippewa, Corona and Ongiara — would be again placed at the service of Court Littlejohn whenever it was decided to hold their excursion.

New Union Mission.

A Christian Temperance Union Mission will be opened to-morrow for the first time in the Union Labour Hall, Water street. This Mission is free for all, especially those not identified with any church. In the forenoon, Sunday School will be held from 10 to 11 o'clock and Bible Study from 11 to 12 o'clock. In the afternoon at 3 o'clock a temperance address will be delivered by Mr. Holland. In the evening, Mission Service at 7 o'clock, conducted by Mr. W. A. Redfern, superintendent of the Mission.

Self Denial Effort.

The Salvation Army celebrate their annual self-denial effort during the present month. Last year over twenty-thousand dollars was raised by the effort and expended on the rescue work of the country, and for the assistance of the poor in India during the period of their famine. The amount to be raised this year is twenty-eight thousand dollars, and considering the good the Army is doing the people should subscribe willingly to this great work. The S. A. is a good thing—help it along.

THE STREET RAILWAY DEAL.

Branches May be Run to Lindsay and Cobourg.

Engineer Campbell is in Town Examining the Roadbed.

The National Construction Company people are not allowing any grass to grow under their feet, as Mr. John Campbell, one of Detroit's noted engineers, is already in town making a thorough examination of the system with the object of enabling work to begin at once.

In reply to a query to the effect as to when operations would begin on the re-construction of the line, Mr. Campbell stated that his report would be completed in a couple of days, adding in conclusion, "And you know we Americans are in the habit of making some pretty fast moves." This would seem to signify that by week after next at the latest a big force of men will be employed on the work.

The magnitude of the proposition which is now under contemplation shows that the purchase of the local system is but as a drop in the bucket compared with the larger schemes which the new company is considering. It is understood that an effort is being made to purchase the roadbed of the old Cobourg road and open out a line to the front and that Lindsay will also be tapped in the near future as well as Chemong, Lakefield and Young's Point.

DROWNED AT HASTINGS.

One of the Crew of the Government Dredge—He Lived a few Miles From the Village.

Richard King, an employee of the Government dredge which is now being used at Hastings, was drowned on Thursday night while attempting to board the craft which was moored to the bank, just below the locks.

The unfortunate man had been up in village until about half past ten o'clock, when he returned to the dredge with one of his mates. His companion walked the plank connecting the dredge with the shore, but in the darkness King lost his footing and fell into the river. His mate heard the splash, and at once gave the alarm. The fire bell called the villagers out and grappling irons were immediately put into requisition. It was only about twenty minutes before the body was recovered, but all efforts at resuscitation proved ineffective, life being quite extinct.

The deceased leaves a wife and family and owned a small farm about four or five miles out of the village.

BROKE HER ARM.

A Daughter of Mr. T. J. Parker of Ashburnham.

The many friends of Mr. T. J. Parker of Ashburnham, will regret to hear of a serious accident which befell his second oldest daughter, Laura, while out playing. She had the misfortune to have a severe fall, breaking her right arm at the elbow. She is being attended to by Dr. Brown and is improving nicely.

Bethany Mission.

Rev. T. A. Shaw, of New Wilmington, Pa., will assume duties as pastor of Bethany Mission on Sabbath next. Services at 11 a.m. and 7 p.m. All are invited.

ANNUAL CHOIR CONCERT

In George Street Methodist Church Last Night.

Several Leading Peterborough Soloists Were Heard—Some Excellent Choruses.

The high standing that the choir of the George street Methodist church has attained in the past was even surpassed last evening, and Mr. G. W. Mulligan, the efficient leader, has every reason to feel proud of the success they have achieved under his guidance. The training of so many voices is a work the extent of which is only comprehended by those who are affiliated therewith, and the manner in which the numbers by the choir were rendered last evening reflects great credit not only on Mr. Mulligan but upon all those who are connected with that body. And the solos, readings, etc., which filled out the programme, contributed in no lesser degree in making the concert one of the best of the season, and one which was highly enjoyed by the three hundred or more who took advantage of the opportunity to hear such a fine concert.

The two choruses by the choir were entitled "The Miller's Wooing" and "Dreams," and were exceptionally well rendered. Every voice was deep and full, and the audience listened with rapt attention as the delightful harmony floated over them. The second number was even better than the first, and well merited the applause it received.

Miss F. C. Hall and Mr. G. W. Mulligan sang very beautifully the duet, "O That We Two Were Maying." Mr. Mulligan's voice blended harmoniously with the rich, even soprano of Miss Hall's, and elicited much applause.

Mr. Geo. Dick's fine voice was heard to advantage in his baritone solos, "The Admiral's Broom" and "The Longshoreman," and did so well that nothing less than an encore satisfied his hearers.

The piano solo by Mrs. Mowat was such as can only be given by an accomplished musician, and at the close of her instrumental was presented with a pretty bouquet of roses by little Miss Daly, which she gratefully acknowledged.

Miss Fannie Hopliban, who was to have sung "Who's at My Window," was unavoidedly absent, and Miss Davies very kindly favoured the audience with a solo in her place.

Mr. James Dawson followed with a well rendered solo, and drew much praise for the manner in which he executed the number.

Mr. Mulligan and Mr. J. Miller in their duet, "Flow Gently Deva," favoured the audience with an excellent number, which was acknowledged by insisting on an encore.

Miss Florence C. Hall's solo, "The Spirit of Spring," was up to her usual style, and was characteristic of harmony and clearness of pronounciation.

Little Roggie Deacon, who had expressed his willingness to sing, was unable to be present.

Mrs. Mowat, who was the accompanist of the evening, acquitted herself in a most praiseworthy manner, and the choir is to be congratulated on having for an organist a musician such as it possesses in the person of Mrs. Mowat.

The successful and enjoyable evening was brought to a close by singing "God Save the King."

PERSONALS.

Miss Wilmot, has returned from a trip to Toronto.

Mr. Dick will sing at George street Methodist church to-morrow.

Miss Lizzie Stein is spending a few days with her sister, Mrs. B. M. Frederick, of Peterborough. — Campbellford Despatch.

Mr. Gerald Rackham, of the Bank of Toronto, London, is visiting his father, Mr. W. H. Rackham, Fleming Terrace.

Mr. H. W. Kent, of British Columbia, accompanied by Mrs. Kent and her sister, Mrs. Stanley, of Prince Edward Island, are in town for a visit. The party has been touring in the Maritime Provinces and are on their way home. Mr. Kent is the same old "Herb" and his many friends will be glad to know that he is doing well in the west. He thinks our sedate election contests here are funeral processions compared to the political whirlwinds they have in the wild and wooly west.

NEWS NUGGETS.

—Squire Breckenridge's annual "suckerfeat" was held at Thursday last at Westwood. There was a large attendance of people from far and near.

—A cold snap came to hand last night as promised, and unprotected flowers and garden stuff suffered. There was eight degrees of frost, the thermometer registering 24 deg.

—The Trusts and Guarantee Company, Limited, 14 King street west, Toronto, accepts all classes of trusts funds, whether under will, marriage settlement or agreement. As the company has perpetual existence, its clients have the assurance that the terms of the trust will be carried out, no matter what period they cover without changing the trustee, which so often occurs when a private individual has been appointed in that capacity.

—The busy little Patent Medicine Store in the Grand Central Block, George street, is becoming well-known in town and country. Patrons are encouraging us and thanking us for being able to supply them with the leading preparations so much cheaper than they have been accustomed to pay. People who used to send to Eaton's find that they can buy just as cheaply at our store now.

BIRTH.

TALBOT.—At No. 501 George street, Peterborough, on Thursday, May 8th, the wife of Mr. A. L. Talbot, of a daughter.

MR. J. W. CROSSLEY DEAD.

A Brother of Rev. D. O. Crossley and Rev. H. T. Crossley.

J. W. Crossley, Esq., Reeve of King Township, and brother of Rev. D. O. Crossley, of the Charlotte street church, and Rev. H. T. Crossley, evangelist, died this morning at his home in King. The funeral will take place on Monday.

In the absence of Rev. D. O. Crossley, who left to-day to attend his brother's funeral, the Charlotte street church pulpit will be filled to-morrow by Rev. J. P. Wilson in the morning and by Rev. Mr. Yule in the evening.

IN MISS BARLEE'S HONOUR.

A Farewell Tea Given at the Golf Links Yesterday Afternoon.

Miss Barlee is leaving in the course of a few days for a trip to England and yesterday she was given a farewell tea at the links by the members of the Ladies' Golf Club. Quite a number of games were played during the afternoon and at about half past five o'clock twenty-five of the ladies assembled at the festive board, the chair being occupied by Mrs. Campbell. The table was very prettily decorated with flowers, the Club colours, red and green, being, of course, most conspicuous. During the evening a short toast list was run off, preceding which Miss Halliday recited in a most effective manner a poem, the chorus of which proved very popular. Mrs. Campbell proposed the toast of "The King" and the National Anthem was sung. Mrs. W. A. Sanderson then sang "Come Back to Erin" in her accustomed pleasing manner. Mrs. Campbell in proposing the health of "Our Guest" voiced the sentiments of the members in expressing the appreciation which all felt concerning Miss Barlee's painstaking work in connection with the duties of the Secretary last year. Miss Barlee fittingly responded after which Mrs. Boucher and Miss Annie Dennistoun added a few words to Mrs. Campbell's remarks, wishing Miss Barlee, bon voyage. The toast of "The Gentlemen" was honoured by the ladies rising and singing "For They are Jolly Good Fellows." Mrs. R. M. Dennistoun responded on behalf of the gentlemen of the Club. Miss Gertrude Edwards brought the pleasing function to a close by singing "How Can I Bear to Leave Thee."

MONDAY'S CONCERT.

A Programme Which Promises Much When Rendered by Such a Choir.

The programme to be given by the Jarvis street Baptist choir in St. Paul's church, on Monday night, is, without doubt, the finest compilation of musical gems of a sacred nature, ever put on a Peterborough programme. That this programme will be rendered in an artistic manner, is beyond question; the visiting choir enjoys a reputation almost continental, and under the able leadership of Mr. Vogt, a musical triumph is assured. Probably no concert given in Peterborough has ever had such a large advance sale of tickets, and St. Paul's will doubtless be taxed to its utmost on Monday night.

PROGRAMME.
Part I.
Doxology.
Prayer.
(After which the choir will chant the Lord's Prayer—the audience remaining in the attitude of prayer.)

1. Organ solo, "Schiller Festival March" Meyerbeer-Best
Mr. Arthur Oliver.
2. Anthem, "God hath appointed a Day" Tours
Choir of the Jarvis street Baptist Church Toronto.
(Quartette by Miss Dora L. McMurtry, Miss Gertrude Shuttleworth, Mr. V. Hutchison and Mr. A. L. E. Davies.)
3. Bass solo, "There is a Green Hill Far Away"..... ....Gounod
Mr. A. L. E. Davies.
4. Soprano Obligato and Chorus, "Inflammatus," from the "Stabat Mater"..... ....Rossini
Miss McMurtry and the choir.
5. Motette, unaccompanied, "Come unto Him"..... ....Gounod
(For a chorus in six parts.)
6. Trio, "Praise Ye the Lord" .....Geibel
Miss McMutry, Mr. Hutchison and Mr. G. B. McClellan.

Part II.

7. Motette, unaccompanied, "Say, Watchman, What of the Night?" Sullivan
(For an eight-part choir.)
8. Organ solo, Fantasia, "O, Sanctissima"..... ....Lux
Mr. Arthur Oliver.
9. Baritone solo and choral sanctus, "Behold, I create a new Heaven and a New Earth"..... ....Gaul
Mr. Davies and the choir.
10. Motette, unaccompanied, "Yea, tho' I walk Through the Valley of the Shadow of Death"..... ....Sullivan
11. Chorus for women's voices, with solo obligatos for soprano and bass, "List the Cherubic Host"... ...Gaul
(Solos by Miss McMurtry and Mr. Davies.)
12. Soprano solo and chorus, from "Gallia"..... ....Gounod
Miss McMurtry and the choir.
God Save the King.

The audience will please refrain from applause.

Woodmen of the World.

An interesting point is brought out by the Canadian Woodman. Statistics prove, it seems, that the oldest member of a family always has a better chance of a long life than the youngest. The average age of oldest brothers is put down as 58.56 years and the youngest at 54.575, of oldest sisters, 59.924 and youngest 55.667 years. No explanation is offered by the Woodman. Is it that greater care is taken as a rule with the upbringing of the first-born? An interesting study could be made of the problem. The Woodman is this month issued in greatly improved form. Typographically and otherwise it is a credit to those in charge of its publication. A number of excellent protraits are presented of prominent members of the Order.

CHOIR BOYS ENTERTAINED

By the Members of the Choir Committee of St. John's Church.

The choir boys of St. John's church were entertained last night in the Guild Room by the members of the choir committee. The affair partook of the nature of a ping pong tournament, and during the evening the boys were delighted by the music of Mr. Dan McCabe's phonograph, which was manipulated by Mr. Jack McCabe.

Master Reg. Deacon favoured the gathering with a comic solo, after which the boys entered the banquet hall and partook of an excellent spread. The affair closed by giving three rousing cheers for Messrs. Dan and Jack McCabe, Mr. Glidden and the choir. Altogether the choir boys were given a most enjoyable evening by the committee.

Framed Pictures.

For very little money you can cover your walls most artistically, if your pictures are selected at the Peterborough Bookstore. We have put some very special prices on framed pictures this month, the subjects of which are most pleasing. Room mouldings are another important feature in room decorations. The plate-rail does wonders when care is taken to match the paper. Pretty effects and pleasing patterns at the Peterborough Bookstore.

Anniversary Services.

Rev. Dr. Parsons, of Toronto, will preach anniversary services in St. Paul's church to-morrow, both morning and evening. A special collection will be taken up for the Church Debt Fund.

The Temperance Question.

Mr. W. W. Buchanan, of Toronto, the father of the Manitoba Prohibition Bill, will speak in the Opera House on Tuesday evening next, May 13th, upon the temperance question as seen in the present election campaign. Other speakers will also address the meeting. A male quartette will render several selections. The meeting opens at 8 o'clock. 3d

A Marvellous Medicine.

Having a direct and combined action on both the liver and kidneys, Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine, and hence its extraordinary success and popularity. Biliousness, liver complaint, Bright's disease, deranged kidneys and stomach troubles are promptly and thoroughly overcome by this great family medicine. One pill a dose, 25 cents a box.

They say that "PING PONG" will be played all summer. Salisbury Co. have a big stock on hand. Prices start as low as $1.00.

IN LATEST SPORTING CIRCLES

The Y. M. C. A. Baseball Team Defeated the Victorias.

Football Clubs That Have Organised Throughout the District—Other Notes.

BASEBALL.

An exciting game in the triple league took place on Nicholls Oval this morning when the Y.M.C.A. team scored a victory over the Victorias by a score of 11 to 7 and an innings. The match was witnessed by a large crowd who cheered the good plays of both teams throughout. The work of Daly in the box for the Y.M.C.A. team was the feature of the game.

The standing of the triple league is as follows:

	won	lost	play
Y.M.C.A.	2	0	4
Rosedales	1	1	4
Victorias	0	2	4

The next game in the league will be played on Saturday next between the Rosedales and the Victorias.

On Friday afternoon the Stars of the Murray street Separate School defeated the South Central School team by the score of 46 to 3 in five innings. Mr. M. A. Sorsoleil umpired the game. The score was as follows:

Stars	10	3	11	13	9—46
South Central	0	2	0	0	1— 3

The West End Baseball Club organized on Thursday evening, the officers being as follows:
Hon. Pres.—Mr. Jas. Lynch.
Pres.—M. N. Rourley.
Capt.—L. Dobson.
Sec.—Mr. Whaley.
Committee — Messrs. O. Stortz, J. Callaghan, G. McFadden, J. Johnston, G. Buchanan.
Mascot—Tom. Johnston.
They will be pleased to arrange a match with any other junior team in town.

T. A. S. ATHLETICS.

A meeting of the athletic section of the T.A.S. was held last evening in the T.A.S. rooms, at which Mr. Jos. Begley gave a talk on lacrosse to the boys for about twenty minutes. After the transaction of general business, the organization of the club was completed with the addition of the following officers:
Honourary Patron—His Lordship Bishop O'Connor.
Patrons and Patronesses— Mr. and Mrs. A. J. Gough, Mrs. (Dr.) O'Sullivan, Mr. and Mrs. T. B. McGrath and Dr. McNulty.
Honourary President — Rev. Dr. O'Brien.
Before the meeting closed Rev. Dr. O'Brien addressed the boys congratulating them upon the enthusiasm displayed in their practices as well as the interest manifested in the athletic section. He thanked them for the honour they conferred upon him in appointing him their Honourary President, and assured them of his support and encouragement in promoting legitimate and manly sport.

FOOTBALL.

The Norwood football team has organized for the season with the following officers.
Hon. Pres.—J. C. Moffatt, M.D.
Pres.—J. A. Finlay.
Capt.—T. E. Finlay.
Sec.-Treas.—John F. Anderson.
Executive Committee — The officers and Messrs. B. Hendren, J. Rathwell, D. A. Fraser, and W. O'Keefe.
Field Committee — Messrs. John F. Anderson, Alex. Kempt, Chas. McNicholl, P. E. Graham, and T. E. Finlay.
The membership fee has been placed at 25 cents.

Trip to Stony Lake.

The Steamer Alert will run a trip to Stony Lake on Tuesday the 13th, returning on Wednesday the 14th for the 4.15 p.m. train. The Steamer will leave Lakefield on arrival of morning train. Capt. W. H. White. 2d10t

CAMPAIGN COMMENTS.

Remember Ross.

Mr. Whitney sneered at New Ontario as "the land of the stunted poplar." He has been up at the "Soo," and now when he sees the wonderful results of the Government's policy of developing the boundless resources of "the land of the stunted poplar," we hope he is properly ashamed of himself.

A mass meeting in the interests of Mr. Miller, the Conservative candidate, will be held in the Opera House next Tuesday night. It will be addressed by Mr. W. W. Buchanan.

The local organ of Mr. Miller says that Mr. Stratton's defence of the pulp concessions was 'weak." Mr. Stratton made no defence of the pulp concessions. The splendid results that have followed, and will follow them in the interests of the public, is a sufficient defence. Mr. Stratton explained them; and an understanding of them is all that is needed to commend them to the public, as they were commended to the former leader of the Conservative party, as excellent business propositions.

Use your ballots as bricks to build up Ontario.

The great industries of the "Soo" would not be in the condition they are now, if it had not been for the land grant to the Algoma Central Railway, which Mr. Whitney called a "steal." When Mr. Clergue applied for a land grant, the works at the "Soo" were practically at a standstill for want of raw material which could only be profitably assembled by means of a railway into the unbroken wilderness.

The Government seeing the benefit such a railway would be to the whole Province by the development of dormant resources, gave the grant. Then Mr. Clergue was sure of his raw material and he went at the work in earnest, and since the land grant was made he has spent about ten or twelve millions which would not have been spent if the companies Mr. Clergue represents had not had the assurance of sufficient raw material to make such expenditure capable of yielding a return.

It is to be remembered that the lands granted to the Algoma Central Railway were in the wilderness and not worth anything unless opened up. The Algoma Central Railway gets a big block of land that was of no value till the railway was built. Not only are the railway lands made valuable, but millions of acres of the lands of the province, lying contiguous, are given a value they would not have unless railway access had been provided.

They are open to settlement and we know that every new settler is a direct benefit to the whole of the province. He will need axes, spades, ploughs, harrows, harness, horses, furniture; he will have to get them from old Ontario, and there will be a demand which our merchants and manufacturers will have to supply. Mechanics and labourers will have added employment and larger earnings and assurance of steadier employment.

Multiply one settler by one, ten or a hundred thousand and we shall see that the policy of the Government in aiding this railway by land grants has helped to create conditions, which make millions of acres of otherwise worthless land, of value and stimulate trade and commerce with longer settled Ontario.

Yet these narrow-guage politicians call the granting of these present wild lands a "steal."

The people of this live, go-ahead province won't sympathise with the funeral-march rate of progress aimed at by Mr. Whitney and his associates.

The people want a progressive, wide-awake Government at the head of their affairs, and they know where to find it. They will hold the Government they have and will

Remember Ross.

Thanks to a Conservative Gerrymander, the Conservatives in 1900, carried a majority of the seats in Ontario. The same vote distributed fairly as in a provincial election, would have given a majority of Liberals.

Stratton for Peterborough — Ross for Ontario.

Wonder if Mr. Whitney sold any of his "stunted poplar" to Clergue when he visited the "Soo."

Remember Ross! Of course the work he and his Government have done for the province entitles them to the gratitude of the people.

Mr. Whitney's colossal "steal" works, which he built (in his mind) out of the land grant to the Algoma Central Railway, won't compare with the solid reality of the colossal "steel" works Clergue has set up at the "Soo" of solid St. Mary's sandstone, through the help of the land grant to the Algoma Central Railway.

In regard to development of Ontario's natural resources, Ross' way is work; Whitney's way is wind.

The Review says Mr. Harcourt's reference to the Government's educational policy was weak. Opinions differ. Mr. Harcourt talked like a statesman; he showed what solid foundation our educational system was based upon.

MR. STRATTON AND LAKEFIELD.

(Lakefield News.)

There's considerable talk now-a-days about prohibition and the referendum, and at the present time we are inclined to give some prominence to Hon. J. R. Stratton's reasonable position on the question. We read with interest his elaborate reply to the questions submitted to candidates regarding prohibition and the referendum, and the position he took was a reasonable and straightforward one. In the first place, he has for the past sixteen years had a hand in mending the License Law, which has made so great an improvement in the drinking habits of the people that there is no country in the world more sober and law-abiding than Ontario. He is a member of a Government which has given the Province the only measure of prohibition it ever had, and it is as stringent a measure as the Province has power to pass. Of course it is not total prohibition—the Act does not prohibit the manufacture or importation of strong drink—that is a matter the Ontario Government has no power to do. Mr. Stratton, however, as a member of the Government, takes the position with such a partial prohibitory measure, which in the nature of things is not satisfactory to many prohibitionists, because it is not, as it cannot, being a provincial act, be totally prohibitive, that the Government should submit it to the people. The people have a right to vote upon such a partial act, and the Government has therefore given the people a chance to vote on the question by the medium of the referendum, and if the people say they want the Act the Government will enforce it—they are pledged to do so and would do so whether they were pledged or not, for any government must carry out the expressed will of the people. Mr. Stratton pointed out in a recent speech that the Government had taken the only reasonable course in the matter. If the prohibition act was adopted it would be because 200,000 out 650,000 registered voters approved of it. If the act was adopted it would become law, and would not be a Grit act nor a Tory act for it would be voted upon by itself, and at a time when no political issues could interfere. If the people approve of the prohibition act and make it law as they can do by voting for it, any Government no matter what its political complexion, will be compelled to enforce it, and will have the people strong enough behind it to enforce it effectively. We believe that Mr. Stratton's position on the prohibition matter is a reasonable one, and should be approved by the electors, as should his general policy of advancing the local interests of this riding. He has been a good friend to West Peterborough, and one single act, to mention no other, should win him the support of Lakefield. He made a strong fight and succeeded in bringing the Dominion Government to time in regard to leasing the water on the river at a low rate. If ever these water powers are put to use to increase the manufacturing industries of Lakefield, it will be because of what Mr. Stratton has done in getting the price of water power fixed at a low rate. Mr. Stratton has shown that he is the man whom Lakefield and this vicinity want. There can be no question, whatever, about this with anyone who has the interests of the village really at heart.

BARGAINS TO-NIGHT!

We continue giving 10 per cent. off to-night as advertised yesterday. When visiting the rummage sale to-night call and buy your Sunday dinner at KENNEDY'S MEAT MARKET, Phone 275.

A Few Left.

EAST NORTHUMBERLAND.

Meeting in Mr. A. O. Simmons' Interest at Campbellford.

An enthusiastic mass meeting in the interest of Mr. A. O. Simmons, the Liberal candidate for East Northumberland, was held in the Music Hall, Campbellford, last night. The audience gave a splendid hearing to the excellent speeches of Hon. Mr. Stratton, Provincial Secretary, Mr. F. A. Anglin, barrister, Toronto, and Mr. F. L. Webb and the candidate.

The party was escorted to the hall by the 49th Regt. Band, which, although in its first season acquitted itself in a manner exceedingly creditable to the regiment to which it belongs.

Mr. D. J. Lynch acted as chairman, and on the platform were Mr. A. A. Mulholland, president of the East Northumberland Reform Association, Mr. J. H. Douglas, M.P.P., Mr. R. B. Denike and Mr. Chas. Smith.

Mr. Simmons, the candidate, who was very cordially received, said he would not make a speech. He appealed to the electors for their support as a plain farmer, and would, if elected, do his best to serve their interests.

Mr. Webb spoke in reference to the excellent financial position of the province, resulting from Liberal administration and showed that its development policy, while it did not impose any burden of taxation on old Ontario, it conferred important advantages in the form of increased demand for its manufacturing and other products.

Mr. Anglin dealt in a very effective manner with the nebulous policy of Mr. Whitney, with the instances in which he had opposed the progressive measures presented, and passed, in spite of such opposition, by the Liberal Government. Mr. Anglin spoke of the timber policy of the Ross Government, and showed its superiority to that of the other provinces. Ontario had received far better value for its timber resources than any other province and had taken more effective measures for its preservation and reproduction than the others.

Hon. Mr. Stratton dealt very fully with the pulpwood policy of the Government, showing how the agreements were so devised as to create seven centres of manufacturing activity, from which settlement and development would radiate, and the conditions required the expenditure of an aggregate of about five millions, and the immediate beginning of development operations. These would create demands for the productions of the longer-settled parts of the province, and stimulate trade to a large and profitable extent. The agreements made with pulp companies, were far more favourable to the public interests than the system in Quebec. Mr. Stratton dealt fully with the railway policy of the Government, showing how greatly it promoted the development and settlement of New, and opened up trade with Older, Ontario.

The meeting, which was a most successful one, closed with the usual cheers.

The situation in East Northumberland is most encouraging, and the prospects are excellent of Mr. Simmons being elected by a substantial majority.

GROCERS,
439 and 441 George St., Peterborough

Kills Germs.

That's precisely what Vapo-Cresolene does. You light the vaporizer, the vapor of Cresolene is given off. Not a disease germ can live in this vapor, yet it can't possibly harm even the youngest child. Just naturally breathe-in the vapor; it destroys the germs of la grippe, hay fever, influenza, and whooping-cough. It's the common sense treatment for all troubles of the throat and bronchial tubes.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. E. Robinson, druggist.

ELECTRIC LIGHT

Can be put in your house at small expense, even though it is not wired for it yet.

WIRING.

Installed by our system, means a clean, safe job; no plaster broken, or decorations spoiled, but the wires concealed in the walls in a through way, workmanlike manner, and subject to the approval of the Fire Underwriters.

FIXTURES.

We handle the lastest productions of the leading manufacturers, thus assuring you thorough satisfaction, both in quality and design. Our shades are from the latest foreign importations. At this season our prices are particularly close. Have your electrical work done during house-cleaning time.

The DOMINION SUPPLY CO., Springville, Ont.

BIG STRIKE ORDERED.

On Monday 145,000 Anthracite Miners Will Go Out.

STRIKE WILL PAY COAL BARONS.

Wednesday the Miners' Representatives in the Locals Will Decide Whether the Strike Will Be a Permanent One —Meanwhile the Cost in Wages Will Be $200,000 a Day— Miners' Demands.

Scranton, Pa., May 10.—A vote was taken yesterday afternoon and it was decided to order a general strike of the Anthracite mine workers on Monday. President Mitchell issued the order last night.

The order for a general strike on Monday has this qualification—the matter of making the strike a permanent one is to be decided at Hazleton on Wednesday by a convention composed of representatives of each of the locals of the miners, who are to be elected at a special meeting Monday afternoon.

This means that on Monday 145,000 men will be idle; $200,000 a day in wages will be lost. Production of anthracite coal will stop. The prices of coal will be raised. Consumers will be supplied from reserve stores, and the coal barons will save the wages the strikers lose, will pocket greater profit from coal already mined, and when coal on hand is all sold at the increased prices, will make peace with the miners.

The miners' demand: Increased wages, eight-hour work day, weighing coal at pit's mouth, recognition of the union.

One word spoken by J. Pierpont Morgan, President Boer of the Reading, President Truesdale of the Lackawanna, President Thomas of the Erie, President Olyphant of the D. & H., would have prevented a strike.

SUSPICION.

Many Sick People Doubt Everything They Can't Understand.

Dyspeptics are Cautious and Hesitate to use Anything as a Remedy the Ingredients of Which are Unknown to Them.

There has always been too much mystery about the treatment of disease.

The Indian Medicine Man with his rattles and charms was scarcely more mysterious than many physicians of the present day, who with very grave faces, brandish long Latin names to the utter bewilderment and mystification of their patients.

One of the most marked symptoms of Dyspepsia is a tendency to doubt everything.

Dyspeptics become suspicious, even of their best friends sometimes.

There should be no mystery about the treatment of disease.

Of course there are sometimes complicated cases which are very hard to diagnose.

But there should be no mystery about the treatment of a well-known disease such as Dyspepsia.

There can be only one cause for Dyspepsia, and that is a neglected and overworked Stomach.

Having become too tired to properly perform their natural functions, the Stomach and Digestive Organs fail, and the result is Heartburn, Sour Stomach, Bloating or Headache.

These symptoms if not corrected soon lead to Dyspepsia with all its terrors of pain, distress and depression of the spirits.

Dodd's Dyspepsia Tablets are a sure and sufficient cure for all derangements of the Stomach and Digestive Organs.

There is no mystery about this treatment.

The Stomach needs rest and the body nourishment.

Dodd's Dyspepsia Tablets are composed of pepsin and diastase,—digestives for both animal and vegetable food,—and two of these dainty Tablets taken immediately after eating, will digest every particle of the most hearty meal without the aid of the Stomach.

The Stomach is rested and in time restored to its normal healthy condition of activity.

The body is nourished at the same time.

This is how Dodd's Dyspepsia Tablets cure Dyspepsia.

Will See the Premier.

Toronto, May 10.—Committees representing the Canadian Manufacturers' Association and the Board of Trade met yesterday afternoon and approved of the establishment of a commercial agency in London, Eng. They also endorsed the movement to establish in London, Eng., a commercial depot. A deputation representing both bodies will see Premier Laurier on Monday to advance their ideas.

A Regular Bear Garden.

New York, May 10.—A special to The Herald from Washington says: "We had a regular bear garden of a time," said Sir Henry Strong, Chief Justice of Canada, and chairman of the Salvadorian International Arbitration Commission, Thursday night, in describing the sensational and stormy Arbitration Commission's affairs at the Arlington Hotel Thursday afternoon.

A Breakfast Dish That is Daily Bringing Health and Strength to Thousands.

The old breakfast grain foods with abundance of insoluble starch and other indigestible elements, producing dyspepsia, indigestion, irritation of the stomach, eruptions and redness of the skin, have not been tolerated in many homes since the introduction of Malt Breakfast Food.

The advent of Malt Breakfast Food has brought health, joy and contentment to tens of thousands who use brain and muscle in the activities of life. This unequalled breakfast food is a positive banisher of dyspepsia and stomach disorders; our best physicians recommend it daily to those whose digestion is weak. It perfectly agrees with the stomach of the young child and the strongest adult. If you would build up flesh, bone, muscle and strength make Malt Breakfast Food your first morning dish. All Grocers.

Diarrhoea Weakens the System.

and if not checked becomes a chronic condition. No remedy compares with Nerviline, which is prepared especially for stomach and bowel troubles. As a radical cure for cramps, colic, gas in the stomach, summer complaint, Nerviline excels everything in the medical line, as an indispensible household staple, and costs 25c. Buy a bottle to-day.

Try Dr. Hamilton's Mandrake Pills.

YOUR DOCTOR WILL TELL

That the Acidity Found in the Ozone Treatment is Due to the Presence of Oxygen.

It gives much pleasure to inform you that I have been completely cured of a very severe dyspepsia trouble from which I have suffered for over four years. I tried many remedies but none gave me any relief. I had used your preparation for piles, and I was cured after taking three bottles and this gave me courage. I continued using Powley's Liquified Ozone until I had taken nine bottles and I am happy now to inform you

MRS. OCTAVE LAROSE, MONTREAL.

that I am completely cured of dyspepsia. I was a little bit afraid of the acidity, but I found by practical experience that it did not harm me in the least. It did me good.

(Signed) Mrs. Octave Larose,
19 St. Andre Lane, Montreal, P.Q.

Most people fancy that Powley's Liquified Ozone is a strong acid when they take it, and are sometimes afraid that it will affect their stomach. There are different kinds of acidity. We'll tell you of two; that caused by fermentation and that produced by a natural element, that possesses a natural acid reaction. To this latter class does Ozone belong. The acid taste you discover in Ozone is due to the presence of oxygen which your druggist or doctor will tell you possesses a marked acid reaction. You needn't be at all alarmed about this kind of acidity affecting your stomach. It is natural and just what your system needs.

In the different uses of Ozone some people see a "cure-all." Powley's Liquified Ozone simply cures those diseases that find their cause in poor depleted condition of the blood. If you will take it regularly the increased vitality together with its antiseptic action will cure you of any disease caused in the manner indicated. you can obtain a bottle at your druggist's, two sizes, 50c. and $1.

Lost by a Toy Balloon.

Diamonds and other jewels have been lost in all sorts of queer ways, but in none more unusual than the accident mentioned in the Boston Transcript, by which a diamond brooch was snatched from the owner's dress and left somewhere on the great plains.

A young woman was traveling by rail through Kansas. At Kinsley, where the train made a considerable stop, a fair was in progress. Here the young woman bought of a peddler a toy balloon for a little girl who had won her fancy.

The child was delighted with the plaything, and as they rode along she chatted with her new friend and pulled the balloon up and down. At length she playfully fastened the string to the lady's diamond brooch.

The train was rounding a curve at the moment, and a strong gust of air came through the car. The balloon was carried out through the open window. The sudden jerk on the string loosened the brooch, and away it sailed.

The jewel was so valuable that the young woman offered a reward of $500 for its recovery. Spurred by this incentive, cowboys scoured the plains for days in all directions, but without success.

Poor Choice Either Way.

"When passing through a certain section of a certain state once," said a man who has traveled much, "a friend and I stopped at the house of a neighbor for tea. Soon after we had sat down at the table the housekeeper looked toward us and asked whether we wanted long or short sweetening in our coffee. As she asked that question I looked toward my friend, and he looked at me. I nudged him in the side, meaning that I wanted him to speak. He said he would take long sweetening. With that she put her finger in a cup of molasses, put the same finger in his coffee and stirred. That was long sweetening.

"Then she asked me what I wanted, and I said immediately, 'Short.' So she put her finger in another cup, took out something that resembled maple sugar, put it between her teeth and bit it in two parts. One part went into my cup and the other into hers. It seemed to be a case of no matter which sweetening you tried you'd wish you had taken the other."

Full of Snap.

Gretchen, the daughter of an old German named Kruegel, had been serving as domestic about two weeks in the household of Judge Vaughan of Richmond, when father and employer met on the village street.

"Vell, yoodge," said Kruegel, "how you like dot Gretchen by dis dime alretty?"

"Like her?" returned the judge in his blunt way. "Why, she's just great! We never had any one in the house in her line that entered into work with so much spirit. She's full of snap all the time."

Kruegel turned ponderingly away, and, meeting his frau at his home portal, he sorrowfully said: "Teresa, someding must good wrong mit dot Gretchen. I yoost dit meeted Yoodge Vorgan, und he saidt ßot she vas full of schnappe all de dime."

Chronic Catarrh Cured.

In Merrill's System Tonic one finds a pleasant-to-take but powerful blood purifier. It is this feature that makes it a never failing cure for Chronic Catarrh and Chronic Rheumatism. Money spent in snuff is only wasted. Remove the cause — Take Merrill's System Tonic. Price 50c. for 50 doses, at Ormond and Walsh's drug store.

If it is asthma, bronchitis, croup, or any such trouble, use Vapo-Cresolene. All Druggists.

THE ECONOMICAL MULE.

The mule is ready to begin work two or three years earlier than the horse. He can be put to pretty heavy pulling when he is three years old, and from that time until he is forty, if he has fair treatment and does not meet with an accident, he is not likely to lose any time. He is not subject to the many ailments to which the horse is a victim, at least not to any great degree. He lives about twice as long, and his actual period of usefulness is nearly three times as long, for the horse is really not fit for heavy service until he is five years old or after he is twenty, while a mule will often do good service for forty years, and they have been known to work fifty, according to one writer, without being turned out at any time during all that long period.

Like the ass, the mule will live upon next to nothing, and during all his forty years of hard service a mule will not require—and generally does not get—half the feed necessary to sustain a horse during his much shorter period of usefulness.

Where Allspice Grows.

The island of Jamaica produces about all the allspice that is used. It is known also as pimento, or Jamaica pepper. The tree on which the berries grow is evergreen, and the flowers grow in dense clusters. These develop into small green aromatic berries, the size of black pepper. If allowed to ripen, they become pulpy and lose some of their pungency. For commercial purposes the berries are gathered when green, carefully dried in the sun and afterward packed in bags holding 160 to 180 pounds and shipped. Pimento trees grow in many parts of tropical America, but nowhere do they thrive as in Jamaica. The trees are never planted by man and receive no cultivation worthy of the name. The seeds are dropped by the birds, and the rains and the tropical sun do the rest. Surplus trees are cut down and become walking sticks and umbrella handles. This spice is more mild and innocent than most other spices.

Proof Presumptive.

A Mohawk valley justice of the peace invariably gave judgment for the plaintiff in civil suits before him without hearing the defendant, silencing that unfortunate litigant with, "Veil, vot I tinks he sue you for if you don't owe him?"

Her Mother's Visit.

Mrs. Benham—You don't seem to be very glad that mother is here.

Benham—What did you expect me to do—die of joy?

Doctors Said Incurable.

Excruciating Pains in the Back and Loins—A Plaster Cast Necessary for Temporary Relief—How a Cure was Found in

DR. CHASE'S KIDNEY-LIVER PILLS.

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidney disease. You cannot wonder at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. They have given him a new lease of life.

Mr. S. O. Demers, Conception Station, Labelle County, Que., writes:—"I am writing you in order that others who suffer as I did may profit by my experience. For three years I was obliged to give up all work on account of severe pains in my loins, back and sides. I had become so stiff in my body that I could not lean over without suffering the most excruciating pains.

"I consulted several doctors and specialists but all of them pronounced me incurable and could not even give me relief. One of them encased me in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die without being able to find a cure.

"About this time I received one of Dr. Chase's books and found my case described exactly. The sample of Dr. Chase's Kidney-Liver Pills which came with this book gave me marked relief, so I bought some more and continued the treatment. Gradually the sharp pains in my back and sides grew less severe, and my bowels became regular and active—constipation had been one of my worst symptoms.

"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and side, frequent desire to urinate and pain in making water, stiffness of the body and all the accompanying derangements of the liver and kidneys.

"Since using Dr. Chase's Kidney-Liver Pills these ailments have become less and less until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their favour. The people in this county are surprised to see me so well again and no wonder, for my cure has been almost miraculous."

Dr. Chase's Kidney-Liver Pills; one pill a dose; 25 cents a box, at all dealers, or at Edmanson, Bates & Co., Toronto. 5-6

BURDOCK BLOOD BITTERS.

BBB FOR THE BLOOD

THE GREATEST OF SPRING MEDICINES.

In the spring the system is so overloaded with impurities that the organs are unable to properly eliminate the waste matter.

BURDOCK BLOOD BITTERS

is of the the greatest value in cleansing internally, just as soap and water cleanses externally.

It flushes the sewers of the body, awakens the torpid organs and renews activity, pure blood is pumped to all parts of the body, thereby cleansing, purifying and strengthening it.

Don't stay sick, weak, tired and listless this spring.

Take Burdock Blood Bitters and feel bright, healthy and vigorous.

It turns Bad Blood into Rich Red Blood.

THE SOUND OF A PIANO.

Seeming Defects That May Be Often Due to Exterior Causes.

"A piano," said a dealer, "will sometimes develop or seem to develop a flaw in some one note, which comes to have a rattle or jingle or unpleasant burr to it, but this jarring sound which seems to come from the piano may in reality come from some source quite outside of it.

"Any given note when struck produces a certain number of vibrations to the second. There may be in the room some object that is in tone sympathy with some particular note, and that will be set in motion by it when that note is sounded.

"The owner of a fine piano sent to us one day to say that there was something wrong about a certain note of the instrument, so that that note had an unpleasant sound when struck. When I heard the note sounded, I knew at once that the disagreeable roughness or burr about it was due not to any defect in the piano, but to something somewhere about in the room, and, asking the lady to strike that note occasionally, I walked around the room to see if I could locate it.

"Passing across the middle of the room as that note was struck, the cause of the jarring accompaniment of it was discovered to come from the vibration of one of the glass globes on the chandelier overhead.

"The owner of the piano was almost incredulous as to this, the sound had seemed so plainly to come from the piano itself. But when at my request she stood under the chandelier and struck the note she was readily convinced.

"I made that globe immovable and then struck the note on the piano. The answer was clear and sweet and true.

"So, you see, the sound of the piano may for one thing depend much upon its surroundings, and what may seem to be a defect in a piano may be in reality attributable to something quite apart from the piano itself.

"And thus it might easily be that some noble instrument that had seemed to be declining or to be developing faults owed its apparent change to a change of environment or to some specific outside cause and was in reality as good as ever, as would happily be discovered whenever the instrument was again brought under favorable conditions."

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill box and name—but imitations are dangerous. The original and only genuine cure for Bright's Disease is

Tung Po and Teamaking.

There is but one way of making tea, for

Unless the water boiling be
To pour on water spoils the tea.

The teapot itself should be heated very hot before the tea is placed in it and the boiling water poured on. It should be scalding hot water, or the leaves will float to the top.

No less authority than Tung Po, the Chinese poet, is quoted for a recipe for teamaking. He says: "Whenever tea is to be infused, take water from a running stream and boil it over a lively fire. It is an old custom to use running water, boiled over a lively fire. That from springs in the hills is said to be best and river water the next, while well water is the worst. A lively fire is a clear, bright charcoal fire. When making an infusion, do not boil the water too hastily. At first it begins to sparkle like crabs' eyes, then somewhat like fish's eyes and lastly it boils up like pearls innumerable springing and waving about. 'This is the way to boil water.'"

A teaspoonful of tea for two cups, with one for the pot, is the rule.

Saint's Powder Recipe.

In Germany and Italy great honor is paid to St. Barbara, but until now no one has been able to discover the exact reason.

A German officer says that she is honored because the invention of powder is in a large measure due to her.

Berthold Schwarz, a monk, he explains, opened the "Lives of the Saints" on St. Barbara's day and read the story of her martyrdom, after which he reasoned as follows:

"The heart of the Virgin was white as salt, the soul of her tormentor was black as coal, and it was sulphur from heaven which punished him for his cruelty. I will mix these three things, and it will be a wonder if I do not discover the philosopher's stone."

He did mix them, and as soon as he put the mixture in a fire a tremendous explosion followed. Such, according to German soldiers, was the origin of gunpowder.

The Wedding Gift.

It is a golden rule to send a wedding gift in good time, the first to arrive being much more appreciated than that which is one of the many pouring in from all quarters during the last week.

By adhering to this rule one will be saved the annoyance of hearing that the saltcellars are charming—the third set already received.

A month before the wedding day is not too early to send the present, which should be accompanied by a visiting card.

The package should be addressed to the bride, if one is intimate with the happy couple, and to the bride's house, addressed to the bridegroom, if it is he with whom one is best acquainted.

Lazy Livers and Sluggish Kidneys

When these organs fail to perform their proper functions, the blood becomes poisoned and and suffering and disease commence. This can be avoided by keeping your vitality at high-water mark, the blood rich and pure, by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. Morning tiredness, Languor, Dizziness, Pain in the Back and Sick Headache disappear at once when Ferrozone is used. Get it to-day. Price 50c., at Ormond and Walsh's.

Dr. Hamilton's Pills cure Biliousness.

Easy Choice.

"Which do you prefer," asked the friend, "classical music or classical plays?"

"Classical music, every time," answered Mr. Cumrox. "There's always noise enough in that to keep you awake."

Not Used to Them.

Carrye—Cholly never eats brains.

Maye—And why not?

Carrye—Why, he is afraid they will go to his head.

DIAMOND HALL, Established 185

Ryrie Bros., Yonge and Adelaide Sts., TORONTO.

What a Widow Is.

It was a Sunday school class, and the teacher believed in asking questions to see how clearly the scholars understood their lessons. The widow of Ham was the subject, and the teacher thought she would be quickly answered when she asked, "What is a widow?" There was a silence until she nodded to the small boy at her left and said, "You know what a widow is, don't you?" for she knew the boy's mother was one.

"Yes'm," he answered; "it's a lady what takes in washing."

Enlightening the Minister.

"We are going to have pie for dinner," said Bobby to the minister.

"Indeed!" laughed the clergyman, amused at the little boy's artlessness. "And what kind of pie, Bobby?"

"It's a new kind. Ma was talking this morning about pa bringing you to dinner so often, and pa said he didn't care what she thought, and ma said she'd make him eat humble pie before the day was over, and I suppose we're going to have it for dinner."

Light, For All Its Weight.

"I thought all the toasts tonight were to be of a light and amusing nature?"

"They are."

"But you have Binks down for a topic that is decidedly heavy and serious."

"Of course. If there is anything funnier than Binks trying to tackle a great principle that he doesn't fully understand I don't know what it is."

Quackery vs. Science.

Most patent medicines emanate from people who know nothing of medicine or chemistry. Merrill's System Compound is skilfully compounded in one of Ontario's largest drug stores, after the suggestions of three eminent physicians. It purifies the blood, builds up the system, strengthens the nerves and regulates the bowels. 50 pleasant-to-take doses for 50 cents. Sold by Ormond and Walsh.

Christians and Jews.

When Charles Lamb was berating an enemy, some one said to him, "Why, you don't know him." Lamb replied, "I don't want to know him for fear I should like him."

Christians and Jews make ignorance of each other a claim for judgment and seem to be afraid to become acquainted for fear that they might like each other.—Peters' "The Jew as a Patriot."

Spectacles and Moisture.

Wearers of spectacles are frequently annoyed by the glasses becoming dim from a deposit of moisture upon them. An easy way to prevent this is to wash the glasses every morning with soft potash soap. The glasses should then be polished, but an invisible film will remain which will prevent moisture being deposited on them.

A Severe Condition.

"What did Naighbob say when you told him you wanted to marry his daughter?"

"He didn't absolutely refuse, but he imposed a very severe condition."

"What was it?"

"He said he would see me hanged first."

Their Arduous Task.

First Lawyer—The lawyers had a hard struggle over the Moneybags estate.

Second Lawyer—Did they?

First Lawyer—Yes. They had all they could do to keep the heirs from coming to an agreement.

Sick headaches are cured by Miller's Granules. Sold by all druggists.

A New Brunswick Lady who had Become a Physical Wreck is Marvellously Restored.

She Would Have the Whole World Know That

Paine's Celery Compound

Was Her Deliverer From Disease.

A Special Message of Comfort For Sick and Despondent Women.

Ten years of suffering from treacherous kidney disease is of itself a heavy record of sickness and agony for one frail woman. When we add to kidney suffering, nervousness, sleeplessness and continued overwork in the home, it marks a condition of life that draws forth our tenderest and deepest sympathies.

Such a condition of life was bringing Mrs. W. Irvine, of Queen street, St. John, N. B., very close to the dark grave. Notwithstanding the regular use of common advertised remedies and doctors' prescriptions, the ravages of disease continued, and friends of Mrs. Irvine said with sad voices, "she was going fast to death."

Just before deadly disease could finish its work, the use of that wonrous life-giver, Paine's Celery Compound, was recommended. Soon, hope—a new hope—cheered the sad heart and brightened up the pallid face. A powerful, searching, life-giving agent was working at the root of disease. It was making new blood; it was nourishing and strengthening nerves and body; it was saving a precious life.

Take comfort and cheer, ye weary, sick and diseased women, from Mrs. Irvine's experience. The remedy that successfully met and conquered her troubles will, without fail, meet your case. Mrs. Irvine speaks of her case as follows:

"I have been troubled for the past ten years with kidney disease and have tried a great many preparations and doctors' prescriptions, but with little or no benefit. For the last six months I have had a great strain upon my system from night-watching and overwork. I was breaking down; my friends said, 'I was going fast to death.' I resolved to try Paine's Celery Compound, and used four bottles. My kidney trouble disappeared; nervousness and sleeplessness are troubles of the past, and my general health is good. In a word, I am cured; I wish you to publish this so that the world can read it."

The Diagnosis.

There are things that only a doctor can successfully accomplish, and there are other things which the physician may safely relegate to a competent assistant.

"I understand the doctor has just been to see your husband, Mrs. McCarthy," said Mr. McCarthy's employer. "Has he made a diagnosis?"

For a moment Mrs. McCarthy was submerged in a sea of doubt, but she rose triumphant.

"No, sorr," she said confidently, "he left it to me, him saying I was well able to do it, sorr. It's to be made wid linseed on a shtout muslin, sorr."

On Magnetic Healing.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

Sagacity.

"Why, yes, I have seen a good deal of Tom Robinson recently. Fact is, he's one of the most entertaining men I ever met. Really, I didn't know there was so much in him. He's positively brilliant when you get him talking. Most delightful companion and so hospitable and"—

"I see. Which of Robinson's sisters is it—the little one with the black hair or the tall blond one?"

"It's the little one with the black hair."

A Kiss and a Snap.

In 1837 Mr. Thomas Saverland brought an action against Miss Caroline Newton, who had bitten a piece out of his nose for his having tried to kiss her by way of a joke. The defendant was acquitted, and the judge laid down that "when a man kisses a woman against her will she is fully entitled to bite his nose if she so pleases."

Lapsus Linguæ.

"You understand, of course, that my daughter has been reared in the lap of luxury?"

"Why, she told me last night that mine was the first—er, that is, I hope, sir, that I may be able to make such provision as to keep her from pining for the lap you mention."

The Same Old Climate.

"Is not your climate rather changeable?" asked the tourist.

"No, it isn't," answered the old settler who always contradicts. "If it was, don't you suppose we'd have changed it for something else years ago?"

A Modest Thespian.

Briggs—That fool Stephigb considers himself the greatest actor on earth.

Benson—Is that so? He's getting strangely modest. He used to consider himself the greatest actor that ever lived.

How the Cocaine Habit Starts.

Generally from using catarrh snuffs and ointments containing this deadly drug. It is well to remember that the only direct scientific cure for catarrh is Catarrhozone, which cures by the inhalation of medicated air. Simply breath Catarrhozone and it will cure all forms of Catarrh, Bronchitis, Asthma, Lung Trouble and Deafness. Every breath from Catarrhozone Inhaler, soothes, heals and relieves. Permanent cure guaranteed even though other remedies failed. Try Catarrhozone; price $1; small size, 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

POPULAR SCIENCE.

The microbe of the tuberculosis may live on a book 108 days, as has been shown by experiment.

Of 1,080 parts of the moon 576 are visible to us on the earth; 424 parts remain hidden absolutely to man's eyes.

Without its atmosphere, which serves as a coverlet to protect it against the fearful cold of space, the surface of the earth would be frozen like that of the airless moon.

A certain duration of a luminous impression is necessary to produce an effect on the retina. Hence it is that we do not see a very rapidly moving object, such as a bullet fired from a gun.

If this globe were cooled down to 200 degrees below zero of centigrade, it would be covered with a sea of liquefied gas thirty-five feet deep, of which about seven feet would be liquid oxygen.

Blood travels from the heart through the arteries ordinarily at the rate of about twelve inches per second. Its speed through the capillaries is at the rate of three one-hundredths of an inch per second.

Fishing Through Street Gratings.

In Winchester, England, it is quite a common thing to see men fishing through the street gratings. Under the High street there flow several streams which ultimately discharge into the river Itchen, a noted trout stream. These streams receive the storm and surface water from the street by means of the ordinary street grating. The line is dropped through and fastened to the end of a stick small enough to go through the grate. When the fish is hooked, the line and stick are dropped through the grating, and the fisherman rushes to the point where the stream emerges from under the street and is there able to recover his line and land his fish.

Cause For Separation.

Her Pastor—Do you not know that what God has joined together man should not put asunder?

The Divorcee—It was not a man in our case. It was a milliner.

"A what?"

"A milliner. You see, my husband said he'd rather pay alimony than buy hats, as it would be cheaper in the long run."

Education.

What sculpture is to a block of marble education is to a human soul. The philosopher, the saint and the hero, the wise, the good and the great man very often lie hid and concealed in a plebeian, which a proper education might have disinterred and brought to light.

Just 400 Years After.

In 1492 Columbus discovered America. In 1892, just 400 years later, Merrill, a Brantford druggist, discovered Four T's, the great guaranteed cough and cold cure. In five years the sale of a quarter million bottles has proved that Four T's never fails to cure a cough in 24 hours, and a cold in two days. Large bottle 25c. at Ormond & Walsh's drug store.

Ostrich Plumes.

All the black and white plumes come from the male ostrich, the gray from the female. The feathers are not plucked out, as you might imagine, but are clipped off with a sharp knife, leaving the end of the quill in the flesh, where it remains for two or three months, until it "dies," when it is pulled out with forceps.

His Lucrative Business.

"Wanted—For a lucrative business, a partner who must be a practical locksmith." This advertisement appeared in a Budapest paper recently. The advertiser is now in jail, the police having discovered that the lucrative business referred to was burglary.

Smart Child.

"You never saw my hands as dirty as yours," said a mother to her little girl.

"No, but grandmother did," was the reply.—Motherhood.

THE QUESTION IS

Whether you will go on using the nerve disturbing tea of Japan, or

"SALADA"

Ceylon GREEN Tea of exquisite flavour and absolute purity. It's as far ahead of Japan tea as "SALADA" Black is ahead of all other Black teas.

BLOOD DISEASED MEN

If you ever contracted any blood disease you are never safe unless the virus or poison has been eradicated from the system. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, rheumatic pains, itchiness of the skin, sores or blotches on the body eyes red and sunken, dyspeptic stomach, sexual weakness—indications of the secondary stage. Don't ruin your system with the old fogy treatment—mercury and potash—which only suppresses the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank bonds, that the disease will never return. Thousands of patients have been already cured by our New Method Treatment for over 20 years. No names used without written consent.

Mr. E. A. C. writes: "Your remedies have done me more good than Hot Springs and all the doctors and medicines I had previously tried. I have not felt any of those pains or seen any ulcers or blotches for over seven years and the outward symptoms of the loathsome disease have entirely disappeared. My hair has grown in fully again and I am married and happy."

IN LOCAL MILITARY CIRCLES.

Pte. Morden, the Examiner's War Correspondent Writes.

Who Will be the Representative of the 57th Regiment at the Coronation.

The Examiner has received the following very interesting letter from Pte. H. M. Morden, of the 3rd C. M. R., which sails from Halifax to-day;

Halifax May 7th, 1902

The home love and comradeship that always comes to the front when young men are thrown together in strange places was highly exemplified last evening at the Royal Hotel, Argyle street, when the boys from Peterborough and near vicinity met together for a farewell supper.

It was the last night but one before the 3rd Regiment, C.M.R., should start on its journey for the seat of war in South Africa. Around a horse shoe shaped table about 42 gathered together to do justice to Host Saltern's best. After all had partaken without stint, (the more enjoyed because all knew it would be the last for some time to come) the chairman arose and proposed the King's health, and called on Lieutenant Shaw to reply. Mr. Shaw replied briefly and ably, and then the toast "Canadian Comrades in South Africa" was proposed and honoured. This was replied to by Sgt. Major Callahan, of B squadron. Following this came "Our Officers," responded to by Lieut. Reid. Then the Ladies were toasted, and R. Biggs told us many new (?) and wondrous virtues of woman, of which as far as could be ascertained, the main thought was "The way to a man's heart is through his stomach." In reply to t toast to "The Third C.M.R." Sgt. LeBar responded so ably that the :.M.R. became at one the foremost best colonial corp ever raised. , after the usual toast to the Host, Save the King was again sung, d the boys left for barracks at a very late hour. The guests of the evening were Lieut. Reid, Port Hope, Lieut. Shaw, our own commander, of Millbrook; Lieut. O. Bradburn, Sgts. LeBar, Dyer and Rye; Corp. Strickland; Ptes. Anglesyc, Abrams, Burnham, Crossland, Biggs, Denoon, Donovan, Eastland, Frost, Fair, Gibson, Hodgson, Judd, Kemp, Morden, McDonald, Pearce, Abanahan, Nelson, Wilson, Beech, White, Ballantyne, Hamilton, Hughes, Hartley, Plummer, Sculby, Gaw, Price, Thompson, Clinkscale and Bugler Brooks.

We are very fortunate in having the best Troop Commander (as we believe) in Lieut. Shaw, of Millbrook. Already he has, by his gentlemanly interested manner, endeared himself to us in a far greater manner than you can imagine. He takes a general interest and makes men feel as though he were interested in them personally. To-morrow we sail for South Africa, but before sailing will send you the address which will find us in South Africa. This is all at present.

• • •

Perhaps no company of the 57th has had so severe drains upon its ranks during the past year as has been the lot of No. 4. The deplorable fact of the losses is that the men who have left the company by reason of their removal from town have been mostly non-commissioned officers, men who have received certificates qualifying them for the position of non-commissioned officers, and men who were popular with their comrades and had an influence upon other young men of the town. In the removal of Sgt. Paterson, Sgt. Geo. Burnham, Pte. Revell, Pte. Tom Burnham, Pte. Morden, Pte. Milne Hamilton, and Pte. George Dawson, all within the past year, it becomes quite apparent that No. 4 has been up against the real thing, to use a common expression.

• • •

The Bugle Band, too, has had severe drains upon its membership. No fewer than five members of the Bugle Band left during the last enlistment for South Africa. Previous to that time the bugle band was in excellent condition, and it is to be hoped that an effort will be made to keep it still to the forefront. There is nothing more inspiring than the martial music of a real good bugle band.

• • •

A memorial service to the memory of the late Captain Milligan, of Newtonville, who was killed in South Africa, was held in Newtonville, Clarke Township, last Sunday, and attracted people from all parts of that neighborhood.

• • •

The officers, non-commissioned officers and men of the 57th as well as the citizens in general, will all join in hoping that the weather will be favourable for a march-out on Tuesday night next. For the past three Tuesday evenings the expectations of the commanding officer have not been realized in this regard.

• • •

The selection of the solitary man to represent the 57th Regiment at the Coronation ceremonies will be a matter of no easy task. Preference must be given to those who have served in South Africa or the North-West Rebellion. No matter who will be selected, there will be some one dissatisfied, but those of all ranks may depend that the choice will be made in the interest of the regiment, purely on merit, and no favouritism will be shown. The Dragoons are in a very lucky situation. They are to have no fewer than eight representatives, or two from each squadron. At the Diamond Jubilee the Dragoons were given four representatives and the 57th had not any.

From Infancy to Old Age.

There is no better friend than

NEAVE'S FOOD

The most delicate stomach can take it, and in a very short time a thoroughly healthy condition of body is established, the tissues easily absorb its life-giving particles, and where weakness and discomfort previously existed there is strength and vigour.

Mrs. BLACKMORE, of 1 Marine Parade, Clevedon, writes:—"I have forwarded by this post a photo of our little girl, age eight months, who has been brought up entirely on Neave's Food, which we found suited her in every respect. . . . We have tried other foods, which ends in restless nights for her and us. We do with pleasure recommend your Food to all our friends."

STOCK MARKETS.

The Steady Tale of Prosperity.

New York, May 9th, 1902.—Railway earnings continue to mirror the wondrous prosperity this country is enjoying. April last showed the roads to have made an improvement in gross earnings amounting to 31 per cent. For the same month the year before the gain was 14 per cent. The year before that 5 1-2 per cent., and still the year before that the gain amounted to 41 per cent. There have been material increases for four successive years. It must be conceded to be a strong test for the current year. Stocks that were earning nothing at present are in the line of remuneration. Many of these instances are not the results of prosperity alone. The growth of the territory through which the roads run has much to do with these results. The expansion and development of our country is going on at a rapid rate. Increased population and its increased volume of business brings enhancement of values in its train. It is a bull country. The same facts carried Harlem stocks from four to 400, St. Paul from ten to above 170, North-West from 20 to above 350, and so on. The same factors will carry Southern Pacific above par, M.O.P. above 130; U.P. to 150; Atch. above par, and so on. The greatest fortunes in this country have been made through the natural appreciation of its securities. To buy stocks is to participate in the consequent gains. We continue to confidently urge purchases believing that some such ventures will prove to be materially profitable. The figures given above are absolutely authentic. They are not doctored in any way. They are in line with facts. No better rule of measurement could be taken when endeavoring to guage the swing of the security markets. Earnings are the greatest bull lever and creator of security values. Manipulation may hold the situation for a time, but earnings dominate quotations in the end. Intrinsic merits and earnings are the factors to consider when making an estimate of the value of any property.—Haight & Freese Company.

The Mica Mines.

Mr. L. A. Morrison, mining engineer of Toronto, was in town on Monday last on his way to Stony Lake, having been retained by the company of English capitalists who recently purchased the property of the Crown Corundum and Mica Company to superintend mining operations. Mr. Morrison informs us that the company intends to operate the mine on an extensive scale this summer.—Norwood Register.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

CORDOVA CHURCH.

The following letter from Rev. J. G. Potter appears in this week's issue of the Hastings Star:

St. Andrew's Manse,
Peterborough, May 6th.

Dear Sir,—Would you kindly give space to a report that is being circulated very widely among your readers regarding the existence of a Presbyterian Church at Cordova Mines.

For the sake of truth, righteousness and common honesty, it ought to be known that the Home Mission Committee of the Presbyterian Church was the first to establish work right among the miners and associated trades people at the mines. In May, 1900, a very commodious tent was purchased by the committee and erected, and was the only place of worship for miles around. The committee and miners maintained the services of a student for the entire year. A building was decided upon in June. The excavation began in July, when owing to the absence of the manager of the mines, matters were delayed, and it was during that time that there was any movement made on the part of another church to build. These parties were approached, but they claimed that there was room for two churches, so I cannot conceive of men seeking to hurt and thwart the work of a church that has done them no injury. When the church that Rev. Mr. Bunner represents was opened in February, 1902, it was the first public service that was given by them to the men, and this fact is known throughout the whole section of country.

In order to accomplish this end the minister mentioned was compelled to give up an appointment held at Rockdale school house—not church—three miles distant.

Thanking you, Mr. Editor, for your valuable space, I remain, yours sincerely,

JAS. G. POTTER.

CHURCH CHIMES.

ST. PETER'S CATHEDRAL—At St. Peter's Cathedral there will be three masses celebrated—at 8 a.m., low mass; children's mass, at 9.15 a.m., high mass at 10.30. Vespers at 7 p.m. with Sermon.

Torontos Defeated the Champions.

Manchester, May 10.—Two members of the Cheshire team in Thursday's match resorted to exceedingly rough tactics at times and had to be cautioned by the referee. The Torontos did not retaliate in any way. There was clever work on both sides during the match, especially in the last period, but the Torontos won easily. The Torontos having defeated the English champions, the remainder of the matches will be comparatively easy victories.

Three Vessels Captured

St. John, May 10.—A despatch from St. Andrew's, N.B., says that the Dominion Fisheries protection cruiser Curlew, Capt. Pratt, arrived there yesterday with three captured vessels, the first fruits of the dynamite prohibition law.

Postmaster Removed.

Ottawa, May 10.—David Clinton was removed from the postmastership of Wellington, P. E. Co., yesterday. Q. C. Spencer was appointed in his place. Clinton used his office as a Conservative committee room.

A Food for Brain and Muscle.

Whether it is brain fag, loss of memory, inability to concentrate the mind or bodily weakness and general debility Dr. Chase's Nerve Food will restore your old time energy, strength and health. Through the blood and nervous system, it reaches every part of the body and overcomes weakness, irregularities and disease.

Parr and Erskine.

Dr. Parr on meeting Lord Chancellor Erskine, with whom he was friendly, once said, "Erskine, I mean to write your epitaph when you die."

"Doctor," answered the great lawyer, "it is almost a temptation to commit suicide."

Their Single Thought.

Hook—That young married couple appear to be two souls with but a single thought.

Nye—Yes. He thinks he's the only thing on earth, and she agrees with him.

Can't eat? Take Miller's Compound Iron Pills for a few days and observe the results. Sold by all druggists.

CURING THE DEAF AND HOW IT IS DONE.

Specialised treatment for Deafness has produced a decided revision of the opinions of many of the medical profession on the curability of Deafness. Years ago the general practitioner yielded the treatment of ear disease to the Aural Specialist, but, despite the increase in the knowledge of the anatomy, physiology, and pathology of the ear, and the ingenious instruments devised to meet the obstructions to hearing which are so deeply seated within the bones of the skull, no real progress was made until Dr. Drouet found a means of conveying medicaments to the diseased structures of the middle ear, by utilising the well-known absorbent properties of the skin. This is accomplished by

An External Application,

and the formula as worked out by Dr. Drouet, consists of a plastic preparation in the shape of a crescent, to be applied to the mastoid apophysis, the arched portion of the skull behind the ear, which precisely covers the internal parts of the auditory organs. The active properties of the medicaments are gradually absorbed and the work of regeneration immediately begins. This is the whole secret of the success of the treatment known to-day under the name of Drouet's Curative Treatment. Let us add that in conjunction with these external applications a further treatment is generally ordered where there exists inflammation in the nose and throat, or anti-septic precautions are necessitated by a discharge from the ears. The remedial effects of the new treatment have been so remarkable in curing long standing cases of deafness that the publishers of the "Journal for the Deaf," are now issuing a "Supplement" giving a report of the cures effected each month at the Drouet Institute. Those who are interested in the treatment of Deafness or of Diseases of the Ear, Nose, and Throat, can obtain a free copy of the "Journal" and "Supplement" by addressing the Secretary, Drouet Institute, 72, Regent's Park-road, Primrose Hill, London, N. W.

From the records of the Institute for March, we extract a brief review of a case that will greatly interest those who are deaf.

The Rev. J. G., age 60, suffered from an obstinate form of Deafness caused by dry catarrh. He was told by a doctor that it was incurable. In preaching he was much annoyed by buzzing of his own voice in the ears. In spite of the unfavourable opinion of his doctor, he reported on December 17th, 1901, that the Drouet Treatment had effected a complete cure and later confirmed the permanency of the cure as follows:

The Rectory, Suffolk, March. 11.

Dear Sir,—I am glad to say I have had no further return of the trouble, and look upon myself as cured.—Yours faithfully, J. G.

Being a clergyman, the Rev. J. G. does not wish his name published, but he is willing that any one should communicate with him privately, and the full address can be obtained from the Secretary of the Drouet Institute, by those who are interested.

Let us add again that a free copy of "The Journal for the Deaf" and "Supplement" can be obtained by addressing the Secretary of the Drouet Institute, 72, Regent's Park-road, London, England. The Journal is always accompanied by a pathological report form which enables each patient to describe his case so clearly that the consulting surgeon can send accurate information of the treatment necessary to effect a cure.

Canada Central Line.

Ottawa, May 10.—At the Railway Committee yesterday the Canada Central Railway Company's bill for a line from French River, in Ontario, to Jonas Cache, B.C., by way of Yellowhead Pass, was reported. The proposed road goes to New Westminster and Vancouver. Its capital was reduced from $25,000,000 to $15,000,000.

The Red Deer Valley Railway Company has withdrawn its bill.

Progressive Store News

To stand still is to go backward. Stagnation leads to business death. Every day we intend to do better by you than the day before, but trying to do the best possible that experience and closest watching and buying can supply. Spring housecleaning brings many wants, and we realise that if bargains in that line are not given when wanted, they cease to inspire enthusiasm. We quote a few of the many lines which make this store popular:

Wall Paper Department.

800 Rolls Wall Paper, embossed gold, with 9 or 18 inch friese, regular 25, 30 and 35c single roll, your choice for a few days, per roll. 15c	1000 Feet Room Moulding, oak finish, any width, from 1 to 2 inches, per foot..... 1c

ROOMS TO RENT.

Rooms in Canadian Bank of Commerce building, recently occupied by late R. C. McHarrie. Heated, and all modern conveniences. Apply to Toronto Savings and Loan Company. d81

IMPORTANT WORK FOR BOTH GOVERNMENTS

In the Direction of Improving our Water Powers.

MR. STRATTON IN ENNISMORE

Deals With This Very Important and Pressing Public Problem

AND OTHER PUBLIC QUESTIONS.

Address to the Electors at O'Reilly's—Mr. F. A. Anglin and Mr. D. O'Connell Also Speak—Mr. Garvin Appears for Mr. Miller.

A successful and enthusiastic meeting of the electors of Ennismore, was held in the interests of the candidature of Mr. Stratton at O'Reilly's school house, on Saturday evening, and though the notice of the meeting had been short, and the night unfavourable, there was a good attendance of electors to show that the people of the island township took a warm interest in the matter of their representative in the Ontario Legislature, as well as in the Cabinet of Hon. G. W. Ross.

Upon the platform were Hon. J. R. Stratton, Mr. D. O'Connell, barrister, Peterborough, Mr. Frank A. Anglin, barrister, Toronto, and Mr. J. W. Garvin, who appeared on behalf of Mr. Miller.

MR. MICHAEL PERDUE,

who occupied the chair, in his introductory remarks, said that everything indicated a successful outcome of the elections in that part of the riding in favour of Mr. Stratton and the Government. He had been out all day, and had only met one man who was a supporter of the Opposition. Since the last time Mr. Stratton appeared before them he had become a member of the Government. They had never had the honour of having a member of the Government address them before, and they felt proud because Ennismore had largely assisted in putting Mr. Stratton where he was to-day, and the people should feel proud that they had an opportunity of voting for him again as a Minister in the Cabinet. He had always stood by the township and had been of great service to them in the matter of roads and bridges, as a means of reaching our market town, as well as in every other way in his power. There were many people who knew a voter well at the time of an election, but after the election was over they seemed to be troubled with loss of memory. But no matter who went to Mr. Stratton, at any time, he was sure of a kind reception, and of receiving every assistance that it was in the power of a representative to render, and he hoped that Ennismore would roll up a large majority for Mr. Stratton on polling day.

MR. F. A. ANGLIN,

who was cordially received, expressed his pleasure at being present, because he had heard a great deal about the people of Ennismore, and nothing but good. He had appeared with Mr. Stratton at many meetings in other ridings, and they would not be surprised to hear that everywhere he had been hailed as an able exponent of Liberalism, as an able defender of the Government, and as a man of whom they might well be proud to have as their representative in the Legislature. He did not know Mr. Miller, and had nothing to say against him personally, but he thought that West Peterborough would not make the change from Mr. Stratton, a member of the Cabinet, to Mr. Miller, a private member. Peterborough was one of the first towns of the province, and the county was looked upon as one of the foremost of the country. Mr. Stratton kept it well to the front, and Peterborough had more prominence given it by a Cabinet representative than would be given it by any private representative. The farmers of Peterborough and the working men of Peterborough, the manufacturers of Peterborough, and all classes of the country, would be benefitted by having Mr. Stratton in the Cabinet, and only Mr. Miller would be benefitted by Mr. Miller's election. Mr. Stratton was appreciated in Toronto as an excellent business man. His department of the Government is well handled. His branch was not behind, but was up-to-date. Everything he undertook seemed to go, and that was the kind of a man that a live riding wanted as a representative. We wanted men who could make a success of business, because we know that they would have the ability to successfully manage the business of the public. And the question that we had to consider at the present time was whether the Ross Government or the Opposition would do the best for the province. There did not seem to be any two opinions as to this. The Ross Government, in the short time that it had been in power, had done a great deal to bring before the world the great importance of the territory that had been so long in dispute Railways were being constructed, roads were being built, pulp mills were being erected, villages were springing up, towns were growing into cities, and a spirit of development and progress that affected everybody was in the air. Farmers were receiving good prices for their products. Working men had reasonably good wages, employment was steadier, and with this condition of affairs, it was certainly not time for a change. The finances of the country were in splendid condition. The educational institutions of the province, founded on sound principles, were being administered with excellent results. The public institutions were well managed, the interests of the farmer were well looked after, and in fact every interest of the province was receiving a business-like attention. Large sums were expended in siding counties, and everywhere there was a spirit of confidence prevailing that would be disturbed if Mr. Whitney came into power without any experience, without any policy, and without men behind him with the capacity to grasp the situation, and take advantage of the conditions that prevailed, and to give them the best effect. He closed an excellent speech by asking the electors not to fail to give their hearty and united support to one of the most popular members of the Government.

MR. J. W. GARVIN,

owing to the lateness of the hour at which the meeting commenced, and it being Saturday night, was allowed half an hour in which to address the audience. During that time Mr. Garvin attacked the record of the Government, and among other things said that the educational management was political. He maintained that the tax upon corporations was virtually a tax upon the people. The Algoma Central Railway would have have been built without a land grant. The pulp woods of the province were being given to the political friends of the Government and also as a bribe to Conservatives.

MR. D. O'CONNELL

showed that the educational system of the province was of the best, that our schools were doing excellent work and that our young men held many prominent positions abroad where educational equipment was a requisite, and that everywhere it was recognized that the system of education in Ontario with a responsible minister was the best, and nothing was offered to the people as an improvement. It was easy to find fault. It was not so easy to build up and improve. He showed that the finances of the Province were in splendid condition to carry on the development policy of the Government. He said that what the country wanted was good transportation facilities. The foundation for this was being laid in New Ontario and the future would show the wisdom and foresight of the policy laid down and being carried out by the Ross Government to-day. He predicted a splendid victory for Mr. Stratton and he hoped that the good people of Ennismore, irrespective of party would appreciate the honour done this county in having a member of this constituency in the distinguished position of being a member of the Cabinet.

MR. STRATTON

thanked the electors for the splendid reception that they had given him upon such short notice. He appreciated the kindness that had always been extended to him by the people of Ennismore. They had stood by him nobly in all his contests and he hoped that as they had stood by him in his candidature as a private member of the House that they would not forget that in the present contest he was seeking their sufferages as a member of the Government. He asked that his record be scanned and the policy of the Government scrutinised and he had reason to hope that his course as a representative of the constituency and as a member of the Government would meet with the approval of the electors generally. He had no doubt of this but the only way to make it certain was to have the votes recorded in his behalf and he hoped that his friends would appreciate the fact that he was not able to make the personal canvas that he had made in previous contests. If in sixteen years the record of what he had been able to do for the county and country was not sufficient, personal appeal could not have greater effect. Mr. Stratton then dealt with Mr. Garvin's reckless assertions. He said Mr. Garvin had not improved since he last met him in Ennismore four years ago. He had rather became more reckless in his statements. No statement that he had made during the evening was correct. Bold and reckless declaration, without proof, was not argument. Bold and reckless statements that were untrue should not be given to the people, and if Mr. Garvin had had any responsibility in the matter he would have been a little more careful about making such unfounded statements. Mr. Stratton then showed that the educational system of the country was

ABSOLUTELY CONTROLLED BY THE PEOPLE.

The Public School law and the High School had been consolidated two years ago. The Opposition had found no fault with it. Everywhere copies of the proposed bill had been distributed in the Province. Members of School Boards, members of Councils, Educators, Public School Inspectors, etc., were all supplied with copies of these bills, but no suggestions for improvement had come from these sources, no complaints, and at that time no condemnation had been offered by the Opposition, but, now that an election was on, they were finding fault with everything. Nothing would please these gentlemen except office. That was all they were fighting for. The people should consider well, before making any change in the educational system of the Province, which was pronounced by all to be excellent in its constitution, splendid in its administration and giving to the youth of the Province the opportunity to fit themselves for any occupation they desired to enter. He then took up Mr. Garvin's assertion that the people were paying the taxes that were paid by the corporations. Mr. Whitney had been pledged to abolish this source of revenue. Mr. Garvin had said that the moneys were taken out of the pockets of the people. Mr. Stratton asked who paid more for their railway tickets to-day than they did four years ago? Who paid more for their Pullman car seats than they did four years ago? Who paid more for their telegraph dispatches, their telephone exchanges, or who were charged more for discount on their notes at the banks, or who received less interest on account of this tax? Did anyone pay more for their glass of beer or did anyone pay more for their whiskey on account of the tax on breweries

NEW ARRIVALS ... OF ... RICH SILKS

Newness stands out prominently in these swell productions. The intricate weaving of these (shall we say) webby creations, cause us to marvel at the ingenuity of man and the uses he puts machinery to to serve him. Silks with the hemstitching effects that make "little" trimming necessary, but when made up show pretty nearly an extravagant effect, yet rich, modest extravagance it is.

First in beauty is piece of French Grey and a pretty Turquoise shades Taffetas, each with hemstitching effect and pretty stripes of Silk Caspian Embroidery, one blouse length each (3½) yards, per yard..... $1.25

Here we show rich and novel hemstitch effects in Light Blue, pretty Pink, French Gray and Ivory Taffetas, each with white hem stitch broad and narrow stripes, lending a boldness that gives them style. Per yard..... $1.00

Another quality is the soft finish Florentine Silks with dainty white lace stripe effect in Hello and Light Blue..... 75c

See our South Window.

Peau de Soies

Our Black Peau de Soies have been very kindly spoken of by those who have seen them, and the seeing has very often lead to "unthought-of" buying. This is one of the reasons why we are very happy to show these lines. It so often has the effect of creating a sale sooner or later. People who haven't seen them don't realize the excellent values we offer at, per yard, $1.10, 95c, 85c and..... 75c

Still another shipment of these Peau de Soies received last Thursday.

Suteliffe & Sons' Silks invariably turn out satisfactory.

MONDAY, MAY 12, 1902.

MR. WHITNEY IN NEW ONTARIO.

Mr. Whitney found in New Ontario that his political chickens have come home to roost. At every stage in his journey he was confronted with some utterance of his own or some action of his party which completely stultified him. All his boasted courage oozed through his finger-tips. There never was a greater exhibition of cowardice and disingenuousness than he gave at North Bay on the opening night of his tour. The Opposition in the Legislature tried to block the construction of the Government railway from North Bay to Temiscaming in order to shore up their candidate in the city of Ottawa, where the Conservatives are denouncing the Government for not making Mattawa the southern terminus of the route at enormously greater expense to the Province. Naturally the people of North Bay wish to see the railway built as soon as possible, as direct communication with the Temiscaming district will be a big thing for the town. Mr. Whitney, who, as the leader of the Opposition, was more responsible than any other man for the attempt to delay the construction of the road, had the audacity at North Bay to denounce the Government for "dilly-dallying with such a grand proposition." Yet this "grand proposition" is one he attempted to sacrifice for some petty party advantage. His first lieutenant, Mr. Foy, declared that "Toronto was at the back of North Bay in desiring the road." Toronto certainly desires the road, but Toronto's members in the Legislature stand convicted of voting against Toronto's interests in order to lead themselves to a small game of parish politics.

Having turned this somersault at North Bay, Mr. Whitney passed on to Sudbury, the centre of the nickel and copper mining industry. Here he executed another double shuffle. He was accompanied by one of his lieutenants, Mr. Carscallen, who is running in Hamilton as the champion of an export duty on nickel and copper ores. Such a duty would be ruinous to the Sudbury district and Mr. Carscallen dared not declare his views on the mining question in the centre of Ontario's mining industry. What a brave position! Mr. Whitney and Mr. Carscallen had to enter into a conspiracy of silence on the subject of an export duty. Mr. Whitney, however, was equal to the emergency, and advocated a bonus for nickel and copper refining as a bait to the Sudbury electorate.

At Theassalon Mr. Whitney professed a great deal of sympathy for the settlers. But Mr. Whitney advocates the selling of spruce tracts by auction, which would deprive the settler of the pulpwood on his land. "Leave Enough Wood for the Settlers to Warm Themselves" was one of the mottoes adorning the hall in which he spoke. That motto was really a dnive at Whitney. In the speeches of himself and colleagues there was a covert attack on the Government for prohibiting the export of pulpwood logs; yet this legislation which was designed to compel the manufacture of the pulpwood in this country and give employment to Canadian labour was one of the few Government measures which the Opposition did not oppose in the Legislature.

At the "Soo" Mr. Whitney was "amazed" at the evidences of progress he had seen in and around the "Soo," but he claimed the Government deserved no credit. He was not "bold enough to be honest enough" to say that the land granted to the Algoma Central Railway, to which all the "amazing" progress he had witnessed was due, was a "colossal steal." He said he and the Opposition had voted against the grant, not because it was a "steal" but because he and the Opposition not having taken the trouble to use the means at the disposal of every member, did not know enough about the terms of the grant. Mr. Whitney spoke the truth at least, at the "Soo" when he said that he and the Opposition "could not see any further than their noses." The land grant, he said "might have been a good scheme," and in the face of that he and his party took the risk of blocking development; and, to justify voting against a scheme, he thought might be a good one, Mr. Whitney took the extreme ground of calling it a "phenomenal steal." Mr. Whitney did not apparently believe that "the receiver is as bad as the thief" for with his usual inconsistency he said at the "Soo" where he wanted to curry favour and where he dared not repeat the language he used in the House, that the Clergue Syndicate, the receivers of the "colossal steal" were not the thieves, but the Government which made the grant. None of the Liberal papers accused the Whitney party of taking a carload of "booze" on their new Ontario tour, but the contradictory and absurd talk indulged in would seem to have made such a charge justifiable. No set of men in their sober senses would, one might think, ever talk such rhodomontade.

EDITORIAL NOTES.

If Mr. Whitney, says the London News, has a very decided policy in the present campaign, he has succeeded remarkably well in keeping it to himself.

In the Legislature, the Government was severely criticised by some members of the Opposition for making North Bay the starting point of the Temiscaming Railway. At North Bay Mr. Carscallen tells them that the Conservatives always wanted the road to start from that point.

The pulp agreements require at once an expenditure of almost $5,000,000 on the erection of mills, or $2.00 for every man, woman and child in the province. In addition, 1,900 men must be employed, and the province gets 40 cents a cord for all the pulp wood used by these men in their mills.

What is the matter, asks Saturday Night, with a section of the local Conservative press? The "World," outside of Sam Hunter's cartoons, is paying no attention to provincial politics, though it did wake up the other morning, and emit a barbaric "yawp" about cleaning out the well. The "News," usually one of the most persistent of party rooters, is silent on politics, and has been so ever since the campaign started. It confines its editorial discussions to such questions as vegetarianism, Morganism, and the decadence of poetry. The "Telegram," though as usual, hostile to the Liberals, can see the rash of iniquity and uncleanness sticking out all over both parties. Poor old Grandma, "Mail and Empire," is thus left alone to defend the ancestral hen-roost, and is "shooing" and waving arms as wildly as ever. It is a queer situation and is being generally remarked.

An independent Ontario voter who resides west of Toronto, but in the past few weeks has had occasion to make several business trips to different parts of the province, east and west, has written, says the Kingston Freeman, to a friend in Kingston, also an independent, giving his opinion as to how the result will stand after the polling on May 29th. He says, "After taking very close observations during my travels, speaking to Whitney-men and Ross-men, and giving all reasonable doubts, such as fighting chances to the Whitney side, I have figured it out that Ross will go back to power with a majority of from ten to fifteen. As you know from past experience, in my calculations of Provincial elections for twenty years past, I have never been more than three outside the mark. See, if I don't come as close on this occasion." The Kingston man says his western friend has a record on the road of being on all occasions very nearly a correct calculator in Canadian and American elections.

Worse Than Being Sandbagged.

A person who feels a clutch on his throat and chest is in a bad condition. A few doses of "Four T's," the great guaranteed cough cure, relieves this "grip" and loosens the cough. In two days the patient is well. Get a bottle to-day at Ormond and Walsh's drug store and avoid congestion.

STOCK MARKETS.

The Money Situation.

New York, May 10th, 1902.—The present high rates for money bring prominently to the front the unwisdom of the Government in allowing money to accumulate in the vaults when there is an actual scarcity of it for business needs. In the last few days there has been paid 75 million on account of the shipping combine, and almost as much again on account of Penna. and Rock Island financial plans, hence the closeness temporarily of the money market. These payments are the clearest proof that the money demand is not for Wall street speculative purposes, as many people who are not posted have been affirming. The worst of the situation is now past. Money will be much easier very shortly, as the revenue war tax repeal bill becoming operative on July 1st, will cause the money situation to quickly adjust itself. It will shortly begin to be discounted by money lenders, especially on time loans. The Government will then cease to take in such enormous sums in excess of its actual needs. Were this appeal not going into effect so very soon it is more than likely that influence would be brought to bear at Washington to get the Government to increase its deposits with the banks. As it is it is not deemed necessary. Money will soon be again easy and then it will be comparatively smooth sailing. As to crop conditions it is an undeniable fact that the data collected by the railways through the great crop states is most accurate. They collect it for their own uses. These reports are reliable, and are not given out with the view of influencing cereal speculation, and these collected reports are exceedingly favourable. The outlook for a bullish summer speculation at present is the very best. We are as confidently bullish as ever, and from every point of view indications appear to be most favourable. We therefore urgently and confidently recommend stock purchases, believing they will prove immensely profitable. The strike has at last been ordered. We advise the buying of coal shares on depressions from now on. The market is off fractionally from opening prices, due to sellers who had ordered their shares sold in case of a strike being ordered. Support through the list was of the best possible character. Copper was bought by the interests that have been buying the stock for some time past. The crop report issued this afternoon should prove to be a favourable market factor. Buy when weak. Realize on the bulges for the present. — Haight & Freese Company.

State of Ohio, City of Toledo, Lucas County, (ss.)

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886.

(Seal) A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY, Toledo, Ohio. Sold by druggists, 75c. Hall's Family Pills are the best.

FRENCH ELECTIONS.

Reballot Held on Sunday Is Favorable to the Government.

Paris, May 12.—Paris held 19 Ministerialists and nine anti-Ministerialists, the latter gaining three seats in the Chamber.

The deputies elected include M. Clovis Hughes (Socialist), the poet.

The representatives indicate that the reballot has been favorable to the Government, as half the Ministerialists, including M. Leygues, the Minister of Public Instruction; M. Brisson and Jules Siegfried, former Minister of Commerce, were elected.

M. Passachal Grouset (Ministerialist), a retiring deputy, who was re-elected in Paris, died of apoplexy this evening. M. Lorthiois (Liberal Republican), who was elected in Lille in the Department Du Nord, died shortly before the polls closed.

All the anti-Ministerialists in Algeria were defeated.

The result of 168 reballots out of a total of 174, show that 128 Ministerialists and 40 anti-Ministerialists have been elected.

Cuban Flag Raised.

Havana, May 12.—At 23 minutes of 8 yesterday morning a large Cuban flag was for the first time hoisted over Morro Castle. This was the signal that the steamer Julia with President-Elect Palma and his party on board had been sighted.

On Magnetic Healing.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful *itching sensations* of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

Not Entirely.

A little investigation shows that the strong taste of pure cod liver oil cannot be entirely removed without entirely removing the oil. You can taste the oil in Scott's Emulsion, but it is not unpleasant.

Progressive Store News

To stand still is to go backward. Stagnation leads to business death. Every day we intend to do better by you than the day before, but trying to do the best possible that experience and closest watching and buying can supply. Spring housecleaning brings many wants, and we realize that if bargains in that line are not given when wanted, they cease to inspire enthusiasm. We quote a few of the many lines which make this store popular:

Wall Paper Department.

600 Rolls Wall Paper, embossed gold, with 9 or 18 inch frieze, regular 25, 30 and 35c single roll, your choice for a few days, per roll. 15c

More Peace Rumors.

London, May 12.—There was a fresh crop of peace rumors Saturday. It was stated that a hopeful despatch had been received by the Government from Lord Kitchener, but inquiries at the War Office were not able to glean any information on the point.

Natives Kill Boers.

Vryheid, Southeastern Transvaal, May 10.—Natives whose kraals were recently burned by burghers, attacked a Boer laager in the vicinity of Scheeper's Nek May 3, and killed 32 Boers.

Lazy Livers and Sluggish Kidneys

When these organs fail to perform their proper functions, the blood becomes poisoned and and suffering and disease commence. This can be avoided by keeping your vitality at high-water mark, the blood rich and pure, by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. Morning tiredness, Languor, Dizziness, Pain in the Back and Sick Headache disappear at once when Ferrozone is used. Get it to-day. Price 50c., at Ormond and Walsh's.

Dr. Hamilton's Pills cure Biliousness.

Diphtheria and scarlet fever cannot spread where Vapo-Cresolene is used. All Druggists.

Having resumed business in the old stand I am prepared to give prices to suit all.

ST. VINCENT IN ASHES

Hundreds Have Perished on the British W. I. Island.

ERUPTION OF THE 'SULPHUR PIT'

St. Pierre, Martinique, the Open Graveyard of Thirty Thousand People—Ten Thousand More Victims in the Near Vicinity — Visited by Suchet's Captain—Relief From France, Britain and United States.

St. Lucia, W. I., May 11.— The island of St. Vincent is threatened with similar disaster and St. Lucia lies midway between these two volcanic centres. The volcano called the Soufriere (sulphur pit), on the northwestern part of St. Vincent, is in sympathetic eruption.

One-third of the north side of the island, or for a distance of six miles, is a burning, sizzling strip.

Incandescent sand and red hot cinders are filling the fertile and well populated valleys.

All the springs have been dried up, and the lakes are steaming pits. The residents are dying of burns and thirst, and many have been overtaken in their flight by the overflow from the Soufriere.

In this one hundred and fifty mile stretch of the Windward Islands the volcanic ashes from St. Vincent and from Martinique overhang in vast clouds, turning daylight into partial darkness.

Kingston, the capital of St. Vincent, on the southwestern end, with a population of five thousand, is still safe, but the people are alarmed and fear flaming masses from the Soufriere may overwhelm them at any moment.

500 Lives Lost on St. Vincent.

Kingston, Island of St. Vincent, B.W.I., Saturday, May 10.— After numerous earthquakes, during the preceding fortnight, accompanied by the subterranean noises in the direction of the Soufriere volcano, in northwestern part of the island, a loud explosion occurred Monday last from the crater.

The crater is still active as this despatch is sent, and great loss of life is believed to have occurred. The lava has destroyed several districts with their live stock.

The eruption is now invisible at Kingston. Huge dust clouds were blown eastward. Great distress prevails at St. Vincent, where there are many injured people. It is believed that 500 persons have lost their lives at St. Vincent. The majority of the corpses are still unburied.

Great tension prevails everywhere throughout the West Indies.

Britain Sends Aid.

London, May 12.—The Colonial Office announced yesterday that in addition to the British cruiser Indefatigable, ordered to St. Vincent from Trinidad, the British third-class cruiser Pallas has been ordered to St. Vincent from Jamaica with supplies for the sufferers on the former island.

AN OPEN GRAVEYARD.

Beyond Doubt 40,000 Victims Are Involved in the Disaster Caused by Mount Pelee's Eruption.

St. Lucia, W. I., May 11.—It is certain that the City of St. Pierre, Martinique, has been obliterated, with its thirty thousand population, and other towns within the shadow of Mount Pelee, in all probability, have been razed by flaming gas and cinders and by red hot rocks and incandescent sand.

At present all attempts at rescue or investigation are practically useless. Along four miles of the western coast of the island there is a wall of fire, and at sea the sky is black with smoke and ashes.

Passing vessels report that the blanket of fire which fell upon St. Pierre appears to be consuming all the country for miles around.

Since the rescue of thirty persons by the French cruiser Suchet. It is not known here that another person is left alive in St. Pierre, though it is hoped that more rescues may have been effected.

It seems beyond doubt that the radius of destruction has involved at least forty thousand victims.

No Response to Signals at St. Pierre.

The latest reports from the vicinity of St. Pierre come by the Royal Mail steamship Esk which called off that port at 10 o'clock last night. Attempts were made to signal the possibly living by throwing up rockets and blowing the whistle. There was no response.

A boat was sent toward shore, but a landing was found impossible because of fire along the coast for miles. All the shipping in port had been destroyed.

A later attempt to enter the city by officers of the French Colonial Government was barred by flames. Among the ruins of the streets lay hundreds of bodies.

The British steamship Roddam, of all the shipping in the harbor, alone escaped, and came into this port with a cargo of dead and dying. She was dismantled and almost wrecked. She was burned from stem to stern.

Ten of her crew had been scorched to death, while she fought her way to sea. The captain, terribly burned and blinded, steered his ship through a storm of fire. He was the only man on board able to help himself above deck.

Crawled Aboard Amid Cloud of Fire.

The steamer's agent was alongside in the harbor at St. Pierre when the city was overwhelmed, and crawled on board, in what he says was a "cloud of fire." He was severely burned, but will probably live.

Two men of the crew have died since they were taken ashore to the hospital in St. Lucia, and the captain is not expected to survive.

It is probable that the agent of St. Pierre will be the only survivor of those who reached here. The Roddam was navigated to safety by a handful of dying men.

Late advices say that some of the inhabitants of St. Pierre, taking warning, fled to Fort de France, the capital of Martinique, and a few came to St. Lucia; but, almost all of these refugees were women and children, sent away by their husbands and fathers. These are now left destitute and desolate.

Thousands of persons are flocking into Fort de France, and famine faces these sufferers. Animals are dying all over the island and all fodder and growing crops are withered.

It is impossible to obtain any coherent account of the catastrophe from the survivors in this port. Almost without exception they are tortured with injuries and have only a half-crazed recollection of a fight for life.

Thirty Persons Rescued.

Fort de France, Island of Martinique, May 11.—Advices received here to-day from the vicinity of St. Pierre (10 miles from here), contain further details of the terrible volcanic upheaval which resulted in the utter destruction of that town and the death of nearly all its inhabitants.

Throughout Thursday the heat in the vicinity of St. Pierre was so intense and the stream of flowing lava was so unremitting that it was impossible to approach the town during the early part of the day. As evening approached the French cruiser Suchet, after a heroic battle with the heat, suffocation and sulphur fumes, succeeded in making a dash toward the shore nearing the land close enough to enable her to take off 30 survivors of the disaster, all of whom were horribly burned and mutilated.

St. Pierre at that time was an absolute smoking waste concealing 30,000 corpses.

The 450 survivors who were brought here yesterday from the vicinity of St. Pierre by the French cable repair ship Pouyed Guertier came from the Town of Le Procheur, where surrounded on all sides by flowing lava, they were nearly roasted to death and expected momentarily to be engulfed.

The latest reports received here showed that lava continues to pour down the slopes of the mountain, slowly engulfing the whole north side of the island, while fresh crevasses are continually opening.

Hills Covered With Refugees.

Paris, May 12.—A despatch received yesterday from Fort de France, Martinique, says: "All the hills surrounding Le Carbel and Le Precheur, near St. Pierre, are covered with refugees to the number of about 5,000, who are being taken away gradually. In the meanwhile provisions are being conveyed to them.

"Of the thirty people who were originally rescued by the French cruiser Suchet the majority were fearfully burned and nine died while on their way to the hospital.

"The corpses which are heaped in the ruins of St. Pierre are not only completely naked, but are frightfully mutilated."

Drowned While Fleeing.

St. Thomas, D.W.I., May 11.—Advices received here from the Island of Dominica to-day, say that boats arriving there report that many persons were drowned while crossing to Dominica from the Island of Martinique, where some of the out parishes have been inundated. The eruption of Mount Pelee (Martinique) continues. The lava is progressing northward. The whole northern region is now a rocky waste, denuded of vegetation.

Authorized All Money Necessary.

Paris, May 12.—The French Cabinet has authorized the Minister of Finance to expend all moneys necessary for the sufferers, and an officer has sailed from Brest with $100,000.

Washington, May 12.—The Senate in Washington has passed a bill appropriating $100,000 for relief work in Martinique.

Chronic Catarrh Cured.

In Merrill's System Tonic one finds a pleasant-to-take but powerful blood purifier. It is this feature that makes it a never failing cure for Chronic Catarrh and Chronic Rheumatism. Money spent in snuff is only wasted. Remove the cause — Take Merrill's System Tonic. Price 50c. for 50 doses, at Ormond and Walsh's drug store.

What the Death Mask Shows.

The value of a plaster cast as a portrait of the dead or living face cannot for a moment be questioned. It must of necessity be absolutely true to nature. It cannot flatter; it cannot caricature. It shows the subject as he was or is, not only as others saw him in the actual flesh, but as he saw himself. And in the case of the death mask particularly it shows the subject often as he permitted no one but himself to see himself. He does not pose; he does not "try to look pleasant." In his mask he is seen, as it were, with his mask off.

FIRST SOD WAS TURNED

By Commissioner of Public Works For Temiskaming Railway.

North Bay, May 12.—Saturday was a notable day in the history of the town. After ten years of agitation, the first sod was actually turned for the Temiskaming and Northern Ontario Railroad. The town was en fete, business was generally suspended, and many pedestrians and all who could procure conveyances were at Trout Lake. Hon. F. R. Latchford arrived by the Soo train from the east and was driven to the Pacific Hotel.

Headed by the North Bay Brass Band, the party left for the scene of the ceremony, which was on Mrs. Delaney's farm, about four miles from the town, on the shore of Trout Lake. Here addresses were presented to Mr. Latchford from the Board of Trade, by its president, Mr. Purvis, who also presented an address from the Township of Widdifield. A silver spade was presented to Mr. Latchford by Harry Hughes, and the first sod was then turned.

Mr. Latchford, after going through the formality, spoke briefly, and his speech was remarkably free from politics.

The Dominion Will Benefit.

Hon. Mr. Latchford, who was loudly cheered when he rose to reply and whose address aroused great enthusiasm, said: I share with you in your rejoicing to-day on the first step in the construction of a railway that will, I believe, be fraught with great advantage not merely to your town or to the district through which the railway will pass, or to the district which it is specially constructed to benefit farther north, but to the whole Province of Ontario and incidentally to the whole Dominion of Canada. (Applause.) Living as you do, most of you, in a town and township which to-day owe their prosperity chiefly to the construction of a railway, you appreciate to the full, I am sure, the advantage which railway construction brings in establishing such conditions as you have at North Bay, and opening up for settlement such townships as Widdifield, Bonfield and numerous other agricultural townships along the line of the C.P.R.

A Food for Brain and Muscle.

Whether it is brain fag, loss of memory, inability to concentrate the mind or bodily weakness and general debility Dr. Chase's Nerve Food will restore your old time energy, strength and health. Through the blood and nervous system, it reaches every part of the body and overcomes weakness, irregularities and disease.

BELTON WAS DROWNED.

After Old Welland Canal Was Unwatered, Body Was Found.

St. Catharines, May 12.—William Belton, who has been missing from his home since Friday, May 9, was found in the old Welland Canal at the mouth of the Ten-Mile Creek, Sunday morning. The canal was unwatered at this point, to aid in the search. There were no marks of violence on the body, so Coroner Dr. Goodman deemed an inquest unnecessary. Deceased leaves a wife and seven small children.

Diarrhoea Weakens the System.

and if not checked becomes a chronic condition. No remedy compares with Nerviline, which is prepared especially for stomach and bowel troubles. As a radical cure for cramps, colic, gas in the stomach, summer complaint, Nerviline excels everything in the medical line, as an indispensible household staple, and costs 25c. Buy a bottle to-day.

Try Dr. Hamilton's Mandrake Pills.

A. BLADE, Manager.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until Tuesday, 3rd June, 1902, inclusively, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. of amount of the tender, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, 2nd May, 1902.

Newspapers inserting this advertisement without authority from the Department will not be paid for it. 3d187

Choir Concert.

The concert given by the St. Andrew's church choir a short time ago, will, by special request, be repeated on Monday evening next, May 19th. The programme was so well rendered as to guarantee a large house on its being repeated. Admission, 15 cents. 3eod

Inside Workers, Rally To-night.

All "inside" workers in connection with Peterborough Federal Union, No. 9240, are requested to meet this evening in the Labour Hall, Water street, at 8 o'clock. The charter outfit has arrived. By order, W. A. Redfern, Secretary, Federal Union, No. 9240.

New Boots.

We are putting into stock this week a large assortment of ladies' and gentlemen's boots and shoes of the very latest Canadian and American styles. The "Keith" boot for men and the "Victoria" boot for women, are very popular makes. See display in our window. Ask for union made goods. John Kyle, Hunter street. 6d

A Good Job.

Contractor T. G. Moore, has just completed roofing the Schmaider building, which was demolished by a falling fire wall some months ago. Mr. Moore is being congratulated on the excellence of the job, and the despatch in which he carried out his contract. The roof is of iron, and is a splendid sample of workmanship.

A Big Shipment.

The firm of William Lech & Sons this morning made a heavy shipment of musk-rat skins to Leipsic, Germany. There were 10,000 skins in the shipment. A member of the firm states that rat skins are quite plentiful this year, and the price is the highest paid in the last eight years.

The Toronto Jarvis Street Choir.

Mr. W. Bunton, the thoughtful uptown ticket agent of the G. T. R., went up to Toronto this morning to look after the comfort of the members of the Jarvis street choir, and accompany them to town. They will arrive at the Grand Trunk station at 5.30 p.m. in one of the G.T.R. Company's handsome main line solid vestibule cars, courteously placed at their service by the railway company, through the kind offices of Mr. Bunton. This special car is worth seeing by our townspeople. The members of this notable choir return to Toronto to-night after the "Service of Praise" in St. Paul's church. No one should miss hearing them.

A refrigerator is no longer a luxury—it is a necessity. We have six sizes and three qualities of the best refrigerators made to show you—The Boot Stove Co., next door to the post office.

PERSONALS.

Miss Clara Hatley, of Orillia, is visiting her sister, Mrs. E. A. Langfeldt.

Mr. Frank Cox came down from Toronto on Saturday for a few days holidays.

Lt. Ormond Bradburn in a letter received from him this morning, states that he sails for South Africa on the 16th inst. He is rooming at present with Lt. Jim Hamilton, of Woodstock.

One of the Peterborough boys just before sailing for South Africa writes home to his parents that Frank McKnight, son of Mr. Samuel McKnight, of Ashburnham, is amongst the troopers of the Western contingent.

Port Hope Guide.—Mr. H. A. Walker and brother John, Welcome, went out to Peterborough on Thursday to pay their last respects to their friend and relative, Mr. H. Denne, whose funeral took place that day.

REG. IS ILL.

Word has been received in town that Reg. Turner, who is serving with one of the Canadian contingents in South Africa, is in a hospital suffering from an attack of enteric fever.

ST. PAUL'S CHURCH
TO-NIGHT !
Doors open at 7.30.
Be early !

NEWS NUGGETS.

—Jarvis street choir in St. Paul's church this evening.

—The regiment will likely have a march out to-morrow evening.

—The Chief is issuing a number of summons to those who have not paid their Statute Labour tax.

—As an evidence of the interest still taken in the town by an old Peterborough boy it might be mentioned that Mr. J. W. Flavelle this morning filed an application for stock in the new rink.

The Franz Reithofer Alpine Yodlers, of Bavaria, a most charming company of entertainers, are being brought here Tuesday evening of next week under the auspices of All Saint's choir.

—The members of the Fraser Mission Band of St. Paul's church are reminded of the regular monthly meeting of the society which will be held to-morrow afternoon at 4 o'clock. A large attendance of members is requested.

—At the police court Saturday morning Alfred VanKoughnet was sentenced to one month in the county jail with hard labour for stealing some fixtures to a house belonging to Mr. Thos. Williams.

—Mr. J. J. Elliott has just completed the contract of painting the exterior of the Murray street Baptist church. The church looks decidedly improved as a result and the workmanship was splendidly executed.

—The busy little Patent Medicine Store in the Grand Central Block, George street, is becoming well-known in town and country. Patrons are encouraging us and thanking us for being able to supply them with the leading preparations so much cheaper than they have been accustomed to pay. People who used to send to Eaton's find that they can buy just as cheaply at our store now.

HISTORICAL SOCIETY.

An Important Gathering to Take Place in Peterborough on June 4th and 5th.

The annual meeting of the Ontario Historical Society will be held on Wednesday and Thursday, the 4th and 5th of June, in Peterborough and Lindsay.

Om Wednesday a business meeting will be held in the rooms at Peterborough of the Historical Society. At this meeting a Nominating Committee will be appointed and the reports of local societies will be received.

Paper by Mr. C. Fessenden, "The Monument that Failed."

Address by Col. H. C. Rogers, president of Peterborough Town and County Historical Society.

Address by Jas. H. Coyne, Esq., B.A., President of the Ontario Historical Society.

Paper by His Honour, Judge Dean, of Lindsay.

On Thursday, 5th June, the first train from Peterborough to Lakefield will convey members and others to steamer for Lindsay, via Stony Lake, and Sturgeon Lake. Meetings will be held on board.

Miss E. Yates Farmer will read a paper.

Paper by Mrs. M. E. Rose Holden —"In the Heart of the Battle."

LINDSAY.

Public meeting at 8 p.m., in the Academy of Music.

Address by Mr. W. H. Stevens, M.A., President of the Victoria County Historical Society.

Paper by J. Hampden Burnham, M.A., on "The Feud of the Huron-Iroquois."

Paper by Mr. Frank Yeigh, on "Historic Landmarks in Ontario."

It is expected that a large number of delegates will be present from all parts of the province.

ANNIVERSARY SERVICES

At St. Paul's Presbyterian Church Yesterday—Rev. Dr. Parsons.

The anniversary services in connection with St. Paul's Presbyterian church, were held yesterday, when Rev. Dr. Parsons, of Toronto, preached both morning and evening. There were large congregations present on both occasions. The Rev. Dr.'s discourses were of much interest. In the morning he took for his text Matt xxvi, 28, "For this is My Blood of the new testament which is shed for many for the remission of sins." In the evening Rev. Dr. Parsons took for his text I Cor., ii 10th vs.

The music was in keeping with the anniversary services. In the morning the anthem was "Abide with Me," with solos by Miss A. Hall and Mr. J. Dawson. In the evening Mrs. Harry Johnston, of Millbrook, sang in a delightful manner, the solo, "Beyond the gates of Paradise."

SPORTING PASTIMES.

GOLF.

The draw has been made in the second round of the contest for places on the Golf Club teams, and is given below. Cards, properly initialled, are required to be dropped in the box before Monday evening next, May 19. Anyone who fails to play this round cannot secure a place on the team. The rules of Medal play govern. Members who cannot arrange a date with their opponents, should notify Mr. Burnett, the captain :

N. H. Hogg vs. Dr. Bradd.
Dr. McFall vs. A. Hollingshead.
R. J. Frost vs. A. St. A. Smith.
R. Granger vs. A. H. Stratton.
S. Ray vs. E. H. D. Hall.
R. M. Dennistoun vs. Dr. Neill.

C. H. Bradburn vs. W. D. Parker.
A. L. Davis vs. D. Davidson.
C. B. McAllister vs. John Gracey.
Dr. Greer vs. Ed. Brown.
W. H. Hill vs. R. Fair.

LACROSSE.

There will be practice of Y.M.C.A. men to-night at Nicholls Oval at 6.45 sharp. On Wednesday night the first team will play all others.

A meeting is called for Wednesday evening at 8.30 in the Y.M.C.A. of two representatives of the T.A.S., Y.M.C.A., and Athletic Lacrosse clubs for the purpose of getting the town league schedule drawn up.

The Athletics will practice to-night on the oval. The regular practice nights are Monday, Wednesday and Friday of each week.

Big shipment of refrigerators and oil stoves just arrived at the Boot Stove Co. Call and see them.

The Old Maids' Convention at Lakefield.

The Girls' Guild of St. Luke's church are giving an entertainment in Lakefield to-morrow under the auspices of St. John's church, Lakefield. A 'bus to convey the public to Lakefield will leave the post office corner, Peterborough, to-morrow (Tuesday) afternoon at 0.30. Return fare 25c.

The Temperance Question.

Mr. W. W. Buchanan, of Toronto, the father of the Manitoba Prohibition Bill, will speak in the Opera House on Tuesday evening next, May 13th, upon the temperance question as seen in the present election campaign. Other speakers will also address the meeting. A male quartette will render several selections. The meeting opens at 8 o'clock. 3d

WEDDED IN TORONTO.

Mr. H. C. Crompton Married to Miss Lila F. Smith, of Peterborough.

A wedding of interest to Peterborough people, took place at the residence of Major W. J. Ramsay, Mess Park Place, Toronto, on Friday last, when Miss Lila Florence Smith, second daughter of Mr. William Smith, Principal of the Central school, Peterborough, was united in marriage to Mr. Edwin Carter Crompton, of Brantford. The nuptial knot was tied by Rev. H. M. Parsons, of Toronto. The bride is well known in Peterborough, and her friends will join in wishing her many years of happiness.

Framed Pictures.

For very little money you can cover your walls most artistically, if your pictures are selected at the Peterborough Bookstore. We have put some very special prices on framed pictures this month, the subjects of which are most pleasing. Room mouldings are another important feature in room decorations. The plate-rail does wonders when care is taken to match the paper. Pretty effects and pleasing patterns at the Peterborough Bookstore.

Established Half a Century.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

ALWAYS ...IN... FRONT

We are the leaders, you will always find, when you want anything out of the ordinary, for this store can supply your wants. We are in close touch with the leading centres of fashion, and reproduce here in Peterborough anything new simultaneously with its appearance in the larger cities.

CARPET CHOOSING.

No one department of our business has more painstaking care than our Carpet Stock, and the fruit of our care is at your service. New Patterns, Harmonious Colourings, immense variety and close figured prices. If you've not chosen your Carpet, come and choose here from our extensive and varied stock.

SUPERIOR STYLES

Is the distinguishing character of the production of our artists in millinery styles that are exclusive with us, and made from materials that are the finest and newest. This is the store for ladies who appreciate new hats.

SHIRT WAISTS

Shirt waists for men are still open to doubt—but there is no doubt of their desirability for ladies wear. Our ready-made department is unusually well prepared to take care of the shirt waist question for you. Some ladies much prefer making their own waist. We have many pretty things by the yard for that purpose—better see them.

IMPORTANT WORK FOR BOTH GOVERNMENTS.

(Continued From 1st Page.)

and distilleries? Was any larger premium on insurance paid on account of this tax? Who felt this as a burden? Certainly, no one. And the revenue went to maintain the unfortunates in the Institutions that would have to be maintained—if not by the Government, then by the municipalities—and it was a wise Government that looked out in advance to see that revenues were provided sufficient to meet the public expenditure. As the Province grew the expenditure would grow; as the municipalities advanced their expenditure would increase; and it was satisfactory to know that the farmers of Ontario, that the citizens of Ontario paid less taxes than any State of the Union, and this was brought about by the wise distribution of one half the receipts of the Province in lessening the burden of local taxation. Who was more entitled to pay to assist in the administration of the affairs of the province than those wealthy corporations that had the protection of and had been assisted by the province when assistance was necessary? Mr. Stratton then dealt with the Government's policy in regard to pulp concessions. He briefly showed that first of all the Government desired us to have manufacturing establishments erected. They wanted

EMPLOYMENT FOR OUR WORKING MEN

in the mills as well as in the factories, manufacturing machinery for the mills. They wanted inducements for settlers to go into the country, and the inducement to the settler was that he would have the pulpwoods upon the land for disposal to the pulp-mills, and the province would have the revenue, for on every cord of pulpwood cut there would be 40 cents go into the Treasury. No land was given away. No pulp woods were given away. The more pulpwood cut the more benefit to the settler, and the more revenue to the Crown. It was a business proposition and business men approved of it. It was only Tory politicians who disapproved of it. But their disapproval did not meet with the sympathy of the people, and it was the people that we were legislating for and not the Tory politicians. Mr. Stratton referred to the development railways that were to be constructed, of which 500 miles was under way, providing facilities for settlement, for the plough horse followed the iron horse. As the railways were constructed, the country opened up. Schools were built, villages were created, and rapidly grew into towns. These new centres of population would want supplies. Old Ontario would furnish the supplies and as a consequence there was a hum of industry in this province to-day that was fully appreciated by the working men, that was recognized by the business men; and the banks had increased their capital to meet the demands created by the flourishing conditions that existed in the country now, conditions that did not exist until the last few years. Of that great country to the north of us, 100,000 square miles would

NOT HAVE BELONGED TO ONTARIO

but for the Liberal Government of Ontario. It would have been parcelled out to the other Provinces and Quebec and Manitoba would have had it. We should, in that event, have been the smaller province. Our wings would have been clipped, and the other provinces would have been strengthened and enlarged at our expense. But thanks to the Liberal party, Ontario was occupying the position to-day of being the greatest of all the provinces, foremost in legislation, foremost in administration, foremost in its laws, and foremost in its moral habits. It was foremost in its educational institutions and foremost in the intelligence of its people. This prominent position had been attained through the long course of Liberal Administration, and the same Liberal Administration that had placed Ontario in the front rank was found to keep her there and their policy was framed for that purpose. It was a policy for a live country not for a dead and unprogressive people. The land grant to the Algoma Central enabled the railway to be constructed. It brought into close communication mines that had been lying dormant; minerals that had been hidden in moss-covered rocks for ages, were being developed, ore was being transported to the smelters, steamers were busily engaged that were

NOT IN EXISTENCE BEFORE

the Ross Government came into power. These matters were made light of by the Opposition. Conservative speakers belittled the aims and objects of the Government. Nothing was done right in their eyes, but the people who rule, thought differently, and the Opposition would realize this when the people had an opportunity of expressing themselves at the polls on the 29th of May.

Mr. Stratton went on to say that some comparison had been made with regard to an appropriation of $4,000 to assist in the construction of a dam on Stony Creek waters in the interests of the Dickson Co., and the $3,500 appropriation given by the Government of Ontario to assist in re-building the Ennismore bridge. An attempt had been made to show that undue favouritism had been shown to the Dickson Company in connection with the matter. The facts, as all would be aware, were that the County Council of Peterborough, asked the Ontario Government for an appropriation of $3,000 or $3,500 to assist in the purpose mentioned. It was well known that at one time the county entertained the idea of abandoning the Mud Lake Bridge, and intimated, not indefinitely, that unless the Township of Ennismore, or the Government, contributed largely to the re-building of the bridge, that the work of reconstruction would not be undertaken by the county, as the expenditure would be large. Mr. Stratton said he thought at that time that

IT WAS NOT FAIR

to ask, or force, Ennismore to bear the burden of contributing to the building of a county bridge, when all the other county bridges had been built by county funds, to which Ennismore, through the county rate, had contributed its share. Mr. Stratton submitted that the stand he took at that time in his newspaper, the Examiner, had perhaps some effect in preventing such an injustice to Ennismore, and, perhaps, his being a member of the Ontario House, and the efforts he made to influence the Dominion Government, did not show that he was neglectful of the interests of Ennismore. The Government agreed to the request of the deputation from the County Council, and made the appropriation asked for. And later an additional appropriation was made by the Government and expended for improving the road running from the Pigeon Creek bridge to the Mud Lake bridge, thus bettering the means of travel used, not only by the residents of Ennismore, but by the large number of residents of Victoria County to reach Peterborough, their best market. In regard to the Ennismore Bridge grant, it would be observed that the Government got all that it asked for, something that deputations approaching Governments for grants, did not always get.

In regard to the construction of the Stony Creek dams, Mr. Stratton remarked that it had been the policy of the Government to assist in the erection of dams on the back waters of the north country, in order to aid the lumbermen in getting their timber to market. In pursuance of this policy dams had been erected which have been of benefit to the Boyds, of Bolcaygeon; to Green & Ellis, of Fenelon Falls; to the Dickson Co., of Peterborough, to the Gilmour Co., of Trenton, and many others. It was not a matter of political complexion in any way. The question was whether this work was done with

THE PUBLIC INTERESTS IN VIEW.

The province was interested in helping the lumbermen to more profitably market the timber purchased from the Crown, and also the settlers would be benefitted in a similar way. Streams had been improved by dams, and otherwise, to help the settlers in getting to market the timber removed and made merchantable in the process of clearing the land. Mr. Stratton said that he had no apologies to make for pursuing the course that had been followed, and he was candid enough to say that if the public interests required it, he would feel it incumbent on him to again assist any company. The point was that it was not a question of political preference or prejudice whatever. It was a matter in which the public interests were to be the first consideration. That was the desire that had animated both the Government and himself.

There was no question more important to the people of the county and the town and to the owners of water powers on the Otonabee River that the conservation and storing up the water by means of dams of the kind under mention, and similar structures; and everything possible in this direction should be done by the Ontario or Dominion Governments to improve the dams and to build new dams for the purpose of storing the water in the spring and releasing it as might be found necessary in order to make an even and adequate flow of water throughout the course of the summer and maintain

A STEADY SUPPLY OF POWER

to manufacturing concerns. There were, Mr. Stratton explained, fifty or so dams existing in the northern country and affecting waters tributary to the Otonabee which could, for an expenditure of from $20,000 to $30,000, be so repaired that the best possible results could be obtained from storing up the water, and this expenditure would mean an improvement of at least 50 per cent. in the flow of the water. If this were done, it would be of immense value to all the power owners upon the river. Yet if the expenditure were made, it would be charged, perhaps, that political favouritism was being exercised, but everyone knew that Peterborough, town and county, would benefit by the increased power which would be developed, and which would give it an advantage over other places in the province, in furnishing a cheap motive power for manufacturing establishments. Not only the town, but the surrounding country, would be benefitted, because the more the town was built up, and manufacturing establishments and population increased, the better would our now excellent market be, and the better price the farmers and others would obtain for their products. It was difficult to understand why newspapers and others who should have the interests of the town and county at heart, should allow their eagerness to make a party political point against an opponent to overcome their loyalty to the town and county, and imperil the interests of their advancement. We wanted all the expenditure possible made in order to develop power for the use of manufacturers in an increased quantity, and to make that power so even in its supply, that it could

BE DEPENDED UPON THE YEAR ROUND;

and the two Governments, Ontario and Dominion, were now considering the important question of the handing over from the Province to the Dominion, of all the dams on the waters of the back country. If the dams were placed in the hands of the Dominion Government, the work of improving the water supply should be insisted upon. If the two Governments did not agree, it would be a question to consider by the Government of Ontario, as to how far they could go in doing the work in the direction mentioned. There were some private dams which were rotting away, and actually interfering with the flow of the stream, and something must be done, somebody must act—in order to provide conditions that would preserve the even flow of the stream, and give manufacturing establishments the steady and adequate supply their industries demand. The placing of these dams under one undivided jurisdiction would locate the responsibility and secure more effective management of the streams than could be obtained under a divided jurisdiction. Giving the Dominion Government the control of the dams would localize the responsibility where it should perhaps properly belong, for any action they might take and should take in preserving and improving the dams in question in order to increase the water flow for manufacturing purposes would also contribute to the success of the canal which was Government work, and insure the steady supply of water for the purposes of the operation of the canal.

Mr. Stratton concluded by saying that he did not think the Dickson Company should be abused or treated differently in regard to business matters because they are Liberals. He did not think it was in the interests of Peterborough to abuse any citizen whether they were Liberal or Conservative, when matters of importance to the town and the public interests in general, were involved. Nothing could be accomplished by that. He had, Mr. Stratton said, no doubt that the best and most progressive elements of the electorate would favour his re-election—when the election excitement was over, when the clouds rolled away and the moment for sober reflection came, even those who had opposed him would, perhaps, acknowledge that he had honestly striven to advance the interests of the town and county of Peterborough, and that some measure of success had attended his efforts, and that his future services in the same direction could be confidently counted upon.

He concluded by urging the electors to give him their cordial support in his position as a member of the Government and he was satisfied that he could give to Peterborough, town and county, even better service, with his increased knowledge, with his increased opportunities, than he could as an ordinary member of the House.

The meeting closed with the usual cheers.

CAMPAIGN COMMENTS.

A Conservative paper says the money spent in maintaining public institutions is spent to pay "an army of useless officials," who look after elections.

This is blind partizanship. The nurses and attendants who minister to the afflicted in our public institutions are not over-paid and do not get much time to look after elections.

A coarse sneer like that fits well a party which has no policy, but slander and abuse.

Mr. Whitney has been in Parliament fourteen years, and no one can point to a single motion he has introduced having for its object the development of New Ontario.

Mr. Whitney opposed the Temiskaming Railway, a development railway representing the policy of the Government to construct and own its own railways.

It is to be built by the province, from the proceeds of provincial lands, without a cent of cost to the ratepayers—and is a tremendous advance in provincial policy.

What is the Opposition policy, anyway?

Mr. A. W. Wright, one of the Conservative organizers in this campaign, said that the labour laws of Ontario were immeasurably in advance of most of the states of the Union, and we had not much to learn from any State.

These are the laws placed upon the Statute Books by the Liberal Government of Ontario. The extent and beneficial character of these laws give working men and women a degree of protection which is enjoyed to a superior degree by the working men and women of no other country.

A Government which has done this deserves recognition from the working men on May 29th.

Working men! Mark your ballots for Stratton, the member of a Government which has done so much in your interests.

Where does Mr. Whitney stand? To help his candidate in a bye-election in Welland, he promised to supply a municipality with power developed by a provincial water privilege free — "free as air." In the House last session he supported a wild cat scheme to have the Government spend millions to develop the water power of the province, at cost, for the benefit of municipalities.

Mr. Whitney says he opposes an export duty on nickel, which his first lieutenant favours. Mr. Whitney also favours the export of pulp wood, and the sale of pulp woods lands outright to speculators.

Mr. Miller, the Conservative candidate, speaking at Bailieboro last Monday night inferentially based his claims to support upon the fact that he was an Irishman "from Donnegal."

Speaking at Bailieboro on behalf of Mr. Miller, Mr. Burnham said he could "see no sense in the cry 'Develop New Ontario.' Is Old overpopulated? New Ontario is a downright humbug."

Mr. Miller did not reprove Mr. Burnham for thus slandering the bigger half of this province, which Mr. Whitney called "the land of the stunted popular."

Mr. Garvin speaking at Ennismore on Saturday night said that Mr. Whitney was just as anxious to develop New Ontario as the Government, and had urged its development for a much longer time.

Where does Mr. Miller stand between these conflicting positions of the men who are pushing his cause?

Is he trying to serve two masters in this matter as he is trying to do on the temperance and prohibition questions?

When you find Mr. Whitney and any of his stumpers or candidates agree on any item of policy you may put it down as an accident—not as a result of any definite agreement upon the means to be employed to hoodwink the electors.

The privately avowed object of the temperance (?) meeting to be held in the opera house on Tuesday night, as stated by the local promoter, is to ratify the choice of the Conservative candidate as the "temperance" candidate of the Alliance.

Of course the political object of the meeting was concealed from the ministers who were thus deluded into announcing a practically political meeting from their pulpits.

The Conservative candidate is pledged to the support of a leader who denounces prohibition and declares in favour of a perpetuation of the traffic honest temperance people are seeking to abolish.

THE BEEHIVE

"WHATEVER WE DO, WE DO IT WELL."

LADIES' UNDERSKIRTS.

This week we are showing great values in Black Satanna, Coloured and Moreen Underskirts.

Our Black Satanna Skirt, lined flounce, pleated ruffle, all lengths in stock, is splendid value at $1.00

See the line we are selling with heavy flounce, well trimmed with bias ruffles. It is much admired $2.25

Some special styles in Black Underskirts, accordion pleating, Vandyke trimming. Also those with silk flounce embroidered with white silk and stitching, at $4.00, $3.00 $3.75, $3.50 and .....

We carry a splendid line of White Underwear, very neat and daintily trimmed, at quick selling prices.

Our range of White Skirts is very extensive. They run from 95c to $12.00. See our White Indian Lawns.

Ladies' Gowns, Dressing Saques, etc. All the Oriental ideas and latest styles are represented here.

Our free class in Lace Work begins on May 26th. A free course in Point, Flemish, Honiton and Duchess Lace. Enquire at Art Counter.

Try one of our Mode Dress Patterns, accurate fit, correct style and popular price, 15c.

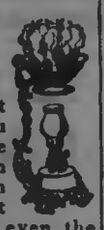
They say that "PING PONG" will be played all summer. Salisbury Co. have a big stock on hand. Prices start as low as $1.00.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

Kills Germs.



That's precisely what Vapo-Cresolene does. You light the vaporizer, the vapor of Cresolene is given off. Not a disease germ can live in this vapor, yet it can't possibly harm even the youngest child. Just naturally breathe in the vapor; it destroys the germs of la grippe, hay fever, influenza, and whooping-cough. It's the common sense treatment for all troubles of the throat and bronchial tubes.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE CO., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

ELECTRIC LIGHT

Can be put in your house at small expense, even though it is not wired for it yet.

WIRING.

Installed by our system, means a clean, safe job; no plaster broken, or decorations spoiled, but the wires concealed in the walls in a through way, worklike manner, and subject to the approval of the Fire Underwriters.

FIXTURES.

We handle the lastest productions of the leading manufacturers, thus assuring you thorough satisfaction, both in quality and design. Our shades are from the latest foreign importations. At this season our prices are particularly close. Have your electrical work done during house-cleaning time.

CALLED TO HIS REST

Rev. Dr. George M. Grant, C. M G., Head of Queen's University.

GREAT CANADIAN PASSES AWAY

The Principal Succumbs After a Long and Gallant Fight—A Peaceful End —The Record of His Life—Strenuous Effort and Wonderful Achievement in Many Lines of Activity.

Kingston, May 12.—Entered into rest on Saturday morning, the 10th, the Very Rev. George Munro Grant, M.A., D.D., LL.D., C.M.G., Principal and Vice-Chancellor of Queen's University, Kingston, Primarius Professor of Divinity in the faculty of theology. A great university ruler has been called away from the earth. At 11 o'clock Saturday morning the spirit of Principal Grant passed to its God.

The remains of the late principal were laid in a black cloth-covered casket, with black satin lining and oxidized silver trimmings. Two silver plates are on the cover, one with this inscription: "George M. Grant, born Dec. 22, 1835; died May 10, 1902." The second one bears the words: "At Rest." The burial case is plain but substantial.

The body lies in the parlor of the residence, and will remain there until Tuesday, when it will be transferred to Convocation Hall. The public will be admitted from 10 a.m. to 1 p.m. The funeral will occur at 3 p. m. The burial occurs at Cataraqui Cemetery, where the remains of his wife, who died over a year ago, are interred. By the request of deceased and family, flowers are not desired. Rev. Dr. Wardan of Toronto will officiate.

For several years Principal Grant suffered from kidney trouble and underwent several operations for relief. Last fall, on his return from England, he passed through a critical illness, from which he had a remarkable recovery. But on April 29 the old trouble returned, and ever since he was confined to his bed.

"His end was most peaceful, and he was conscious to the last, recognizing and smiling to those about his bedside."

Surrounding the death bed were his son, William L., his sister-in-law, Mrs. Field; his niece, Miss Jessie Field; the doctors, and his faithful old servant, Janet. The end was silently and tearfully awaited, and at 11 o'clock the kindly heart had ceased to beat. Fifteen minutes later the Union Jack floated at half-mast over the university tower, announcing that the great life had ended.

Principal Grant wore himself out for Queen's. He seldom rested, and though of a wiry and athletic frame his constitution could not stand the terrible strain. He has passed away in the twenty-fifth year of his principalship of Queen's, ere this jubilee could be fittingly celebrated by the laying of the corner stone of Grant Convocation Hall next autumn. That event will still take place, but it will be a memorial occasion.

Brief Review of His Life.

Rev. George Monro Grant was the son of the late James Grant, a Scotchman by birth and a school teacher by occupation, and was born at the Albion Mines, Nova Scotia, Dec. 22, 1835. He was educated at Pictou Academy, and at the West River Seminary of the Presbyterian Church he received a bursary in 1853 that entitled him to a course at the University of Glasgow. His career there was exceptionally brilliant, being first in classics, moral philosophy and chemistry. He carried off the Lord Rector's prize of 30 guineas for the best essay on Hindoo literature and philosophy. In November, 1860, he was ordained to the ministry of the Presbyterian Church and returned to Nova Scotia in the following year, when he was appointed to a mission in the County of Pictou, afterwards ministering in Georgetown, P.E.I. In May, 1863, he accepted a call to the pastorate of St. Matthew's Church, Halifax, where he remained 14 years. While in Halifax he was director of Dalhousie College, a trustee of the Theological Seminary and member of many benevolent societies. He was a zealous advocate of union in the Presbyterian Church, and when that was consummated he, as moderator of the church Synod, subscribed the articles in its name. In 1872 he accompanied Sir Sandford Fleming on an overland journey to British Columbia, and in the following year published a work, "Ocean to Ocean," which has passed through several editions. In 1877, he became principal of Queen's College, receiving the degree of D.D. from Glasgow University. Owing to the withdrawal of the Government grant from the University soon after Confederation, the finances of that institution were in a depressed state, so he set to work to raise an endowment fund, collecting the sum of $150,000, to which he has since added $250,000. He belonged to the liberal school of thought in the Presbyterian Church, and, while he adhered to the cardinal doctrines of the gospel, he desired to give the utmost freedom to individual thought within the limits of the fundamental basis of the church. He looked forward to further triumphs of the principles of union taking the form of the federation of the great Protestant churches. He never identified himself with any political party, but gave his support in Nova Scotia to those who advocated free schools and the confederation of Canada. He supported every movement looking to the propagation of Canadian sentiment, the extension of trade on British lines and closer relations between the colonies and the Motherland. Some of his most important literary works were: "New Year's Sermons," published in 1865-6; "Reformers of the 19th Century," 1867; "Our Five Foreign Missions," 1887; "Advantages of Imperial Federation," 1889; "Our National Objects and Aims," 1890; "[illegible] of the World in Relation to Christianity," 1894, and "The Religions of the World," 1898. He also edited "Picturesque Canada," 1882, and wrote frequently for English, Canadian and American magazines. In 1880 he went on a journey around the world, lecturing in Australia and other countries. In 1889 he was elected moderator of the general assembly of the Presbyterian Church in Canada, and president of the Imperial Federation League, Kingston. In 1891 he was elected president of the Royal Society of Canada, and in 1894 president of the St. Andrew's Society, Kingston. He was also honorary vice-president, under the Earl of Aberdeen, of the Boys' Brigade in Canada, and honorary chaplain of the 47th Regiment. He was appointed to every meeting of the Pan-Presbyterian Council since the great meeting was held in Philadelphia. He received the honorary degree of LL.D. from Dalhousie University, 1892. In 1872 he married Jessie, daughter of William Lawson of Halifax.

YOUR DOCTOR WILL TELL

That the Acidity Found in the Ozone Treatment is Due to the Presence of Oxygen.

It gives much pleasure to inform you that I have been completely cured of a very severe dyspepsia trouble from which I have suffered for over four years. I tried many remedies but none gave me any relief. I had used your preparation for piles, and I was cured after taking three bottles and this gave me courage. I continued using Powley's Liquified Ozone until I had taken nine bottles and I am happy now to inform you

MRS. OCTAVE LAROSE, MONTREAL.

that I am completely cured of dyspepsia. I was a little bit afraid of the acidity, but I found by practical experience that it did not harm me in the least. It did me good.

(Signed) Mrs. Octave Larose, 19 St. Andre Lane, Montreal, P.Q.

Most people fancy that Powley's Liquified Ozone is a strong acid when they take it, and are sometimes afraid that it will affect their stomach. There are different kinds of acidity. We'll tell you of two; that caused by fermentation and that produced by a natural element, that possesses a natural acid reaction. To this latter class does Ozone belong. The acid taste you discover in Ozone is due to the presence of oxygen which your druggist or doctor will tell you possesses a marked acid reaction. You needn't be at all alarmed about this kind of acidity affecting your stomach. It is natural and just what your system needs.

In the different uses of Ozone some people see a "cure-all." Powley's Liquified Ozone simply cures those diseases that find their cause in poor depleted condition of the blood. If you will take it regularly the increased vitality together with its antiseptic action will cure you of any disease caused in the manner indicated. you can obtain a bottle at your druggist's, two sizes, 50c. and $1.

RAILWAY FIRE-GUARDS.

Mr. Scott's Proposed Amendment to Railway Act—Losses by Fire—Matter to Be Threshed Out Next Session.

Ottawa, May 12.—The process of clearing up the business of the session progressed with fair rapidity in the Commons Saturday. The morning sitting was devoted to private legislation with the result that seventeen of the nineteen private bills on the order paper were put through their final stage and the remainder advanced. The public bills were taken up. The Yukon Representation Act was put through, with amendments providing that immediately upon the issue of the writ the clerk of the Crown in Chancery shall immediately notify the senior judge of the Yukon, who shall forthwith appoint the enumerators. These are to lose no time in beginning the preparation of the voters' lists and finish them in thirty days. Provision is also made for posting up these lists and revising them.

The bill to amend the Exchequer Court was dropped. The bill giving the Government power to remit fines in certain cases was passed.

Then Mr. Blair's bill to amend the Railway Act was taken up. The Northwest members took the opportunity to insist that a fire-guard provision be attached to it; while Mr. Demers (Iberville) moved to tack on an amendment making a railway company liable for fire caused by their engines, without regard to precautions the company may have taken.

Mr. Walter Scott's amendment was to compel railway companies to plow, at a distance of 300 feet on each side of the track, a strip eight feet wide, and to burn off the grass between these strips and the track. The object of this is to prevent prairie fires in the ranching country of the Northwest Territories, to which the operation of the amendment would be limited.

Mr. Sifton and Mr. Oliver of Alberta supported the amendment and so did Dr. Sproule and Mr. Belcourt.

The Premier expressed his sympathy with both amendments, particularly with that of Mr. Demers, which he declared to be both law and equity. But as the railway companies would be given an opportunity to present their views he would suggest that the matter be left over till next session, when both sides could be heard.

The amendments were then withdrawn.

Mr. R. L. Borden, who supported the principle of the amendment and also the Premier's suggestion, observed that such a measure as proposed should be made to apply to the Intercolonial.

Mr Blair's bill then passed without amendment.

The bill to increase the number of members of the Ottawa Improvement Commission from four to eight was passed.

The bill respecting the coasting trade of Canada went through. It provides that foreign built, British ships shall not be admitted to the privileges of the Canadian coasting trade until a duty of 25 per cent. is paid upon them. An amendment was added, however, that it shall not apply to foreign built ships registered as British ships prior to Sept. 1, 1902. The bill will not go into effect either until it has received the Imperial sanction.

The bill to incorporate the Maritime Stock Breeders' Association was passed.

Mr. Tarte's estimates were taken up, with the long string of 100 votes, for wharves and breakwaters in Nova Scotia. They amounted to $182,700.

Eccentric.

Mrs. Hunt—I suppose Jane Porter is the most truthful person in town. Why, I verily believe she would tell the truth even about her age.

Mrs. Pike—That wouldn't be truthfulness; it would simply be eccentricity.

He Was Warned.

Miss Palisade—I was very much surprised, Mr. Cleverton, that you were not at church this morning to hear me sing the solo. Didn't your friend Dash away tell you about it beforehand?

Cleverton—Yes; he was good enough to.

No matter how trifling a man is, he swells up if asked advice.—Washington Democrat.

In a Plaster OF Paris Jacket

To Relieve Excruciating Pains in Back and Loins—When Doctors Failed a Cure was Found in.

DR. CHASE'S KIDNEY-LIVER PILLS.

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidney disease. You cannot wonder at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. They have given him a new lease of life.

Mr. S. O. Demers, Conception Station, Labelle County, Que., writes;—"I am writing you in order that others who suffer as I did may profit by my experience. For three years I was obliged to give up all work on account of severe pains in my loins, back and sides. I ha dbecome so stiff in my body that I could not lean over without suffering the most excruciating pains.

"I consulted several doctors and specialists but all of them pronounced me incurable and could not even give me relief. One of them encased me in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die without being able to find a cure.

"About this time I received one of Dr. Chase's books and found my case described exactly. The sample of Dr. Chase's Kidney-Liver Pills which came with this book gave me marked relief, so I bought some more and continued the treatment. Gradually the sharp pains in my back and sides grew less severe, and my bowels became regular and active—constipation had been one of my worst symptoms.

"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and side, frequent desire to urinate and pain in making water, stiffness of the body and all the accompanying derangements of the liver and kidneys.

"Since using Dr. Chase's Kidney-Liver Pills these ailments have become less and less until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their favour. The people in this county are surprised to see me so well again and no wonder, for my cure has been almost miraculous."

Dr. Chase's Kidney-Liver Pills; one pill a dose; 25 cents a box, at all dealers, or at Edmanson, Bates & Co., Toronto. 5-6

PLUMBING, GAS and STEAM FITTING

Having purchased a complete plant of Plumber's Tools, Machinery, etc., also a stock of first-class fittings in brass and iron goods, I am better prepared than ever to give you a first-class job at very moderate prices. BRAINS AND BEVERAGES.

Famous Literary Lights Who Revelled In Coffee and Tea.

Famous literary men have all had their favorite beverages.

Tea and coffee, however, head the list, and these two drinks, which the famous William Cobbett denounced as "slops," have been the means of spurring many a drowsy journalist to renewed energy.

Voltaire, the king of wits and litterateurs, was a confirmed coffee drinker. In his old age he often took fifty cups a day, which sadly hurt his digestion and hastened his death. Balzac never drank anything else but coffee, and during the early hours of the morning, for he began at 12 o'clock midnight, he used to take copious drafts of this stimulating drink.

Sir James Macintosh was so fond of coffee that he used to assert that the powers of a man's mind would generally be found to be proportional to the quantity of that stimulant which he drank. Cowper pays a tribute to tea in the "Task" when he says "the cup that cheers, but not inebriates." He was very fond of the Chinese beverage. But the king of tea drinkers was Samuel Johnson. On one occasion Sir Joshua Reynolds reminded the great man that he had drunk eleven cups of tea, whereupon Johnson retorted: "Sir, I did not count your glasses of wine. Why then should you number my cups of tea?"

A Protest That Failed.

"During my stay in the City of Mexico," says a well known Philadelphian, "I went out one Sunday to see a bullfight. It's the proper thing to do, you know. All the American tourists go. Seated very near to me in the raised benches of the amphitheater was a Germantown woman whom I know by sight as an enthusiastic member of the Society For the Prevention of Cruelty to Animals. She is one of those who insist upon showing a badge every time a driver uses a whip on a balky horse and demanding an arrest.

"Well, she had her little badge on all right, and when the fight between the bull and the picadors became pretty hot she jumped up in her seat and demanded that it be stopped. 'Stop this at once,' she shouted, waving her arms. 'Sit down, Maud, and don't make a fool of yourself!' exclaimed her husband. But she insisted upon having her own way. 'I am a member of the Pennsylvania Society For the Prevention of Cruelty to Animals,' she declared, waving the lapel of her coat that contained the button. 'I demand that this butchery shall cease.' Everybody laughed at her, and after awhile she went out, taking her husband with her."

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

Cloths or Clothes.

One learns many strange uses and misuses of things at country inns, but let us hope that the following experience related by a friend of mine as having happened to himself is a rare one: He had gone to bed in an Irish inn, bidding the landlady to have him called at 8. At 6, however, next morning, she knocked at his door.

"Ye've to git up," she said.

"What o'clock is it?"

"Six, surr."

"Go away. I am not going to get up till 8."

At 7 she reappeared. "Indade, and ye must git up now. It's 7." Finding him unmoved at her next return, she said: "Git up, there's a sweet gintleman. There's two commercial gintlemen waiting for their breakfast, and I can't lay the cloth till I have yer honor's top sheet."

With All My Worldly Goods.

A minister whose first parish was in the backwoods of the west some years ago says that he once married a very seedy looking bridegroom to a buxom girl of perhaps twenty years. The ceremony was performed in the log cabin home of the bride's parents, and there were many guests present. When the bridegroom repeated the words, "With all my worldly goods I thee endow," a tall, lank fellow with a huge tobacco cud in his bulging cheek drawled out nasally:

"Thar goes Hank's bull terrier, by gum!"

The Death Chair.

Doubt is often cast upon electrocution as a system by the fact that persons may survive an accidental shock of 2,000 volts. The Electrical World and Engineer points ont that the conditions of a chance contact are entirely different from those provided in the chair. It says, "There can be no question that the subject dies by the effects of the electric shock and is dead beyond all hope before the autopsy takes place."

Pure Blood.

If infectious disease is in the vicinity, it should be remembered that pure blood contains bodies that will combat disease germs. These bodies are the white corpuscles, and they will enwrap and actually devour the fatal bacilli of fevers and similar diseases. So it is well to keep the vital fluid in health.

Quackery vs. Science.

Most patent medicines emanate from people who know nothing of medicine or chemistry. Merrill's System Compound is skilfully compounded in one of Ontario's largest drug stores, after the suggestions of three eminent physicians. It purifies the blood, builds up the system, strengthens the nerves and regulates the bowels. 50 pleasant-to-take doses for 50 cents. Sold by Ormond and Walsh.

Trouble.

The man who borrows money borrows trouble. The man who lends money doesn't need to borrow trouble.

When a sick man notices that his wife curls her hair only just before the doctor comes, he is not sick enough to be dangerous.

Backaches of Women.

Not one woman in twenty has a strong back.

Backache is the cry of Weak Kidneys for help.

Backache is the warning note of much more serious trouble to come, if not attended to immediately.

Bachache can be cured quickly and permanently by using

DOAN'S KIDNEY PILLS.

The great and well known Kidney remedy. They have cured thousands of women. They will cure you.

MRS. I. STEEVES, Edgett's Landing, N.B., writes on Jan. 18th, 1901: "In the fall of 1899 I was troubled with a severe pain in the back. I could scarcely get up out of a chair and it gave me great pain to move about. I took one box of Doan's Kidney Pills and was completely cured. I have not been troubled with it since."

In every town and village may be had, the

Mica Axle Grease

How Convicts Kill Time.

It is at once interesting and pathetic to go through the cells of the eastern penitentiary and to note the objects which, with tedious pains, the prisoners have made to while the time away. Here a mantel will be hung with a lambrequin elaborately fringed, the fine knots and delicate patterns of the threads comparing with the work of the French lacemakers. The lambrequin is of an odd blue hue, and the visitor is told that it is made of an old pair of prison trousers.

On a little gilt bracket is a small stuffed animal. The bracket, so delicately turned, is of newspapers pasted together and gilded, and the animal is a rat, caught in a homemade trap, stuffed with rags and with pieces of chewing gum colored with shoeblacking for its eyes.

A wall is completely covered with a really artistic decoration of reeds, on which are perched at least 200 birds, each accurately colored and drawn. There are also numberless checkerboards and sets of chessmen that in the delicacy of their inlay work and in the intricacy of their carving would do honor to the craftsmen of the orient.

A Rare Drug.

"The price of many drugs used in medicine is astonishing to those who are not acquainted with the subject," remarked a druggist to a Philadelphia Times representative. "There are several that are worth their weight in gold (about $20 an ounce), while $2, $3 and $5 an ounce are quite common prices in pharmacy. But there is one drug that I can recall which is worth more than its weight in gold. This is pseudo physostigmine. I don't think that it has a popular name. It is too rich for that. In the pharmacists' list it is quoted at $1 a grain, or $437.50 an ounce. The seed from which the drug is made grows in India and Brazil, as well as in parts of South Africa. This seed, tradition says, was once used by native chiefs as an ordeal. The ordeal generally resulted in the death of the man upon whom it was tried and so it was considered as a great truth finder. The prepared drug is sometimes used now in prescriptions for the treatment of heart disease."

First English Book on Sport.

The first book on sport ever printed in the English language was a rhymed treatise called the "Boke of St. Albans," its author being a woman, Dame Juliana Berners. Its second edition was printed by Wynkyn de Worde in 1496. A descendant of her family, Lord Berners, was the translator of Froissart's "Chronicles." It is true that old manuscripts existed, such as the "Veneris de Twecy" of the time of Edward II., but it was Dame Juliana who was the real ancestress of sporting literature in England, for she also composed an essay on hawking and another on "Fishing With an Angle," the last being of such excellence that Izaak Walton himself did not disdain to take a hint from its pages.

"Eating Crow."

The term "eating crow" comes from an ante Revolutionary story. A soldier of an English regiment stationed in Virginia shot a pet crow belonging to a farmer. The latter entered a complaint with the colonel, who sentenced the soldier to eat the crow. The farmer was left alone with the soldier to see that he did it. After the soldier had consumed a portion of the bird he took his gun, presented it at the farmer and told him to eat the remainder of the crow or he would shoot him. This was the origin of the eating crow story.

HE WON THE YOUNGSTER.

The Rev. Dr. Mackenzie of San Francisco was once calling on a new parishioner who had a "limb" of a boy. She had invited the doctor to dine. "Willie," she said to her hopeful, "pass Dr. Mackenzie a potato."

Willie seized the potato between thumb and finger, and before his mother could utter a horrified remonstrance he had tossed it across the table and squarely into the good man's lap.

"Judgment!" cried Willie.

"One strike!" quoted the quick witted clergyman.

"Willie, leave the table!" stormed his mother.

"Madam," said the minister, "do not judge him harshly. See how beautifully he put the sphere over the plate." And from that time there wasn't a more earnest worker in all the big Sunday school than that same Willie.

Cure For Hiccough.

Hiccough usually attacks persons of nervous temperament and young children who have overloaded the stomach. It may also be induced by eating foods which have been too highly seasoned.

The most useful remedy and perhaps the most inoffensive and the best consists in sucking a piece of sugar which has previously been steeped in vinegar or drinking a spoonful of good vinegar in which some sugar has been dissolved.

If this is not at once successful, a second spoonful is certain to be so.

How the Cocaine Habit Starts.

Generally from using catarrh snuffs and ointments containing this deadly drug. It is well to remember that the only direct *scientific* cure for catarrh is Catarrhozone, which cures by the inhalation of medicated air. Simply breath Catarrhozone and it will cure all forms of Catarrh, Bronchitis, Asthma, Lung Trouble and Deafness. Every breath from Catarrhozone Inhaler, soothes, heals and relieves. Permanent cure guaranteed even though other remedies failed. Try Catarrhozone; price $1; small size, 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

University of Athens.

The University of Athens is very old. It is conducted on the German plan. Most of the professors are graduates of German universities, and the German language is heard about the building more frequently than any other except Greek. The institution has a large amount of property, and several of the chairs have been handsomely endowed by private individuals.

The Poisonous Poppy.

In Turkey if a man falls asleep in the neighborhood of a poppy field and the wind blows from the field toward him, he becomes narcotised and would die if the country people, who are well acquainted with the circumstances, did not bring him to a well or stream and empty pitcher after pitcher of water on his face and body.

Method In His Deceit.

"I thought you said you were going to bring a friend home to dinner," said Mrs. Skimpy to her husband.

"He couldn't come, Anna," replied Mr. Skimpy as he sat down with great satisfaction to the first good dinner he had had a chance to attack for a long time.

What Disturbed Him.

Miggles—I hear you upset a plate of soup on Miss Smith's gown at dinner last night.

Wiggles—Yes, and it was awfully embarrassing. You know it isn't polite to ask for a second plate of soup.

SOUTH AFRICAN LETTER.

Trumpeter Fred Hubbs Tells of an Exciting Experience Amongst the Boers.

Mr. C. E. Hubbs, of town, has received the following letters from his son, Fred Hubbs, who is in South Africa:

Transvaal, 20 Miles From Klerksdorp, March 25th.

We left the base camp on Sunday evening, at 6.30, and marched all night until 2.30 a.m., fifty-five miles out to a pass, rested an hour, and back forty miles across veldt, hills, etc. Our move, they say, was the quickest yet made since the war began. I was with Elmsley, and of course did a lot of running about on the way, and I guess I covered over 100 miles in the 24 hours. The move was to get Delarey, but we were two hours too late in getting to the pass. We got about 1,000 head of cattle, a lot of wagons, and about fifty prisoners, and killed some Boers coming back. It was a moonlight night, or half of us would have been hurt from our horses stumbling. As it was, fifty fell out. We had one man shot through the lungs, and Damant's Horse had three killed. I stopped at a lot of farm houses on the way across, and the destitution in some was simply horrible. The Highland Brigade is with us. We shall likely go out again soon.

c

April 2nd, 1902.

Since last writing you we have been doing some business, and in good style, too. We trecked out of Omebesiefontein, and camped twenty miles out on Easter Sunday, getting in communication with Kekewick and Lowe's columns. On Monday we trecked out at 3 a.m. and about twenty miles out struck Delarey, Steyn, Kemp and DeWet, and chased them five miles to Bochfan, and camped in a donga. We just had our saddles off, when there came a big shell, and the game started. Nine hundred Canadians, nine hundred Kitchener's Scouts, four fifteen pounders, two pom-poms, a colt, 69 Yeomanry, and Dormant's Horse, about nine hundred strong. We started in and got under cover as best we could, and opened on them with the fifteen pounders and the pom-poms. Meanwhile we were completely surrounded. The Boers were about 4,000 strong, and cut off fifty of our rear guard coming in with supplies. The fire kept up something furious at about fifteen hundred yards range. They kept it up for about two hours, something horrible, and when they retired and we got our own in, eight Canadians were killed and twenty-eight were wounded—over sixty casualties in all. The Boers had a much heavier loss in killed and wounded. We certainly delivered the goods in good shape. Milligan, of Peterborough, was killed in the first few minutes, and four men of the fourth troop, who were cut off also, and seven are missing. Yet it was the best scrap and the hottest event in the war. I was all over with Major Cameron, and saw the whole game. Lowe's column returned to us next day at noon, after a very anxious night, and we marched into camp this morning after travelling all night in an awful rain storm. We are just getting back into shape now. Percy and I are feeling fine, and we did not get a scratch, but we feel very sorry for Milligan. He was a fine fellow, and one of our best men. We are in our column now resting up. Lowe, Cookmon, and Kekewick, the defender of Kimberley, are going after them with a bigger force soon, and we hope they get them the way they got us. You could see the bullets cutting the grass all around us. We had 200 of our horses killed. News is pretty scarce now, so I will close.

EDUCATIONAL CLOSING

In Connection With the Local Y.W.C.A. Held Last Friday Night.

The attendance and deep interest manifested amply repaid the Social Department workers of the Y. W. C. A. for the pains taken in arranging for the educational closing Friday night.

The programme consisted of an opening hymn and prayer, with a short address by the president, Mrs. (Dr) Scott, followed by reports from the various classes held during the past winter. These reports were interspersed with vocal and instrumental selections excellently rendered by Misses Davies, VanEvery, Tully, Scott, Best and Mrs. McCall. Encouraging reports were presented from the following classes:—

English Literature—Sheriff Hall.
Book-keeping—Miss Detcher.
Instrumental Music—Miss Agar.
Composition—Miss Marks.
Wood Carving—Miss Dennistoun.
Dress Making—Miss Mann and Miss Anderson.
Junior Sewing—Mrs. Stewart.
Physical Culture—Miss Dickson.

A hearty vote of thanks was accorded the friends who have so kindly given their services, gratuitously, for the work in the above classes.

The gathering then adjourned to the gymnasium, which had been tastefully arranged as a tea room, for the occasion, and the remainder of the evening was spent as an informal reception, which was very enjoyable to all present.

GOLF BALLS—that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Salisbury Co.

RETAIL CLERKS' ASSOCIATION.

To the Editor of the Examiner:

Dear Sir,—Permit me space in your valuable paper, at this busy season, to add a few remarks to an article of a few evenings ago, re Retail Clerks' Association. The trades union movement in this town is very active at the present time. It partakes nothing of a boom, but is of that steady, healthy, growth and development which is infinitely better and more lasting. Several unions have been organized in our town this past year, all of substantial material and with prospects of continued growth and improvement. It is pleasing to the man that is sincere and a thorough advocate of labour, to note the condition or improvement in our town along those lines, during this last year or so. They are more clearly seeing that to unite there is strength. The formation of a Retail Clerks' Association would be of unusual interest to trade unionists and which has the opportunity of being of vast benefit, not only to its own members, but to the cause of the labour movement in general. After all, we are all labour men, no matter whether we are employed in store or factory, as long as we earn an honest living—we are brothers in the cause of labour. It's not the office that dignifies the man, but it's the man that dignifies the office. The formation of a Retail Clerks' Association should appeal to the co-operation of every man, woman and child, to encourage our people to daylight shopping, thereby benefitting ourselves, our employers and the community. The clergy of the town took up the matter a few years ago, and it is to be hoped the clerks will have the same sympathy and encouragement, so that our sisters will have an opportunity of getting better acquainted with their brothers at home, and the father with his little family.

The Retail Clerks' International Protective Association is also in affiliation with the Federation of Labour, and is to foster better feeling between employer and employee, and adopt all legitimate means to encourage early closing and to arrange matters so as the same work can be done in lesser hours. Many clerks have to-day to work 14 or 15 hours a day, and our object is to encourage people to do early shopping, so as same work can be done in 9 or 10 hours.

Yours, etc.,
CLERK.

Peterborough, May 12th, 1902.

Trip to Stony Lake.

The Steamer Alert will run a trip to Stony Lake on Tuesday the 13th, returning on Wednesday the 14th for the 4.15 p.m. train. The Steamer will leave Lakefield on arrival of morning train. Capt. W. H. White. 3d108

New American Blouse Styles.

In presenting our new sample lines of American print and linen effects for summer shirt waists, we do so with absolute confidence that the two great requisites of correct style and superior value have never before been so well combined. Our skilled staff and the unequalled facilities afforded by our factory gives us advantages in manufacturing shirt waists, faultless in design and fashioned after popular American tastes. Ladies will be interested in our pretty new summer blouses made in fast colour American print, with new dip sleeves, tight fitting backs and long dip front, which we are selling at 65c., instead of 85c, the regular price. We will also have ready for Saturday, the very latest American novelty shirt waists in linen fabrics, some with Paisley stripes, which we will sell direct from our factory at $1.00 to $1.50 instead of $2.00. C. G. Gemmell, Charlotte street.

A More Coherent Account of the Awful Catastrophe.

FULLY 30,000 LOST THEIR LIVES

What the Desolate City Looks Like—Awful Sights That Met the Gaze of Rescuers—Descriptions of the Fatal First Eruption by Survivors From the Modern Pompeii—Relief Being Sent.

Fort de France, Island of Martinique, May 13.—It now seems to be generally admitted that about 30,000 persons lost their lives as a result of the outbreak of the Mont Pelee volcano, at St. Pierre, on Thursday last.

Briefly put, last Thursday morning, the city of St. Pierre disappeared within 10 minutes in a whirling cyclone of fire vomited from Mont Pelee; thirty thousand persons were instantly and horribly killed, and the volcano, whose ancient crater had been occupied by a quiet lake, in which picnic parties bathed, suddenly discharged a torrent of fiery mud, which rolled towards the sea, engulfing everything before it. Then the last of cable communication was broken and the doomed city was isolated from the world.

The commander of the French cruiser Suchet gave the American consul at Guadeloupe, Louis H. Ayme, the first news of the appalling disaster the day after it occurred. Mr. Ayme has reached the desolate spot, where St. Pierre stood, and confirms the awful story in all its essential features. From an interview with Col. Ayme, who is a trained American newspaper man, a correspondent learned the following facts regarding the destruction of St. Pierre:

Thursday morning found the inhabitants of that city anxiously looking towards the thick clouds shrouding the Mont Pelee crater. All day Wednesday horrid detonations had been heard. These had been echoed from St. Thomas on the north to Barbadoes on the south. During the night of Wednesday these had ceased, and only fine ashes, like rain, fell on St. Pierre. As this continued, the governor, M. Mouttet, who was then at Fort de France, tried to stop the panic which the volcanic disturbance caused. He declared the danger would not increase, sent a detachment of soldiers to prevent a general exodus of the inhabitants, and later went to St. Pierre himself with his wife.

The British steamer Roraima arrived at St. Pierre some time afterwards, with 10 passengers, among whom was Mrs. Stokes and her three children and Mrs. Jaince. They were all watching the rain of ashes, when, with a frightful roar and terrific electric discharges, a cyclone of fire, mud and steam swept down from the crater over the town and bay, destroying a fleet of vessels at anchor off the shore. There the stories stop. Only twelve survivors are in the military hospital at Fort de France, while thirty thousand corpses are strewn about or buried in the ruins of St. Pierre, or else floating, gnawed by sharks, in the surrounding seas. Twenty-eight charred, half dead human beings were brought here. Sixteen of them are already dead and only four others are expected to recover.

On the scene of Desolation.

The Associated Press steamer chartered in Guadeloupe reached Martinique at 6.30 Sunday morning. Enormous quantities of the wreckage of large and small ships and houses were met with. Huge trees, floating bodies, with flocks of sea gulls soaring above and hideous sharks fighting about them, were found here and there. From behind the volcanic veil came blasts of hot wind, mingled with others, ice cold. At Le Precheur, five miles north of St. Pierre, canoes filled with men and women, frantic to get away were found. The whole north end of the island was covered with a silver grey coating of ashes resembling dirty snow. Furious blasts of fire, ashes and mud swept over the steamer, but, finally, St. Pierre was reached. The sand-covered hills were flanked by the still smoking volcano. The ruins were still burning in many places, and frightful odors of burned flesh filled the air. With great difficulty a landing was effected. Not one house was left intact. Everywhere were viscid heaps of mud, of brighter ashes, or piles of volcanic stones. The streets could hardly be traced. Here and there amid the ruins were heaps of corpses almost all the faces were downwards. In one corner 23 men, women and children were mingled in one awful mass, arms and legs protruding as the hapless beings fell in the last struggle of death's agony.

Careful inspection showed that the fiery stream which so completely destroyed St. Pierre must have been composed of poisonous gases which instantly suffocated everyone who inhaled them, and of other gases burning furiously, for nearly all the victims had their hands covering their mouths or were in some other attitude showing they had sought relief from suffocation. All the bodies were carbonized or roasted.

A. G. Austen, the manager of the Colonial Bank of Barbadoes, landed at St. Pierre with a party from the British Royal Mail steamer Solent. He found the bank clock stopped at some minutes before 8 o'clock.

The stories of the survivors added to the awful details of the particularly harrowing account of the loss of the British steamer Roraima. C. C. Evans of Montreal and John C. Morris of New York, who are now at the military hospital of Fort de France, say the vessel arrived at 6. As 8 bells was struck a frightful explosion was heard up the mountain. A cloud of fire, toppling and roaring, swept with lightning speed down the mountain side and over the town and bay. The Roraima was nearly sunk, and caught fire at once.

Montrealer's Story.

"I never can forget the horrid, fiery whirlwind which enveloped me," said Mr. Evans. "Mr. Morris and I rushed below. We were not very badly burned, not so bad as most of them. When the fire came we were going to our posts (we are engineers) to weigh anchor and get out. When we came up we found the ship all afire aft, and fought it forward until 3 o'clock, when the Suchet came to our rescue. We were then on raft."

"Ben" Benson, the carpenter of the Roraima, said: "I was on deck amidships, when I heard an explosion. The captain ordered me to up anchor. I got to the windlass, but when the fire came I went to the forecastle and got my duds. When I came out I talked to Mr. Capt Muggah, Mr. Scott, the first officer and others. They had been on the bridge. The captain was horribly burned. He had inhaled flames, and wanted to jump into the sea. I tried to make him a life preserver. The captain, who was undressed, jumped overboard, and hung on to a line for a while. Then he disappeared."

"Gus" Linder, the quartermaster of the steamer, who is horribly burned and can scarcely talk, confirms this.

Lasted Only Five Minutes.

Francisco Angelo, who speaks poor English, vividly described the on-rush of the fire. He says the captain was a very brave man. So brave to die burned up. Angelo further asserted that the storm of fire lasted not more than five minutes.

Joseph Beckles, a seaman, who is 50 years old and is so frightfully burned that he cannot live, having inhaled flame, said that he was the last man to see the captain, who was trying to reach a floating mattress.

Other men of the Roraima who were rescued are Salvador Aiello and Joseph Suzino.

From the Italian ship Teresa Lovica several men were saved; but they are in a frightful state, except Jean Louis Prudent of St. Pierre. Although on deck and unprotected, he was little burned. Prudent says there was first an awful noise of explosion, and then right away a cyclone of smoke and fire, but such was the awful, poisonous, choking nature of the smoke that it burned worse than the fire. When it struck people they fell dead. The cyclone of gas tore the masts out of ships, blew others up and sunk some of them. Soon afterwards came a wave of fire bigger than the smoke clouds.

Military rule is established in the town to prevent vandals from working. Such property as has not been destroyed will be protected. One of the great misfortunes arises from the fact that the storehouses of provisions have been swept out of existence.

Martinique must depend upon the charity of the world to prevent a food famine. Already food is exhausted at Fort de France, which has been over-run by the refugees from the country.

NEW ARRIVALS ..OF.. RICH SILKS

Newness stands out prominently in these swell productions. The intricate weaving of these (shall we say) webby creations, cause us to marvel at the ingenuity of man and the uses he puts machinery to to serve him. Silks with the hemstitching effects that make "little" trimming necessary, but when made up show pretty nearly an extravagant effect, yet rich, modest extravagance it is.

First in beauty is piece of French Grey and a pretty Turquoise shades Taffetas, each with hemstitching effect and pretty stripes of Silk Caspian Embroidery, one blouse length each (3½ yards, per yard $1.25

Here we show rich and novel hemstitch effects in Light Blue, pretty Pink, French Gray and Ivory Taffetas, each with white hem stitch broad and narrow stripes, lending a boldness that gives them style. Per yard $1.00

Another quality is the soft finish Florentine Silks with dainty white lace stripe effect in Helio and Light Blue 75c

See our South Window.

Peau de Soies

Our Black Peau de Soies have been very kindly spoken of by those who have seen them, and the seeing has very often lead to "unthought-of" buying. This is one of the reasons why we are very happy to show these lines. It so often has the effect of creating a sale sooner or later. People who haven't seen them don't realize the excellent values we offer at, per yard, $1.10, 95c, 85c and 75c

Still another shipment of these Peau de Soies received last Thursday.

Sutcliffe & Sons' Silks invariably turn out satisfactory.

AID FOR THE WEST INDIES.

American Congress Appropriates $200,000—Canada and King Edward Each Send $5,000 to the 50,000 Homeless.

The United States Congress has passed the bill appropriating $200,000 for the relief of the Martinique sufferers.

King Edward has sent to Paris 25,000 francs ($5,000) as his contribution to the fund being raised for the relief of the sufferers from the Martinique disaster.

The Colonial Secretary, Mr. Chamberlain, has telegraphed to the Governor of the Windward Islands to spend all the money necessary for the relief of the sufferers on the Island of St. Vincent.

Emperor William of Germany has telegraphed President Loubet, of France, a most sympathetic message and 10,000 marks as his contribution for the relief of the afflicted.

The Dominion House of Commons Monday made a grant of $5,000, to relieve the St. Pierre sufferers.

War Ships Carry Aid.

These war vessels have been ordered by their Governments to the scene of the Martinique disaster, with instructions to do all they can to rescue and give aid to the survivors:

The American cruiser Cincinnati, now on the way from Santo Domingo.

The American navy tug Potomac, on the way from San Juan, Puerto Rico.

The American training ship Dixie, preparing to sail from the New York Navy Yard.

The American transport Sedgwick, preparing at New York to carry clothing and supplies for the islanders.

The British cruiser Indefatigable, from Trinidad.

The British third-class cruiser Pallas, from Jamaica to Trinidad.

The French cruiser Suchet, now in West Indian waters.

The French cruiser D'Assas, from Brest.

The French cruiser Tage, flagship of the Atlantic division, from New Orleans.

The Danish cruiser Valkyrien, from St. Thomas.

Ontario Man Ill.

Ottawa, May 13.—Lord Minto received the following cable yesterday:

May 11.—Dangerously ill of enteric, May 10, Pretoria, 2nd C.M.R., (179) John Arthur Wilson; (54) Robert Daes, Potchefstroom, A Division, South African Constabulary; (1841) Trooper Albert Reynolds. Please inform mother, Mrs. A. Reynolds, Udney, Ont., Canada. (Signed) Casualty Department.

Dies Aged 111 Years.

St. John, N.B., May 13.—Word was received last night of the death at St. Martins, N.B., on Friday night of James Ross, who was 111 years old.

To Succeed Dr. Mackay.

Ottawa, May 13.—Rev. Thurlow Fraser has accepted the call to missionary work in Formosa as successor to the late Dr. Mackay.

Less Than Last Year.

Washington, May 13.—Returns to the statistician of the Department of Agriculture, made up to May 1, show the area under winter wheat in cultivation on that date to have been about 27,103,000 acres. This is 4,868,000 acres, or 15.2 per cent., less than the area sown last fall.

A Chinese Legend.

The origin of wedding customs, such as the wearing of a veil, the throwing of old shoes for good luck, etc., seem to have a perennial interest for the public. But here is a new and charming legend to account for the throwing of rice at the fleeing bride and bridegroom.

The custom, it seems, is Chinese. A famous sorcerer named Chao became jealous of the power of another sorcerer, a woman, and, conceiving a plan to destroy her, he persuaded her parents to bestow her upon his supposed son. The crafty Chao chose the most unlucky day for the wedding, the day when the "Golden Pheasant" was in the ascendant, so that when the bride entered the red chair the spirit bird would destroy her with his powerful beak. But Peach Blossom gave directions to have rice thrown out at the door, and she passed out unharmed while the spirit bird was devouring it.

A BAD HABIT AND ITS CURE.

Wool or silk was never intended for underclothing, and it is safe to predict that, within the limits of the present generation, the habit of wearing such undergarments will be a thing of the past.

..THE..

DR. DEIMEL UNDERWEAR

made of linen-mesh, is endorsed by physicians throughout the country as the ideal underclothing for men, women and children. Let me send you a little booklet about these remarkable garments. It will tell you a story of health and comfort that is as novel as it is interesting.

LIBERAL LABOUR LAWS.

In his Cornwall speech Hon. G. W. Ross mentioned a few things that the Liberal Government of Ontario has done in the interests of labour, including the Mechanics' Lien Law, by which the wages of mechanics and labourers are assured, even when the contractor becomes insolvent; the laws for compensation for accidents on railways or in factories; the factory inspection act, to protect the health of employees; the provision for the settlement of disputes, and the Alien Labour Law. There have been passed since the Liberal party came into power 33 different acts, or over one a year, dealing with the interest of the working classes of Ontario, and in addition municipal councils have been given extensive authority to pass bylaws dealing with shops, livery stables, schools for artisans, cabstands, etc. Having regard to the political privileges of the working classes, perhaps the suffrage registration act is one of the most comprehensive measures ever submitted to the Legislature, and under this act, working men, moving as they necessarily do from city to city, may, by registration secure the right to vote at elections for the Legislative Assembly, and as the Dominion Parliament has adopted the Provincial basis for elections to the House of Commons, the same privilege includes both elections. It should not be forgotten that this act was strongly opposed by Mr. Meredith, when leader of the Opposition, and by Mr. Whitney, and the full strength of the Conservative party. In fact it was only by a whole night sitting of the Legislature that the Opposition were forced to yield and the bill was carried through the Legislature.

Commenting on the labour laws of Ontario, Mr. A. W. Wright, now one of the organizers for the Conservative party, and a commissioner appointed by the Conservative Government in 1895 to inquire into the labour laws of the Dominion, made this observation: "While there is still a good deal of legislation which we labour cranks think should be enacted, I am free to say that Ontario has not much to learn from any state of the union in this respect, and is immeasurably in advance of most of them." If after all our labour legislation, humane and beneficial, the Government adopts a general policy for opening up the country and for giving employment to labour what more is there to ask for? With protection for wages, life and limb, and with abundant employment the working classes of Ontario are the most favoured on the continent, and we are sure when the elections come around, as they will in a few days, they will not forget their obligations to a Government which placed them under such happy conditions.

MR. MARTER AND MR. WHITNEY.

Mr. Marter speaking at Douglas Hall, Toronto on May 9th, quoted from a speech made by Mr. Whitney, in which a pulp concession had been approved. He pointed out that many Conservatives were interested in the agreements, and that the land was not given away. He believed it was in the interest of the working man that these concessions, with guarantees of large industries, should be carried out. The Province would receive a vast revenue from the cutting of pulpwood, and of what value, he asked, was the timber of the Province unless it was cut? Mr. Marter discussed the grant of land to the Algoma Central Railway and showed how Mr. Whitney had changed his attitude on the question of railway subsidies. He declared that he never forced his party. When it was a choice between that party and the interests of the Province, he had selected the latter, acting from what he regarded as honourable motives. He appealed for support to the whole people of North Toronto, rather than to any party or faction.

AN UNBUSINESSLIKE CAMPAIGN

Mr. Whitney and his fellow-aspirants for office appear to have no conception that the administration of the affairs of Ontario is a business matter, requiring business capacity. Mr. Whitney is going through northern Ontario, promising to give the settler the pine and inveighing against the injustice of cutting off the American market for spruce. His main helper in this tour is not one of his own followers, but Mr. Monk, the leader of the Quebec wing of the Conservative party, whose duty is to persuade the people that Mr. Whitney is the French-Canadians' friend. Mr. Monk is a clever man, but he knows nothing of our Provincial affairs, and at Sault Ste. Marie he wandered off into Federal politics, and tried to move the citizens to tears by depicting the injustice of the Dominion Government in not providing the place with a palatial postoffice and custom house.

Nothing in Mr. Whitney's speeches shows that he has a grasp of the educational question in Ontario. He He has one set speech, in which he says that the public schools ought to be adapted to the wants of the 95 per cent. who do not receive any higher education. One would imagine that he is under the impression that Greek and Latin are taught in the primary schools. The present course is simple and popular, and adapted to the wants of business men, mechanics and farmers. All that is necessary to answer Mr. Whitney on this point is to read the regulations of the department.

There is nothing practical in the addresses of Mr. Whitney or his friends. They deal in generalities, imagining that they can destroy the Government with strong adjectives. When Mr. Laurier asked for a change in 1896 he surrounded himself with strong, practical men, many of them experienced in administration—Cartwright, Mowat, Fielding, Blair, Sifton. Mr. Whitney offers no such guarantee that he can give the Province efficient government. All he can plead is that his friends have been out of office for a long time and ought to have a chance.—Globe.

AN INCIDENT OF '96.

The following instructions were issued to a Conservative election worker in Manitoba in 1896. It will be remembered that one Freeborn appeared in Manitoba previous to the election of 1896 and presented himself to Mr. N. Boyd, the Conservative candidate in Marquette, saying that he had been sent by the chief Conservative organizer. Mr. Boyd telegraphed to the organizer in regard to his visitor, and received the famous answer:—

"He was a first-class man in North Bruce."

Freeborn was employed in the election, and subsequently he and some of his assistants were prosecuted criminally at the instance of the Minister of Justice. Freeborn confessed, and swore that he got instructions from one Turner, who told him that he had got them from the Conservative organizer in Toronto. The instructions were as follows:—

"We have the printing of the ballots, therefore a sufficient number should be printed extra to enable the deputy returning officer to have them marked for our candidate and ready to use after the count to replace those already read out wrongly to the scrutineers. Or the deputy returning officer can have them marked and pocket to slip into the box in place of an Opposition folded in his tunity happens. allot if the opportunity occur quite frequently if we have control of both scrutineers.

"To get control of both scrutineers have one of our men, not a prominent one, but a supposed kicker, for instance, apply to the Opposition to be put on as scrutineer inside. They are generally short of workers, and a few plausible men will turn the election in a close constituency. Or the man can write to their headquarters for scrutineer papers if he lives in the country.

"Efforts should be made to make these methods work in wards that give the heaviest Opposition vote.

"Having control of both scrutineers, a large vote can be polled—dead and absent voters, etc., can have their ballots marked; there is no redress if both scrutineers are present.

"A friendly constable should be present to keep the poll clear of loungers and inquisitive people.

"The deputy returning officer should be a reliable, sharp and plausible man, so that if we do not get control of the Opposition scrutineer, he can, when the counting time arrives, ask both scrutineers to take a piece of paper and record the vote of their candidate as he reads the ballots, which have been emptied on the table. He will then have a chance to read out wrongly, so that a majority can be secured for our candidate. The ballots should be put back into the box as quickly as they are read. The extra ones will do to fix things correctly when he goes home.

"Spoiled ballots can be made sure by a little doctoring. Opposition ballots can be spoiled by the lead out of a pencil fastened under the little finger with beeswax, drawn across opposite our candidate's name in opening the ballot.

"If you cannot get control of Opposition scrutineers, have your deputy returning officer announce that he is against you, so as to lead him astray if possible."

As corroborative of a part of this it may be stated that 10,000 ballots were printed for the City of Winnipeg, although 5,000 or 6,000 would have been sufficient in an honest election, and yet the polls had to be closed at 2 o'clock because the ballots ran out.

A CHAPTER OF LIBELS.

Like an old man of the sea, the Ross Government sits upon New Ontario, hindering its progress, establishing monopolies, closing its lands against colonization, stopping its mineral development, and checking the prosperity of the people. New Ontario extends her hand to Old Ontario and asks for assistance in her hour of need. The people call upon us to help them remove the incubus and to open an era of prosperity in which they and we shall join. We cannot resist the appeal. It is in our interests as well as in their's that the fossilized thirty year Government go, and that we have a change. — Toronto Mail and Empire.

The above constitutes, says the News, (Independent,) a chapter of political libels. For any sane man to expect a community to swallow such rot is an insult to their intelligence. No man who has the slightest respect for the truth would make such statements. Mr. Ross' policy in regard to New Ontario may be criticised in many ways, but to try and tell any person that the Ross Government is hindering the progress of either New or Old Ontario is nonsense. When we are asked to believe that the Ross Government is "killing the province," good for nothing and unprogressive, we must beg to be excused. Politicians and political papers have much license in election campaigns, but we believe such statements as the above exceed the limit.

THE STUNTED POPLAR.

Men have been compared to the trees of a forest, and it has been said that in every large city there are many clever men, just as there are fine trees in every large forest.

The leader of the Opposition, Mr. Whitney, as he looked at New Ontario, saw it as "the land of the stunted poplar," but what a different prospect was unfolded to the vision of the the leader of the Government! He saw vast mineral and timber wealth, a country yet to be inhabited by hundreds of thousands of hardy settlers. He proceeds to develop and settle this country, projecting railways and roads, and encouraging industries. The leader of the Opposition, compared with the leader of the Government, is like the stunted poplar compared with the stately maple, oak or pine tree of our splendid forests. — London Advertiser.

The Canadian Freeman says of Hon. G. W. Ross: "His personality permeates the great Liberal party, of which he is the practical head in this Province, and his genius gives it its strength and force."

Mr. Whitney's claim to distinction, says the Sarnia Observer, as a speaker rests upon the length, strength and vigor of his adjectives, and the extent and variety of a somewhat picturesque vocabulary, of which "slimy villains," the latest addition, is a fair to middling sample. A new set of school books incorporating a collection of his choicest phrases would be a delicate tribute to his Chesterfieldian style and might mollify to some extent his rampant hostility to the milder mannered literature now supplied to the pupils in our schools by Mr. Ross.

"My customers, in almost every case, are highly pleased with the results of

GOD SAVE THE KING.

IMPERIAL RELATIONS

The Question Discussed in the House of Commons.

SIR WILFRID LAURIER'S VIEWS

The Premier Is in Favor of a Trade Preference If It Can Be Secured—Mr. R. L. Borden Suggests a Unanimous Resolution—Sir Wilfrid Willing to Confer to That End—Private Bills.

Ottawa, May 13.—The Premier last night restated the position of the Government upon questions which are likely to arise in connection with the Imperial conference in London. Sir Wilfrid Laurier made his statement in the course of a debate which was started by the Opposition leader.

Mr. Borden's Questions.

Mr. Borden wanted to know what the Premier's policy would be in regard to the subjects named by the Secretary of State for the Colonies for consideration at the conference. What would Sir Wilfrid Laurier do with respect to Imperial defence? Would he tell the British Government, as Mr. Borden claimed he had done before, that the mother country could not grant a preference? The Opposition leader stated that he and his followers had been prepared to move a resolution, asserting their belief in a policy of mutual preferential trade within the Empire, but they were willing to place the interests of the country before party, and to co-operate in the unanimous adoption of such a resolution, believing that it would strengthen the hands of the Government.

Sir Wilfrid Laurier.

Sir Wilfrid Laurier, who was loudly cheered, said the Government had been accused of want of courtesy in its reply to the Colonial Secretary's despatch suggesting subjects to be considered at the conference, and he desired to know what was the expression to which exception could be taken?

Mr. Borden here disclaimed having charged any want of courtesy and thought the Premier must have in mind the statements of the member for East York.

The Premier, continuing, pointed out that the conference would be free to discuss all the subjects set forth in the Colonial Secretary's despatch. If by military defence was meant the part Canada was prepared to take in defending this country, the Government would ever be prepared to discuss it, and this very session had evidenced that it fully understood its duty on that score. "But," declared the Premier, "there is a school abroad, and there is a school in England, and in Canada—here perhaps represented on the floor of Parliament—which wants to bring Canada into the curse of militarism, which is the blight of Europe. England included. If that be intended, I am not prepared to endorse such a policy." A loud outburst of applause from the Ministerial benches followed this statement by the Premier.

A Mutual Preference.

As to a mutual preference within the Empire, Sir Wilfrid quoted Mr. Borden's amendment to the budget speech, which, while calling for a mutual preference, declared for such adequate protection to the labor, agricultural products and manufacturing industries of the Dominion as would at all times secure the Canadian market for Canadians. If the Conservatives had pinned protection to the mast, what preference, the Premier asked, were we to give? The commercial relations of the Empire had been named by Mr. Chamberlain as one of the subjects for discussion, and the Canadian Ministers would go to England to discuss that. Evidently from the invitation the Imperial authorities had a proposition to make. The Imperial Government had imposed duties upon flour and wheat, and what was not possible in 1897 might be possible in 1902. The last step had been taken which made it possible for Canada to obtain a preference, which could not have been got in 1897. The Government would go with the intention for the good of Canada. The Opposition leader had said he would be pleased if the House could pass a resolution unanimously. "I am quite prepared," remarked the Premier, "to say that I should be glad to confer upon that subject with me this olive branch since he has offered my hon. friend. So I am ready to meet him and to discuss a resolution or a proposition, which we can put into such a shape that we can adopt it unanimously. The Premier resumed his seat amid the cheers of the Government supporters.

The whole of the morning sitting was exhausted in a discussion of the Gaspe and Western Railway Company. The bill was reported.

The Dominion Government notified on Saturday those parties who were asking for an increase in the assistance given by the Government to drydocks from two per cent. to three per cent. that there would be no change in the statute this session.

After two hours' discussion, the Commons yesterday afternoon, by a vote of 71 to 34, passed the bill to incorporate the Bishop of the Orthodox Russian Greek Catholic Church of North America and the Alautian Islands.

On the third reading of the Samuel Nelson Chipman divorce bill, which was passed, Mr. Charlton renewed his protest against the present scandalous system of granting divorces in Parliament, and promised next session to make a move to have cases of divorce referred to the courts.

The Gaspe and Western Railway bill was read a third time and passed, and the G.M. Depew patent bill was withdrawn.

The Minister of Justice informed Mr. Sproule that a junior judge for Leeds and Grenville would shortly be appointed.

Replying to a question of Mr. Ross, the Minister of the Interior said that 24,142 immigrants came into Canada between Jan. 1 and May 1 of this year, of whom 5,164 were from British territories, 7,478 from the continent of Europe, and 11,480 from the United States. There was no means of knowing how much money immigrants brought in, except in the case of Galicians from parts of Austria, to whom there was a restriction and it was found they had from $50 to $200 each. On this basis the immigrants during the last four months would bring in $1,264,200.

At 1.45 the last of the items for the Department of Public Works was voted and the estimates for the Department of Railways and Canals were taken up.

Dr. Roddick's Bill.

Ottawa, May 13.—Dr. Roddick's medical council bill was up in the Senate yesterday. Dr. Beque proposed an amendment, that no province should be represented on the council, either by elected or appointed members, until after the Act had been adopted by the Legislature of the province. The bill was read a third time.

Many of our Boys and Girls are Suffering This Month From the After-Effects of Winter Grippe.

Wise Parents Provide

Paine's Celery Compound

For Their Loved Ones.

The Wondrous Medicine Quickly Expels all Germ Poisons From the Blood and Fortifies the Weak and Rundown System.

A busy city physician, enjoying a large annual income, remarked the other day that a host of young people—boys and girls—were suffering this month from the after-effects of winter grippe.

Dear parents, have any of your children suffered from an attack of the cruel monster, grippe, during the past winter months? Are your boys and girls irritable, feverish, pale or weak? Have they cold and clammy limbs? Is the blood watery, impure or sluggish? Is the appetite poor and digestion weak? Has the rose tint of health faded from their cheeks? If any of these conditions are noted, be assured the dregs of deadly grippe are implanted in the system.

If your children are not blithsome, happy, boisterous and strong in May, their condition calls for prompt action on your part. Their future — health and physical happiness or sufferings and early death — is in your hands, dear parents, and you alone are responsible to Heaven and the community of which you form a part.

When winter grippe has planted seeds of virulent diseases, the first and most important work is to expel from the blood every trace of poison. This is always successfully accomplished by the use of Paine's Celery Compound.

This marvellous medicine, after purifying the foul and stagnant blood acts as a nerve food. It builds up the nervous system and nourishes all the bodily tissues.

Boys and girls, with such a start in life as they always receive from Paine's Celery Compound, grow up as sturdy as forest oaks; they revel in strength and true life; they are fair to behold; they make the men and women most needed by our country. Do your part, this month, dear parents, with promptness and honesty, and rest assured Paine's Celery Compound will not fail in its grand work of health building.

THE CAMPAIGN.

The Premier at Stratford—An Overflow Meeting Held in the City Hall—A Mayor's Address.

Stratford, May 13.—Two thousand electors of Perth County, whose homes were scattered within a radius of 25 miles of Stratford, gathered last night to hear a telling campaign speech by Premier Ross, in the interests of Mr. John Brown in the North riding, and Mr. Valentine Stock in the South. One building, the Theatre Albert, was too small to accommodate all, and an overflow meeting was held in the City Hall, at which the same speakers addressed the electors. The audiences were most orderly and attentive as they listened to the story of progress, past and for the future, as it fell eloquently from the lips of the Premier. Mr. Ross, whose delivery was fresh and even throughout, was especially happy in his reference to the resources of Ontario both in men and in raw materials, and in one or two instances he directed replies to Conservative arguments whose effectiveness brought loud cheers. The reception tendered the two candidates was very flattering, and in their short addresses they gave evidence of fluency and familiarity with public questions which commend them to the electorate. Mr. Brown represented North Perth in the last Parliament, and has every chance of re-election, while Mr. Stock is making steady inroads on the bank of confidence owned by Mr. Nelson Monteith in the South riding.

CAN RETAIN BRITISH REGISTER.

President of Board of Trade Expresses His Opinion.

London, May 13.—In the House of Commons yesterday the president of the Board of Trade, Gerald Balfour, informed a questioner, that after considering the agreement of Feb. 4 between the Morgans and the White Star and Dominion lines, it had been concluded that the vessels concerned were not precluded from retaining their British register.

The Financial Secretary of the Admiralty, Mr. Arnold-Forster, added the information that the agreement of the Admiralty with the White Star line was about to be renewed, and an additional proposition as follows: "The company shall not, without the previous written consent of the Admiralty, transfer to a foreign flag any vessels, subject on this agreement." This proposition, the secretary added, had already been agreed on, and an instalment of the subsidy on the terms of the new agreement had been paid.

HAYTI'S TURN NOW.

Revolution in Full Swing—Population Has Taken Up Arms.

Port Au Prince, Hayti, May 13.—The report that a revolution is on the point of breaking out here as a result of the recent resignation of President Sam and the questions arising from the choice of his successor, is confirmed.

The meeting of Congress having received the President's formal resignation, had been suspended. The whole population is now in arms. There are three opposing factions.

Over a Million Victims.

A careful estimate shows that one fifth of Canada's population suffer every winter with hack or lung weakening coughs. Four T's, Druggist Merrill's great discovery, cures a cough in twenty-four hours, and the worst cold in two days, making it unnecessary to wear out the system in this way. Large bottles, 25 cts., 2t Ormond and Walsh's drug store.

Aeronaut Severo Was Killed.

Paris, May 13.—The death of Senhor Severo, the Brazilian aeronaut, who, with an assistant, was killed yesterday morning by the explosion of his airship, La Paix, in which he was making a trial trip, created terrible consternation. His wife witnessed the accident.

Struck by a Street Car.

Montreal, May 13.—Nellie Bachman, 8 years of age, the little daughter of Hymon Bachman, was killed by a Montreal Street Railway car yesterday.

G.T.R. Earnings.

Montreal, May 13.—The Grand Trunk Railway System earnings, May 1 to 7: 1902, $601,565; 1901, $513,222; increase, $88,643.

TO CURE A COLD IN ONE DAY

DISASTROUS EXPLOSION.

30 Spectators of a Fire Killed and 150 More Will Die From Their Injuries at Pittsburg.

Pittsburg, Pa., May 13.—The Sheraden yards of the Panhandle R. R. was the scene this evening of one of the most disastrous explosions and fires known in this section for many years. A score of lives were lost and about 200 persons were so badly burned that, according to the judgment of physicians in attendance, 75 per cent. of them will die from the effects of their injuries. The cause of the catastrophe was the explosion of a train of naptha cars.

Much of the escaping naptha ran through Cork's Run to Esplen Borough, a distance of one and a half miles, and caused another explosion, blowing to atoms the Seymour Hotel and the Collins House on River road, and badly wrecking a frame building nearby, in which were congregated 200 or more sports from Pittsburg and vicinity, betting on the races, baseball, etc. Few of the occupants of this building escaped injury.

From the Late Gat Howard.

Toronto, May 13.—A short time prior to his departure for South Africa, Major Gat Howard instructed a well known Ottawa artist to execute three paintings of himself, to be presented to the Royal Grenadiers of this city, the 43rd Battalion of Ottawa and the 90th Battalion of Winnipeg.

The portrait presented to the Royal Grenadiers was unveiled last night at the seventeenth annual Batoche dinner of the officers of the regiment, held in the officers' mess at the Armouries.

A FORTUNE IN

Malt Breakfast Food

This is not a declaration implying that the manufacturers of Malt Breakfast Food have a vast fortune in this popular breakfast food, nor does it mean that the grocers and dealers who sell it expect fortune profits from its sale.

A well known business man in Montreal, who for years suffered from indigestion and stomach troubles, declares emphatically he has found a fortune in Malt Breakfast Food. He says:

"For several years indigestion and general stomach troubles frequently were so severe as to keep me away from business, and, as a consequence, many matters to which I was obliged to give personal attention, were neglected, often causing me financial losses. My doctor recommended the use of Malt Breakfast Food. It proved a happy change of diet; it perfectly agreed with my weak stomach strengthened my digestion, and soon rid me of my ailments. By the regular use of Malt Breakfast Food I am hale and hearty, and never miss a day from my business Malt Breakfast Food has proved a fortune to me from a financial and physical point of view. I advise all to give it a trial." See your grocer.

Taste These Jellies.

McLaren's Jellies are the purest and best flavoured made. Free demonstration at E. F. Mason & Co's., 429 George street. This week only.

First in Canada.

Mr. R. S. Dutton received by express to-day a box of cherries from California, which are the first to reach Canada. The quality of the fruit and the manner in which they are packed, is inviting, and Mr. Dutton is being congratulated upon his enterprise.

Choir Concert.

The concert given in the St. Andrew's church some time ago, will, by special request, be repeated on Monday evening next, May 19th. The programme was such an excellent one as to guarantee a large house on its being repeated. Admission, 15 cents. 3eod

New Boots.

We are putting into stock this week a large assortment of ladies' and gentlemen's boots and shoes of the very latest Canadian and American styles. The "Keith" boot for men and the "Victoria" boot for women, are very popular makes. See display in our window. Ask for union made goods. John Kyle, Hunter street. 6d

A refrigerator is no longer a luxury—it is a necessity. We have six sizes and three qualities of the best refrigerators made to show you—The Best Stove Co., next door to the post office.

The Temperance Question.

Mr. W. W. Buchanan, of Toronto, the father of the Manitoba Prohibition Bill, will speak in the Opera House on Tuesday evening next, May 13th, upon the temperance question as seen in the present election campaign. Other speakers will also address the meeting. A male quartette will render several selections. The meeting opens at 8 o'clock. 3d

Last Night's Fire.

Last night at about half-past eleven o'clock fire broke out in the frame store house on the lot just south of Mr. A. Comstock's furniture establishment, and west of where Mr. J. J. Turner's new building is being erected. The structure was used for storing lumber, etc., and it burned very quickly. The brigade was promptly on hand and prevented the flames from spreading, and no damage was done other than the destruction of the frame building and its contents.

Boys, we have a great line of 75 cent Baseball Mitts. Also some selected "Axle Tree" and other clubs.—SAILSBURY CO.

VEN. ARCHDEACON CASEY

Lectures in St. Peter's T. A. S. Rooms Last Evening.

The announcement that Ven. Archdeacon Casey of Lindsay, would lecture in the T. A. S. Rooms, on Monday evening, was the means of filling the lecture hall to its utmost capacity with an audience that went away thoroughly delighted with the evening's programme.

The address of Ven. Archdeacon Casey, on "The Catholic Church and Liberty," was a scholarly effort of the highest order. In fact it is doubtful if ever a lecture delivered in the rooms in the past excelled that of last evening. It was replete with cold, convincing facts as regards the Church's attitude in the question of the liberty of her children, both from a civil and a religious standpoint. The reverend speaker's contentions were strengthened by quotations from the writings and speeches of such men as James Anthony Froude, Dr. Lang and others, all non-Catholics, who had paid tribute to the wonderful influences for good which the church exercised. Ven. Archdeacon Casey took his hearers back to the time when Rome and Greece were in the zenith of their power when womanhood was degraded and slavery was rampant. The introduction of Christianity and the terrible prosecutions the Church had to undergo in its early history, and, in fact, in all ages, was next touched upon, as well as the history of her struggles for the protection of the home and the liberties of her children, down through the centuries. The address was an eloquent one in every particular, and at its conclusion the speaker was loudly applauded.

Mr. Jos. Maher moved a hearty vote of thanks, to the speaker, which was seconded by Mr. T. J. Begley.

Rev. Dr. O'Brien and Rev. Father John O'Brien made short congratulatory addresses.

The programme provided for the occasion gave splendid satisfaction. It opened with a brilliantly executed pianoforte duet by Misses McCabe and Maggie Doherty. Mr. John King contributed two excellent vocal solos and Little Nellie Hallihan, who is always a warm favourite, sang two very pleasing solos, "Please, Mr. Conductor," and Olcott's "Lullaby." Mr. Jack Parle appeared in two comic songs, which were winners, and Geo. Lynch, in his humourous recitations, made a decided hit. Mr. Will Primeau sang a popular coon ditty very acceptably and the Misses Doris contributed a pleasing pianoforte duet. Mr. T. J. Begley concluded the programme with a solo.

Mr. Fred Derocher made a very efficient chairman.

The accompanists were Misses M. Doherty, M. McCabe, M. Begley and A. Doris.

MEETING IN DOURO.

A meeting in the interests of Mr. Wm. Anderson, the Liberal candidate in East Peterborough, was held in the old church, Douro, last night. There was a large gathering of electors and the chair was occupied by Mr. John Welsh. The speakers were Messrs. Wm. Anderson, G. W. Powell, R. F. McWilliams.

Reilhofer's Tyrolean Yodlers.

These excellent entertainers, of whom every one is an artist, come from near Ober-Amergau, Bavaria, and appear in national costumes. They render Tyrolean and American songs, Yodling and Echo Songs, etc., accompanied by the Zither and Alpine instruments. Reilhofer is also the Soul of Mimicry. The press speaks in the highest terms of their work in Chicago, Buffalo, Toronto, Kingston, London and other places. Next Tuesday, May 20th, in the opera house. Tickets, 25c.; and 35c. Plan at Ormond and Walsh's. 1diw

TORONTO CHOIR AT ST. PAUL'S.

1200 People Attended the Sacred Concert.

WAS A MUSICAL TREAT.

Mr. Vogt's Choir Made a Favourable Impression Upon the Peterborough Lovers of Music.

St. Paul's Presbyterian church has seldom seated so many people as were in attendance last night at the Service of Praise, which was given by the choir of the Jarvis street Baptist church, Toronto. The announcement of such a musical treat was of course a guarantee of a record-breaker attendance, and the exceptionally large audience last night which greeted the Toronto artists was, perhaps, nothing more than might have been expected. Every seat in St. Paul's church was occupied, and choirs were placed in the aisles to accommodate those who were anxious to hear the work of a choir that has attained more than a provincial reputation. As, on former occasions, the music-loving people of Peterborough are indebted to Mr. J. Crane, organist of St. Paul's church, for the musical treat which was accorded them. The undertaking was one which deserved the warm sympathy of the members of the other choirs of the town, and of those who can thoroughly appreciate high-class music.

The members of the Jarvis street Baptist church choir were conveyed to Peterborough per special train, arriving here about 4.30 in the afternoon. The purpose in bringing them to Peterborough was more for an educational effect than anything else, and there can be no doubt that their appearance here will be productive of much good among the choirs of the town, and in chorus singing. The visiting choir is made up of fifty voices, under the distinguished leadership of Mr. A. S. Vogt. The members of the choir are all picked voices and are in continual training the year round. The work of Miss Dora L. McMurtry, soprano, Mr. A. L. Davies, bass, Mr. Victor Hutchison, tenor, Mr. Geo. B. McClellan, baritone, and Mr. Arthur Oliver Sales, organist, was such as would have demanded encore after encore had the audience been at liberty to express themselves in that manner.

Miss Dora McMurtry, who took the soprano solos in the various numbers, is not unknown to a Peterborough audience having appeared on several occasions. Miss McMurtry has a pure, bright soprano voice of extended compass as was evidenced by her high "C" in the "Inflammatus." Her duties throughout the programme was ardous, but in every case there was the evidence of an artistic and cultured temperment combined with vocalistic skill. It would be invidious to compare or particularise in her varied solos for in every case her reading of the text was excellent to a degree.

Seldom if ever has a more satisfying baritone been heard here than that of Mr. A. L. E. Davies, who bore the brunt of the male solo work of the evening. His solo in the first part, "There is a Green Hill," by Gounod, given with all the depth of feeling and beauty of conception that could be desired. Probably he reached his best in Gaul's "Behold I Create a New Heaven and a New Earth." The grand declamatory lines being given with realistic effect.

Mr. Arthur Oliver, the solo organist of the evening gave two numbers which stamped him as a clever executant on the king of instruments. We understand that Mr. Oliver laboured under the disadvantage of a very sore finger, caused by an accident just before leaving Toronto. Dispite this Mr. Oliver performed his duties on the programme with marked ability and added much to the varied programme.

The programme opened with the singing of the Doxology which was followed by prayer by Rev. Dr. Torrance. Following this was the chanting of the Lord's Prayer which was rendered in great harmony. Mr. Arthur Oliver then rendered Meyerbear-Best's arrangement of the "Schiller Festival March," after which the anthem by Tours, "God Hath Appointed the Day," was very effectively produced, the quartette being taken by Miss McMurtry, Miss Gertrude Shuttleworth, Mr. Victor Hutchinson and Mr. A. L. E. Davies.

Mr. Davies' rendering of the baritone solo, "There is a Green Hill Far Away," by Gounod, was given in splendid voice and was followed by a soprano obligato and chorus by Miss McMurtry and the choir.

The Motettes, of which there were three on the programme, and which were rendered unaccompanied, were popular numbers. The harmonious blending of the voices was more noticeable in the Motettes than in any other number. Perhaps Mr. Davies excelled himself in the rendering of his baritone solo, "Behold I Create a New Heaven and a New Earth," whilst the chorus for women's voices with solo obligatos for soprano and bass which were taken by Miss McMurtry and Mr. Davies would under ordinary circumstances produced loud applause. However, the last number on the programme was most delightful. It was a soprano solo and chorus from the Cantata "Gallia" by Gounod. This work, which is sometimes designated as an accompanied motette, and which is also referred to in Grove's dictionary as a "Lamentation," was composed, during the seige of Paris by the Germans, during 1870-71, and may be regarded as an expression of the personal grief of the composer at the disasters which had befallen his city and country. "Gallia" was first produced at the Royal Albert Hall, May 1st, 1871.)

Altogether the visit of the Jarvis street Baptist church choir of Toronto, was attended by great success. The attendance at the entertainment was about 1,200 and every one appeared to be well satisfied with the musical treat accorded them.

The visitors were dined in the school room and then left for home per special train.

BIRTH.

YOUNG.—On Monday, May 5th, at Young's Point, the wife of Mr. Edw. Young, of a daughter.

MARRIED.

CROMPTON — SMITH.—At the residence of Major W. J. Ramsay, Moss Park Place, Toronto, on Friday, May 9th, by Rev. H. M. Parsons, Lila Florence Smith, of Peterborough, to Edwin Carter Crompton, of Brantford.

Established Half a Century.

EVERY PAIR OF THE

GEO. E. SLATER SHOES.

Is a walking example of the perfection reached by the right kind of Shoe making.

Every pair is made on hygenic principles and on special lasts.

Only leathers of proven worth are chosen for the Geo. E. Slater Shoe.

Particular people are easily fitted, because it's the kind of Shoe that accommodates the tender spots of the feet.

For gentlemen with tender feet the Geo. E. Slater Shoe is a favourite.

The members of the Bowling Club will hold an important meeting to-morrow evening in the Board Room of the Toronto Savings and Loan Co, which everyone who intends to play this season should attend. The business of the evening will be the selection of skips for the season.

RUGBY.

The local rugbyists are asked to turn out for practice on Central Park on Thursday night next. The management are desirous of finding a good scrimmage.

LACROSSE.

The Toronto World says that in Saturday's game against the Orioles, Dobbin in goal saved many a game for the Tecumsehs.

The Toronto Telegram says: "Port Hope is right out after the intermediate championship this year, and the cry "Ontario" will be heard till away on in the fall. Glover and McCabe, of Peterborough, will be with them again this year, and Lipsett, another home player from the same town, will throw in his lot with the Ontarios. Billy Wood, too, indignantly denies the report that he will play with the Young Torontos. 'Why, they are in the same district as Port Hope,' he says, and then he draws pictures of what would happen to him if he wandered into town and tried to play lacrosse under any other colour than the old gold and black."

The Y.M.C.A. and the Athletic Lacrosse clubs will come together for the first time to-morrow night, on the Nicholls oval, and the event should not only be keenly contested, but should be very largely attended as well. The lovers of Canada's National game in Peterborough are at sea just now as to the relative strength of the various teams of the town, and while the game to-morrow night will not count in the series to be run off, still their coming together to-morrow night should afford an opportunity to size up the work of the two teams. The ball will be faced at 6.45 o'clock sharp.

The Y.M.C.A. team will be as follows: Goal, Long; point, Trollope, c. point, Smith; defence, Pennick, Galley, Cameron; centre, Robinson; home field, Brown, Robertson; outside, A. Long; inside, Best.

The Y.M.C.A. team will practice every night between now and the 24th of May on the oval, and special practices will be held on Monday, Wednesday and Friday.

BASEBALL.

On Saturday the All Saint's Boys' Brigade defeated the Shamrocks by a score of 12 to 10. The victors were much older team than their opponents and the result should prove very encouraging to the Shamrocks and their supporters. The regular pitcher of the Shamrocks, Quinlan, was not in the box, but will be on the 24th, when the losers expect to turn the tables.

Batteries—Theobald and Thornton, Simpson and Sawers.

Umpire—M. A. Sorsoleil.

The match on Saturday afternoon between St. John's Choir Boys and St. Andrew's Guild team resulted in favour of St. John's team.

The feature of the game were a triple play—Morphet to Hodgson to Ray to Deacon; Allan Campbell's good running catch, and the splendid fielding of St. Andrew's.

The teams were as follows:

St. Andrew's—R Menzies, l f; F Richardson, s s; E Reid, r f; H Laing, 3b; Patterson, 1b; M Robinson, 2b; C Barry, c f; P Mensies and R Reid battery.

St. John's—F Sawers, r f; Allan Campbell, c f; Reg Beaupr, 3b; C Ray, 2b; Art Seward, l f; Jack Seymour, s s; Alf Hodgson, 1b; Vernon Morphet and Carton battery.

The score by innings:

St. John's	3	0	3	1	3	1	2	4	4	—21
St. Andrew's	3	2	1	3	2	3	0	1	0	—16

ST. ANDREW'S ATHLETIC GROUNDS.

The Junior Guild of St. Andrew's church celebrated the opening of their athletic grounds Friday night. About thirty-two members mustered on the campus, and after a good base ball team had been chosen, the rest of the company were divided into sides for a go-as-you-please foot ball game with Rev. J. A. Wilson, assistant pastor of St. Paul's and Rev. J. G. Potter as captains, and the Rev. George Yule as umpire. At 8.30 all repaired to St. Andrew's Hall, when interesting and practical addresses were given by the visiting ministers and were highly appreciated.

AT THE RANGES.

The members of the 57th Regt. patronized the rifle ranges in force on Saturday, over fifty men turning out for practice. The ranges will be open again next Saturday afternoon at 2 o'clock.

NEWS NUGGETS.

—The Chief has a Society pin for which he would like an owner.

—The Bowlers meet to-morrow evening to elect their skips for the season.

—The band of the 57th Regiment will run an excursion to Jubilee Point on May 24th.

—The matter of deciding on the two names to be forwarded from the 57th Regt., for service in the Coronation Contingent, will be settled to-night at the drill shed. There will also be a march out.

—The busy little Patent Medicine Store in the Grand Central Block, George street, is becoming well-known in town and country. Patrons are encouraging us and thanking us for being able to supply them with the leading preparations so much cheaper than they have been accustomed to pay. People who used to send to Eaton's find that they can buy just as cheaply at our store now.

PERSONALS.

Mr. Gus Sawers, of the T.V..C. staff, Kirkfield, is in town.

Popular Ed. Young, of "the Point," was in town to-day, and wore an even more pleasant expression than usual—it is a daughter.

Mr. Willis Garrow and Mr. Reg Adams, left yesterday for Toronto. They were both members of the Young Men's Guild of St. Andrew's church, and will be greatly missed by that organization.

A SENSATION!

Fresh Ripe Strawberries in standard Canadian boxes to-morrow at 15c per box. S. A. OKE, 376 George Street.

Handy Way to Clean Carpets.

Lots of people are using the "Enterprise" Carpet Cleaner, and praising its virtues. Carpets can be cleaned on the floor, and all stains, grease spots, etc., removed without lifting the carpet. Sold only at Ormond & Walsh's drug store, in 10c and 25c tins. dw

STRATTON IS PRAISED BY GARVIN

At the Meeting Held in Foresters' Hall Baillieboro.

OPPONENT'S APPRECIATION.

An Excellent Meeting in South Monaghan—Riding and Public Questions Discussed by Mr. Jas. Barnard, Hon. Mr. Stratton and Hon. S. C. Biggs.

A most successful meeting in the interests of the candidature of Mr. Stratton was held at Baillieboro last night. The handsome Foresters' Hall was well filled with an audience consisting, for the most part, of solid, thoughtful electors of both political persuasions. There was, however, a noisy element present massed in the back of the hall and it is unpleasant to be forced to the conclusion that it represented a more or less definitely organized scheme for "rooting" for the Opposition speaker and interrupting the Liberal speakers. But the boys, for they were mere irresponsible lads, were not outrageously bad, and the speakers, but for occasional interruptions got a thoughtful and respectful hearing. Mr. Lewis Byers occupied the chair.

MR. JOSEPH BARNARD,

of North Monaghan, who had spent the first 48 years of his life in South Monaghan, was the first speaker. He expressed the pleasure it gave him to meet his old friends in the village where he had spent forty-eight years. The question the electors had to consider was who was the best man to fill the position of representative of West Peterborough. In dealing with Mr. Miller the speaker had not a word to say against him; he was a good and well-respected citizen, but his claims to the support of the electors would not compare for a moment with those of Mr. Stratton, who had represented this this riding for sixteen years, and Mr. Barnard claimed that Mr. Stratton had done more for West Peterborough than any member that had ever represented it, and the electors would be making a great mistake if they changed Mr. Stratton for a man who, however estimable in private life, was without experience and the energetic and agressive qualities that were needed in a good representative. In regard to municipal affairs Mr. Stratton and the Government had procured for them the distribution of a good deal of money which would have had to be raised by taxation if we had not had a member of influence and one who watched carefully over the interests of the riding. (Applause.) And Mr. Stratton now held a position which will give him more power to serve their interests. Mr. Stratton had dealt freely with all classes of the comunity, without respect to party. Mr. Barnard declared that he was a Conservative, but he was going to vote for Mr. Stratton because he was the best man—the right man in the right place, and he (Mr. Barnard) put men and measures before mere party politics. His majority had increased at every election because the people saw that he was doing good work for West Peterborough, and the Province, and he should have the hearty support of all who can appreciate faithful service, and of all who have the real interest of the riding at heart. (Applause.)

MR. J. W. GARVIN,

who appeared for the Opposition candidate, declared that Major Miller was one of the brightest men in the Conservative ranks in West Peterborough. Mr. Garvin admitted that Mr. Stratton was a good representative. He had showed wisdom by acting impartially as the representative of all classes of the electors, and he had done it well. (Applause.) But he claimed that Mr. Stratton was not instrumental in bringing the Cereal works to Peterborough; that credit belonged to Senator Cox. (Mr. Stratton, Hear, hear.) But Mr. Stratton deserved credit for getting the Bill to confirm the town bylaw put through. Mr. Stratton's past record would be no guarantee for the future, for there would be a change of government, and Mr. Stratton would not be in a position, as a Minister, to get such large grants for West Peterborough. This riding, through Mr. Stratton's efforts, had got twenty times the public money it was entitled to. Mr. Garvin denounced the system of colonization roads expenditure, and said that Mr. Whiney would give law reform, so that a farmer could go to law and receive damages for a cow killed by a railway train, without having so many court appeals—there would be only one appeal from a judge. He also condemned registration in towns that was not extended to the farmers. Mr. Whitney would give farmers' sons a right to register. He claimed that the Conservatives had acted rightly in regard to the Boundary Award. He also denounced the Wabigoon pioneer farm and the pulp concessions, though he admitted that the Government had done right in charging 40c a cord for the wood. The Conservatives deserved credit for the sawlog policy. Mr. Garvin put up the usual wail over the Sandfield Macdonald surplus being gone, and the Dickson Company and the Ennismore bridge came in for attention. The referendum was roundly denounced, and the patentees of the fine art of political corruption, the Conservatives, should be voted for as a protest against crooked work. Thirty years was too long to leave any party in the cold shades of Opposition.

MR. STRATTON,

who was very cordially received, made a speech full of important information and dealing in a large respect with public questions. Mr. Garvin, with his usual recklessness, had accused the Government with squandering the revenue from timber. But he did not show where a cent had been improperly spent. There had been received from woods and forests $27,729,000 and there had been spent on public buildings and other permanent public services $27,834,000, $114,000 more than had been received from this source. We had John Sandfield's surplus no longer. In one night the Government had signed cheques distributing it to the municipalities throughout the province, and of this Peterborough got $50,000 and Northumberland and Durham $75,000, spent on school buildings, town halls, roads and bridges, etc. The Government couldn't give that surplus to the people and have it still. Because of the large sums returned to the people, Ontario farmers paid less taxes than any State of the Union. In regard to Mr. Garvin's criticism of the expenditure of colonization roads money and Mr. Whitney's proposed way of turning it over to the municipalities, Mr. Stratton said he was responsible for the expenditure of this money and should not turn it over to the municipalities who would not take the best and nearest workers to the road, but poor people who were perhaps poor workers. He appointed district councillors and reaves of townships to spend this money. In regard to Mr. Garvin's denial of credit to Mr. Stratton in respect to the Cereal Works, Mr. Stratton said while Senator Cox deserved great credit, he (Mr. Stratton) claimed that the town bylaw respecting the works would never have been passed by the Legislature if he had not used every personal effort in his power to get the bill through in the interests of the town. Mr. Stratton pointed out that there was no need for registration in townships—the farmers' sons had the franchise and the population was more permanent than in town. Mr. Garvin need not make so much fuss over registration now, for his party in the House bitterly opposed the Registration act, and if it had not been for a Liberal Government thousands of young men and working men in town would not have, as they have now, a vote under the Registration Act. The Wabigoon farm had been established five years ago, to show that the land in that vicinity was suitable for farming, and as a result there were now 23,000 acres under cultivation, and 150,000 acres located, with two thriving towns of 700 and 600 population respectively. Who was right, Mr. Garvin, or the Government? The Whitney people said the limitless areas of our pulp wood lands should be surveyed and sold by public auction, although the Conservatives voted against surveys of new townships. Mr. Stratton went on to deal with the pulp wood and development, railway policy of the Government, and showed how these policies were in the public interests, in the way of establishing new industries, giving labour employment, and opening a market for the products of Old Ontario, and thus benefitting the whole country. After showing the inconsistencies of the corruption cry of the Opposition, which party had been the originators of the gravest corrupt practices, Mr. Stratton concluded by asking the support of the electors for a Government which had done so much, and had outlined so much to do, in developing the resources of the country, and for himself. He had striven to do his best for every elector, and every interest of the riding, and if again honoured with their confidence, he would do the best he could for West Peterborough. (Loud applause.)

HON. S. C. BIGGS,

of Toronto, was the next speaker. After referring to the duty of the electors at this time, he pointed out that Mr. Garvin and the Opposition speakers, from Mr. Whitney down, presented claims and made charges and statements on the platform that they dared not make in the House, and he dealt with two or three statements made by Mr. Garvin to show that he was unreliable, and that what he said had no bearing upon the question at issue. In regard to the greatest of issues, that of Agriculture, Mr. Whitney had opposed the appointment of a Minister of Agriculture, who had done so much to advance the interests of farming; and it was the same with other interests in charge of the Government, which had been so faithfully administered, and no department better than that of Mr. Stratton, who had made an excellent representative in every respect; and would they turn out a faithful representative, with experience, with a Government position, with Government influence, to replace him with an entirely inexperienced man? Why should Mr. Miller be put in Mr. Stratton's place? Mr. Miller had pledged himself to support Mr. Whitney on all points, except one, and that was in regard to prohibition. Mr. Garvin had said that the Government should have passed a prohibitory law on their own responsibility, and that, if submitted to the referendum, it should be carried by a bare majority, while the great mass of sincere prohibitionists desired that there should be a large majority behind it. What would be Mr. Miller's position? He declared himself a prohibitionist, but what good would that be in the House He would never have a chance to vote for prohibition, because his leader and party would never introduce such a measure——

Mr. Garvin—He would vote for any measure of prohibition.

Mr. Biggs—Mr. Miller would never have a chance to vote for prohibition, if it were not introduced from the Liberal side of the House. There had been four Conservative prohibitionists sitting in the House for 8 to 16 years, and none of them had ever introduced a Bill—Mr. Marter introduced an academic resolution, and could do nothing, because there was nobody on his side of the House to support him. Mr. Miller would be in the same position now. Mr. Biggs said there were three essentials in building up a country — men, materials and a market. We had the right men in the Ross Government; we had the materials in the immense natural resources of the province, and we had Old Ontario for a market for the products the development of the new country would create a demand for, and the policy of the Government was to extend the foreign market by providing cold storage and other facilities. The Government had adopted the only means of development — doing something to bring it about — and it should be supported. He concluded by asking the electors to consider their vote well—it did not pay to vote for a party that had nothing to offer—simply because it was a party. Electors should look to something to vote for, and stand up for their country's interests. They had reason to be proud of the Government, and of their member, proud of him as a Minister, proud that he is one of themselves. Ninety out of the 97 ridings of the province would be proud to have a Minister for their representative. "Stand by your representative, stand by the Government, stand by the province, stand by the Empire," was the closing admonition of the speaker. (Applause.)

Hatters and Furriers, 413 George Street.

JOLLY GOOD FELLOWS.

Two Young Men Who are Leaving Town—A Send-off.

Yesterday evening the boys of Miss Richardson's Sunday School class, of St. Andrew's Church, met at their teacher's house to give two of their number, who are leaving town, a send-off.

During the evening the remainder of the class presented the two departing boys, Allan Smith and George Brenton, with pocket Testaments.

After singing very vigourously "For They are Jolly Good Fellows" and "Auld Lang Syne," the jolly party broke up.

Both these boys being indeed "Jolly Good Fellows" will be greatly missed, not only by the class, but by all who knew them.

Mrs. Darnley

(Late of Stitt's, Toronto.)

Elegant early Summer Millinery now ready, the new models from the fashion centres.

New Pattern Hats—different examples of Millinery beauty, charming contributions of skilled artists, representing earliest summer styles in London, Paris and New York.

Come and see them. You are heartily welcome.

No. 124 Hunter Street.

ASHBURNHAM COMMITTEE ROOMS

Mr. Anderson's Committee Rooms in Ashburnham will be open on Wednesday night and each evening after until the election. All Mr. Anderson's workers and supporters of the present Government are asked to attend.

EGYPT NOW BRITISH

Significance of Lord Salisbury's Albert Hall Speech.

END TO A DIPLOMATIC FICTION

Temporary Occupation Has Now Gone by the Board—The Efforts to Raise a Local Row in the Land of the Pharaohs Killed by Sweeping Declaration of British Sovereignty.

London, May 13.—Lord Salisbury's prominent reference to Egypt in his Albert Hall speech has more than ordinary significance. It was the first public occasion when a responsible British statesman used language equivalent to a declaration that Egypt had become a part of the dominions of the Crown.

So far as British claims affect the case, there is an end of the fiction of temporary occupation, which had existed for nearly twenty years. It is understood that the Premier's emphatic pronouncement was intended to put an end to efforts and reports designed to embarrass Lord Cromer, the British representative at Cairo.

For a year or so the Egyptian capital has been the headquarters of an anti-British movement deriving its support about equally from Constantinople and national circles in Paris.

The original plan of the leaders was to work upon the vanity and ambition of Abbas Pasha and induce him to appeal to the powers against England.

This failed, and the failure is believed to have been due largely to the sensible advice given the Khedive by his mother, who pointed out the possession of Egypt was vital to Britain's welfare, and that any issue over this question would be settled at sea.

Having failed in that part of the scheme, its promoters devoted itself to sowing seeds of discontent among the peasants. They carried pamphlets showing the nature and scope of the works now in construction for the irrigation of the huge sand tracts along the Nile and appealed to the peasantry not to allow the British to get possession of the arable land.

The question was quickly dominated, its opponents going from house to house, and considerable feeling was aroused among the native Egyptians.

Despatches of a sensational character were forwarded to anti-British journals throughout Europe; and the impression was sought to be made that the Egyptian working classes would welcome the help of France.

Undertakings of this sort, while they could have no serious result, tend to revive the discussion of settled issues, and the British Government decided to close the controversy with a sweeping declaration of sovereignty over Egypt.

STILL THEY WONDER

Physicians and Scientists Were Never so Bewildered.

The Ottawa Miracle is Still Being Discussed at the Regular Meetings of the Doctors of the Capital City.

Ottawa, Ont., May 11. (Special)—To say that the miraculous case of George H. Kent, of 309 Gilmore street, had shaken Medical Circles to their very foundation, is putting it mildly.

The facts of the case have been so thoroughly and satisfactorily established by Mr. Kent's sworn statements as to leave no room for misunderstanding or mistake in the matter.

Mr. Kent had Bright's Disease; he had been in bed for months, gradually getting worse; physicians could do nothing for him.

His case had reached that stage when his body was terribly bloated.

He was so low that he had convulsions, which were rapidly growing more frequent.

In the interval between these convulsions he was almost entirely unconscious.

In this extremity the physicians at last told his wife one evening that he could not live until morning.

While watching by his bedside Mrs. Kent changed to pick up a paper containing an advertisement of a cure o. Bright's Disease by Dodd's Kidney Pills. It was then midnight, and all the drug stores were closed, but the devoted wife determined, that even at this extremely late hour she would make one more effort to save her husband's life.

Accordingly she despatched a messenger, woke up the nearest druggist, procured a box of Dodd's Kidney Pills, which she commenced to administer at once.

Mr. Kent did not die that night, for from the first dose of Dodd's Kidney Pills he commenced to improve. All other treatments and medsines were discarded, and the use of this remedy carefully continuedf.

Gradually yet surely this wonderful remedy arrested the progress of the dread Bright's Disease.

It took Dodd's Kidney Pills about six or seven weeks to restore Mr. Kent to good health. This is seven years ago, and he has never lost a day's work through illness since.

Cheques For $10,000,000.

New York, May 13.—Cheques aggregating $10,000,000 were sent out yesterday by J. P. Morgan & Co. in payment of the second distribution of profits resulting from the formation of the United States Steel Corporation.

Inspected Western Jails.

Toronto, May 13.—Dr. Chamberlain, provisional inspector of jails and prisons, has returned from a tour of inspection in Western Ontario. London and Sarnia are going to remodel their jails this year.

Throw Away Your Pill Boxes.

Why take pills when every dose only makes another more necessary? Merrill's System Tonic tones the liver and restores the muscular power to the bowels, thus curing constipation to stay cured. When the bowels are right dyspepsia and nervous troubles disappear. 50 pleasant-to-take doses 50c. Sold at Ormond & Walsh's drug store.

MONTREAL LIVE STOCK.

Montreal, May 12.—There were about 600 head of butchers' cattle, 600 calves and 200 sheep and lambs offered for sale at the East End Abattoir to-day. The butchers were out strong, and there was an active demand, with firm prices paid for the best cattle. An extra pair of steers sold for 6¾c per lb.; prime beeves at from 5¾c to 6¼c per lb.; medium cattle at from 4½c to 5½c, and the common stock at from 3c to 4¼c per lb. Calves sold at from $1.50 to $11 each. Shippers paid 4c per lb. for good large sheep, and the butchers paid from 3½c to 3¾c for the others; yearlings sold at from 4c to 4¼c per lb. Lambs sold at from $2.50 to $4 each. Fat hogs sold at from 7c to 7¼c per lb., weighed off the cars.

NEW YORK LIVE STOCK.

New York, May 12.—Beeves—Receipts, 3322; good to choice steers generally 10c lower; medium grades firm to 10c higher; bulls and cows strong for undergrades; fat cows and bulls 10c lower; steers, $5.10 to $7.80; oxen, $5.37½; bulls, $3.75 to $5.45; cows, $2.60 to $4.65; extra fat do., $4.90 to $5.05. Shipments to-morrow, 810 cattle, 1086 sheep and 2880 quarters of beef.

Calves—Receipts, 2937; market fairly good; general sales 25c lower. Veals, $4 to $8.50; choice, $8.75 to $9; few tops, $9.50; culls, $3 to $5.50; buttermilks, $3.50 to $4; city dressed veals, 8c to 10c per lb.; country, 10½c.

Sheep and Lambs—Receipts, 10,502. Sheep steady; prime clipped lambs steady; medium and common lower; spring lambs slow; clipped sheep, $3.50 to $6; extra, $6.25; unshorn do., $4 to $6; clipped lambs, $5.25 to $7.20; unshorn do., $6 to $7.35; clipped culls, $4 to $5; spring lambs, $3 to $5 each.

Hogs—Receipts, 7569; market steady for state hogs at $7.35; western mixed, nominally weak.

BRITISH CATTLE MARKET.

London, May 12.—Prices steady; live cattle, 14c to 15c, dressed weight; refrigerator beef, 12c per lb.

CHEESE MARKETS.

At Belleville, sales of white and colored at 11c.

At Watertown, N.Y., sales at 11c to 11⅛c.

At Kemptville, sales of white and colored at 11⅛c.

At Canton, N.Y., sales of twin cheese at 11⅛c.

At Ogdensburg, N.Y., sales at 11⅛c.

Britain to the United States.

London, May 13.—The Parliamentary Secretary of the Foreign Office, Lord Cranborne, has instructed the British Ambassador at Washington, Lord Pauncefote, to renew the representations made in 1900 in regard to discrimination against the United Kingdom in the matter of paintings and statuary. The Foreign Office considers that Great Britain is entitled to the same five per cent remission of duty as the United States accords to France, Germany, Portugal and Italy.

DR. GRANT'S FUNERAL.

Rev. Dr. Warden Will Deliver the Funeral Sermon.

Kingston, May 13.—Rev. Dr. Warden, moderator of the Presbyterian Church, will deliver the funeral sermon in Convocation Hall, at Queen's University, on Tuesday afternoon, and Rev. Dr. Ross, the senior member of the Theological Faculty, will assist.

Flags are floating at half-mast from all the public buildings, schools and business houses. Archbishop Gauthier ordered the flags at mourning height over the Roman Catholic College and schools. All the public bodies will meet and pass resolutions of condolence.

Diarrhoea Weakens the System.

and if not checked becomes a chronic condition. No remedy compares with Nerviline, which is prepared especially for stomach and bowel troubles. As a radical cure for cramps, colic, gas in the stomach, summer complaint, Nerviline excels everything in the medical line, as an indispensible household staple, and costs 25c. Buy a bottle to-day.

Try Dr. Hamilton's Mandrake Pills.

Refused to Manslaughter.

Toronto, May 13.—Bertha Moon will be tried in the Criminal Assizes to-day on a charge of manslaughter in connection with the death of her child, found in an outhouse on her brother's property at Highland Creek on Feb. 14 last. Miss Moon was indicted by the grand jury yesterday afternoon which on the murder charge reported "no bill," and indicted her on the minor charge of manslaughter.

Saw Condor in Distress.

Victoria, B.C., May 13.—Robert Marshall, a boat puller on the schooner Mary Taylor, one of the sealing schooners which has not yet returned to port, in a letter to a friend here, says, referring to the loss of the sloop-of-war Condor, which went down in a gale off Cape Flattery in December last. One of the schooners saw her in distress, but could not get near her. She was firing guns and fire-rockets.

Collapse of the Nerves.

Strange, Dizzy Feelings, Sleepless Nights, Head Felt as Though it Would Burst, Thought She Would Lose Her Mind—A Remarkable Cure by

DR. CHASE'S NERVE FOOD.

If you have been discouraged in seeking a cure for nervous exhaustion or prostration, the case of Mrs. C. H. Jones of Pierceton, Que., will interest you. Hers was a severe case, but is a fair example of what thousands of women are enduring, with the belief that they can never be cured.

Mrs. Jones describes her case as follows:—"For several years I had been gradually running down in health, and growing weaker and weaker. I did not know exactly what ailed me, for strange, dizzy feelings would come over me. I got a terrible fright, and it so unsettled my nerves that shaking spells would come over me, and I could not keep my feet still, and finally I had to keep the bed most all the time.

"The doctor said I had nervous prostration, and though I took his medicine from fall till spring, I did not improve in health, and could not read or sew. I would lie awake at nights and often would not get more than five or six hours' sleep in a week. My head, felt as though it would burst, and I thought I would go out of my mind.

"An uncle from New York visited me at this time, and told me of what an awful time he had gone through with his nerves. He said that he always had more faith in Dr. Chase than in any other physician, and was cured by the use of Dr. Chase's Nerve Food. I began using this preparation, and improved from the first. Altogether I used five boxes, and it has done me more good than I ever thought medicine could do. My health is better in every way than it has been for many years, and my nervous system is strengthened and invigorated.

"I might add that I have also used Dr. Chase's Kidney-Liver Pills, with excellent results."

Dr. Chase's Nerve Food cannot fail to benefit any man, woman or child who is pale, weak or nervous. It contains in condensed form the most potent restoratives of nature. It does not stimulate or give false hope, but gradually and thoroughly builds up the system and effects permanent cures. Like Dr. Chase's Ointment and Kidney-Liver Pills, this preparation has the endorsement of physicians and people alike in all parts of this continent. It is the standard treatment for weakness of blood and nerves. 50 cents a box, 6 boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 7

Your Doctor.

We wish you would ask your doctor what he thinks of Vapo-Cresolene. He will say "It's certainly the best way of reaching the throat and lungs, this inhaling method." You see, it brings the medicine right in contact with the weak places. If it's asthma, bronchitis, whooping-cough, croup, or any such trouble, the Cresolene vapor touches every inflamed place. Relief is quick, certain. 1

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Dimison, druggist.

PLUMBING, GAS and STEAM FITTING

Having purchased a complete plant of Plumber's Tools, Machinery, etc., also a stock of first-class fittings in brass and iron goods, I am better prepared than ever to give you a first-class job at very moderate prices. Keeping myself fully posted by studying the latest and best literature on heating and plumbing, I can advise and put into practice the newest and best methods in this line of business. Carrying a select stock of iron pipe and fittings, steam, copper, and galvanized iron boilers, closets, baths, sinks, lavatories, tanks, etc., all fitted up in the best manner. Iron pumps, pipe, points, etc., in stock, wells driven, and every description of plumbing, steam and gas fitting work done promptly. Brass, stop, waste and ball cock valves of every kind, steam gauges, etc. Ring up Telephone 353.

LOST BOTH HIS FEET

Terrible Accident to Hugh Brown on G. T. R. at Hamilton.

BEIT SUCCEEDS CECIL RHODES

Alex. Macdonald Drowned Near Port Frances — Unknown Woman's Body Found Near Scarboro Junction— Geo. Scouten Gets 10 Years Imprisonment at Calgary For Manslaughter.

Lieut.-Gov. Stone of Wisconsin died at Watertown on Sunday.

The Railway Committee of the House of Commons has thrown out the Montreal bridge bill.

There was a $2,800 fire in E. R. Rogers' hardware store at Toronto Junction Sunday morning.

George Scouten, convicted of manslaughter at Calgary, has been sentenced to ten years' imprisonment.

Angus McDonald of Boxalder was drowned a few miles west of Fort Frances. His body has not yet been recovered.

Hon. A. F. Randolph of St. John, N.B., was stricken with paralysis on Saturday afternoon. He is in a precarious condition.

Before leaving for England Lord Kelvin said: "Photography in natural colors will soon be an established fact, although it will necessitate a lot of study to get it perfected."

The Dunsmuir Government of British Columbia is having an extremely anxious time of it just now, having a majority of only one vote and an aggressive Opposition. This week may see the end.

The decoration of the monument to those who fell in the Northwest rebellion in 1885 took place Saturday afternoon at Queen's Park, Toronto. There was a big procession and a record crowd of citizens to witness it.

Hugh Brown, a car repairer for the Grand Trunk at Hamilton, in crossing the track in front of cars being shunted on Saturday he slipped and fell. Some of the cars went over his feet almost severing them. They were amputated at the General Hospital.

After Monday all sectionmen employed on the Grand Trunk Railway, who are receiving less than $1.20 per day, will be paid this amount, and section foremen will be given $45 a month, an increase over their present pay. Between 600 and 700 men will be benefitted by the voluntary action of the company.

Hon. F. G. M. Dechene, Minister of Agriculture in the Quebec Government, died Saturday morning. Hon. F. G. Dechene was 48 years of age, and entered the Quebec Legislature when 27 years of age, and had been a member, with six years exception, ever since. He entered the Quebec Cabinet five years ago.

The C.P.R. elevator at Fort William was put out of business by a fire Saturday morning that destroyed the entire front and all the machinery in the elevator. The elevator had in store about 1,000,000 bushels and will now be at a complete standstill. The tanks are not much injured, but there will be a loss of probably $100,000.

The death occurred Sunday night at Toronto of Hon. Rupert Mears Wells, K.C. Hon. Mr. Wells was a son of the late Sheriff Wells of Prescott and Russell and was born in the County of Prescott. He was Speaker of the Ontario Legislature from 1873-1880. He afterwards sat in the House of Commons till the general election of 1887, when he suffered defeat.

The steamer Iona of Picton, Ontario, owned by F. E. Hall & Company, caught fire while loading coal at the Delaware, Lackawanna and Western trestle at Oswego, at 9 o'clock Saturday morning. Isaac Compeau, the fireman, was burned to death. He was 25 years of age and married. His home was at Trenton, Ontario. Fifteen coal shovellers and the crew, with the exception of Compeau, fled to Dock No. 4. The shovellers were caught in the hold, directly under the engine room, and had to be shovelled out.

Sunday the body of a woman lying to the south of the tracks about two miles east of Scarboro Junction was found. Coroner Sisley of Little York made an examination of the body and found a severe scalp wound and fracture of the skull. He concluded that the woman had been struck by a train sometime during Saturday night, and deemed an inquest unnecessary. The body is that of a woman about 40 years of age, five feet in height, with brown hair and gray eyes. There was nothing that would serve to identify the remains.

NO COAL TO BE MINED.

General Miners' Strike Goes Into Effect in Pennsylvania.

Scranton, Pa., May 12.—There will be no coal mined in the Scranton end of the anthracite region this morning. Some of the companies, however, propose to keep a few, at least, of their washeries running to insure a supply of culm. The strike has already made itself seriously felt in other lines of work. The railroads have laid off four-fifths of their coal train crews, in all about 800 men, and the Erie shops at Dunsmore, where mine cars and machinery are repaired, will shut down indefinitely, beginning to-day, throwing 300 men out of employment.

To the Weary Dyspeptic. We Ask this Question:

Why don't you remove that weight at the pit of the Stomach?

Why don't you regulate that variable appetite, and condition the digestive organs so that it will not be necessary to starve the stomach to avoid distress after eating.

The first step is to regulate the bowels.

For this purpose

Burdock Blood Bitters

has no Equal.

It acts promptly and effectually and permanently cures all derangements of digestion. It cures Dyspepsia and the primary causes leading to it.

CHILD WEAKNESS.

You can worry for months about your weak child and not succeed in doing it a fraction of the good that comes from little daily doses of Scott's Emulsion.

The cure of child weakness is not the matter of a day but of steady common-sense treatment.

Children like Scott's Emulsion and thrive on it.

Perfectly harmless yet powerful for good.

Send for Free Sample.

TORONTO.

A Hungry Musician.

During the siege of Ladysmith an officer who was organizing a concert to keep up his men's cheerfulness heard of a sergeant in the Gordons who was said to be a performer. He found the said sergeant and asked him to contribute his services.

The sergeant was sorry, but said he "couldn't."

"Why," said the officer, "you do play something, don't you?"

"I did, sir."

"Well, what's your instrument?"

"The bones, sir—but I've ate 'em!"

Modern Instance.

"And now," he said, "we will see what our old friend the apostle Paul has to say. Step up here, Paul, and give us your testimony."

No, the speaker wasn't a flippant prosecuting attorney in the celebrated trial before Felix.

It was the Rev. Mr. Seventhly, the popular pastor of the Blank Avenue church, who was preaching a doctrinal sermon.

The Shock Too Severe.

"Did the coroner's jury ascertain what caused Bowersox's sudden death?"

"Yes. It appears that he received a plumber's bill in his morning's mail."

"But surely that did not kill him?"

"That wasn't it, but about noon the plumber himself called and said there was an overcharge in the bill that he wished to correct."

John Randolph.

The most flagrant bit of diplomatic jobbery in the history of the United States was perpetrated by that Virginia scapegrace, John Randolph of Roanoke. Randolph was appointed minister to Russia in 1830. He sailed for his post in June of that year, but remained there only ten days, and then departed suddenly for England, where he raised high jinks for nearly a year, after which, returning home in October, 1831, he drew $21,407 from the treasury, with which he paid off some of his old private debts.

John's Blunder.

A minister in Scotland who was making a call the other week upon a member of his flock whom he had not seen at church for some time asked, "What's come over you that I don't see you at church at all now?"

"Hoots, man, ye'll no' ha' seen me because I sit ahint the pillar."

"The pillar, John? Good gracious, the pillar! Why, it is two years since it was removed from the front of your seat."

A Sure Sign.

Little Dick—Papa, how does thunder sour milk?

Papa—It is not the thunder, but the electricity.

"How does electricity sour milk?"

"It works certain chemical changes in the constituents of the fluid, which result in the formation of an acid."

"Of course. But how?"

"I don't know."

"I thought you didn't, or you wouldn't have used such big words."

The Apaches have three different kinds of violins, each having but one string and played with a small bow.

All fortunes have their foundations laid in economy.

AN INGENIOUS BEARTRAP.

The Mexicans in California had an ingenious method of trapping bears before the advent of the Yankees brought modern firearms into the region. A piece of meat was nailed to the stout horizontal limb of an oak tree. From a limb five or six feet above a rope was suspended, to the end of which a large stone was made fast so that it hung about six inches above and a trifle nearer the trunk than the meat on the lower limb.

When a bear smelled the meat from afar, he would climb up the tree and make his way to the bait. In doing so he would push the stone pendulum to one side. Just as he was about to fasten his teeth in the meat the stone would swing back and bang his head. This would arouse the anger of the bear, and he would give the stone a sweep of his paw which would send it swinging farther out. The consequence was a harder bang and more anger. The more he struck the stone the harder he would be hit in return until from ferocious anger he would lose his caution and attack the pendulum with all his vigor. One powerful sweep, then bang! and bruin would be tumbled out of the tree to the rocks below, where, disabled by his fall, he would be at the mercy of those who set the trap whenever they chose to take him.

Save Your 1833 Quarters.

Take them to Ormond and Walsh's drug store and he will give you a bottle of Four T's, the bbest, safest and quickest cure known for coughs and colds. More than a quarter million bottles sold in five years time, proves Four T's the best lung compound known. It is a positive cure for whooping cough.

The Disadvantages of Heroism.

It would be a good thing if in our public school courses in heroism to teach the boys and girls that, after all, while heroism is a fine thing and a great thing, it is a most uncomfortable thing and that possibly, on the whole, the best and most lasting work that is accomplished in life comes from a steady application of all one's best energies to a noble purpose, meeting with honest and patient effort the emergencies and vexations of daily life and holding true to the middle course, which assures success without bringing notoriety. A fixed purpose to do well that which one has to do will in the end bring laurels of more permanent value to the world at large and to the unheralded hand that achieves its purpose than those which are even worthily bestowed upon the brow of him who avails himself of an unusual chance in an abnormal fashion

Character in Medicine.

There is character in Dr. Chase's Ointment—just such character as has made Dr. Chase esteemed and admired the world over. Dr. Chase's Ointment has stood the test of time and remains to-day the only actual cure for Piles and itching Skin Disease. It is the standard Ointment of the World. You can rely on it just as you rely on Dr. Chase's Receipt Book, because you know that it is backed by the sterling character of Dr. Chase—America's Greatest Physician.

There Was No Music.

"What is the greatest fib that ever impressed itself on your experience, Snapper?"

"Well, by all odds, the worst one I ever heard was that your quartet perpetrated last night when they came round to the house and sang, 'There's Music In the Air.'"

The Value of Science.

Science is a first rate piece of furniture for a man's upper chamber if he has common sense on the ground floor, but if a man hasn't plenty of good common sense the more science he has the worse for the patient.

Teeth.

Bobby—My gran'ma's so old she ain't got a tooth in her head.

Tommy—Ain't she? Well, mebby they're in her bureau drawer, like my Aunt Millie's is sometimes.—Philadelphia Bulletin.

If You're Accustomed

to using Japan Tea why not give

"SALADA"

Ceylon GREEN Tea a trial. It is superior to Japan tea in every way. It is sold only in sealed lead packets, just like the celebrated "SALADA" Black Tea, at 25c. and 40c. per lb. By all grocers.

MAKE A POINT

of trying our long Havana filler, Sumatra wrapper 5 cent cigar. Even if you think that no good cigar can be made to sell for 5 cents, smoke one of our latest new brands and be convinced to the contrary.

No doubt there are better cigars—we have at 10 cents and at 3 for 25c—but our 5c is excellent smoking.

CURTAIN STRETCHERS, CARPET SWEEPERS, HAMMOCKS, EXTENSION RODS, FURNITURE COVERINGS, BRUSSEL NETS, STAIR PLATES, STAIR PADS, CARPET LININGS.

FARMER JOE'S SPEECH.

It Was Short, but It Crushed the Bumptious Youngster.

"You may get the better of an opponent in debate," said an old time orator, "by sheer force of convincing argument—that is to say, you may score and win on points—but if you want to put your man down and out at a single coup just make him ridiculous. Only succeed in doing this, and all the logic of the other side will explode in vacancy like so many blank cartridges.

"Once when I was serving a term up the state in the legislature a bumptious youngster who had just been introduced was laboring through his maiden effort. He was attacking a man who was his senior by at least a score and ten years and thought to make a hit by referring to him as 'that little gray-beard from Herkimer.' Rymal of Niagara rose to reply. He was an old timer, who never spoke unless he had something to say and so was always sure of an attentive audience. Farmer Joe, as he was called, got up slowly, gradually expanded himself to his full height of 6 feet 4, thrust his left hand behind the tails of a capacious and somewhat shabby frock coat, held up the index finger of his right hand, cleared his throat ominously and solemnly began:

"'Mr. Speaker, the honorable gentleman who has just spoken has never read Pope's essay. If he had, he would remember that the "soul's the standard of the man." And, sir, fifty such souls as that of the honorable gentleman who preceded me could be put into the skull of a flea and have as much room there as two frogs in Lake Superior.'

"He didn't have to say more. The chamber went into a convulsion of laughter which lasted for several minutes after the tall farmer had resumed his seat. As for the youngster, he did the best he could. He wriggled about, got red in the face, tried to look unconcerned and kept his mouth closed during the balance of the session."

The Colors Produced by the DIAMOND DYES Are Admired by all who Have a Taste for Color Beauty.

The colours produced by the Diamond Dyes on all wool, mixed goods, and all cotton goods, are admired by all ladies who have a taste for for colour beauty. There is a depth, fullness and richness in Diamond Dye colours that manufacturers of other home dyes have never been able to produce.

Garments and materials dyed with the Diamond Dyes show clear and perfect colours that stand fast as long as the goods hold together. Colours produced by the common package dyes are dull, muddy and streaked, giving full proof of adulterations and worthless colouring ingredients. When it is generally understood that Diamond Dyes, with all their superior qualities, and a guarantee of perfect work are sold at the same price as the poorly prepared dyes, it will be a difficult undertaking to find a woman who will risk her goods with the dangerous adulterations put up in imitation of the Diamond Dyes.

Send your address on a post card to The Wells and Richardson Co., Limited, 200 Mountain street, Montreal, P. Q., and you will receive post paid full range of designs in the new Diamond Dye Mat and Rug Patterns.

First American Mandolin.

The first mandolin made in America was turned out in Chicago and was built by Joseph Bohmann, an instrument maker who was well known at the time as a manufacturer of violins. The date was 1883 or 1884. The writer of this article was teaching and playing the mandolin in Chicago at the time; using a small model imported French instrument, and remembers the Bohmann instrument particularly on account of its unusual size, much larger than any he had ever seen, its peculiar shape and its very crude construction as compared with those of a later date. Nevertheless it was a beginning. Other manufacturers experimented, and it was but a short time until Bohmann and other makers were turning out instruments that were accepted by professionals as superior to the imported mandolins. From that time to the present progress and continual improvement has been the rule until now the American instruments have passed all competition.—Clarence L. Partee in Men's Magazine

Lazy Livers and Sluggish Kidneys

When these organs fail to perform their proper functions, the blood becomes poisoned and end suffering and disease commence. This can be avoided by keeping your vitality at high-water mark, the blood rich and pure, by taking one Ferrozone Tablet after each meal.

Ferrozone has a mild but rapid action on the liver and kidneys, and is certainly the greatest producer of red vitalizing blood known to science. Morning tiredness, Languor, Dizziness, Pain in the Back and Sick Headache disappear at once when Ferrozone is used. Get it to-day. Price 50c., at Ormond and Walsh's.

Dr. Hamilton's Pills cure Biliousness.

THE LAKE STREET SCHOOL.

All the Rooms are in Good Sanitary Condition.

Dr. Bingham, Medical Health Officer, makes the following report in connection with the sanitary condition of the Lake street Separate school:

On the 9th inst., in company with the chairman of the Board of Health, I inspected the sanitary condition of the Lake street separate school. All the rooms were in a good sanitary condition, so that the most rigid sanitarian could find no fault with the school. But to make assurance doubly sure, we disinfected and fumigated every room in the building, so thoroughly that it would be impossible for the most minute germs of disease to escape destruction. The school rooms are clean and absolutely free from any infection. The outside premises were examined and found to be in a proper sanitary condition.

Diphtheria is a dirt disease, and it usually starts in some family where sanitary meanures are unknown, and from the disease spreads by infection to other families where the most scrupulous cleanliness is observed.

J. BINGHAM,
Medical Health Officer.

May 12th, 1902.

It Strikes the Heart.

Not only is the victim of Rheumatism constant sufferer, but he lives in continual dread that the disease will reach the heart, which means sudden and unexpected death. Rheumatism can only be cured when the uric acid is removed from the blood by the healthy action of the kidneys. Dr. Chase's Kidney-Liver Pills make the kidneys healthy and vigorous, and so gradually and thoroughly cure Rheumatism by removing the cause. One pill a dose, 25 cents a box.

Superior Grey Lime.

"Your grey lime works very satisfactory. Every trial enables me to say truthfully that it is altogether superior to the lime I have been previously using. It makes a stronger bond." This is the voluntary expression of a large user of the grey lime we are handling in large quantities. R. Hicks & Co., Rathbun Co's old stand. Telephone 48.

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

GALWAY.

The Late Mrs. John Clark.

We record with deep regret the death of Mrs. John Clark, which sad event took place at the family residence on Monday, May 5th.

The sad occurrence came as a shock to the whole community, for only two short years ago Mrs. Clark was made a bride and lived happily with her husband. Death was caused by premature confinement, the innocent cause being placed in the coffin at her side.

Deceased was only twenty-four years of age at the time of her death, and had, apparently, before her a long and a bright future. In all the duties of her position she was faithful. She was affectionate and devoted and deserved the title of a real home-maker in the widest sense of that term, as she had already won a large circle of friends.

The remains were taken to the Roman Catholic Cemetery in Galway followed by a very large number of vehicles.

The sympathy of the entire community goes out to Mr. John Clark, (son of Mr. Thos. Clark, ex-Reeve of Galway,) whose home has been blighted so soon and who is one of the most promising young men of our township.

STOCK MARKETS.

Some Splendid Issues to Purchase.

New York, May 13th, 1902. — Careful compilation shows New York Central to be earning over ten per cent., including its equities. The earning power of the road should run even beyond these figures, even allowing for heavy expenditures upon the road charged to earnings. Considering the roads splendid physical condition, and its prospects for continuously heavy traffic, as it runs to-day through a line of large cities and a populous territory. Penna. and New York Central are among the best railroad stocks that one can hold for investment. Great value tends to reduce the interest yield. St. Paul is also a stock that is worth every dollar that it sells for. The day is not far distant when it will sell for 200. It is not as heretofore, dependent upon crops. Its territory has grown in population wonderfully. Among the medium priced bargains we again notate Southern Pacific. Though it may not commence its dividend this year, it will positively do so in 1903. When they are commenced they will be maintained. The current year the company will spend $20,000,000 upon the property, charging same to operating expenses. Part of this money will be spend in erecting oil tanks along the line from New Orleans to Portland, and for the conversion of coal burning locomotives into oil burning engines. The saving will be enormous, as four barrels of oil, which will cost the company 60 cents, can do an amount of work equivalent to one ton of coal, which costs the company $3.75. This road runs through a section of the United States that is still in its infancy. Increase of population, which is steadily going on in this section, will do its work, and build up the company's traffic prodigiously. To-day it is the second largest gross earner in the United States. Southern Pacific is destined to sell above par, and is bound to do so. No better stock selections to cling to can be enumerated than those which we have made topic of to-day's letter.—Haight & Freese Co.

GOLF BALLS—that is all good makes—we keep. Most of them sell at 25c. A lower priced one won't stand.—The Salisbury Co.

WEDDED IN TORONTO.

The Brantford Expositor says: "An interesting wedding took place at the residence of Major W. J. Ramsay, of Toronto, when Mr. Ed. Crompton of the well-known firm of E. B. Crompton & Co., of this city, was united in matrimony to Miss Lila Smith, daughter of Principal Smith of Peterborough public school. The charming young bride has been a resident of Brantford for some time, and is unusually popular with a host of friends. The duties of bridesmaid were discharged by Miss Ella Crompton, sister of the groom, while Mr. Charles Ramsay of this city was groomsman. After the ceremony the wedding party sat down to a dainty dejeuner. Mr. and Mrs. Crompton leave Toronto this evening on a honeymoon trip to New York and several other eastern cities.

The heartiest congratulations of many friends in the city will be extended to the young couple, a sentiment in which The Expositor most cordially joins."

No one has won the Money.

The $1,000 reward offered by Merrill, the Brantford Druggist, for a better cure for Habitual Constipation than Merrill's System Tonic has not yet been won. Besides its wonderful tonic action on the liver and intestines it is a pleasant and powerful blood purifier, thus curing all nervous affections such as sleeplessness, loss of vigor and twitching of the nerves. 50 pleasant-to-take doses for 50c. Sold by Ormond & Walsh.

Seeds That Grow

If you want reliable flower, field and garden seeds, you'll be safer to buy them right at home, from Ormond & Walsh's drug store. dw

Big shipment of refrigerators and oil stoves just arrived at the Boot Stove Co. Call and see them.

Framed Pictures.

For very little money you can cover your walls most artistically, if your pictures are selected at the Peterborough Bookstore. We have put some very special prices on framed pictures this month, the subjects of which are most pleasing. Room mouldings are another important feature in room decorations. The plate-rail does wonders when care is taken to match the paper. Pretty effects and pleasing patterns at the Peterborough Bookstore.

New American Blouse Styles.

In presenting our new sample lines of American print and linen effects for summer shirt waists, we do so with absolute confidence that the two great requisites of correct style and superior value have never before been so well combined. Our skilled staff and the unequalled facilities afforded by our factory gives us advantages in manufacturing shirt waists, faultless in design and fashioned after popular American tastes. Ladies will be interested in our pretty new summer blouses made in fast colour American print, with new dip sleeves, tight fitting backs and long dip front, which we are selling at 65c., instead of 85c, the regular price. We will also have ready for Saturday, the very latest American novelty shirt waists in linen fabrics, some with Paisley stripes, which we will sell direct from our factory at $1.00 to $1.50 instead of $2.00. C. G. Gemmell, Charlotte street.

TO THE SOBER AND TEMPERATE

We want all your orders for anything in the Ale, Wine and Liquor line that you may need for any purpose.

Very likely that is something you need immediately, or are going to need soon.

Temperate users of drinkables will agree that the purity and high quality of our goods is unassailable.

SOUFRIERE'S VICTIMS

Deaths at St Vincent Now Number More Than 2,000.

AWFUL STORM: STONE AND MUD

Ashes at Kingston, the Capital of the Island, Two Inches Deep—The Situation at St. Pierre—160,000 People Starving on the Island of Martinique—Marrying Aid to the Survivors.

Fort de France, Island of Martinique, May 13.—The United States government tug Potomac, which came to Martinique from San Juan, Puerto Rico, cruised along the coast of this island yesterday afternoon. She encountered an inky black column of smoke which made it necessary for her to go five miles out of her course.

The looting of the dead has begun already. While coming to Fort de France the Potomac picked up a boat containing five colored and one white man, whose pockets were filled with coin and jewelry, the latter evidently stripped from the fingers of the dead. Lieut. B. B. McCormick, the commander of the Potomac, arrested these men and turned them over to the commander of the French cruiser Suchet for punishment.

The Potomac also brought a ton of supplies to Martinique, consisting in part of codfish and flour. A famine here is imminent. The northern section of the island is depopulated. Business here is suspended. The people of the city have assembled in the churches, and the cathedral, where special services are being held for the St. Pierre dead, has been thronged since daylight.

The United States government tug Potomac leaves here to-night for the Island of St. Vincent, where conditions are reported to be worse. La Soufriere, on St. Vincent, was in full eruption May 10. A storm of stone and mud half a mile wide was then issuing from the volcano. Stones two inches in diameter fell 12 miles away. At Kingston, the capital of the island, the ashes were two inches deep. Seven hundred dead are reported Sunday, May 11. It is estimated that the total number of deaths on St. Vincent reaches 2000. Most of the victims are said to be Carib Indians. Seven estates on the island have been burned to ashes, and it is authoritatively reported that two earthquakes occurred there. It is believed the submarine cables in St. Vincent have been broken by the disturbances. The present volcanic eruption on St. Vincent is the first since 1812.

Provisions are needed here for 100,000 people immediately. A ship load of lime is also needed at St. Pierre for sanitary purposes. The stench there from the dead bodies is overpowering. Mont Pelee was still erupting smoke and fire at a late hour last night. It was reported here yesterday from the British Island of Dominica that 800 survivors of the St. Pierre disaster had reached there in canoes.

Many strange and incomprehensible incidents are recounted of St. Pierre. The charred remains of a woman with a silk handkerchief, unburned and in perfect condition, held to her lips, have been found there. The crisped bodies of young girls have been found, but the shoes they wore unhurt.

In addition to the specie already secured, jewels to the value of 1,000,000 francs were rescued from the banks of St. Pierre yesterday. The Italian consul at Barbados had recovered the body of his daughter, who was visiting in St. Pierre at the time of the disaster.

Relief and Disaster Notes.

The only woman who escaped from St. Pierre was a negress, who hid in a cellar.

The President of the United States has appealed to the public for aid to relieve the rescued from Martinique. Congress has voted $500,000. Individual Americans in Paris have given $20,000.

The United States War Department will send to the Antilles 40,000 rations for 14 days, including clothes for 40,000. The Buffalo and the Dixie will be used as supply ships.

In the Imperial House Mr. Balfour said the Cabinet was considering sending relief to Martinique. Every aid would be given locally.

The Dutch warship Koningin Regentes has been sent to the Island of Martinique to render aid.

The King of Italy has given his cheque for $5,000.

Two thousand five hundred persons have been rescued from the Island of Martinique. Only one prisoner escaped from the St. Pierre jail.

TRUSTWORTHY DRY GOODS UNIFORMLY RIGHT PRICES.

FLORAL BATISTES.

Dainty fabrics these, with clear webby, conventional patterns, fabrics that appeal to stylish dressers and please the aesthetic taste in colourings and design—pink, blue and Tuscan on white grounds, with black lace patterns intermixed, per yard 35c.

SILK EFFECT WASHING GOODS.

This rich, silky looking material is a bit deceiving—silk in appearance but cotton in reality—a fast colour, in striped washing materials in red and white, navy, white and pink and white, light blue, and white, per yard 35c.

FINE MUSLIN INSERTIONS.

These Insertions are gems of the embroidery manufacturer's art. Dainty—the only word that expresses chaste character and fineness of these sweet effects. Some are all needlework and others have hemstitching as well. All are about 1 inch to 1¼ inches wide, and make ideal trimming for white muslin, blouses, dresses, etc., yard 12 1-2c.

NEAT, GOOD EMBROIDERIES.

About an inch in width, with good edge, decent needlework and thoroughly good to wash and strong to wear, per yard 4c.

SUMMER CORSETS.

The new short girdle Corset in Jean and in Net, effectively trimmed with lace, a new model, a comfortable Corset for summer wear, per pair ..... 50c.

Then we have the medium length Corset, in strong wearing net, a standard Corset and good value, at per pair ..... 50c.

And now we wish to draw attention to the La Reine of fine white linen Batiste, well filled, firm as jean yet quite cool, a new model, straight-front, girdle corset, per pair ..... $1.00.

CRUMBS' PRINTS

Always have been termed good prints. Their reputation has been again sustained this season. The patterns and qualities are as before—pre-eminent, and the price remains the same—12 1-2c.

A CITY OF MOURNING

Business Suspended During Rev. Dr. Grant's Funeral.

BURIED IN CATARAQUI CEMETERY

Queen's Men Attend—Gathering of Distinguished Men of Canada—Rev. Dr. Warden, Moderator of Presbyterian General Assembly, Conducted the Services—Men Place in Canadian History.

Kingston, May 14.—Students yesterday morning with uncovered heads carried the remains of the late Principal Grant to Convocation Hall, where the public viewed them. Long lines of people sorrowfully passed in and out, sympathetically looking at the face of the man who did so much to make the names of Queen's and Kingston shine in history's page. Students and graduates acted as guards of honor.

Kingston paid singular tribute to the memory of Dr. Grant yesterday, for at 2 o'clock all over the city work ceased, and the citizens attended the funeral. The streets about the university were thronged. At 3 o'clock the service took place in Convocation Hall, Queen's University. The building could hold only the official bodies of the university, and the city and visiting friends.

Rev. Dr. Warden of Toronto, moderator of the Presbyterian General Assembly, conducted the service, assisted by Rev. Prof. Ross of Queen's. There were a few brief hymns, prayer and Scripture reading, and an address by the moderator, who sketched briefly the life and work of the departed, whose work and influence gave him a place among the best in Canadian history.

Students carried the body to the hearse, followed by the honorary bearers: Sir Sandford Fleming, Ottawa; Justice McLennan and Col. Davidson, Toronto; Hon. W. Harty and G. W. MacDonnell, Kingston; Prof. Watson, Kingston; Rev. Dr. Milligan, Toronto, and Rev. Dr. Wardrope, Guelph.

The procession moved off with clergy and students preceding, with Colonel Drury, C.B., A.D.C., representing the Governor-General, following the mourners. Then came representatives of sister colleges, trustees, governors of affiliated colleges of the Senate and Council, visitors and graduates, the City Council, the Board of Education, the St. Andrew's Society, the Boys' Brigade and the general public.

The cortege went down the main driveway to Stuart street, and thence by University and Princess streets to Cataraqui Cemetery. On the casket were wreaths from Lord Minto, and Queen's Society, New York. The streets through which the procession wended its way were lined by thousands.

BOERS GATHERED IN.

Lord Kitchener Reports That 800 More Are Accounted For.

London, May 14.—The weekly report of Lord Kitchener received yesterday shows that nineteen Boers were killed, that six were wounded, that 802 were made prisoners, that nine surrendered, and that 600 rifles, 157 wagons, 460 horses, and 4,300 head of cattle fell into the hands of the British.

General Ian Hamilton's columns have arrived at the Western Railroad, after sweeping the Lichtenberg, the rest of the southwestern Transvaal. These troops brought in 357 prisoners, and practically all the wagons and stock of the Boer commands in that district. This makes a reduction in Gen. Delarey's forces of 860 men since he defeated Major Parus at Rovirains Fontein, March 8, and captured Gen. Methuen.

Canadians Sick.

Ottawa, May 14.—His Excellency has received the following cablegram from the Casualty Department:

Cape Town, May 12.—Dangerously ill of enteric fever, 11th May:

At Pietermaritzburg, 2nd C.M.R., E. C. Redswell; at Johannesburg, 2nd C.M.R., Charles McVicar, Lance-Corp. Peter E. Simpson.

At Potchefstroom, A Division, South African Constabulary, Herbert R. Holt. Please inform mother, Mrs. Fanny Holt, 182 Cottingham street, Toronto, Canada. Redswell belongs to Medicine Hat, N.W.T.; McVicar to London, Ont.; Simpson, who was formerly with Strathcona's Horse, belongs to Halifax.

Will Sail Saturday.

Halifax, May 14.—Col. Irving stated last night that the steamer Winifridian, with the 5th Regiment, C.M.R., would sail for South Africa on Saturday morning.

Bought Another Railway.

Halifax, May 14.—Messrs. Mackenzie & Mann, the Canadian railway contractors, held a conference yesterday with the Nova Scotia Government on railway matters. The contractors announced that they would proceed at once with the construction of the South Shore Railway.

It is announced that Messrs. Mackenzie & Mann have bought the Nova Scotia Central Railway from the Halifax Banking Company. By acquiring this road the contractors obtain the 150,000 acres of land granted the company by the Nova Scotia Government.

Miller's Compound Iron Pills; only 25 cents for 50 doses. Sold by all druggists.

MEETING AT SELWYN.

Hon. S. C. Biggs Addressed the Electors of Smith Last Night.

A very successful political meeting in the interests of Hon. J. R. Stratton was held last night in the Town Hall, Selwyn. The attendance was exceptionally large and the speakers were Hon. S. C. Biggs, J. Harris McClellan and F. D. Kerr. The chair was occupied by Mr. Sanderson. The speech of Hon. S. C. Biggs on the general policy of the Ross Government, was the feature of the evening and was attentively listened to.

Mr. McClellan spoke on the pulpwood policy of the Government and Mr. Kerr reviewed the comparative strength of the two candidates.

THE MARCH-OUT.

The Regiment had a Good Turn-out—Orders That Were Read.

The first march out of the season of the 57th Regt. took place last night, and proved to be quite an attraction. Both bands were in attendance, and there was a good turn out of all ranks.

Upon returning to the drill shed the regiment was put through regimental and company drill.

The following orders were read;

Headquarters, Peterborough.
May 13th, 1902.

Orders by Lieut.-Colonel E. B. Edwards, Commandant 57th Regiment, P.R.

No. 1. Detail of duty for the week ending May 20th, 1902—Captain for the week, Capt. Bennett; next for duty, Capt. Mills. Subaltern for the week, 2nd Lieut. McLean; next for duty, Lieut. Matthews.

No. 2. Leave of absence from parade has been granted to Majors Miller and Stevenson, Captain Hayes and Lieut. Bradburn.

No. 3. The Commanding Officer has been pleased to make the following promotions:—B. Co., to be corporals, provisionally, Ptes. H. Belleghem and W. Bryant; D Co., to be sergeant, Corp. Jackson, vice Sergt. Burnham, retired; to be corporal, Pte. Collins, vice Corp. Jackson, promoted.

By order,
D. WALKER, Captain,
Adjutant.

There were seven or eight applicants for the position of regimental representative on the Coronation contingent. Amongst the applicants were Sergt.-Major Brittain, Band Sgt. Wand, Sergt. Moore, Sergt. Roberts and Sergt. Kingscote.

The applicants were put through their facings and will undergo a medical examination by Surgeon Major Halliday.

Two names will be selected and sent to headquarters, where the final decision will be made. The two Peterborough names go in by Friday of this week.

LOST.

WEDNESDAY, MAY 14, 1902.

BUILD UP ONTARIO.

Hon. G. W. Ross with his abounding faith in this Province, in its great resources and in its great future never tires of the theme involved in his battle cry "build up Ontario." Referring to what he proposed to do when he took office, and after showing that hi spromises had been kept to the letter, Mr. Ross speaking at Stratford on Monday night, said:

"Involved in what I promised then, is what I am going to discuss now. We said we would build up Ontario. Is not that a good proposition? Build up Ontario. Build up what? Build up our own country, build up our own homes, build up the wealth of our own people, add to the area of our agricultural land, add to the business of our factories, make markets for our own material. I submit to you is it not a patriotic thing for a Government to try to develop the natural resources of a country? Can a Government apply itself to anything more useful? Is there much politics in that? Whether there be or not, there is certainly a great deal of business in it. (Applause.) How do we propose to build up Ontario? In two ways: First, by opening it up with railways. Ontario is twice as large as Great Britain and Ireland, and what an impression the people of that kingdom have made on the world. We are largely of the same stock. Our Canadian population represents the four dominant races of the globe, and in our climate, and with our educational system, and with our moral training, all essential elements in national power, there is no reason why the Province of Ontario cannot assert herself as the foremost Province of the Dominion, and what the New England States were to the United States, and what one of the British Isles was to the whole empire, there is no reason why the Province of Ontario should not be to the whole Dominion, if not to the whole continent of America. (Cheers.) We have only tickled with a hoe one-tenth of this whole Province. The Crown holds over 100,000,000 acres. Seeing that, what could a Government do but address itself to the task of occupying this vast area? What did the people of the United States do forty years ago, when that tide of immigration crossed the Mississippi? They encouraged the settlement of their wild lands by the building of railways there, and that is what we propose doing here. The policy of the Opposition for the last few years has been one markedly opposed to development by railway subsidies. Mr. Meredith favoured subsidies; so did John Sandfield Macdonald. Mr. Whitney's policy is entirely different from his party in the Province of Ontario. He may be right, but if he is all parties are opposed to him, both his own and the Liberals. (Applause.) We proposed to built the Algoma Central Railway, and said we would give a grant of land toward it. Mr. Clergue wanted the railway to open up the country and get material for his mills. In return for the land grant the land was to be settled, smelting works established and other industries undertaken. Mr. Whitney opposed it, and denounced it as "the most phenomenal steal, the greatest attempt at public robbery." What did he say three or four days ago? He said they voted against the grant, because "so far as we could see, and we could not see farther than our noses," it did not seem to be a good bargain. "Here is a man who aspires to be Premier of Ontario," declared Mr. Ross, amid loud cheers, "who admits he could not see any farther than his nose." Mr. Whitney further said at the "Soo" the other night that he was amazed at the marvellous development there. (Laughter and cheers.) Here was the man who could not see farther than his nose, and all I can say is he must get a longer nose, so that he can see farther. (Laughter.)

Mr. Ross went on to point out the benefits to the farmers and manufacturers of Old Ontario from the industrial development of the north, and then explained the sawlog policy, the pulp agreements, the beet-sugar plans, the good roads movement, the taxation of corporations, the scrap-iron assessment, and the attitude of the Government towards labour as shown in the various beneficent acts passed. Some of the projects opposed by the Opposition were pointed out, such as the London Normal School, the Brockville Asylum, the Municipal Auditor, the Good Roads Commissioner, the School of Pedagogy, and the Clerk of Forestry. "Under this obstructiveness surely this country must go on," he continued. "Are we to mark time or stand at ease, while Quebec is busy with her industries, while the United States is overflowing all ordinary boundaries because of its prosperity? Are we to support a progressive Government, or send to Toronto men who have no ideas, no sympathy with the pulsations of industry, which are stronger in Canada than ever before? We feel to-day the strength of our young manhood upon us. There was a time when we thought that we were doomed to absorption by the United States. We could never compete with the great Republic; we were trembling in our shoes lest some morning we should wake up and see the Stars and Stripes floating over our court houses and public halls. Somehow or another we have a new impulse. Every Canadian feels that this country is as good as any country under the sun.

"They are shadows of the night,
The world rolls into light—
'Tis daybreak everywhere."

(Loud and continued applause.)

Ringing cheers are the proper greeting to a declaration of policy that has the true ring, a policy for a live people, for a live Province. Ross and his Government and policy mean progress and advance. Whitney and his followers and his no-policy mean stagnation. Ontario aspires to be a live nation not to drop behind in the race; Ontario leads now, she must continue to lead and to this end she needs a leader who leads—who goes ahead.

THE PLOT OF 1884.

Mr. Rowell has been making another great speech, bringing to light just what the Conservative party means by saying that the pulpwood policy of Ontario should be made like that of the Province of Quebec. Said he:—

"What does the Opposition policy involve? It means that the purchaser gets both land and timber, and if he gets an absolute grant of the land with the timber, he can deal with the timber as he pleases, so far as the Government of the Province is concerned. If there is pine or hard wood on the land, he may sell it off to purchasers of pine or hardwood; if there is pulpwood on the land he may sell it to purchasers of pulpwood, or may take all the timber to the United States to build up American industries; if the land is good for settlement or agriculture, he may keep it for a rise in value, or sell it to settlers for that purpose; or, if he thinks the value of timber will increase he may hold it for years to come, shutting out all settlement and trying up the new districts of Ontario.

"It opens the way to capitalists with large means at their disposal to buy immense areas of territory for very little, and keep them for an increase in value. No capital is invested, except the original purchase price; no industries are established; no employment given to working men. The new growth of spruce which would be ready for cutting thirty years hence, passes to the purchaser, and so on in perpetuity, the people of the province receiving not one cent of benefit. The land is the purchaser's. He has bought it at public competition and paid down his price in cash. He can do what he likes with it.

"By this means the Government dispossesses itself of all power of control over its forest trees, ever protecting the sources of its streams, and of continuing the benefits to its people resultant from the existence of tracts of forest land ever increasing in value."

Mr. Rowell, beside explaining what the Conservatives desire, called attention to the intimate connection between their present attitude and a great scandal of the past. Mr. Whitney is the solicitor of a Michigan lumber company, and so he knows that the lands of the state and the timber thereon are sold to the highest bidders, and Mr. Whitney knows, or ought to know, that Michigan has been denuded of its timber, and that its capitalists are seeking other lands which they can work in a similar way.

The bribery plot of 1884 was the scheme of the Michigan lumbermen to upset the Ontario Government, because they objected to the timber policy. The Ontario Opposition was in sympathy with the Conservative Government at Ottawa, which had law suits growing out of the boundary award, the Rivers and Streams Bill, and the right to control the liquor license system, and it would have profitted by the conspiracy of 1884, had it succeeded. Said Mr. Rowell;

"The Opposition has now a leader, however, who glories in the boast that he is 'bold enough to be honest,' and 'honest enough to be bold,' and so he is prepared to 'take the responsibility of making a proposition for such a change,' not as to the pine timber, as was the case some twenty years ago, but this time with reference to the pulp woods lands of the province, so much coveted by the American lumbermen.

"If Mr. Whitney is returned to power in the coming election this is the policy, which, according to the declared policy in the House, he will put into operation.

"The American lumbermen and pulp manufacturers interested in the pulp lands of the United States realize that their supplies are rapidly being diminished, and they are turning longing eyes to Canada as a source of supply. Already, under the conditions existing in the Province of Quebec they have been able to obtain large limits, although, even there, they do not obtain a title to the land.

"I do not for a moment suggest that Mr. Whitney and his associates, in introducing this resolution in the House, did it with the intent of sacrificing the interests of the province of Ontario for the benefit of American lumbermen; but that would be the result of such a policy nevertheless. It simply shows the perilous position in which this province would place itself if it entrusted its vast domain to the management and control of men who promised us nothing, good, though it be, so far as it goes, than the 'good intentions of honest men.' (Applause.)

"Any person will at once concede that if the pulp wood lands of the province were put up for public competition, a larger immediate cash return would be received than is received by the present method of dealing with them. Any man would pay more for both land and timber, free and untrammelled from any control or conditions, than he would if he only had the right to cut under the conditions now imposed by the Government; but such a policy would be the policy of Esau—selling our birthright for a mess of pottage." (Applause.)

It is well that the electors should understand this question fully, and make no mistake about it.

According to the pulp wood policy of the Ross Government not an acre of land is granted, not a stick of pulp wood, unless paid for at a fixed price, which goes into the public chest. It compels the expenditure of large sums in building pulp works and paper mills; it compels the employment of working men in large numbers. It encourages settlement, because from the first blow of the axe, the settler makes money by selling his timber to the pulp mills. The settler gets every stick of timber, if he takes up land in the area set apart for the pulp companies to cut in. He can cut every stick he likes in clearing the land, while the companies can cut no stick under six inches, the timber being left to grow, and in a few years be ready for cutting. Which is the business like way?

A FEW THINGS.

Ontario has a Government with an enviable record. Among many of the things done in the interests of development, these under the Crown Lands Department might be mentioned:

It has collected a revenue of $31,791,278 since 1872 — an average of over a million a year.

It has granted, sold or leased 4,851,396 acres of agricultural and mining lands since 1782.

It has surveyed 340 townships, of which 171 are free grants and 47 sale townships.

It has sold, since 1872, 5,152 1-2 square miles of timber limits for $36,823,127, or an average bonus per square mile of $1,324. Dues are $1 and $1.25 per M feet; ground rent $3 per sq. m.

It has created three parks—Niagara Falls, Algonquin and Rondeau—and three forest reserves—Temagami, the Eastern and Sibley.

It has built 5,292 miles and repaired 14,546 miles of colonization roads, and built twenty miles of bridges in New Ontario since 1872, at a cost of $3,338,743.

It has established a Bureau of Mines, placed an advanced mining law on the statute book, purchased two diamond drills, created summer mining schools, assisted in developing the nickel, copper, corundum and other industries, and protected the prospector and miner.

It has encouraged iron mining and and steel and iron manufacture by means of bounties.

The production of pig iron and steel reached a value of over two millions in 1901.

It has prohibited the export in a non-manufactured condition of pine saw logs, pulp wood and hemlock bark cut on Crown Lands.

It has increased the dues on pulpwood from 20 to 40 cents per cord.

It has perfected a fire ranging system that is admittedly the best known.

I has explored extensive agricultural and timber areas in Northern Ontario.

It has assisted in the opening up of New Ontario by means of land grants and grants to colonization railways.

It has maintained a progressive policy in connection with the pulp wood industry.

The pulp wood agreements entered into call for the investment of a minimum sum of over $5,000,000, the employment of at least 2,440 men, and the erection of seven large pulp mills.

It has created a Bureau of Colonization, which is assisting in settling New Ontario.

It has protected the rights of the public in the valuable Crown water powers.

There is no place for the working man in Mr. Whitney's economy. His friends have issued a book of campaign literature which is being distributed in this riding. It tells what Mr. Whitney has done, but it does not tell that he has done anything for the workingman. Why is this? Why is the Conservative literature so silent? It is because Mr. Whitney has no policy for the working men.

Not Entirely.

A little investigation shows that the strong taste of pure cod liver oil cannot be entirely removed without entirely removing the oil. You can taste the oil in Scott's Emulsion, but it is not unpleasant.

Mavrogeny Pacha

Physician to the Sultan of Turkey.

Mavrogeny Pacha writes:

"Sworn enemy of the many proprietory medicines which have of late years invaded the world, and whose only object is gain for the proprietors, I make an exception in favour of one preparation as meritorious as it has been far-reaching in its good. I refer to Vin Mariani, which owing to its valuable fortifying qualities has conferred benefits upon weak and suffering humanity.

"I therefore add my approval and praise to this highly meritorious preparation."

I Will Cure You of

Rheumatism

No pay until you know it.

After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage, and forever.

I ask for no money. Simply write me a postal and I will send you an order on your nearest druggist for six bottles of Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month, and if it does what I claim, pay your druggist $5.50 for it. If it doesn't, I will pay him myself.

I have no samples. Any medicine that can effect Rheumatism with but a few doses must be drugged to the verge of danger. I use no such drugs. It is folly to take them. You must get the disease out of the blood.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk. I have cured tens of thousands of cases in this way, and my records show that 39 out of every 40 who get those six bottles pay, and pay gladly. I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. Let me send you an order for the medicine. Take it for a month, for it won't harm you anyway. If it cures, pay $5.50. I leave that entirely to you. I will mail you a book that tells how I do it.

Simply state name of your dealer, and address Dr. Shoop, Box 47, Racine, Wis.

ARCHIE M'EACHERN KILLED.

Collided With Damaged Tandem and Jugular Vein Torn Open.

Atlantic City, N.J., May 13.—Archie McEachern, the well-known champion bicycle rider, of Toronto, Ont., while being paced by a motor tandem this afternoon at the Coliseum track, met with an accident which resulted in his death 20 minutes later. The accident was the result of the breaking of the chain on the motor cycle. Riding the tandem were Alf Beake and Robert B. Thompson, who have raced with McEachern for 10 years past.

The effort this afternoon was to establish a new mile record. Several miles had been covered when the chain broke, and in the sudden slowing up of the damaged tandem McEachern collided with it and shot in teh air like a rocker. His head struck against a projecting board, which cut a gash in his neck, from which blood spurted in a stream. The jugular vein had been torn open. He expired shortly after his removal to the hospital.

Beake and Thompson were uninjured.

Pierced by a Bar, But May Recover.

Bedford, Ont., May 14.—Yesterday, while tearing down an old barn owned by John Dear, Herbert Carroll of Parham was holding the foot of posts with a crowbar, the frame became uncontrollable, fell upon Carroll, driving the bar right through him, entering his breast just under the shoulder bone, coming out under his shoulder blade. He is doing fairly well, and some hopes are held out for his recovery.

Telegraphers' Conference Now On.

Toronto, May 13.—Manager McGuigan of the G.T.R., and representatives of the telegraphers employed on that system held a conference yesterday at the Union Station regarding the question of wages. The conference will be continued to-day. The men are asking for $45 a month.

YOUR DOCTOR WILL TELL

That the Acidity Found in the Ozone Treatment is Due to the Presence of Oxygen.

It gives much pleasure to inform you that I have been completely cured of a very severe dyspepsia trouble from which I have suffered for over four years. I tried many remedies but none gave me any relief. I had used your preparation for piles, and I was cured after taking three bottles and this gave me courage. I continued using Powley's Liquified Ozone until I had taken nine bottles and I am happy now to inform you

MRS. OCTAVE LAROSE, MONTREAL.

that I am completely cured of dyspepsia. I was a little bit afraid of the acidity, but I found by practical experience that it did not harm me in the least. It did me good.

(Signed) Mrs. Octave Larose.
19 St. Andre Lane, Montreal, P.Q.

Most people fancy that Powley's Liquified Ozone is a strong acid when they take it, and are sometimes afraid that it will affect their stomach. There are different kinds of acidity. We'll tell you of two; that caused by fermentation and that produced by a natural element, that possesses a natural acid reaction. To this latter class does Ozone belong. The acid taste you discover in Ozone is due to the presence of oxygen which your druggist or doctor will tell you possesses a marked acid reaction. You needn't be at all alarmed about this kind of acidity affecting your stomach. It is natural and just what your system needs.

In the different uses of Ozone some people see a "cure-all." Powley's Liquified Ozone simply cures those diseases that find their cause in poor depleted condition of the blood. If you will take it regularly the increased vitality together with its antiseptic action will cure you of any disease caused in the manner indicated. you can obtain a bottle at your druggist's, two sizes, 50c. and $1.

FINANCES OF CANADA

Mr. R. L. Borden Criticizes Expenditure of Government.

THE EXPENDITURES JUSTIFIED

Country Is Growing and More Money Is Required to Run Affairs, But Proportion Is Less Than Formerly—Debate on Payment to Mackenzie & Mann on Yukon Railway Contract.

Ottawa, May 14.—Parliament will probably wind up business on Wednesday evening and prorogue on Thursday.

After the House rises Hon. A. G. Blair, accompanied by the Deputy Minister of Railways, will make an inspection of the Sault Ste. Marie and Welland Canals.

A decision has been given by the Department of Justice sustaining the legality of the enlistment of lads under eighteen years of age as drummers, trumpeters and buglers.

The Senate amendments to Dr. Roddick's Dominion Medical Council bill were concurred in.

DOMINION EXPENDITURES.

Mr. R. L. Borden's Amendment Moved on Motion to Go Into Supply.

In the House of Commons yesterday morning Mr. R. L. Borden, on motion to go into supply, took up the question of the expenditures of the present year and those of the coming year. In the old days $30,000,000 was said by the Liberals to be gross extravagance. Now a gross expenditure of $65,250,000 was merely "generous appropriations." Sir Richard Cartwright had once said that a Tory Minister, with a couple of relatives in a department, was as good as a Pasha with seven tails. He knew not how many tails he should attribute to a Minister of the present day. It was delightful to see the equanimity and philosophy with which Sir Richard now viewed the expenditures. Mr. Borden quoted the criticisms of the Liberals when in Opposition of the increase in the public debt, which they then "viewed with alarm." If they still felt that alarm, they had a remarkable faculty of concealing that alarm in relation to controllable expenditure, increase in debt and increase in taxation. Sir Richard Cartwright used to say that the farmers were being bled white by the taxation of the Conservative Government. If they were bled white then, he would like to know what color they were to-day with an added taxation of $10,000,000.

Sir Richard Cartwright—The farmers of Canada were never as prosperous as they are to-day.

Mr. Borden—No doubt that prosperity is largely due to the increased taxation?

Mr. Fielding—Part of it, a large part of it.

Mr. Borden, in blaming the Government for the expenditure, to illustrate the recklessness which he charged, said that a canal was built from the sea to a lake in Shelburne County to form a fishing harbor, but when the canal was complete it was found that the canal bed was lower than the bottom of the lake and the water all ran out of the lake. In conclusion, he made the following mo conclusion. he made the following motion in amendment to go into Committee of Supply:

Mr. Borden's Amendment.
